## ALTON B. PARKER AFTER ROOSEVELT. Once Democratic Nominee for Presidency Has Again Taken Strenuous Man to Task.

New York, Oct. 12.—Alton B. Parker gave out an interview last night on the state campaign and Theodore Roosevelt. He said:

"I am informed that Mr. Roosevelt has been advised by his friends that in this state the tide has set in so strongly against his new nationalism with himself as the steward of the public welfare in 1912 and thence on for the balance of his life that he can only hope to save the situation for himself and his ticket by announcing that he will not be a candidate in 1912, and further that he has agreed to make such a statement within the next two or three days.

"There can be no doubt of the fact of his candidacy in the mind of any man who has watched his course, carefully read his speeches and noted his almost brutal treatment of President Taft. From my knowledge of and experience with him I have no hesitation in saying that while the assurance will be given by him that he will not be a candidate in 1912, his purpose is to deceive the people of this state in the hope that they will elect his ticket. That done, he will accept the result as a command by the people of the state that he be its candidate. Then with the political machine under his control nothing can prevent him from securing the delegates from the state. There is one sure way and only one to avoid Mexicanizing the country, and that is to defeat his ticket now."

Mr. Parker added he would be in Indiana the last of the week, but would return early next week to begin his speaking tour which has been assigned to him. It has been announced that he would follow in Mr. Roosevelt's wake.

### What You Are Most Apt to Die From.

Naturally every individual feels a strong desire to know from what cause death is most apt to come upon him. Science, after years of careful study, now offers a sort of guide based on the various ages of different persons. Prof. Von den Velden, of Munich, has made up a careful table, and claims to know what disease is most apt to kill a man or woman at a certain age.

For instance, that dread scourge, tuberculosis, spares the infant, except in the second half of the third year, when there is a startling death rate among children from this disease. It is between 20 and 30 years that tuberculosis reaps the bulk of its grim and awful harvest. After 30 years the probability of death from this disease decreases rapidly and in proportion until the 50-year mark is past.

But just before the immunity from tuberculosis is about to end say at 45 years, the terrible scourge cancer begins to cut the threads of human life. Beginning shortly before 50 years, cancer springs into the first place as the death cause. Before 45 cancer is

almost unknown as a general cause of mortality.

Pneumonia kills mostly before 15 years of age, then it lets mankind largely alone until 50 years is past, when it again figures high in the death list. It is a cowardly, skulking enemy, and kills off the old folks and the children. Cerebral apoplexy, or what old-fashion folks used to call a "stroke," kills few before the age of 60, while typhoid kills usually between 10 and 20 years.

The heart and kidneys seldom cause a fatal disease until after 50, and then the heart usually is affected only from some other disease, such as rheumatism or pneumonia.

What is commonly called the largest organ of the body, namely, the liver, also has the best records for honest and faithful service. The death of men and women from direct liver disease are comparatively very rare. Also it is seldom affected until the meridian of life is well past.

Pleurisy as a death cause is unimportant until after 50, and then in 99 cases out of 100 it usually merely comes in at the end of a general health breakdown or to put a quietus to the suffering from some better known disease. Meningitis is practically a child's disease, and seldom kills or even attacks mankind once 15 years have been attained.—Texas Health Bulletin.

### Simplicity.

Be simple, unaffected; be honest in your speaking and writing. Never use a long word where a short one will do as well.

Call a spade by its name, not a well known instrument of manual labor. Let a home be a home and not a residence; a place, not a locality, and so on of the rest. When a short word will do you always lose by a long one. You lose in clearness, you lose in honest expression of meaning, and in the estimation of all men who are capable of judging you lose in reputation for ability.

The only true way to shine in this false world is to be modest and unassuming. Falsehood may be a thick crust, but in the course of time truth will find a place to break through. Elegance of language may not be in the power of us all, but simplicity and straightforwardness are.—William Cullen Bryant to a Young Editor.

### Mr. Smith Saved Over \$100.

Two years ago, Mr. Grant Smith, Erie, Pa., painted three frame houses, and the woodwork of a brick house.

The painter estimated \$116.50 for the paint, lead-and-oil. He bought Devoc \$87.40 and returned \$11.60. Saved \$31.10 on the paint.

Don't know the cost of the work. By the rule, the saving of labor would be from \$60 to \$90.

On all from \$90 to \$120. This is the tale, as it comes from Messrs W F Nick & Son, Devoc agents there for 40 years. 24 The Murchison-Beasley Drug Co.

## STANDARD OIL CONFRONTS WAR.

### John W. Gates and Associates in Texas Company Are Going After It.

New York, Oct. 13.—The standard Oil Company has a price war on its hands.

John W. Gates and his associates in the Texas oil fields have decided to carry the fight into the enemy's country and today their agents began offering high grade gasoline at 11 cents a gallon, a cent under the trust's figures for the same grade.

For the present the Gates concern will not handle the lower grades of gasoline.

### Prominent Wedding at Kennard.

At 10 o'clock Wednesday morning, Oct. 12, at the home of the bride in Kennard, Mr. Charley J. DeWitt of Alexandria, La., and Miss Mary Lee Hudson were married, Rev. Jas. W. Allbritten of San Antonio performing the ceremony. Mr. Webb Hudson, a brother of the bride, acted as best man, while Miss Reba DeWitt, a sister of the groom, as bridesmaid. Mrs. G. V. Lollar played the wedding march.

Besides a large crowd of friends in Kennard present, the following out of town guests were present: Mesdames Ernest Cochran of Trinity, McCall and Wood of Groveton and Mr. Samp Hudson, grand father of the bride, also of Groveton, Miss Irene Mahoney and Ernest McLemore of Ratcliff. The groom is the only son of Mr. and Mrs. A. P. DeWitt of Kennard and is now residing in Alexandria, La., where he has a position as traveling salesman for A. V. Neilson & Co. of that city. He is an ideal young man and bids fair for a successful business career.

The bride is the only daughter of Mr. and Mrs. F. P. Hudson of Kennard and is one of the most prominent young ladies in Houston county. She is a favorite among our people and her presence will be greatly missed.

The happy young couple left on the evening train for Alexandria, where they will make their home.

The following young folks accompanied them as far as Lufkin: Misses Libbie Sherman, Reba DeWitt, Irene Mahoney and Messrs E. E. McLemore and Webb Hudson. Mrs. Cochran returned to her home in Trinity with the wedding party.—Houston County Herald.

### Policemen and Politeness.

Mayor Gaynor of New York signaled his return to his official duties after his narrow escape from assassination by severely criticizing an officer who spoke with unnecessary rudeness to the people who were surrounding the mayor's carriage and displaying their friendly concern in his recovery by so doing.

It is one of the weaknesses of human nature that very few people can stand "a little brief authority." The power to compel people to "move on" seems to be a temptation that brings out the innate littleness of small minded men, who show their incompetency, in this respect at least, for the

discharge of official duties. The average policeman comes in contact with a great many people upon whom suavity and even ordinary courtesy would be entirely lost. But there is no reason whatever for officers of the law to become petty tyrants the moment they have it in their power to make other people "step lively."

Kansas City is filled with visitors at this particular time, and, while no complaint has been made as to the "manners" of the local police force toward visitors, the duty is nevertheless doubly incumbent upon them at this time of leaning in the direction of politeness rather than gruffness and excessive officiousness. Polite policemen are valuable municipal assets and they can reflect special credit upon the community by acting with uniform courtesy toward the public and especially toward strangers.—Kansas City Journal.

### The Drinking Cup Danger.

One of the most successful National campaigns now in progress is directed against the public drinking cup, which has long been suspected of spreading the germs of some of the most loathsome and fatal diseases. The public drinking cup has been abolished in every railroad train and station and school house in Wisconsin, Michigan, Kansas, Mississippi, Oklahoma, Massachusetts and Iowa. No more public drinking cups are allowed in the schools of California, and twenty or more individual cities in various States have abolished the cup. Sixteen railroad companies now provide automatic cup vendors. For one cent one can purchase a clean paraffine drinking cup. The campaign has made some progress in Texas, but not very much. It is a matter which deserves more attention than it receives. Every person should be provided with a pocket drinking cup, and the little bubbling fountains are easily provided on the school grounds so that no cups are needed.—San Antonio Express.

### Capt. Bogardus again hits the Bull's Eye.

This world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says:—"I suffered a long time with kidney and bladder trouble and used several well known kidney medicines, all of which gave me no relief until I started taking Foley Kidney Pills. Before I used Foley Kidney Pills I had severe backaches and pains in my kidneys with suppression and a cloudy voiding. On arising in the morning I would get dull headaches. Now I have taken three bottles of Foley Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and again feel like my own self." Will McLean.

### "It Beats All."

This is quoted from a letter of M. Stockwell, Hannibal, Mo. "I recently used Foley's Honey and Tar for the first time. To say I am pleased does not half express my feelings. It beats all the remedies I ever used. I contracted a bad cold and was threatened with pneumonia. The first doses gave great relief and one bottle completely cured me." Contains no opiates. Will McLean.

## When the Smell is No Protection.

Everyone shrinks from the odor of tainted meat, and none except savages and people with perverted taste will eat it. The bad smell is a protection to the health.

Certain chemicals may be applied to this meat which will stop the odor, but the meat is tainted just the same and is a dangerous thing to eat; hence it is that chemical preservatives, while often a good thing for the owner of tainted meat, are a very bad thing for the eater of it.

New light has recently been thrown on the value of boric acid as a meat preservative by an English investigator, who finds that while in the proportion usually used it retards all germ growth to some extent, the effect is principally manifest upon the harmless germs and upon those germs that cause disagreeable odors, while the most dangerous germs, such as the typhoid bacillus and the bacillus which produces inflammation of the intestines, are scarcely influenced. Meat not treated with boric acid will in a comparatively short time give off odors warning against its use. The boric-treated meat may give off no such odors, even when containing exceedingly dangerous germs. In other words, meat poisoning is much more likely to happen with boric acid meat than with meat not so treated.—Exchange.

### About the "Common Cup."

A cup which had been used in a high school for several months without having been washed was lined inside with a thick brownish deposit. Under the microscope this deposit proved to be composed of particles of mud, thousands of bits of dead skin, and millions of bacteria. Some of this sediment was injected under the skin of a healthy guinea pig, and forty hours later the pig died. An examination afterward showed that pneumonia germs had killed the pig. A second guinea pig was inoculated with some of the sediment from the same cup and developed tuberculosis. Careful inquiry showed that several pupils in this school from which the cup was taken were then suffering from consumption.—Chicago Health Bulletin.

Experience has taught us that the old method of allowing every citizen to care for his own premises is very unsatisfactory. So now city governments find it more practicable as a municipality to do all sanitary work, such as cleaning closets and streets and removing all objectionable matter within the city limits. From a standpoint of sanitation, thoroughness and economy, the latter method has been commended. The city owning and operating its sanitary carts, going periodically to all places, rich and poor alike, accomplishes by system what the individual often neglects, either wilfully or through careless habits and indifference.—Texas Health Bulletin.

"Of all the civilized countries in the world America has the poorest roads; and America is the only one which does not provide national aid in the building of roads."—United States Senator John H. Bankhead of Alabama.

### DANCING STARS.

The Twinklers Seem to Jump When Viewed Through a Telescope.

One of the most interesting things appearing in the telescope when that instrument is pointing heavenward is the appearance of jumping stars. Of course we can see stars twinkle without a telescope, but with a telescope they may be seen to jump and actually to dance. The cause is the same—mixing currents of light and heavy air causing refraction or bending of the rays of light coming from the star. We can see the same phenomenon by looking at a small object in a room through the air directly over a hot radiator. The object seems to jump and dance as if playing hide and seek with itself.

This jumping in the telescope or twinkling to the naked eye has also been explained by what is called interference. If two sources of light are placed close to each other, then on a screen placed properly we can catch an alternate band of white and dark lines. Of course if the eye is placed at a dark line it can see neither source of light. The production of these dark lines is accomplished by different light waves reaching the screen in opposite phases so as to blot out or cancel the effect due to each. In like manner it can be shown that if the star has polychromatic light it can and has actually been observed to change color from this effect alone.

The best time to observe this effect of star dancing is on a cold, crisp night. The telescope should be pointed to a twinkling star as near the horizon as can be found, as to see a star on the horizon we have to look through much more atmosphere than to see one in the zenith, and there is consequently more chance for varied currents.—St. Louis Republic.

### THE STICK CAME BACK.

Coleridge Was in the Habit of Losing and Recovering It.

Of walking sticks there is no end. For interesting sticks, however, the one which Coleridge was in the habit of losing during his tramping days must take first place. The philosopher was never happy till he had got it back. He sent the crier round. Here is the cry, as noted by Mr. Lucas in one of his essays: "Missing, a curious walking stick. On one side it displays the head of an eagle, the eyes of which represent rising suns and the ears Turkish crescents. On the other side

is the portrait of the owner in wood-work. Around the neck is a Queen Elizabeth's ruff in tin. All down it waves the line of beauty in very ugly carving."

And then came the appeal and warning note: "If any gentleman (or lady) has fallen in love with the above described stick and secretly carried off the same he (or she) is hereby earnestly admonished to conquer a passion the continuance of which must prove fatal to his (or her) honesty. And if the said stick has slipped into such a gentleman's (or lady's) hand through inadvertence he (or she) is requested to rectify the mistake with all convenient speed. God save the king!" The stick came back!—London Chronicle.

### The Early Circus.

Leaving out of count the great circuses of Rome and Antioch and coming down to something of modern times, the first circus in England was on a footpath known as Halfpenny Hatch, in the Waterloo road, London. There, in 1770, Astley's first performance was given, with the aid of a drum, two fifes and one clown. A charge of sixpence was made for the front standing places. There was no building and not even a tent, but merely a ring of ropes and stakes. Primitive as were the arrangements, Astley soon attracted good audiences and was able to add to his program conjuring, transparencies, vaulting and tumbling, with displays of fireworks. In course of time he was able to hire an inclosed ground and erected seats under a substantial roof. He called the place Astley's amphitheater riding house.

### Fooled the King.

In one of Sir Richard Francis Burton's rare collections of ancient Arabian stories is a story of how the king went into the dark among his sleeping slaves and detected the man he was after by putting his head upon all their breasts and listening to the tumult of the heart. The king cut off a lock of the culprit's hair, so he could tell him next day. But what did the sly rascal do but sneak up and cut every other slave's hair. When all the slaves were mustered next day before the throne the king saw he was beaten by a master mind and said, "Don't dare do it again." The king ought to have tried the Chinese test by giving them dry rice grains to chew. In fright the saliva will not flow, and the culprit has to spit his rice out dry.—New York Press.

### NO REASON FOR IT.

When Crockett Citizens Show The Certain Way Out.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of diabetes or any kidney ills when relief is so near at hand and the most positive proof given that they can be cured. Read what a Crockett citizen says: J. R. Bennet, of Crockett, Tex., says: "At times my kidneys did not do their work properly and my back ached so badly that I could scarcely straighten. When suffering in this way I heard of Doan's Kidney Pills, and procured a box at I. W. Sweet's Drug Store. I had taken about one-half the contents when my trouble stopped and two months have since passed without any sign of its return."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

### AIR CRAFT IN DIRE PERIL.

**Saved by Captain of the Trent En Route From Bermuda to New York.**

New York, Oct. 18.—The Royal Mail Steam Packet Company reports that the steamer Trent of their line has rescued Walter Wellman at sea.

Wellman and crew are all safe. The Trent was bound for New York from Bermuda.

The dirigible America, carrying Walter Wellman and a crew of five in an attempt to reach Europe by the trans-Atlantic flight, has been wrecked at sea and abandoned. Wellman and his entire crew have been rescued and are on their way to New York on board the steamship Trent of the Royal Mail Steam Packet Company's line, plying between Bermuda and New York.

This information was conveyed in an official report from Captain Down of the steamer Trent to his offices in New York today in the following dispatch:

"At 5 a. m. today sighted Wellman airship America in distress. Signaled by Morse code that she required assistance and help. After three hours maneuvering with fresh winds blowing rescued Wellman and his entire crew and cat.

"They were hauled safely on board. All are well. The America was abandoned in latitude 35 degrees, 43 minutes north longitude, 69 degrees, 18 minutes west. "Down."

Captain Down later notified his company that the Trent would arrive in New York tomorrow. According to the description given by him of the disaster to the airship she was abandoned about 250 miles north by east of Cape Hatteras.

From 12:45 p. m., Sunday, until Captain Down's message was received shortly after noon today, the Atlantic had been swept from wireless stations along the coast.

Chamberlain's Cough Remedy has become famous for its cures of coughs, colds, croup and influenza. Try it when in need. It contains no harmful substance and always gives prompt relief. Sold by Murchison-Beasley Drug Co.

### First Aerial Transatlantic Attempt.

Atlantic City, N. J., Oct. 15.—Somewhere out over the broad waters of the broad Atlantic, with prow headed east by north, a big dirigible balloon is speeding toward London.

On board are Walter Wellman, author and explorer; a crew of five men and a little gray kitten as a mascot. The airship America—there is only one other in the world that exceeds it in size—is plowing its way through haze and fog, assisted by a gentle wind from the coast, at a rate of 15 miles an hour.

Dirigible America, 228 feet long, 52 feet beam, passenger car 156 feet long.

Floor of car is huge gasoline tank.

Car carries nine thousand pounds of gasoline in floor tank and "equilibrator," a series of steel tanks joined and depending from car as drag rope.

Engines—Two big motors on propeller shaft and one small donkey engine.

Provisions—Canned meats and vegetables calculated to last crew of six men a month. A small oil stove is used for cooking.

The Crew—Walter Wellman, Engineer Melvin Vaniman, Navigating Officer F. Murray Simons, Wireless Operator J. K. Irwin, Assistant Engineers Albert Louis Loud and John Aubert.

Duration of Voyage—Wellman, before starting, expected that the America would land in Europe in from six to eight days.

### Census Returns Padded.

Washington, Oct. 15.—The census bureau sprang a big sensation tonight when it officially announced that padding had been discovered in the census returns for Tacoma, Wash., Portland, Ore., Seattle, Wash., Aberdeen, Wash., Minneapolis, Minn., Boise, Idaho, Great Falls, Mont., and Fort Smith, Ark.

A letter from President Taft to Secretary Nagel, and made public by Director Durand of the census bureau, says in part:

"The cases of all those who ap-

peared to have violated the law should be investigated by the grand jury and if sufficient evidence is found to justify it they should be indicted and prosecuted at once. Nothing will so conduce

to secure a proper census as the prosecution of those who attempt to defraud."

The present count of Tacoma was announced to be 89,972, an increase since 1900 of 45,258, or 120 per cent. It was stated that the padding amounted to not less than 33,296.

The Texas Cotton Palace Exposition and Grand Show to open in Waco on the 5th of November and last until the 20th, will be a great crowd getter and will be something well worth attending. Nothing but the very best shows will be allowed on the "Warpath," which means the street of shows, brilliant scenes, etc. only the best exhibits and displays will be in evidence and altogether Waco is looking forward to a gala period of sixteen days. Airship ascensions will be made, the cotton picking machine will be on hand, and in fact attractions of all kinds, both interesting and instructive, will be there to amuse and entertain.

### Available School Fund.

Austin, Texas, Oct. 15.—The state superintendent of public instruction today announced that there are 963,269 children of the scholastic age in Texas.

Of these 773,881 are white and 194,388 colored.

The available school fund is \$6,293,738, making a \$6.50 per capita.

### Some Stingy Rich Women.

An incident at the aristocratic Hotel Knickerbocker the other day is characteristic of the smallness and stinginess of some of the wealthy society women. A maid in that hotel found three rings on the washstand of the women's dressing room the other day and promptly delivered them to the hotel office. An hour later a richly dressed and greatly excited woman came to the office and inquired whether three rings, worth about \$1000, which she had left in the dressing room, had been found. She gave a description of the rings and the maid was called to explain where and when she had found the rings. The owner of the rings identified her property and handed the maid a whole 50 cent piece.

The manager of the hotel was disgusted with the meanness of the rich woman, and, right before her eyes, handed the honest maid a ten dollar bill as a mark of appreciation. The woman with the rings did not even blush.—New York Letter.

### Sunday Amusement War Starts.

Galveston, Texas, Oct. 15.—Following a complaint by the Galveston clergy and citizens, the police department today ordered the play, "Queen of the Moulin Rouge," not to show here tomorrow as billed.

It is alleged the play is immoral. It is expected this movement will precipitate a fight to close all the moving picture and vaudeville shows here on Sunday.

Good results always follow the use of Foley Kidney Pills. They contain just the ingredients necessary to tone, strengthen and regulate the kidneys and bladder, and to cure backache.

#### Crockett Well Lighted.

The new street lights bought for the city have arrived and are being put in place by the electric light company. The Courier is informed that there are thirty six of them. When the full number have been placed about the city, Crockett will be one of the best lighted towns of its class in the state.

#### District Court.

Court was not in session Monday on account of the burial at Palestine of a grandchild of District Judge Gardner.

A land suit was taken up Tuesday morning. The style of the suit is Wash Kennedy vs. Louisiana and Texas Lumber Co. Kennedy is a negro.

The grand jury turned in a batch of bills Tuesday morning—nine in the batch and all felonies.

#### New Baptist Church.

The old Baptist church building, that has stood on the corner as a landmark for many years, is being torn down and hauled away to make room for the handsome brick edifice that will take its place. The new building will cost upwards of \$12,500. Some who have examined the plans carefully say that it will cost all of \$15,000. The blue prints are now in the hands of those who have the building in charge. This new building will add much to the appearance of the town.

#### Vote Announced at Rusk.

Rusk, Tex., Oct. 15.—In the official count of the primary election in this county for senator of the Thirteenth District to succeed Hon. C. C. Stokes, deceased, G. R. Fowler received 529 votes and W. J. Townsend Jr. received 872 votes, giving the latter a majority of 343.

#### Cotton.

Friday was a top-notch for cotton. The staple brought upwards of 14½ cents in Crockett on that day and there were many who predicted that the price would go to 15 cents, but it didn't quite do it. The Courier is informed that one bank alone handled \$40,000 worth of cotton on that day. Saturday the market was not so strong and Monday's quotations had a downward tendency. The market was quoted Wednesday morning at 14c.

#### Association at Porter Springs.

The Neches River Baptist Association concluded its session at Porter Springs Sunday. After finishing all other business, the following resolutions were adopted: "Resolved, that we most heartily extend to the Baptist church at Porter Springs our gratitude for their entertainment and to the Methodist people our thanks for the use of their house and to the community at large our sincere appreciation of their hospitality. Signed, Hayne Nelms, moderator; T. N. Mainer, clerk."

#### Townsend's Majority.

Incomplete returns indicate that W. J. Townsend, Jr., has been nominated for the office of state senator by a majority of about 600 votes in the district. Judge Townsend carried his home county, Angelina, by 625 majority; Cherokee by between 350 and 400, and Houston county, as shown in the tabulated statement last week, by 138 majority. He lost Trinity county by 142 votes. Mr. Fowler carried his home county, Anderson, by a majority in the neighborhood of 400 votes, so the Courier is informed. These figures assure Townsend the nomination by a majority vote of about 600.

#### News From Lovelady.

Mrs. Jno. B. Turner, Miss Nell Turner and Mrs. W. B. Cochran spent last week in Austin.

Mrs. H. M. Barbee has returned from a visit in Austin and Franklin.

Mr. and Mrs. J. B. Oliphant of Creek spent a few days with relatives.

Mrs. Euke Kennedy entertained the Embroidery Club Friday afternoon. Delicious salads and refreshments were served.

Mr. A. R. Howell had the misfortune to break his limb below the knee last week by falling from the wagon. He was standing on the step on the side of the wagon bed when the team started off, throwing Mr. Howell off with the above results. Drs. Collins and Rayburn were in attendance and he is resting as well as could be expected.

George, the 7-months-old infant son of Mr. and Mrs. George Emerson, died Friday at their home and was buried in the Center Hill cemetery Saturday.

The Lovelady K. P. Band had a band concert at the town hall Monday night.

Wharton has made more substantial improvements in the past three years than any Texas town south of Houston, and the good work has only fairly begun. With the \$15,000 which will be derived from the recent bond issue judiciously expended for street improvements, together with the completion of the other improvements now under headway, Wharton will begin to put on city airs. —Wharton Spectator.

Clarence Gilmore's candidacy for the speakership of the next legislature is gaining strength. C. C. ## GREAT ANNUAL FALL SALE

Which has become an established feature of our business, eagerly anticipated by our many friends and patrons.

**Beginning Oct. 8th and Continuing Until Nov. 12th**

Our buyer has returned from the principal markets of the East, where for thirty days he was engaged in selecting our fall and winter stocks. Our purchases were larger than usual and were selected with extraordinary care from the best and most exclusive lines shown by the big Eastern wholesalers. They are better than ever before, because the offerings were better and larger, and our mammoth purchases represent all that is latest and best in the new things for the coming season. Every item is strictly right in quality, correct in style, perfect in workmanship and bought at a figure that enables us to show you a *clean cut saving on every purchase you make.*

The items and prices quoted on this page will give you an idea of the many money-saving opportunities offered in this great sale. We invite you to inspect our goods and compare our goods and prices with those offered you elsewhere and then you can fully appreciate the magnitude of these offerings.
