In this group of Haskell people, all but one saw the first railroad come in to Haskell back in 1906. They rode the now defunct "Doodlebug" to Stamford Saturday on its last run. With John A. Couch on the steps, others in the group are Justice of the Peace C. K. Jones, Lon Pate, Mayor Courtney Hunt, T. C. Cahill, Fred Sanders, W. A. Holt, E. R. Lowe, Gene Tonn, C. L. Lewis, F. L. Peavy, Andrew Joeslet.

"Doodlebug" On Final Run Takes Vengeance on Car, and Reduces Frisky Steer To Hamburger Proportions

Wichita Valley Railway Company's "Doodlebug"—combination passenger, express and mail train which has served towns between Wichita Falls and Abilene for 19 years—may have been a tired vehicle Saturday when it started its last run on the line, but it still had enough pep and down-right meanness stored up to make its last "run" a memorable one.

Probably just to be remembered, the diesel-powered electric locomotive, which has been in the service for several months, and entered the hospital October 25th, suffering with a heart ailment.

A resident of Haskell county since 1907, moving his family here from Donley county, Mr. Paxton was connected with Buy-and-Link Mercantile Company in Rochester for several years before moving to Haskell. He was elected tax assessor and held that office from 1914 until 1926. Later he was assessor and collector for the Haskell Independent School District for a number of years. An active member of all Masonic bodies in Haskell, he was serving as secretary of Haskell Masonic Lodge at the time of his death. He had been a member of the First Christian church since the age of 14.

Born August 5, 1878 at Savoy, Texas, he was the son of Mr. and Mrs. James Patton. He married Miss Sun P'Pool at Anson, Texas, Dec. 16, 1900. Immediate survivors include his widow; three daughters, Mrs. Joe L. Searcy of Huntsville, Mrs. Virgil Lewis of Hawley, Mrs. Ben A. Ammons of Goose Creek; four grandchildren; a brother, Ben C. Paxton of Los Angeles, Calif., and three sisters, Mrs. Elizabeth Stevens of Paducah, Mrs. P. F. Boyd of Austin, and Mrs. J. R. Maxwell of Denton.

Funeral services were conducted Saturday at 10:30 a. m. in the First Christian church. Officiating was the pastor, Rev. F. C. Nickerson, Rev. Allen O. Webb, pastor of the First Baptist church, Rev. J. R. Swindell of Hawley, and Dennis P. Ratliff of Haskell.

Burial was in Willow Cemetery under the direction of Holden's Funeral Home, with Haskell Masonic Lodge, No. 682 in charge of graveside rites. Pallbearers were Courtney Hunt, George Fields, John A. Couch, Jesse B. Smith, Ed F. Fouts, R. V. Robertson, M. H. Young and Sam A. Roberts.

Mrs. M. Pierson, Former Resident, Dies In Beaumont

Mrs. Daisy Pierson, former Haskell resident and widow of the late Marshall Pierson, died at 11:30 a. m. Wednesday at the home of a son, Dr. Roger Pierson of Beaumont, Texas. She had been in ill health for some time.

Body of Mrs. Pierson was returned to Haskell and will lie in state at Holden's Funeral Home until time of the funeral services, which has been set for 3 p. m. Friday at the First Baptist church. The Rev. C. A. Powell, pastor of the O'Brien Baptist church, will officiate for the service and burial will be in Willow Cemetery.

Mrs. Pierson and her late husband made their home in Haskell for many years, and she was a long-time member of the Baptist church.

She is survived by three sons, Dr. Roger Pierson and Ryan Pierson of Beaumont, Marshall Pierson Jr., Houston, and a daughter, Mrs. John Hardesty, Big Springs, Texas. Two sisters also survive.

Community Singing Planned at Rule Church Sunday

The regular monthly Community Singing will be held Sunday afternoon, Nov. 6th, with the 5th Street Baptist church in Rule. These programs have become popular with singers and music lovers of the surrounding area and are attended by large crowds.

Sunday's program of singing will start promptly at 2 p. m., and everyone is urged to attend and make the event one of the best held to date.

Community Singing Planned at Rule Church Sunday

The regular monthly Community Singing will be held Sunday afternoon, Nov. 6th, with the 5th Street Baptist church in Rule. These programs have become popular with singers and music lovers of the surrounding area and are attended by large crowds.

Sunday's program of singing will start promptly at 2 p. m., and everyone is urged to attend and make the event one of the best held to date.

An order calling an election for the proposed issuance of \$200,000 in bonds by the Haskell Independent School District for new buildings and improvements will be formally passed on by the district's board or trustees at their next regular meeting on November 8, according to an announcement today from S. P. Herren, board president.

The election order is in response to a petition bearing more than triple the number of required signatures which was presented to the board last week. In making the announcement, Herren said that the growth of the district in population, and the present over-crowded condition of the system prompted the board in taking action on the petition.

The election will be called for Saturday, November 19, with the City Hall as the voting place for the entire district. The polls will open at eight o'clock and remain open until 6 p. m.

Included in the development program covered by the proposed

bond issue will be a 16 classroom elementary building of modern design, and the latest equipment that will house the first five grades of the entire district. The cost of this building is approximately \$149,000, and will include play rooms designed especially for health education, and complete lunchroom facilities.

Included in the program also, is a band hall and health education building to be used for both junior and senior high school pupils which will be erected at a cost of \$40,000. The remaining \$20,000 from the bond issue will be used in purchasing a building site for the elementary building, construction of permanent bus sheds, minor repairs to other buildings in the system, and for the purchase of equipment.

In calling the election, school officials said that the growth in scholastics in the district had made necessary many make-shift arrangements in the system, and the only solution was an enlarged plant.

The population of the district has increased approximately fifty per cent since 1930, with a scholastic increase in the school system of more than 20 per cent. Originally the Haskell school district was comprised of sixteen square miles, while today the system embraces more than 100 square miles. In addition, under existing state education laws, a maximum pupil load of 25 in average daily attendance for each classroom is recommended. In many cases the pupil load in the local system is considerably higher than is recommended.

Total enrollment for this year is expected to exceed 1,000 which will be an all-time high for the district.

Due to heavy enrollment and attendance, many make-shift arrangements are in effect at this time, with the condition becoming more acute. In 1942 sixteen classrooms were used for all elementary grades, while now 22 are required. To cope with this situation it has been necessary to house all seventh and eighth grade classes in the high school building, which utilizes one half of the room of that building. This condition cannot continue because of the steady increase in the number of high school pupils.

Sixty first grade pupils are housed in a temporary two-room (Continued on Last Page)

Ginnings Climb To 7,723 Bales Here For Season

Ginnings of the 1949 cotton crop in Haskell swung rapidly upward this week as sunshine dispelled moisture from last week's rains, and up to Thursday morning a total of 7,723 bales had been turned out by the five local gin plants.

This was an increase from the previous week's total of almost 2,000 bales, and the same trend was reported over the county as the cotton harvest was getting into full swing. Up to the same date last week, 5,815 bales had been ginned here.

No figures were available on the county ginning total, but the government report as of Oct. 1, will be made available within the next few days, with the total expected to be in the neighborhood of 20,000 bales.

Lack of sufficient workers to gather the crop continues to plague cotton growers, but the number of laborers coming here has exceeded pre-season estimates, most farmers declare. They attribute this to the fact that wages are maintained at a high level compared with other sections and the further fact that the yield in Haskell county is far above production in other areas of Central West Texas.

HHS Indians Face Tough Obstacle In Greyhounds

With the Anson Tiger milestone safely in the winning column in their conference title chase, HHS Indians were readying this week for what many fans believe and have contended from the season's start will be their most crucial game—the invasion of the Throckmorton Greyhounds Friday night at Indian Field.

While the Indians were taking an easy win over the Bengals from Jones county, Throckmorton surged high on the District 6-A rating by defeating the Stamford Bulldogs, 12-6 last week. The Indians narrowly edged by the Bulldogs just a few weeks ago.

The strong Indian squad is rated over the fleet Bengals, but given any sort of a break, the Throckmorton lads can easily prove the unsettling hurdle to trip the locals. Too, they will field some husky, experienced men in the determined squad that lines up against the Indians. For that reason, Coaches Roten, Smith and Overton have demanded incessant drilling and strategy studies for the Indians all during the week, in order to have the local at the peak of power for Friday's tilt.

Game time will be 7:30, and a play by play account of the game will be called over a public address system in the press box.

Haskell's Share In Game With Anson Totals \$567.68

Haskell's share in net receipts from the Haskell-Anson football game here last Friday night amounted to a total of \$567.68, according to the financial report made to the Haskell Athletic Association. Paid admissions to the game included 1,095 adults and 247 students, for total ticket sales amounting to \$920.05. From this was deducted \$199.69 for federal tax on admissions, and expenses of officials, etc., leaving total net receipt of \$720.36 which was divided equally between the two schools. In addition Haskell received \$207.50 as net from sale of reserved seat tickets, for a total of \$567.78.

On Eve of Season's Most Crucial Game, Giant Pep Rally Scheduled Friday

With interest at high pitch, a giant pep rally is to be held in the high school auditorium Friday afternoon at 3 o'clock, prior to the Haskell-Throckmorton football game to be played that night at 7:30.

Realizing the importance of the game in the Indian's fight for district championship honors, and the strength of the Throckmorton team local fans are invited to the rally and several are to be called for short pep talks.

The band and pep squad will occupy major roles, with members of the team making short talks. Also on the program will be team coaches and school officials.

Members of the newly-formed Quarterback Club are co-operating in arrangements for the rally, and they are urging attendance by the public.

License Examiner Gets Extra Days on Schedule Here

Addition of two days each month in Haskell to the schedule of Joe Daws, driver's license examiner for the State Department of Public Safety, was announced this week.

In addition to being in Haskell on Saturday of each week, Mr. Daws will also be here each second and fourth Tuesday at his office in the courthouse, beginning next Tuesday, Nov. 8th.

Addition of the first of the week date will be a great convenience to many people, especially business men and employed people, who have found it difficult to spare the time for taking examinations or tests for license on Saturday.

RULE MAKING FINAL PLANS FOR ARMISTICE DAY CELEBRATION

Plans are being completed this week by Rule civic leaders and members of the American Legion Post of that city for the annual Armistice Celebration to be held Friday, Nov. 11. All merchants and businessmen of Rule are co-operating in advance plans for the event, which has developed into one of the major Armistice Day attractions in this area of Central West Texas.

Opening feature of the day's program will be a huge parade made up of decorated floats, merchants entries, school bands and pep squads, and other numerous divisions.

Highlighting the afternoon program will be a football game between the strong Rule and Woodson high school teams. The game will begin promptly at 2 o'clock.

Night features of the celebration will include two dances. Entertainment attractions will be furnished by a large carnival company which has booked for the entire week in Rule.

HERE FROM FORT WORTH

Mr. and Mrs. Jack Bettis and family of Fort Worth, visited over the week end with his mother, Mrs. L. H. Cooper and Mr. Cooper and other relatives.

Mr. and Mrs. Harold Spain and children spent the week end in Farmersville, where they visited his mother, Mrs. J. W. Spain, who has been ill for some time.

Debts Due Government By Veterans Will Be Deducted From NSLI Dividend Refunds

More than a half million veterans who owe the government money as the result of overpayments on subsistence allowances

or other benefits or defaults on loans guaranteed by the Veterans Administration may find all or part of their share of the forthcoming special dividend payment on National Service Life Insur-

ance deducted to cover their debts, VA said today. VA estimated that somewhere between 20 and 30 million dollars of such debts may be collected from the NSLI dividends.

All of the individuals concerned are aware of their indebtedness to the government and know that it is deductible from other VA payments to which they may be entitled, the agency said.

Some 600,000 veterans are currently indebted to VA for a total of about 70 million dollars. The bulk of this amount constitutes overpayments on subsistence allowances for veterans taking educational courses or training under the GI Bill.

Other types of indebtedness are overpayments on pension, compensation or readjustment allowances, and losses made good to lenders on defaulted GI loans.

A considerable number of veterans are now repaying indebtedness by having deductions from their monthly checks. When the overpayment is wiped out, as it may be by the dividend deductions, there will be no further monthly withholding.

Identical Names Add to Worries of Postal Workers

When confusing things happen, particularly in a mix-up of people's names, it's almost certain that the post office will come in for a major share of confusion, according to Postmaster Harold Spain.

The addition of several thousand workers to the county's population during the cotton gathering season is just naturally going to cause a lot of mix-ups in names, the postmaster fears.

Identity of names, particularly those with surnames of Smith, Jones, Johnson, Roberts, brings the most confusion, he said.

One or more itinerant workers may have the identical initials as some local resident, or the same given name.

This happens more in the case of women than men, he adds. And there's nothing about the outside of a letter that can tell which John Smith or Jane Doe it is meant for.

So, a good many of the county's permanent residents may find themselves at one time or another from now until Christmas reading apiece of mail personal in nature, from someone they never heard of. If and when that happens, return the letter as near intact as possible and affix a label that will be provided showing it has been opened by mistake.

When Texas Technological college opened its doors in 1925 the student population totalled 920. Today, more than 5,700 students are enrolled.

Spooks Center Hallowe'en Activities Around High School Building

As usually the case, activities of Hallowe'en pranksters were centered Monday night in the vicinity of the High School buildings, where the grounds were cluttered and piled high with almost every conceivable type of movable vehicle, ranging from a huge Highway Department street roller weighing several tons, a large school bus, automobiles, tractors, trailers, etc. And signs removed from downtown store fronts adorned several of the buildings.

Some destructiveness was evident, particularly where vehicles had been overturned after being moved to the school grounds, but all in all, property damage amounted to about the average Hallowe'en toll.

The downtown business section was singularly free of evidence of the pranksters, with the exception of several crates and boxes littering the courthouse lawn, and a single small building of the type usually associated with Hallowe'en which occupied a prominent place on the north lawn of the courthouse. Plate glass windows carried their share of soaped Hallowe'en signs, too.

About the most serious acts, a violation which carries a severe penalty, was damage done to numerous mail boxes along the highway south of town, it was reported. Some of the mail boxes were torn down or moved, others so badly damaged they will have to be replaced.

Homemakers Given Pointers in Choosing Electric Iron

If you're in the market for an electric hand iron, you might take into consideration these points listed by Extension home management specialists of Texas A. and M. College.

Most homemakers when buying an iron, will lift it first to test its weight and ease of handling. An iron weighing no more than four pounds saves energy in lifting and will do the work as well as a heavier one. The handle should be shaped to fit the hand comfortably and made of a heat-resistant material, such as plastic or wood.

A power rating of about 1,000 watts is desirable for fast heat-

ing, the specialists say. A dial to control heat is desirable, located where it is easy to read and move when ironing.

A beveled or slanting edge is useful for ironing around but-

tons. A large sole plate saves time when family ironing includes considerable flat work, although a smaller, narrower iron is sometimes more convenient.

Look the cord over, the specialists suggest. It should be well insulated, with a secure, flexible connection where it is attached to the iron.

The Oregon Experiment Station recently conducted a time and motion study, in which it was

proved that a dial support or a dial to set the iron is good as time as the iron. However, the iron are relics from heated ironing energy.

The juice from such as crabapples can be used for ham.

1950 Nash Airflyte \$73 to \$140 Lower in Price!

Hydra-Matic Drive Now Available in the Nash Ambassador

Come in and see the greatest cars in all Nash history—priced \$73 to \$140 less than last year—priced to make this 1950 Nash Airflyte yours!

You will see the world's most modern car interiors with Airliner Reclining Seat... Twin Beds... Weather Eye... Uniscope... curved, undivided windshield.

More Miles Per Gallon

You will see the latest, greatest developments in Super-Compression engines—greater power—brilliant new performance—and with Airflyte Construction you get more than 25 miles to the gallon in the big Nash Statesman at average highway speed.

You will discover the world's smoothest ride—made possible only by double-rigid Airflyte Construction and softer coil springing on all four wheels.

20.7% Less Air Drag

You will see streamlined beauty with 20.7% less air drag than average of other cars tested—you get extra reserve power—better economy—less wind noise.

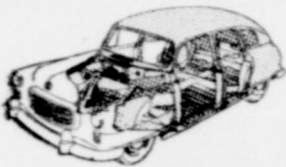

And you can have Hydra-Matic Drive with exclusive Selecto-Lift Starting, optional extra on the Ambassador—one of the great improvements in the Nash Airflyte for 1950. Let your Nash dealer demonstrate.

NASH OFFERS YOU ALL 3 TRANSMISSIONS

Yes, you can choose the transmission that best suits your pocketbook and driving requirements: 1. Hydra-Matic Drive optional extra in the Nash Ambassador... 2. Automatic Overdrive optional extra in the Ambassador and Statesman... 3. Synchromesh Transmission standard on all models.

Airflyte Construction Stays New Years Longer

Alone in Nash, the entire frame and body, roof, floor and pillars are welded into one single, solid unit, squeak-free and rattle-proof. Twice as rigid, it gives new safety, new economy, makes possible a softer, smoother ride—stays new years longer—means higher resale value.

THERE'S MUCH OF TOMORROW IN ALL NASH DOES TODAY

It all Starts with the weather

If the weather didn't change, you could have all night with ordinary blankets. THE WEATHER DOES CHANGE why with ordinary blankets sometimes you are up unbearably hot... sometimes you are shivering.

Select your 'Personal' Sleeping Comfort...

With the General Electric Automatic Blanket you can have the personal warmth you desire, changes in the weather.

It's easy. Just set the dial on the blanket to the warmth you desire. This "just-right" warmth is automatically maintained... regardless of temperature changes... all night long.

When you have determined your "personal" comfort zone, you may leave the dial set there. Actually, the control need be set only once a season.

THE AUTOMATIC ELECTRIC BLANKET gives you perfect sleeping comfort. It automatically keeps you at the same cozy temperature all night long, your sleeping comfort no longer disturbed by the changeable whims of West Texas Weather.

With an Automatic Blanket you enjoy:

- Warmth Without Weight
- Just-Right Warmth All Night Long
- Eliminate Extra Bedding
- Prewarmed Bed
- Sleep All Winter in Summer-Weight Night Clothes
- G-E Automatic Blanket is Washable

For additional information concerning "sleeping comfort" see your local dealer or any West Texas Utilities Co. employee

West Texas Utilities Company

Get Disabled

ability and dependency payments estimated at \$112 million annually under the provisions of a bill recently signed by President Truman, the Texas Military District announced here today.

The Veterans Administration estimated that 2,024,000 veterans will be effected under the section liberalizing disability and death benefits. Men of World War I with disabilities presumed to be service-connected will get full compensation instead of the current 47 per cent.

Provisions of the bill applicable to veterans of all three wars increase the length of time for which payments may be made for arrested cases of tuberculosis and set up a new disability schedule based on \$150 monthly for total disability and \$13 for 10 per cent disability. The old rate was \$135 and \$13.80.

In addition the bill grants increased monthly allowances to widows with a child or children; and states that veterans with 50 per cent or more disability will receive additional payments for dependents.

Rainbow Sewing Club Meets With Mrs. Johnson

The members of the Rainbow Sewing club met in the home of Mrs. W. E. Johnson Tuesday night, Oct. 25th, for a masquerade Halloween party.

The guests were met at the door by the Charming Old Witch, the lady of the house. The door entrance was lighted with pumpkin jack-o lanterns, and the entertaining rooms were attractively decorated with pumpkins, ovals, black cats and witches riding broom sticks, ghost pictures were hanging draped in colors on the wall.

The party started off with a bang, everyone singing the "Halloween Song" followed by the "Wash Day Song."

Spooky games and contests were played throughout the evening. A visitor, Mrs. W. D. Kemp won the prize in composing the best Halloween poetry. Mrs. Tony Patterson won the prize for being the most comical spook.

Quite a lot of excitement was created when the room of horrors was visited. Many fell by the wayside when the door of the dark closet swung open exposing the hidden secret. Mrs. Walter Rogers and Mrs. Tony Patterson won the lucky prize by guessing the scary object.

Flashlight pictures were taken of the group in their funny faces. Refreshments of witch brew, wagon wheel cakes, and spider cookies were served to the following:

Mmes. Winnie Copeland, Eva Chapman, Flossie Rogers, Helen Johnson, Annie Pearl Lusk, Stella Jesselet, Sally Patterson, Claudia Mae Bland, Janie Whitaker, Zad Smith, Ethel Eard, Lena Kemp, Emma Bland, Eddie Johnson, Irene Fouts.

Over 60 Texas public schools and civic groups use films from the Texas Technological college extension service each month.

Slower Trade Is Seen In Spot Cotton Market

Trading in southwest spot cotton markets slowed down last week from the brisk pace of previous weeks, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Rains over much of Texas and Oklahoma brought picking and ginning to a standstill. Also, many farmers have just about finished picking their crop in communities where labor has been adequate.

The basis in the Dallas, Houston and Galveston markets was firm and about unchanged from a week ago. Friday's closing quotation on Middling 15-16 inch cotton was 75 cents per bale higher than Monday, but \$7 to \$8 per bale lower than last year in the corresponding Friday.

Domestic and export demand continued to be very good for Oklahoma and Texas cotton. However, the trade reported that farmers were offering less freely than in recent weeks. This showed up in the heavy receipts of cotton at various USDA classing offices to be classed prior to going into the government loan program.

Demand from Japanese interests was very good for Bright Strict Good Ordinary to Strict Low Middling in the shorter staple lengths, but prices were very weak.

In contrast, prices strengthened for White grades Middling and better in the medium and longer staples.

Willing Workers HD Club Has Annual Business Meeting

The Willing Workers H.D. Club met in their regular meeting on Thursday, Oct. 27th, at 2:30 p. m. for the annual reports of committees and officers on the year's work.

The program was opened by singing, This Is My Father's World, led by Mrs. D. N. Powell. Roll call was answered with the demonstration or timely topic

I have found most helpful. A box of new clothing and personal articles was packed to send to the twelve year old girl in Girlstown that the club sponsors.

Girlstown started near Buffalo Gap in Taylor county on March 13th, with Miss Amelia Anthony as founder and moved in July to Whiteface, Texas, southwest of Levelland, to a 1400 acre ranch given by T. B. Duggan of Lubbock. Nine girls, three of them identical triplets, made the move with Miss Anthony and her assistant, Miss Helen Clark, who instructs in music and dramatics.

Mrs. S. E. Lewis gave the T.H. D.A. news when she told of the work of the Taylor county home demonstration club members are doing toward landscaping and home beautification in their club activities. Assisted by the H. D. agent, Miss Annie Lucy Lane, they are learning to construct stepping stone walks around their farm homes.

Mrs. Cecil Jetton gave the timely topic when she discussed with the members the ten constitutional amendments that come up for vote November 8th.

For the slick trick, Mrs. Eugene Wheeler told how to prevent syrup from forming a mold on top in the bucket. Remove the lid and leave it off and tie a cloth over the top of the bucket to allow air to circulate and the syrup will remain free of mold.

Secret Pal gifts were exchanged and refreshments of doughnuts, and coffee were served by the hostesses, Mesdames Nathan Foster and Henry Downey, to eleven members and two visitors, Mrs. Henry Foster and C. W. Jetton.

District Federation Of Music Clubs To Meet In Stamford

The First District Texas Federation of Music Clubs will hold its 25th annual convention in Stamford November 3, 4, and 5.

The 25th anniversary will provide the theme for a reception Thursday afternoon and a dinner Friday night.

The Harmony Club of Haskell is a charter member of the Federation. This club is honored this year by having one of its members as recording secretary of the First District, Mrs. Tommie B. Hawkins, who will attend all meetings of the convention.

Other representatives of the Harmony Club at the meeting will include Mrs. O. E. Patterson, club president, who will go as club delegate; Miss Caroline Turner, soloist, who will be accompanied by Mrs. J. E. Cadenhead, Sr.; and Mrs. C. L. Lewis, who has been asked by the First District program committee to present a humorous sketch arranged from excerpts taken from the history of the Harmony club.

Jesselet HD Club Plans Achievement Day Nov. 8th

Jesselet Home Demonstration club will meet in the home of Mrs. J. H. Reding on Tuesday, Nov. 8th, at 2:00 p. m. for Achievement day. All members are urged to be present and to bring some articles made during the year to put on display. The club will also visit in other members' homes, if time permits. Visitors are always welcome.

East Side WMU Has Royal Service Program

Members of the East Side W. M. U. held their regular Royal Service program when they met October 17th in the church.

Mrs. W. T. Friday, vice-president, called the meeting to order. Members taking part in the program were Mesdames John Lamkin, Tom Mercer, Emory Anderson, Frank Patterson, John McGuire, Joan Lewis, Willie Farrell, and Rev. and Mrs. W. T. Priddy.

Next regular meeting will be Nov. 7.

Dennis Chapel HD Club Meets With Miss Alexander

The Dennis Chapel H. D. Club met in the home of Miss Ima Alexander Friday, Oct. 21, with eleven members and two visitors present. Mrs. Marshall gave the timely topic and Mrs. Hix gave a slick trick. Club Pal gifts were exchanged.

They will meet the first Friday in November with Mrs. Cecil Hutchinson.

Refreshments of cake, sandwiches and punch was served. CARD OF THANKS To all our friends whose kind deeds and words were a service of comfort and strength at the time of the illness and death of our husband and father, we are deeply grateful.—Mrs. R. J. Paxton, Hattie Lucille Searcy, Lillian Lewis, Jewell Ammons.

Fatigue seems to be a contributing cause of farm accidents. Records show a definite increase in farm accidents at the time of day when farm people are becoming tired.

Potatoes can be stored in crates or baskets; beets and carrots in boxes of damp sand. All should be stored under moist conditions at temperatures ranging from 32 to 40 degrees.

SAVE money at Gas Range Dealers' OLD STOVE ROUND-UP TRADE-IN SALE

Only the New automatic gas ranges give you all these advantages

- SIMULTANEOUS BAKING AND BROILING—Dinner broils while cookies bake. Oven-above-the-broiler arrangement as illustrated above saves meal preparation time and fuel. CIRCULATED FRESH AIR BAKING—Breads, cakes and pastries bake uniformly, brown evenly without moving pans from one rack to another. Circulating heat does it. Gas alone has it. SMOKELESS BROILING—Only the live gas flame instantly consumes greasy vapors produced in broiling. THERE'S NO SUBSTITUTE for flame cooking and gas is the magic flame for broiling, roasting, baking, frying, broiling and simmering.

New gas ranges cost less to buy; operate for one-fourth the cost of non-flame method; and require no expensive installation costs. During Old Stove Round-Up you can get a new gas range with the biggest trade-in allowance, the smallest down payment and easiest monthly payments in 10 years. See your Gas Range Dealer or Lone Star Gas Company today.

LONE STAR GAS COMPANY

Debts Due Government By Veterans Will Be Deducted From NSLI Dividend Refunds

More than a half million veterans who owe the government money as the result of overpayments on subsistence allowances

or other benefits or defaults on loans guaranteed by the Veterans Administration may find all or part of their share of the forthcoming special dividend payment on National Service Life Insur-

ance deducted to cover their debts, VA said today. VA estimated that somewhere between 20 and 30 million dollars of such debts may be collected from the NSLI dividends.

All of the individuals concerned are aware of their indebtedness to the government and know that it is deductible from other VA payments to which they may be entitled, the agency said.

Some 600,000 veterans are currently indebted to VA for a total of about 70 million dollars. The bulk of this amount constitutes overpayments on subsistence allowances for veterans taking educational courses or training under the GI Bill.

Other types of indebtedness are overpayments on pension, compensation or readjustment allowances, and losses made good to lenders on defaulted GI loans.

A considerable number of veterans are now repaying indebtedness by having deductions from their monthly checks. When the overpayment is wiped out, as it may be by the dividend deductions, there will be no further monthly withholding.

Identical Names Add to Worries of Postal Workers

When confusing things happen, particularly in a mix-up of people's names, it's almost certain that the post office will come in for a major share of confusion, according to Postmaster Harold Spain.

The addition of several thousand workers to the county's population during the cotton gathering season is just naturally going to cause a lot of mix-ups in names, the postmaster fears.

Identity of names, particularly those with surnames of Smith, Jones, Johnson, Roberts, brings the most confusion, he said.

One or more itinerant workers may have the identical initials as some local resident, or the same given name.

This happens more in the case of women than men, he adds. And there's nothing about the outside of a letter that can tell which John Smith or Jane Doe it is meant for.

So, a good many of the county's permanent residents may find themselves at one time or another from now until Christmas reading a piece of mail personal in nature, from someone they never heard of. If and when that happens, return the letter as near intact as possible and affix a label that will be provided showing it has been opened by mistake.

When Texas Technological college opened its doors in 1925 the student population totalled 920. Today, more than 5,700 students are enrolled.

Spooks Center Hallowe'en Activities Around High School Building

As usually the case, activities of Hallowe'en pranksters were centered Monday night in the vicinity of the High School buildings, where the grounds were cluttered and piled high with almost every conceivable type of movable vehicle, ranging from a huge Highway Department street roller weighing several tons, a large school bus, automobiles, trailers, etc. And signs removed from downtown store fronts adorned several of the buildings.

Some destructiveness was evident, particularly where vehicles had been overturned after being moved to the school grounds, but all in all, property damage amounted to about the average Hallowe'en toll.

The downtown business section was singularly free of evidence of the pranksters, with the exception of several crates and boxes littering the courthouse lawn, and a single small building of the type usually associated with Hallowe'en which occupied a prominent place on the north lawn of the courthouse. Plate glass windows carried their share of soaped Hallowe'en signs, too.

About the most serious acts, a violation which carries a severe penalty, was damage done to numerous mail boxes along the highway south of town, it was reported. Some of the mail boxes were torn down or moved, others so badly damaged they will have to be replaced.

Homemakers Given Pointers in Choosing Electric Iron

If you're in the market for an electric hand iron, you might take into consideration these points listed by Extension home management specialists of Texas A. and M. College.

Most homemakers when buying an iron, will lift it first to test its weight and ease of handling. An iron weighing no more than four pounds saves energy in lifting and will do the work as well as a heavier one. The handle should be shaped to fit the hand comfortably and made of a heat-resistant material, such as plastic or wood.

A power rating of about 1,000 watts is desirable for fast heat-

ing, the specialists say. A dial to control heat is desirable, located where it is easy to read and move when ironing. A beveled or slanting edge is useful for ironing around but-

tons. A large sole plate saves time when family ironing includes considerable flat work, although a smaller, narrower iron is sometimes more convenient.

Look the cord over, the specialists suggest. It should be well insulated, with a secure, flexible connection where it is attached to the iron.

The Oregon Experiment Station recently conducted a time and motion study, in which it was

proved that a dial support or a dial to get the iron ready as time goes on. However, the heated iron saves energy. The juice from such as cranberry peels can be used as ed ham.

1950 Nash Airflyte \$73 to \$140 Lower in Price!

Hydra-Matic Drive Now Available in the Nash Ambassador

Come in and see the greatest cars in all Nash history—priced \$73 to \$140 less than last year—priced to make this 1950 Nash Airflyte yours!

You will see the world's most modern car interiors with Airliner Reclining Seat... Twin Beds... Weather Eye... Uniscope... curved, undivided windshield.

More Miles Per Gallon

You will see the latest, greatest developments in Super-Compression engines—greater power—brilliant new performance—and with Airflyte Construction you get more than 25 miles to the gallon in the big Nash Statesman at average highway speed.

You will discover the world's smoothest ride—made possible only by double-rigid Airflyte Construction and softer coil springing on all four wheels.

20.7% Less Air Drag

You will see streamlined beauty with 20.7% less air drag than average of other cars tested—you get extra reserve power—better economy—less wind noise.

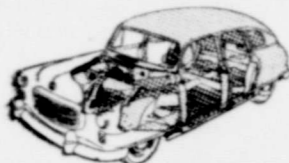

And you can have Hydra-Matic Drive with exclusive Selecto-Lift Starting, optional extra on the Ambassador—one of the great improvements in the Nash Airflyte for 1950. Let your Nash dealer demonstrate.

NASH OFFERS YOU ALL 3 TRANSMISSIONS

Yes, you can choose the transmission that best suits your pocketbook and driving requirements: 1. Hydra-Matic Drive optional extra in the Nash Ambassador... 2. Automatic Overdrive optional extra in the Ambassador and Statesman... 3. Synchromesh Transmission standard on all models.

Airflyte Construction Stays New Years Longer

Alone in Nash, the entire frame and body, roof, floor and pillars are welded into one single, solid unit, squeak-free and rattle-proof. Twice as rigid, it gives new safety, new economy, makes possible a softer, smoother ride—stays new years longer—means higher resale value.

THERE'S MUCH OF TOMORROW IN ALL NASH DOES TODAY

It all Starts with the weather

If the weather didn't change, you could have the personal warmth you desire all night with ordinary blankets. THE WEATHER DOES CHANGE why with ordinary blankets sometimes you are up unbearably hot... sometimes you are shivering.

Select your "Personal" Sleeping Comfort...

With the General Electric Automatic Electric Blanket you can have the personal warmth you desire all night with ordinary blankets.

It's easy. Just set the dial on the blanket to the warmth you desire. This "just-what-you-need" blanket is automatically maintained... regulates temperature changes... all night long.

When you have determined your "personal" comfort zone, you may leave the blanket as is. Actually, the control need be set only once a season.

THE AUTOMATIC ELECTRIC BLANKET gives you perfect sleeping comfort. It automatically keeps you at the same cozy temperature all night long, your sleeping comfort no longer disturbed by the changeable whims of West Texas Weather.

With an Automatic Blanket you enjoy:

- Warmth Without Weight
- Just-Right Warmth All Night Long
- Eliminate Extra Bedding
- Prewarmed Bed
- Sleep All Winter in Summer-Weight Night Clothes
- G-E Automatic Blanket is Washable

For additional information concerning "sleeping comfort" see your local dealer or any West Texas Utilities Co. employee

West Texas Utilities Company

To Get Disabled

ability and dependency payments estimated at \$112 million annually under the provisions of a bill recently signed by President Truman, the Texas Military District announced here today.

The Veterans Administration estimated that 2,024,000 veterans will be effected under the section liberalizing disability and death benefits. Men of World War I with disabilities presumed to be service-connected will get full compensation instead of the current 47 per cent.

Provisions of the bill applicable to veterans of all three wars increase the length of time for which payments may be made for arrested cases of tuberculosis and set up a new disability schedule based on \$150 monthly for total disability and \$15 for 10 per cent disability. The old rate was \$135 and \$13.80.

In addition the bill grants increased monthly allowances to widows with a child or children; and states that veterans with 50 per cent or more disability will receive additional payments for dependents.

Rainbow Sewing Club Meets With Mrs. Johnson

The members of the Rainbow Sewing club met in the home of Mrs. W. E. Johnson Tuesday night, Oct. 25th, for a masquerade Halloween party.

The guests were met at the door by the Charming Old Witch, the lady of the house. The door entrance was lighted with pumpkin jack-o lanterns, and the entertaining rooms were attractively decorated with pumpkins, ovals, black cats and witches riding broom sticks, ghost pictures were hanging draped in colors on the wall.

The party started off with a bang, everyone singing the "Halloween Song", followed by the "Wash Day Song."

Spooky games and contests were played throughout the evening. A visitor, Mrs. W. D. Kemp won the prize in composing the best Halloween poetry. Mrs. Tony Patterson won the prize for being the most comical spook.

Quite a lot of excitement was created when the room of horrors was visited. Many fell by the wayside when the door of the dark closet swung open exposing the hidden secret. Mrs. Walter Rogers and Mrs. Tony Patterson won the lucky prize by guessing the scary object.

Flashlight pictures were taken of the group in their funny faces. Refreshments of witch brew, wafers, wheel cakes, and spider cookies were served to the following:

Mmes. Winnie Copeland, Eva Chapman, Flossie Rogers, Helen Johnson, Annie Pearl Lusk, Stella Josselot, Sally Patterson, Claudia Mae Bland, Janie Whitaker, Zad Smith, Ethel Eird, Lena Kemp, Emma Bland, Eldie Johnson, Lezene Fouts.

Over 60 Texas public schools and civic groups use films from the Texas Technological college extension service each month.

Slower Trade Is Seen In Spot Cotton Market

Trading in southwest spot cotton markets slowed down last week from the brisk pace of previous weeks, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Rains over much of Texas and Oklahoma brought picking and ginning to a standstill. Also, many farmers have just about finished picking their crop in communities where labor has been adequate.

The basis in the Dallas, Houston and Galveston markets was firm and about unchanged from a week ago. Friday's closing quotation on Middling 15-16 inch cotton was 75 cents per bale higher than Monday, but \$7 to \$8 per bale lower than last year on the corresponding Friday.

Domestic and export demand continued to be very good for Oklahoma and Texas cotton. However, the trade reported that farmers were offering less freely than in recent weeks. This showed up in the heavy receipts of cotton at various USDA classing offices to be classed prior to going into the government loan program.

Demand from Japanese interests was very good for Bright Strict Good Ordinary to Strict Low Middling in the shorter staple lengths, but prices were very weak.

In contrast, prices strengthened for White grades Middling and better in the medium and longer staples.

Willing Workers HD Club Has Annual Business Meeting

The Willing Workers H.D. Club met in their regular meeting on Thursday, Oct. 27th, at 2:30 p. m. for the annual reports of committees and officers on the year's work.

The program was opened by singing, This Is My Father's World, led by Mrs. D. N. Powell. Roll call was answered with the demonstration or timely topic

FARM LOANS T. C. CAHILL, Agent, Haskell

John Hancock Mutual Life Insurance Co. 4% farm loans, time 10 to 20 years.

I have found most helpful. A box of new clothing and personal articles was packed to send to the twelve year old girl in Girlstown that the club sponsors.

Girlstown started near Buffalo Gap in Taylor county on March 13th, with Miss Amelia Anthony as founder and moved in July to Whiteface, Texas, southwest of Levelland, to a 1400 acre ranch given by T. B. Duggan of Lubbock. Nine girls, three of them identical triplets, made the move with Miss Anthony and her assistant, Miss Helen Clark, who instructs in music and dramatics.

Mrs. S. E. Lewis gave the T.H. D.A. news when she told of the work of the Taylor county home demonstration club members are doing toward landscaping and home beautification in their club activities. Assisted by the H. D. agent, Miss Annie Lucy Lane, they are learning to construct stepping stone walks around their farm homes.

Mrs. Cecil Jetton gave the timely topic when she discussed with the members the ten constitutional amendments that come up for vote November 8th.

For the slick trick, Mrs. Eugene Wheeler told how to prevent syrup from forming a mold on top in the bucket. Remove the lid and leave it off and tie a cloth over the top of the bucket to allow air to circulate and the syrup will remain free of mold.

Secret Pal gifts were exchanged and refreshments of doughnuts, and coffee were served by the hostesses, Mesdames Nathan Foster and Henry Downey, to eleven members and two visitors, Mrs. Henry Foster and C. W. Jetton.

District Federation Of Music Clubs To Meet In Stamford

The First District Texas Federation of Music Clubs will hold its 25th annual convention in Stamford November 3, 4, and 5.

The 25th anniversary will provide the theme for a reception Thursday afternoon and a dinner Friday night.

The Harmony Club of Haskell is a charter member of the Federation. This club is honored this year by having one of its members as recording secretary of First District, Mrs. Tommie B. Hawkins, who will attend all meetings of the convention.

Other representatives of the Harmony Club at the meeting will include Mrs. O. E. Patterson, club president, who will go as club delegate; Miss Caroline Turner, soloist, who will be accompanied by Mrs. J. E. Cadenhead, Sr.; and Mrs. C. L. Lewis, who has been asked by the First District program committee to present a humorous sketch arranged from excerpts taken from the history of the Harmony club.

Josselot HD Club Plans Achievement Day Nov. 8th

Josselot Home Demonstration club will meet in the home of Mrs. J. H. Reding on Tuesday, Nov. 8th, at 2:00 p. m. for Achievement day. All members are urged to be present and to bring some articles made during the year to put on display. The club will also visit in other members' homes, if time permits. Visitors are always welcome.

East Side WMU Has Royal Service Program

Members of the East Side W. M. U. held their regular Royal Service program when they met October 17th in the church.

Mrs. W. T. Frazier, vice-president, called the meeting to order. Members taking part in the program were Mesdames John Lamkin, Tom Mercer, Emory Anderson, Frank Patterson, John McGuire, Joan Lewis, Willie Farrell, and Rev. and Mrs. W. T. Priddy.

Next regular meeting will be Nov. 7.

Dennis Chapel HD Club Meets With Miss Alexander

The Dennis Chapel H. D. Club met in the home of Miss Ima Alexander Friday, Oct. 21, with eleven members and two visitors present. Mrs. Marshall gave the timely topic and Mrs. Hix gave a slick trick. Club Pal gifts were exchanged.

We will meet the first Friday in November with Mrs. Cecil Hutchinson.

Refreshments of cake, sandwiches and punch was served.

Half Billion Dollars From Tourist Trade Is Forseen As Texas' Share

Texas can have a tourist business amounting to half a billion dollars in 1950.

The figure is estimated by General Ike Ashburn, published in Texas Parade magazine, in the November issue. The total was revised upward from a previous one.

Here is how the publisher arrived at his estimate:

According to inquiries made by Texas Highway Department information stations, tourists coming here by automobile from other states left \$114,528,000 in Texas last year.

If interstate automobile equalled that amount, the total would be more than \$229,000,000.

Money spent by those who used means of travel other than the automobile certainly brought the 1948 total over \$300,000,000.

"Concentrated effort on the part of Texas and the investment of some money in exploiting the recreational resources of Texas can bring half a billion dollars in tourist trade here next year," General Ashburn said, adding, "it's a return worth shooting for."

He pointed out that Texas has a coast line of more than 500 miles long a score of great inland lakes the hills of Central West Texas, the Davis Mountains, Palo Duro Canyon, and many other attractions.

"No commonwealth has more to lure the traveller than Texas," he declared.

In addition to the various attractions, tourists can reach them easily, General Ashburn said, because "no state has a finer network of highways or better rail, air, and water travel accommodations."

The publisher referred to a report of the Brookings Institute which reported that, according to present trends, travel and recreation are destined to become the nation's biggest industry. Here is the ranking industries today (in billions of dollars) according to the institution's fact-finders:

1. Manufacturing 61
2. Wholesale and retail trade 37
3. Travel and recreation 34
4. Agriculture 19

It was also shown that greatest increases are being made by travel and recreation which, if present trends continue, will sooner or later account for the expenditure of more money than shelter and home maintenance, attire and personal care, food and nutrition, health and education.

Pictured here are the two beautiful Band Sweethearts, Betty Jo Fagan at left, and Virginia Frier, right, as they were formally introduced by Billy Adkins, Jr., center. Band captain at the half intermission in the Haskell and Anson football game Friday night.

Some of the members of the HHS Band are in the background. Selection of Misses Fagan and Frier for the joint honor was a just compliment to their beauty, talent and popularity among band members and classmates. Both received the identical number of

secret ballots in the annual election held recently. Both are Seniors. Virginia is the daughter of Mr. and Mrs. E. M. Frier, and Betty Jo is the daughter of Mr. and Mrs. Eibert Fagan. (Photo by R. B. Braswell, county school supervisor).

Pushbutton Cooking for Junior Chefs

CHICAGO—Boys Clubs all over the world are honored by the presentation of a gold-trimmed pushbutton electric range to the Boys Club of Chicago. It marks the fortieth anniversary of the invention of fireless cooking by the late George A. Hughes, founder of Hotpoint, Inc. Community Fund's Red Feather girl, 12-year-old Carol Ann Glenn, accepts automatic appliance from Mrs. J. H. Stegemoller, president and club director, while two of the Junior Chefs proudly inspect their new range.

Hallow'e'n Carnival At Paint Creek Nets \$1,360

A very large crowd was on hand Monday night, Oct. 31, for the Paint Creek Hallow'e'n Carnival to see Judy Calloway crowned Queen of the grade school and Wanda Farth Queen of the high school.

People donated, spent, and did everything they could to raise money to light the Paint Creek football field. \$1360.00 was netted and will go along way toward building lights. The lights will be up and ready for softball this summer. The splendid cooperation of everyone was greatly appreciated by school officials and patrons.

To add a spicy, sugary taste to plain muffins, mix sugar and cinnamon and sprinkle over the muffins before baking.

Future Homemakers of Haskell Join In Nation's Observance of Special Week

This week has been designated by Governor Allan Shivers as Future Homemakers of America Week. The Future Homemakers of America is the national organization of pupils studying homemaking in junior and senior high schools. Working toward better homes and family living, the members share in solving the problems important to home life. Through its program of work the youth are learning to live better today in order that their lives and those of their families may be better tomorrow.

Thursday, Nov. 3rd, is initiation day for all of the first year Homemaking girls. The girls are being asked to wear colors that clash and a necklace made of vegetables that are important to a good diet. Thursday evening at six o'clock the first year girls are providing stunts and entertainment for the second year girls and the third

F. W. Stegemoller Of Sagerton Dies October 29th

Frederick W. Stegemoller, 79, retired farmer and one of the first settlers in the Sagerton community when that section was being developed as a farming area, died at 7:30 a. m. Saturday in the Haskell County hospital following a brief illness.

Born Oct. 3, 1870 at Levern, Germany, he was the son of Mr. and Mrs. William Stegemoller. When he was 10 years old he came to America, settling in Washington county, Texas, where he grew to manhood and married Mrs. Bertha Stoltz on December 15, 1891. They moved their family to Haskell county in 1908 to settle in the Sagerton section where he engaged in farming and became one of the leading landowners in that area.

Mr. Stegemoller is survived by his widow of Sagerton; three sons, Will Fritz, and Clarence Stegemoller; Sagerton; two daughters, Mrs. Bettie Balzer of Sagerton and Mrs. Emma Nelson of Littlefield. Thirteen grandchildren and seven great-grandchildren also survive.

Funeral services for Mr. Stegemoller were held at the Zion Lutheran church in Sagerton, of which he was a member, Sunday, at 3 p. m., conducted by the pastor, Rev. H. E. Driessner. Interment was in Fairview cemetery, Sagerton, under the direction of Holden's Funeral Home of this city.

Pillbearers were Delbert LeFevre, Frank Leon, and Harvey Stegemoller. Audrey Neinst, Marvin Stegemoller, Lonnie Neinst, and Kenneth Stegemoller.

Eight pounds of 50 per cent wettable DDT powder to 100 gallons of water used either as a dip spray will control cattle lice. Two treatments should be given with a two week interval between the treatments.

year girls are to have a pep rally of their own on the square for beating Throckmorton.

Saturday, Nov. 5th, approximately 35 of the Future Homemakers are going to Jayton to attend an area meeting of all the Future Homemakers in this area. Sunday the girls are going to attend church in a body at the First Baptist church.

Mrs. Florence Fields, for whom the chapter is named, has been asked to be an honorary member and sit with the girls during the church service.

PARENTS OF DAUGHTER

Mr. and Mrs. Lester Fore Jr., are announcing the arrival of a daughter, Margaret Sue, born on October 28th, 1949, at the Haskell County hospital. The little Miss weighed seven pounds, seven ounces.

Gladys Holden is the author of "Bolivia's Rural School Plan" in the October issue of the Journal of Home Economics. Miss Holden received the master's degree at Texas Tech in June.

Don't overlook the importance of planning for future electricity needs or uses in the new farm buildings or in those that may be remodeled. Be sure that you're using the right size wire and that plenty of circuits are included to take care of future needs.

2,000,000 Pledge Cards for CROP

Rural families throughout the country are using cards like those shown above to pledge their contributions of bulk commodities to ease the suffering of the needy all over the world.

More than 2,000,000 of the pledge cards are being distributed to farm families in the Christian Rural Overseas program (CROP), the interchurch overseas relief project. The harvest season drive is concentrated in this and 32 other agricultural states. Small grains, meat, milk, cotton, and other farm commodities are needed. Sponsors of CROP are Catholic Rural Life, Church World Service (22 Protestant denominations) and Lutheran World Relief.

Marjorie Swift, of CROP's national office in Chicago, holds up the 2,000,000th pledge card in the Christian brotherhood program.

Hadacol Now Nation's Best Selling Tonic

Sale of Hadacol, which is made with five of nature's B vitamins and four important minerals, has spread from a small section of Louisiana to more than 20 states, and is now the nation's largest selling tonic.

Dudley J. LeBlanc, President and founder of the LeBlanc Corp., Lafayette, La., makers of Hadacol, has announced plans to expand the sales of Hadacol to the entire nation within the next year.

Dudley J. LeBlanc

Mr. LeBlanc is directing the south's largest advertising campaign for Hadacol and newspapers, especially weekly newspapers, are playing an important part in this effort.

The LeBlanc Corp. is using every weekly and daily newspaper in Louisiana, Arkansas, Mississippi, Texas, Oklahoma, Tennessee and Alabama this week to tell the story of how Hadacol put the Chief of Detectives of Hot Springs, Ark., back on the job after all else failed. He had suffered from a deficiency of B vitamins and certain minerals, which Hadacol contains.

"You must use the newspapers, daily and weekly, if you want to bring your message to the grass roots of America, the towns and wonderful rural areas," said Mr. LeBlanc.

Besides being founder and President of LeBlanc Corp., Mr. LeBlanc has many other business interests, and is President Pro-tem of the Louisiana state senate. He is well known for his work for pensions for old folks and other social advances.

FREEDOM GOES WHERE

THE NEWSPAPER GOES

Is it merely an accident that those countries that have a free press, also have a free people? Most Americans realize it is more than coincidence. They have learned that the right of newspapers to seek out and publish the truth without

fear of reprisal is their only opportunity to know the facts on which they may exercise their freedom of choice. This is the essence of true Democracy.

REDISCOVER YOUR HOMETOWN

Freedom of choice starts where people live and work. There have been vast changes this past decade — not as the news columns — to discover the freedom of only in the world and nation, but also in our home-choices that promises you a happier, more abundant town. And — more are on the way. Read your home life, right here in your own hometown.

HASKELL COUNTY HISTORY

Brief Items Taken from Old Copies of The Free Press

20 Years Ago—Oct. 31, 1929

The home of Mr. and Mrs. Ree Gardner, two miles east of town was destroyed by fire Tuesday afternoon, together with practically all household goods. The fire started from the explosion of an oil stove.

Joe C. Williams, former Ag. teacher in the Spur schools, has been appointed County Agent to succeed W. P. Trice, resigned. Mr. Williams will begin his duties here Nov. 1st. New Home Demonstration Agent for the county will be Miss Eileen Parlow, who takes the place of Miss Mildred Gunn.

Mrs. Jordan C. Ownby has returned to her home in Dallas after spending a week with her parents, Mr. and Mrs. John W. Pace.

Marion Shook, assistant manager of the Hardin Lumber Yard in this city, has been transferred to Gordon, Texas, as manager of the Hardin Yard in that city.

Two 14-year-old Cisco girls, who ran away from their home in that city Friday, were taken into custody Monday by Sheriff Sarrels, and held for their parents who came here that night to return the girls home.

Mrs. Laura Elliott of Louisville, Ky., is visiting her sister, Mrs. J. T. Therwanger of Weinert and her brother, T. E. Robbins of Knox City.

Misses Helen Harbison and E-

mine Daugherty spent Thursday of last week with friends in Graham, returning home Friday.

Miss Erna Monke, daughter of Mr. and Mrs. Fred Monke of Weinert, will take part in a program to be broadcast by the Amarillo radio station Nov. 6. The program will be sponsored by the Pep Squad of NTSTC at Canyon, Texas.

H. K. Henry and Bill Richey, teachers and athletic coaches in Haskell High School, accompanied a group of Ag. students to Dallas Saturday where they attended the State FFA convention at the State Fair, boys making the trip included J. E. Walling, Jr., Bates Thornton, Rogers Gilstrap, Wallace Sanders, Flavus Kimbrough, Bob and Clinton Herren, Leroy Oneal, Clifton Crawford, Elmore Edwards, Joe Bryant, Ed Hester, Fred Akins and John L. Grindstaff.

40 Years Ago—Oct. 30, 1909

Horris Gilbert, Claudis Walden and Clyde Foote, who are attending the Collegiate Institute at Stamford, spent Sunday and Monday with their parents here.

The oil mill has been running its elevator, unloading seed for the past week.

B. W. Herren visited his son at the Stamford Institute the first of the week.

Mr. and Mrs. Mark Whitman have completed a beautiful bungalow, lately, in the north part of town and are now occupying their new home.

Mr. and Mrs. Sumner Boone of Miller Creek spent several days this week with their parents, Mr. and Mrs. J. S. Boone.

News has been received here that Joe Harrell, who has a large number of acquaintances in this county, was killed at Holland, Texas, a few days ago by a runaway team.

H. C. Elliott and daughter, Miss Annie, returned from an extended visit to relatives and friends in the Carolinas and Virginia.

Misses Doline Wheeler, Tompage Boone, Della and Julia Wipe, and Kathleen Wilfong spent several days at the Dallas Fair last week.

Mrs. J. S. Rike is visiting her daughter, Mrs. Johnson at Graham.

Jack Simpson is a coal miner's son, home in the north part of town.

Harwell Cox returned Monday from the Dallas Fair.

Last Thursday night, Charlie Wilson took his pack of 14 hounds and was joined for a wolf hunt in the Vontress section by Arthur Vin, Charlie Lewellen, Carl Lewellen, Buck Couch and Mr. Rich. After about a half mile ride they jumped a coyote and ran him for

There's more than one way to dress a fowl! Feed sack fashions have put the chic in chickens, and Virginia Kirchoff of Memphis has given a real cock-o-the-walk strut to her rooster by making him a top hat. Virginia, too, is clad in a sack outfit. It all started, the National Cotton Council says, in a feedbag-sewing contest dreamed up by the Poultry and Egg National Board to find the ten "best-dressed" fowls in the nation. Winners will be selected in Kansas City in February with an automobile as the grand prize. Any poultry fancier may enter his chick, duck, or turkey by writing for an entry blank to the Poultry and Egg National Board, 308 W. Washington St., Chicago 6, Illinois.

more than two hours and the dogs bayed at Mr. Hunt's hog pen and he awoke. Thumping the dogs were after the hogs, he ran out and began hollering, and the coyote tried to make another run and ran in the house and was captured behind a trunk. All present decided it was the largest coyote they ever saw killed.

Results so far indicate that 2, 4, 5-T and formulations thereof are far superior to any formulations of 2, 4-D for mesquite control.

Miss Edith returned Wednesday from the Fair at Abilene. D. W. Garren sold the Pidecock place this week to a Mr. Prewitt from Coryell county. Harvey Crabtree has also sold his place to a party from Coryell whose name we did not learn.

Mrs. J. B. Adams has sold her place and cattle and plans to move to Oklahoma Territory. Carl Ferguson has returned from a visit to his parents in Missouri.

An estimated 125,000 persons visited the Texas Technological college booth at the State Fair in Dallas this year.

Mesquite Control Tests Made At Spur Experiment Station Look Favorable

Mesquite, the invading weed tree, which has infested some 55 million acres of Texas range land may soon be shivering to its bud zone. That is the report made by A. H. Walker, extension range specialist of Texas A. and M. College, upon his return from the recently held Field Day at the Spur Experiment Station.

The Texas Agricultural Experiment Station's research work on mesquite control has been concentrated at the Spur station since 1938. Station superintendent R. E. Dickson has directed the work; associate station agronomist C. E. Fisher has been working with various chemicals in an effort to perfect a cheap, simple way to kill mesquite, and Dale W. Young, assistant station agronomist, has also assisted with the research.

Kerosene, which works fairly well on sandy and porous soils but usually costs too much, and sodium arsenate, which is cheaper but dangerous to both man and animal have been the chemicals most widely used and recommended in the past, says Walker.

Those attending the field day were told that 5,000 mixtures of various chemicals has been tested on mesquite at Spur during the past few years. Chemicals are first tried on individual trees in the nursery and then on 20 tree plots. Those showing promise are further tested on 5-acre plots and application is by airplane spraying. One hundred of these 5-acre plots have been treated with the chemicals that have shown best in the preliminary tests. Treatments were made during the summer, spring and fall of this year.

Results so far indicate that 2, 4, 5-T and formulations thereof are far superior to any formulations of 2, 4-D for mesquite control.

Miss Edith returned Wednesday from the Fair at Abilene. D. W. Garren sold the Pidecock place this week to a Mr. Prewitt from Coryell county. Harvey Crabtree has also sold his place to a party from Coryell whose name we did not learn.

Mrs. J. B. Adams has sold her place and cattle and plans to move to Oklahoma Territory. Carl Ferguson has returned from a visit to his parents in Missouri.

An estimated 125,000 persons visited the Texas Technological college booth at the State Fair in Dallas this year.

Effective Control Of Cattle Grubs Now Possible

There is no profit in feeding cattle grubs and they can be very effectively controlled, says James A. Deer, assistant extension entomologist of Texas A. and M. College.

The losses caused by cattle grubs are borne by the livestock producer and only the livestock producer can reduce them, adds Deer. These losses annually amount to about \$65 million and according to Deer, most of this could be added to the national farm income if cattle producers would use the following control measures.

He recommends the use of a power sprayer—with a pressure of 200 to 400 pounds. Lower pressures decrease the effectiveness of the treatment, he says. Spray the animals in a chute and hold the nozzle no farther than four inches from the backs of the animals. It is best, he says, to use a full gallon of spray on each animal and from 10 to 15 seconds are required for the application if you want to get the best results.

The spray material should consist of 7 1-2 pounds of 5 per cent rotenone dust for each 100 gallons of water. Mix it thoroughly, he adds. This is the cheapest and most effective treatment you can use, he says.

Make the first application as soon as the grubs appear and repeat the treatment at three week intervals as long as needed. Usually not more than three of four treatments are needed. Deer says grubs are beginning to make their appearance now in some sections of the state and control measures should be used if the grubs are to be controlled.

He says if you'll use this spraying program now, you may not have to spray the same animals

again for grubs. A job should increase weight gains by also and also the value of animal when you The dairyman who herd can expect a you need additional on how to control your local county glad to help you.

Had RHEUMATISM So BAD That He Had To Quit Working

Mr. Jerry Watkins, chief of detectives of the city of Hot Springs, Arkansas, suffered with rheumatism so much and the aches and pains were so terrible that he had to quit working in an effort to regain his health after he had tried everything which his friends recommended.

Detective Watkins is well known and his countless number of friends throughout the country will rejoice to know that he is now healthy, free of rheumatic aches and pains and now working hard.

Mr. Jerry Watkins said, "For several years, Mr. Watkins says, 'I suffered from a rheumatic condition in the hip and leg. I was very nervous and finally developed migraine headaches. I tried all kinds of medicines but nothing seemed to do me any good. I seemed to be growing worse and worse and was finally advised to take a leave of absence from my work on the police force in an effort to recover my health.'"

"The pains in my head sometimes were unbearable. I suffered tortures and I was miserable. At night particularly I lay awake and could not sleep."

Mr. Watkins said that someone finally persuaded him to try HADACOL, and after taking the first bottle he said he could see an improvement in his general condition.

"On January 14th of this year," he said, "I felt so much better I decided to go back on the job. The examining doctor told me I was in perfect health. Now I am

working from 8 to 12 hours daily and I am able to sleep as any normal person. I have taken six large size bottles of HADACOL and all my friends know I owe my good health to HADACOL."

Mr. Watkins is one of the many thousands of people who suffered from a deficiency of the B vitamins and the minerals that HADACOL contains and who, therefore, found relief in HADACOL.

It is a well-known scientific fact that the lack of only a small amount of the B vitamins and certain minerals in your system will cause certain bodily disorders such as nutritional neuritis, which causes the aches and pains commonly known as rheumatism, and there is no known cure for the ailment except the administration of the essential vitamins and minerals.

HADACOL does not contain only one but has five of the B vitamins and four necessary minerals. It comes to you in liquid form so that it will be easily absorbed by the blood and, therefore, carried to the parts of the body which need them most.

So, it matters not where you live—no matter who you are—if you have tried all the medicines under the sun, you should be fair to yourself and give this wonderful preparation, HADACOL, a trial. And if your disease is caused by a lack of the B vitamins and minerals which HADACOL contains, then don't go on suffering—don't continue to make your life so miserable. Temporary relief for you is not enough. Take HADACOL.

Sold at all leading drugstores. Trial size only \$1.25, but save money; buy the large family economy size, only \$3.50. If your drugstore does not handle HADACOL, order direct from The Le Blanc Corporation, Lafayette, La., and when the postman brings your package, just pay the amount plus the cost and postage. If you remit with the order we will pay the postage.

Then, if you don't feel perfectly satisfied after using HADACOL as directed, just return the empty carton and your money will be cheerfully refunded. Nothing could be fairer.—Adv.

READY NOW!

Winter-Blended PHILLIPS 66

A DIFFERENT BLEND OF GASOLINE FOR COLD WEATHER

Winter-Blended Phillips 66 has added amounts of valuable high-volatility elements to help you get fast starting, smooth pick-up and steady power in winter.

NOW...stepped up volatility gives you easier starting with less wasted gas...better all-around performance!

It's ready for you now at your Phillips 66 Dealer's... Winter-Blended Phillips 66 Gasoline! You get easier starting, and this higher volatility fuel helps you enjoy faster, more dependable acceleration with a cold engine. There's less wasted gas...less crankcase dilution. You get long mileage! Discover the difference for yourself! Fill up with Winter-Blended Phillips 66 Gasoline at any station where you see the famous orange and black Phillips 66 Shield.

RECIPE OF THE WEEK

by Mary Lee Taylor

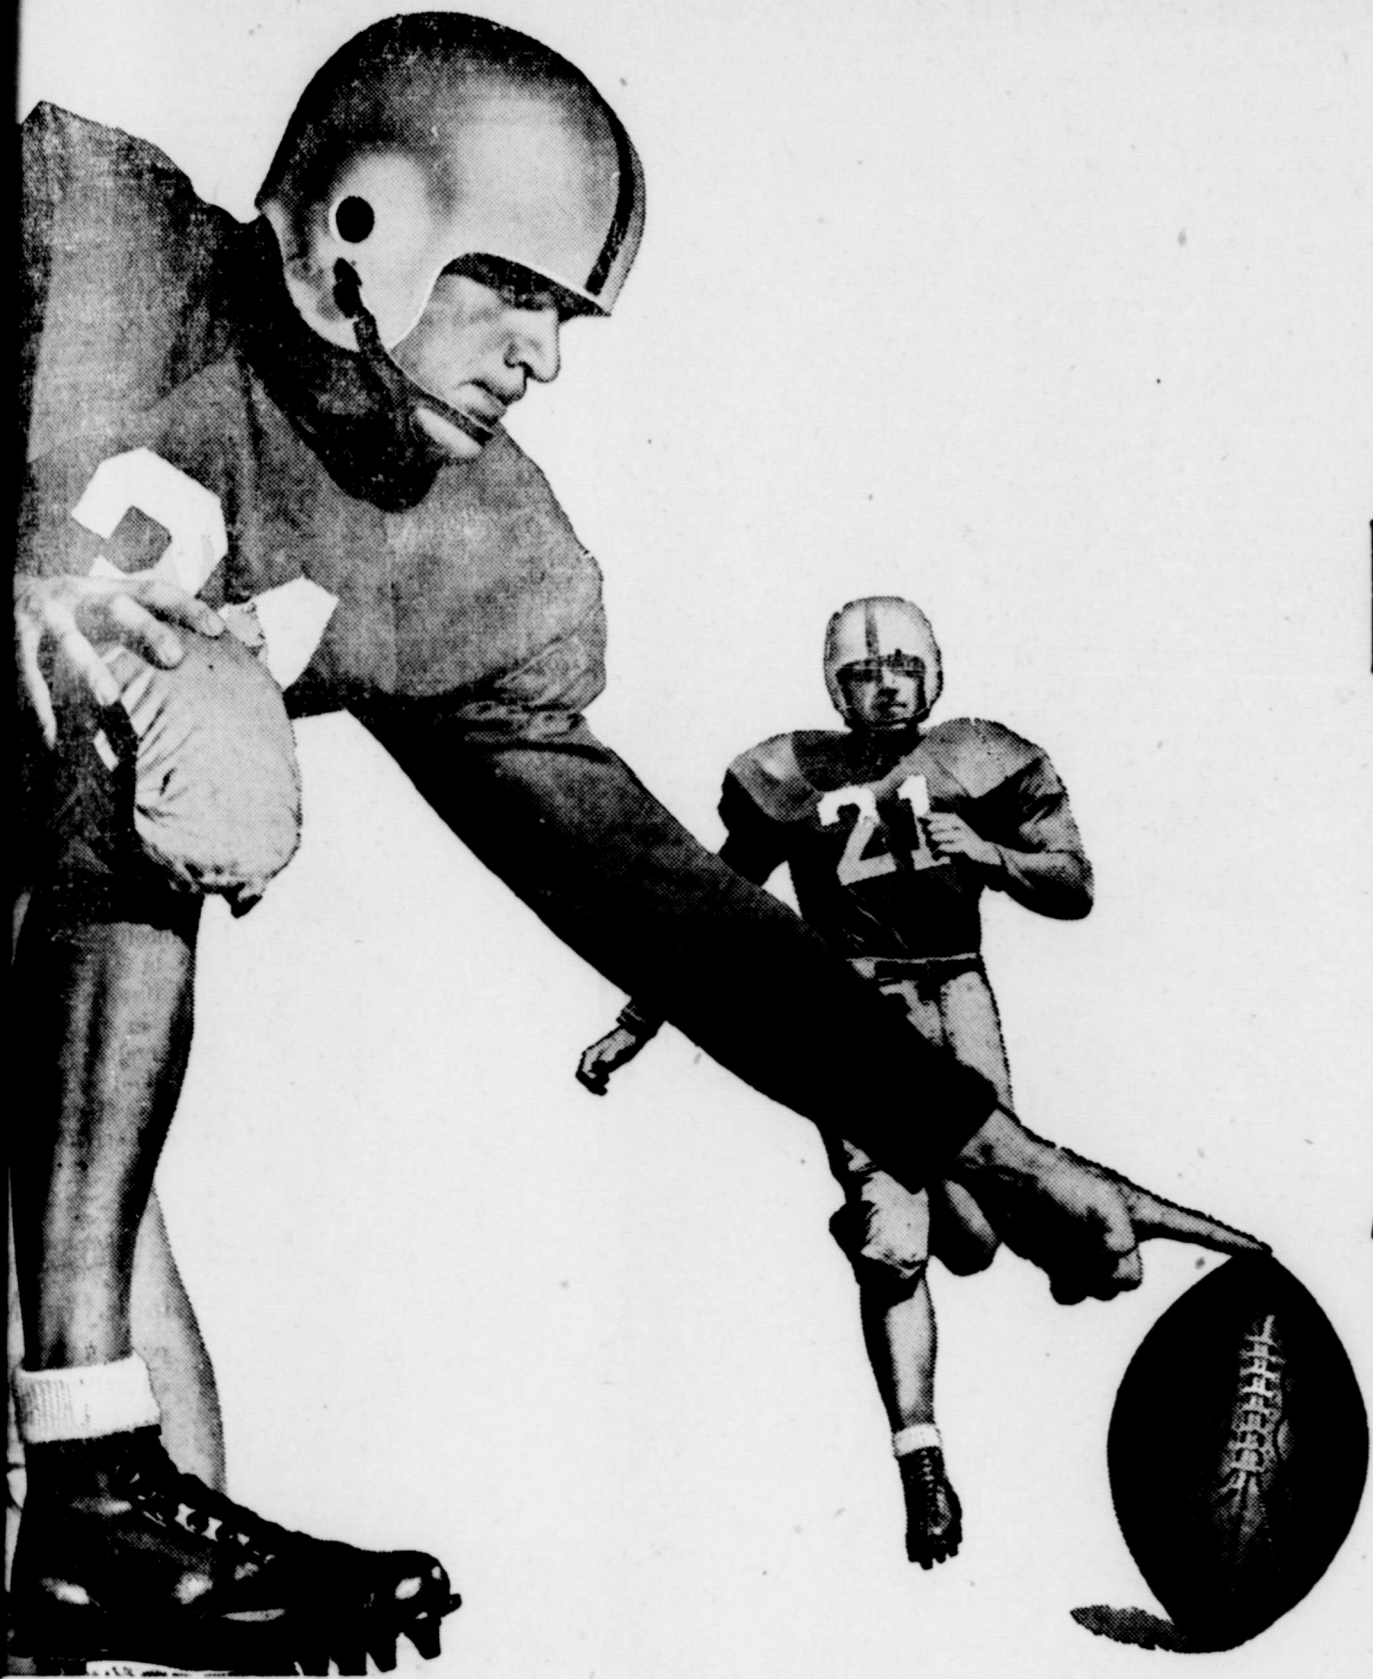

Baked Custard Surprise

2 tablespoons cocoa
2 tablespoons sugar
4 teaspoons boiling water
2 slightly beaten eggs
1 teaspoon vanilla
1/4 cup pie filling
1/4 cup butter
1/4 cup sugar
1/4 cup milk
1/4 cup cream

Turn on oven; set at moderate temperature (350° F.). Grease 4 custard cups holding 1/4 cup. Mix cocoa in water until smooth. Put equal parts in bottom of custard cups. Layer with rest of ingredients; garnish fully over cocoa mixture. Bake in pan holding an inch of hot water. Bake 35 min., or until knife comes near outer edge of cup comes clean. Cool before turning out with sauce in bottom of cups. 4 servings.

HOW TO SHOOT A RIFLE

By ARTHUR E. COOK
National and Olympic Rifle Champion

Trigger Control

Control of the trigger can make or break you as a shooter. The accepted movie hero technique of pulling at the trigger with hardly more than a glance at the target is hush. You can't hit anything consistently that way.

When your sights are aligned on the target the only way to get off the shot is to squeeze the trigger with such a smooth and steady motion that you do not disturb that aim. The trigger is squeezed by a steady movement of the forefinger only.

Speed and smoothness in the trigger squeeze can be combined but it takes practice and the best way to practice is with an empty gun. Aim at a small bullseye across the room and carefully let-off each shot. Since the rifle does

not actually fire you can see your mistakes. Another thing—while squeezing the trigger stop breathing and relax. The rise and fall of the chest while breathing will throw your sights off the target. Relaxation will reduce your pulse beat, which is another disturbing factor in precision aiming.

One final hint — always follow through. By that I mean keep looking through the sights at the target even after the shot is fired. This prevents movement of the gun before the shot has left the muzzle and often enables you to see where your shot hit when you are shooting in the field.

Be sure of your target!

W. H. Day, Pioneer Settler in Paint Creek Area, Dies Oct. 27 at Age of 88 Years

William H. Day, pioneer resident of Haskell county who settled in the Paint Creek area southeast of Haskell almost 50 years ago, died Thursday, Oct. 27, as he was approaching his 89th birthday.

Funeral services were held at the Knox City Church of Christ Friday, Oct. 28th, at 3:30 p. m., conducted by Ministers Stanley Shipp and H. L. Matheny. Interment was in Knox City cemetery.

William Harrison Day was born Dec. 17, 1860, in McGlothlin county, Kentucky. In 1892 he moved to Wise county, Texas, where he married December 15, 1895.

Mr. Day came to Haskell county in 1900, settling in the southeast part of the county, near Paint Creek. Since then he has lived in Haskell and adjoining counties.

He is survived by three sons, Roy Day of Knox City, Jewell and Gentry Day of O'Brien, and thirteen grandchildren.

The 135 contestants in the Texas Farm and Home Egg Laying Contest are from 46 different Texas counties and 45,924 hens are involved in the contest.

VISITORS FROM FRANCE

Monsieur F. Haberey of Paris, France has been visiting in Haskell, guest of Mr. A. Y. Corley for the last two days. Mr. Haberey likes Texas and the Texas people. He finds life here much easier than his native France.

Polio Victim And Sister Are Given Birthday Party

Friends and relatives gathered in the home of Mr. and Mrs. Clifton Vaughn of Weinert Thursday night for a birthday party, honoring their two children and also to celebrate a year's march toward Ronnie's recovery from polio. He was stricken Oct. 22, 1948, and 4 days later, on his 5th birthday, doctors told his parents the crisis was over and he would live.

Ronnie and his pink birthday cake with yellow decorations, were the center of attraction in a candle lit room while everyone sang the Happy Birthday song. Glenda's cake was white with pink decorations. Cake, cokes and coffee was served to thirty guests.

The Hallowe'en theme was carried out and all children wore Hallowe'en hats and faces.

Bob Bettis and his roommate, Charles Beene, students in McMurray College in Abilene, spent the week end with Bob's mother, Mr. and Mrs. L. H. Cooper.

VISIT IN LEVELLAND

Mr. and Mrs. Arlo Ivy and family, accompanied by his sister, Mrs. Irene Moore, have returned from a several days visit in the home of Mr. and Mrs. M. L. Ivy in Levelland, Texas.

Bond Election—

Continued From First Page

frame building that has practically no accommodations. In addition to crowded classrooms, lunch-room facilities are inadequate to care for present needs, and play grounds and health education facilities negligible.

Endorsement of the proposed issue would answer Haskell's present and future needs for its public education program, and would place the district on par with surrounding communities of like size, and in some cases on a level with larger cities.

The \$200,000 bond indebtedness created by the election would be retired in 30 years, and would bear a low interest rate of 2 1/2-3 and 3 1/2-2 per cent interest, with all bonds callable after ten years.

The present valuation of the local school system is placed conservatively at \$450,000 and has only \$51,000 bonded indebtedness. This stable financial condition places the system in a sound economical category. The new bond issue would not increase the present tax rate of \$1.25 per \$100 valuation.

At the present 25 cents of the \$1.25 rate is used to retire bonded indebtedness, while a total of only 40 cents will be necessary to retire the additional bonds created by the election and all other outstanding bonds. Eighty-five cents of the \$1.25 present rate will be used for maintenance and operation.

Several suggested sites for the location of the proposed new elementary building are under study of the board. Receiving most attention is a location that embraces the 300 and 400 blocks of South Avenue G. In considering this location, the board pointed out the accessibility of the site, the opportunity to develop sorely needed playgrounds and future expansion, safety to the pupils by not locating on or near highways, and the lack of a more suitable location site.

Definite decision on location, nor purchase of a site for the proposed elementary building has not yet been made and a spokesman for the board declared that all factors pertinent to a well-rounded educational program would be considered in determining the final building site.

The band and health education building will be located on a site directly east from the present high school building. This loca-

tion is deemed necessary due to its use by the high school band and high school pupils in the health education program.

In addition to Herren, members of the district board are W. D. Rogers, L. H. Hams, Ed Hester, Robert Seago, and board secretary.

Indians Smother Anson Tigers 49 to 6 In Third Conference Win Friday Night

Haskell's rampaging Indians ran rough shod over the Anson Tigers here Friday night 49-6 to stay on top of the 6-A East District heap in conference play. In notching their third conference win the locals displayed fine blocking and tackling along with hard running plays to live up to all expectations.

Scoring in every period, the surging Indians led the Tigers scoreless until the third period when Jodie Whitaker, Tiger back, ran 18 yards through the entire Indian defense for their lone tally. The try for extra point was blocked.

Haskell's scoring began early in the first period when Billy Davis scampered over from the 12. The ball was put in scoring position by a brilliant 43 yard run by Billy Ray Lusk. Tommy Rhoads kicked his first of four consecutive points after touchdowns.

Working the ball to the one yard line after recovering an Anson fumble on the fourteen, James Miller sneaked over for the second Indian score. Rhoads converted. Later in the second period, Eldon Ammonett rumbled over from the 14 yard line. Rhoads kicked the conversion.

The half ended with Haskell leading 21-0 with Anson making one mild threat to the Haskell 25. This was the only Tiger penetration in the first half.

On the second play of the third period, Miller sneaked over from the one yard line after Edward Ammons had raced 50 yards to put the ball on the one. Rhoads made his fourth conversion. Miller scored again from the 1 mid-way in the third period following a 56 yard run by Lusk. Bobby Jack Price circled left end for the conversion.

The final third period score came late in the quarter when Ammons went over from the one after spearheading a drive that covered 57 yards. Price kicked the conversion.

The last Haskell tally came late in the fourth period when Davis on a pitchout went over from the 12. Price made the conversion.

Statistics favored the Indians

In most departments, who made 16 downs to the Tigers 14, and rushing for 386 yards to 236 for Anson. Anson completed six of eight passes attempted for 25 yards while the Indians completed one of four for eight yards. Anson punted seven times for 182 yards while the Indians punted none. Haskell was penalized for 30 yards while the Tigers were penalized 25 yards. Haskell fumbled 4 times, recovering with Anson fumbling three times and making two recoveries.

Standouts in the backfield were Ammons, Ammonett, and Lusk. In the line, Miller showing well at the quarterback slot. Standouts on defense were Flannery, White, Rhoads and Mullins.

Showing well for the Tigers were Whitaker and Thompson in the backfield and Bingham and Wommack in the line.

Haskell needs only one win in their two remaining conference games to gain at least a tie for the championship of District 6-A East. They meet the Throckmorton Greyhounds on the local field next Friday.

Haskell: Price, lc; aLne, lt; Mullins, lg; Rhoads, c; V. Lusk, rg; Strain, rt; Ammons, re; Ammonett, qb; B. Lusk, lh; White, rh; Davis, fb.

Anson: Bingham, lc; Beasley, lt; Harper, lg; Wommack, c; Walker, rg; Pittman, rt; Bowen, re; Howell, qb; Whitaker, lh; Steel, rh; Thompson, fb.

Academic work leading to the doctor of philosophy degree will be offered at Texas Tech

Uncle Sam Says

You American citizens who have been looking for an opportunity to take some aggressive action which will express faith in your country are now being given that chance. It is participation in the U. S. Savings Bonds Division's "Spring Opportunity Drive" which opens May 16. Through this drive you can help in the preservation of a prosperous economy in your land and show the world that Americans, men and women, still have that spark which has led the country to "accomplish the impossible". Volunteer workers are needed to help in this great drive and this is your opportunity to prove that you have the courage to protect the freedoms that are ours. Your community, your county, your state, and your country need your help. Volunteer today. U. S. Treasury Department

Use Our Convenient Layaway Plan

Shown here is the architect's drawing of a proposed elementary school building in Haskell, which trustees and many school patrons and citizens believe is one of Haskell's most pressing needs at this time to relieve the acute and growing need for additional school facilities.

Estimated cost of the building would be \$140,000,

and is the major allocation of funds which would be provided through a \$200,000 bond issue. Order for the bond election will be passed by the Board of Trustees at their next meeting, and date for the election will be Saturday, Nov. 19th.

The contemplated building would include sixteen

classrooms of standard size, an adjoining auditorium, gymnasium, and cafeteria, kitchen, dressing rooms, etc., in addition to offices, teacher's workroom, book rooms, and other facilities.

Plans for the proposed building were prepared by Don W. Smith, Sweetwater architect.

E. R. Lowe to Head Fair Association For Third Year

Officers and directors of the Central West Texas Fair Association were named for the new fiscal year, 1949-50 in a meeting on Wednesday morning.

Re-named as president was E. R. Lowe, farmer-stockman, who will head the organization for a third term. Elected as first vice-president was Hallie E. Chapman, implement dealer, who has served on the board for two years. Re-elected second vice-president was A. M. Turner, with A. C. Pierson retaining the office of treasurer. Chapman was also named to the executive committee.

Ralph E. Duncan, local chamber manager, will again serve the association as acting secretary.

Three new directors were added to the 29-man board of directors. They were Noah S. Lane, Floyd Rich and Rupert Adams. Retiring directors were Buster Shelton, Stanley Furth and Ira L. Sturdivant.

Holdover directors are R. P. Hattox, A. W. Weaver, Courtney Hunt, Bill Wilson, John E. Robinson, John E. Fouts, Dr. T. W. Williams, Roy Johnson, Olen Dotson, Sam A. Roberts, John A. Couch, Chas. E. Smith, A. T. Ballard, W. O. Holden, C. E. Phelps, W. L. Richey, B. B. Gilmore, E. R. Clifton, Bob Cousins, L. T. Florence, and Cecil Gregory.

The report of the secretary revealed that \$2600 was paid in premiums this year to exhibitors which set an all-time high. The highest number of individual entries was recorded in the poultry, adult field crops and women's divisions.

Elementary Art Exhibit Winners Announced

In observance of American Art week November 1st to 7th, sponsored by the American Art Professional League and the general Federation of Womens Clubs, the Haskell Progressive Study club has sponsored an art exhibit for public school children of grades one to seven.

The contest closed Tuesday with the judges awarding first prize of \$2.00 to Janet Pennington, third grade pupil in South Ward school. Her picture of black cats executed in finger-prints; Wendell Campbell, fourth grade, from South Ward school won second prize of \$1.50 for his picture of a local gin in crayola; Martha Jane Bynum, first grade pupil of North Ward school took third place of \$1.00 with a picture of an original flower, using caryola Media. The following entrants won honorable mention: Peggy Pogue, Shirley Coker, Cay Carrol Chinn, David Conner, Barbara Collins, Christina Ozuna, Louisa Herren and Edwin Trimmer.

Pictures are displayed in store windows around the square.

Musical Medicine

SAN ANTONIO, Tex. - Pfc. Johnny W. Shriver, of Austin, Tex., readily responds to the accor-dion antidote administered by Rosemary Lozano, USO entertainer, in Brooke General Hospital where Shriver is recovering from a hip dislocation.

Life Insurance Company. I am a veteran of World War I, and a member of the American Legion.

If I am elected I will support all phases of the Gilmer-Aiken School program which I think is one of the best forward movements of public education in Texas.

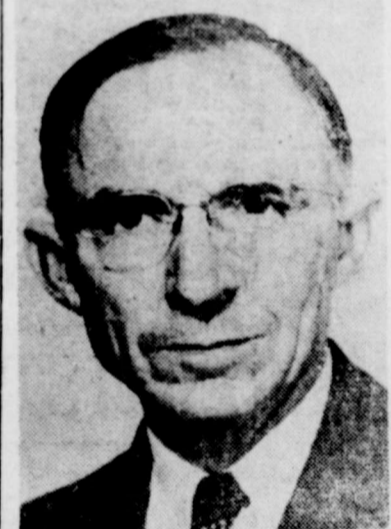

If I am elected, I pledge myself to a fair, impartial, educational program for the boys and girls of West Texas.

I am not seeking this office to further the interest of any individual aspiring to the office of Commissioner of Education for the State of Texas, but I am seeking this office for the opportunity to serve the public schools of this Congressional District.

E. H. BOULTER.

J. M. Rankin, Ralls Farmer, Seeks School Post

J. M. Rankin is a candidate for election as a member of the state board of education having had his name submitted to the secretary of state at Austin by a petition

of 136 signers consisting of farmers and business men of Crosby county.

He has been a resident of the South Plains 37 years; holds B. A. and M. A. degrees from Texas Technological college and has had 25 years of school administration.

He was editor and publisher of the Slaton Slatonite three years and has been writing for newspapers including the Ralls Banner several years. He is now engaged in farming.

Rankin has been active in civic work; is past president of Ralls Rotary Club; Scouter 20 years; past commander of American Legion posts in Ralls and Crosbyton and past vice district commander of the 19th district.

Rankin's statement follows: "I believe that the Gilmer-Aiken Plan as embodied in Senate Bills No. 115, 116 and 117 represents the greatest single forward movement in the educational history of any American State. My unreserved approval of the laws is substantiated by public utterances which I have made orally and in the public press and expressly in letters to the Senate members while the plan was being debated in the Legislature.

"I am pleased to hope and believe that these laws will cure many of the shocking ills which have contributed to the illiteracy and semi-literacy that now handicaps so many Texans who have grown up in the past years, and I hope and believe that the wise administration of these laws will raise the Texas public school system from the 'below average' rating assigned by some educational authorities to a high rank, befitting the material wealth and the riches of human values of our state.

I have never been connected in any way with the extinct State Department of Education, but have had 25 years experience in public school administration.

Coach Roten, In Talk to Quarterback Club, Sees 'Hounds as Dangerous Foes

Approximately 100 members of the newly-formed Quarterback Club attended the organization's second meeting on Tuesday evening at 7:30.

On the program was Jack Roten, head mentor of the high school athletic teams, who introduced members of the Indian football team, telling about their weights, something of their work throughout the season, and the length of their eligibility.

Roten expressed his appreciation for the organization of the club, and for the fine spirit of cooperation extended by the fans during

his three years as coach here.

In concluding, he reviewed last week's game with the Anson Oilers, and brought a gloomy picture of the game with Woodport this week. The Greyhounds have a fine team will outweigh the Indians, have more experience, and boast three backs, two who will weigh almost 180 pounds each, and are considered the hardest runners in the district.

To win, Roten said, Haskell must play one of its best games of the year, and the Indians hope for a championship in the eastern half of this district

could be determined in this game. It is all-important, he said.

Following his talk he conducted an open forum of questions and answers.

A feature of the meeting was the showing of film of the 1948 Hardin-Simmons University win over West Texas State Teachers College.

Named to the executive committee were A. C. Pierson, Thos. B. Roberson and Woodrow Frazier. Other members of the policy board are Thomson, Chas. Swenson, John E. Robison and Royce Atkins.

Regular meeting nights have been set for each Tuesday evening at 7:30 and will be held in the high school activity building. The public is invited to attend all these meetings, and next Tuesday, a film of the 1949 Grape

Bowl game between Hardin-Simmons University and the College of the Pacific will be shown. The game was a thriller and ended in a 35-35 tie.

A report by the club secretary showed 111 members had signed up following a brief membership drive last week. Membership is expected to reach 300 by the end of this fiscal year.

VISITING GRANDMOTHER FROM BRYAN

Little John Henry Atturburg, 3rd, is visiting his grandmother, Mrs. Elam aPrish. He is the son of Mr. and Mrs. John Atturburg 2nd of Bryan. He will also visit his grandparents, Mr. and Mrs. John Henry Atturburg Sr., in Knox City before returning home.

Boulter Announces For State Board Of Education

To the voters of Haskell county: I take this opportunity of announcing to you my candidacy for the office of member of the Texas State Board of Education from the

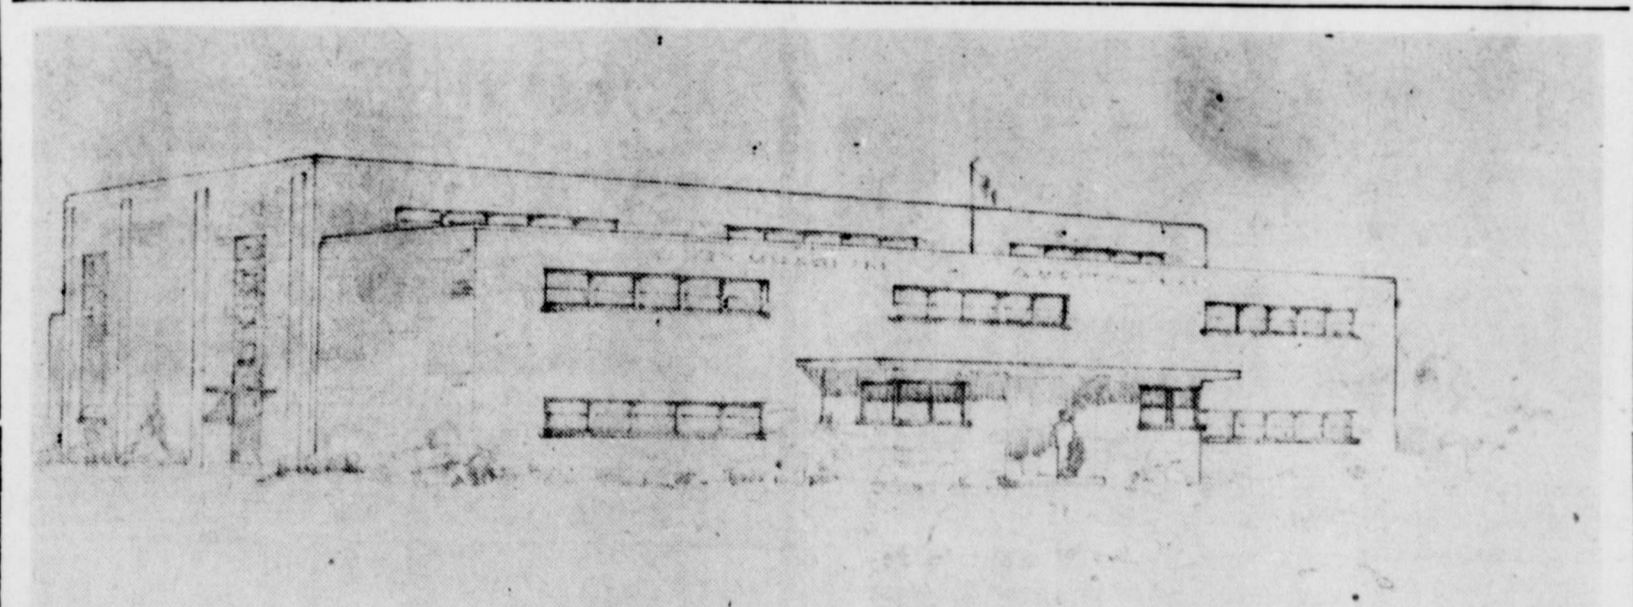

19th Congressional District. The Gilmer-Aiken School Bill provides that there be twenty-one members of the State Board of Education—one member to represent each Congressional District to be elected on November 3, 1949.

I feel that I need no introduction to the people of West Texas as I have worked continuously for the past eight years with the school people of this area. My chief concern has been as I worked with parents boards of trustees laymen, and teachers for equal and progressive educational opportunities for the youth of West Texas.

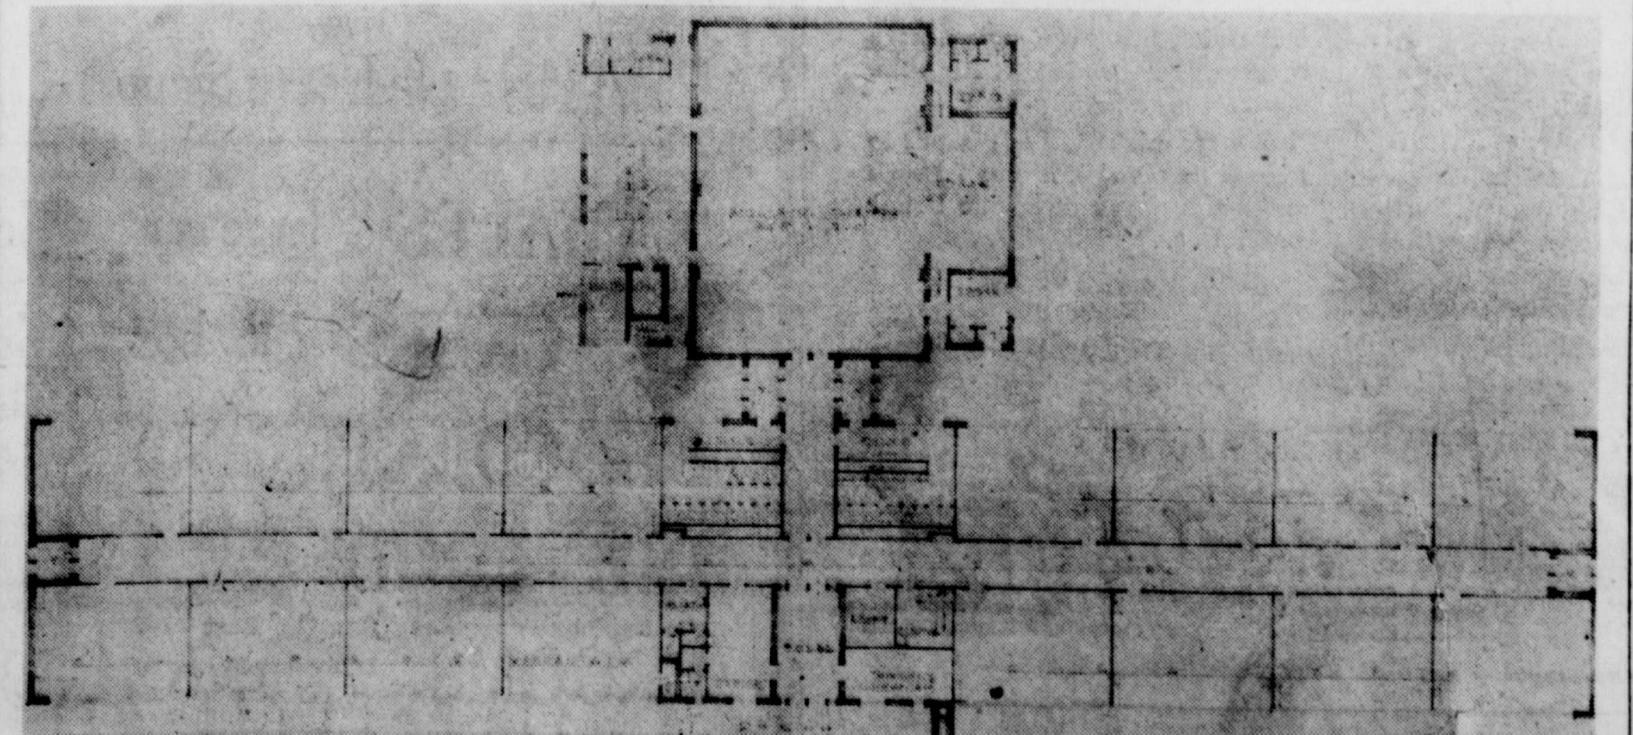

As a result of my close association with the educational problems of this section, I was solicited to run for this important educational post by a nominating committee appointed by Dr. D. D. Jackson, then president of the West Texas Teachers' Association. Letters were mailed to all the school administrators of this congressional district asking them to indicate their choice of a man to run for State Board member. On July 5th, 1949, the information was tabulated and I was honored by being chosen to represent this district as a candidate for this important office.

I feel that I am well qualified to fill the office of State Board member from the standpoint of both training and experience. I am a native of Texas, born and reared in Brown county. I was educated in Texas schools, and hold both a B. A. and Masters Degree. I have been connected directly with the public schools of this state for some thirty years. As a parent, a classroom teacher, as school administrator, and a deputy school superintendent, I have become familiar with the school problem of West Texas. I am chairman of the legislative committee of the 14th District of Texas Congress of Parents and Teachers. I am now District Supervisor of the National Educators

Here is the architect's drawing of the proposed gymnasium, auditorium, and band hall building planned for Haskell's expanding school system. This new building is included in the construction program embodied in

the \$200,000 school bond election to be held Nov. 19th. Cost of this modern structure is estimated at \$40,000 by the architect, Don W. Smith of Sweetwater. (Details in story on Page 1, Section 1).

Floor plan of Haskell's proposed new elementary school building, gymnasium and cafeteria adjoining the main structure is pictured above. The building design, arrangement, and materials to be used in construction

will be of approved modern type which is recommended as standard for all schools. Main section of the building will be devoted to an auditorium, gymnasium and cafeteria, 44x64 feet in size, and a stage 16x30 feet.

Sagerton School Carnival Nets Around \$500; Wichita Valley Mail Train Makes Its Last Run Saturday, October 29

A number of the members of the St. Paul's Lutheran church who were appointed by the pastor, Rev. M. C. Hoerman, to be leaders in the Evangelism Campaign that is to be started soon attended a meeting in Winters Thursday night, October 27, where they received instructions on how to carry on the campaign.

The Sagerton School Halloween Carnival which was held Thursday night, Oct. 27, in the school building was a great success, and Miss Irene Stewart, principal, reported that the proceeds of the carnival amounted

to around \$500.00. This money will be spent on playground equipment and possibly on some new blackboards for the classrooms.

The highlight of the carnival was the crowning of the Carnival Queen and the School Sweetheart in the Auditorium. Miss Marlene Laughlin, daughter of Mr. and Mrs. Grady Laughlin was crowned Carnival Queen, and her escort was J. D. Wendeborn. She was the candidate from the 7th and 8th grades. The other candidates were: Darlene Teichelman, 1st and 2nd grades, es-

corted by B. L. Ross; Ann Humphreys, 3rd and 4th grades, escorted by Fred Wendeborn; and Mayme Lou Irving, 5th and 6th grades, escorted by Billy Taylor. Little Miss Sandra Byers was the crown bearer. Loretta Nienast, daughter of Mr. and Mrs. Oscar Nienast, was elected School Sweetheart. Her escort was Dan LeFevre, and the other candidate, Adrienne Mathis, was escorted by Jack Monse.

Mrs. Cliff Judd of Los Angeles, Calif. spent last week visiting Mr. and Mrs. Cliff LeFevre. Friday afternoon Mrs. Judd and Mrs. LeFevre visited Mr. and Mrs. Van Laughlin in Rule.

Mr. and Mrs. J. C. Payne of Spur, and Mr. and Mrs. G. E. Davis of Rule, were guests in the home of Mrs. M. D. Crow Sunday.

Mr. and Mrs. M. Y. Benton visited Mrs. Benton's parents, Mr. and Mrs. L. E. Marr, in Haskell Sunday. Mr. Marr is 84 years old and has been pulling over 100 pounds of cotton every day. One day he pulled 132 pounds.

Mrs. Bob LeFevre of Gainesville returned with Mr. and Mrs. Cliff LeFevre Saturday after

they visited her husband, Bob Bell LeFevre, who is in the Sweetwater hospital after being injured in an auto accident near Bronte last week. She went on to her home in Gainesville Sunday.

Mr. and Mrs. Harlan West and children spent the week end in Fort Worth.

Mr. and Mrs. M. D. Ross visited in Dublin over the week end, where they have purchased a farm.

Mr. and Mrs. Edward Laughlin of Cyril Oklahoma, and Mrs. Emma Daughtry of Rule visited in the home of Mr. and Mrs. Cliff LeFevre Saturday night.

Last Saturday, Oct. 22, was the 1st day the Wichita Valley train, known to the people around Sagerton as "Molly", carried the mail. This train runs from Stamford to Spur, and it will still run, but the mail will be carried by a star route carrier, who will come through Sagerton early each morning and come back from Spur late that afternoon. Mrs. John L. Guinn, postmistress, has announced that all mail will be dispatched at 5:45 p. m. each day.

The WSCS of the Methodist church met Monday afternoon in the home of Mrs. G. W. LeFevre, their president, for their monthly social meeting.

The congregation of the St. Paul's Lutheran church honored their pastor, the Rev. M. C. Hoerman, on his birthday Tuesday evening, Oct. 25, with a surprise birthday party, in the church basement.

Kenneth Stegemoller, a student at Concordia School in Austin, his brother, Harvey, a student at Concordia Seminary in St. Louis, Missouri, Betty Louise Balzer, of Austin, William Nienast and family of Morton, Victor Aubrey, and Lonnie Nienast of Littlefield, Mr. and Mrs. J. W. Wells and family of Littlefield, Roland Stegemoller and Mr. and Mrs. Bernard Ernst and daughter of Slaton were all here Sunday for the funeral of their grandfather, the late F. W. Stegemoller, who passed away Saturday morning in the Haskell hospital. Mr. and Mrs. W. P. Nienast of Littlefield and Mrs. M. L. Stegemoller of Slaton and many other out-of-town relatives and friends also came to pay tribute to him. The Sagerton Home Demon-

Sixth Grade Pupils On South Ward PTA Program

South Ward P.T.A. met Thursday, Oct. 27, at 3:00 p. m. for its regular monthly meeting. It opened by all standing and singing "America" led by Mrs. S. H. Vaughter. Then Mrs. Vaughter led in prayer.

Mrs. Virgil Sonnemaker, director, turned the program over to Mr. H. D. Peel, who with some of his 6th grade pupils, gave a very interesting program on Scotland, which everyone enjoyed.

The speaker for the afternoon was Mr. H. D. Peel who gave a very good and inspiring talk using as his subject, "Teamwork Between Home and School." He said that the best way to have teamwork between home and school was through the P. T. A.

In the absence of the president, Mrs. C. D. Pennington, the vice-president, Mrs. Bill Fouts had charge of the business session.

Mrs. Vaughter's first grade had most mothers present so were awarded the one dollar, making

have won. They tied with the 4th grade last month. The second consecutive time they

When you talk about VALVE-IN-HEAD you're talking about

The Power that made Buick Famous

If you want to know what's "the newest thing" in automobile engines, look at the Buick engine pictured here, and you'll see the words "valve-in-head."

But it happens that this isn't new with Buick. As a matter of fact, the valve-in-head engine was invented back in 1902—U. S. Patent No. 771095—and immediately, Buick adopted the principle, which became the first in a long string of "Buick firsts."

Not everyone went for the idea—then. In spite of the fact that this engine "breathes" more freely—gets fuel in and exhaust gases out more easily—others hung onto their pet ideas.

Then came the airplane, with its need for maximum power from every drop of fuel—and every maker of internal combustion airplane engines adopted the valve-in-head principle.

And more recently—with the hope that higher-octane fuels will become available—a lot of automotive engine designers are taking a new look at the valve-in-head idea.

But just for the record, we'd like to point out that Buick got there first.

And ever since, Buick has gone steadily ahead, building up a name as "valve-in-headquarters." Buick engineers reshaped pistons to put Fireball wallop in these engines. They stepped up compression ratios as fast as better fuels came along.

So perhaps you'll want to remember, when you hear the term "valve-in-head," that *this is the type of power that made Buick famous.*

If others want to climb on the bandwagon, we say "more power to them"—and no pun is intended.

But Buick has been doing more with valve-in-head right from the start.

And—we might add—it stands to reason that Buick is not through making this type of engine better and better.

MORE CLEARLY THAN EVER

Sound and Movie Film Will Be Shown At Burlington Lines Soil Conservation Meeting In Stamford November 18

"You are what you eat", according to the book, Soil, Food and Health, published by Friends of the Land, Columbus, Ohio; and the thought provoking statement that "food is fabricated soil fertility" is made by O. E. Fink, M. A., in his article therein, based on the teachings of William A. Albrecht as illustrated by the film "On the Other Side of the Fence", produced by Phillips Chemical Company of Bartlesville, Oklahoma.

Audiences at the six soil conservation meetings at centrally located West Texas and Panhandle points along the lines of Fort Worth and Denver City and Wichita Valley Railways, sponsored by Burlington Lines in cooperation with the Second National Bank of Houston, the U. S. Soil Conservation Service, and the Texas A. and M. Extension Service, will have an opportunity to

O. Dooley Dawson, vice-president and manager, agricultural department, Second National Bank of Houston, and conservation expert who will talk and show a new sound and color movie on soil conservation at Stamford Nov. 18, sponsored by Burlington Lines.

see this sound and color movie, which will be shown and commented on by O. Dooley Dawson, vice-president and manager of the bank's agricultural department.

Dawson joined the staff of Second National Bank of Houston in September 1945, at the inception of its new agricultural department. A graduate of Texas A. and M. in 1932 with a degree in agriculture, he spent 11 years with the U. S. Soil Conservation Service in Texas before joining the bank. He had worked in every region of east and central Texas from the Red River to the Gulf, and thus acquired a practical knowledge of native soils before his bank connection.

As manager of the bank's agricultural department he has traveled many thousands of miles over the state during the past four and one-half years, carrying the message of soil conservation directly to more than 60,000 persons in scheduled meetings.

Each program also will include talks and demonstrations by M. K. Thornton, extension agricultural chemist, and A. H. Walker, extension range specialist, both

of Texas A. and M. College System, College Station, and the Cooke county range management team comprised of B. T. Haws, county agent, Gainesville, coach; Douglas Robison, and Billy Whitt.

A group of Burlington Lines Officers and representatives of the Second National Bank of Houston, the Soil Conservation Service, and the A. and M. Extension Service will tour the towns and surrounding territory to attend these meetings and inspect important conservation projects now underway.

The first of this series of important meetings, to which the public is being invited and urged to attend, will be at 1:00 p. m. in the Community Building, in Shamrock on Monday, November 14th.

Following the Shamrock meeting the group will travel via special railroad cars to Childress for the second meeting in the High School Auditorium there at 7:30 Tuesday, November 15th.

The third meeting of the series will be at 2:30 p. m. in the Texas Theatre in Quanah on Wednesday, November 16th. The special railroad cars then will move to Henrietta for the fourth stop and meeting in the Dorothy Theatre at 2:00 p. m. on Thursday, Nov. 17th.

An overnight railroad trip from Henrietta to Spur and Stamford will put the official party in those towns on Friday, Nov. 18th, for the final programs. The fifth meeting of the series will be in Spur at 1:30 p. m. in the Spur Theatre, and the sixth and final session will be in Stamford at 7:30 p. m. in the Round-up Hall on Texas Cowboy Reunion Grounds, following which the official party will return to Fort Worth, College Station and Houston.

Local arrangement committees are under the chairmanship of R. H. Forrester, Wheeler attorney, for Shamrock; V. E. Hafner, county agent, Childress; L. M. Boring, creameryman, Quanah; Ernest Lamb, president Chamber of Commerce, Henrietta; Chas. A. Taylor, county agent, Spur; and Co-chairman Cecil Eager and A. J. Mills, Stamford.

Texas Technological college will send judging teams for intercollegiate competition to the International Livestock Exposition in Chicago, Nov. 23, to Dec. 3.

Ruth Bible Class Has Monthly Social In Home of Mrs. Mary Watson

The Ruth Bible Class met Monday night Oct. 24th, for their regular monthly social in the home of Mrs. Mary Watson, which was beautifully decorated on the Hallows-e'en theme.

The program got under way with Elsie Eastland naming every one present. For this feast she won a nice big red apple.

Josephine Davis led in prayer and Trudie Grisham gave the devotional. Mary Martin gave the treasury report followed with a prayer by Mrs. Brooks. Reports were made on cards and flowers sent during the preceding month, attendance and contacts. Mary Martin gave the monthly projects for the new yearbook, some being needy children (white and colored), needy families, nursery and kitchen of the annex, and the hospital.

The motion was made and carried that we pass the piggy bank Sunday, Oct. 30, to go for needs of the nursery and cradle roll. At this point the business meeting was adjourned, and the party got underway.

Games of Bingo were played, with Druclie Nellums winning first prize a beauty treatment (cake of Lifebuoy soap), and fourth prize, fixed from head to toe (a pack of gum). Second prize went to Annie Pearl Lusk. It was ready stamped stationery, (postal cards). Third prize of fuel for the winter, (box of matches), went to Opal Gilliam. Fifth prize, to make each meal complete, (toothpicks), went to Frieda Littlefield. Terminating the bingo, we bobbed for apples and threw darts. Then a Gypsy fortune teller, Madam Neptune, told all our fortunes and was later unveiled as Dale Bledsoe. None of us even knew she was present.

Love Pal gifts were exchanged and refreshments of hotdogs, coffee and doughnuts were served to the following: Annie Pearl Lusk, Trudie Grisham, Betty Jo Clanton, Wilma Gordon, Mary Martin, Frieda Littlefield, Seble Cousins, Mozelle Lowe, Leola Mae Herren, Alline Wheatley, Gladys Dowell, Estebelle Turnbow, Elsie Eastland, Mary Lou Jossilet, Opal Gilliam, Avis Pennington, Josephine Davis, Ethel Lou Shelton, Burellie Nellums, Gerry Spain, Bertha Mae Bass, Leola Richey and Critie Brooks, and the hostesses, Jerrene Couch, Bessie Mae Rich, Margaret Wat-

son, Nancy Reeves, Edith Wheatley, Frances Thomson, Dale Bledsoe and Mary Watson.

Mrs. Hugh Watson closed the party with a beautiful prayer.

A wonderful time was enjoyed by all and we are looking forward to our next social.

Rainbow Sewing Club Meets With Mrs. Copeland

On Tuesday afternoon, Nov. 1st, Mrs. H. F. Copeland was hostess to the Rainbow Sewing Club.

Her arrangements of fall flowers were very attractive.

At 2:30 o'clock the president, Mrs. Flossie Rogers called the house to order.

Helen Johnson lead the group in singing the club song, "Let Me Call You Sweetheart."

A business session followed. The secretary read the minutes of the last meeting. Monthly dues were paid.

Names of three new members were accepted by the club.

Mrs. J. B. Edwards gave the thought for the day.

Mrs. Sallie Patterson directed games during the social hour, which provided much fun and laughter.

Mrs. Tooley won a prize in the game contest and Mrs. Patterson's group won prizes in another contest.

Delicious refreshment plates of fruit cake topped with whipped cream and cherries and coffee were served to Mesdames Rogers, Jossilet, Tooley, Patterson, Eva Chapman, Helen Johnson, J. B. Edwards, W. E. Johnson, and Corzine. A visitor, the daughter-in-law of Mrs. Copeland was also present and Mrs. J. D. Coelaland and baby daughter of Odessa, Texas, and the hostess, Mrs. Copeland.

Next meeting will be with Mrs. Sallie Patterson Tuesday, Nov. 15.

ANNOUNCE ARRIVAL OF SON

Mr. and Mrs. James Jones are announcing the birth of a son, Robert James at Panhandle, Texas, on October 17th. He is the great grandson of Mrs. K. D. Simmons who is visiting in Panhandle for a few days.

RETURNS TO SAN DIEGO

Seaman and Mrs. Jimmie Walsh returned Saturday to San Diego, after a two weeks visit with their parents, Mr. and Mrs. Hershel Allen of Rochester, Mr. and Mrs. Charlie Walsh of Stamford, and other relatives.

Miss Oman, Bride-Elect, Is Honoree At Shower

Miss Etta Jean Oman, bride-elect of Clarence Searcy, was honored Saturday with a miscellaneous shower in the home of Mrs. W. B. Guess.

Guests were met by the hostess and after registering were shown the large display of beautiful gifts.

Refreshments of coffee and white cake squares were served to the following guests:

Mrs. A. M. Searcy, mother of the groom, Mrs. Beatrice King, Mrs. Otis Simpson, Mrs. Cude, Mrs. Gene Brown, Mrs. C. W. Hill, Mrs. Lawrence Kegley, Mrs. C. F. Oman, Mrs. Ben Bruton, Mrs. Truett Parsons, Mrs. W. W. Ashby, Mrs. C. W. Jones, Mrs. Jerrell Julian, Mrs. P. F. Weinert, Mrs. A. D. Bennett, Mrs. C. A. Thomas, Mrs. Helen Turnbow, Mrs. Louise McGuire, Mrs. Ora Childress, Mrs. Tom Cloud, Mrs. Connor Horton, Mrs. Lowry Wilson, Mrs. Floyd Searcy, Mrs. Glenn Caddell, J. L. Tolliver, Jr., Miss Leona Havran.

Hostesses were Mrs. J. W. Liles, Mrs. R. H. Jones, Mrs. G. C. Newsum, Mrs. John A. Mayfield, Mrs. Ike Wilfong, Clyde Mayfield, V. C. Derr, Mrs. Jimmie Anderson, Mrs. Eunice Hutchinson, Mrs. Fred Monke and Mrs. Pearl Monke, and Mrs. W. B. Guess.

Moneta Hix New Owner of Weinert Beauty Shop

New owner and operator of the Weinert Beauty Shop, which serves a large clientele in the Weinert section, is Moneta Hix, formerly of Haskell who took over management of the establishment this week as owner and operator.

The new owner, an experienced beautician invites the women of Weinert and surrounding territory to visit her shop at the first opportunity.

HASKELL VISITORS

Mr. and Mrs. J. W. Chandler, Mr. and Mrs. C. A. Corley and E. B. Corley, all of Stamford, were visitors Tuesday in the home of Mr. and Mrs. A. Y. Corley in this city.

Mrs. R. H. Jones Directs Weinert Club Program

The Weinert Matron's Club met for the second meeting of the year in the home of Mrs. Claude Reed Thursday.

Program was directed by Mrs. R. H. Jones, Mrs. H. F. Monke gave the well loved story of Ruth, the Bible chapter, Mrs. W. B. Guess gave the story of David and Jonathan's devotion to each other.

A delicious refreshment plate was served, carrying out the Hallows-e'en color scheme, to the following members:

Mrs. R. H. Jones, Mrs. J. W. Liles, Mrs. H. F. Monke, Mrs. W. I. Cousins, Mrs. Fred Monke, Mrs. P. F. Weinert, Mrs. V. C. Derr, Mrs. Ramon Liles.

Visits Parents Here Before Returning To Switzerland

Mrs. W. R. Beech, who has been in California for some time, is here for a visit in the home of her parents, Mr. and Mrs. A. Y. Corley, on the eve of her departure to return with Dr. Beech to their home in Berne, Switzerland. Dr. Beech is now in Washington, D. C., and the couple plan to leave in about two weeks for Switzerland where they have lived for a number of years.

Their three children, Bert, Joe Ray and Colette, will remain in California, where Bert has a teaching position and the two younger children are attending college.

Before a new garment is worn, touch the center of each button with translucent nail polish. It sets the threads so you won't have to re-sew so often.

A friendly church invites a friendly visit.

The Pinkerton W.M.U. has its regular meetings on Monday afternoon at two o'clock. The regular time used is one hour only. The meetings alternate from Monday after the Third Sunday.

The president, Mrs. R. H. Saffel, says that interest is greater and that the number of women attending is increasing. Visitors are welcomed, and new members are sought arder at all times.

The mid-week service at Pinkerton church begins at seven-thirty, after the day's work is over, on Wednesday evenings. Thirty minutes is now being given to a study of God's Holy Word directed by the pastor. At eight o'clock the Pinkerton Singing Class takes over for an hour of practice singing. According to Jackson Williams, the youthful president, the hour is proving both pleasant and profitable. Occasionally visiting quartets add to the delight of the hour, as did the Haskell quartet recently. All who sing, or enjoy

RELIEF AT LAST For Your COUGH

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.
CREOMULSION
for Coughs, Chest Colds, Bronchitis

hearing others sing are invited to attend. Rule, Rochester, and Haskell visitors are particularly welcomed. From two to four o'clock in the afternoon of Fourth Sundays, the doors are thrown wide for a community singing. The Pinkerton singing class invites your regular attendance at these meetings.

Pinkerton Sunday School started the new year with an expansion of interests. An Extension Department has been set in motion with Mrs. C. E. Tidwell as superintendent. A nursery department is being opened and a room equipped for its use. Mrs. J. C. Holt is the superintendent, and reports that all will soon be in readiness and that mothers may expect to have their babies

care for while in services.

Hall Can Be Made One of Most Attractive Spots In the Home, Specialist Says

Often the entrance hall in the home does give one the impression that a home is really just a place to hang your hat, but if the entrance hall to your home is thoughtfully finished, it may reflect the hospitality and cheerful atmosphere of the home, says Mrs. Bernice Claytor, extension specialist in home management of Texas A. and M. College. The decoration and furnishings of the hall may also be an introduction to the decorative scheme of the house.

Since the hall is a part of the house where people do not usually remain for any length of time, more striking effects can be used here than in rooms where you expect to spend many hours. The most important considerations for the hall are that it have a cheerful and cordial welcoming atmosphere and that it be convenient, says Mrs. Claytor.

For convenience, there should be a closet where wraps may be placed and hung. There should be a table or a flat surface of some kind where packages may be left, or letters, gloves or similar articles may be laid. There should be room for a chair or two.

The hall usually gets heavy traffic and is exposed to more of the weather than other rooms, and for these reasons the floor coverings should be easy to clean, says Mrs. Claytor. Linoleum is a serviceable floor covering for the hall and there are many attractive colors and patterns to choose from. It is quite customary to use scatter rugs on a polished floor in the hall, but when this is done, warns Mrs. Claytor, be sure the rugs are anchored so that there will be no falls caused from the rugs slipping on the floor.

You can make the entrance hall to your home reflect the personality of the family and carry the welcome sign for your visitors, says Mrs. Claytor.

Engineer Advises Check of Wiring In Farm Homes

The electrical wiring on many farms in obsolete so far as safety and economical use of power is concerned. Farmsteads that were wired a number of years ago just weren't wired to handle the modern-day loads, says W. S. Allen, agricultural engineer-buildings of Texas A. and M. College.

A few years ago the chief uses of electricity on the farm were for lights, perhaps an electric pump motor and a few household appliances. It is different today. Farmers are using large motors to elevate grain, to operate pressure water systems, and literally dozens of smaller motors and appliances to make their work faster and easier around the farmstead, says Allen. There're chicken and pig brooders, cream separators, milking machines and milk coolers, lights all over the place and in the home many new appliances and machines have been added with little thought given to modernizing the wiring system.

Allen suggests that you make a few simple checks for the purpose of determining whether or not some new wiring on your farm would be in order. The lights and electrical equipment are good indicators—just watch them. Lights dim when the refrigerator or pump motor kicks on. The fluorescent light in the kitchen may go completely out. Radio volume decreases when other equipment is on; the cream separator motor doesn't seem to have its usual pep; the electric range doesn't heat as fast at chow time and electric motors stall and get hot. These are danger signals.

If these situations exist on your farm, says Allen, chances are very good that your farmstead wiring is inadequate. For the equipment you are using, the wires from the transformer to the equipment are too long, too small or both.

In addition to the low voltage which causes dim lights, loss of power and loss of time in waiting for electrical elements to heat, electricity furnished by inadequate wiring costs more money, says Allen, and a rewiring job would pay. The use of larger wire and a shorter span between the transformer and the meter have often resulted in considerable savings to the farmer.

Allen says you should remember that you pay for the energy lost in all wires on your side of the transformer. You don't pay directly for the energy lost in heating the wires between the transformer and the meter but you make up for it in the inefficiencies of your lighting, heating and power equipment.

Allen points out that it is possible that some of the trouble might be caused from low voltage arried in the distribution line and if this is the case rewiring wouldn't help. New equipment has come along so far that

The Chapel Youth Built

Ten years old November 1, the Little Chapel-in-the-Woods at Texas State College for Women has been the scene of 691 weddings, a number of baptisms, and weekly interdenominational worship services. Built primarily as a place of individual prayer and meditation, the Chapel is constructed of native limestone. Art work, including the stained glass

windows, was done by more than 500 TSCW students. From its plain Celtic cross to its multi-colored stained glass windows, the Chapel is not only of the twentieth century but of the Texas landscape. It was the first true stone masonry building of any moment to be built in Texas since 1870.

most electric users just haven't stopped to think about what is happening to their wiring system, but Allen says, if you have observed the danger signals, it's time to find the cause.

Relatives, Friends Attend Funeral of R. J. Paxton

Among out-of-town relatives attending the funeral of R. J. Paxton were Mr. and Mrs. J. R. Maxwell of Denton; Miss Frances Maxwell, Graham; William P. Boyd, Austin; Mrs. Clelland Harris, San Antonio; Mrs. Elizabeth Sivells, Mr. and Mrs. T. C. Sivells, Paducah; Paxton Sivells, Elida, N. M.; Mrs. J. F. P'Pool and daughter, Ruda V., of Dallas; E. A. McMahon, Aleen McMahon and Miss Tommie Chenoweth, Dallas; Mrs. T. W. Johnson, Mr. and Mrs. R. C. Johnson and Mrs. Ralph Kirkpatrick, of Lubbock; Mr. and Mrs. Sterling P'Pool, Fort Worth; Richard A. P'Pool, Eastland; Dr. W. F. P'Pool and Bob P'Pool,

Lubbock. Casey P'Pool, Longview; Mr. and Mrs. Guy Speck, Carlsbad, N. M.; Mr. and Mrs. J. E. Mansell, Mrs. E. Hob Smith, Mrs. Vestus Alvis, Mrs. J. W. Bragg, Mrs. Hicks, Rochester; Mrs. Agnes Logan and Mrs. Aubrey Dunwoody; Anson; Mr. and Mrs. Marvin Downey, Mrs. W. R. French, Rev. J. R. Swindell, Mr. Claude Lewis, Hawley; Mr. and Mrs. J. E. Reeves, Munday; Mr. W. M. Rowan, Knox City; Mr. Goss Seymour; Mrs. Ralph Bucy, Lubbock; and Mr. and Mrs. Julius Hegg, San Antonio.

"GREEN LIGHT" ON HOUSING LOANS

and repair of other farm buildings built or repaired with these loans? Yes. It is expected that any building built or repaired will have, when completed, a sound foundation, strong walls, tight roof and will meet similar minimum construction standards.

Will there be any exceptions to these standards? There are no exceptions for the construction work done with regular housing loans. However, in emergency cases when loans are made for minor repairs to protect the health and safety of the farm family, the construction work need only conform to minimum standards to the extent necessary to make the building safe and sanitary.

How much aid could I receive for minor repairs? The largest loan for minor repairs will be \$1000. No more than \$1000 total may be obtained for minor repairs.

Will loans be made for land purchase or development? In some cases, yes. When the purchase or additional land or when improvements such as clearing, draining, fencing and terracing will increase the family income enough to repay the housing loan, funds may be used for land purchase or development.

Will there be local assistance in the operation of the program? County committees of local farmers will recommend as to the eligibility of the applicants, the reasonable value of the farm, the type of assistance for which the applicant is qualified, the amount of the loan needed and the number of years over which the loan should be repaid. Where necessary the committee will inspect the farm and personally interview the applicant before making its recommendations.

Where do I apply? The farmer who needs housing assistance may make formal application on blank supplied for that purpose at the office of the F. H. A.

but may repay his loan in a shorter time. The interest rate is 4 per cent. The borrower will be expected to refinance his indebtedness through cooperative or private sources whenever he is able to do so.

What security is needed? The loan is secured by a mortgage on the farm, subject to any existing prior liens, and such additional security as may be necessary to reasonably protect the government's investment.

How large must a farm be to qualify for a loan? For this program a farm is considered to mean a parcel or parcels of land operated as a single unit for the production of one or more agricultural commodities for sale or home use which have an annual gross value equal to at least \$400 based on 1944 commodity prices.

Do veterans have preference? Yes, preference is given to veterans of all wars and immediate families of deceased servicemen.

What if my present income is not enough to repay a housing loan? You may still be able to get a loan if you can work out and follow a program which, within five years, will enable you to improve your method of farming and increase your income to a point where it will repay a housing loan.

How do I make my payments on the loan during the five years I am working to increase my income? If you have agreed to and are following a program designed to increase your farm income, and if you lack the money needed to meet your payments during any of the first five years, the government may help you by deferring up to half of the principal and all of the interest due in that year. A loan of this type could be made in an area where they had experienced severe drought or other hazardous conditions.

Are there any standards for the farm houses and other buildings built or repaired with these loans? Yes. It is expected that any building built or repaired will have, when completed, a sound foundation, strong walls, tight roof and will meet similar minimum construction standards.

Will there be any exceptions to these standards? There are no exceptions for the construction work done with regular housing loans. However, in emergency cases when loans are made for minor repairs to protect the health and safety of the farm family, the construction work need only conform to minimum standards to the extent necessary to make the building safe and sanitary.

How much aid could I receive for minor repairs? The largest loan for minor repairs will be \$1000. No more than \$1000 total may be obtained for minor repairs.
