## \$250,000 In Bonds For Water District To Be Decided Sat.

### Voters in Ozona Townsite Area To Determine Fate of Issue

Property owners in the townsite area of Ozona who have rendered property for taxation will be eligible to vote next Saturday on a proposed \$250,000 bond issue for the purpose of meeting probable expansion needs of the Crockett County Water Control and Improvement District No. 1, whose boundaries encompass the area of the Ozona townsite.

The election will be held at the courthouse and voters from all areas of the city within the district boundaries are urged to cast their ballots in this election, being held simultaneously with the Democratic run-off primary.

The proposed bond issue, payable from revenues of the water and sewer district operation as far as possible, are actually tax bonds, subject to an ad valorem tax to be levied on property within the district to provide the necessary interest and sinking fund for their retirement. The bonds, with maximum maturity 25 years and maximum interest rate of 4 1/2 percent, have been contracted by agreement with Russ & Co., San Antonio bond firm, for sale at 3 1/2 to 3 3/4 percent interest, with a 2 1/2 percent service charge against the entire issue, a total service charge, should the entire \$250,000 issue be sold, of \$6,250.

The proposed bond issue is the result of a projected ten-year plan of development of the water and sewer system as outlined by an engineering survey to determine the community's possible expansion needs. The board of directors, however, plans to issue and sell from \$50,000 to \$75,000 in bonds should the issue be approved, and the balance of the issue will remain unsold unless and until the need arises for further rapid expansion of the system to meet community growth needs, Sherman Taylor, board president, said.

The district has a bonded indebtedness at present of approximately \$190,000, the unpaid balance of three previous issues totaling \$275,000 for the original purchase of the water system and the expansion of it and the sewer system. There exists a possibility that increased revenues from present and projected expansions may increase district revenues to the point that any orderly growth and development of the future may be met with revenues rather than further bond sales. The 10-year plan was, however, lumped into one election as an economy measure in so far as the election costs are concerned.

## Miss Wanda Carden Of Ozona Selected Among Eleven Finalists In 1956 Miss Wool Contest

Announcement by the selection committee of the Miss Wool Contest that Miss Wanda Carden of Ozona has been named one of the eleven finalists in the contest was received here this week.

For the fifth year, a wool queen will be selected in San Angelo, wool center of the world, to represent the wool industry in the nation's fashion centers, and most particularly in the State of Texas.

From East Texas come Suzanne Huggins of Baytown, and Mary Ann Ward of Tyler, North Texas is represented by Norma Ledbetter of Dallas and June Prichard of Wichita Falls. Three girls from Central Texas, Joan Marie Julian and Peggy Seasy, both of San Antonio, and Earlene Whitt of Austin, will be present to represent the state. Plains contestants are Jean Crass of Lubbock, and Jeanne Wansing of Amarillo. And, of course, West Texas has its representatives with Miss Carden and Peggy Shelby of San Angelo.

The most fitting prize for this year's Miss Wool is the all-wool wardrobe, complete with accessories, valued at approximately \$4,000, which is hers to model during the year, and then to keep. During her reign, she travels to fashion centers of the nation and appears on national radio and television shows as the official representative of the wool industry. A set of matched luggage also is hers, and to carry all these gifts in, a 1956 Chevrolet Belaire sport coupe will be given for her own use during the year of Miss Wool's reign. Frank Late of Mustang Chevrolet Co. in San Angelo, is donating the car for Miss Wool to use this year.

Miss Jan Turbeville, last year's Miss Wool, will be on hand for the coronation of her successor. Hailing from Lockhart, Miss Turbeville was fourth in the line of Wool Royalty. Beginning with Miss Janet Lee of Austin in 1952, the line of succession reads like this:

Miss Wanda Carden

Miss Kathryn Gromatzky, San Angelo, 1953; Miss Sarah Belcia, San Antonio, 1954; and Miss Turbeville.

Sponsored by the Board of City Development in conjunction with the Texas Sheep and Goat Raisers Association and Auxiliary, the contest has always attracted beautiful girls from all parts of Texas.

Limited to Texas residents, the contest stipulates that candidates must be between 5 feet 6 inches and 5 feet 10 inches tall; must be between the ages of 20-25, inclusive, or have completed a year of college; must never have been married; and must wear a size 12 garment.

A tradition seems to have been established already in this relatively new contest. With the coronation of each new Miss Wool or shortly thereafter, the engagement of the previous Miss Wool is announced. Apparently, entrance in the Miss Wool contest is a sure-fire way to get married.

## Contract Awarded For Construction 18 Teacher Houses

### Honeycutt Const. Co. of Lamesa Low Bidder For \$144,168

Honeycutt Construction Co. of Lamesa was awarded contract for construction of 18 new teacher houses, on the newly filled lots owned by the Ozona School system in the southwest part of Ozona when the school board opened bids on the project Thursday afternoon.

The board had planned to construct 20 houses, but not enough funds were available out of the \$200,000 bond issue voted for that purpose and to build an auditorium at the South Elementary and repair the North Elementary building.

Bids were received from 14 bidders for construction of 20 houses. When it became apparent that sufficient funds would not be available to construct all 20 houses the board asked the bidders to offer bids on 18 houses. Honeycutt Construction Co., now here building the South Elementary auditorium, was low on the 18 houses with a bid of \$144,168, an average of \$8,009 per house. Eleven of the houses will be two-bedroom and seven will be three-bedroom homes. They will be of frame construction with asbestos siding.

Construction is to start at once and the contractor will be allowed 180 days for construction.

In second place in the bidding was Travis Russell of Ackerly, Texas, with a bid of \$146,888 and in third place was C. A. North of Ozona with a bid of \$152,578. North was lowest bidder on the 20 houses.

Mr. and Mrs. Buddy Schneider and son, Bud, Jr., returned to their home in San Angelo yesterday after a visit here with Mr. Schneider's sister, Mrs. C. W. Taliaferro, and family.

## Cold Front Triggers Good Rains Over Strip South of Ozona Sunday

Draws ran for several hours south of Ozona Sunday afternoon when a mass of Canadian cold air reached this area to trigger rains which concentrated on a strip of ranch country south of Ozona and from Ozona to San Angelo.

Johnson draw south of Ozona stopped traffic on the south road for several hours as the result of rains of from an inch and a half to three and a half inches in the area south and southwest of Ozona. Fred Hagelstein reported rains from 1 1/2 to 3 1/2 inches on his place and Marshall Montgomery received two inches. Other ranches on Johnson draw reported good rains almost to Del Rio. San Angelo reported up to five inches of rain with showers spotted throughout the favored area. A half inch of moisture was recorded in gauges in Ozona.

## Voters To Select Gov. And Attorney General Saturday

### Two Contested Races at Stake In Democratic Run-Off Election

With the local races settled in the first primary and with the diverting national political conventions occupying the stage the last two weeks of the Texas Democratic run-off campaign, a lot of voters are liable to forget that next Saturday is the date for the run-off primary in Texas.

Two very important state races are up for final decisions by the voters in that election. These are for Governor and for Attorney General.

Although Senator Price Daniel Liberty Co., held a wide margin above his nearest opponent in the first primary, he failed to get a majority of the vote and was forced into a run-off with the pre-natal Texas candidate for Governor, Ralph Yarborough of Travis county, Yarborough and the liberal elements of the Democratic party in Texas are making a determined campaign for the election of Yarborough but political observers over the state see a victory for Daniel if enough interest is generated in the campaign to get out the full vote.

A similar situation exists in the race for attorney general. Will Wilson of Dallas, a former member of the Texas Supreme Court and well known racket-busting district attorney of Dallas county, led the field in the first primary but was forced into a run-off with a comparatively unknown district attorney from Waco, Tom Moore. Moore, likewise, is rated as the candidate of the Texas liberals.

An uncontested race, with the name of only one candidate appearing on the ballot, will be something of a novelty on this year's ballot. Lieutenant Governor Ben Ramsey's name will appear on the ballot as a candidate for that office without opposition, since his opponent, A. M. Aikin, Jr., second place winner, withdrew from the run-off.

## Football Spuad Starts Workouts Monday Morning

### Coach Hickman Be-moans Undermanned Squad for Grid Wars

Coaches Pete Hickman and Sonny Cleere will give 1956 Ozona High School football squad hopefuls their first peek into the bag of tricks for the coming season when they meet all prospective squad members at the football stadium next Monday morning at 8 o'clock for the new season's first workout.

The boys will be issued their equipment and go through their initial workout in preparation for an intensive daily conditioning and training twice daily until the opening of schools on September 3. Coach Hickman said.

Morning and evening workouts have been scheduled for the pre-school period, mornings from 8:30 to about 10:30 and evenings from 7 to 9 o'clock. After the opening of school, the squad will be put through its paces every afternoon from 4 'til.

Coach Hickman is somewhat glum over the season's prospects because of his 1956 dearth of material. He expects only around 25 boys to show up Monday and of these only ten are returning lettermen, fourteen veterans having been lost from last year's squad via the graduation route.

Hopes for the season's success will be pinned on this group of veterans including Bobby Sutton, Kent Babb, George Bunker and Robert Martinez, for the backfield and for the line Jake Young, Jerry Jacobs, Jess Marley, Jimmy Brown, Roy Glen Sutton and Billy. (Continued on Last Page)

**TEXAS GETS THE BIG BRUSH-OFF IN CHICAGO**

One thing that was made fairly clear through all the hatched oratory in Chicago last week was the fact that Texas is still expendable so far as the national Democratic party is concerned.

After all the spirited battle that party-liner Democrat Lyndon Johnson put up to win a place as head of the Texas delegation to the Chicago convention, he might just as well have stayed at home all week. As "favorite son" candidate whose ambitions swelled to "serious candidate" in his own mind, he managed the unit-rated vote of his own hand-picked delegation and a few scattering votes and rated a few meager shots on television. But after that, Lyndon Johnson completely faded from the picture through the selection of a presidential and vice presidential candidate, with the Texas block vote ignored and unneeded in each case, with Lyndon not even able to trade for an extra shot on the television screen. That he did manage in the final session during the multi-handraising exercise indulged by Adlai at the start of his acceptance speech.

But more significant of the attitude of the big-government, big-labor boss, big-spend and big-socialism national Democratic party was its platform and the statements of its leaders. The tidelands of Texas, prize pick of the big-government-owned-all Democratic administration under Little Britches Truman, are still not safely back in Texas hands so long as the threat of ascension to power again by that crew hangs over the nation. And it never will be safe until control of the Democratic party is wrested from the gang of radicals who now control it, with the help of the Southern brass collar type, and restored to the people who believe in government by the people.

One of the pet peeves of the

oratorical demagogues in the Chicago amphitheatre was the "Eisenhower give-away" — among them specifically cited the off-shore oil rich lands. "Natural resources," to quote Harry Truman, "belong to all the pee-pul." That could ultimately mean every acre of land in the United States. It's the battle cry of the public power advocates — those who would use the taxpayer's money to build big dams to generate power to sell cheap to one tiny segment of the population at the expense of the balance of the taxpayers. It's the foot-in-the-door move to control all industry in this nation — for whoever controls the power generating plants of the nation controls all business and industry.

Adlai Stevenson said in 1952 that he would veto legislation to restore the tidelands to Texas if he were elected president. He has indicated no change in sentiment and his party has not changed its objective.

Texas threw off its brass collar in 1952 and repudiated Adlai Stevenson and his socialist Democratic. To the honor of this state its voters registered a choice for a great man, General Dwight D. Eisenhower, in 1952. We hope and believe they will do so again next November by an even greater margin.

**ELECT WILL WILSON!**

The office of Attorney General of Texas is actually more powerful than that of Governor and in the hands of a politically ambitious individual could become a real threat to the dignity of the individual citizen and of great harm to the state. As an instance, the "power of visitation" whereby the attorney general can demand the books and records of any business concern to see if it is operating in "accord with state law."

Texas voters have an able candidate in Will Wilson of Dallas, a former assistant attorney general,

six years and outstanding judge of the Texas Supreme Court and nationally famous as a racket-busting district attorney of Dallas county.

Will Wilson led the field of candidates for attorney general in the first primary and unless indifference on the part of the conservative Democratic voters of Texas in the run-off next Saturday, he will again be elected. But it is reliably reported that there are certain organizations who are planning token interest in the gubernatorial campaign, while concentrating their efforts and finances on electing Tom Moore as attorney general. Moore is the fellow who made no effort to conceal the fact that he was persecuting an innocent individual in order to get at a political foe when he secured an indictment against the general manager of the Texas Press Assn. for alleged election law violation and then showed an abysmal lack of legal knowledge in the subsequent proceedings which went against him.

We believe the conservative voters still hold a majority in Texas and if they will go to the polls

with the same determination that the radical or liberal element is sure to exhibit, then Texas next Saturday will come up with Price Daniel as its governor and Will Wilson as attorney general.

**LIP SERVICE**

Woodrow Wilson — who was a teacher and historian as well as a statesman — showed rare precision when he said in 1914: "Liberty does not consist . . . in mere general declarations of the rights of men. It consists in the translation of these declarations into definite action."

Everyone, with hardly an exception, pays lip service to liberty. But more and more have seemed willing to surrender rights, obligations and responsibilities to the greatest enemy of human liberty — all-powerful government.

**Rural Voters Overwhelmingly Support Will Wilson for Attorney General**

Will Wilson, Democratic candidate for Attorney General of Texas, has much in common with the rural folks.

He's a farmer too! He is sharing with many of them, disheartening experiences with the drought.

Wilson loves the land, and is a practical farmer. He spends all available time trying to fix his fences and to save the crops and trees he planted himself.

Wilson recently toured Texas with the Soil Conservation Service inspecting the small dam projects planned for creeks. He believes that this form of flood control is a possible solution to the water problem.

As attorney general, Will Wilson will act as legal advisor to the Agriculture Commissioner. During his campaign for Attorney General he has pledged strict enforcement of water conservation laws and water rights.

Rural voters of Texas feel that as their Attorney General Will Wilson can bring the attorney general's office closer to them and their problems, as he shares the same problems they have on their own farms.

In the July primary election, Wilson gained overwhelming support of the rural voters. He carried

**American Consumer Shifts Back To Wool**

The American consumer is buying wool apparel again. With the development of man-made fibers and promotional efforts of the cotton producers, wool had been losing some of the American market. But during the last year or so wool has not only held its own but has made gains in popularity. This information comes from the Industrial News Review, New York.

Wool woven cloth is now being produced at a rate 25 per cent over that of last year. On the basis of this rate it is estimated that consumption will reach 314 million pounds this year compared to 285 million pounds in 1955. Output during 1954 amounted to 266 million pounds.

The increased usage has resulted in apparelwool stocks' falling to the lowest point on record at mid-year. Wool tops have climbed a matter of 14 cents a pound during the last six months.

**How Advertising helps you**  
BY CHARLES B. ROTH

**People May Know**

A long time ago an intelligent man phrased a single sentence which has outlived every other thing he wrote. This was Dante, Italian poet. And the deathless sentence he penned reads simply: "Give the people light and they will find their way."

This light-giving function of advertising is one of its most important and fascinating and, yes, in a way, unbelievable aspects.

For of late years men have discovered that, by spreading light through the medium of advertising, they can accomplish unbelievable results—for good.

One of the current advertising miracles is the campaign to minimize forest fires. When forestry men discovered 90 per cent of all forest fires are caused by man, they asked how they could induce man to cause fewer of them. Being tough—and functional-minded individuals, these forestry experts decided to advertise.

You have seen the ads. "Remember only YOU," they told you, "can prevent forest fires." That was putting it on the line. Look at results: In 1942, there

were 210,000 forest fires in this country. They destroyed 30 million acres of valuable forest. Then came advertising, and "Smokey Bear," and your responsibility. And last year there were only 164,000 fires, and the destruction was a third of what it was in 1942—10 million acres.

It's easy to say, "Yes, but that was a big national campaign, and there was a lot of money to spend. Can advertising do just as well on a smaller scale?"

It can. And does. A few years ago, in an egg-producing section of Kansas, a produce dealer decided to help the poultry raisers make more money, hence to enrich everyone in the community.

He began running small ads in the local newspaper. They were simple ads, plain ads, and they merely told farmers what they ought to know about raising chickens, feeding their flock for best results, grading their eggs; just a simple informative campaign. It didn't cost much.

But it produced immense results. Every poultry raiser made more money, and the benefits of the advertising reached every one in the community.

Volunteers from the entire nation will celebrate the fourth anniversary of "Operation Skywatch" this summer. Composite picture shows typical members of the GOC at work plotting and identifying aircraft at centers and posts in the nineteen-state area of the Joint Central Air Defense Force. The JCADF headquarters is located at Grandview Air Force Base, Missouri, and is staffed by members of the Army, Navy and Air Force. **Governor Proclaims Week Of Aug. 26-Sept. 1 As 'Texas Wool Week'**

Recognition of the Texas sheep and goat industry as a vital segment of the state's economy and of the nation's defense program is given in a proclamation by Governor Allan Shivers designating the week of August 26-September 1, 1956 as "Texas Wool Week."

Governor Shivers, in the proclamation issued at his office in Austin August 16, calls attention to the importance of the sheep and goat industry in Texas. Pointing to the unprecedented drought which has had the state in its grip for many years, the Governor declared that "these adverse conditions serve in one respect to emphasize the industry's important position in the economy of our State and Nation."

The Governor's proclamation is as follows:

"Sheep and goat raising are an integral part of Texas economy, and wool and mohair comprise a large segment of the State's agricultural income.

"While recent drought conditions have been detrimental to sheep and goat raising when comparisons are drawn with years of normal rainfall, these adverse conditions serve in one respect to emphasize the industry's important position in the economy of our State and Nation.

"Many acres of Texas lands which otherwise would be unproductive are yielding an income from sheep and goat raising. The industry plays a vital role in our State's economy and both wool and mohair are essential to the Nation's defense program.

"THEREFORE, I, as Governor of Texas, do hereby designate the week of August 26-September 1, 1956, as TEXAS WOOL WEEK and take this opportunity to call attention to Texas' leadership in the field of wool and mohair production, and the valuable economic contribution this production is making to the State.

"In official recognition whereof, I hereby affix my signature this 16th day of August, 1956." Allan Shivers, Governor of Texas.

Mrs. Montgomery has accepted a teaching position in the public schools for this term.

Mrs. Darling will soon begin her sixth year of dance teaching in Big Lake and last year purchased and remodeled the old country club, making it one of the largest and best equipped dance studios in West Texas.

Arrangements are now being made for a suitable location for a studio here and Mrs. Darling plans to make announcement in the next issue of the Stockman concerning the time and place of enrollment.

**Former Supporters Of O'Daniel Line Up For Price Daniel In Runoff**

Scores of former key supporters of W. Lee O'Daniel in the Governor's race have pledged their active support to Senator Price Daniel in the run-off campaign which winds up Saturday (Aug. 25).

Daniel led the ticket in the first primary by 165,500 votes over his run-off opponent, Ralph Yarborough.

Former O'Daniel backers now supporting Daniel include Judge Tom L. Beauchamp of Paris, who served as Secretary of State in the O'Daniel administration and later served on the Texas Court of Criminal Appeals for many years. Beauchamp wrote Daniel that "we are in a great fight for our

rights as a state. My long association with you in the State Capitol assures me you are the man to best lead us as Governor."

Others include Mayor R. E. (Nitter) Kollman of Taylor, a prominent Central Texas cotton man; Bill Corry of Fort Worth, long-time political associate of O'Daniel; Ike Wynn of Sulphur Springs, O'Daniel's campaign manager in that East Texas area during the first primary; and Bruno Elzner Jr., of Bastrop, leader of the O'Daniel forces in Bastrop County.

Daniel received one telegram signed by 27 former O'Daniel supporters from Hopkins County and 15 from Colorado County, all pledging him their support in the run-off election.

**HIGHLIGHTS  
AND  
SIDELIGHTS  
From State Capitol**

By Vern Sanford  
Texas Press Association

AUSTIN, Texas — Campaign headquarters of Price Daniel, Ralph Yarborough and Will Wilson have been beehives of activity.

Daniel and Yarborough have gone all out to win the Democratic nomination for Governor of Texas.

Wilson has campaigned even harder than he did in the primary, in order to increase his lead in the Attorney General's race.

But withering Texas heat has sapped campaign enthusiasm among the voters. Interest that developed in the July primary has dwindled considerably.

Last month brought the largest primary vote in Texas history—1,576,870 in the Governor's race. However, if the second primary vote beats that of two years ago it will surprise everyone.

Nevertheless the conservatives and the liberals are working for a big voter turnout on Saturday.

**Delegates return home** — Twenty Texas delegates to the Democratic National Convention have returned home to face bigger tasks.

Their goals: (1) to win undisputed party control at the Sept. 11 state convention and (2) to swing Texas back to the Democratic column in November.

Many of the Texas delegates say they will have a hard time selling the Stevenson-Kefauver ticket in this state. There is considerable

muttering about the prospects of victory in November. And former President Harry Truman's cracks at Stevenson didn't help a bit.

**Drought aid program launched**—Federal and state machinery are grinding out a three-phase drought aid program for Texas farmers and ranchers.

Action came as mounting disaster conditions caused federal officials to release "one of the bleakest crop and cattle situation reports in 22 years."

Present plans would provide (1) certificates good for \$1.50 per hundredweight toward feed grain purchases, (2) certificates for \$7.50 per ton to buy roughage and (3) Farmers Home Administration loans to refinance debts on family-size farms.

Initial details were worked out at an Austin conference of U. S. Dept. of Agriculture officials, Gov. Allan Shivers, Agriculture Comm. John White and the Texas Emergency Drought committee.

USDA is providing \$1 million to finance the roughage program. Gov. Shivers has allocated \$100,000 from his emergency funds for administrative operations.

Texas reaction to the federal offers ranged from "fairly satisfactory" from Governor Shivers to "too little and too late" from some South Texas farmers.

**Reservoirs Drop** — Water in Texas' major reservoirs was down 20 per cent during July, from 1955. Average storage was 51 per cent of capacity.

As evidence of "critical conditions" the State Board of Water Engineers' monthly report cited these further statistics: (1) July rainfall was less than half of nor-

mal. (2) Observation wells continued a decline to all-time lows in five areas of South Central and West Texas. (3) Dwindling streamflows and decreasing storage resulted in water rationing in many cities in all areas.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article I of the Constitution of the State of Texas be and the same is hereby amended by adding another section thereto following Section 15, to be designated Section 15-a, to read as follows:

"Section 15-a. No person shall be committed as a person of unsound mind except on competent medical or psychiatric testimony. Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1956, at which election all ballots shall have printed thereon:

"AGAINST the Constitutional Amendment requiring medical testimony for commitment of persons of unsound mind, and authorizing the Legislature to provide for trial and commitment of such persons and for waiver of the right of trial by jury by a person alleged to be of unsound mind or his next of kin, and his attorney ad litem."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment. In counties or other subdivisions using voting machines the above provision for voting for and against this Constitutional Amendment shall be placed on said machines in such manner that each voter shall vote on the machine for or against the Constitutional Amendment.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State.

**What  
Grandmother  
did**

**that Granddaughter doesn't!**

For one thing Grandmother spent 5½ hours a day in the kitchen. Granddaughter doesn't—she spends about an hour and a half on the average.

Plenty of low-cost electricity is the biggest part of the reason why. There's more than enough to do your cooking, your mixing, your dishwashing, your water heating.

And the men and women at your electric service company are planning and building ahead so there will be plenty for granddaughter, too.

In fact, you can be sure of plenty of electricity *always* when you are served by an independent electric company like this one.
