THE NEW TARIFF BILL

Has Been Given to the Public and is Even a Surprise to Democrats.

THE FREE LIST IS VERY FAR-REACHING.

The bill, should it become a law, will necessitate new treaties with South American countries—Duty on Silver.

WASHINGTON, Nov. 28.—The new Democratic tariff bill has been given out to the public, and its provisions fulfill every expectation of those who predicted that it would be a radical measure. In many respects it is a surprise, even to the Democratic members, as it is unprecedented in its scope of its provisions. The free list is sufficient to satisfy the most radical advocates of reform and those who repudiate the principle of reciprocity. It is a decisive and emphatic bill. In addition to the reforms it makes in the custom laws it will necessitate the immediate adjustment of treaties with those South American countries which enjoy practical or theoretical reciprocity with the United States. The bounty on sugar is to be repealed by easy gradations of 8 cents each year, and will not be completely effected until after the end of the present century. The committee met at 11 o'clock yesterday morning and after roll call Chairman Wilson at once read the bill before the entire committee. The free list is far-reaching.

Quasi Bill is Queen.

WASHINGTON, Nov. 28.—Officers of the state department fully believe that the Hawaiian queen is by this time restored to the throne. While they do not fix any precise time as to when the installation took place, they believe that force was not necessary. It seems, however, while actual force may not be authorized, there was to be such a show of force as would make the provisional government believe that the United States would use all the power at its command to bring about the restoration. The statement is also made that if Dole refused to accede to the demands of Minister Willis he would be thrust aside and the queen restored, even if the administration would have to go to war for authority. At the same time it was claimed that there would be no necessity for any such action, as information from the islands was to the effect that everything was working smoothly as expected. One reason for the belief is some quarters that the restoration took place Tuesday or would take place about that time was because of the assertion made that unless the restoring took place before the arrival of the first steamer from the United States since the attitude of this administration was made public it would not be made at all. Because of the sentiment of the United States and the report of Thurston to the provisional government would have a tendency to sustain them and cause them to resist Willis' efforts at the restoration. This phase of the restoration was suggested to the state department yesterday, and the reply was received that it made no difference whether Thurston had been able to communicate with the provisional government or not, or whether that government offers any resistance, the restoration will go on just the same.

Duty on Silver.

WASHINGTON, Nov. 28.—The silver question will assert its rights to a hearing in connection with the tariff. It will come in the shape of a proposition to put a duty upon silver importations, not in the house, but in the senate. If the public funds have the matter in hand do not miscarry an effort to secure this innovation will be made in connection with the metal schedule, and it will be coupled with the lessening of lead and silver levies. The purpose of this movement is twofold. It may prepare the way for the free coinage of the American product of silver, about which much has been said in recent years, and it is expected to prevent the counterfeiting of the American dollar in other countries and sending the counterfeiters here.

President's Message.

WASHINGTON, Nov. 28.—The president's message is now about half finished, and he is denying himself to all callers to work upon it. He does not come into his office until the message is finished. Tuesday and Friday, and works late into the night. Heretofore President Cleveland has usually allowed himself six weeks to work on his message. It is supposed that he has deferred work on this message to allow for some developments in the Hawaiian matter. The time for congress to convene is so near that no longer delay is possible. It is therefore thought probable that the Hawaiian matter will be treated later in a special message.

Ways and Means Bill.

WASHINGTON, Nov. 28.—The prospects are now that the Democratic members of the ways and means committee will give their bill to the Republican minority of the committee on Monday and it will also be given to the public at that time. A part of the committee is at the house of Mr. Tom Johnson of Ohio, the great single tax and income tax man, and this is taken as evidence that the income tax provision will be put in the bill. For the past week there seems to be a universal opinion that there will be some kind of an income tax put in the bill.

Congressmen Returning.

WASHINGTON, Nov. 27.—The senators and members of congress have begun to return. Many are making arrangements for the winter. There is a general impression that little will be done before the holidays. There are several matters pending in both houses which can occupy the time even if the tariff bill does not come up at once. There are a number of members who would very much like to have the Hawaiian matter come up early, and there are others who prefer that it be handled by the state department.

AN OLD MAN SUICIDES.

Many Did Not Believe It, Yet He Was a Descendant of Great Men.

HE HELD MANY RESPONSIBLE PLACES.

And Has a Son Practising Law in New York City. President and Director of a New York Bank Are Indicted.

SAN FRANCISCO, Cal., Nov. 28.—Strange developments have followed the fact that an old man known as Augustus M. Scriba committed suicide in poor lodgings here Friday night by morphine. He was in needy circumstances and was despondent. Among his effects was found a letter in which the deceased declared he was a lineal descendant of Alfred the Great, Edmund Ironside, Charlemagne, Otto the Great, Malcolm Canmore and St. Margaret. But little attention was paid to the letter. Further investigation among Scriba's effects revealed a recorded lineage, elegantly printed and bound, running over 300 years and undoubtedly establishing the old man's claims. Other papers found prove him to be well known in New York, where he has a son practicing law, and show that he came here from Portland, Ore., where he was in 1892 vice-president of the National Guarantee and Trust company and connected with John R. Foster. It was further discovered that Scriba was an examiner of national banks in New York in 1888. A letter from J. R. Agnew to Abram S. Hewitt, ex-mayor of New York, requests most earnestly that Scriba be retained in that position on account of his efficiency. It is presumed that Scriba came from Portland to this city in search of employment. As he had always been a man of position he objected to taking a menial position, rather preferring death. The two trunks and the values found in his room were carelessly addressed to Mrs. Mary A. Garrigan, Montross-on-the-Hudson, N. Y. He also requested that Mrs. Anna B. Platt of 1009 O street, Washington, D. C., be notified of his death.

Message in Cipher.

WASHINGTON, Nov. 24.—Secretary Gresham received a cipher message yesterday afternoon from Willis, giving a complete report of the Hawaiian situation up to the time of the departure of the Alameda from Honolulu. The message was read aloud in the cabinet, and the members of the cabinet, who were at San Francisco as soon as it arrived, and was delivered at the state department shortly after noon. Being in cipher it required several hours to translate it, and then it was found that it was a clear guarantee that unless the restoring took place before the arrival of the first steamer from the United States since the attitude of this administration was made public it would not be made at all. Because of the sentiment of the United States and the report of Thurston to the provisional government would have a tendency to sustain them and cause them to resist Willis' efforts at the restoration. This phase of the restoration was suggested to the state department yesterday, and the reply was received that it made no difference whether Thurston had been able to communicate with the provisional government or not, or whether that government offers any resistance, the restoration will go on just the same.

Mr. Morgan's Report.

WASHINGTON, Nov. 27.—United States Treasurer Morgan has submitted his annual report. It shows the net ordinary revenues for the fiscal year 1893 to be \$650,815,623, or \$90,881,844 over the year before. The net ordinary expenditures were \$583,447,554, an increase of \$33,454,623. Surplus revenues \$2,341,674. Total receipts \$732,871,214. The public funds deposited in the treasury on the day the Alameda sailed the vast majority of the American people will take sides with the president and sustain him in the course he has pursued when they become apprised of all the facts.

A Breach of Diplomacy.

WASHINGTON, Nov. 23.—Minister Thurston is not likely to receive his passport, although it was said at the state department yesterday morning that there was abundant ground for such action. Were it in any other country, or in this country under any circumstances, his passport would be issued immediately. It is claimed that his letter is a breach of diplomacy and is simply sufficient to warrant the government in immediately severing relations with the Hawaiian minister. Such action would be taken but for the reason that the American people might not think it fair play and that the right of any man to talk and give his side of the controversy is always conceded, and to force Mr. Thurston to leave the country would be considered by the people as a disposition not to allow the other side a hearing. The department chooses to consider the publication as a statement by one, Mr. Thurston, a vitally interested party in the outcome of the Hawaiian affairs and not as the official statement of Hawaii.

Recid Bill Finished.

WASHINGTON, Nov. 27.—The Democratic members of the committee on ways and means completed the tariff bill late Saturday night. Near midnight the last item was finally acted on, being the sugar schedule, which when promulgated to-day, will show the following changes: Duty on refined sugar reduced from 10 to 10 per cent. Raw sugar remains free of tax. The McKinley bounty act is repealed progressively one-eight, so at the end of eight years it is to cease entirely. It is at last concluded that the income tax provision will form a part of the bill. ALLEGED WHITE CAPS.

They Take a Citizen of Ashburn, Ellis County, Out and Hang Him.

BUT ARE REPORTED AND ARE ARRESTED.

Being Among the Best Citizens of the County, They Give Bond of \$1000 Each and Were Released.

WAXAHACHIE, Tex., Nov. 28.—Ashburn, a citizen of Ellis county, of Waxahachie, has furnished another sensation. This time it is a case of alleged whitecapping, mob violence or something of that kind. C. E. Milligan came to town Saturday night and swore out warrants for the arrest of Wilburn Smith, Fletcher Wilkinson, Tom Wilkinson, Will Hill, Clint Hill and Joe Fyland, all resident farmers near Ashburn carrying them with an arrest warrant for the arrest of Sheriff Meredith and a posse of six deputies started out at 1 o'clock Saturday night and returned late yesterday evening with the six men accused. Mr. Milligan says he is from Hill county and has been picking cotton for the Wilbursons and boarding with them. A short time ago Tom Wilkinson lost \$250 in money and it seems they suspected Milligan of having taken it. On Thursday Milligan and Tom Wilkinson were sleeping at the house of the latter, when a crowd of men came and took Milligan off with threats of violence unless he would tell them where the money was. He refused to give them anything he had if they would release him, but said he had no knowledge of the money. He says they carried him to Chambers' creek, some two miles distant, and put a rope round his neck; they would raise him up until only his toes barely touched the ground, then threw him and ask for a confession, though he had no confession; that he finally gave up and told them where the money was; that he was taken to the bank; that he lost consciousness and knew nothing until next morning, when he found himself alone in the room, from which he had been taken, and he had a bullet hole in his forehead. He says he knows nothing about the case; that the young man was at work there; that his son Tom did lose some money, but as to the attempt to hang the man he knows nothing of it whatever. It has created a sensation, as some of the men accused are among the most highly respected citizens in Ellis county. They gave bond in the sum of \$1000 each and were released.

Indians in War Path.

WOODWARD, O. T., Nov. 24.—Word reached here yesterday afternoon by courier that a band of Indians, called Simato, had started from Fort Smithey for Cheyenne, forty-five miles west of here, to wreak vengeance upon Tom O'Hara for killing one of their tribe. The Indians are under a fierce Cheyenne chief and number eighty men. The sheriff of Cheyenne county has organized a posse of twenty-five heavily armed men and is equally determined that no harm shall befall the prisoner. As the Indians have a good knowledge of the country, it is believed, however, that innocent whites may suffer before the troops can arrive. O'Hara is a Texas ranger and while in search of cattle thieves supposed to be in the neighborhood of Woodward. A dispute with a band of Cheyennes, which resulted in his shooting and killing an Indian named Red Moon. O'Hara escaped to town and is now in jail.

Great Loss of Life.

VACUQUO, Nov. 25.—The steamer Empress of China from Yokohama brings news that the floods devastated the harbor of Nagasaki and did considerable damage as far as Yokohama was concerned. The steamer was not ascertained, but was known to be very heavy. The district visited most severely are those on the west coast bordering the inland sea. Okayama prefecture 167 lives were lost and 2400 houses were destroyed. In Yamaguchi prefecture 330 fishermen were drowned. Large numbers of unrecognized bodies drifted ashore. Chinese pirates are very active and have been seen in the bay. Reports from Ichong state that quiet prevails at present, though missionaries and foreigners are still installed.

Operator Killed.

DAVISVILLE, Cal., Nov. 23.—H. M. Eaton, a night operator, was mysteriously shot and killed Tuesday night. The indications are that he was shot by some person concealed on the platform of the depot when leaving Davisville for Los Angeles. The morning Charles Dodge, a resident of Davisville, walked into the sheriff's office and gave himself up, saying he had got into trouble. It is supposed he is the man who killed Eaton. Dodge admitted the shooting, but said it was a painful matter and he did not wish to talk about it, one in which his sister is implicated. His sister was a student at the telegraph office in which Eaton was an operator.

A Suit for a Million.

SAN FRANCISCO, Cal., Nov. 24.—In the superior court yesterday afternoon C. A. Sprickles and H. M. Woolley commenced suit against the Hawaiian Commercial Sugar company. The suit is for an accounting of all moneys and property in possession of the corporation. An order is asked for restraining the defendants from transacting any business. The plaintiffs ask for the appointment of a receiver to assume control of the company's affairs. The complaint makes serious charges of fraud and other irregularities. The suit involves \$1,000,000.

Bank Officers Are Indicted.

NEW YORK, Nov. 26.—The grand jury found an indictment for forgery on two counts against Joseph K. Blunt, president of the defunct Madison Square bank, and indictments against Blunt and Directors McDonald, Soudard, Kallscher, Selouwer, Kearsheed, and Ottenberg for misdemeanor in receiving deposits after they knew the bank was insolvent. The only directors who escaped indictment were Johnson and Ullman.

Bandishment of Poles.

ST. PETERSBURG, Nov. 25.—The rumors of the arrest and bandishment of Poles from the western provinces of Russia are confirmed. Eleven priests have been suspended from their duties and placed in prison. A number of citizens are detained in the citadel at Warsaw. Fifteen persons, including ladies and young girls, are on their way to Siberia although their friends have no knowledge of the nature of their offense.

ALL OVER THE STATE.

Crisp and Cheese Cuttings Condensed from the Daily Press.

RACY ROUND-UPS RENDERED READABLE.

A Complete Summary of Interesting News Gathered from All Parts of the Empire State of Texas Merely Selected.

Mr. Richard Lewis, a citizen of Waverly, Walker county, was attacked recently by a deaf and dumb negro man who had lived with him a number of years. Mr. Lewis was making a fire when the negro came into the room with a grubbing hoe and struck him first in the back, inflicting a bad wound, and repeated his blows with the hoe upon the thigh, breaking it in several places, before anyone could stop the attack. It is supposed the negro had become demoralized. Joseph Emanuel, colored, of Galveston, upon opening his door one morning recently found a package wrapped in several old grain sacks, which, upon being opened, was found to contain a healthy 4-week-old colored female infant. Emanuel is a married man and says he knows nothing of the infant. He is having it cared for while the police are looking for the parties who abandoned it. The following have been sentenced to the penitentiary at Brooks, N. Y., by Judge Bryant at Paris, for peddling whisky in the Indian Territory: Dan Saunders, John Reagan and John Wells. The latter's punishment was assessed at one year and one day in the penitentiary and \$50 fine; the others were fined \$1000 each and assessed one year and one day in the penitentiary. Recently, at Rockdale, Milan county, at night, an unknown man entered the house of a gentleman who was from Iowa and in the dark, at the sight of a pistol, outraged the gentleman's wife and fled. The lady would have the party only by his voice. Sheriff Bickett, with his deputies and the city marshal, are working the case. The public feeling is intense and liberal rewards are offered for the party. Miss Charlie Field, an accountant of the Texas Central, has tendered her resignation to General Manager Charles Hamilton, at Waco, to take effect on December 1. The reason she gives for her resignation is because her mother, who resides in St. Louis, urges her to come back home, and she cannot dispense with her society. Miss Field is the only lady accountant in the world. A marriage took place in the jail at Georgetown a few days since. Lorenza Holly came in about twenty miles to become the bride of Will Hamblin, a prisoner. Rev. Johnston led the knot. The bride was accompanied by the father of the groom. The parties are all colored. The bride departed for her home after the ceremony, and Hamblin remains in jail. At a recent display of fireworks at Luling a rocket struck Mrs. D. U. Muncaster, who was standing on the porch of her residence. The wooden stair of the rocket entered her thigh about two inches. Her clothing was set on fire, but instantly extinguished by bystanders. The wound was deep, and is not dangerous. W. T. Parker of Grimes county, leaves a wife and four children, recently eloped with Miss Florence Smith, the neighborhood school teacher who boarded at his house. They went to Illinois. He carried a large plantation. He left a large plantation. His wife is prostrated with grief. In the federal court at San Antonio recently Pedro Rodriguez, one of the participants in the Garza revolutionary movement, was tried for violation of the United States neutrality law. He was found guilty and sentenced to eighteen months' imprisonment in the Kings county penitentiary at Brooklyn, N. Y. Hog killing has been general in Lavaca county, the past few days. On account of the high price of bacon there has been a big demand for hogs. The mast was unusually fine, and in the lower part of the county, which is timbered and not much settled, fine hogs can be killed at the range. A non-resident tax-payer of Austin, who lives outside of the state, is preparing to test the legality of the dam bond issue before the federal courts. This is virtually a renewal of the fight which came to a disastrous issue for opponents of the bonds in the state courts. The result of the match hunt between parties at Lovelady, Houston county, recently, was: Deer 3, wild turkeys 4, mallard ducks 11, quail 115, doves 32, hawks 47, snakes 200, coons 4, opossums 26, owls 16, larks 191. Three negro convicts overpowered their guard and escaped recently in Limestone county. They were pursued with dogs. One was overthrown, refusing to surrender, was killed. The other two are still at large. At Dallas, Clem Long and Lee Record, colored, are in trouble. Record became too familiar with Long's wife. When they met Record proceeded to shoot Long three times in the shoulder. Long escaped. Two men were arrested at Plano, Collin county, a few days ago, charged with working a three-card monte game. They were taken to Fort Worth. When arrested \$400 was found on them. At Longview recently while George Little, aged 13 years, was riding a box car handled in the yard he fell to the rails and was horribly mangled in the lower parts, dying in thirty minutes. At Walnut Springs, Bosque county, recently one of the twin children of Mrs. A. Morris was severely burned by its clothes catching on fire from the stove. It died from the effects of the burn. Dunk Easters, colored, who lived near Queen City, Cass county, was killed recently by some one of a body of twelve men. He was accused of stealing, harboring thieves and other property. The University students at Austin gave football occasionally by receiving

It is supposed the negro had become demoralized. Joseph Emanuel, colored, of Galveston, upon opening his door one morning recently found a package wrapped in several old grain sacks, which, upon being opened, was found to contain a healthy 4-week-old colored female infant. Emanuel is a married man and says he knows nothing of the infant. He is having it cared for while the police are looking for the parties who abandoned it. The following have been sentenced to the penitentiary at Brooks, N. Y., by Judge Bryant at Paris, for peddling whisky in the Indian Territory: Dan Saunders, John Reagan and John Wells. The latter's punishment was assessed at one year and one day in the penitentiary and \$50 fine; the others were fined \$1000 each and assessed one year and one day in the penitentiary. Recently, at Rockdale, Milan county, at night, an unknown man entered the house of a gentleman who was from Iowa and in the dark, at the sight of a pistol, outraged the gentleman's wife and fled. The lady would have the party only by his voice. Sheriff Bickett, with his deputies and the city marshal, are working the case. The public feeling is intense and liberal rewards are offered for the party. Miss Charlie Field, an accountant of the Texas Central, has tendered her resignation to General Manager Charles Hamilton, at Waco, to take effect on December 1. The reason she gives for her resignation is because her mother, who resides in St. Louis, urges her to come back home, and she cannot dispense with her society. Miss Field is the only lady accountant in the world. A marriage took place in the jail at Georgetown a few days since. Lorenza Holly came in about twenty miles to become the bride of Will Hamblin, a prisoner. Rev. Johnston led the knot. The bride was accompanied by the father of the groom. The parties are all colored. The bride departed for her home after the ceremony, and Hamblin remains in jail. At a recent display of fireworks at Luling a rocket struck Mrs. D. U. Muncaster, who was standing on the porch of her residence. The wooden stair of the rocket entered her thigh about two inches. Her clothing was set on fire, but instantly extinguished by bystanders. The wound was deep, and is not dangerous. W. T. Parker of Grimes county, leaves a wife and four children, recently eloped with Miss Florence Smith, the neighborhood school teacher who boarded at his house. They went to Illinois. He carried a large plantation. He left a large plantation. His wife is prostrated with grief. In the federal court at San Antonio recently Pedro Rodriguez, one of the participants in the Garza revolutionary movement, was tried for violation of the United States neutrality law. He was found guilty and sentenced to eighteen months' imprisonment in the Kings county penitentiary at Brooklyn, N. Y. Hog killing has been general in Lavaca county, the past few days. On account of the high price of bacon there has been a big demand for hogs. The mast was unusually fine, and in the lower part of the county, which is timbered and not much settled, fine hogs can be killed at the range. A non-resident tax-payer of Austin, who lives outside of the state, is preparing to test the legality of the dam bond issue before the federal courts. This is virtually a renewal of the fight which came to a disastrous issue for opponents of the bonds in the state courts. The result of the match hunt between parties at Lovelady, Houston county, recently, was: Deer 3, wild turkeys 4, mallard ducks 11, quail 115, doves 32, hawks 47, snakes 200, coons 4, opossums 26, owls 16, larks 191. Three negro convicts overpowered their guard and escaped recently in Limestone county. They were pursued with dogs. One was overthrown, refusing to surrender, was killed. The other two are still at large. At Dallas, Clem Long and Lee Record, colored, are in trouble. Record became too familiar with Long's wife. When they met Record proceeded to shoot Long three times in the shoulder. Long escaped. Two men were arrested at Plano, Collin county, a few days ago, charged with working a three-card monte game. They were taken to Fort Worth. When arrested \$400 was found on them. At Longview recently while George Little, aged 13 years, was riding a box car handled in the yard he fell to the rails and was horribly mangled in the lower parts, dying in thirty minutes. At Walnut Springs, Bosque county, recently one of the twin children of Mrs. A. Morris was severely burned by its clothes catching on fire from the stove. It died from the effects of the burn. Dunk Easters, colored, who lived near Queen City, Cass county, was killed recently by some one of a body of twelve men. He was accused of stealing, harboring thieves and other property. The University students at Austin gave football occasionally by receiving

A Kansas-Boy Story.

"You never read my books" said an eminent historian, in a tone of pretended jealousy and distress to his little boy, whom he found bending eagerly over a tale of cowboy exploits, hair-breadth escapes and wild adventures.

"No, papa," was the apologetic answer; "I will by and by, when I am older; but now I only like books that are interesting."

Closing Out Sale.

On account of my wife's health I have decided to close out my entire business. Some goods will be sold at cost; some below cost and some a little above cost. Call early and get bargains.

A Starving Artist.

John Graham Lough, one of the few great British sculptors, had a full experience of the proverbial poverty of artists. During his first year in London, about 1824, while modeling his "Milo" for the Duke of Wellington, he went without meat for three months, had only one bushel and a half of coal during the whole winter, wore up his shirts to make rags in which to keep his clay figure moist, and slept beside it—when the cold would allow him to sleep—on the ground.

Knights of Pythias.

A lodge of Knights of Pythias was organized here last Saturday night. The following Knights came down from Palestine and conducted the ceremonies: E. L. Gamusage, A. G. Heinsohn, S. T. Howard, W. C. Campbell, Wm. Duree, C. E. Bufkin, Wm. Heallitt, R. L. Jenkins and Albert Greenwood.

Hog Stealing.

Bob Stewart, Frank Trembles and Will Bayne, all colored, were arrested this week for stealing ten of Sam Rook's hogs. There were several others implicated and will probably be arrested. The hogs were driven from Rook's place to Bob Stewart's, slaughtered and the meat buried. Rook recovered most of the meat. On Wednesday evening officers brought in the three parties above named and also Wayman Williams and two of the Forbes boys, all of whom are in jail.

Election Notice.

Notice is hereby given that an election will be held at Porters Springs in Houston county on Saturday the 30th day of December 1893 to determine whether or not hogs shall be permitted to run at large within justice's precinct No. 6 of Houston county, at which election none but free holders, residing in said precinct, who are qualified voters under the constitution and laws of this state shall be entitled to vote.

German Syrup

JUDGE J. B. HILL, of the Superior Court, Walker county, Georgia, thinks enough of German Syrup to send us voluntarily a strong letter endorsing it. When men of rank and education thus use and recommend an article, what say is worth the attention of the public. It is above suspicion. "I have used your German Syrup," he says, "for my Coughs and Croup of the Throat and Lungs. I can recommend it for them as a first-class medicine." Take no substitute.

CIRCUMSTANTIAL EVIDENCE.

STELLA Lorae dropped her letter into the mail-box and returned to her room.

She felt strangely uneasy. Had she been too precipitate?

Going straight to her own room, she opened her writing desk and took from it the letter which she had mailed.

"Dear, I have something to tell you," (the letter said). "I have secured a home for us at last."

"Miss Jackson," he began, "she has removed his hat and scraped his foot as they met on the street."

"What next distracted my attention was your clothes and style. One glance prognosticated to me that you was a ho's lady."

Stella Lorae knew all about her letter. She had never met the gentleman personally, but he had attended to some business matters upon several occasions.

"I must have been a ho's lady," she thought. "I have been a ho's lady."

"I trust nothing on earth, circumstantial evidence of anything, will thank you for it."

THE FERRIS WHEEL.

What the Great Undertaking Represents in Mechanics.

It is not easy for the mind to grasp the stupendous nature of this undertaking, says the Review of Reviews.

The Ferris wheel was built in five months and its weight is four times that of the Niagara bridge.
