"We must not allow any sense of revenge, any spirit of greed, any grasping desire to over-ride the fundamental principals of righteousness.

Vigorous attempts will be made to hector and bully the government in an endeavor to make them depart from the strict principles of right and to satisfy some base, sordid, squalid ideas of vengeance and of avarice. We must relentlessly set our faces against that.

FRIENDS OF MINE-A DIARY.

Written for the Courier.

March 3

I'm sailing for France today, Upon a steamship line; But I never will forget Those dear old friends of mine.

March 4

I'm so sea-sick to-day, I can hardly write a line;

But as I lay in my bunk, I think of those friends of mine.

March 5

I'm farther away from good old U. S. A., But I'm getting closer to the Rhine;

But oh! if there was here, only one, Of those dear old friends of mine.

March 6

Fourth day out. No subs sighted vet.

And the weather is fine. --But yet, I wish I was back in a golf game

With some friend of mine.

T For some time we have not handled "WHITE CREST" FLOUR, the mill being unwilling to pack under that brand, not being sure of the proper quality. They have just finished a new mill, which enables them to make a high quality of flour, and, with the selection of the choicest wheat, they are making the BEST FLOUR ON THE MARKET. It will cost you moré money than the usual grade, BUT IS WORTH IT. **9** Your grocer has "WHITE CREST" now, or can obtain it, so demand "WHITE CREST" on your next order, and note the great improvement in quality over what you have been using. ¶ ALL FLOUR IS NOT THE SAME by any means, and "WHITE CREST" is as much superior to ordinary grades as it ever was.

other similar organizations and societies now contributing so much to the welfare and comfort of the American army in France, certainly deserve all praise and the most complete patriotic cooperation of the people at home. I can not in a letter undertake to outline their respective activities or the good they do, and while I do not wish to minimize the splendid work of any one of the particular organizations, still, in view of the little publicity that has been given to the Salvation Army, I will say that hereafter my hat is off to that little army, now and always entitled to the profound respect of good people everywhere. The Salvation Army made no noise, but just quietly came over here apparently with nothing in mind but a determination to do good, and the work they are doing is reflected in the popularity of the Salvation Army with the 'dough boys.'

I did, and lots of others did, Maybe some friend of mine.

March 8 To-morrow we will land In the great country of France, And in my heart I hope I'll meet Some friend of mine by chance.

March 9 Hip, Hooray! I landed, But nowhere could I find

Any one in France That was an old frined of mine.

March 10

We go in training until May 1, Trench training and every other kind.

Today I got a letter From a good old friend of mine.

May 1

I have finished training, And am on the firing line; And now I am so happy, For I found a friend of mine.

May 15 They won't let me fight any more,

So I won't get to the Rhine; I will have to go back to America, Back to those old friends of mine.

May 16

But will those friends want me with them,

The friends I love the best; For I have only one leg, and can't

be a sport,

May 20

I'm on my way back to America, And to me this ship does remind Of when I was on one before, Leaving those friends of mine.

TO CUT SHORT A COLD TAKE A CALOTAB

The New Calomel Tablet That Is Entirely Purified of Nauseating and Dangerous Qualities.

Of all the medicines in the world the doctors prize calomel most highly to break up a cold overnight or to cut short an attack of influenza, grippe, sore throat or a deep-seated cough and possibly to prevent pneumonia. Now that all of its unpleasant and dangerous qualities have been removed, the new kind of calomel called 'Calotabs" is the doctors' ideal treatment for colds, etc.

One Calotab on the tongue at bedtime with a swallow of water,-that's all. No salts, no nausea nor the slightest interference with your eating, your work or pleasures. Next morning your cold has vanished and your whole system is purified and refreshed. Calotabs is sold only in original sealed packages; price thirty-five cents. Your druggist recommends; and guarantees Calotabs by refunding the price if you are not delighted Adv.

American Brigadier General Is Taken Prisoner by Yanks.

With the American Army in France, Tuesday, Nov. 12 .- To be taken prisoner by American troops was, the experience last Friday of Brigadier General Douglass MacArthur, a brigade commander of the Forty-second division. The First and Forty-second divisions were advancing rapidly that day toward Sedan, and in the region of Autrecourt the lines of the two divisions crisscrossed.

General MacArthur, who was at the head of the advance of his men, was taken prisoner by the soldiers of First Division, who could not believe that Americans were ahead of them. The situation was explained quickly and General MacArthur released. He then good-naturedly went about straightening the line, and the two divisions were soon fighting the Germans with full vigor.

The calendar has a good deal to do with the numbering of our days.

The money you give will bring cheep and strength to many soldiers

and only mediocre women. So I asked God and he said yes "American education is facing a very somber and pessimistic future. There is little hope in the situation unless people awaken to, face the facts and to exalt the teaching profession. A better class of teachers should be called forth to meet the situation. The demand is persistent and immediate." Pershing Presents Medal to Marshal

Manufacturers Notified to Make No Shipments After Nov. 15 Without **Permit from War Industries Board.**

Washington, Nov. 14 .--- The govern-ment will take over control of the newsprint of the country on November 15, according to a telegram received by paper mills throughout the United States.

The telegram is explicit in its in-structions to paper manufacturers, detailing with exactness how they must act. The text of the telegram, which seems to presage allotments for newspapers, follows: "Owing to critical manufacturing conditions the war industries board

nsiders it necessary to control and locate newsprint tonnage. "You are hereby directed to make

no shipments after November 15 without a permit from this office, except-ing shipments of tonnage applying on existing contracts; and after December 1 to make no shipments either on contract tonnage or current tonnage

October 14, 1918. Dear Buddie:

Just a line or so to let you know that I am still fine and dandy and

thinking of you all often. We are back at a rest camp now and will take it easy for several days I guess. It is some relief not to have to bother with your helmet and gas mask and to be able to sleep withsut the accompaniment of a fourth of July celebration.

for the Christmas package which is but it is like the perfume that is self explanatory. Hope it reaches squirted through the garden hose-you in time. Seems as tho' there you don't want too much of a good ne in the army. But, thank God, it will soon be over. It will sure be great to be e again with you all. We will be able to appreciate each other more, and also be able to realize how many things that we have to be thankful

Jordan, who is over here somewhere; said that he was well and as well satisfied as could be expected. This is certainly a beautiful coun-

try that we are in now, and it is interesting to watch the natives make wine. There are miles of vineyards, and grapes-well, there are a few. The natives drink wine instead of water, but it isn't intoxicating, and you never see a drunk Frenchman.

Have nothing to do this afternoon but just rest; think of it, rest! Just sit on a bench here in the Y. M. C. A. and lean back and think of home. My! won't it be great to be back home again, where you have all the comforts that a fellow needs? Just think what it will mean to be back where you can get clean clothes and a bath when you want it. Thank goodness I have just had a good bath, the first probably already guessed, I am back now from "the great experience," and am enjoying the comforts and quiet of a soldier who has been "up

there.' They had an entertainment at the last night and I surely enjoyed "Y" it. Think of it! I actually heard an American armies have not yet been American girl sing in good old "American," not in English, but American, for English isn't always American.

I sent a cablegram to papa a couple of days ago. Hope he received it in due time, for I know that my letters are not always as frequent as I would like for them to be, and maybe the cable will suffice to let you all know that I am still fine and dandy and I am sure you will receive it quicker than a letter.

I suppose you are already back at college, but I won't take any chances with this letter for I know that if you are, papa will forward it to-you, and it will serve a double purpose. I am getting along fine and dandy; haven't been really sick since I left the states. In fact, the climate is agreeing with me, for I weigh more than ever before, and I'm beginning to be afraid that the civilian clothes that I left at home will all be too small, and I'll have to order more to have the wind blow up your legs again and cool your B. V. D's. and not have to bother with tight trousers and wrapped leggins.

Don't think that I am a pessimist or that I am dissatisfied over here; back home again with you all. I wouldn't take anything hardly for my experiences over here, for it is I am enclosing the official coupon something well worth going through; thing

PERSHING'S LOSSES **NOT OVER 100,000**

War Department Estimates Casualties From All Causes in Ameri-

can Expeditionary Forces.

Washington, Nov. 13.-Officials here estimate that the total casualties to the American expeditionary forces in the war will not exceed 100,000, including the men killed in action, wounded, died of wounds, disease and accidents and the missing who never will be accounted for. Some of those who have been missing probably will one in three weeks. As you have be accounted for when the prisoners are returned from Germany.

It was said Wednesday that it probably will be several weeks before the record of casualties can be completed. It is regarded as almost certain that

many of the casualties in the recent heavy fighting by the first and second reported. Lists also must be compiled of unreported American casualties in British and French hospitals, especially from among the United States forces brigaded with allied units. Deaths from wounds also probably will be reported for some time, while lists of slightly wounded being sent by couriers may be delayed.

The daily lists for several days have consisted of approximately 1100 names daily. Secretary Baker has indicated that a considerable number of reported casualties remain to be given out, but that these will be released as rapidly as newspapers can handle them.

An official tabulation of published casualty lists, including those of November 12, shows a grand total of 71,390. Careful estimates made Wednesday, based on knowledge of the battle conditions faced by the first and second armies in the days immediately preceding cessation of hostilities and on the average lists heretobefore I can change back and be a fore, lead officers to believe that all free man. Gee, but it will be great unpublished and unreported casualties will not exceed 30,000.

Work of Draft Boards Is Not Nearly Finished.

Austin, Texas, Nov. 15 .--- Three thousand draft officials in Texas, including all district, local, medical, advisory medical, legal advisory boards

and government appeal boards and government appeals agents and inspectors, have just been advised by Major John C. Townes Jr., supervisor of the selective draft in Texas, that their tasks have not as yet been completed, despite the cessation of hostilities and the signing of an armistice, and that they must guard "against the natural inclination to relax their efforts." These various agencies must complete as rapidly as possible the entire classification of registrants between the ages of 19

and 36, both inclusive. "This means that after all of these registrants have been classified by local boards, these boards must forward all industrial cases and cases having industrial, occupational and agricultural claims with the utmost promptness to the proper district board and must also examine all Class 1 registrants physically and carry out with dispatch the usual program of sending necessary cases to medical advisory boards, etc. As soon as we can possibly complete the work with reference to the registrants just mentioned, we will receive orders to complete in the same way the classification and examination of registrants who on September 12, 1918, had attained the age of 18, but who had not reached the

age of 19," said Major Townes. It is the ambition of Major Townes to wind up the work in Texas in a way which will reflect credit on each of these draft officials and upon the state. He also points out that after the present program has been finished, the draft machinery in Texas may be called upon to render other and further help to the government in connection with the demobilization of the army or other phases of recon-"Whether we struction program. shall render further services or not has not been definitely decided and announced," he said. General Crowder has already called

on the selective service department for important statistics and data to be embraced in his annual report which must be in the hands of the printer the latter part of this month. Major Townes, accordingly appeals to these various boards to check up their work especially the office records and other details, so that there will be no loose ends, and also complete the work of classification accurately and well.

How are you all by now? I am all O. K. at present. Have spent a long hitch on the front and am back in a rest camp now for a few days. I have visited Toul, and have also been to Pont-A-Mousson.

TENANTS TO BECOME HOMEOWNERS

What the Federal Land Bank Is Doing for the Farmers of Houston County.

It is a well known fact that an agricultural section is permanently prosperous in proportion to the number of its farmers who are tilling their own land. One often hears a remark like this during these times when every locality is to be canvassed to raise money for the various war ac-tivities: "Yes, we can safely assess that locality the fully quota, for they are mostly home owners and prosperous," while the reverse is true of communities mostly composed of tenants.

We believe that it will be generally admitted that no greater service can be rendered any agricultural section than to assist in the work of transforming tenant tillers of the soil into owners of the land they are cultivating. This is exactly what the Federal Land Bank of Houston is doing through the Crockett Farm Loan Association supported by the Crockett Commercial Club.

To give an intelligent idea of the amount of good that is being done to the farmers of Houston county, it is necessary to publish some figures.

Up to last Saturday, the sixteenth of November, eighty-six thousand three hundred and twenty dollars had actually been secured and distributed among about sixty applicants in payment of vendor lien notes on their homes that were in most cases bearing ten percent interest, and making first payments on new homes of men who had been tenants all their lives and would have remained so for many years to come without this help of the government. Fifteen thousand and one hundred dollars worth of applications have been favorably acted opon and only await examination of titles to make this much additional money available. Applications covering loans of thirty-eight thousand and seventy dollars are on file in the Crockett Commercial Club office. To show how the applications are increasing it is only necessary to state that of this last sum twenty-three thousand and three hundred and twenty dollars worth were applied for since the first of November.

On the business already done the saving in interest charges is over four thousand dollars per annum, besides in many cases the refunding of the loan enables the farmer to actually save his home. When it is under-

While the sum of ten thousand dollars is the limit that can be borrowed by any one person, there is actually no limit to the amount that is available in sums of this size and less. So much money has the Houston Land Bank that the officers are continually asking the secretaries of the local associations like the one in Crockett, for more applications, saying they have a hundred million dollars available. Many are the suggestions for increasing these applicants. Recently it was suggested that the secretaries visit the records and get the names

DEMOBILIZATION OF TROOPS UNDER WAY men.

JAS. S. SHIVERS

MOVEMENT OF SOLDIERS OVER-SEAS HAS BEEN ENTIRELY STOPPED.

Washington, Nov. 16 .- Movement of American troops across the Atlantic has stopped entirely and demobilization of troops in cantonments and camps at home is under way.

General Peyton C. March, chief of staff, made this announcement today. outlining the war department's plan in answer to the questions the country has been asking since the day the armistice was signed and it became

apparent the war was over. He said orders already issued would send 200,000 men back to civil life within two weeks and that when the program was in full swing about 30,000 would quit the army daily.

Fighting divisions of General Pershing's army in France will be demobilized as far as possible in their home communities. The chief of staff would make no prediction as to when the first divisions would start home. It appears probable, however, the flow of returning troops can be in full swing before Feb. 1. Quarters will be available for them at the cantonments by that time.

Some officers regard it as possible that certain divisions may be recalled in advance of the general return movement. General March indicated that the Forty-second (Rainbow) Division, because it is composed of men from twenty-six states, and in recogpm nition of the fighting record it has pm made in France, would be marked for am special treatment. The Twenty-sixth am (New England National Guard) and the Forty-first (Sunset) divisions are pm in the same class, so it would not cause surprise, therefore, if these pm am three organizations should be designated by General Pershing as the first to return. With six weeks of 1918 left it is possible they may be home before New Year's Day. am Supplementing General March's am statement, Secretary Baker said it am would not be necessary to maintain

am all the existing cantonments for deam mobilization purposes and that a study pm was now being made of those desirable for that purpose. The others, pm with all the divisional camps, he inpm dicated, will be abandoned as soon as the men now occupying them have am been mustered out. pm The demobilization will be carried JUSTED FOR DEFECTIVE VISION Link Building, Palestine, Texas

ficers with some modification. 5. United States guards, now numbering 135,000 men.

- 6. Railway units.
 7. Depot brigades.
- 8. Replacement units.
- 9. Combat divisions.

"We have in the United States now something like 1,700,000 men and to muster out a force of that kind, of course, will take some time," said General March. "Each man has to be examined physically, his final accounts made, so that the men may get compensation they are entitled to. Blank forms are being shipped to the various camps for use as these orders go into effect.

"In handling this problem of demobilization one of the features which had to be considered was the regular army, when congress passes laws reorganizing that army. When the war broke out there were only a limited number of such men in the service and the great number of men who filled out these units were men who voluntarily enlisted for the period of the war. So we have offered these men who came in for the period of the war the option of re-enlisting if they care to.

"With reference to casualties in the American expeditionary forces, I cabled General Pershing to report in plain English and not in code, so as to save time, the name of every man killed, wounded and missing up to the time of the armistice not hitherto reported. I have had an answer this they said. morning saying he would expedite it in every way.

COTTON MEN ASK

Washington, Nov. 14 .- Senators and representatives from the cotton growing states and members of the cotton states advisory marketing board at a meeting here Thursday named committees to confer with government agencies with a view to securing relaxation of regulations affecting the distribution of cotton.

A letter also was written to President Wilson calling his attention to conditions in the cotton industry and asking his aid in the efforts to move the accumulated stocks in the South.

Senator Smith of Georgia, who called the conference, announced after the meeting that subcommittees were appointed to take up with the war trade and war industries boards the matter of a more liberal licensing system for cotton shipments abroad while another committee was named to ask the shipping board to supply additional tonnage for this traffic. Those attending the conference said

that because of restrictions placed on the export of cotton the market has become stagnant, while immense stocks are accumulating in the Southern States. These stocks now are approximately 500,000 bales in excess of those on hand this time last year,

All the students in the high school will please rise to their feet and recite "Our Country's Creed."

How many of our public school students have ever read a standard history of England? Are all hands up?

How many students in the high schools are there who can define the cardinal principles of this republic?

How many of the students in our public schools have ever read the Declaration of Independence? Do we see all hands up?

THE EDUCATED MAN.

It is difficult to arouse the natives to a deep sense of the fact that education means progress. The educated man, whether he received his education in school or out of school, is a thinking man. If he is a farmer he is constantly thinking out ways and means to improve, expand and build up a better agriculture. New ideas and new methods come to the educated man. His wants are more numerous, and he is constantly striving to gratify those wants. Hence, he is a man of energy—mental energy trying hard to keep on smiling through as well as physical energy. The educated men, whether he was educated in school or out of school, is more, far more, than an automaton. He understands his exact status in society, knows where he must cooperate with his fellows, and where his own efforts must pull him through. The educated man, whether he was edu-

cated in school or out of school, is a tonight, whose language they can not reasonable man. He overcomes prejudices, is tolerant, broad, human, sociable, good company, and sees a

SECRETARY M'ADOO PRAISES NEWSPAPERS.

In spite of the influenza, chant. No man in the community can the unenacted revenue bill and the do more toward lengthening the holiother unfavorable factors, the Ameri- day shopping and shipping season, can people have consummated the and thereby prevent the rush and congreatest financial achievement in all history .-- William G. McAdoo, Secretary of the Treasury.

ANOTHER LIBERTY LOAN COMING.

Secretary of the Treasury McAdoo has announced that, no matter what the results of the pending overtures for peace may be, there will be another Liberty loan. To use his expression, "We are going to have to finance peace for a while just as we have had to finance war."

There are over 2,000,000 United States soldiers abroad. -If we transport these men back the United States at the rate of 300,000 a month, it will be over half a year before they are all returned. Our army, therefore, must be maintained, victualed, and clothed for many months after peace is an actuality.

The American people, therefore, having supported the Liberty loan with a patriotism that future historians will love to extol, will have an opportunity to show the same patriotism in financing the just and conclusive victorious peace whenever it comes.

Not for a moment, however, is the Treasury acting on any assumption that peace is to come soon. Until peace is actually assured the attitude ing he calls it work.

SHOP EARLY MEANS TO ADVER-TISE NOW.

The request of the government of ficials for the co-operation of each and every individual to the end that Christmas shopping this year be not permitted to interfere with the regugestion of the week or two before Christmas, than the merchant himself.

Christmas goods are on the shelves in the stores. Few merchants have enough help to handle the usual lastday crowds, and because of this, are anxious to spread the buying season over as long a period as possible. Merchants who are not already carrying holiday advertising need only mention the matter to their customers to

get the business immediately. The Courier will help to more effectively display the holiday announcements of local dealers and bring readers to a realization of the nearness of the big gift-giving occasion of the year. Get that holiday advertising started. The business is waiting for you.

Two years from now the American people will have a political theme worthy of the nation's best steel. There will be the question that has divided peoples since the world began-armament or disarmament.

Many of the boys now in France were never away from home before. Broader will be their vision and greater will be their understanding of men and things when the war is over.

The Price You Pay

The increased price of good clothes is proportionately less than for those of questionable quality. By good clothes we mean pure wool clothes tailored to order -the kind that wear well and last long.

Real economy consists in paying the price of quality. Yet our hundreds of weaves in pure wool and worsted for tailored suits and overcoats are price-surprises.

Examine the fabrics that we have on display. You'll find the quality to which you are accustomed, or have always preferred, at a price that you will willingly pay.

Hand in hand they meandered down the avenues of life, through the paths of roses that lead to the garden of love. In 1918 he united with the Methodist church. He was a faithful and devoted member, ever active to his soul's need and the cause

of Him who died that we might live. It was on Nov. 7, 1918, that he was called to receive his reward above; disease and misery left him to return no more; his heart was freed from mortal shackles; his soul took flight organized last year will please colfor its home in the land of the blessed. He was laid to rest in the Bobbit graveyard November 9, followed by a great concourse of sorrowing friends and relatives.

He left to mourn his death a wife and two children, besides a father, mother and four brothers and three sisters. What they lost, heaven gained. All this was God's will. Of course we shall miss him, but even as he is gone, we must also go to join him in that land where there will be no parting, no sorrow, no disappointment. Blessed are they that mourn for they shall be comforted. Ollie. 1t.

MRS. POLLIE BOYKIN BEARD.

We wept that one so lovely should have a life so brief, And one so fair, should perish with

the flowers.

Mrs. Beard was born July 5, 1900, and departed this life November 8,

this reason there is sadness in the hearts of all, because she was loved by all who knew her.

In the summer of 1917 she was converted and enlisted in the army of the Lord. Though the fight was hard, she remained faithful to her Christian duty and at the time of her death was found to be still at the front of the battle.

On July 4, 1917, she was united in marriage to Hubbard Beard. To this happy union was born a girl, who only budded on earth to blossom in heaven, having been called away a short time before its mother.

To the sorrowing ones I will say, Weep not as one who has no hopes. God gives and he taketh away. We know she has gained the blessed shores where is eternal peace. Sweet is the thought that some day we shall meet in that beyond, where the trials and sorrows of this life are indeed over. Mourn not the dead who lies by God's own hand, composed to rest.

May God look down with infinite compassion upon the bereaved in this hour of sadness and fold the arms of love and protection around those who put their trust in Him.

But sleep and time may bring relief; No hour of pain so sad and long But God may end it with a song.
