COAL STRIKE ENDS; U. S. ACTS TO GET QUICK ADJUSTMENT

Speedy Conference on Grievances—Compromise on Original Demands Expected.

Washington, Nov. 11.—When John L. Lewis, acting president of the United Mine Workers of America, and his associates at Indianapolis yielded to the sovereignty of the law Tuesday the government at Washington determined that their differences with the coal operators must be adjusted.

The miners' leaders, having refused to fight their government, even though urged to do so by the supreme central body of organized labor, the American Federation executive council, President Wilson and the cabinet agreed that the government should help them to a negotiated adjustment of their grievances.

Immediately after confirmation of the action by the strike leaders in rescinding the strike order in obedience to Judge Anderson's mandate, the cabinet, in session at the time, directed Secretary of Labor Wilson to summon all parties to the coal controversy to Washington next Friday for a conference which will result in the formulation of a new working agreement. At a late hour Tuesday night indications were that there would be no resistance to this plan from any quarter. Representatives of the operators are already here.

Million Dollar Oil Fire Kills One and Wrecks "New Town."

Wichita Falls, Texas, Nov. 9.—One man was killed, a number

incurred minor burns and a loss which will exceed a million dollars resulted in an oil fire which swept 80 acres of proved oil territory on the outskirts of Waggoner City and destroyed a large part of that town Sunday morning.

Waggoner City or "New Town," as it is popularly called, is 22 miles from here and in the heart of the northwest extension to the Burkburnett oil field. Acreage in this field is owned by many eastern and local companies.

Lightning struck an oil tank on the outskirts of Waggoner City, which is said to be the largest unincorporated town in America. The tank exploded and a wave of burning oil rode down the surface of rain water-covered streets, setting fire to everything with which it came in contact.

The bulk of the business sections was destroyed, according to early reports. Waggoner City has no telephone or railroad connections and the roads are almost impassable. Details are meagre.

The fire is believed to have covered blocks 73, 74, 75, 83 and 84 in the most congested oil field in the world. Probably 200 derricks were destroyed.

Chicago Tribune Limits Size of Daily Editions.

Chicago.—The high price and scarcity of print paper is having its effect on the metropolitan dailies as is indicated by an announcement of the Chicago Tribune that, until the present emergency is passed, the size of the paper would be limited to a daily average of 32 pages. The announcement reads:

"By reason of the severe shortage of newsprint throughout the country, and the consequent obligation of newspapers everywhere to conserve paper, commencing Monday, Novem-

THE GRAND JURY MAKES REPORT

Crockett, Texas, Nov. 11, 1919. To the Hon. John S. Prince, Judge for the Third Judicial District of Texas, Crockett, Texas.

Sir—We beg to submit the following report:

We have diligently inquired into all criminal matters brought to our attention; we have examined 200 witnesses and have returned 20 bills for felony and one for misdemeanor; we, to the best of our ability, investigated the county's affairs and find them in a most deplorable condition, and we think a great deal of same is due to the carelessness of the commissioners' court, and recommend that, inasmuch as they now receive a set salary, they attend to the affairs of the county in a more business-like manner, and that said commissioners' court require every official in the county to make such reports as are required by law, and that they pay no bills only when the court is in session, and that the said commissioners see that the finance ledger is kept as required by law, or that they allow no ex-officio for the keeping of the same.

In regard to the county audit, beg to say that so far as the grand jury is able to say, the county audit is incomplete, owing to the fact that proper report has not been made, but inasmuch as it has been received by the commissioners' court and the fact that the auditor was not put under bond as the contract required, we are unable to make such report as might have been made had the contract been complied with; and for the benefit of the public, we recommend the auditor's contract be published, together with the auditor's comment on same.

As to our road superintendent, we recommend that he get the road overseers and hands out on the roads and try in some way at least to better the roads in general.

We wish to thank the district and county attorneys, bailiffs and other officers who have been so faithful in helping us in our work.

(Signed), E. M. Callier, foreman; W. G. Creath, secretary; Mattie Satterwhite, J. M. Sheridan, H. F. Barclay, O. Dennis, T. F. Dailey, C. M. Davis, L. T. Morgan, J. T. Murray.

ber 3, the Chicago Tribune will restrict the average size of its daily issues to 32 pages until the need for conservation is past. The 32-page average will be maintained each week, and should any week day issue exceed 32 pages, other issues in the same week will be correspondingly reduced in size to secure the average.

The limitation on the size of the daily editions follows a recent increase in advertising rates due to the high price of paper and the increasing cost of newspaper production.

General Improvement in President's Condition Noted.

Washington, Nov. 8.—Dr. Francis X. Dercum of Philadelphia paid his regular weekly visit to President Wilson today and held a consultation with Rear Admiral Grayson and Drs. Stitt and Ruffin.

After the consultation Dr. Grayson said the visiting physicians were well satisfied

JUST A WORD WITH OUR SUBSCRIBERS

The Courier again has a good list of subscription renewals. Callers at this office report plenty of work to do, although there is very little cotton to pick. Some have turned their attention to crossties. It is estimated that Crockett alone will ship not less than 100,000 crossties this year. Forty thousand were in the local railroad yards at one time this fall.

Among those calling to renew or subscribe or sending in their renewals and subscriptions since last issue are the following:

Dallas to Have Ordinance, Regulating Airplane Traffic.

Dallas, Tex., Nov. 8.—James J. Collins, city attorney, today dictated an ordinance regulating airplane traffic over the city of Dallas and providing for the creation of an aero police patrol. L. E. McGee, commissioner of fire and police, instructed that the ordinance be drawn for presentation to the city commission at an early date.

The need of the ordinance was suggested when numerous complaints came to the police commissioner that airplanes were flying low over Dallas residences. One crashed through a house. Several persons have been killed in airplane accidents here and the ordinance is drawn with a view to protecting the public.

One of the provisions is that airplanes must fly at least 1,500 feet above the buildings. Another is that airplanes must not do aerial acrobatics, commonly known as stunts.

PROCEEDINGS IN DISTRICT COURT

The grand jury made its report Tuesday and adjourned. The report is published elsewhere in the Courier.

Two bribery and one assault to murder cases are set for trial this week as follows:

H. S. Smith, bribery; set for November 13.
G. T. Robinson, bribery; set for November 13.
Braker Alexander, assault to murder; set for November 14.
A murder case disposed of last week was:

Charlie Arrington, murder; verdict of manslaughter and five years in the penitentiary with sentence suspended. Arrington, a negro, killed a negro named Amos Handy over a crosstie settlement early last summer.

A murder case that is attracting unusual attention went to trial Tuesday morning. S. H. Higginbotham is being tried for the killing of Emmett Fuller.

Higginbotham is a farmer past middle life, and Fuller was a younger man and a tenant on Higginbotham's farm. Both men were prominent in their community, Higginbotham having lived there for many years and Fuller having been raised in the county, a son of the late T. A. Fuller, who lived near Ash.

The court house yard was crowded Tuesday morning with jurors, witnesses and spectators. Tuesday afternoon, when the jury was empaneled, the district court room was filled with interested spectators. The wife of the murdered man was on the stand the most of Tuesday afternoon. The prosecution is represented by District Attorney B. F. Dent, Col. Earle Adams and Earle Porter Adams. Representing the defense are Earle Adams Jr. and John I. Moore.

The jury is made up of the following men: George McCorkle, Dock McKinney, O. T. Ratcliff, J. D. Woodson, B. L. Dominy, Walter Julian, Oran Rials, John Warren, Bill Saxton, John Rice, C. W. Brooks and T. G. McCornico.

Potassium salts have been found in the brine of certain Chinese salt wells, of which there are more than 1000 in one locality.

An irrigation dam being built on the Murray river in Australia will be 94 feet high and will impound 1,000,000 acre-feet of water.

Notice to the Road Overseers of Houston County

The Commissioners' Court requests that you at once return your overseer's commission to this office, together with your recommendation for an overseer for next year, and a report of what work has been done and by whom. Please do this by Monday, November 17th, if possible.

The Court also instructs me to announce that it will later set a date on which to meet the Advisory Boards of the various Independent Road Districts, together with all citizens interested in good roads, at which time overseers will be appointed and plans set on foot for the general betterment of our roads. Announcement of this date will be made in next week's county papers.

The court thinks it advisable that the citizens on the various public roads of the county get together at once, select overseers for next year and be prepared to send some one to the general meeting to be held later.

Very respectfully,

A. E. OWENS, County Clerk

Camel CIGARETTES

If you want to know what rare and unusual enjoyment Camels provide smoke them in comparison with any cigarette in the world at any price!

CAMELS are a cigarette revelation any way you consider them! Take quality, or refreshing flavor and fragrance; or, that wonderful mellow-mild-smoothness you never before got in a cigarette smoke! Yet Camels are so full-bodied and so full-of-satisfaction you marvel that so much delight could be put into a cigarette!

Camels expert blend of choice Turkish and choice Domestic tobaccos makes them so irresistibly appetizing! And, the blend explains why it is possible for you to smoke Camels liberally without tiring your taste! You will prefer Camels to either kind of tobacco smoked straight!

You'll realize pretty quick, too, that among the many reasons you smoke Camels is their freedom from any unpleasant cigarettey aftertaste or unpleasant cigarettey odor!

Once you know Camels you won't take much stock in premiums, coupons or gifts! You'll prefer Camel quality!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

OUR OPPORTUNITY FOR A FACTORY

ONE OF THE FEW WE CAN FURNISH THE RAW MATERIAL FOR.

We have often stated in these columns that the one chance we stood for securing a manufacturing industry that would give us the much sought for Saturday pay roll, was a factory that would make use of our large supply of hard wood, especially hickory and white or post oak. A handle or spoke factory or both have been advocated repeatedly as added evidence came to the notice of the secretary that we had so much available timber of this character, but nobody seemed to take the matter seriously and nothing ever came of these efforts in this direction, but we now have the opportunity to utilize these natural resources in a manner that should render valuable service to the whole county, and especially to Crockett.

Here is the Offer.

One of the largest concerns in the United States engaged in the manufacture of wagon and buggy spokes, with factories located in different parts of the country, wants a location for one of its branches in this part of the South, and agrees to consider Crockett favorably if we can show that we have a supply of hickory and white oak timber sufficient to last a number of years. The supply need not all be within truck hauling distance either. If it is in this section, located along the railroad so as to be cheaply shipped in, that will be favorably considered in counting the supply. The timber is wanted in logs, which

makes it easy and cheap for the producer.

Will Purchase Some Land.

The company expresses a desire to buy outright several tracts of suitable timber if the price is reasonable. This, you understand, is in addition to buying all of the available timber that can be hauled or shipped to the factory. The business is of large dimensions after getting fully established and will employ from one hundred and twenty five to one hundred and fifty men at the works, beside the large number that would be engaged in getting the material from the forests to the factory.

What We Must Do.

We must find how much of this timber there is in the hands of those who will cut it into logs and haul it to Crockett, provided a satisfactory price can be had for it. Also we must know who has timber land of this kind they are willing to sell outright and at what price. This information must be had right now. Not next month or next spring, but just as soon as it is possible for those who are interested to let the secretary know. As you can well imagine, there are many localities making bids for this factory and we cannot sleep at the switch as we have done too many times in the past, and secure this prize. The correspondence we have had with these people has been of such a nature as to lead them to believe we have the timber required and they will give us a reasonable time in which to prove up. Now, if every man who has the kind of timber required will take the trouble to call on, write or telephone the secretary just the moment he reads this article, it won't take many days to get the information together that will warrant an inspection by the firm making the offer. The matter boiled down simply means that if we fail to secure this industry we will have nobody to blame but ourselves.

H. A. Fisher, Secretary.

DON'T SUFFER FROM MALARIA OR AGUE A MINUTE LONGER

SWAMP CHILL AND FEVER TONIC WILL BRING YOU QUICK, SURE RELIEF.

For twenty years this famous tonic has been the one effective remedy for malaria, chills, ague, fever, colds, grippe, etc. Thousands swear by it.

It seldom takes over three days to break up malaria chills with Swamp Chill and Fever Tonic. And no purgative has to be taken with it—the medicine itself acts gently and agreeably upon the liver and bowels. This is one great advantage it has over other chill tonics.

Swamp Chill Tonic contains no calomel. It is tasteless, and pleasant to take. It is prescribed by leading physicians as the best chill and fever remedy there is. That's because it contains exactly the right ingredients for such ailments.

Swamp Chill and Fever Tonic has given such universal satisfaction and has grown so steadily in popular favor that it can now be purchased practically everywhere. The price is 60 cents a bottle. Go get one from your dealer today, and see for yourself what a really wonderful malaria remedy this tonic is.

CAPITAL \$200,000.00

A joint stock association began drilling last week with brand new machinery and equipment on 2000 acres, all in a square block, just 25 miles east of Houston on Cedar Bayou, in Liberty County, Texas.

This is a wildcat gamble pure and simple and you have more chance to lose than you have to win.

We haven't got any salt domes nor escaping gas, nor asphalt on top of the ground and we have not hired any petroleum geologist to write any high flown big word report to deceive you into investing your money with us with the idea that you have got a cinch on getting rich.

Our land is 6 miles northwest of Barbers Hill; is 17 miles southeast of Humble; is 18 miles north of Goose Creek; is 25 miles west of Hull. Thus surrounded by these famous fields which have and are now producing millions in oil, we offer you this stock as a good gamble for a small amount of money to make a big speculation.

\$100 may make you \$10,000. \$100 recently invested in the Hog Creek Company made \$23,000.

Shares \$25.00 each. Liberty Bonds taken at face value.

Overland

As It Is

As It Seems

The Road—In New Overland 4 on Three-Point Cantilever Springs

YOU expect a bad road to ride as it looks. It did, until the introduction of the Overland 4 Springbase.

Overland 4 does *not* change the road, but it *does* change the *manner* in which you can ride on it. It gives you *comfort* instead of *dis-comfort*. It gives you a *smooth, sailing sensation* instead of *bouncing and swaying*.

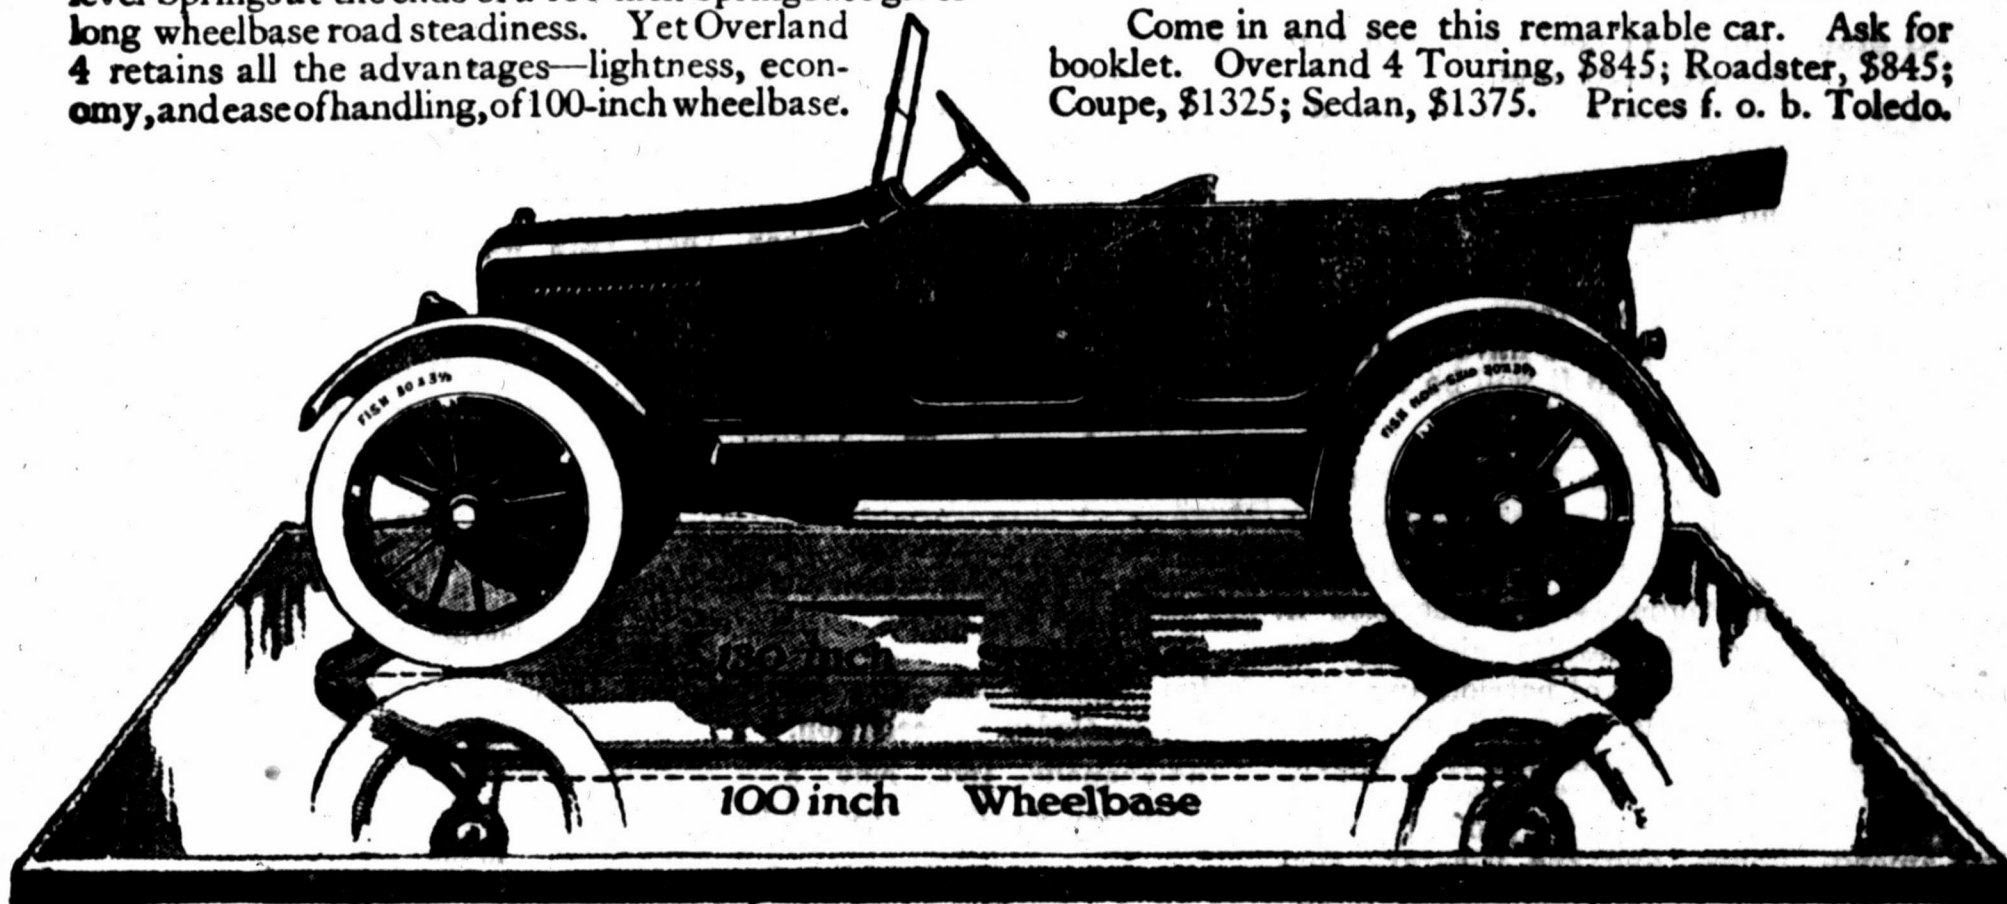

The Diagonal attachment of Three-Point Cantilever Springs at the ends of a 130-inch Springbase gives long wheelbase road steadiness. Yet Overland 4 retains all the advantages—lightness, economy, and ease of handling, of 100-inch wheelbase.

This means an altogether new standard of riding comfort, a noteworthy reduction in the wear and tear which lessens the efficiency of a car. The new springs give longer life to every part and thus minimize upkeep and replacement costs.

Tires wear longer because cushioned against hammering blows. Light weight means marked economy in gas, oil and running expense.

Overland 4's equipment is complete from Auto-Lite Starting and Lighting to Demountable Rims.

CROCKETT, TEXAS

Ole Pleads for Eradication of the Reds.

Houston, Texas, Oct. 29.—Contending that the time had come for every true citizen to take a stand; that the United States of America was worth the life of every traitor in the world; that the eradication of the reds was necessary and that the control and education of immigrants would spread and develop Americanism, Ole Hanson, Seattle's fighting former mayor, addressed the people of Houston tonight at the city auditorium.

"I have three objectives before me on this trip," said the speaker, "the revocation of all honorable discharges to conscientious objectors, the immediate

deportation of all reds and anarchistic agitators and the adoption of the selective immigration system with a scientific basis and a practical method of distribution. These are my objectives, and I do not intend to conclude this tour until I have obtained them."

Beginning with the first outbreak of cynicism in 1840, the speaker carried its development through the various stages, introducing its appearance in the divers forms in which it is offered to the public. He showed the ruin that followed in the wake of each.

On Russia's recent experiences he showed how, while they advocated free speech, free press, equal suffrage and equal wages, each in turn had been revoked until the rule of the reds was

more oppressive than the former autocracy.

Coming back to America, where the seeds of anarchy were sown by these anarchists among a class of people who left their mother country because of the antagonism they felt toward their government, he depicted the growth of the seeds into weeds of traitorship that grew in the minds of the ignorant, that had they been stifled by a course in Americanism might have resulted in strengthening their bond to this country.

"Break up the foreign settlements in big cities by planting the immigrant among Americans," said Mr. Hanson. "How many thousand Russian Jews, good practical farmers, have been literally dumped into New York City and made slaves in

the sweat shops, ruining their chances for contentment in their natural environment, while on the other side acres and acres of our land lie idle and uncultivated.

"Let the immigrant come, but first let him come organized, let him appeal to our representative in his country and prove that he is willing to become a part of our citizenship as well as to reap the benefits of the country. Then when he has not only said but proven his willingness to do this let there be a central employment station which can ascertain the need of labor of his particular kind, and only then let him be given admission to this country."

Stressing the necessity of wiping the reds from the country, Mr. Hanson said deporta-

tion was the only way. "Put them back to the land from which they came. Today the very men that head anarchy are alive and walking the streets of our cities."

Honesty is an asset in all lines of business, and this is especially true of the making of a newspaper. The editor who fails to be honest with his readers will in time wreck his property. This has been proven in hundreds of cases.

"Rock bottom prices" is a trade slogan that has lost all effect it may have ever had—there ain't no such animal now. "Living prices" are low enough these days.

ANOTHER SATURDAY RAY-ROLL IN SIGHT.

By reading the Commercial Club article this week it will be observed that Crockett has a good chance to secure an industry of considerable importance.

Crockett and Houston county have very little outside agriculture to depend upon, and our large supply of hard wood constitutes this raw material that we have always contended some day would be needed by the large concerns that have for years been working their way in this direction from the North, consuming the hickory, ash and white oak as they came along.

It seems in this case that one of the very largest and most reliable firms engaged in the manufacture of wagon and buggy spokes, and presumably handles of all kinds, is looking for a new location down this way for one of their numerous factories, and has promised to send a man here to investigate just as soon as they can be assured that we have enough of these varieties of hard wood to make it worth while.

The secretary of the Commercial Club has asked the owners of this kind of timber who would be willing to cut and haul it to Crockett in the log, provided of course that a fair price was given; or those who live near a loading station on the railroad who would be willing to cut and load logs for shipment to Crockett, to stand up and be counted just as soon as possible.

This firm has also said that it was in the market to purchase outright large tracts of suitable timber, in addition to buying all the logs they could get. There is, of course, active competition in East Texas for this prize, and it will require prompt action on the part of our people to get the necessary information together that will be needed to decide the question. From what we know of facts there can be no possible doubt of this county as a whole possessing all of the hickory and oak that such a factory could consume in a decade; while there is enough more tributary to the I. & G. N. railway that could be shipped to advantage to keep the concern going indefinitely.

ONE YEAR AGO—AND NOW.

One year ago—November 11, 1918—the armistice was declared, and the world took its first deep breath in four years.

To us of America it was a happy day, for it meant that the enemy had given up in defeat, and that many thousands of lives were saved which otherwise would have been led to the field of gore.

The men of our armies were joyful, because it meant home and freedom again for them.

One year ago—but such a year!

Then we thought the blood of our sons had made the world safe for democracy. Today we find it gasping in the throes of disintegration.

Jealousy, hatred and suspic-

ion of one another has been engendered in the governments and peoples of Europe. No one trusts another. Open discord is everywhere.

Russia is a seething cauldron, the Balkans are a melting pot, and Turkey is a living hell.

Secret diplomacy and the conference of Paris have produced not honor and justice, but rather Shantung and Fiume.

The peace of nations is a misnomer—a phantom of the brain which does not even follow its own convictions.

We see a cessation of armed conflict, but no where is there tranquility.

Europe is pauperized and a hotbed of bolshevism.

England is staggering under a mountain of debt and the burdens of the Irish question.

America is tottering on the brink of revolution.

Mexico is in perpetual eruption, and the lesser nations of the western hemisphere are smoldering with unrest.

Labor and capital are at each other's throats the world over, and governmental threats and appeals alike fall upon deaf ears.

Profiteering is rampant and no agency seems powerful enough to check it.

Collective sanity is nowhere to be found.

One year ago we exclaimed: "Safe for democracy!"

Today it is the survival of the fittest.

But this condition can not last. An end must come.

The greed of the capitalist and the arbitrariness of labor must be curbed.

The agency that will not voluntarily submit to reason must be forced to do so.

The government must take action, drastic as the conditions may warrant.

The man who considers himself greater than the people must be crushed by the nation.

There is no other alternative, if we are to preserve the free country our forefathers builded for us.

Those whom the gods would destroy they first make mad—and America is a madhouse today.

Reservation Purporting to Safeguard Right of U. S.

Washington, Nov. 8.—A reservation purporting to safeguard the nation's right to withdraw from membership in the league of nations was adopted by the senate today with every republican senator and six democrats voting for it or paired in its support.

Holding the whip hand by a safe majority, the republican leaders swept aside every suggested modification and carried the reservation through exactly as approved by the foreign relations committee. Two republican senators of the mild reservation group led a stubborn fight to alter it, but after they had failed voted for adoption.

The final count was 50 to 35 and pairs announced for the absentees showed the entire senate membership to be divided 55 to 41. Five democrats, Senators Reed of Missouri, Gore of Oklahoma, Smith of Georgia, Walsh of Massachusetts and Chamberlain of Oregon, voted in the affirmative, while Senator Shields of Tennessee, democrat, was paired in favor of the reservation, the first of fourteen proposed by the committee to carry out a program which its sponsors say has been pledged a safe majority throughout. The reservation provides:

"The United States senate understands and construes article I, that in case of notice of withdrawal from the league of nations, as provided in said article, the United States shall be the sole judge as to whether all its international obligations and all its obligations under the said covenant have been fulfilled and notice of withdrawal by the United States may be given by a concurrent resolution of the congress of the United States."

SHIPS WITH GRAIN FURNISHED COAL

Those at Galveston Will Get Sufficient to Reach Hampton Roads.

Washington, Nov. 8.—Available ships now at Galveston, carrying approximately 1,600,000 bushels of wheat, will be furnished sufficient bunker coal by the central coal committee to enable them to reach Hampton Roads, Va. The concession was secured by members of the Texas delegation to congress, who have been working for better movements of wheat out of the Panhandle section and to facilitate the grain export from Galveston.

As was pointed out to the members, there is an acute coal shortage developing in the Southwest and supplies are more available in the Hampton Roads district, which includes Norfolk and Newport News. In the meantime United States shipping board vessels operating out of Galveston, as well as those operating in the coastwise traffic, will be allowed to get fuel supplies and an effort is to be made to take care of all vessels irrespective of their registry that are carrying American grain.

According to reports of the railroad administration yesterday there was thrashed wheat on the ground and exposed to the elements in the north plains counties of Texas to the quantity of 1,700,000 bushels. Telegrams sent to Texas dealers by Representative Marvin Jones developed that the administration's figures were correct.

L. C. McMurtry of Pampa, Tex., president of the Panhandle Grain Dealers' Association, estimated the amounts in Carson, Gray, Hemphill, Ochiltree and Roberts counties between one and a half and two million bushels.

F. R. Jameson of Amarillo, secretary of the Panhandle Plains Chamber of Commerce estimates that there are 3,000,000 bushels in the north plains and eastern Panhandle, and calls attention to the large crop of milo, Kaffir and Indian corn, about 25,000,000 bushels, practically none of which, he says, has been moved.

The report from Carson County was 350,000 bushels, Gray County 650,000 bushels and Roberts County about 100,000 bushels. All reports indicate that the situation is being relieved. Sixty-five cars were loaded with wheat on the north plains division of the Santa Fe Thursday, sixty-three cars delivered yesterday and seventy cars delivered today.

drawal was voted down, 68 to 18, gaining scattered support from both sides of the chamber. Senator King of Utah, democrat, moved to make the provision relative to judging obligations applicable to all the league members, but that was beaten, 52 to 30.

Charges of partisanship frequently were exchanged during the day of debate which preceded the roll call.

GET READY FOR "FLU"

Keep Your Liver Active, Your System Purified and Free From Colds by Taking Calotabs, the Nauseless Calomel Tablets, that are Delightful, Safe and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, no griping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger. Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs.—(Adv.)

MILLIONS FOR ARMY CAMPS IS APPROVED

House Military Committee Recommends Granting Authority for Expenditure.

Washington, Nov. 8.—Completion of land purchases and construction work at more than a score of army camps and fields over the South was approved today by the house military committee, which recommended passage of a bill granting the war department authority to spend approximately \$4,500,000 additional on these camps.

Final decision as to the acquisition of the Dayton Wright plant, including the adjacent aviation field, at a cost of \$2,740,000 more to the government and of the Curtiss-Elmwood aviation plant at Buffalo, for \$1,804,000 additional, was left with a subcommittee.

The committee voted \$986,300 for completing the Camp Knox (Kentucky) project, of which sum \$811,000 is for land purchases. This fund will not be available, however, until Camp Taylor, Kentucky, is salvaged profitably.

For real estate at various air stations, the committee approved, among others, the following: Houston, Ellington Field, \$140,000; San Antonio, Kelly Field, No. 2, \$349,686; Memphis, Tenn., Park Field, \$88,400; Little Rock, Ark., supply depot, \$55,000.

Lightest Vote Polled for Texas in Twenty-Five Years.

Only two of the propositions

voted on in Texas Tuesday carried. These were the constitutional amendment to increase the confederate pension tax from 5c to 7c on the \$100, and the amendment to authorize the city and county of Galveston to issue \$5,000,000 of bonds for grade raising and other protective works.

All of the other amendments were defeated, as also was the proposition to order a constitutional convention. The university amendment, which was expected to run strong, failed to do so, and the amendment to authorize \$75,000,000 for bonds for the state highway system was defeated by more than 2 to 1. The expectation that the highway amendment would run strong in the larger cities and in counties which are badly in need of good roads is not generally realized. Of the larger cities only San Antonio, Houston, El Paso and Galveston report large majorities, whereas Austin which is the headquarters of the state highway commission and was the headquarters of the campaign for the amendment, went against it, as did Waco and Dallas. Throughout Hill and Denton counties, both of which are in need of better roads, heavy majorities were given the amendment.

A singular feature of the election is that in many places considerable majorities were cast against the confederate pension tax.

The vote was light everywhere, probably the lightest that has been cast in any statewide election in a quarter of a century. In many places no election was held.—Galveston News.

We Court Public Opinion On Price and Quality of Dry Goods

We established our business on the principle of being fair with our customers, giving them full value for the money they leave with us.

We have continued that policy throughout the years we have been serving you, and we are pursuing it more persistently than ever in this exasperating era of price inflation today. EARLY END STRIKE OF MINERS IS SEEN

Officers of Workers Say They Have no Desire to Fight United States.

Washington, Nov. 8.—Federal Judge Anderson's order to the officers of the miners' union to withdraw their strike order was received by national labor leaders here apparently with surprise. They had believed the strike could be withdrawn from the court and settled outside.

The court's ruling, however, was accepted without comment, and in the belief that the strikers would be at work not later than next Thursday. The statement by officers of the United Mine Workers that they had no desire to fight the government was accepted generally as the feeling and attitude of the men.

Department of justice officials said tonight they believed the officers of the miners' organization who called the strike would formally issue the cancellation notice at their meeting at Indianapolis Monday morning. Announcement by council of the miners that Acting President Lewis unquestionably would abide by the court's order indicated, according to most labor leaders, that the men would return to work when Lewis directed.

Reports from the mining regions showed little or no change in the general situation, although operators claimed considerable improvement in some states.

Where to Buy Your Cotton Seed for Next Year.

Austin, Texas, Nov. 4. Editor Courier: The State Department of Agriculture is receiving many

letters asking where cotton seed may be bought for next year's planting.

These inquiries come as a result of excessive rains which have ruined the germinating qualities of many thousands of tons of seed and unless farmers get their cotton seed now and store them, it is almost certain that not enough seed can be had next spring to plant a normal acreage.

Therefore, we are writing this letter to the members of the farmers' institutes, urging them to buy their cotton seed this fall, if they need any, for fear that they may not be able to buy them at all next spring.

Again, if you have good sound seed for sale, write T. S. Minter, Director of Bureau of Markets, Austin, giving him the variety, quantity and quality of the seed you have for sale and he will list your offering in the Market Journal free and otherwise assist you in finding a market for same.

If you wish to buy cotton seed for next year's planting, write Mr. Minter and he will give you a list of those who may have seed for sale.

Bear in mind that we do not handle any one's money nor the seeds offered. We simply put the buyer and seller in direct communication with each other.

We would appreciate any assistance that the Courier may give by publishing this letter, and thus assist the farmers in the sections where your papers go to buy or sell their cotton seed.

VILLA FORCES MARCH ON CHIHUAHUA CITY

Federal Troops Dispatched to Stop Progress of the Rebels.

San Antonio, Texas, Nov. 8.—It is reported that Pancho Villa has appeared at San Diego, near Rio Conchas, with 1,000 men under his command, and is approaching Chihuahua with the intention of capturing that city, dispatches from there today announce.

General Dieguez, federal commander of the garrison at Chihuahua, has been dispatched at the head of a strong column to meet the veteran chieftain in an attempt to stop his progress. Other federal forces from Jimenez and Camargo have been ordered to reinforce General Dieguez.

This is the first open attack made by Villa in more than thirty days and the dispatch indicates that he is compelled by approaching winter to descend from his mountain stronghold in search of food and clothing for his command.

In battle with General Casero Castro of the federal army near Labor, Durango, about a month ago, Villa lost General Martin, killed, and General Ramon Vega, who surrendered with sixty men to General Quevedo at Casas Grande, near El Paso. More than 100 men under Villa were killed outright, the majority of the survivors being dispersed in disorder.

There is nothing more lamentable than to see the man with the mental capacity of the ditch digger trying to make a newspaper.

GOMPERS HEADS LIST IN DECLARING FIGHT MUST GO TO FINISH

Funds and Moral Strength of Unionism Behind War on Injunction Measures.

Washington, Nov. 9.—Holding that the action of the government in the injunction proceedings against striking bituminous coal miners to be "so autocratic as to stagger the human mind," the executive council of the American Federation of Labor declared Sunday night in a statement issued after a four-hour meeting that the miners' walkout was justified, promised for the strike the entire support of organized labor and asked aid and indorsement for it from the general public.

The Lever act, under which the government acted in the court proceedings, never was enacted to apply to workers, the council asserted and its use against the miners was classed as "an injustice not only to workers, but all liberty loving Americans."

The action was taken without the participation of William Green, general secretary of the Mine Workers, who is a member, but all the remaining principal officers of the American Federation of Labor, were present.

Gompers in Control.

The council began its sessions at 3 o'clock after its members had been hastily summoned together, and the statement which formulated its action was carefully revised and rewritten by Samuel Gompers and Frank Morrison, president and secretary, respectively, of the federation.

The council in its statement presented at length the history of the negotiations which led up to and precipitated the coal strike, declaring almost in the first sentence that the "officers of the United Mine Workers did everything in their power to avert this great industrial struggle." It reserved its bitterest words for later comment on governmental action.

There were 2200 delegates, representing the 500,000 miners, seated in the convention which called the strike, the statement said, after briefly sketching complaints of working conditions in the industry which it asserted the miners seek to remedy by striking.

The instructions of the con-

vention were taken through the usual committees into conference with the operators and then the statement puts it, "our government interjected itself and applied for an injunction."

The statement characterized the action as "invasion of the rights of miners" intended to starve the miners into submission by cutting off their strike benefits, and demanded the withdrawal of the injunction secured Saturday at Indianapolis "to restore confidence in the institutions of our country and respect to courts."

"By all the facts in the case the miners' strike is justified," it concluded. "We indorse it. We are convinced of the justice of the miners' cause. We pledge to the miners the full support of the American Federation of Labor and appeal to the workers and citizenship of our country to give like indorsement and aid to the men engaged in this momentous struggle."

Probe of Delays in Deportation of Aliens.

Washington, Nov. 8.—Investigation of alleged delays in deportations of aliens now in custody will be undertaken within the next few weeks by the house immigration committee, was announced tonight by Chairman Johnson, in connection with the raids last night and today in which more than 500 radicals were arrested in various parts of the country. The committee will seek also, it was stated, to determine whether any additional legislation to deal with radical aliens is necessary.

Reports to the department of justice showed that of the 500 men and women arrested 211 were being held on deportation warrants. Further arrests may be made, however, on later developments.

Some of those arrested were unable to satisfy government agents that they were American citizens and are still being watched.

The number held on deportation warrants in the various cities follows: Newark, N. J., 31; Baltimore, 10; Akron, 6; Monessen, Pa., 2; Bentleyville, Pa., 1; Universal, Pa., 1; Cleveland, 17; Buffalo, 14; Philadelphia, 9; Trenton, N. J., 1; Hartford, Conn., 33; New York, 39; Chicago, 7, and Detroit, 40.

Mr. Palmer disclosed tonight also that Adolph Schnabel, whom he described as "the brains of the Union of Russian Workers," was taken into custody ten days ago. He is now at Ellis Island awaiting deportation. Peter Bianki, who succeeded Schnabel as general secretary of the Russian union, also is being held for deportation.

Buying at Home This Year.

Many good citizens have approved the plan of keeping prosperity at home by trading with the local merchants.

Many thousands of dollars are spent annually in Christmas shopping in this community, and all indications point to heavier buying this year than ever before.

Our dealers have prepared for it by laying in stocks calculated to please any fancy, and we are assured by them that these goods will be priced down to the very limit of economy.

From week to week the advertising pages of this paper will

contain the choicest offerings of our live merchants.

A careful reading of the ads each week will give the purchaser a valuable line on what and where to buy, and will be one of the most valuable aids of all in the Christmas shopping.

This is our town. It is what we have made it in the past, and it will be what we make it in the future.

November 11 Celebrated.

Armistice day, November 11—the day on which the armistice was signed—was celebrated in Crockett Tuesday night by the younger set of patriots in an unmistakable way. Three motor trucks were loaded to overflowing with the younger set, both boys and girls, properly chaperoned, and the itinerary covered the city from center to circumference, no part of town being slighted. The crowd of celebrators was led by Sergeant Lawson Keene and contained others who followed our flag in France and Germany. Trumpets and bells, mingled with the shouts of human voices, gave emphasis to the purpose and intent of the patriotic celebrants, making a great, big night out of what otherwise might have been a small one. Skyrockets were sent up in some parts of the town.

What Will You Give?

Already the little ones of this community are beginning to wonder what Santa Claus will bring them this Christmas.

Daughters are making veiled suggestions, and the sons are openly bidding for parental favor at this time.

Mother has her secret desires, and father is checking up to see if he can afford a new suit or a pair of shoes.

The family eye is turning to Christmas and is bright with expectation. Yuletide joy is hovering in the offing and all arms

are extended to it.

Judge Orders an Immediate Strike Order Cancellation.

Indianapolis, Ind., Nov. 8.—Cancellation of the strike order, which since midnight of Oct. 31 has kept 400,000 union bituminous miners out of the coal pits of the country, was ordered by Judge A. B. Anderson in the federal district court here today.

Violations of the wartime federal food and fuel control act, as alleged by the attorney general's department, was affirmed by the court, who said that the strike was not only illegal but under the circumstances it approached rebellion.

Unless the union leaders choose to defy the court—and there was no indications tonight of any such intention—they can move only toward ending the big walkout. The court's order was so worded that failure to cancel the strike call or any affirmative word or action tending to "aid and abet" the continuance of the strike, would make them violators of the injunction and in contempt of court.
