IS THE BACK DOOR OPEN?

History records that while the Christians were holding the city of Constantinople in the 15th century behind its massive hundred foot high wall, an enemy soldier discovered a back door in the wall, open and unguarded. While the Christians battled from the parapets, the Moslems slipped through the unguarded door and the city was taken.

The United States is perhaps as impregnable from outside attack as was Constantinople but it may also be as vulnerable from within. While our country is spending billions of dollars for defenses to protect itself from freedom-destroying invaders, is it leaving a back door open?

A socialistic trend that has persisted in the U. S. in recent years continues to encroach on private citizens and industry. The affairs of the country fall more and more under the control of invading bureaucracy. Thus we are gradually breaching our defenses of individual opportunity and personal liberty.

"The man who said close doesn't count never sat next to his girl in a hammock." — Arnold Glasow.

THE ANTI-GOVERNMENT COMPETITION ACT

How can we materially cut the cost of government without imperiling or eliminating any activity which the country really needs?

There is one good answer to that all-important question. It is this: By getting the government out of tax-exempt business-type activities which can and should be carried on by taxpaying private enterprise.

Bills designed to do just that are now pending in both House and Senate. They are known as the Anti-Government Competition Act, and they would direct all the Federal agencies to get out and stay out of most business-type activities not specifically authorized by statutes.

In a letter to members urging support of these bills, the President of the Chamber of Commerce of Del Rio, Texas, said: "Our free enterprise system depends on you and me. Its very life is being snuffed out by subsidized government competition." That is not an exaggeration — government has gone into business on a far greater scale than is generally understood, and the cost of the taxpayers runs far into the billions. Congress could do no greater service to the country than to reverse that trend.

Mr. and Mrs. Leroy Waldrop of San Angelo were guests last week of Mr. and Mrs. Henry Anderson of Ozona. Mrs. Waldrop, formerly with Neiman Marcus in Dallas, has a fur shop in San Angelo. She is a sister of Mrs. Anderson. The Andersons also had as guests last week their son-in-law and daughter, Mr. and Mrs. W. E. Pittman and son of Brownwood.

Mr. and Mrs. Joe Pierce, Jr., Mr. and Mrs. J. S. Pierce, III, and children, Mr. and Mrs. Dempster Jones and children and Mr. and Mrs. Joe Pierce, IV, are spending this week on the coast near Rockport.

If you are a salt water fisherman, or plan to take your vacation on the Texas coast this year, you'll want to check this calendar of coming events.

First on the schedule is the Anahuac catfish fry. This will be held Saturday, June 21. Notices have just been sent out by Judge Guy C. Jackson, Jr., who is founder of the Fraternity of the White Heron. For many years this big fish fry, which thousands attend, has been on the Saturday closest to the Judge's birthday.

This is one of the best organized mass parties in Texas. It has been held annually for some 14 years and becomes more popular as the years go by. Thousands of pounds of Trinity Bay catfish are fried in tremendous steel vats, heated with bottled gas. Many thousands of pounds of large, white onions, hush-puppies and potato salad also are prepared. A half-dozen lines move the hungry crowd buffet style, by the huge tubs of sizzling catfish. You get all you can eat.

This year's party will be an exceptionally big one. It's a campaign year and most of the state candidates and any district candidates will be there. A huge platform is provided for those who want to speak. And someone is talking all the time. You don't have to listen unless you want to.

One of the more impressive sights is the appearance of the fleet. Hundreds of boats from

Houston take to the water, loaded with prominent Houston citizens. If you plan to be in Southwest Texas on June 21, be sure to attend.

Fishing Tournaments Scheduled
Many fishing tournaments are upcoming along the coast. We have been advised of the following:

Texas City tackle time: June 28-July 6. Sponsored by the Texas City Junior Chamber of Commerce.
Freeport fishing fiesta: July 1-6. Jaycee sponsored.

Port Lavaca fishing tournament July 4-6, inclusive. Jaycee sponsored.

Red fish bay tournament: Port Mansfield, July 4. CofC sponsored.
Bay City tournament: July 31-Aug. 3. CofC sponsored.

International tournament: Port Isabel: Port Isabel, Aug. 7-10, inclusive. Sponsored by the Valley Tournament Committee.

Worm Farming — In an Australian publication the other day we saw a long story about breeding your own bait. It reminded us how we used to raise worms — big, fat, garden worms — many years ago. It will still work today. And for bream, crappie or catfish, there's nothing like a big juicy worm. One of them is better than a handful of little red wigglers.

In our own little worm-farming process we partitioned off a bed about six feet square in a back corner of the garden. Into the black dirt we worked a generous supply of barnyard fertilizer and sawdust. We wet this down thoroughly

The Nation's Third major crash between commercial and military aircraft this year set off a flurry of activity that will apparently lead to long-overdue air safety measures.

The man to whom most of the credit should go is Congressman Prince Preston (D-Ga) who was pointing out the lack of proper coordination between Military and civilian aircraft even as the two ill-fated planes were winging toward their final rendezvous just outside of Washington in nearby Maryland. Preston had just pointed out the current budget contains \$230 million for operation and regulation of the Civil Aeronautics Administration and another \$158 million for navigation facilities, both the highest ever. He added: "There is not in existence a single device or mechanism of a communications nature or of electronics nature that is not currently being used by the CAA in order to make air travel safe." But, he said, the problem is lack of coordination between civilian and military aviation officials. In the past, all pilots of civilian aircraft have been required to file their flight patterns with CAA and military planes are required to record their flight plans with the military authorities. But neither knows what the other is doing, Preston said, and in this jet age such lack of coordination is leading to many major air disasters.

Referring to 971 "near misses" reported by CAA last year, Preston said many persons blamed Congress for air crashes by saying the Members had drastically slashed the CAA budget. He debunked this by showing the Congress has given CAA increases through the years. At about this point he was handed the bulletin on the Maryland crash, and then things began to hum.

Congressman Preston met with CAA and military officials before his subcommittee and asked for emergency regulations immediately. CCA flatly denied his request. The Georgia legislator then tried to see President Eisenhower, but was told he was unavailable. A few hours later, the President said he had ordered "a study" of the situation. But the persistent Preston called this "no solution," pointing out that studies are made every time an air crash occurs with no great results. By his continued prodding, Preston arranged a conference with the President attended by military and civilian flying officials, and from that meeting emerged an order by Mr. Eisenhower for an immediate emergency program designed to avert air collisions.

The five-point emergency plan will go into effect within the next few days and will require that: 1. Jet training aircraft when piloted by military students on civilian airways will operate on instrument flight rules and thus be under CAA control; 2. All military jet training "penetrations" from high to low altitudes will be safely away from civilian airways; 3. Military jets will be required to file flight patterns with the CAA when on unscheduled cross-country hops; 4. Pilots making flights to keep up their skill must use routes off the civilian airways; 5. When operational flights of jets are made on civilian airways they must be un-

CAUSE AND EFFECT

der CAA control and when crossing civilian airways military planes must go on instrument control if flying at an altitude of less than 25,000 feet. Added note: Bills have been introduced to establish a Federal Aviation Agency, which would have control over all aircraft, both civilian and military.

Two Major Military bills have come before Congress this year. The first, related to pay, was a legislative proposal in answer to the highly-publicized Cordiner report. At first it seemed the two proposals were miles and miles apart, but Dr. Ralph J. Cordiner eventually complimented the legislative bill as being equal or superior to his plan.

Then came the President's proposal for Defense Reorganization, and again the Administration plan and the Legislative bill seemed at opposite poles. But the President has written Chairman Vinson of House Armed Services that he is generally pleased with the bill that group recommended by a 32 to 0 vote.

The President will possibly seek two changes to the bill on the Floor, no one contends the bill reported is perfect, but both the Administration and Congress seem relatively well-satisfied with it.

On Memorial Day (May 30) honored unknown soldiers of World War II and the Korean War will be laid to rest in Arlington National Cemetery beside the present Unknown Soldier from the first World War. The WW II unknown soldier was selected from among 2,687 Servicemen killed in North Africa and Europe whose identities were never established, and the one from Korea was chosen from many unidentified men who died in that conflict. Selection of the bodies to be sent here for honored burial were made by men who themselves fought in Europe and Korea. Selec-

tion of the WWI unknown soldier was made in Europe in much the same way.

These are the only "official" unknown soldiers honored by establishment of national monuments. However, there are 2,111 unidentified men of the Union Army from the War Between the States buried at Arlington National Cemetery. There are also some 3,000 unknowns buried at Valley Forge, Pa. from the American Revolutionary War and some 750 buried in the U. S. National Cemetery at Mexico City from the Mexican War. Congress, the Executive and Judicial branches, will pay their respects at the Memorial Day Ceremonies here.

"Straight To The Point"

A Summary of Vacation News From The Teenage Set By Sally Baggett

Exams are over, graduation has already been held and our final grades were given to us Saturday, so here I am again to give you the facts and acts "Straight to the Point."

Thursday was the final day for exams and everyone was glad of that.

The commencement exercises were held Thursday night. Afterwards, the Jake Youngs had a dance honoring the Seniors. Some of the couples were: Jerry Jacobs and Gwynel Walker, June Bunger and Bill Meinecke, Mark White and Nellie Childress, Bill Black and Susie Chandler, Francis Childress and Bobby Sutton, Carolyn Mayfield and Tony Parker, Mary Jo Ward and Rod Franklin, Alleane Young and Johnny Cooper, Don Powers and I, and so many others you couldn't begin to name them all. At any rate, one large time was had at the dance. After the dance, the Whites and the Claytons had a "Pool Hall Party" for the seniors and at 2:00 a. m., the Childress' had the senior breakfast. From all accounts, everyone had a wonderful time.

Saturday, Rod Franklin, Jake Young, Art Kyle, Diz Reeves, Tony Parker, Ronnie Paulk, Mark White, Ronnie Beall, Don Powers, Jerry Jacobs, Miss Powers, Mary Jo Ward, Gwynel Walker, Diane Phillips, Alleane Young, and I all went to Garner Park after we got our report cards. Miss Powers was our sponsor and a good one. When we got there, we cleaned house then went swimming. Saturday night we danced at the Rio Hall in the park then we went back and swam and ate hot dogs. We had a wonderful time. Sunday we packed to come home, then we rode horses and swam some more. We came home about 3:00 p. m. I don't know what everyone did after they got home, but I am willing to say most of us probably went home and slept or nursed our bruises and sunburns and admired our ever present good

luck piece.

Sandra Whitaker had company Sunday. Some of her friends from Mertzon came down.

Camille Adams dashed off to Dallas to spend the weekend or rather the week with her sister, Jane. I'll bet she's having a wonderful time.

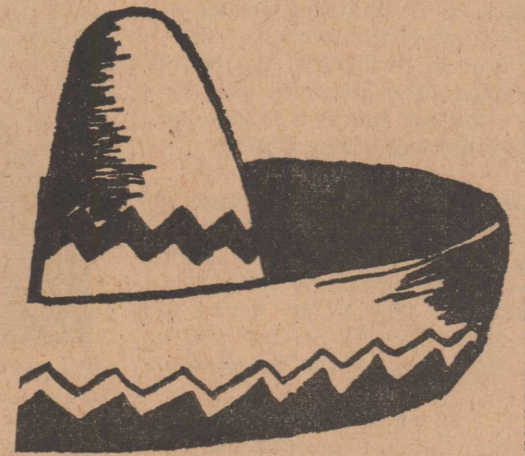

June Bunger had a birthday Friday. For her main birthday gift she got an air-conditioner in her '58 chevy. Lucky girl! She'll stay cool all summer long.

That concludes this week's low-down on the goings-on around town since school was out. Hope I see you next week.

Your Hometown Newspaper
is his first taste of independence

From the moment a child first begins to enjoy the "funnies," the hometown newspaper is an important part of his life. But even more important is the opportunity it gives the young boy to find out what it means to earn money for himself. The responsible job of being a "paperboy" gives thousands of youngsters their first independence. An irreplaceable source of information and enjoyment, your hometown newspaper is even more—it is an integral part of your community—a business employing your townspeople, an organization interested in the welfare of the community.

MEMORIAL DAY

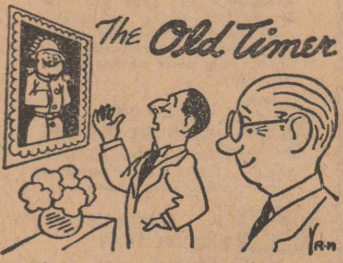

Mr. and Mrs. Henry Patrick and son, Donny, were here from Pecos last week to visit Mr. Patrick's parents, Mr. and Mrs. Joe Patrick.

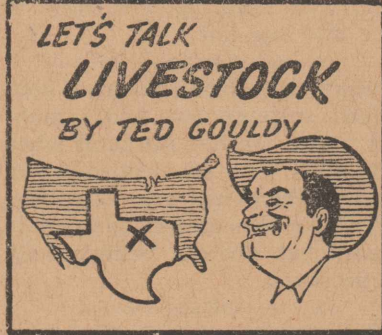

SON TO MONTGOMERYS

Mr. and Mrs. Vic Montgomery are the parents of a son born Friday in the Crockett County Hospital. The baby weighed 6 pounds, 1 ounce and has been named Jud Turner Montgomery. Grandparents are Mr. and Mrs. George Montgomery of Ozona and Mr. and Mrs. Marion T. Jones of Enid, Okla.

Mr. and Mrs. H. W. Baker plan to leave today for San Antonio where they will attend a meeting of insurance agents and officials and from there will go to Dallas to attend the Rotary International Convention opening there Sunday.

"Some people boast they can trace their ancestors back for centuries, yet they don't know where their kids were the night before!"

Country Purchases Of Lambs Break Market

FORT WORTH — Slaughter classes of sheep and lambs were weak to 50 cents or more lower at Fort Worth, with some bids and sales on medium and lower grade slaughter lambs \$1 or more lower. The weakness was aggravated by several thousand sheep and lambs bought in recent days in off-market transactions, which overflowed packing house holding pens. These supplies soon broke prices despite an early start at firm prices by shipping interests.

A few choice fat spring lambs went to shippers early at \$22 and \$23, but the range on the bulk of the good to choice spring lambs was \$20.50 to \$21.50. Stocker and feeder lambs sold from \$18 to \$20.25. Cull to medium spring lambs sold from \$14 to \$19.

A few fancy old crop lambs sold early to shippers at \$18 and \$18.50, while the range and file good and choice old crops sold from \$16.50 to \$17.50. Cull to medium old crops sold from \$13 to \$16. Feeder yearling lambs sold from \$17 down, and yearling ewes sold from \$18 to \$20.

Slaughter goats cashed at \$7. Slaughter ewes drew \$6 to \$8. Aged bucks sold around \$6. Aged wethers drew \$13 down.

Cattle Steady, Slaughter Kinds Again Scarce

About 75% of the cattle and calves offered in the some 5,000 head at Fort Worth Monday were of stocker and feeder classification, and demand for these replacement kinds continued broad at strong prices. Packers were talking lower prices on the early rounds but were unable to get supplies on that basis. The trade on killing cattle and calves wound up steady.

Fed cattle were in very small

supply, and cows were also extremely scarce and made up less than 15% of the total.

Good and choice slaughter steers and yearlings cashed at \$24 to \$27, and two loads of plain quality fed steers cashed at \$26.25. Common and medium offerings drew \$16 to \$23. Fat cows sold from \$17.50 to \$21.50, and canners and cutters drew \$13 to \$17.50. Bulls cashed at \$17 to \$22.

Good and choice slaughter calves ranged from \$24 to \$27.50, and common and medium sorts brought \$17 to \$23. Culls cashed at \$14 to \$17. Good and choice stocker steer calves drew \$28 to \$32.50, and stocker heifer calves ranged from \$28 downward. Stocker steer yearlings of good to choice kinds sold from \$25 to \$28, and some light weight yearlings sold to \$30. Stocker cows were scarce.

If you want to be self-made, don't leave out the working parts.

RECENT BRIDE HONORED

Mrs. Jack J. Williams, Mrs. Levoyd Parker and Mrs. W. T. Goodson honored Mrs. Glenn Capps, a recent bride, at a surprise shower in the Goodson home recently. The bride's chosen colors of green and yellow were used in decorations. Mrs. Capps is the former Mary Nell McHugh, of Monahans.

GARDEN REMINDERS

Continue spraying roses regularly to control blackspot, mildew and rust. Spring rains leach out nutrients rapidly, so fertilize bushes now, prior to heavy June bloom. Make successive sowings of petunias, bachelor buttons, calendula,

zinnia, marigold and shirley poppy. These relatively late planted annuals will keep up the show of color into late fall.

oOo
Joe Patrick, Ozona electrical contractor, suffered two badly mangled fingers on his left hand when he tangled with an electric power mower which he was repairing. One finger was almost completely severed but doctors believe both can be saved.

oOo
W. B. Robertson, Jr., will receive his degree in Dentistry from Baylor College of Dentistry at commencement exercises June 2. He is the son of Mr. and Mrs. Ben Robertson of Ozona.
