the two year project is to build as many as 30 new homes by 1976 and have several more under construction by this time. A.V. Following his talk, a question and answer period was held. During this period the question of the Union trying to get started in the Muleshoe Nursing Home was brought up. It was the opinion of those Rotarians present that if the union was to come in at this time it would hinder the financial drive necessary to have the hospital.

Harmon

We still haven't quite finished licking our wounds from "Black Saturday" a couple of weeks ago. Can't remember when ten members of our Elite Twenty all took their lumps on the same day. The Top Twenty again was the scene of a lot of scrambling up and down the national ladder as upsets and below par performances made quite a few changes. Oklahoma took over the top spot with both Alabama and Michigan moving quite a few changes.

and Mrs. Tommy Black, Mrs. Thurman White, Mrs. John Watson, Mrs. Imogene Tiller, R.A. Bradley, M.D. Gunstream, Mrs. Steve Bass, Mrs. Dean Spraberry, Luara Seales, Mrs. Robin Taylor and Ben Yeager. Each year more than 650,000 Americans die suddenly. There are many causes: poisoning, drowning, suffocation, choking, electrocution and smoke inhalation. But the most common cause of sudden death is heart attack. In some cases of sudden death caused by heart attack, the victim might have been saved, if he had known the usual early warnings of heart attack, if he had gotten to a hospital quickly or if someone near him could have performed CPR, his chances of surviving would have been increased greatly.

The most common early warnings of heart attack are prolonged, oppressive pain in the chest, behind the breastbone; pain may radiate to the neck, jaw, shoulder or arm; sweating; nausea, vomiting and shortness of breath. Sometimes these symptoms subside and return.

more fish and casseroles due to the high cost of beef. Local members sent telegrams followed up by personal letters supporting and urging the first lady to correct her remarks which in fact are misleading as beef per pound is a better buy than most any other high protein food available today.

The Cowbells urge all concerned individuals to write the White House and protest this continued discrimination against the beef industry.

of destruction by the Oklahoma Sooners. After tromping Utah State last week, the Sooners meet Wake Forest Saturday. The spread is the threat of another mis-match . . . 64 points. Michigan takes on an uncertain assignment in potentially dangerous Stanford. The Indians almost upset Penn State in their opener, but were jarred by Illinois two weeks ago. It looks as though Michigan will remain undefeated, winning by about 33 points.

Farmers...

Con't. from Page 1
now in effect and proposed regulations. Speaker for the evening will be Robert B. Simmons, area director, Lubbock office, of the OSHA. All interested people are urged to attend the meeting.

And Mississippi is the next target on the schedule for undefeated Alabama. The Rebels have been a bit of a disappointment so far, and will have to make quite a turn-around to stem the Tide. Alabama will beat Mississippi by twenty-six. The Ohio State Buckeyes will be the second Big Ten team in succession to meet Washington State. Illinois nipped the Cougars last week and the Bucks will wear them Saturday by 23 points. The Illini meet the California Bears in Champaign, and hope to hold their position in the national rankings. California will lose by 20 points. Very quick look at average: Dizzy Dean would say, it "slud" just a bit to .748 off 371 rights, 125 wrongs, and 13 ties.

In the Southwest Conference, there are - at least this week - the Big Three . . . Texas Tech, Texas A&M, and Arkansas. The Razorbacks are the only one of the three involved in a conference game. They'll bump

T.C.U. by 27 points. The Aggies meet a real heavy in Kansas, and in the fame of the week, Texas Tech plays Oklahoma State, number six against number twelve. The Red Raiders were tied by New Mexico two weeks ago, and the Cowboys were unceremoniously upset by Baylor last week. However, it'll be a fantastic game . . . Tech by five. And Texas A&M will nudge Kansas by the same margin.

Seventh Grade Teams Have Football Games

by-Mike Northcutt
Last Thursday, September 26, the seventh grade football teams had its third football game. The Steelers played the Dolphins; and it was a real good game. The Steelers kicker, Ezequiel Pecina, started the game with a good kick-off going to Sam Whalin from the Dolphins. Sam Whalin ran it back a ways, but got knocked down in a few seconds. It was 1st and 10 and the Dolphins started off with

Sam Whalin, the fullback, running for a few yards. On third down the Dolphins threw a pass. The pass was intercepted by Ezequiel Pecina. He ran it back to about the 20 yard line. The Steelers ran three plays, but did not get anywhere. It was fourth down and they went for it. The Dolphins held them and got the ball back.

The Dolphins ran one play and then the clock ran out for the first half. At the beginning of the third quarter, Sam Whalin, the kicker for the Dolphins, kicked it off. Ezequiel Pecina ran the ball back and was finally tackled. The Steelers threatened and got down to the five yard line. The Dolphins tightened up and held them and once again the ball came back to the Dolphins. The Dolphins ran a reverse around the end and gained about 20 yards. The last play of the game was another play around the end. The Steelers tackled him and the score ended 0-0.

Dimmitt Sweeps Over "A" Team

by dave poynor.
Last Thursday the "A" team Mules played the Dimmitt Bobcats on the Mules home field. Dimmitt started the scoring in the middle of the first quarter on a 85 yard run. The extra point was successful. In the second quarter, Ernie Vela made the Mules lone score on a 70 yard punt return. His extra point try failed; and the half ended, Dimmitt leading 8 to 6. The second half was a scoring spree by Dimmitt while the Mules could get nothing going. When the final gun sounded the score was 24 to 6. The "A" team now has a record of one win and two losses. Today they will go to Clovis and try to make it 2 and 2.

"B" Team Wins Third Game In Row

The "B" team Mules won their third game in a row last Thursday against the Dimmitt Bobcats by a score of 28 to 0. With 20 seconds expired in the first quarter, Dickey Sudduth ran 50 yards for a Muleshoe touchdown. He also made the extra points. Minutes later Dave Poynor ran 60 yards for another Mules touchdown; but the extra points failed. The second quarter went scoreless; so, the half ended with the Mules ahead 14 to 0. In the middle of the third quarter, Dickey Sudduth went 35 yards on a sweep for another Muleshoe touchdown. Dave Poynor made the extra points and the score jumped to 22 to 0. Then later in the fourth quarter, Terry Shafer ran 15 yards for our last touchdown and the game ended with the Mules ahead 28 to 0. The "B" team defense should be congratulated for going three games without being scored upon.

CATTLE BILL

The Senate approved and sent to the White House a \$2 billion program of loan guarantees to livestock producers hit by low beef and poultry prices.

ON ALCOHOLISM

A report from the National Institute on Alcohol Abuse and Alcoholism states that alcoholism and related problems are costing the nation more than \$25-billion a year.

MJHS Has First Fire Drill

On September 26, 1974, M.J. H.S. had its first fire drill at 9:50. The state requires at least one or two of these fire drills each year. The purpose of the fire drill is to prepare the students in case of a real fire. Three bells means to go out orderly, one bell means Halt, two bells means go back to room, three bells also means to go out after a halt bell. The halt bell means that there is something wrong with the door so there will be a red flag or something red out in the hall or in front of the door. In case of an obstruction, the students must find an alternate route out of the building.

School Pictures Taken

On Wednesday afternoon, October 2, individual pictures of all students and faculty were taken. These pictures will be put in the 1974-75 annual. Everyone that did not have their pictures made today should make a special effort to be at school on the day retake pictures will be made. When the pictures come in, you can purchase them for personal uses.

Junior High Annuals

The Jr. High Journalism staff will be selling annuals from October 1-15.

This year the annuals will be selling for \$5.00 each. They can be purchased before school, at noon, and during seventh period.

Crop Prices Down ... 1973 Was Good Year ... Rain Slows Harvest ... Many Honored Families

TEXAS FARMERS and ranchers don't have to be told that 1973 was a good year, but this year is another matter. The 1973 prices just haven't held up. Texas Crop and Livestock Reporting Service says that all farm products price index on August 15 was 13 per cent below last year although three per cent above the same time the previous month. Prices on livestock and livestock products were 35 per cent below last year and seven per cent above the previous month. That means that a beef animal that brought 34.90 cents a pound in August would have brought 54.20 at the same time in 1973. Hogs that brought \$36.20 a hundred (up \$3.80 over July 15 prices) would have brought \$55.80 on August 15, 1973. On the other hand, the price index on all field crops was 21 per cent higher than a year ago. Sorghum at \$5.03 a hundred was \$1.50 higher than a year ago. Upland cotton that brought 44.2 cents a pound was 9.2 cents above last year. But wheat was 19 cents a bushel--at \$4.05--below last year; and \$9.80 rice was \$1.20 below last year. Corn that brought \$2.75 a bushel on August 15, 1973 brought \$3.16 on August 15 this year. Corn was only \$2.74 a bushel a month earlier.

COMMISSIONER JOHN C. WHITE earlier released figures showing that Texas cash receipts for all crops and livestock in 1973 totaled \$6,467,923,000 (that's billions), which has to be a record. Production was better than in 1972, except in rice, pecans and fruits, and possibly a few other minor crops. Livestock cash receipts in 1973 in this State amounted to half of the total, \$3,673,825,000, which was an increase of a billion over 1972. Texas, as usual, was first of all the states in the production of cotton, grain sorghum, wool, mohair, watermelon, cabbage, spinach.

MORE RAIN over the State delayed harvesting, and Hurricane Carmen threw a scare into Texans and accounted for a part of the rain. Cotton harvest was judged 16 per cent completed, much farther along than the four per cent harvested at the same time in 1973. Fall plowing of cotton land is well along in the Valley and Gulf Coast. Rain across the Northern High Plains delayed wheat planting, but Texas Crop and Livestock Reporting Service estimated that four per cent of the planting was complete. oat planting was not that far along. More than half the grain sorghum has been combined in the State, and peanut harvest is about a quarter complete and also delayed by rain. Most of the first 1973 rice crop has gone to market. The first oranges and grapefruit from the 1974-75 crop in the Valley have gone to market. Yield is expected to be below the 1973-74 crop.

BEFORE AUGUST 31, the deadline for entering farms and ranches in Texas Department of Agriculture's Family Land Heritage Program, over 1,200 inquiries had been received. As checking of the mass of mail and applications continues, more than 500 Texas farms and ranches have qualified. Those families who have owned and used their farms and ranches 100 years or longer are qualified for the honor. As has been announced previously, special recognition will be given those families during State Fair ceremonies in October.

TEXAS COMMERCIAL slaughter plants reported 211 million pounds of red meat produced during July, which is an eight per cent increase over June's production and 13 per cent more than in July, 1973. The 1,341,000,000 pounds produced in Texas for the first seven months of the year was five per cent more than for the same seven months in 1973.
