Their smiles are real, their jubilation is genuine ... and ... they deserve an extra 'pat on the back,' Who? Why, Coach Raymond Schroeder and his basketball players, of course, Following a 'long, dry spell,' the team finally hit pay dirt and took two conference games in a row last week.

What is so amazing about that, you ask? Well, it just so happens to be the first time since Muleshoe has been AAA that this event has happed. Tulia and Hereford both fell before the 'fired-up' Mules who may have found their niche in sports. The only apparent disappointment by the team, both as a

Soybean Yield Shoots Upward During 1969

Agricultural observers have reported that soybean yields on the Texas High Plains during 1969 were the highest produced and results from the 1969 High Plains Research Foundation soybean varieties tests substantiate these reports.

According to Dr. Douglas Owen, Senior Agronomist, Halfway, weather was a major factor influencing soybean yields in 1969, However, the scientist pointed out, climatic conditions during the growing season were most favorable for medium maturity soybean varieties while the prolonged hot weather during July and August was not favorable for the early maturing varieties and the early freeze October 13 was damaging to full season varieties.

In the report compiled for the 1969 annual research revall, attempts to lob it toward the basket as a Hereford Whiteface port, Owen and Quebe noted that yields of all tests were Cont'd on Page 3, Col. 1

met with the Muleshoe City Council Tuesday morning, and asked the council to consider a 'teenage curfew' law for the city. In citing his reasons for asking for a curfew, Nowlin told councilmen: "I was called out a couple of night ago by officers and when we finished our business, we went to a local restaurant. "It was 3:45 in the morning, and six noisy teenagers were in the restaurant. I began talking to local officers and found that this was a common occurrence in Muleshoe. That many teenagers,

most of whom are known to officers, are out all night. "It would help the officer who is patroling at night, and probably would help the town if there was a reasonable curfew hour," he continued.

When asked what he thought Lazbuddie would be a 'reasonable' curfew hour by Mayor W.B. LeVeque, Youth Wins Nowlin replied that he thought 12:30 a.m. on weeknights and 1 a.m. on weekends would be late enough for youths below the age of 18 to be driving up and down the streets.

Mayor LeVeque commented that he felt that possibly the hours should be set later. The matter was taken under advisement by the city council.

A journal representative contacted Muleshoe City Police Chief Harrold White and asked his opinion of a curfew law

BY CONGRESSIONAL ACTION

On December 24, 1969, the President of the United States signed legislation, enacted by the U.S. Congress, increasing the insurance of each saver's funds from \$15,000 to \$20,000.

The Federal Savings and Loan Insurance Corporation, a permanent agency of the United States government, is the protector of funds in nearly 4500 Insured Savings and Loan Associations throughout the nation.

This increased protection for your savings means you now can accumulate even larger cash reserves in complete safety, in one insured Association.
