Dolphins Upset Steelers 14-6

Last Wednesday, October 16, the seventh grade played another football game, between the Steelers and the Dolphins. The game also decided who were the champions. The Steelers kicked off to the Dolphins. The kick was high and went back to Sam Whalin, who ran through the line with Ezequiel Pecina, the kicker for the Steelers, the only one left to get him, Mark Green, one of the Dolphins linemen, blocked him down and Sam Whalin went on in for a touchdown. Victor Leal carried the ball in for the extra points. The score was 8-0. The Dolphins kicked a low kick into the middle line. They ran it back a few yards before being tackled. The Steelers were about on their 40 yard line. On first and 10, the Steelers ran a play up the middle to gain around 4 yards. On 2nd, they ran a play gaining about 5 yards. On third down the quarterback, Ezequiel Pecina, ran a quarterback sneak and made the first down. They were then on about the Dolphins 48 yard line. A few plays later they had made progress and was on the 28 yard line. On third down, they ran a play around the end making enough for the first down, but it didn't count because of a penalty. The penalty was against the Steelers and the ball went back to about the 38 yard line. On fourth and 10, the Steelers went for it with a pass. The receiver wasn't open so Ezequiel Pecina the quarterback, ran the ball himself. He carried it on in for a touchdown. The score was 8-6 in favor of the Dolphins. The extra point failed and the score stayed the same 8-6.

In the third quarter, the Dolphins kicked off to the Steelers. The kick was low but went pretty long. On first down, they ran a play around the end gaining a-

round 3 yards. On second down they ran a play up the middle gaining about four. On third down, they ran a play gaining enough for the first down. A few plays later the Steelers were on the Dolphins 39 yard line. They tried a pass; but, the receiver, Jim Norman, missed it. On second, they ran a pass and that one was incomplete. On second and third downs, they tried another pass; but they were incomplete also. On fourth down, they gave the ball to Tommy Wheeler around the end. Mike Northcutt, one of the defensive players, caught Tommy behind the line of scrimmage, and tackled him. It was first and 10 and going the other way. The Dolphins ran a play around the end gaining none. On second they ran a pass. Mike Northcutt, the quarterback for the Dolphins, threw the ball to Arturo Rojas making a good catch. The pass brought the Dolphins down to the Steelers 35 yard line. A few plays later the Dolphins wingback, Alvaro Ontiveroz, ran the ball down to about the eight yard line. It was first and goal-to-goal and the Dolphins fullback, Sam Whalin, carried it down to the two yard line. Victor Leal, the tailback, ran the ball in for a touchdown. Then the score was 14-6. The extra point failed and the Dolphins formed their kicking team and kicked it away. A few plays later the game was over and the Dolphins upset the Steelers 14-6.

No School On Friday

On October 25, school will be dismissed at all of the Muleshoe Schools because of the District XVII TSTA, Seventh Annual Convention in the Lubbock Municipal Coliseum. The theme of this years convention is "Changing to Meet the Future in skills, concepts, achievements and goals.

Open House

On Monday, October 28, the Junior High is hosting an open house from 7 to 9 p.m. All parents and interested citizens can come to meet the new teachers and visit with them. The Junior High faculty will be in their rooms throughout the evening. Everyone is welcome to attend.

Seventh Grade Takes TB Tests Monday

On Monday, October 14, the seventh grade students received their T.B. test. This test is given to first and seventh grade students each year. Each student is checked two days after the test is given to see how the student reacts. If the student has a positive reaction, the student will be given further tests to see if he has this disease. Mrs. Tiller, the nurse at Mary DeShazo gave the students this test with a gun. Mrs. Tiller also came back to check them.

Eighth Grade Girls Begin Workouts

Tuesday, October 15, the eighth grade athletic girls started having organized workouts for the up-coming basketball season. The girls have been working on plays, shooting, dribbling, and various drills. The girls have been working out hard in hopes of a winning season.

The teams will be announced shortly and the Journalism Staff would like to wish the girls good luck.

Seventh Grade Dissects Earthworms

On October 11, the seventh grade science classes, under the direction of Mrs. Scoggin, dissected an earthworm. The purpose of this was to compare the body parts of an earthworm to that of the human body. The classes found parts such as the heart, gizzard, esophagus, mouth and the intestine.

Fashion

The three piece suit in wool or other fiber materials is the big news for mens clothes this season. Double knits are still being shown but will not be as popular as they have been for the past few seasons.

College men go in for a variety of styles-- from dressy jeans to casual jackets and shawl collar sweaters.

After studying both reports, the Coordinating Board of the Texas College and University System voted to go with the minority and create a new school of pharmacy to be established at Texas Tech.
After the committee made their study it went back to TPA's House of Delegates, which consists of pharmacists all over the state.
TPA then voted not to support a school of pharmacy but also stated that if the school was established, the members would like it to be at Texas Tech University.

The Coordinating Board did vote to establish a new school of Pharmacy and it will be located at Texas Tech University. Building will start as soon as funds are raised.

as biochemistry, physiology and pharmacology.
The existence of a School of Pharmacy at Texas Tech will be an important factor in attracting many more West Texans to study pharmacy and to subsequently locate and practice in the region.
"Statewide figures currently show that 56.6% of the phar-

macists in West Texas received their education at out-of-state schools. By contrast, only 11.6% of the pharmacists in East Texas were educated outside of Texas.
"Recent figures also show that, on the average, there are 8.99 pharmacists per 1000 square miles in West Texas. East Texas has 33.8 pharmacists per 1000 square miles. Since two of the major factors in the quality of health care are number of practitioners in relation to the population, it is obvious that West pharmacy manpower," Dr. Murray noted.
The Regional Academic Health Centers of Tech's School of Medicine will provide facilities for some components of the pharmacy curriculum. These regional centers will take some components of pharmacy education to widely separated areas in West Texas. Regional Academic Health Centers currently are in operation in Amarillo, El Paso and Lubbock and additional centers are in the planning stages.
The Doctor of Philosophy degree in Home Economics will help meet a shortage of doctoral graduates in that field. The shortage exists because of a growing demand for home economists by private and governmental services in health, recreation, social services, vocational counseling and guidance and communications. Projections from the U.S. Office of Education indicates that demand for such graduates will exceed the supply by about three to one between now and 1981.

RECIPE

An Imperial Meal

There's no need to be chicken about letting your imagination take wing when it comes to making up menus. Even such exotic, exciting dishes from the mysterious East are nothing to brood about. Chicken Teriyaki is not more inscrutable than stew, and you probably already have all the ingredients.

CHICKEN TERIYAKI

2 large, whole chicken breasts
 1/4 cup soy sauce
 1/4 cup honey
 1/4 cup vinegar
 2 tablespoons Bourbon
 1 garlic clove, crushed
 1/4 teaspoon powdered ginger
 1 cup chicken bouillon

Split, skin and bone the chicken breasts. Cut in thin strips. Combine remaining ingredients and marinate meat about 1 hour. Turn occasionally to season evenly. Weave meat strips on small metal skewers or moistened bamboo skewers. Grill on hibachi or in oven broiler about 2 minutes each side. Makes 4 servings; at least 8 for appetizer.

Mrs. Bush Honored At Pink And Blue Shower

Mrs. Randy Bush was honored with a Pink and Blue Shower, Saturday, October 12 in the home of Mrs. Don Martin.

Corsages made by baby socks were presented to Mrs. Bush, Mrs. Orbie Chandler, her mother; and Mrs. Max Bush, her mother-in-law.

Refreshments of an assortment of cookies, mints, nuts and punch were served by Terrie Martin, Robbie Kay Collins and Janet Collins.

Cynthia Chandler assisted her sister in opening the gifts. The hostess gift was a baby swing. Hostesses were Mrs. J.B.

Young, Mrs. Raymond Treider, Mrs. Bill Jennings, Mrs. W.G. Harlan, Mrs. Lloyd Williams, Mrs. Davis Guley, Mrs. J.L. Seaton, Mrs. Bill Brown, Mrs. Morris, Nowlin, Mrs. Willis Wood, Mrs. Buck Creamer, Mrs. Marshall Williams, Mrs. J.L. Phipps, Mrs. Don Jones, Mrs. Jim Collins and Mrs. Don Martin.

Suggestive

Progress Circle Meets

The Progress Circle met Monday, October 21 in the home of Mrs. George Chambliss at 2:00 p.m.

President Mrs. H.H. Snow presided over the business meeting with nine members present.

Election of officers were held and voted on as follows: Chairman, Mrs. James Wedel; Vice Chairman, Mrs. Byron Gwyn; and Secretary, Mrs. Johnny Westbrook.

Plans were made to make quilts to be sold for the Bazaar to be held in November. Mrs. Gordon Murrah read

scriptures from Luke seven, verses 44 to 50 and prayer circle was led by Mrs. Vergie Shaw. Mrs. Byron Gwyn led the study, "Rather Die Than Live" and the topic was Jonah. Benediction was led by Mrs. Johnny Westbrook.

Those attending the meeting were Mrs. Johnny Westbrook, Mrs. Gordon Murrah, Mrs. W.E. Meyers, Mrs. Elbert Davis, Mrs. Vergie Shaw, Mrs. H.H. Snow, Mrs. George Chambliss, Mrs. Byron Gwyn and Mrs. James Wedel.

The next meeting will be in the home of Mrs. James Wedel, November 4, at 2:00 p.m.

LOUISA'S LETTER

Dear Louisa, I like this guy. He's so wonderful. How do I go about "capturing" him? I am only two years younger than him but I am afraid he may feel I'm too young for him because of those years. He really means a lot to me. So I want to show him—not tell him and I don't want to be too dramatic. Do you have any ideas on what I can do?

Hopeful-Miss.

Answer:

I do not know how old you are but ages which vary two years make very little difference after a girl gets to be eighteen.

Men, as a usual thing,

like to do the pursuing and are apt to make remarks about girls who are obvious in their methods of trying to "capture" them. Relationships are much more enduring when the girl is the one sought after.

The best way to attract your friend would be to keep well groomed and to be as pleasant and nice to him as possible. A little flattery helps a lot and there is nothing that makes a boy or man feel as important as to have a good listener hanging on his words of wisdom.

Louisa.

Ghost And Little Children

COLLEGE STATION -- Halloween is the season that celebrates fear. For many young children, Halloween is their first real experience with fright, one family life education specialist pointed out this week.

She's Dorothy Taylor, with the Texas Agricultural Extension Service, The Texas A&M University System.

"A baby or young child is protected as much as possible from fear-provoking stimuli. As his environment expands, he will face more things that will frighten him.

"As his intelligence develops, a child perceives and imagines threats in objects, situations and people that failed to disturb him previously. As a child grows, his fears are more numerous and more intense," she explained.

Most fears are learned, according to Miss Taylor. Some come from a direct association or bad experience, while others are acquired from imagination or through conditioning (repetition of bad experiences).

She pointed out that certain fears are characteristically found at certain ages and stages. Research indicates that there is no sudden shift from one kind of fear to another, but rather a gradual shift from specific fears to general ones.

"Very young children fear loud noises, animals, dark

rooms, being alone, and strange people, places and objects. Children two to six seem to fear more things than either babies or older children.

"The two to six-year-old is more capable of recognizing dangers. But unlike the older child, he is less capable of realizing that they may not be personal threats.

"Older children's fears are on concentrated on fanciful, supernatural or remote dangers. They fear the dark, imaginary creatures, death, thunder and lightning, and characters recalled from stories. Older children also have fears related to self or status, failing, being ridiculed or being 'different,' she explained.

Fear is an emotion that is hard to handle. It occurs suddenly and unexpectedly. The child has no time to adjust to it.

However, not all fear is negative, the specialist pointed out. Normal fear serves as a

warning of danger. Unfortunately, children learn to fear those things which are not dangerous -- then fear inhibits action and experiences that might be useful and enjoyable, she said.

"Signs of fear which parents might observe in children during the Halloween season are retreat and withdrawal, imaginary ills and false complaints, quaking, shyness, worry and anxiety.

"Anxiety responses will probably be the easiest to identify. Depression, nervousness, irritability, restless sleep, quick anger, quick tears, and total dissatisfaction are signs of anxiety related to fear," Miss Taylor explained.

Turning to positive steps to reduce your children's fear, the specialist said, "If Halloween is a favorite season in your home, practice putting on costumes and playing in them. Talk about trick or treat activities, costumed children coming to the door and how to trick or treat."

COMFORT EFFICIENCY ECONOMY

you get it all with **NATURAL ENERGY Gas Heating**

Fresh, warm air gently circulating from floor to ceiling so nice to take for granted. Comfort is clean gas heat.

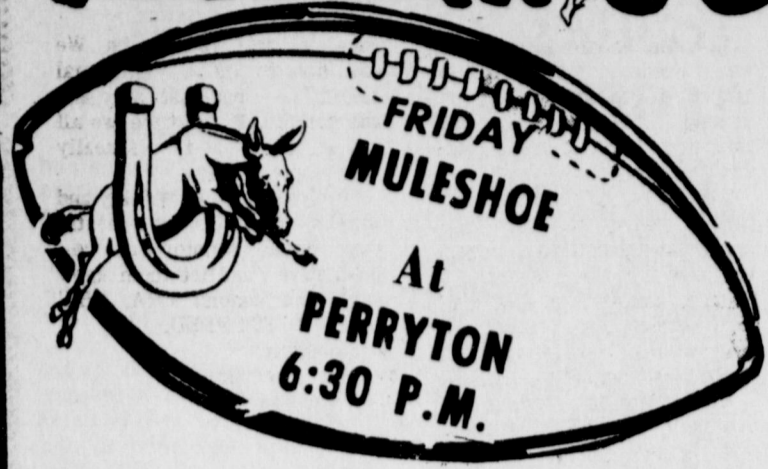

And that dependable comfort is such a bargain here in West Texas. Though gas energy costs a little more than it used to, gas furnaces still **cost less than one-third as much to operate** as similar electric furnaces.

And at the same time you're saving money with gas heating, you can also have a warm feeling knowing that you're helping conserve energy. Gas heating uses **only half as much energy** as an electric system doing the same job.

Comfort, efficiency, and economy you get it all with natural energy gas heating.

Grain Official Urge Contract Buying

LUBBOCK, TEX.-- Livestock producers and other grain buyers should contract now while supplies are adequate to meet their demand, according to officials of the Grain Sorghum Producers Association.

Elbert Harp, executive director of the national organization headquartered in Lubbock, said, grain situation throughout the coming year. But at the same time there should be no problem securing the amount needed." The GSPA official recommended that the harvest season would be a good time to contract for grain supplies. He emphasized that contract means "booking" for later delivery and that it is not always necessary to make full payment for the grain at the time the agreement is made.

livery either at prices fixed at the time of the contract agreement or at prices based on the market at the time of delivery.

"We continue to encourage grain sorghum producers to distribute their sales during the year," Harp said. "And it is possible to contract with livestock producers for grain supplies to be delivered throughout the year. This type of orderly marketing benefits both the producer and the buyer."

GSPA officials also urge domestic consumers to take the first opportunity to purchase existing grain since the supply is available to any buyer, foreign or domestic.

Reduced grain supplies were the result of prolonged drought, followed by excessive rains and early frost on the High Plains.

School should be more than a-b-c factories, with frills adapted to higher grades.

A Weekly Report Of Agri-Business News

Farm-facts

Compiled From Sources Of The Texas Department of Agriculture
John C. White, Commissioner

TEXAS UPLAND COTTON production for 1974 is expected to decrease more than 1.5 million bales from 1973 totals, Agriculture Commissioner John C. White reported.

According to the October crop report released this week from the Texas Crop and Livestock Reporting Service, 3.1 million bales are projected for the 1974 harvest.

Despite a record number of acres planted, national cotton production is projected at more than 12.7 million bales - a slight decrease from the 1973 yield.

OCTOBER OUTLOOK for most Texas grains remains unchanged from the September estimates.

Texas rice production is expected to top 25 million hundredweight bags, according to the latest figures released from the Texas Crop and Livestock Reporting Service. This is a 23 per cent increase from 1973 totals.

South Texas rice farmers harvested a record 563,000 acres and averaged 4,500 pounds per acre.

Nationally, rice production is expected to increase 22 per cent to over 113 million hundredweight bags.

Corn, sorghum and soybean figures have not changed from Sept. Texas corn production is estimated at 69.7 million bushels; sorghum, 295 million bushels; and soybeans, 6.5 million bushels.

White said that 1974 seems to be a good year for pecan production which has been estimated at 40 thousand pounds.

YOU MIGHT have seen the Association Press story not long ago that said farm production in the United States may decline in 1974 for the first time since 1966. Using 1967 as an index, it said that productivity of U.S. farms held steady at 101 per cent (compared to 1967) in 1968, 1969, and 1970. It went up to 108 per cent in 1971, 110 per cent in 1972, and 112 per cent in 1973. Weather and other factors have made the outlook for 1974 less favorable. Productivity, this story said, is a measure of how much farmers produce in return for each unit they put into their operations. Said the writer: "Inputs include hired labor, fertilizer, feed, livestock and all the other items needed by farmers to produce." All of that sounds reasonable and true; but the use of "input" and "output" to describe what a farmer uses and what he produces is a little disturbing. You might have noticed that we seldom have "shortages" anymore but we have "shortfalls." That is the amount between what a farmer produces and what the experts said he would produce. It's enough to give you a digestion lack.

TEXAS CROP and Livestock Reporting Service reported that there were 108,000 sheep and lambs on feed for slaughter October 1 in drylots with a capacity of 2,000 or more each. That is one per cent more than were on feed at the same time in 1973 and three per cent more than were on feed September 1, 1974. Placements of sheep and lamb were 38,000 during September, and marketings during that month were 35,000. The sheep business peaked in Texas in 1940 when there were an estimated 10,669,000 sheep on Texas farms January 1. There were 7,119,000 in 1951, 6,140,000 in 1961, and less than 4,000,000 every year since 1969. Texas had 4,222,000 angora goats in 1966, the peak year since 1900 but had less than 2,000 in 1972 and 1973. Texas leads all states in the production of sheep and wool, angora goats and mohair, supplying about a fifth of the United States' sheep and wool and about 97 per cent of the nation's mohair.
