## ROCHESTER BOY AND GIRL DIE IN TRAFFIC MISHAP SATURDAY

That contagious grin on the face of 5-year-old Ronnie Vaughn, pictured here, is one that nine months and four days in the hospital ward of an Abilene hospital could not erase. He's back at home now with his parents, Mr. and Mrs. Clifton Vaughn of Weibert and is making excellent progress toward full recovery. Before too long he will be able to discard his braces and crutches entirely.

Royce D. Newberry, 20 and Miss Gwendolin Webb, 15, both of Rochester, were killed early Saturday morning in the streets of Rochester when they were hurled from the rear of a bottler truck returning a group of young people from church socials at Knox City and Benjamin. The accident occurred at 12:30 a.m. Saturday. The two were thrown from the rear of the flat-bed truck as it turned a corner in Rochester near the home of Audrey A. Goble, 24, driver of the vehicle. Goble lived in the block where the accident occurred and the two were killed within 150 feet of his home. Both of the young people apparently landed on their heads, according to Texas Highway Patrolman Ray Craft, who with Highway Patrolman Jerry Bright and Haskell County Sheriff Bob Cousins, investigated the accident. Both of the accident victims died of head injuries. Miss Webb was killed instantly and Newberry succumbed a few minutes after the fall. Riding with the couple on the back of the truck were Miss Nelida Reed of Knox City, Heulan Evans of Rochester and Sheldon Lusk of Rule. In the truck cab with Goble were his sister, Miss Mozelle Goble, Miss Chara Bartlett and Miss Mary Lou Webb, sister of the dead girl, all of Rochester. Services for Miss Webb were held at 4 p.m. Saturday at the Rochester Baptist Church with Rev. Cecil Meadows, pastor, officiating. Burial was in Rochester Cemetery, under direction of Mancell-Smith funeral home. Miss Webb was a student in the Rochester High School. Newberry graduated in 1948. Survivors of Miss Webb include her parents, Mr. and Mrs. Homer Webb of Rochester, two sisters, Mrs. Ruth Jenkins and Miss Mary Lou Webb, and three brothers John Homer Webb, Dennis Webb and a baby brother, all of Rochester. Burial rites for Newberry were conducted Sunday at 2:30 p.m. at the Rochester Methodist Church. The pastor, the Rev. R. O. Browder officiated. Burial was in the Rochester Cemetery under direction of Mansell-Smith Funeral Home. Survivors of Newberry include his mother, Mrs. Eunice Newberry of Rochester; a sister, Mrs. W. N. Wilson of Arcadia, Calif.; two brothers, Kenneth Newberry of Rochester and Clyde Newberry of Hamlin; and a grandfather, P. D. Cummings of Knox City.

## Summer Revival Meeting Will Begin August 17th At First Baptist Church

Rev. Allen O. Webb, pastor of the First Baptist Church, announced Thursday that all plans had been completed for a 12-day Summer Revival to be held at the church beginning Wednesday night, August 17th and continuing through Sunday August 28th. Church leaders plan to interest the entire community in the evangelistic campaign and are inviting and will sincerely welcome everyone in this area to all services. The series of evangelistic messages will be brought by the Rev. George Wilson, pastor of the First Baptist Church, Sweetwater, an outstanding West Texas evangelistic and religious leader. Song director will be William S. Haynie, head of the Music Department in the State Depart-

## Haskell Youth Killed, Companion Badly Hurt In Car Smash-Up Near Van Horn Today

## TIMELY RAINS BRING ROSY OUTLOOK FOR AREA COTTON CROP

Rainfall which was general over practically all Haskell county during the first of the week have virtually assured a bumper yield from the largest acreage planted to cotton in the county in more than a decade. Fall of moisture in Haskell was gauged at 2.94 inches up to Wednesday morning, with the heaviest precipitation—1.48 inches—recorded Tuesday on the Government gauge kept at the John B. Martin home in North Haskell. First moisture was received Sunday when .21 of an inch fell and following Tuesday's hard down-pour, .15 of an inch was recorded early Wednesday. Similar precipitation was reported in practically all sections of the county, and farmers generally were of the opinion that the moisture and accompanying cooler temperatures would provide ample season for getting cotton well along toward maturity. About the only obstacle in the way of a record crop yield now will be in the form of worms, most farmers declared. Although slight infestations have been reported in some fields, cotton growers are prepared to take prompt steps in combating any serious threat, County Agent F. W. Martin said today. Cotton acreage in the county is conservatively estimated at 160,000 acres, an increase of approximately 40,000 acres over last year. Some observers figure that this year's crop will be by far the largest ever gathered in the county, on the basis of today's prospects.

A highway crash on the outskirts of Van Horn around 7:30 o'clock this morning resulted in the death of Howard Alvis, 17-year-old Haskell High School Junior and critically injured Tracy Grimes, also 17 and a fellow classmate, who is reported in a serious condition in an El Paso hospital where he and Alvis were carried immediately following the accident. Two other Haskell youths, Bobby Don Smith and Bobby Henshaw, both about 16 years old were riding in the car involved in the mishap, but escaped with minor injuries and bruises, relatives here were told on being advised of the tragedy. The four youths, all students of Haskell High School, were returning to Haskell from Seattle, Wash., where they had been working for several months, relatives and friends here learned. On the outskirts of Van Horn, the car in which they were riding went out of control and crashed into a bridge abutment, according to first reports received here. Young Alvis, son of Mr. and Mrs. Rice Alvis of Haskell, was killed instantly, and Tracy Grimes, son of Mr. and Mrs. Weldon Howard of Haskell, suffered a fractured skull and other critical injuries. Smith and Henshaw, riding in the rear seat of the car, were slightly injured. Young Smith is the son of Mr. and Mrs. Chas. E. Smith of Haskell, and Henshaw is the son of Mr. and Mrs. George (Chic) Henshaw, who recently moved from Haskell. Immediately after being notified of the accident, Mr. Smith and Mr. and Mrs. Howard left for Van Horn and El Paso to be with the injured victims. They were returning home in order to enroll in the summer football training camp with the HHS Indian squad, in preparation for entering school this fall. All of the youths were former members and outstanding players on the HHS football team during their high school careers. Body of young Alvis was to be returned to Haskell from El Paso in a Holden funeral coach which was dispatched to that city Thursday morning. Covell Adkins, driver, was accompanied by Rice Alvis, Jr., brother of the accident victim, and Jim Alvis, an uncle. Funeral arrangements for the young student were incomplete Thursday afternoon.

## County's First Bale Cotton Ginned at O'Brien Aug. 4

The first bale of cotton produced this season in Haskell County was processed Thursday Aug. 4, at the O'Brien Co-operative Gin at O'Brien. The bale was produced by Grady Ellis farming two miles west of O'Brien from 2,280 pounds of bolls harvested from approximately 12 acres. Ellis' bale weighed 555 pounds with a staple length of 31-32 of an inch. It was of the Northern Star variety and was planted last April 10. Ellis was paid 32 cents per pound for the bale and will be given a \$200 bonus by the processing gin. It was announced, Farm observers said other cotton in the area will be ready for harvest in one or two weeks.

## Haskell Stores to Event Aug. 16 Hold Value Day

With practically all Haskell merchants co-operating in the event, the regular monthly Extra Value Day will be observed Tuesday, August 16. Since inauguration of the bargain event several months ago, the values offered by Haskell stores on these occasions have attracted people from a wide area in this section. Merchants co-operating in Tuesday's Extra Value Day are again offering outstanding bargains in all lines of merchandise, some of which are listed in advertisements of the stores in this issue of The Free Press.

## Priddy Will Direct Song at East Side Church Revival

Annual summer revival of the East Side Baptist Church will begin Sunday, August 14 and continue through Sunday, August 28, and plans are underway for one of the most helpful and successful meetings held at the church in years. Rev. W. T. Priddy, pastor, and evangelist, Rev. S. E. Stevenson, pastor of the First Baptist Church at Goree, will do the preaching, and song service will be directed by George Turner as pianist. Services will be held twice daily, at 10 a.m. and 8:30 p.m. Morning preaching services will be held in the commodious church building, and night services will be held on the church lawn where ample seating and lighting facilities will be placed. Night preaching service will be preceded with Prayer Service at 7:30 and a 30-minute song service beginning at 8 o'clock. A cordial invitation is extended to the people of the entire community to attend all services possible.

## Baseball Tournament Scheduled Here Next Week

A double elimination baseball tournament has been scheduled here next week, with teams from Haskell and three neighboring towns taking part. Thos. B. Roberson, league secretary, said today. The games will be played at Fair Park Field Tuesday, Thursday and Friday night, with opening game each night starting at 8:15. Doubleheaders will be played each night. Opening game Tuesday night will be between O'Brien and Haskell, with Rochester and Lueders scheduled in the nightcap. Winners vs. Winners and Losers vs. Losers will play Thursday night, with tournament winner to be decided Friday night.

## Weinert Baptist Revival Meeting Begins Tonight

The Weinert Baptist revival meeting will begin Thursday night, August 11, it was announced this week. The visiting preacher will be Rev. N. A. Sanders, pastor of the First Baptist Church of Throckmorton. Music will be under the direction of Leonard Force of O'Brien. Everyone is cordially invited to attend.

## C. L. (Pat) Lewis, Veteran Railway Express Agent Here, Retires

After forty-two years service with the railroads, Western Union Telegraph and Express Companies, C. L. (Pat) Lewis, who has been local agent for the Railway Express Co., has retired. After completing a course in business administration at Hill's Business College, Waco, Mr. Lewis is accepted a position as a member of the teaching staff at Hill's Business College, Little Rock, Arkansas, where he taught for two years. His first connection with the railroads was with the Texas and Pacific and with the Express was the United Express Co., Cisco. He was telegrapher for three years for the Wichita Valley Rail Road at Haskell. He went from here to Golden, Colorado, as station agent for the Colorado Southern Rail Road. Mr. Lewis is now connected with the Barnes Insurance agency, Haskell.

## All-Stars Lose to O'Brien 7-8; Beat Lueders 4-2

Baseball continues to hold the spotlight with sports fans of the community, with competition becoming increasingly keen between the Haskell All-Stars and teams from neighboring towns. Last Friday night the locals lost a closely-played contest to O'Brien, 8 to 7, at Fair Park before a large crowd of fans. Sunday afternoon the All Stars chalked up a win in defeating Lueders 4-2 in a game played there. Monday night the All-Stars are scheduled to play the top notch Rochester team in what is expected to be one of the best games of the season.

## Church of Christ Starts Funds For Invalid's Chair

L. A. Graham of this city, who is suffering with a bone disease which has necessitated amputation of both legs above the knee will soon have a manually operated wheel chair in which to get around home and his neighborhood unassisted. The Church of Christ has established a fund to buy the chair for Mr. Graham and have already raised a sizeable sum toward its purchase. The especially built chair will cost slightly more than \$200, and contributions from anyone wishing to help will be welcomed. The chair will be turned over to Mr. Graham for as long as he can use it, sponsors of the fund said. Then it will be made available to any other unfortunate person who might need it, they explained. Donations to the fund should be given to Horace Oneal, County Clerk, who will give proper credit to all donors.

## Remodelling of Texas Theatre Is Underway

Work is underway this week on extensive repairs and remodelling of the Texas Theatre, which when completed will make the popular local showhouse one of the most modern and attractive in this section. Ervin J. Sedlack, manager of the Texas and Rita Theatres, declared. All work is being done by local men and all materials used are being furnished by Haskell merchants, the manager said. "At times things will look a little unsightly while the remodelling is going on," Sedlack explained, "but the shows will continue as usual with the exception of a three-day interruption next week. It will be necessary to close The Texas August 16-17-18, and we ask our patrons to kindly bear with us during the remodelling," Sedlack said. "When all work is completed we can proudly say that this theatre will be a more modern, cleaner and more comfortable showhouse in which our patrons can enjoy themselves," the manager concluded.

## Last Rites Held For G. A. Diers Of Sagerton

Funeral services for G. A. Diers, age 47, Sagerton grocer for many years, was held Monday at 4 p.m. at the Lutheran Church in Sagerton. Rev. H. E. Driessner, pastor, conducted the service and burial was in the Old Brandenberg cemetery with Kinney Funeral Home in charge. Mr. Diers died Saturday at 10:30 p.m. at the Stamford Sanitarium. He had been in failing health for several months and recently sold his grocery business because of his health. He had entered the hospital 10 days before his death. Mr. Diers was born in Fayette county and came to this area with the family when he was five years old. He had lived in Stone-wall and Haskell counties since that time. He married Ethel Drusedow in Haskell in June, 1932. He was a member of the Lutheran Church. He is survived by his wife, a daughter, Gloria Jean Diers, of Sagerton; his parents, Mr. and Mrs. Fritz Diers of Old Glory; a sister, Mrs. Carl Drusedow of Rule; and three brothers, Erwin and W. H. Diers of Old Glory and Edgar Diers of Vernon.

## Seven Ex-Service Men Enlist In Local O. R. C.

Seven more former service men of Haskell county were sworn into the Enlisted Reserve Corps this week. In the group were Pfc. Buster Gholson, Sgt. Lee Roy O'Neal, Pfc. Olen D. King, M/Sgt. Wallis R. Stark, Sgt. Willard W. Warren, Cpl. Warren C. Hodgkin, and Cpl. Roy I. Overton.

## Major R. C. Couch Attends Summer O. R. C. Camp

Major R. C. Couch of Haskell, was ordered to active duty Aug. 5 for two weeks training with the 27nd Armored Infantry Division with headquarters at Houston. The division will encamp at Camp Hood, Texas, from Aug. 5th through Aug. 21st for their regular two weeks training period. Maj. Couch is in the service since 1941 as a 2nd Lt. (tenant, sergeant) throughout the war with the famous Texas and Oklahoma 90th Airborne where he received numerous decorations and promotion to the rank of Major. He, like numerous others, is keeping his commission active and is a member of Haskell's Organized Reserve Unit.

## Revival Meeting at Church of God Will Begin August 17

Rev. George W. Ivy, pastor of the Church of God in this city, announces that a revival will begin at the church Wednesday, August 17, and everyone in the community is invited to attend all services possible. Rev. W. E. Mitchell of Lamesa, will do the preaching. In connection with the revival, a Daily Vacation Bible School will be held beginning Monday, August 22, and continuing through August 27. Time of the school will be from 9 a.m. to 11 a.m.

## Fire Dept. Trucks Cannot Go To Pasture Fires

Members of the Haskell Fire Department have been advised that use of city fire equipment in fighting pasture grass fires is contrary to State Fire Insurance regulations, and is prohibited by a resolution adopted by the City Council in October, 1948. This announcement was made by Fire Chief Ray Lusk at the regular meeting of the department Monday night. Chief Lusk pointed out however, that all assistance possible would be given by firemen in fighting grass fires when called upon. He also explained that a proposition was being considered for securing special equipment for harding grass fires, both in rural districts and in town when needed. Cost of the equipment would be borne in part by ranchmen and landowners who have indicated their willingness to help in underwriting cost of the equipment.

## Mrs. Clyde Mayfield Reopens Weinert Beauty Shop

Reopening of the Weinert Beauty Shop has been announced this week by Mrs. Clyde Mayfield, owner and operator. She is a licensed beautician, and invites women of the Weinert section to visit the new shop. The establishment is located in the same building formerly occupied some time ago.

## Sagerton Rejects Proposed Merger Of School With Stamford District

Sagerton citizens firmly rejected proposed consolidation of Sagerton High School with that of nearby Stamford. In a special school election Saturday, 103 Sagerton voters vetoed the proposed consolidation while 44 voters favored combining the two schools. The 147 Sagerton voters participating in Saturday's election represented nearly 90 per cent of the community's voting strength. Approximately 170 qualified voters reside in the district. Stamford, which also registered its opinion regarding union of the two schools voted unanimously in favor of accepting Sagerton students at its high school. Only 15 cast ballots in Stamford's election. All were in favor of consolidation. The election was called after petitions for the balloting were signed by residents of the two cities. Sagerton High School, with an enrollment of about 30 students, lost its recognition last year as a fully accredited institution. Stamford's policy of refusing to accept students outside its own district prevented transfer of Sagerton students there. Rule High School has offered to enroll Sagerton pupils this year. Sagerton school authorities have not stated what action will be taken for the next term. Observers said Saturday's vote was not necessarily against all types of consolidation. It merely expressed the voters' desire to keep authority for their district vested in their own school board, residents of Sagerton said.

## Haskell County Veterans Attend Legion Convention

Six Haskell county farmers and agricultural workers attended the Farm Veterans meeting in Fort Worth last Saturday, held in connection with the state convention of The American Legion. Those attending included D. H. Persons, agricultural supervisor for the Vocational School; Gene Frierson, farmer and shop supervisor in the school; H. D. Gammill of Rochester, farmer and FHA committeeman; William E. Lawson, FHA supervisor; Paul Grinstead of O'Brien, and R. T. Landess of Paint Creek, farmer-veterans and FHA members. The group from Haskell, along with 3,000 other farmer veterans heard addresses by Gov. Allan Shivers, Texas Legion Commander Bill McGraw, Dillard B. Lassater, Administrator for the FHA in Washington, D. C., Hon. Tom Clark of Washington, and Alvis Vandergriff, under-secretary of the Veterans Land board.

## Indians Game With Rule Re-Set For Sunday

The game between the Haskell Black Indians and the Rule Bobcats scheduled for last Sunday was postponed because of rain. The game has been re-set for Sunday afternoon at 3:30 at Fair Park Field in this city. The contest is expected to be a pitching duel between the Indians' ace southpaw, Clarence Stenix, and Lefty Johnson for the Bobcats. The Indians record for the year lists 18 wins and three setbacks.

**ACCEPTS POSITION IN ABILENE**

Miss Ernestine Bird has accepted a position as office nurse and bookkeeper for Dr. Hinton H. Hamilton in Abilene and assumed her duties there Monday of this week.

Almost any grass that is palatable and nutritious to cattle will make good silage if it is properly handled. In most sections of the state at the present time, there is an abundance of good grass. It should be saved and a silo filled with good silage is mighty good insurance for next winter's feeding operations.

Post-war rural youth activity in the state will reach its high point this year when the largest single gathering of farm boys and girls in the nation's history will be honored by the State Fair of Texas on Rural Youth Day, Oct. 13. James W. Aston, chairman of the Fair's rural youth day committee, has announced.

"At least 75,000 4-H Club boys and girls, Future Farmers and Future Homemakers from farms and ranches in every corner of the state, will make the trip to the Fair," Aston said. "Last year's attendance of 60,000 was considered phenomenal, but all indications point to a 25 per cent increase for this year."

The youngsters are traditionally given free admission to the Fair, and a free lunch which is provided by Dallas business leaders.

"Purpose of Rural Youth Day is primarily to help youngsters become better citizens," Aston said. "The sights they see and the information they obtain on this day broaden their vision, and their knowledge of trends of agriculture, livestock, poultry, and modern life in general. They find out what is going on, gain valuable 'know-how,' learn how to profit from the experience of others and, as a result, they become better business men, homemakers, farmers, ranchers, and citizens."

Rural Youth Day was inaugurated at the Fair in 1946. Through the cooperation of the Texas A&M College Extension Service, state Vocational Agriculture and Home-making departments, the event has grown from an initial attendance of 30,000 to 75,000 which is the goal for 1949.

Attendance prizes of \$100 each will be awarded the county 4-H Club delegation and the Future Farmer and Future Homemaker chapters which have the highest number of members present multiplied by the number of miles traveled to the Fair.

A banquet honoring the 50 outstanding Future Farmers, Future Homemakers, and 4-H Club boys and girls in the state during 1948, will be held in the Texas Room of the Baker Hotel at 7 p.m., Oct. 14.

Other junior events planned for the 1949 State Fair are Junior Livestock Show, Oct. 17-22; Junior Market Turkey Show, Oct. 2-13; Junior Market Broiler Show, Oct. 14-20; Junior Grass Judging Contest, Oct. 19; and State Junior Livestock Judging Contest, Oct. 11.

In China and Japan, windows are usually covered with paper, cloth or shell.

**Panhandle Shuts Down Refinery At Lueders**

Officers of the Panhandle Producing and Refining Company of Wichita Falls have announced that the company plant at Lueders in Jones County will shut down shortly after Aug. 1.

The "narrow spread" between cost of crude and price of refined products was given as the reason for halting plant operations.

On August 1, the company stopped purchasing crude oil at Lueders and the refinery will continue to operate only as long as its crude supply lasts after that date. R. C. Stanford of Wichita Falls,

executive vice president of the company, said the plant had been a financial burden for six months. He attributed the trouble principally to the decline in the price of fuel oil, which he blamed, in turn, on uncontrolled imports of foreign oil into this country.

The Lueders plant was built in 1933 by J. C. Hinds and J. W. Hampton of Wichita Falls and J. C. Hester, formerly of Iowa Park, who became manager of the refinery. The Panhandle company purchased the plant in 1935 and remodeled it in 1939. Present capacity of the refinery is about 1,200 barrels per day.

About 25 men were employed at the plant.

Crude supplies which formerly went to Lueders will be bought in the future by Humble Oil Refining Company, Stanford said.

**LIFE IN THE U. S. A.**

A Missouri lass of 28 months has a vocabulary of 3,800 words and keeps track of current events. A child must know, these days, if a parent asks "Why?" — San Francisco Chronicle.

THE STATE OF TEXAS  
TO: CHARLEY L. GLOVER defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Haskell County at the Court House thereof, in Haskell, Texas, at or before 10 o'clock a.m. of the first Monday next after expiration of forty-two days from the date of the issuance of this citation, same being the 12th day of September, A.D., 1949, then and there to answer Plaintiff's Petition filed in said Court, on the 1st day of June, A.D., 1949, in this cause, numbered D-

1207 on the docket of said court and styled Minnie Glover Plaintiff vs. Charley L. Glover, Defendant.

A brief statement of the nature of this suit is as follows, to wit: Suit for divorce, the plaintiff alleging marriage to defendant on June 10, 1931, and final separation in January, 1942, and that defendant abandoned plaintiff more than 3 years prior to the

filing of her suit with the intention of abandonment; that plaintiff and defendant have no community property; that plaintiff and defendant have five minor children whose care and custody should be awarded to the plaintiff. Plaintiff prays judgment for divorce and for care and custody of all minor children, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer in charge shall process same according to the same return as the Issued and returned at office in Haskell on the 25th day of August, 1949. Attest: JESSE D. DISTRICT CLERK, Haskell, Haskell County, Oklahoma (SEAL)

**Farm Urged Counties**

Program to provide agricultural center buildings in 3,069 counties in the United States would be eligible, since the requirement would be that agriculture is the predominant industry.

Rep. W. R. Poage of Waco, member of the House Agricultural Committee, said he would favor the plan if it were designated as a public works project, to be held in reserve to offset unemployment.

Poage said that Waco has a 1-stop service for the farmer. All government agricultural agencies are housed on one floor of the post office building in Waco, due largely to Poage's efforts.

There are about 250 agricultural buildings over the country, most of them built in WPA days. The county agricultural building program bill is sponsored by Rep. Brooks Hays (Dem.) of Arkansas and has the support of Secretary of Agriculture Charles F. Brannan. Hearings are now being held before a House agriculture subcommittee.

The bill allows the Federal Government to furnish financial aid up to 30 per cent of construction cost, exclusive of land cost. Poor counties would receive up to 50 per cent.

Agriculture department architects have designed plans for buildings that include large auditoriums, recreation rooms, exhibition kitchens, as well as office space for agencies.

Rep. Stephen Pace (Dem.) of Georgia favors demonstration farms in connection with the county agricultural centers. He pointed out that less than 1 per cent of the farmers visit the existing experimental stations. Few of them pay much attention to agricultural pamphlets, he said.

In Texas federal agricultural agencies occupy 960,401 square feet of space. Commercial buildings supply 567,342 square feet of this space, courthouses 247,965 square feet, postoffices 49,399 and other public buildings 68,030 square feet.

A bucket of water (above) douses the Spitfire engine of the 1949 Chrysler, but the engine keeps right on running. The Chrysler is unique because it is the only car on the road with a waterproof ignition system, which keeps out moisture. The sparkplugs and wiring (left) are protected by neoprene covers and the distributor connections are sealed with vinylite synthetic rubber caps.

Texas to provide for the establishment and creation of hospital districts; providing for the Governor's proclamation and submission to the electorate.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Article III of the Constitution of the State of Texas be and the same is hereby amended by adding to said Article a new Section to be designated as Section 60, reading as follows:

"Section 60. The Legislature shall have the authority to provide by law for the establishment and creation of hospital districts in the counties of this State under such conditions as the Legislature may fix by law, and to provide for the support of said

districts by a tax on the ad valorem properties situated in said counties; providing, however, that before such district shall be created it shall be approved by a vote of the people in said district."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electorate of the State at an election to be held on the second Tuesday in November, 1949, at which election all ballots shall have printed thereon (or in counties using voting machines the said machines shall provide for) the following:

"FOR the Amendment to the Constitution of the State of Texas authorizing the Legislature to provide for the establishment and creation of hospital districts"; and

"AGAINST the Amendment to the Constitution of the State of Texas authorizing the Legislature to provide for the establishment and creation of hospital districts."

Each voter shall mark out one of said clauses on the ballot, leaving the one expressing his vote on the proposed Amendment, and if it shall appear from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and have the same published as required by the Constitution and Laws of this State. 25-4tc

**Mother Can Go To College And Take Junior Along**

Texas State College for Women plans to make it easy for mother to be a college student.

Beginning with the next fall session, opening Sept. 19, the college will set aside one of the smaller dormitories for mothers with children. Women who want to come to school can now bring Junior along.

Tried experimentally in the summer sessions, the plan is being put into effect permanently now in response to a demand from mothers who wish to attend during the regular term.

Graduates who wish to return for advanced degrees, and other women whose interest in getting further education in order to teach has been stimulated by the Gilmer-Aiken Bill, are among those expected to take advantage of the offer.

Further information can be obtained from the college registrar.

may be set up to administer the municipal retirement system provided for by Section 51f of Article III."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors for members of the Legislature at an election to be held throughout this State on the second Tuesday in November, 1949; and at said election the ballots shall have printed thereon the words "FOR the Constitutional Amendment authorizing a statewide system for retirement and disability pensions for appointive county officials and employees;" and "AGAINST the Constitutional Amendment authorizing a statewide system for retirement and disability pensions for appointive county officials and employees." Each voter shall strike out one of said clauses on his ballot, leaving the one unmarked which expresses his vote upon the proposed amendment.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the foregoing proposed amendment published as required by the Constitution for proposed amendments thereto.

Sec. 4. If at said election, a majority of the votes cast are "FOR the Constitutional Amendment authorizing a statewide system for the retirement and disability pensions for appointive county officials and employees;" the foregoing proposed amendment shall become Section 63 of Article XVI of the Constitution of Texas, and proclamation shall be made by the Governor thereof.

Sec. 5. The sum of Five Thousand Dollars (\$5,000, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated, to pay the expenses of such proclamation, notice and election. 25-4tc.

### Cotton Insect Situation In Texas

Cotton is being harvested in southern third of the State and the first bales have been reported from counties as far north as the Oklahoma line and as far west as Haskell County.

Boll weevils are extremely numerous in some fields in central and northern areas. There has been a general migration of weevils from heavily infested fields as far north as Oklahoma. The average boll weevil infestation in 515 fields in 37 counties was 26 per cent punctured.

### H. D. Club Has Gift Shower For Member Whose House Burned Recently

The Blue Bonnet H. D. Club met in the home of Mrs. Joe Holcomb, Aug. 4.

After a short business meeting Slick Tricks were given by Mrs. Raymond Astin and Mrs. Corbet Lytle. Thought for the Day by Mrs. A. C. Denson and Timely Topics by Mrs. R. V. Hogel.

The club practiced their club song for the H. D. encampment. How Is Your Mental Health?, by given by Mrs. Denson.

Mrs. Tom Rowan whose house was destroyed by fire was surprised with a shower. Many useful gifts from each member also money was displayed.

Refreshments were served to Mesdames Ed Conner, A. C. Denson, Corbet Lytle, Tom Rowan, Rex Murry, G. E. Davis, Less Lewis, John Wendeborn, H. V. Hogel, Fred Kripling, Otis Macon, Arthur Williams, Raymond Astin, Sue Williams and Edith Murry and the hostess.

Next meeting will meet with Mrs. R. V. Hogel, Sept. 1. A home movie party August 12 at Mrs. Otis Macons.

### Tweed-Duet

Any resemblance between this girl's outfit and her beau's sport togs is purely deliberate—for sentimental as well as practical reasons. The odd jacket is a distaff version of his favorite wool tweed, and the skirt, of similar material, will keep in fashion stride with his slacks. She chose the jacket from a gray, green or brick assortment—for about \$18—and the skirt, in black spiked with red checks or green with gold, was hers for about \$11. This Tilly Schanzer ensemble is from four pages of "I wear fabrics like his" in the August issue of Good Housekeeping magazine.

Don't place fruits that you want to ripen in the refrigerator. Soft fruits, such as plums and peaches, should be spread out to avoid bruising. ripen. Store on shallow dishes to

The top four industries in the United States in terms of capital investments are agriculture, railroads, public utilities and petroleum.

squares, which compares to 15 per cent last week and 22 per cent at this date last year. Many growers should apply control measures to protect late squares or immature bolls from weevil damage. This protection is especially needed, in fields of late planted cotton or cotton planted on rich lands where it is still fruiting.

Bollworms continue to do heavy damage in some areas but in general infestations have decreased. The heaviest and most widespread infestations at present are in the Brazos River bottoms in Burleson, Brazos and Robertson Counties and in the Pecos Valley.

Fleahoppers are below the damage point in practically all fields, with a sharp decrease in the Plains area.

A thin or poor calf produces dry, tough and stringy meat while a fat animal furnishes juicy, tender and tasty food.

True eloquence does not consist in speech. It must consist in the man, in the subject, and in the occasion. — Daniel Webster.

### 40,000 Miles Of New Roads Scheduled To Be Built During Next 20 Years

The nation's road-builders have drafted a 40,000-mile master highway system.

The network of broad, high-speed, trunk highways would link every important commercial and transportation center, 42 state capitals and 183 of the largest cities. It would provide routes free of cross traffic for swift passage through metropolitan areas.

The time-table calls for the system to be completed within 20 years. The estimated cost: \$11,266,000,000. Congress has been

asked to appropriate for the project at the rate of \$500,000,000 a year compared with \$75,000,000 a year now being spent for work on major highways.

Actually more than 37,000 miles of the system already have been outlined by the Bureau of Public Works (formerly the Public Roads Administration) and by the 48 state highway commissions. The remaining miles are held in reserve for bypass routes that may be selected in the future for defense purposes.

Almost one-third of the system will have to be new construction—departing completely from existing routes. This is expected to cost \$7,236,700,000—\$311,900,000 a mile for 9,867 miles of rural construction and \$2,055,000 a mile for 2,024 miles in cities of 5,000 or more.

The rest of the system already is in use, but only about 6 percent, or 1,998 miles of rural roadway and 300 miles of urban routes, is good enough that it won't have to be changed or improved.

An estimated 8,687 miles will have to be widened, at a likely cost of \$597,800,000. Average cost for 8,306 rural miles is figured at \$87,800 a mile and for 381 urban miles at \$599,800 a mile.

Texas would account for about one-fourteenth of the mileage of the entire system.

#### VISITING GRANDFATHER THIS WEEK

Graydon Hunt of Denver City, and Mrs. Gramae Hindman of New Deal, were visitors in the home of their grandfather, J. F. Kennedy, the first of this week.

#### NOTICE TO BIDDERS

The Commissioners Court of Haskell County will accept bids for the repair of the Haskell County Hospital, said bids to be submitted to the Court not later than 10 o'clock Monday, August 15, 1949.

Bids must be submitted on the following specifications:

1. Clean walls and woodwork.
2. Repair and fill all cracks and broken places in plaster.
3. Sand rough places on woodwork and remove all dead paint.
4. Paint walls and woodwork 1 coat—using oil base paint of best quality obtainable.
5. Paint all woodwork outside, including screens, 2 coats of best quality paint, and caulk all cracks.
6. Paint all iron work 2 coats such as hand rails, etc.
7. Clean paint off windows and replace window screens.
8. Repair roof, by patching to stop all leaks.

The court reserves the right to reject any and all bids.

O. E. PATTERSON, County Judge

### Big 1950 Census Is Getting Trial Run In Chicago

A preview of the big 1950 population census is being provided in Chicago by a community-wide inventory sponsored by civic groups and conducted by the Bureau of the Census.

Householders in 3,200 dwellings are answering questions that millions will be asked next April when the census makes its decennial national nose-counting.

And the "task force" of 320 enumerators is the vanguard of 165,000 aides who next spring will pound pavements, ring doorbells, crawl into caves and ascend to penthouses to see that everyone is tallied.

Usually it is "the woman of the house" who skeptically answers the door and admits the enumerator—who spreads out a question sheet the size of a newspaper page—then wishes she had jotted down beforehand such hard-to-recall data as where grandpa was born.

If their own treatment is any indication, the enumerators think that these must be rough times for door-to-door salesmen. Doors are slammed in their faces, voices call "we don't want any" from upstairs windows, and they are peered at suspiciously through one-way viewing gadgets mounted in doors.

They have a hard time sometimes even getting a chance to show their official passes and to explain the purpose of the census so that they can win the confidence of whoever answers their knock, even if it is only junior.

#### HOUSE JOINT RESOLUTION NO. 32

proposing an Amendment to Article I of the Constitution of the State of Texas, by adding thereto another Section following Section 15, providing that the Legislature may provide for trials in lunacy cases without a jury; further providing for the submission of this Amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article I of the Constitution of the State of Texas be and the same is hereby amended by adding another Section thereto following Section 15, to be designated Section 15-a, to read as follows:

"Section 15-a. The Legislature shall have the authority to enact all laws necessary to provide for the trial, adjudication of insanity and commitment of persons of unsound mind and to provide for a method of appeal from judgments rendered in such cases. Such laws may provide for waiver of trial by jury in cases where the person under in-

quiry has not been charged with the commission of a criminal offense, and shall provide for a method of service of notice of such trial upon the person under inquiry and of his right to demand a trial by jury."

Section 2. That the foregoing Constitutional Amendment be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the second Tuesday in November, A. D. 1949, at which election all ballot shall be printed thereon:

"FOR the Amendment to the Constitution of the State of Tex-

as providing that the Legislature may provide for trials without a jury in lunacy cases" and

"AGAINST the Amendment to the Constitution of the State of Texas providing that the Legislature may provide for trials without a jury in lunacy cases." Each voter shall scratch out one (1) of said clauses on the ballot, leaving the one (1) expressing his vote on the proposed Amendment. In counties or other subdivisions using voting machines, the above provision for voting for and against this Constitutional Amendment shall be placed on said machine in such a manner

that each voter shall machine for or against the constitutional Amendment.

Sec. 3. That the State of Texas necessary proclamation and have the ed as required by tion and Laws of

### And Summer Push Cotton Stand, But Also Bring Bugs

Average bollworm infestation in 701 fields inspected jumped from 12 per cent to 13 per cent punctured squares in the past week.

Bollworm infestations have become general over most of the state and this insect is causing the most trouble at present.

Planters should inspect their fields every day for boll worm damage, agricultural authorities warn.

A mixture of 2 per cent gamma benzene hexachloride, 10 per cent DDT and 40 per cent sulphur is the best poison for bollworms, Dr. H. G. Johnston, head of the Texas A&M entomology department, says.

This should be applied every five days at the rate of 12 to 15 pounds per acre.

Cotton farmers in some sec-

tions likely are to find that they can't buy the new organic insecticides which are recommended this year.

A shortage has developed in some of the Southern States and is likely to reach Texas. Use of the new insecticides has reached a new high in Texas this year.

Entomologists report that early season control of insects is paying off for farmers. Areas where early season measures were used aren't having as much insect trouble as other sections.

Early season control has been stressed in the state for the last several years and the bug experts are convinced that damage can be decreased greatly if it is practiced on a statewide basis.

The story is about the same over the entire cotton belt, but entomologists feel that careful checks and application of poison as soon as the infestations become serious can halt damage to the crop.

### C. G. Burson Again Named Head Of Stamford PCA

C. G. Burson of Haskell was re-elected as president of the Stamford Production Credit Association at the annual meeting of directors held in that city last week. He and Spurgeon Reeves of Hawley were re-elected to the board at the 15 annual stockholders meeting held at the Texas Cowboy Reunion grounds.

All officers were re-elected. In addition to Burson, J. F. McCulloch of Stamford was re-elected vice president; J. L. Hill, secretary-treasurer; Paul Summers, assistant secretary-treasurer, and Ryland Gleaton, assistant treasurer. Other members of the board are J. B. Pumphrey of Old Glory and Lasater Hensley of Guthrie.

**WED**

It is a hopeful sign, remarks one surveyor of the situation, that millionaires have ceased to multiply. We'd like it even better, though, if they'd begin to divide.

—Boston Herald.

Strictly speaking, the word profit means the result of a business operation, whether favorable or unfavorable, according to the Encyclopedia Britannica.

Omar Khayyam, author of the Rubaiyat, was also a great mathematician.

### Sow Bug Found Causing Damage To Cantaloupes

Are you finding insect damage on your cantaloupes especially where they touch the ground? Chances are that the common sow bug or pill bug is causing this damage, says James A. Deer, assistant extension entomologist of Texas A&M College. Of course, he continues, other chewing bugs could be causing the trouble and it would be well to try to identify the culprit before you start control measures.

The sow bug does its work in the late afternoon and at night, but if he is around, you'll find him under anything he can hide under during the daytime, says Deer.

Poison bait should give satisfactory control and here's the mixture that Deer recommends. Wheat bran or shorts, 25 pounds; sodium flouosilicate, sodium fluoride or paris green, 1 pound; cheap molasses, 2 quarts; water, 2 gallons. You can cut the amount of bait to be mixed down to your needs by taking the same percentage of each of the ingredients.

Mix the bait thoroughly and don't get it too wet, says Deer. Put it out late in the afternoon and sprinkle it around the cantaloupes. This same bait will get other chewing insects if they eat it, but if the damage still shows up after you have given it a good trial Deer suggests that you see your local county agricultural agent for identification of the bug or bugs that are causing the damage.

**CHECK**

A doctor says he often wonders how much sleep the average man really wants. Just another five minutes.—Passing Show.

In the century after their discovery in 1778, the Hawaiian islands population decreased from 300,000 to about 57,000, according to the Encyclopedia Britannica.

To prevent frayed ends on rugs, stitch across each end on the sewing machine; the stitching will not show.

### Drivers License Renewal Rules Are Relaxed

Colonel Homer Garrison, Jr., Director of the Texas Department of Public Safety, has announced a temporary relaxation in the policy of renewing expired drivers licenses. Pointing out that the action is being taken because of inadequate field and office personnel to handle the procedure in the normal manner, Colonel Garrison stated that the temporary measure, which becomes effective immediately, will preclude excuses on the part of motorists for not having obtained a renewal of their licenses.

This should come as good news to a half million Texas motorists since the records indicate that there are 3 1/2 million drivers in the state and only 2 1/2 million current licenses are on file. Estimates show that of the one million drivers who do not hold pres-

### Girls Forget Fears, Thanks To 2-Way Help

What do you do for woman's colds, functional monthly pain? Many a girl and woman has found the answer in CARDUI's 2-way help. You see, CARDUI may make things lots easier for you in either of two ways: (1) started 3 days before "your time" and taken as directed on the label, it should help relieve functional periods pain; (2) taken throughout the month like a tonic, it should improve your appetite, aid digestion, and thus help build up resistance for the trying days to come. CARDUI is scientifically prepared and scientifically tested. If you suffer "at those certain times", get CARDUI today.

ently valid drivers licenses about half had one at some time but have failed to renew them. The other half million have either moved from the state, ceased driving or died since the records were compiled or have never possessed a license to drive.

Under the new program, Colonel Garrison outlines the following steps for obtaining a renewal of expired Texas drivers licenses. First: if you have a license that was issued since January 1, 1944, you may secure a renewal of same by mail from the Department of Public Safety, without examination. Second: if you have a license that was issued prior to January 1, 1944, you may renew same by presenting the old license to a Drivers License Examiner in your

locality and executing an original application. License in the latter case will also be issued without examination.

Formerly, those applicants for renewal who had allowed their licenses to expire were required to stand a re-examination. Now, under the temporary set-up, you may reinstate your permit to drive without taking the test, regardless of how long it has expired, provided it is not now suspended or revoked.

Haskell Youth Plays In National Softball Tournament

Billy Davis returned Sunday from Texarkana where he played in the national softball tournament with the Abilene VFW softballers. From the 60 teams entered in the tournament, Whittier, Calif., emerged the winner while Abilene finished in fifth place. Davis pitched three of the six games and played left field the remaining three. He won two games and lost one while he was on the mound.

Pule Man Given Promotion In Reserve Corps

Sgt. I/c Ray Dean Penick of Rule, was recently promoted to the rank of Master Sergeant in the Enlisted Reserve Corps. The announcement was made today by Lt. Col. Herman K. Henry of Haskell, executive officer for the 4272nd Replacement Training Depot with headquarters in this city. This is an example of how enlisted men can earn promotion in the Reserve Corps, be of valuable service to his country in time of peace and be paid for it at the same time, Lt. Col. Henry pointed out.

Hospital Notes

The following patients were registered in the Haskell County Hospital Wednesday afternoon: Mrs. W. H. Little, Goree, medical. Mrs. Crede Caddell, Rule, and son. Mrs. B. B. Bassing, Haskell, surgery. Mrs. J. O. Stark, Haskell, medical. Mrs. W. L. Saffel, Rule, medical. Mrs. Julia Holden, Haskell, medical. Mrs. Emma Thames, Haskell, medical. Mrs. F. T. Johnson, Goree, medical. Mrs. Robert Dumas, Haskell, surgery. Elton Close, Haskell, surgery. Mrs. Joe Mynar, Munday, and daughter. Theo Burson, Weinert, fracture. Sam L. Chamberlain, Haskell, medical. Miss Irene Vaughn, Goree, surgery. Mrs. W. E. Dillard, Throckmorton, medical. Jean Bowen, Haskell, medical. Mrs. Henry Drusendow, Haskell, and daughter. Mrs. Geo. Tatun, Haskell, and infant son. Mrs. Wayne Adkins, Haskell, infant son. Dean Stocks, Haskell. Mrs. D. L. Hamilton, Rule. Wanda Dulaney, Haskell. Mrs. W. M. Brandstatter, Haskell and infant daughter. Patients dismissed: Mrs. Ed Newton, Weinert. R. O. Miller, Haskell. Clarence Brooks, Stamford. Mrs. B. Morris, Stamford. Mrs. J. O. Merchant, Stamford. Mrs. D. O. Stephens and infant son. Noble, will be presented to girls who have 28 agricultural projects programs.

### S.S. Representative Coming August 18

Ralph T. Fisher, Manager of the Abilene Office of the Social Security Administration, will be in Haskell at the Chamber of Commerce at 11:00 a.m. on Thursday, August 18. Any persons wishing assistance with retirement or death claims under the Social Security Act are invited to call to see Mr. Fisher at that time.

In a statement made today, Fisher urged all workers to check at intervals on their social security accounts. If this is done, each worker will be sure that he receives credit for all wages he earns. The Social Security Administration takes every precaution to insure the accuracy of the records, but faulty reporting by employers still gives some trouble. Most errors in reports are due to mistakes in the worker's name or account number, or the failure to show any number.

There is no charge for furnishing a statement of wages credited to the worker's social security account. Social Security offices stock a self-addressed postal card which can be used for making the request. Any person who wishes one of these postal cards should request it from the Social Security Administration, Abilene, Texas.

### Giant Plane To Be On Display In Dallas August 27

Texans will have a chance to see the Navy's giant Constitution, the world's largest commercial-type airplane, when the mammoth ship visits the Naval Air Station in Dallas Saturday, Aug. 27.

It will be on display from 9 a.m. to 5 p.m. on that date and civilian visitors will be admitted to the naval base during those hours to see and be escorted through the big ship.

More than 28,000 Texans were taken on a tour through the Constitution when it visited Dallas, unannounced, in May. Twice that number are expected to see it on its August visit.

Aboard the big plane will be 97 midshipmen from the Naval Academy at Annapolis, Md., who are making an air cruise of the nation. They will be given a formal greeting by the Dallas Invites civic hospitality committee on arrival at the Texas air field. Built at a cost of \$15,000,000, the Constitution's size and facilities make it comparable to a "flying city." A pullman car, two box cars and a city bus could be stored in its fuselage. Twenty-five homes could operate at a peak load off its electrical sys-

### 5th Street Baptist Church In Rule Will Observe First Anniversary Sunday

REV. JESSE JONES

The 5th Street Baptist Church of Rule will observe the first anniversary of the church's organization next Sunday, August 14, and the pastor, Rev. Jesse Jones, joined by all members of the congregation extend a sincere invitation to all people of the community to join them in the observance.

To mark the anniversary, they plan to hold all day services, with a basket lunch to be served at the noon hour.

The church was organized August 15, 1948 with 12 charter members, and the church roll now lists 61 members. In addition to the active membership, services of the church have attracted an increasing attendance during the past year in both church and Sunday School departments.

The church occupies its own building, an attractive modern structure on East 5th Street in Rule.

Everyone is cordially invited to attend the entire day's service Sunday.

### Self-Diagnosis For Illness Is Termed Dangerous Practice

Among a certain and rather extensive group of self-centered persons symptom hunting unfortunately is rather popular. Because of a too detailed study of so-called health literature of the alarmist type or on account of a recent death in the family, introspection develops to a morbid degree. The result is an entirely unfounded fear for all sorts of disease possibilities. Many becoming victims of this warped psychology develop brain and nerve exhaustion and in extreme cases even become affected mentally, stated Dr. Geo. W. Cox, State Health Officer.

Of course, it is entirely proper to have a normal regard for personal well-being. To maintain vitality and to prevent disease is a logical pursuit for everyone. But it most decidedly must be kept within bounds. When one becomes obsessed with the subject, concern for health has overstepped the limits.

For all practical purposes, after giving reasonable attention to diet, personal sanitation, sleep and exercise, and assuming that one's bodily limitations as defined by the family physician are appreciated, the average person can dismiss the subject of health. This, plus the annual physical examination should adequately cover the situation.

On the other hand, conditions are bound to arise where actual disease symptoms manifest themselves. It will then be up to the doctor to decide what the trouble, if any, is and for the patient to abide by his judgment.

In short, symptom hunting as a hobby is a dangerous matter. One should stay away from it. It is neither safe nor healthy to do otherwise.

### Farmer to Test Old Theory for Killing Johnson Grass

A Haskell farmer who, like a lot of us, has heard the old saying that if you want to kill out Johnson Grass plow it up or hoe it out on certain days in August, declares he's going to give the theory a test this year.

Although he preferred that his name be kept anonymous, he placed a classified ad in The Free Press reminding other farmers of the dates—August 25, 26, and 27, and he'd like for anyone else trying the theory to check their results.

This farmer has about 90 acres in cotton which is infested with light to heavy growth of Johnson grass and he plans to go over the entire field during the three days just to see if the grass can be killed.

tem. Its rudder towers five full stories high. Three decks of cabins on the big craft allows a passenger capacity of 180, plus a crew of twelve. In the ship's galley, 300 meals can be prepared on each flight.

### Heavy Travel Is Shown By State Gas Tax Receipts

Motor fuel tax collections in Texas hit a record high of nearly \$9 million in July.

This was one of the more optimistic items in the comptroller's latest report on the condition of Texas finances, which also included some items on the gloomy side.

The July statement of cash receipts issued by Comptroller Robert S. Calvert Saturday showed a continuing decline in revenue

from gross production tax on crude oil.

This slumped to \$6,122,070 from \$6,500,000 in June. For the fiscal year to date, however, oil tax collections were still ahead of last year. The total for this year so far is \$82,968,521 compared with \$79,208,795 in alike period during the last fiscal year.

The crude oil tax — one of the state's financial mainstays — has been steadily declining in recent months as production slowed down. The outlook was this fiscal year and last fiscal year would bring approximately equal revenues. If the production slump

keeps up, the full impact on the state's finances will not be felt until next year.

Heavy automobile travel is reflected in the motor fuel tax receipts. They totaled \$8,024,615 in July compared with \$8,500,000 in June. For the year to date, motor fuel taxes have brought in \$84,389,014 compared with \$78,276,048 in the same months last fiscal year.

One-fourth of this revenue goes to the schools and the balance for highways or road bond assumption purposes.

### 20 Texas Tumor Clinics Aid Cancer Control Work

Where would your doctor send you for a diagnosis, if he suspected that you had cancer?  
 "That is a question that few Texans can answer," Dr. William F. Mengert of Dallas, Chairman of the Committee on Projects and Allocation of Funds of the American Cancer Society, Texas Division, pointed out today, while discussing cancer control facilities in the state.  
 "Few Texans realize the great strides toward a control of cancer which have been achieved in

Texas in just a few short years," Dr. Mengert continued. "Four organizations are devoting almost constant effort to improve cancer diagnostic and treatment facilities in the state, and their results have been very noteworthy. They have sponsored and assisted the establishment of 20 tumor clinics that your doctor would send you for a diagnosis and treatment. These four organizations are also conducting a cancer educational program to warn Texans that cancer can be cured, if caught in time."  
 Dr. Mengert listed the four organizations as the American Cancer Society, Texas Division; the

Cancer Committee of the State Medical Association of Texas; the State Board of Health; and M. D. Anderson Hospital for Cancer Research.  
 The 20 Texas tumor clinics which are doing so much to combat the nation's second major cause of death are as follows: The Potter County Medical Society Tumor Clinic, Amarillo; The Wichita County Medical Society Tumor Clinic, Wichita Falls; The El Paso County Medical Society Tumor Clinic, El Paso; Tarrant County Cancer Clinic at City-County Hospital, Fort Worth; Harris Hospital Tumor Clinic, Fort Worth; Baylor University Hospital Tumor Clinic, Dallas; Parkland Hospital Tumor Clinic, Dallas; St. Paul's Hospital Tumor Clinic, Dallas; Bowie - Miller County Medical Society Tumor Clinic, Texarkana; three in Temple, located at King's Daughter's Hospital, Scott and White Hospital, and the Veterans Administration Hospital; five in San Antonio—at Baptist Memorial Hospital, Nix Hospital, Santa Rosa Hospital, Brooke Memorial Hospital, and Robert B Green Memorial Hospital; Nueces County Medical Society Clinic, Memorial Hospital, Corpus Christi; the clinic at M. D. Anderson Hospital for Cancer Research in Houston; Jefferson Davis Hospital Tumor Clinic, Houston; and the tumor clinic at the University of Texas Medical Branch, John Sealy Hospital, Galveston.

Yum, Yummy! Ice cream is a favorite, during warm summer months, with the children at the Texas Scottish Rite Hospital for Crippled Children in Dallas. Unable to wait for Nurse Edith Kasper to hand a double dip cone to Rebecca Newsum, Detroit, Texas; Alejandro Ferraris, Brownsville, (left) and Sylvia Landers, Mesquite, (extreme right) are happily making short work of their ice cream cones.

time and Allen says storage structures should be built with this fact in mind. Build them to last. The cheapest structure you can build is the one that will still be usable and safe ten or fifteen years from now, he adds.  
 Here are a few things you should remember, Allen says. Low moisture content is necessary for prolonged, safe storage of grain. Construct a strong, durable building. Eliminate entrance points for moisture and insects. Provide for fumigation, if necessary. Rat proof your grain structure, locate it for convenience on a firm, dry site and don't forget to plan an easy way to get the grain in and out of it.  
 If you need grain storage on your farm, Allen suggests that you visit your local county agricultural agent—talk over the situation with him—and get a copy of the new bulletin. You can probably find the answers to a lot of the questions that you'd like to know in C-266, Grain Storage for Texas.

Metal and porcelain surfaces of kitchen ranges need frequent washing with a cloth moistened in warm suds, but this should be done only after the stove cools. A wet cloth on a hot stove may cause the enamel to crack.  
 A light over the sink and another over the range furnish better light and guarantee better sight.

A stainless steel completely rounded just to any angle base.

### Haskell Troop 36 Wins Boy Scout Swimoree

Top honors went to Haskell Boy Scouts in the annual Haskell District Boy Scout Swimoree Tuesday evening, August 2, at the Haskell Swimming Pool. Troop 48 of Paint Creek was runner-up Troop 44 of Rule Baptist Brotherhood also entered the meet. The Haskell swimmers will go to Camp Tonkawa, near Buffalo Gap, August 17 to participate in the Chisholm Trail Council Swimoree Championship. They will compete with Troops from Jones, Shackelford, Callahan, Coleman, Runnels, and Taylor counties for the Scout Commissioners' Trophy. This award was won by Haskell Troop 36 back in 1946.  
 The Haskell Scouts won first place in the following events: Free Style by Bill Taylor, Handicap Race by Sam Matthews, Backstroke by Charles Cobb. Second Place winners were Thomas Holland in the Underwater Swim, Sam Matthews in the Sailboat Regatta.  
 The Paint Creek Scouts placed first in the Underwater Swim by Johnnie Montgomery. Second Places in the Free Style by Twain Mickler, the Handicap Race by Montgomery, the Backstroke by Toliver.  
 The Haskell Scouts also won the two relays and two resues. The Paint Creek Scouts placed second in one relay and one res-

### New Bulletin Lists Ideas For Meeting Grain Storage Need

The new bulletin, C-266, Grain Storage for Texas, is new and chock full of helpful ideas on grain storage structures for Texas. The publication was prepared by W. S. Allen, extension agricultural engineer-buildings of Texas A&M College.  
 On-the-farm grain storage is due to be a very important part of every Texas grain producer's farming operations for a long time.  
 Bill Ratliff directed the events assisted by Tom Roberson as announcer. Harold Spain was official starter. A. M. Turner was general chairman for the Swimoree conducted by the Haskell District Scout committee. Ribbon awards were presented all Patrols entered. The State and Rita Theaters gave two week passes to the Haskell Scouts as winners.

THERE'S MORE ROOM FOR THE MONEY in this Model 43 4-door Sedan.

**NEW in looks - NEW in room - NEW in handling and priced right down your alley!**

**FEAST** your eyes, folks—and reach for your checkbook.  
 For here, in one stunning, swift-lined bundle, is everything—yes, everything—you've been hoping for.  
 New style note? Well, just look at that brand-new idea in front-end styling. Grille, bumper, bumper-guards and even parking lights all combined in a single, sturdy assembly that means you can't "lock horns" with other cars!  
 New over-all size? We've trimmed inches from its over-all length for handiness in traffic—yet here's still the generous wheelbase that spells a level-going ride.  
 New roominess? Swing open the doors—a thumb-touch does it!—and gaze on the biggest interiors you can buy for the money, with sofa-wide front seats and no less than 12 more inches in rear-seat hiproom.  
 Slip behind the wheel. Finger-easy Synchro-Mesh transmission if you choose—the satiny smoothness of Dynaflo Drive\* as optional equipment if you want the very latest thing.  
 And if power is your meat—just lift the bonnet and look on a husky Fireball power plant of 110 horsepower  
 \*Optional at extra cost.

THIS TRIM TWO-DOOR SEDANET will delight the whole family. Children are safe in its full-size, even-wider rear seat.

Time in HENRY & TAYLOR, ABC Network, every Monday evening.

# HASKELL COUNTY HISTORY

Age - Aug. 8, 1929

Wash of cotton ginned in this mill was sold at Knox Monday. It was produced by Williams, farmer living in Knox City, and he received premium from market town.

Mrs. Clyde Grissom lives in Fort Worth and Mr. Grissom also business trip to Austin.

Wheeler and family of Opel were in town Saturday.

Mrs. Ben Bagwell entertained in her home Tuesday morning with a 42 Party honoring her sister, Mrs. J. S. McCrary of Dallas, who is visiting in Haskell.

Mr. and Mrs. F. T. Sanders and son Fred, Jr., and Miss Lois Earnest and John W. Pace, Jr., attended the wedding of Miss Alta Marie Karbach and Ernest Sanders at Kennedy, Texas, last Saturday.

Miss Annie Maud Taylor accompanied Miss Marguerite Waldrop of Abilene Monday for a week's visit.

Miss Nettie McCollum and Le-

la Welsh are spending a vacation in Colorado.

Mr. and Mrs. George V. Wimbish have returned from the University of Colorado, where they attended summer school.

R. C. Couch and family and Mrs. S. R. Rike and daughter, Miss Catherine, are on an extended vacation trip to the Northwest States.

District Judge Bruce W. Bryant and sons, Joe and Frank, and George A. Turnbow returned the first of the week from a fishing trip on the Clear Fork of the Brazos.

40 Years Ago—August 7, 1909 Lieutenant Commander Andrew T. Long of the U. S. Navy, a native of North Carolina and brother of C. D. Long of this city, has recently been assigned at Naval Attache at Rome and Vienna.

Advertisement: Uncle Bob wants his saw. If you borrowed it return it to Lamkin's Shop.

Mr. and Mrs. T. B. Russell have returned from Aransas Pass. They were accompanied home by Mr. and Mrs. W. C. Jones, parents of Mrs. Russell.

Mrs. L. D. Gardner and children and Miss Eddie Hamilton spent Wednesday and Thursday with their sister, Mrs. W. L. Perry who lives in the south part of the county.

Mr. and Mrs. Ed Thornton and children and Mr. and Mrs. George Fields left Monday for Rockport and Corpus Christi to spend a month hunting and fishing and having a general outing.

Seward McDaniel has returned from Waco, where he has been attending Baylor College.

The water and sewer system has just about been completed, and Haskell now has modern fire protection facilities.

The report that Baylor county had held a local option election and gone wet was all a false rumor. They have had no such election.

D. C. Cogdell of Granbury was here this week looking after his oil mill interests.

The machinery for the threshing and baling broom corn has arrived and Mr. Courtney reports that he will have it in operation right away.

50 Years Ago—Aug. 12, 1899

Mart Hoover of Chetopa, Kans., arrived here this week and is looking after his horse interests in this section. Mr. Hoover was one of the pioneer ranchmen in Throckmorton county along the Clear Fork, and has many friends in this section.

Mr. Burwell Cox is now the happy man. A 10-pound boy came to his house Saturday night. It was his first born.

Misses Lillie Dixon and Pearl Reeder, who spent last week in town visiting friends, returned home Sunday.

The Haskell market is being supplied with an abundance of home grown tomatoes and white-

At The Rita Theatre Tuesday, Aug. 16

## Secret Ballot Specified For All Elections

Texas' new form of secret ballot must be used in all elections, Atty. General Price Daniel said Friday at Austin.

The elections include general and primary and local option held by the state, city, independent school districts held to elect public officials or to determine any question.

The only exception in the new law allows the use of voting machines. The law went into effect June 27.

Daniel also held in an opinion that if cities, towns or independent school districts hold any kind of election they must bear its cost. That includes providing all supplies, ballot boxes and stub boxes.

In city elections the city clerk is required to perform each act that is required by the county clerk in general elections held in the county.

Expenses of school district elections must be paid out of the maintenance fund of the district. In independent districts having more than 500 pupils it is the duty of the school board to perform these functions, Daniel wrote. In districts smaller than 500 students the job of preparing all ballots, tally sheets, ballot boxes, stub boxes and other necessary supplies and delivering them to the proper parties falls to the county judge.

The secret ballot law provides for a perforated stub which is torn off the ballot before it is placed in the ballot box. The stub is signed and put into another box.

Good cabbage of fine size and quality.

Pick Reister was down Saturday from his King county ranch seeing his friends and buying in a stock of supplies.

J. L. Clark and family who moved to Oklahoma Territory last year, have moved back to Haskell county and he says they intend to stay put this time.

Tom Russell left yesterday for Hartmond, O. T., where he will take charge of a store for his uncle.

Eugene Mayfield, one of Stone-wall county's prominent cattle-men, was doing business in our city yesterday.

A large party of the Haskell young people attended the meeting out at the Vernon schoolhouse last Sunday evening.

Doc Brown left this week, but we failed to learn his point of destination.

M. H. Rike went to Graham Wednesday to bring his mother and sister home.

J. F. Pinkerton, an old time citizen of Haskell but now of Hico, was here this week looking after his interests.

J. W. Collins and family, L. W. Roberts and family and J. A. Couch went to Munday Thursday to attend the big picnic, tournament, gender-swinging, etc. in celebration of the big crops.

### CARD OF THANKS

We wish to express our appreciation for the kindness shown in every way during the sickness and death of our dear mother. Especially do we thank Dr. Williams for his kind attention to her and Brother Cure and Brother Self for their kind words and prayers and the choir that gave the beautiful selection, May God in His own loving way bless you in times like this. The floral offering was beautiful and appreciated very much. The Mayfield Children. 32-1tp.

### CARD OF THANKS

We would like to take this means of thanking our friends who have been so thoughtful of us during the recent illness of Mr. Cobb. The flowers, cards and words of encouragement have meant much to us. Mr. and Mrs. O. A. Cobb and Son. 1tc

### LEGAL NOTICE

No. 1511 ESTATE OF MERRITT DEWITT GRIFFITH ET AL, MINORS. IN THE COUNTY COURT OF HASKELL COUNTY, TEXAS. TO ALL PERSONS INTERESTED IN THE ESTATE OF MERRITT DEWITT GRIFFITH AND SUZANNE ELISABETH GRIFFITH, MINORS.

Notice is hereby given that on the 8th day of August, 1949, I Ray R. Overton, acting as guardian of the Estate of Merritt DeWitt Griffith and Suzanne Elisabeth Griffith, minors, filed with the County Clerk of Haskell County, Texas, a sworn application for authority to make an oil, gas and mineral lease on and covering the following described land situated in Haskell County, Texas, and belonging to the estate of said minors, to-wit:

An undivided one-sixth (1/6) interest in and to the North 205 acres of the following described land, to-wit: All that certain tract or parcel of land containing 374.2 acres, more or less, being a part of Section No. 12, Abstract No. 502, Block No. 1, H&TC RR Co. land, beginning at the Southeast corner of said Section No. 12, a set stone; THENCE North 1109 vrs. to a stake in the East Boundary line of said Section No. 12, for the Northeast corner of this tract; THENCE West 1900.8 vrs. to a stake for Northwest corner of this tract; THENCE South at 287 vrs. pass Southeast corner of Section No. 14 and Northeast corner of Section 9, at 1109 vrs. to the Southwest corner of said Section No. 12 for the Southwest corner of this tract; THENCE East 1900.8 vrs. to the place of beginning.

Said application will be heard by the County Judge of Haskell County, Texas, in the County Courtroom in the Courthouse in the City of Haskell, Haskell County, Texas, on the 22nd day of August, 1949, at 10:00 o'clock a.m., same being the date, day, time and place which have been designated by the Judge of the County Court of Haskell County, Texas, as the date, day, time and place when and where such application will be heard. WITNESS my hand this 8th day of August, 1949.

RAY R. OVERTON, Haskell, Texas, Guardian of the Estate of Merritt DeWitt Griffith and Suzanne Elisabeth Griffith, minors. 32-1t

### VISITORS FROM CUBA, NEW MEXICO

Mr. and Mrs. Garth Garrett and son, Don Ray, are visiting his mother, Mrs. C. L. Garrett and her mother, Mrs. Jeff Turnbow, this week. They plan to spend about 10 days in and around Weisner and Haskell. He is employed by Morrison Oil Company in Cuba, New Mexico.

### VISIT IN KNOX CITY SUNDAY

Mr. and Mrs. W. A. Fowler and Shirley visited Mr. and Mrs. Keith Cartwright of Knox City Sunday afternoon.

### RETURNS TO MIAMI, ARIZONA, AFTER VISIT

Billie Joyce Andrews has returned to her home in Miami, Ariz., after visiting with friends

and relatives in Haskell and Abilene for the past few weeks.

### ROBERTS CHURCH CALENDAR

10 a.m.—Sunday School. E. L. Bassing, Supt. 11:00—Preaching. Pastor, Max Copeland. Our revival meeting will start Aug. 18. Come and worship with us.

### Pre-School Check For All Children Is Advisable

The month of September brings a return of school days, and thousands of Texas boys and girls will be returning to classrooms for the next nine months. Every one of these children, according to Dr. Geo. W. Cox, State Health Officer, should be as free as possible from all physical defects that can be corrected, and protected against other diseases

which frequently spread through classrooms. A complete medical and dental pre-school check-up is of the utmost importance in getting the child ready for school. Eyes, ears, nose, throat, and teeth should be carefully examined, and all remediable defects corrected or replaced under treatment. Such defects can lead to serious impairment of growth and progress academically, socially, and emotionally. Defects of hearing and vision handicap a child in his class work, and often result in the false

## New Buick Special Introduced

NEW styling throughout, many engineering improvements and a completely new grille and bumper design are incorporated in the new Buick Special. With Dynaflo offered as optional equipment, the low-priced Buick is long and sleek in appearance but three inches shorter over-all. Shown above is the four door six-passenger sedan.

### Social Security Is Largest Group Insurance Effort

There are now more than 90 million holders of social security cards, representing Federal insurance accounts," said Ralph T. Fisher, manager of the Abilene Field Office of the Social Security Administration. This makes the Federal social security program the largest single group insurance effort on earth. Although the Social Security Administration keeps an individual account on each worker, taxes are withheld by the employer, and only one tax report per quarter is made by each firm. One such report will contain from one to several thousand names. This large group handling of employee records lowers the per unit cost.

This pooling of the risks of dependency in old-age and at death among millions of citizens, plus the savings from economical administration explain in part the high individual benefits paid in comparison to individual taxes paid.

It also helps explain why the law does not provide for selection of risks. There is no need

### Increased Supplies Of Fertilizer In Prospect

Reports indicate there will be about a 25 per cent increase in the amount of nitrogen fertilizers for the coming year; a probable increase of 10 to 12 per cent in the production of potash materials and about 15 per cent increase in the production of phosphate materials.

This does not mean, says M. K. Thornton, extension agricultural chemist of Texas A&M College, that Texas farmers will get their proportionate share of these fertilizers. They can if they'll buy their fertilizer supplies early and hold them until needed, he adds. There is limited storage space available in the factories and mixing plants and then this space is filled, the plants have to restrict operations. There is also a transportation problem—just so many box cars can be loaded each day—and when the peak shipping periods arrive every farmer cannot expect to get his share of what he needs when he wants it.

to exclude a person of poor health when so many are in the system.

Thornton suggests get their fertilizer in advance of the peak of the year and with manufacturers and tillers to the state.

Fertilizer can be used on farm without detour. Thornton keeps the and off the floor done by placing bags. This will help circulate around the to maintain the care of the ventilation.

It is another case of operation between the turer, distributor can result in benefits ties concerned, says

O. A. COBB'S CONSERIOUS O. A. Cobb who is emment hospital is reported as being in condition. He was here about 2 weeks developed virus pneumonia.

Tree ripe peaches, bruises, are best for ing.

### First Aid Tips May Help Heat Collapse Victims

Here are some important tips to bear in mind if a person collapses in hot weather. There's a big difference between sunstroke and heat prostration. First aid while waiting for the doctor is different in each case. Sunstroke, says the United States Public Health Service, is caused by too long exposure to the hot sun—and the victims' temperature rises. It may go to 110 degrees or higher. The victim usually loses consciousness. Heat prostration, or heat exhaustion, is caused by prolonged heat and humidity. The victim usually remains conscious, but he's weak and dizzy. And his temperature falls instead of rising. He feels cold and clammy. Whenever a person collapses in hot weather, says the health service, do this: 1. Call a doctor at once. 2. Move the victim into the shade and loosen any tight clothing. 3. Feel his skin. If the skin feels cold and clammy, give first aid for heat prostration. Keep the victims' head low. Even though the weather is hot, cover his body with blankets and put hot water bottles around him. Rub his arms and legs. If he is conscious give him hot tea or coffee. But— If the victims' skin feels hot, he probably has sunstroke or heat stroke—"heatstroke" being due to prolonged, oppressive heat, often indoors. Do not give first aid until you are sure. The collapse may have been caused by something very different, such as apoplexy or heart failure. If there's a thermometer handy, take the person's temperature. If the temperature is 105 degrees or higher, give first aid for sunstroke or heatstroke: Put a pillow under victims' head and cool him as quickly as possible. Wet his clothes with cold water, cover him with cold wet sheets or bath towels, or put ice packs around his head, neck and body. Fan him and rub his arms and legs to keep the blood circulating. If possible get a cold tub bath ready while the doctor is on his way. When you first take the victims' temperature, if it is around 102 take it again every five minutes and begin first aid at once, if the temperature is steadily rising. But if you don't have a thermometer available, do not give first aid. Wait for the doctor.

### Plan Kitchen As Main Workshop Of Household

The kitchen is the main work center of the home. The efficiency of the entire household depends to a large extent upon how well the kitchen is planned and arranged, says Mrs. Bernice Claytor, extension specialist in home management of Texas A&M College. There is no one model or ideal kitchen plan, she adds. Any kitchen, to be convenient, should be planned according to the needs of the family who will use it. Those needs vary with the size and ages of the members of the family, the principle industry of the farm or ranch and the kinds and amount of work done in the kitchen. Consideration must also be given to the amount of entertainment usually loses consciousness. Heat prostration, or heat exhaustion, is caused by prolonged heat and humidity. The victim usually remains conscious, but he's weak and dizzy. And his temperature falls instead of rising. He feels cold and clammy. Whenever a person collapses in hot weather, says the health service, do this: 1. Call a doctor at once. 2. Move the victim into the shade and loosen any tight clothing. 3. Feel his skin. If the skin feels cold and clammy, give first aid for heat prostration. Keep the victims' head low. Even though the weather is hot, cover his body with blankets and put hot water bottles around him. Rub his arms and legs. If he is conscious give him hot tea or coffee. But— If the victims' skin feels hot, he probably has sunstroke or heat stroke—"heatstroke" being due to prolonged, oppressive heat, often indoors. Do not give first aid until you are sure. The collapse may have been caused by something very different, such as apoplexy or heart failure. If there's a thermometer handy, take the person's temperature. If the temperature is 105 degrees or higher, give first aid for sunstroke or heatstroke: Put a pillow under victims' head and cool him as quickly as possible. Wet his clothes with cold water, cover him with cold wet sheets or bath towels, or put ice packs around his head, neck and body. Fan him and rub his arms and legs to keep the blood circulating. If possible get a cold tub bath ready while the doctor is on his way. When you first take the victims' temperature, if it is around 102 take it again every five minutes and begin first aid at once, if the temperature is steadily rising. But if you don't have a thermometer available, do not give first aid. Wait for the doctor.

ing that is done, the standards for preparing and serving meals, the amount of food purchased ready-prepared, the amount of outside help used and the utilities available.

Essential kitchen equipment, says Mrs. Claytor, includes a range, water supply—and this is usually combined with a sink and drainage facilities—work tables or work surfaces at comfortable heights for the worker, provision for refrigeration and adequate storage space for everything used in the kitchen. The storage space, continues Mrs. Claytor, should be located as near as possible to the place where these articles will be used. Kitchen equipment is available in various prices, variety of sizes, qualities and finishes. Wise and careful selection of equipment is always an important factor in kitchen efficiency, concludes Mrs. Claytor.

### VISITORS IN THE PATTERSON HOME

Mr. and Mrs. W. F. Patterson have had for the last week, three of their daughters visit them, namely: Mr. and Mrs. Taylor Alvis and Elaine, from McCamey; Mr. and Mrs. Orion M. McLane from Dallas; and Mr. and Mrs. A. Carrigan from Liberal, Kan. They also visited other relatives while here. The python swallows whole animals the size of small pigs.

**AMERICA AT PLAY**

VACATION! They've picked time and place, and they've planned and saved for months. That's the American way—the way of free choice—so familiar we take it for granted. A man picks his job, leaves it freely for a better one. He chooses the town he'll work in, the house where he'll live. He saves or spends as he wishes. It's not that way everywhere. In some countries, the government puts a man in a city, a house, a job, with no choice in the matter. He can't quit, leave town or move around the corner without permission. If he gets a vacation, he is told where and when to go. The government runs everything, the people nothing. That's what happens when a free people turn over their responsibilities to their government. They also turn over their freedom of choice. Socialism is the result. How does Socialism happen? Not overnight. It is woven slowly, a thread at a time, into the bonds of slavery. Little by little the government assumes powers other than governing—until it finally assumes all power. You, here in West Texas, would be astounded by the various ways and means that

some formerly good statesmen in Washington have been politically jockeyed and pressured into succumbing in many instances to the Socialistic planners that have infected our government and good old-line political parties. Through acquiescence against the better judgment of some of our statesmen, our Federal government has already embarked on political, bureaucratic duplications and the taking over of private businesses with your tax funds. This is true not only in our industry in some eastern locations but the bureaucrats are now openly aiming at banks, insurance, steel, railroads, mines forests and many other private businesses that have so helped this country to grow, produce and prosper. This is how Socialism got its political wedge and hold in such non-producing countries as England is today and it is why such countries are not producing but are leaning on us. Talk to your friends and neighbors; see how they feel about this Socialism and other political "isms" in Washington that are threatening your American way of life, decreasing your liberties and increasing your taxation.

ROBERTS BAPTIST CHURCH Max Copeland, Pastor E. L. Bessing, S. S. Supt. Sunday School—10 a.m. Preaching Service—11 a.m. and 8:30 p.m. After being away the past several Sundays, the pastor will be in the pulpit both services Sunday. All members are urged to attend and visitors are especially welcome.

WHITES HAVE VISITORS FROM BIG LAKE AND ABILENE Mr. and Mrs. W. M. White had as their guests Sunday, Mr. and Mrs. L. L. White of Big Lake, Mr. and Mrs. Billy White and baby, and Miss Ella Louise Reeves from Abilene.

**GI Insurance Dividends Aug. 29 or After Vets May Make Applications for Share In**

Forms on which veterans can apply for their share of the almost three billion dollars in GI insurance dividends will be available all over the country at every U. S. post office. Elmer Turner, Haskell county Service Officer, was advised this week by the Veterans Administration.

Every World War Two veteran who had a GI insurance policy in force for at least three months is eligible for a share of this huge kitty.

This is the most important announcement the VA has yet made on the dividend payment.

Checks to veterans for their share of the money will begin being mailed out sometime in January, 1950, at the rate of 200,000 per day. The sooner a veteran gets his application form in, the more likely he is to be one of the first to receive his check.

VA has done an excellent job in making the form extremely simple. There are only nine blanks for the vet to fill in. All he has to do is to follow the very plainly written instructions.

**FREE! HEARING CLINIC**

The Beltone Representative Will Be At The

Tonkawa Hotel, Haskell  
ON THURSDAY, AUGUST 11  
From 10 a.m. to 12 a.m., Noon

821 Eight Street  
(Corner 8th & Lamar)  
Wichita Falls, Texas

**Mrs. O. W. Whiteker Hostess for H-D Club Meeting**

The Center Point HD Club met Aug. 10 with Mrs. O. W. Whiteker hostess. Roll call was answered by exhibit of a hobby. Mildred Robertson gave the Timely Topic. Ida Farrel gave Slick Trick and Claudia Mae Bland gave a talk on Stepping Stones to Happiness.

After the business meeting was furnished by Mrs. Farrel and refreshments were served to 14 members: Essie Bland, Sally Patterson, Zadia Smith, Oleta Pennington, Davis Hannz, Helen Wiseman, Eunice Helwig, La Verne New, Claudia Mae Bland, Emma Bland, Mildred Robertson, Ethel Bird, Ida Farrel, Janie Whitaker and one visitor, Mrs. Mattie Graham. She is Mrs. Whiteker's mother whom we all love very much.

Our next meeting will be a call meeting on Aug. 18.

The form is in three parts. The first part includes the instructions for filling it out. It is torn off and kept by the veterans. The second part includes the blanks. The third part of the VA tears off when it receives the form. It is mailed back to the veteran as his receipt that his application has been received and is being processed. All it costs the veteran is a one cent stamp for postage when he sends it in.

Approximately 17,000,000 men are eligible for some of this money. Checks will range from 50 cents to about \$300, depending upon the age of a man, how much insurance he has and how long he has kept it in force. Whether or not he has converted his policy from term insurance won't make any difference in the size of the dividend.

VA hasn't yet determined exactly what the rates of payment will be. That is expected to be announced just before the checks are sent out next January.

**RETURN FROM VISIT IN EL PASO**

Misses Larry Waskom and Sue Pate returned Thursday from a several days visit in El Paso, and points in Old Mexico.

**Surprise Party Honors Visitor From New Jersey**

A surprise party was given in honor of Miss Thelma Geiger, sister-in-law of the Rev. William Howie of Haskell, at the C. Jones home by Mrs. Lillian Townsend. A good time was had by all.

Guests present were Miss Patty Bob Townsend, Miss La Veeta Bowen, Miss Jean Bowen, Miss Mary Jo Jones, Miss Jessie Jones, Miss Betty Nell Lytle, Miss Virginia Kirkland, Miss Billie Jean Kirkland, Miss Dorothy Russell, Miss Juanelle Russell, Miss Linda Russell, Mrs. Russell, Mr. C. E. Jones, Mrs. Lillian Townsend, Mrs. William Howie, Master Loyd Bowen, Master Robt. Bowen, Rev. William Geiger, Rev. C. E. Jones, Rev. Wm. Howie.

The party was given in honor of Miss Geiger, who flew to Abilene last month from Philadelphia, Pa., and has spent a pleasant month in Texas visiting with her brother, William Geiger, and the Howies at 401 2nd St. in Haskell.

Miss Geiger hails from New Jersey and will be flying home again the end of the week.

**Jas. W. Kennedy's Host Party at New Home in Rankin**

Mr. and Mrs. James W. Kennedy, formerly of Haskell, were host for a house warming in their new home in Rankin August 4. They are now living on the Shell lease at Upton Station since moving from Haskell August 1. There were twenty-five persons present comprised of Shell employees and surrounding ranchers. Those present were: Mr. and Mrs. A. Sanders and family, Mr. and Mrs. Red Hunt, Mr. and Mrs. Si Doate, Mr. and Mrs. C. Steele and family, Richard Payne, Wilma Payne, Wanda McDaniel and Adrian McDaniel.

**VISITING IN HOME OF MOTHER**

Prof. and Mrs. T. J. Ratliff of DeQuincy, La., are here for a visit in the home of his mother, Mrs. L. D. Ratliff and other relatives and friends.

**Haskell's Water Supply Can Never Be Source of Polio Because of Constant Chlorine Treatment, Official Declares**

(By J. R. Gilstrap, City Water Suppl.)

Despite the development of several cases of poliomyelitis in Haskell this year, citizens of our community can find assurance that there are no grounds for belief that polio comes from a public water supply so long as it is properly treated with chlorine. These facts are forcibly set out in excerpts in the closing paragraphs of this article from findings of Dr. Kenneth F. Maxcy, Professor of Epidemiology at John Hopkins University.

The City of Haskell has an Auto-Mat Chlorinator Machine to feed chlorine gas in our water supply at a proper rate. We maintain a chlorine residual of 1.5 parts per million gallons of water. This amount is approved by the U. S. Public Health Service as being sufficient to destroy any water-borne disease. We also have a good supply of H.T.H. which contains 70 per cent of chlorine, to use in outlying wells that do not have a chlorinator.

You may feel sure that your officials and water department employees are on guard to see that your water supply is safe at all times.

Below is a reprinted article telling of Dr. Maxcy's findings: "Reassurance that there is no evidence of the spread of poliomyelitis by public water supplies was given recently by one of the nation's leading epidemiologists, Kenneth F. Maxcy, M. D., Professor of Epidemiology at John Hopkins University. Writing for the Journal of the American Water Works Association, technical and professional society of the nation's water works experts, Dr. Maxcy surveyed the results of half a century of epidemiological studies and laboratory experiments by a host of investigators. In not a single one of these investigations was there found convincing evidence that pollution of a community water supply was responsible for exposure of consumers to infection with the polio virus.

"What Dr. Maxcy found to be definitely established is the fact that the principal means of communication of polio, not unlike common contagious diseases, is some form of personal contact, or, as he expressed it, some 'intimate personal association.' . . . realized in communal living of any social group, from the primitive to the most advanced, at any time of year, in any part of the world." And though it logically follows from this that the disease could be spread indirectly by flies, milk or water contaminated with the discharge from infected persons, all attempts to demonstrate the polio virus in suspected drinking water have so far been unsuccessful.

"Although he urged a continued investigation of the effect of standard water purification practices on the removal or inactivation of viruses, Dr. Maxcy did not hesitate to state that the present methods of water treatment, and particularly the dosage of free chlorine customarily used in water disinfection, afforded an adequate safeguard. 'Present day knowledge,' he concluded, 'does not justify anxiety over the safety of public water supplies so far as the spread of poliomyelitis is concerned.'"

Second, a new approach to the water problem in computing the economic loss from lack of water as well as from flood damages.

Third, is the possibility of the government obtaining more reimbursable revenue from the sale of domestic and industrial water from small dams on the upper tributaries than under the present multi-purpose dam policies.

Bandeen also urged Secretary Krug to lend support to the Hoover commission recommendation that domestic water be given priority of use in multi-purpose reservoirs.

Meanwhile the West Texas Chamber of Commerce has continued its hammering for more domestic water in West Texas and is advocating the construction of multi-city dams for the purpose of supplying municipalities with water.

**WTCC Cites New Facts to Support Area Dam Project**

A further examination of the facts of upstream water development in the light of domestic water may change conclusions of the Department of Interior, D. A. Bandeen, manager of the West Texas Chamber of Commerce, has written Secretary J. A. Krug.

The statement follows the 38-page letter written by Secretary Krug, in transmitting a Texas water study to Senator Lyndon Johnson. In this letter Krug said "It is doubtful that the repayment ability of the water users of many of the upstream developments in Texas will ever be found to be sufficient to equal the reimbursable costs."

This statement was challenged by WTCC. It called upon Secretary Krug to apply the formula of economic loss to lack of water as well as flood damage to criteria upon which multi-purpose dams may be built by the federal government.

"A further examination of this conclusion, we believe, will produce a wholly contrary result," the letter said.

"You will note in our report several new approaches to and facts on this water resource development problem, which I am sure will intrigue you."

They were listed: First, that West Texas has wholly insufficient water for domestic and industrial needs, which can only be overcome by upstream development.

Second, a new approach to the water problem in computing the economic loss from lack of water as well as from flood damages.

Third, is the possibility of the government obtaining more reimbursable revenue from the sale of domestic and industrial water from small dams on the upper tributaries than under the present multi-purpose dam policies.

Bandeen also urged Secretary Krug to lend support to the Hoover commission recommendation that domestic water be given priority of use in multi-purpose reservoirs.

Meanwhile the West Texas Chamber of Commerce has continued its hammering for more domestic water in West Texas and is advocating the construction of multi-city dams for the purpose of supplying municipalities with water.

**Best of Care Is Made Available to Polio Patients**

Every polio patient in Texas is getting the best available medical care, Joe W. Savage, executive director of the National Foundation for Infantile Paralysis, announced in Dallas following a 10 day survey of conditions in the major epidemic areas of the state.

Savage, who directs the nationwide fight against infantile paralysis from headquarters in New York, came to Texas to inspect polio conditions at first hand and to make sure that everything possible was being done to aid victims of the disease.

On his return trip he visited San Angelo, Dallas, Ft. Worth, Houston and San Antonio. In each city he discussed the situation with local chapter officials, physicians and hospital administrators and inspected treatment centers.

"The Texas chapters of The National Foundation are doing an outstanding and heart-warming job," Savage reported after surveying all areas in Texas where serious outbreaks of polio have occurred.

"In one of two places I found there was a shortage of trained personnel but steps were taken on the spot to supply this need, with hospital facilities, physicians, nurses and special equipment to meet the threat of polio."

Savage disclosed that \$315,000 in additional funds have already been furnished to local chapters in Texas so far this year by The National Foundation.

In addition to money, the Foundation has dispatched 62 nurses, 16 physical therapists, 5 physicians and 1 epidemic aid team to sections of Texas needing help. Also furnished were 23 respirators, 28 hot pack machines and a considerable amount of hospital equipment.

Savage disclosed that in 1948 Texas had a total of 1,765 polio cases.

The latest effort is on behalf of the Bob Baskin Dam Assn. for the construction of a dam on the Double Mountain Fork of the Brazos which would supply water for 25 or 30 drought stricken West Texas towns. The State Water Board at Austin has been asked for recovery of some 300,000 acre feet of water from the Brazos River Authority for this project. A meeting will be held with the BRA in the immediate future to further prosecute this request.

some 1,200 cases have been reported.

When asked whether sufficient funds were available to continue the battle against infantile paralysis, Savage stated that The Foundation, despite the heavy demands made on it this year, will meet all requests for assistance.

"However, if these serious and widespread epidemics continue,"

where epidemics necessary to be used only for range objectives. Such an appeal would be carried out in that way. In that way funds would be available to fight where epidemics

**Dinner Peppers**

2 large green peppers 1 cup grated  
4 cups boiling water 1 can condensed  
1 1/2 teaspoon salt 1 can cream of  
1 1/2 cups diced chicken soup  
1 lunch meat 1/2 cup Fat Milk  
1 cup drained, whole kernel corn, 1/2 cup liquid of corn  
cooked or canned

Cut peppers in halves, lengthwise. Remove seeds and fibers. Boil 2 minutes in boiling water and 1 teasp. salt. Drain. Turn on oven; set at moderately slow (350° F.). Mix meat, corn and 1/2 cup cheese. Mix soup, milk, corn liquid and remaining 1/2 teasp. salt. Mix 1/2 cup sauce with meat mixture. Put into peppers. Put into baking pan. Pour sauce around peppers. Top peppers with remaining 1/2 cup cheese. Bake 20 min., or until cheese is light brown. Makes 4 servings.  
\*Cream of mushroom soup also can be used.

## Cotton Sales Up In Southwest Markets

Cotton sales picked up a little in southwest markets last week as several mills started operating again, reports Production and Marketing Administration, U. S. Department of Agriculture.

Light to heavy rains increased insect infestation to the new crop and hot open weather was needed in most areas.

First bale of the season was received in Dallas and was auctioned off on Wednesday at a record price of \$1.17 per pound.

## Harvest in the Rio Grande Valley reached the half way mark and picking increased in the Coastal Bend Area.

Spot sales in Dallas totaled 26,152 bales compared with 18,689 bales a week earlier. Sales in Houston-Galveston reached 17,188 bales while only 9,824 bales were sold a week ago.

Dallas sold middling 15/16 inch offerings at 30.25 cents per pound compared with 30.75 cents a week earlier.

Basis in Dallas, Houston and Galveston dropped from last week.

Mills which will start operating soon had low stocks which accounted for improved demand for

## prompt shipments. However, purchases were confined to quantities needed at the present time.

Export interest increased slightly but prices were not attractive and volume of sales was small.

**RETURN TO CARNEGIE, OKLA.**  
Mr. and Mrs. Earl Roberts and Mrs. W. E. Grant and children, Bob, Lou Sarah and Leon have returned to Carnegie, Okla., after spending the week-end here in the homes of Mr. and Mrs. Sterling Edwards and Mrs. W. E. Jones. ### Cattle Raisers Assn. To Be Honored At Graham

Plans to honor members of the Texas and Southwestern Cattle Raisers' Association in the 16

Let us sharpen and recondition your Lawnmower on our New Ideal Sharpener.

**WOODSON**  
Radio & Electric

counties adjoining Young at the first annual Graham Rodeo, Aug. 25-27 have been announced.

The cattlemen, whose president, Bryant Edwards, has accepted an invitation to attend, will be special guests on Aug. 27. A memorial service will be held under the giant oak tree here, where the Texas cattlemen held their organization meeting in 1877.

Members of the association and Texas Rangers who assisted the early day cattlemen, will be invited to a sunrise breakfast to be held at Pump Station Park.

James G. Staples, president of the rodeo association, said Saturday a contract has been awarded to the Double S Ranch of Killeen to produce the show. Cash prizes for the rodeo will total \$1,500 added money.

Area towns and ranches have been invited to enter girl sponsors.

All rodeo performances will be at night in the new arena, on which work is nearing completion. Improvements include new grandstands seating 2,500.

Wolf-hunting was a favorite pursuit of the ancient Britons.

### Remedy For Heat Wave Is Given By Hypnotist

Just about everybody is suffering from the heat but Dr. David F. Tracy. He's catching a chill. Tracy, a hypnotist, according to a United Press story, has hypnotized himself into thinking that it's real cold outside. He doesn't see any reason why everyone else can't do the same thing and cut out all the boring small talk about the weather.

"Everybody is making themselves hotter and hotter by talking about how hot they are all the time," he said. "If they said it was getting colder and colder they'd really feel quite comfortable."

Tracy sneezed. "I carried it a little too far," he said. "I've been telling myself all week that I'm buried in an iceberg, and now I've got the sniffles."

Tracy said he had hypnotized a lot of people into thinking they were chilly, when the thermometer said 100. Once he "took" 15 people on an imaginary airplane ride so high in the sky that they nearly froze. He had one fellow shivering from three hours after he came out of the trance by telling him over and over that he still would be cold when he woke up.

For those who doubt Dr. Tracy, it is a matter of record that people can be put to "sleep" by hypnosis to such an extent that they do not feel any pain. Needles have been stuck painlessly into the arms of subjects. The bodies of many persons have been made so rigid that they could lie with their heads and feet on separate chairs.

For those who don't how to hypnotize themselves or don't want anyone else to hypnotize them, Tracy had a few helpful hints.

"Just keep telling yourself that it isn't really as hot as you think it is," he said. "Stop talking about the heat. Think about something pleasant and cool. Tell yourself

### 1949 Cotton Price Support Level Announced

The Agriculture Department announced Friday that it will support grower prices of 1949 crop cotton at a base rate of 27.23 cents a pound.

This rate is the average for 3/8-inch middling cotton, on a gross weight basis.

The rates for 15/16ths-inch middling — the grade and staple used by the cotton markets for determining price differentials — will average 29.43 cents a pound.

The department is required by law to support prices at 90 percent of the Aug. 1 parity price of cotton. This parity price was calculated to be 30.26 cents a pound, or the same as the department reported earlier in the day for July 15.

Last year's support rates were 28.79 cents for 3/8-inch middling and 30.74 cents for 15/16ths-inch middling.

Cotton will be supported by means of loans to growers on supplies stored in acceptable warehouses.

Loan rates will vary according to location as well as to grade and staple length of the cotton put under loan. The rate, for example, for middling 15-16-inch cotton, gross weight, will vary from a high of 30.17 cents in the concentrated cotton mill area of the Carolinas to a low of 28.68 cents in Arizona and California.

The loan rates tend to be highest nearest mill centers and lowest at the greatest distances from such centers.

A base support price of \$49.50 a ton for cottonseed was indicated by the report which showed a mid-July parity price of \$55 a ton for the product.

There are 40,000 kinds of fish known to science.

that the perspiration is drops of ice cold rain. You'll feel wonderful."

Tracy said it is hard to convince people that this kind of thing will work, because they enjoy being miserable too much.

"People never share their happiness," he said. "They only share their miseries."

### Rural Youth Day To Be Observed At State Fair

There is no more emphatic proof of the power of ignorance and carelessness to spread disease than is shown by the continued ravages of tuberculosis, which is responsible for more deaths between the ages of fifteen and forty-five than any other disease.

Despite the knowledge of its cause, spread, and curative procedures, tuberculosis continues to be a grave public health problem, and today it holds fifth place among the killing diseases in this state. This fact exists even though the majority of tuberculosis patients could have their condition arrested, if it were recognized early and proper treatment applied.

These facts are disclosed by Dr. Geo. W. Cox, State Health Officer, who says, "treatment of the early recognized case is essential to recovery. It is of equal importance, from a public health viewpoint, that the spread of this devastating infection be prevented. A more widespread appreciation of this fact would result in the saving of thousands of lives."

The State Health Officer added: "When a diagnosis of active tuberculosis has been made, examination of all other members of the family should follow as a matter of course. Tuberculosis runs in families, not because of any special susceptibility, but because it is communicable and easily transmitted from one member of the family to others."

To reduce the number of deaths caused by tuberculosis, Dr. Cox urges periodic examinations of all adults, including chest X-rays; frequent check-ups by physicians where active tuberculosis cases, and a more intelligent application of hygienic living principles.

The first sailing club was established in 1720 in Ireland.

### Special Care Is Needed Now For Fall Tomatoes

Fall tomatoes set out in July must receive special care if they are to produce a satisfactory crop, says J. F. Rosborough, extension horticulturist of Texas A&M College.

Thorough watering or irrigation at regular intervals is a must unless there is sufficient rainfall to keep them well sup-

plied with moisture, adds Rosborough. Weeds should be kept down. A good mulch covering will conserve moisture, help control weeds and grass and will help cool the ground. If a mulch is used, it isn't necessary to cultivate the soil.

If you have some tomato plants which produced a spring crop, and the plants are still in a healthy, vigorous condition, it may be possible to re-use the plants. Look near the ground line for small sprouts that may be growing there at the present time,

says Rosborough. Fertilize the plant and then cultivate, continuing to show any signs of deterioration. Printing was done in C...

## HASSEN'S

"The Store That Keeps Prices Down & Quality Up"

# First in Fashion

A glance at the new Ford and you'll agree with New York's famous Fashion Academy... it certainly is the "Fashion Car of the Year"! But its looks are only the cover of Ford's book of "firsts". Ford alone in its field offers you a 100-horsepower engine... an 8 cylinder engine... a V-type engine. Ford alone offers your choice of this V-8 or the new 95 "horse" Six.

You'll find Ford first in safety, too. Its heavy-gauge "Lifeguard" Body and 5 cross-member, box section frame make Ford 59% more rigid... its big "Picture Windows" give you 19 square feet of vision area... more than any other car in Ford's field.

# First in "Feel"

Drive a Ford and you'll feel the difference right away. You'll like the "feel" of that "Mid Ship" Ride... the "feel" of those bump-erasing "Hydra-Coil" and "Para-Flex" Springs... the 35% easier acting "Magic Action" Brakes... the easy "Finger-Tip" Steering. Come in for a ride and you'll order your Ford now.

## Take the wheel...try the new FORD "FEEL" at your Ford Dealer's

During its lifetime an elephant wears down six successive teeth on each side of its jaw, grinding down a total thickness of nearly a yard of tooth material.

**HOW TO SHOOT A RIFLE**

By ARTHUR E. COOK  
National and Olympic Rifle Champion

**Trigger Control**

Control of the trigger can make or break you as a shooter. The accepted movie hero technique of pulling at the trigger with hardly more than a glance at the target is bad. You can't hit anything consistently that way.

When your sights are aligned on the target the only way to get off the shot is to squeeze the trigger. Do not jerk and steady the rifle. Do not disturb that which is squeezed by a steady movement of the forefinger.

Speed and smoothness in the firing process can be combined by practicing the best way to practice is with an empty gun. Aim at a small bullseye in the room and carefully let off each shot. Since the rifle does

not actually fire you can see your mistakes.

Another thing—while squeezing the trigger stop breathing and relax. The rise and fall of the chest while breathing will throw your sights off the target. Relaxation will reduce your pulse beat, which is another disturbing factor in precision aiming.

One final hint—always follow through. By that I mean keep looking through the sights at the target even after the shot is fired. This prevents movement of the gun before the shot has left the muzzle and often enables you to see where your shot hit when you are shooting in the field.

(This instruction based on the booklet "HOW TO SHOOT A RIFLE," published by The National Rifle Association, Washington, D. C.)

Be sure of your target!

**All-District Team Lists Junior Players In Recent Tourney**

Five of the six teams entered in the District 3 TAAF Tournament played at Stamford last week placed members on the All-Tournament team.

Stamford, the tournament winner placed three, as did Plainview, winner of second place. Goree, Avoca, and Weibert each placed one player. Highest individual honors go to Tootie Port-

owod, Stamford Exchange Club Juniors third sacker who was adjudged most valuable player of the tournament. Picking the All-Tournament team were: Jack Fugua, tournament director; E. B. Britain, official scorer; Hal Fees, publicity director for the tournament.

The All-Tournament team is: Pitcher—Tommy Joe Johnson, Plainview; Catcher—Lester Byrd, Plainview; First base—Don Taylor, Avoca; Second base—James Raughton,

Stamford. Third base—Tootie Portwood, Stamford. Shortstop—Carl Marshall, Weibert. Outfield—Joey Coffman, Goree; James Brigham, Plainview; and Dan Smith, Stamford.

It is too bad our problems cannot be solved as easily in office as on the stump.—Miami Herald.

**Capital Needs Of Small Businesses Told In Pamphlet**

Persons about to go into business for the first time should have reliable information on the different types of capital that are needed, how much of each type are required for various kinds of business, and where they may be able to obtain such capital, the U. S. Department of Commerce, said Saturday.

To provide a better source of information for the several hundreds of thousands of small business men who undertake new enterprises each year, the Department has just issued a pamphlet entitled "Financial Considerations in the Establishment of a New Small Business." Copies may be obtained from the Dallas office, 1114 Commerce Street at 15 cents a copy.

This booklet discusses the importance of having the proper amount of equity or risk capital in the business to ensure stability and to provide a basis for borrowing from one or more of the sources of loan capital.

It also emphasizes the importance of managing the capital accounts in order to maintain a good balance between fixed and working capital. Several of the sources of capital most frequently available to small business are also discussed.

In addition to its usefulness to individuals planning new small businesses, the booklet will be of use to individuals who have recently undertaken new businesses, and to professional counselors. With two other publications of the Department—"The Small Businessman and His Financial Statements," at 15c a copy and "The Small Businessman and His Bank," at 10c a copy, the new booklet rounds out a valuable series of the more important principles of financial management, Miller said.

In order to encourage production in Britain, Charles II decreed that all dead bodies should be buried in woolen shrouds, according to the Encyclopedia Britannica.

**August Could Be Year's Most Costly Month For Drivers**

Pointing out that August of 1948 was the most dangerous of the year for motorists, Colonel Homer Garrison, Jr., Director of the Texas Department of Public Safety, appealed today to all drivers to exercise extreme caution in their driving this month. During August of 1948, 212 persons lost their lives in Texas traffic accidents surpassing the month of December for the first time. December, Colonel Garrison stated, was normally the month of most traffic fatalities.

Contributing factors toward August's high death rate, according to Garrison, is the fact that this month is a period of many vacation trips during which numerous people travel unfamiliar roads and devote too much attention to the scenery rather than their driving; too, August heat results in fatigue and induces drowsiness thus making this month the highest in vehicle with vehicle accidents.

The Texas Department of Public Safety has set as its goal less than 1949 traffic deaths in 1949. If not more than 162 persons are killed this month it will mean a saving in human lives of 50 over the same period last year and this, alone, would effect a 2 1/2% reduction for the entire year.

Some of the most susceptible plants to 2,4-D are: cotton, tomatoes, okra, vine crops such as cucumbers, sweet potatoes; legumes such as blackeye peas, peanuts; snapbeans, fruit trees, grapes, pecan trees and many ornamentals.

**Farm, Home Safety A Family Affair, Agent Says**

Farm and home safety is a family affair, says Mrs. Vee J. Howie, county Home Demonstration agent. It involves everyday habits of living, working and playing and there's no safety engineer on the job to remove hazards and prevent acts of thoughtlessness and carelessness, she adds.

"We must realize that the human element and our own attitudes play a big part in our own actions. Likewise, the home atmosphere can be partly responsible for many of the farm and home accidents," she says. Some of these contributing causes are worry, dissatisfaction, annoyance, anxiety and unhappiness. Mental conditions may cause one to take unnecessary risks, be thoughtless in doing a task or even cause the development of wrong attitudes toward safety.

1. How fast do rats reproduce?  
Rats begin to breed at two to three months of age, and the period of gestation is about 21 days. The average litter is probably ten, and one female may have from three to four litters a year. That is why it is so important to guard against this rodent and why rat control requires constant attention.

2. How often should the litter in my broiler house be changed?  
It should be changed when it becomes damp or when a contagious disease breaks out. Usually additional litter should be added every few days to a shallow covering placed over the floor before the chicks arrive. After each brood of chicks, of course, the broiler house should be thoroughly cleaned and disinfected and new litter should be provided.

3. Why should dairy cows receive a special grain ration during the dry period?  
High producing cows are unable to consume enough food nutrients to nourish the unborn calf, produce a heavy flow of milk, and keep up their bodies. Therefore, they need a special grain ration, high in minerals and vitamins, during the dry period. Data from the Research Farm of the Ralston Purina Company indicate that each pound of condition put on dry Holstein cows means about 25 pounds extra milk next lactation period.

Send your questions about livestock or poultry problems to FARM FACTS, 635 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

The home atmosphere, she says, should be cheerful; calmness should prevail, there should be understanding between all members of the family and all should work toward the development of a safety attitude for the family. "All accident hazards cannot be eliminated so we must learn to live safely with them. We teach our children by the examples we set and remember," she cautions, "don't teach by fear but by logic."

Farm safety is a family responsibility and it offers a challenge to every member of the family. Those who succeed will reap a harvest of happiness and satisfaction, concludes Mrs. Howie.

**Enriched Land Boosts Wheat Yield On Swisher Farm**

The use of fertilizers paid off last year for Hubert Duke of Happy, Texas, says Swisher county agent, Calvin D. Holcomb. Duke fertilized four different plots of wheat and in his report to Holcomb he said one plot was fertilized with 400 pounds of ammonium nitrate per acre and

from the plot he harvested 40.2 bushels of wheat per acre. On another, he applied 100 pounds per acre of the same fertilizer and harvested 46 bushels per acre. On a third plot, he used 200 pounds of 16-20-0 fertilizer per acre and harvested 45.4 bushels per acre and on the fourth, he used 100 pounds of 16-20-0 per acre and harvested 44.2 bushels per acre. From his check plot, he harvested only 28.2 bushels per acre.

The increased yields paid for the fertilized and left Duke a very good increase in money income per acre from each of the four applications that he made, says Holcomb. The per acre yield increases ranged from 16 to 20 bushels per acre and a little simple arithmetic shows the money income per acre was increased approximately 27.50 to 35.00 per acre. Take off the cost of the fertilizer, and you still have an excellent return on the investment.

Duke says that the yields produced were stronger than the stalks on the other plots. Fertilizers have been used for years and he says its use is becoming more common to increase his crop yields.
