## STATE ELECTION HELD TODAY.

Texas is holding a very important election today. Prohibition and Woman Suffrage amendments as well as amendments to increase the Governor's salary the lending of credit by the state to improve homes, are to be voted upon. All of these are important and should be carried and we believe will be carried.

The two most important measures are the Woman Suffrage and Prohibition amendments. Every citizen should go to the polls and vote and La Salle should roll up a good majority in favor of all amendments. Following is a copy of the ballot that will be voted:

### OFFICIAL BALLOT.

For Prohibition.  
Against Prohibition.

For the Amendment to Section 2, Article 6, of the Constitution of the State of Texas, providing qualifications for male and female voters.

Against the Amendment to Section 2, Article 6, of the Constitution of the State of Texas, providing qualifications for male and female voters.

For the Amendment to Section 5 of Article IV of the Constitution of the State of Texas in regard to the salary of the Governor of the State of Texas.

Against the Amendment to Section 5 of Article IV of the Constitution of the State of Texas in regard to the salary of the Governor of the State of Texas.

For the Amendment to Section 50, Article 3, of the Constitution of the State of Texas, providing that the Legislature shall have power to give or lend or authorize the giving or lending of the credit of the State for the purpose of assisting citizens who are heads of families to acquire or improve their homes.

Against the Amendment to Section 50, Article 3, of the Constitution of the State of Texas, providing that the Legislature shall have power to give or lend or authorize the giving or lending of the credit of the State for the purpose of assisting citizens who are heads of families to acquire or improve their homes.

## School Term Closed Yesterday.

Cotulla schools closed yesterday after a nine months term and closing exercises were held at the Auditorium last night. Exercises of the Mexican school were held Thursday night. The program carried out at the Auditorium last night will be found on the last page of this issue.

The School Board has re-elected a majority of the teachers for next year.

## Rock Farm Sold To San Antonio Party.

The W. E. Rock & Sons Farm, comprising 100 acres, irrigated, has been sold to J. A. Roosevelt, of San Antonio. The consideration was \$150,000 per acre. This farm is located on the Nueces eight miles below town and is one of the best improved farms on the river.

We understand that Fred Johnson and Eugene Mechler have secured a lease on the place until September 1920. This lease was made, we understand before the deal was made, and it was the understanding that this agreement would be carried out with the purchaser.

## HUNS REFUSE TO SIGN.

Berlin, May 21.—"Germany declines to sign the peace terms laid before it because they spell the economic destruction, political dishonor and moral degradation of the entire German nation, not only for the present, but also for still unborn generations," was a statement authorized by the Cabinet yesterday through the Associated Press.

That these consequences must logically follow acceptance of the peace conditions, the American press itself has recognized without question, the statement continued. Toward them Germany took the standpoint that acceptance of such conditions could not be demanded and that the intention was unjustified in imposing such demands.

Germany has not only a moral right to compliance with the general promises made it, but a firmly grounded, definite, clearly defined claim, according to the basic rules of international law on all the intent powers, and especially on the United States. A specific recognition of the right of Germany and of the German people to a peace of right, justice and reconciliation, instead of the paraphrased song of hate which was written at Versailles, is contained in the note of the American Secretary of State, Lansing, of November 5, 1918.

In it the Secretary of State notified the Swiss minister in Washington unconditionally that the established basis of President Wilson's fourteen points should be authoritative for the peace conditions.

Secretary Lansing announced further that the intent governments, after careful consideration, also were prepared to recognize the conditions set up by President Wilson as the basis for the conclusion of peace.

The declaration of rights emanating from these specific declarations of all the intent powers and the United States constitutes Germany's sole asset in the general moral breakdown of all international policies which has found unsurpassable expression in the Versailles terms.

## ONION HARVEST NEARLY OVER.

The onion harvest is nearly over. Only a few cars remain yet to be shipped. This has been a phenomenal year. Prices have soared till today they are in the neighborhood of \$3.50 per crate. However, not many growers have received the benefit of the highest prices, most of them having contracted their output at around \$2. Some of course received more, while a good many received less. Buyers have made a pot of money this year. Some speculators have raked in a young fortune. It is believed the grower in this particular neighborhood averaged about \$2 per crate, making the crop being to the farmers approximately \$100,000.

## Feed Crop Ready To Be Harvested.

The feed crop over the county is just about ready to be harvested, and it is one of the heaviest crops ever raised in this section. Because of the scarcity of labor and demand for choppers in the cotton fields no doubt much feed will go to waste because of lack of labor to handle it. Every farmer should use his greatest effort to put up as much feed as possible for it will be worth money next winter.

Cotton is growing fast, the weather being favorable towards its growth. It is said that in some parts of the country cutworms are still working, but in most fields they have ceased to do any damage.

## R. J. Recknor Operated On.

R. J. Recknor, night clerk at the I. & G. N. depot was taken suddenly ill last Saturday and Sunday was taken to San Antonio by Dr. Lightsey where he underwent an operation for appendicitis Sunday night. His condition was very serious but he is recovering now.

## CHURCHES GO OVER THE TOP.

In the drives of the Methodist and Presbyterian churches here this week both organizations went over the top. In the Centenary drive the Methodist Church here was assessed \$3,000. Mr. A. A. Simpson stated yesterday that the top had practically been reached. At that time the amount had not fully been reached, but promised subscriptions today would put this church over the top.

The Presbyterian church here was assessed \$2,000 in the drive for Colleges and Schools, and the top was reached in a one day drive by the Committees appointed for the work. Rev. H. W. Hamilton, who has been over the district lecturing on the work, returned home yesterday. He reported that every part of the district was coming up in good shape.

The drouth cleaned up the country of hogs. Because of the scarcity and high price of feed, every farmer who had a good herd was forced to sell, consequently the country was never cleaner of hogs than it is now. Now is the time to put in good stock and cut out the scrubs. A scrub hog eats as much as a good one and weighs a third as much when grown.

County agent Lown wants to put in a hundred registered pigs on the farms within the next thirty days. Already a number of Duroc Jersey registered pigs have been shipped in, and every farmer who wants to help stock the country with good stock should see Mr. Lown at once. He will get the pigs for you at actual cost or put you in connection with parties and you can get what you want yourself.

There is going to be a large quantity of feed raised here this year, and every farmer should get a good start of hogs. Under present conditions the only thing to do is to get good pigs and start from the bottom. If one hundred registered pigs can be put in the county now, there will be something to the hog crop two years hence.

## Heavy Rain Last Night.

A very severe electrical and rainstorm swept this section this morning about four o'clock and for fifteen minutes the wind gained a velocity approaching a hurricane. Telephone and telegraph wires are down in every direction this morning and no definite information can be had. The rainfall here was 1.20.

### Picture Show Opens.

W. V. Upshaw has re-opened the picture show and will call his place the Queen Theater. The first show was put on Thursday night with a good crowd present. The pictures were clean and the light good. He has a good operator who understands his business and will give the public good service. The Town needs a good picture show especially during the summer months when no school is going on. Mr. Upshaw expects to put on about two shows a week.

### Baptist Church.

Regular services tomorrow, Sunday School 10 a. m.; Sermon 11 a. m. and at 8:30 p. m. All members of the church especially asked to be present at these services. Cordial welcome to all. On Sunday, June 1st, Rev. W. D. Bowen, one of our State Missionaries and Evangelist will begin a meeting with us. Bro. A. A. Simpson has agreed to lead the song service. Everybody is asked to attend these meetings and help in all the services. May Cotulla be revived.

## IMPORTANT ANNOUNCEMENT!

The Ford Motor Company has designed a self-starter for Ford cars and in the near future all cars turned out will be equipped with Starters.

We have up to this date received 50 per cent of cars on our 1918-19 contract, and will receive the other 50 per cent between now and August 1st. In all future shipments to us, cars will either be equipped with starter or motors will be assembled so as to receive starter, and it can be installed at any future time.

Many people have objected to a Ford simply because it had no self-starter. They know it is the best car in the world for the money; they know it is the best car on the market for this country—but the starter was missing. This objection will soon be eliminated.

Hold your orders for our shipments that will soon begin to arrive. Don't tie your money up in cars that try to compete with the Ford. You'll be sorry and in the junk pile when the Ford is still going without a bobble.

Come in and sign up. When Henry Ford puts a starter on his car you may rest assured that it's going to be a humdinger, because Ford always knows he's right before he tells the public.

THEN AND NOW.

In 1865, just about this time of the year, straggling bands of ragged Texas soldiers were returning to what had once been happy homes. In many an instance those homes had been reduced to ashes. Business was demoralized, the labor system was in collapse, farms were fenceless, there was almost no money, and everywhere there was the shivering dread of utter lawlessness. A whole civilization lay in ruins.

The key to the dreadful situation was the Confederate Veteran. No grander or more touching record of achievement in the arts of peace can history show than the social and economic redemption of the South in spite of catpetbagism and of the attempted degradation of the electorate and of every other scheme intended to keep her humiliated. Few of these old soldiers are left now, but that they were soldiers all the world has acknowledged. To them more than to any other class or kind is due the New South. They were always Americans. Their sons are Americans. Many of these old men had the hardihood to offer their services to the Secretary of War when America took the inevitable step and put her resources of men and money into the fight for Christian civilization. Many a son of a Confederate Veteran sleeps in France and Flanders, and in the unmarked graves of the deep, and his Americanism was in no whit more exalted than that of his father. There are no more loyal men in the United States of Confederate era. Our boys who are coming home to a roaring and hila rious welcome on the part of a victorious people may well consider that another test of their patriotism and their manliness is before them. If they shall take counsel of the enemies of law and order, if they shall claim special prerogatives on account of their military service, if they shall fail to learn from the example of their fathers who saved the day for the South by their devotion to the best things—but perish the thought! They will do none of these things! They will quit themselves like the men that they are!—Home and State.

Hawker, the Australian daredevil, who endeavored to make the flight across the Atlantic and met death is due much credit for his act although it ended in disaster. He had been waiting for weeks at St. John, to make the jump-off for the trans Atlantic flight, but day after day of unfavorable weather prevented. When the American flyers landed safely in the Azores, Hawker that it was now or never, and he took the one chance to beat the Yankees. The British press is censuring the British government for not giving him protection in the way of ships along the line of flight, then he perhaps would have been saved had he had to alight on the water for any purpose.

Conditions continue excellent for bumper crops of all kind this year. A heavy feed crop is already made and nearly ready to cut. One more shower will make a fine corn crop, and good corn will be made without any more rain. The weather recently has been favorable for cotton and it is coming on fast. Some farmers report their cotton squaring.

CALOMEL DYNAMITES YOUR LIVER!  
MAKES YOU SICK AND SALIVATES

"Godson's Liver Tone" Starts Your Liver Better Than Calomel and You Don't Lose a Day's Work

Live up your sluggish liver! Feel fine and cheerful; make your work a pleasure; be vigorous and full of ambition. But take no nasty, dangerous calomel because it makes you sick and you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping. Listen to me! If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Godson's Liver

Tone tonight. Your druggist or dealer sells you a 50 cent bottle of Godson's Liver Tone under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick. Godson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working; headache and dizziness gone; stomach will be sweet and bowels regular. Godson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Godson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the safe of Calomel is almost entirely here.

SAYS HOT WATER  
WASHES POISONS  
FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

## "BACK US UP NOW"

IS APPEAL OF THIRTY-TWO TEXAS METHODIST MISSIONARIES IN MESSAGE TO 400,000 TEXAS METHODISTS

### GREET TEXAS FROM ABROAD

"Back us up" is the soul-stirring appeal of thirty-two Texas missionaries now in seven foreign lands to the 400,000 Methodists of Texas on the eve of their great campaign in connection with the Texas drive for more than \$5,000,000 as a thank-offering for the centennial of Methodist Missions.

Texas is called upon to raise one-seventh of the total amount, \$35,000,000, which will be collected in eight days, beginning May 18, and Texas Methodists have a special reason for doing their part, because so many heroic Texans have manned the outposts of Methodist missions as doctors, nurses, teachers and evangelists.

Go where you will in Africa, China, Japan, Korea, Cuba, Brazil, and Mexico, not to mention the hundreds of stations among the foreigners now in America, and there you will find the Texas missionary rebuilding the world's civilization for the Christ of America.

Here is a partial list of these Look them over.

Miss Kathron Wilson, Dallas, Tex., trained nurse, Wembo, Niama, Africa.  
Miss Charlie Holland, Moscow, Tex., teacher in Lambuth Memorial Training School for Bible Women, Kobe, Japan.

"That's just what I've always wished a cigarette would do — satisfy"

The feature of Chesterfields is that they begin where other cigarettes leave off.

In other words, besides pleasing the taste, Chesterfields go 'em all one better—they satisfy! Just like a long drink of cold water satisfies when you're downright thirsty.

No other cigarette can give you this new thing in cigarette enjoyment because none can copy Chesterfield's blend.

It's a blend of the finest TURKISH tobaccos from Xanthi, Cavalla, Smyrna and Samsoun and several varieties of the choicest DOMESTIC. And the blend itself—the skill with which these tobaccos have been proportioned—is a real discovery in cigarette making.

## Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, zesty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside-bathing before breakfast.

It is no harder for us to please the man with the out-of-the-ordinary form than it is the common garden variety kind. Our measures can't go wrong once in a thousand times--so we take no chances in guaranteeing a perfect fit. But the fit--and the wear--and the general satisfaction are not all there is Royal Tailoring. The saving in price--\$5 to \$15 per suit--is THE BIG THING.

Be an Ace--if you do, you will have to be "Royal Tailored"

Chas. E. Neal made a business trip to Laredo yesterday.

Dr. Hopkins. It's Doctor Hopkins.

J. M. Dobie was among the arrivals Thursday.

Baldy McMahan returned yesterday from San Antonio.

Merchant's Lunch 11 a. m. to 2 p. m., at Holman's Cafe

Remember the name Dr. Hopkins.

Mrs. M. L. Rone of Dilley was here this week visiting friends.

Harry Otto Fisher of San Antonio is here visiting his grandmother, Mrs. J. A. Copp.

T. H. Poole shipped a couple of cars of fat cattle from Millett Wednesday.

Mr. and Mrs. J. E. Henrichson of Artesia Wells were in Cotulla during the week.

Mrs. Alma Rechentine of San Antonio is in the city guest at the home of Mr. and Mrs. E. D. Cohenour.

Burnett Robuck has moved out to the Thomas ranch where they will remain until school opens in the fall.

Mrs. Benjamin Trice and children are in the city. Mrs. Trice is visiting her parents, Mr. and Mrs. W. B. Guinn.

Miss Madie Daniel, who taught at Dolores the past year, came home Wednesday. Her school was out this week.

Mr. and Mrs. Claude Landrum of San Antonio are visiting for a couple of weeks with Mr. and Mrs. Arthur Coleman.

Dell Ballard shipped in 150 head of Mexican cattle Tuesday. He bought them about 50 miles in the interior of Mexico, and crossed them at Laredo. R. O. Gouger also crossed about 300 head this week, selling 100 head of steers to W. A. Kerr.

Today is election day. Don't forget to vote, and for one time in your life don't be "agin" anything. Go to the polls and vote FOR every amendment. Every amendment should pass and will pass, and the right thing to do is to help a lot of good things along.

Dr. Morgan, the new Dentist is getting about all the work he can do and meeting the expectations of the public with the work he is doing. He is scheduled to go to Big Wells for one week beginning Monday, after which time he will be in his office again.

Judge C. C. Thomas returned yesterday from Laredo where he has been holding District Court since the 4th inst., for Judge Mullally, on account of the letter being disqualified in many cases to come before him. Judge Mullally has been on the bench Judge Thomas' district.

Miss Lois Pierce, Spanish and English teacher in the High School for the past year, left Tuesday for British Honduras, Central America, her home. She left two or three days before the term expired, but this was necessary on account of making connection with her boat. She will spend the summer in Central America but will return here to teach in the school again next year.

An accident is liable to befall anyone at any time. Such things are of every day occurrence, yet many people go along without an accident policy and part with the savings of a year or two when misfortune overtakes them. That's not good business, and you will admit it. A few \$\$\$ a year for the right kind of an accident policy will protect you.

Jesse Rock came in last Sunday from Ranger to spend a week with homefolks and friends and incidentally to help his father pack up, preparatory to moving to San Antonio. W. E. Rock & Sons have sold their farm to San Antonio parties, and will move next week to San Antonio. Cotulla regrets very much to lose these people from among their citizens, but the boys are in the oil business at Ranger pretty strong, and Grandpa Rock has decided that he has farmed enough in his day.

Mr. Chas. E. Neal, of Neal's Auto Sales Company, states that it will now be only a matter of a short while before Ford cars will be equipped with self-starters. He has information that fifty per cent of the balance his contract cars for this year will have self-starters, and that all of them will be so arranged that the starter can be put on at any time. This will be good news to prospective purchasers, who desire a car of the Ford durability and price. Cars with starters will be approximately \$75 higher in price.

Ninetieth and Thirty-sixth Division boys will soon be coming home. Perhaps by this time they are on the high seas enroute to America. They have been in Europe for nearly a year, the 36th boys in France and since the armistice the 90th boys in Germany. There are probably a number of Mexican boys in these divisions that belong here, but of those that have not already returned there are only four American boys from Cotulla, namely: Lee Daniel and John Wildenthal in the 36th and Roy Guinn and Walter Vanly in the 90th. The latter two have been in Germany since December. All of the boys write that they are very anxious to come home.

It has been reported that contracts have been made for the drilling of two more deep wells in La Salle county this fall. Just how authentic this information is we do not attempt to say. We also learn that negotiations are under way for one or more contracts on land in the extreme Southeastern part of the county. Drillers are given from three to six months to begin operations on all of these contracts consequently there will not be any actual work before fall. During the past ten days the lease business has been very quiet. Speculators are scarcer. However, most of the land in the county has been leased up.

**Catarrah Cannot Be Cured**  
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrah is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrah Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrah Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrah Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. All Druggists, % Hall's Family Pills for constipation.

LOST-- Small Spanish black mare mule, small brand, left thigh. Reward. F. S. Stewart, Dilley, Texas.

Miss Mildred Talbott, who has been attending school in Roswell N. M., arrived home Thursday for the summer.

**DELCO-LIGHT**  
ELECTRICITY FOR ANYONE ANYWHERE

**Making the Farm Produce**

The most important factor in farm production this year is farm labor. Delco-Light adds an extra hand to the farm working force--  
And it is the busiest, most efficient workman about the place.  
Delco-Light not only furnishes an abundance of clean, safe and economical electric light for house and barn but--  
It furnishes power to pump the water, operate the separator and churn, wash the clothes and grind the tools--  
It lengthens the working day by making it possible to do the barn chores safely and easily after dark--  
It pays for itself in time and labor saved--  
And at the same time it adds greatly to the comfort and convenience of farm life.  
Delco-Light is a simple, compact, highly-efficient electric plant that requires little or no attention, and that runs on kerosene, gas or gasoline.
