IVAN CASHIER UNDER ARREST IN MISSOURI

Jefferson City, Mo., June 4.—C. W. Rogers, former cashier of an Ivan, Texas, bank, was arrested at Springfield, Mo., today and is en route to Texas to face charges of receiving money for deposit when he knew the institution was insolvent.

DR. C. R. TAYLOR BEGINS MEETING THURSDAY NIGHT

The meeting conducted by Dr. C. R. Taylor at Grove and Southview street closed last night. The meeting has been in progress more than a week and Dr. Taylor reports a good meeting.

He will begin another meeting Thursday night at the Christian Tabernacle just south of the public school building. A cordial invitation is extended to all Christian people, and especially those living in the vicinity of the tabernacle to join in the meeting.

GEOLOGIST WARFEL OPENS OFFICES ON WEST SIDE SQUARE

Mr. E. C. Warfel, who was formerly geologist for the Sun Company and covered all this section of the country for them, has located in Graham. He has offices in the Old Leader building on the west side of the square.

Three years ago he worked in Stephens county and was unusually successful in his locations. He is very optimistic about this section of the country and believes that within the next year or two some wonderful pools will be found near Graham. He is interested in the Jeffery No. 1 which spudded in last Thursday just north of the city and he feels that the completion of this well will mean the rapid development of the territory north of town.

Mr. Warfel says there are several excellent structures near Graham which are sure to be tested out as soon as conditions will permit.

CHAMBER AGAINST BOND ISSUE FOR SOUTH BEND ROAD

The directors of the Chamber of Commerce at a meeting yesterday afternoon appointed a committee to confer next Tuesday with the good roads committees of the Chambers of Commerce at South Bend and Eliasville in regard to the upkeep of the Graham-South Bend-Eliasville road.

It seemed to be the consensus of opinion that no bond issue should be sought with which to build a permanent road, but that the local Chamber of Commerce should continue its effort to keep the road in good condition with the money paid in by its members and by those who use the road.

It was also agreed that Graham would care for that section of the road between this city and the Brazos river bridge, and South Bend for the strip between the bridge and that city.

A committee was appointed to investigate the advisability of oiling the square. No other business of importance was transacted, it was said.

CHAS. E. WHITNEY DIES IN LOCAL SANITARIUM

Chas. E. Whitney of Mineral Wells died in a local sanitarium about 10:30 o'clock Monday night. He had been sick for some time.

The body was prepared for burial by C. A. Russell, undertaker for the John E. Morrison Company, and sent to Mineral Wells for interment.

JACKSON AND CATHCART SECURE CONTRACTS

DeFrest and Cheney have been successful in securing another test well for the district south of Graham. This well is to be drilled by Jackson and Cathcart, experienced drillers of Breckenridge. The location is one-half mile east of the old Empire-Lisle No. 1. Drilling will begin on or before July 16, and the well will be drilled to a depth of 3250 feet unless a good well is brought in before this depth is reached.

It is reported that the same contractors will drill other wells in the same territory.

PRAIRIE-HUGHES NO. 2 MAKING 800 BARRELS

The Prairie-Hughes No. 2, about eighteen miles south of Graham, was shot Sunday afternoon, and is reported making eight hundred barrels.

The No. 1, drilled in last December for about the same production, is still making around 600 barrels daily, while the Corbett, the discovery well in this isolated pool, is maintaining around 150 barrels. The No. 2 Prairie is bottomed at 3,384. Its sand was shot from 3,338 to the bottom of the hole with 150 quarts.

These new developments in this territory south of Graham put new life in the Bunker territory only a few miles south of Graham. DeFrest and Cheney have closed a contract for another test well in the Bunker field and it is reported that other contracts have been closed in this territory recently.

ARCHER COUNTY JOINS THE RANKS AS OIL PRODUCER

Considerable interest is being shown in the oil situation in Archer county.

The Sun Co. well No. 1, six miles northwest of Megargel, is reported as a good pumper and the Sun people are rapidly making preparation to sink well No. 2 about half a mile southeast of the producer. Eight truck loads of material were placed on the ground Thursday. The Derrick is already up.

Arrangements are being completed to sink an oil well on the Turner Richardson place four miles southeast of Megargel. A new road has been opened up from town to the location, and the machinery will be placed on the ground at once. Our oil possibilities are spreading in every direction.

FLOOD DESTROYS EXPENSIVE BRIDGE ON DENVER ROAD

Amarillo, Texas, June 6.—The Fort Worth & Denver Railway bridge over the Canadian river at Tascosa, which leading engineers of the country declared would withstand all floods, was washed out late Sunday and all traffic entering Colorado has been suspended indefinitely, according to reports received here at noon today. The bridge was valued at a half million dollars.

SECTION OF BRIDGE ACROSS BRAZOS IS TAKEN BY FLOOD

A section of the Wichita Falls & Southern Railway bridge between Graham and South Bend is washed away, according to reports reaching the city. The extent of the damage is not known at this time. The misfortune will cause a delay in the opening of train service to South Bend. The company had planned to reach South Bend within a few days.

The South Bend celebration will be postponed from June 17 and 18 to July 1 and 2, the washout causing the postponement.

HOUSEWARMING AT CAPITOL IS A BIG SUCCESS

The housewarming reception at the Capitol Hotel last night proved a big success. During the evening scores of Graham citizens made a tour of inspection of the new building and had the opportunity of seeing the city's latest and most modern hotel.

A dance was held in the dining room, refreshments being served by Mrs. Pancoast, owner and proprietor who during the evening received and made her guest feel at home.

The building contains fifty bed rooms, spacious dining room and lobby. It also contains a ladies' reception room, barber shop and a large office that will be occupied by the 500 Oil Syndicate. The roof of the building is expected to be cool spot where guests may enjoy themselves in the evenings.

All the guests last night took occasion to congratulate Mrs. Pancoast on the completion of the new hotel. The building is one of the most handsome in the city, being finished in white and trimmed with green. The lobby, hand painted in green and yellow, is pleasing to the eye. It is also comfortably furnished.

Mrs. Pancoast is a woman of wide experience in the hotel business. She recently spent several months in Europe studying the hotel systems of the continent. She has a wide acquaintance among traveling men and oil operators.

MAJESTIC THEATRE MOVES INTO NEW BUILDING TODAY

The Majestic Theatre opened this week in the Lauck & Gallagher building on the northwest corner of the square. The building was until recently occupied by the Strand theatre. A. J. Hansard will continue to manage the Majestic and in his new building constructed especially as a showhouse. He hopes to give better satisfaction than in the small building on the east side of the square.

The management promises only the best and cleanest shows. The Leader is authorized to state that the price of admission has been reduced to 10 and 35 cents and it is the purpose of Mr. Hansard to furnish good wholesome amusement and entertainment in the new and commodious building.

OPERATORS WARNED AGAINST AGREEMENT TO STOP DRILLING

Washington, June 8.—Oil operators of Texas and Arkansas can make no open agreement to curtail production without making themselves liable under the provisions of the Sherman anti-trust law, the Federal Trade Commission told a number of Oklahoma operators here today.

Because of over production and depression in the oil business the operators are here seeking means to temporarily decrease production, but all their efforts so far in Washington have been defeated.

Indian Commissioner Burke refused their request to prohibit drilling in the Osage nation, the trade commission warned them against making agreements, and the ways and means committee of the house has shown little favor of putting a tariff against oil importations.

RESOLUTION SAYS SOLDIER BONUS BEFORE FIGHT

Washington, June 8.—The prohibition of the Carpenter-Dempsey fight, scheduled for July 2, until Congress grants a bonus to those who fought in the World War, is provided in a resolution introduced in the House today by Galvian of Massachusetts.

WEST TEXAS IS DRENCHED WITH RAINS

Stamford, Texas, June 7.—General rains ranging from one and one-half to three inches have fallen in the last twelve hours throughout central West Texas. The fall here was two and one-half inches.

Heavy rains fell on the Spur ranch and the main lines of the Wichita Valley and Katy lines, in this section.

Throckmorton is reported to have two inches.

The fall at Abilene, Albany, Anson and Leuders was about the same as here.

This was by far the heaviest precipitation in this section this year. Water is reported running over the Katy tracks at tSamford.

Abilene, June 7.—The rainfall for May this year was 6.78 inches under the rainfall of 1920. The latter was the greatest precipitation for a May in the history of the local weather bureau with the exception of that month in 1908, when 8.38 inches fell. The precipitation last month was 1.48 inches; for May 1920 it was 8.26. The total precipitation for the year has now reached almost 6 inches, a great deal under that of last year.

Only light and heavy showers have fallen in portions of Central West Texas this year. Despite the fact that more rain is needed, crops are looking fairly well, though both cotton and sorghum grains are backward in growth, according to farmers.

Light showers fell over the Stamford sections during the last 48 hours. Spur reports two showers measuring .69 and .59 inches in the last ten days.

Sweetwater, June 7.—Sweetwater is probably better provided with precipitation this season than any other town in Central West Texas. While no heavy rains have fallen here this year, there have been from one to three moderate showers nearly every week. All crops are looking well. With a good rain in a short time, the yield of cotton and grain will be heavy.

In the Bronte and Tennyson sections the production of oats and wheat is reported to be much heavier than was at first expected.

Seymour, June 7.—A big rain rain covered the entire county last night heavy rains have fallen here this value to corn, feed and cotton crops. Harvesting has been stopped, but grain crops have as yet suffered no damage from the precipitation.

J. W. HARTSFIELD OF ELIASVILLE COMMITS SUICIDE

G. W. Hartsfield of Eliasville committed suicide Sunday. C. A. Russell, undertaker for John E. Morrison Company, was called to Eliasville to prepare the body for shipping to Lockhart.

The Leader is not in possession of the facts regarding the suicide but understands that despondency was the cause.

He belongs to a fine family, living at Lockhart, where the body will be shipped tomorrow.

TEACHERS TAKE EXAMINATIONS FOR CERTIFICATES

H. H. Avants, County Superintendent of Schools, assisted by the county board, is conducting the regular examination for teachers' certificates. The examination is being held in the Superintendent's office in the court house. The following applicants are taking the examination.

R. T. Groves, Graham.

Mrs. Esther Burney Groves, Graham.

Miss Eula Saye, Graham.

Miss Maude Rayburne, Olney.

Miss Cleo Caldwell, Bryson.

Miss Myrtle Burdick, Loving.

Miss Willie Hampton, Orth.

Miss Beulah Hamilton, Orth.

Miss Neata Bonds, Orth.

Miss Mattie Bonds, Orth.

100 LIVES LOST IN PUEBLO AS RESULT OF CLOUDBURST

Denver, June 4.—Hundreds are dead in Pueblo according to first word to reach the outside world from there. This message was brought to Colorado Springs by the Denver and Rio Grande station agent at Pueblo, who brought the story of the misery and suffering and plea for assistance. He declared the flood came with lightning suddenness when mountain streams flooded by cloud burst rushed down Pueblo streets. He said probably one hundred were caught in the rushing waters.

DEATH LIST GROWS AS WATERS GIVE UP MANY BODIES

Pueblo, Colorado, June 7.—The list of the known dead grew today as bodies were given up by the turbulent Arkansas river, while Pueblo, with thirty-five in the morgues, rapidly recovered from Friday's cloud burst. Murder was added to the city's trouble when E. E. Withers, a prominent citizen who owned the Iron and Fuel Plant which was wiped out by the flood, was killed while riding with his son in an automobile.

The little town of Baxter, six miles away, has reported a death toll comparable with Pueblo's. The Kendall family of nine persons perished and other farmers' families are reported missing. The bodies of Dr. E. R. Cary and John Still were cast up by the waters at Booneville, twenty miles down the stream, bearing out the fear that some bodies were carried far by the flood.

Denver, June 4.—Cloud bursts and torrential rains forced mountain streams over the banks and flooded several cities, causing great property and crop damage, according to seager reports.

Pueblo is under water with the most disastrous flood in its history, the reports state. The damage is estimated at \$4,000,000. Hundreds left their homes to seek safety.

Great fears are felt for Marshall as telephone lines have failed. It is reported that the irrigation dam is threatening to break and flood several towns. Several lives are believed to have been lost.

The wall of water swept Mrs. Carl Davis and her baby to death near Sterling.

Two children of William Grey were sucked from their father's arms when he attempted to rescue them from the Pueblo torrents.

Great fears are felt for hundreds of tourists camping in the mountains.

TRAGIC STORY OF FLOOD BATTLE TOLD BY SHERIFF

Colorado Springs, Colo., June 6.—Frank Ducray, sheriff of Mesa county, whose home is at Grand Junction, arrived here last night with one of the most thrilling and graphic of the survivors and rescue stories coming out of Pueblo. Sheriff Ducray was a passenger on Denver & Rio Grande train No. 3, which arrived in Pueblo Friday at 8 p. m.

The train, the sheriff said, was comfortably filled and he stated, as a guess, that it contained about 200 passengers. Just as the train pulled up to the bridge over the Arkansas River, leading into the union station, it was stopped, he said.

"We were left there. On the next track was a Missouri Pacific train," he related. "We had been there only a short time when we heard the roar of waters and the flood lapped at the coach steps and began rising. It was soon rushing through the car. Some of us went up and down in the car, quieting the passengers, many of whom were screaming, moaning and praying.

"A young girl was sitting in her seat, crying. I stopped to reassure and comfort her. She said she was from Chicago and sobbingly called out 'Daddy, Daddy.' She was on her way to the coast. I told her we would look after her and it cheered her. But—well, I saw her swept away as the water rushed into the coaches and carried us out through windows and doors.

"An aged woman sat in her seat, smiling, just before the water flooded in on us. She declared that if it were her time to go, she was prepared and kept on smiling. I reckon she died in her seat. I saw a young man sitting in an upper berth with his mother, consoling her. She was praying.

"In the water, we clung to the coaches of the train, which were swaying back and forth with the waves and striking the coaches of the Missouri Pacific train.

"On either side of us houses, barns and other buildings were swirling down. Many people were clinging to them. I saw two women on the top of the house. The floating structure struck the bridge and crumpled like an eggshell. I saw their white hands for a moment above the water.

"Morning came. The waters had been receding. Those of us who were left—about sixty—were able to reach the ground and walk around in water above our knees.

"Some of the unconscious women and children were left in the dark. It was a scene of devastation and death. It was awful.

"I cannot say what the loss of life might be. I know it must be more than 100, for at least that many persons, I am sure, were lost off the two trains."

TEN MILLION DOLLAR CORPORATION IN RECEIVER'S HANDS

Breckenridge, Texas, June 7.—The Montreal Oil Company, a ten million dollar corporation under the laws of Texas but composed largely of Canadian capital, is in the hands of William Little as receiver. Officials of the company declared the receivership will probably be lifted within sixty days. Bad luck in drilling promising properties is said to be the reason for the receivership.

THE TULSA RACE RIOT

No good citizen will seek to minimize in any degree the enormity of the race riot at Tulsa, Okla. It was an outrageous and disgraceful affair. Judged merely on the surface it is almost beyond belief that such a thing could happen in a civilized community.

However, it is very necessary that it should not be judged merely on the surface. It is time to face certain facts and to speak plainly about them. Violence of the furious and vehement character of the riot at Tulsa does not "just happen." Tinder must be lying about for the spark to ignite. To express amazement when tinder burns is to blind oneself to a permanent and inevitable characteristic of tinder.

Undoubtedly many innocent persons were killed and many others have been impoverished by this riot. But in their normal senses people do not go forth and kill innocent persons and destroy their property. And when persons ordinarily normal do participate to seek the cause of it. What was the underlying cause of the Tulsa riot? As much as any citizen white or black, may deplore the affair, it is necessary to ask and to answer that question.

The attempt at an unspeakable crime by a negro upon a white girl does not explain the whole of the affair. Such crimes stir white men to the very depths of their being, and properly so. It is the protective instinct of the race, which is primal and fundamental. As much as we may plead for the majesty of the law, and as much as we may recognize the paramount importance of upholding the supremacy of law, only by blinding ourselves to a permanent characteristic of Anglo-Saxon nature can we affect to be at a loss to understand the acts of men who feel impelled to put the negro committing such a crime to summary and violent death. The man who does not feel a depth of moral indignation in contemplating this unspeakable crime is not very much of a man. That some men should be lacking in self-control necessary to restrain themselves may be a matter of regret, but it is not surprising. But even this does not explain entirely the affair at Tulsa. There must have been something else.

An examination of the details of the incident will disclose that there was something else. Consider the circumstances. A negro bootblack attempted to assault a white elevator girl. He was promptly arrested and taken to jail. Thus far you have elements that might lead to a lynching. But the authorities were determined to protect the negro, and there is every reason to believe that in this case he would have been given an orderly trial. At this point, however, something happened which explains all that followed. A crowd of negroes marched to the courthouse according to the dispatches, apparently for the purpose of liberating the accused negro. A paragraph from the United Press dispatch relates what followed: "As the negroes, defiant and exuding bravado, gathered near the courthouse, the storm broke. A policeman attempted to disarm one of the negroes. The negro resisted, fired at the officer, who shot him dead. This was the signal for the riot."

But even yet that does not explain the riot. Why would a crowd of negroes gather around the courthouse in such circumstances? Anyone in his senses must have known before hand what such a demonstration would lead to. Why did these negroes make such a demonstration then?

The answer to that question not only explains this riot, but reveals a situation which threatens the peace of every community in the land where negroes and whites dwell together. To speak plainly those negroes were not in their right senses. They were inflamed by a violent propaganda against the whites which negro radicals in Chicago, New York and other points in the East have been carrying on since the armistice. Publications filled with denunciations of the white people of the South and with lurid descriptions of imaginary wrongs of the negro race have been spread throughout the South during the past two years and a half. The most extreme of them have

preached violence, if not openly, covertly and by innuendo. These professional agitators most of whom have found an easy way of making a living through this propaganda, have cared nothing for the consequences of their violent teachings. With reckless abandon they have used every possible method of inflaming the negroes in the South against the whites.

The Tulsa riot is a direct result of the sullen and ugly discontent which these Eastern propagandists have been planting in the breasts of Southern negroes. It is among the "first fruits" of their teachings. The homeless negroes of Tulsa who view the ruins of the results of their labor and who witnessed their relatives being killed in a furious riot, are the victims of this propaganda. That is the plain truth, and there is no sense in seeking to close our eyes to it.

And we must face the whole truth. This propaganda must be dealt with. It constitutes a problem of the South, which not only the white people but the best leaders of the negroes in the South must face. It is idle to discuss the right or wrong of such incidents as the Tulsa riot. The brutal fact must be faced that such riots are the inevitable result of this propaganda. The negroes of the South who are misled by it are its real victims. The negro is very irresponsible. These slick-tongued, well fed and flashily dressed agitators find easy prey among a large percentage of the negroes. They will now seize upon the Tulsa riot as new occasion for their ranting. And to the extent that the negroes are affected by it, to that extent the situation will become more difficult. The intelligent leaders of the negro race have no greater duty before them than to protect their people against this propaganda. It can do nothing but injure the Negro. The Tulsa riot was an outrage. But the real instigators of it were these agitators. To fail to recognize this would be to miss the solemn lesson which the whole ghastly business carries with it.—Fort Worth Star Telegram.

GERMAN BRUTE CONVICTED.

Cruelties deliberately inflicted on prisoners of war in German detention camps unquestionably caused the deaths of many Belgian, British and French soldiers, and those of a smaller number of Americans as well. Principles of humanity and the articles of war were ruthlessly violated by the Teutons in carrying into effect the Prussian theory of "positive warfare" which required the employment of every device by which war could be made more horrible to the enemy. It was not by any chance that brutalized of conscience and human sensibilities were appointed guards over prisoners taken on the battlefields. These men worked according as they were assigned to duty. There were no "good" prison camps in Germany simply because military policy was framed to create the utmost of terror to the enemy.

This was the basis for the Allied demand that those responsible for atrocities perpetrated on prisoners be punished. The design was to bring to justice the originators of the outrageous plans. The underlings who did the dirty work were in fact but instruments of the high command. It was hoped that the military authorities who decreed the brutality could be reached and punished as an example to others who might in future take the Prussian system as a model. This was in keeping with the policy of imposing exemplary penalties on the vanquished nation.

There is little satisfaction, then, in the conviction of Sergeant Heynen, who has been sentenced to 10 months imprisonment for his ill-treatment of British soldiers in a Westphalian camp. The sentence is pitifully inadequate. Yet as a beginning of the business of trying the German brutes it is not bad. We had expected less. And the next man on the list is a captain. Possibly the high court at Leipzig eventually will reach some offender of real rank whose conviction would constitute a condemnation of the military establishment.

This is hardly to be expected, but if the Germans desire to merit the confidence of their late enemies they will comply as fully as they can with the just demands made upon them for punishment. It is in paying for the war and for the atrocities they committed in prosecuting the assault upon Civilization that the Germans will come to a realization of the enormity of their crimes.

STAY ON THE FARM

The labor situation is still unsatisfactory and unemployment has continued to increase although there has been considerable re-employment in the largest manufacturing centers. For the first time in several years there is a great deal of unemployment in the farming districts and farm hands are drifting back to the cities because of inability to find work in the country.

The result is that the cities are crowded with idle men. It would be better for the men to remain on the farms even if wages are not as good as they want. It is expensive to live in the city and a man without employment soon spends his little savings. If he remained on the farms he could retain his savings and at the same time produce something to help relieve the conditions existing in the cities.

The harvest season is now on and many can find employment for a while. It is true that wages are not as high as last year. Living expenses have been reduced and as a consequence wages must be reduced. None of us want to draw reduced wages but the reduction is inevitable so we must accept it thereby doing our part to bring back normalcy.

DO YOU KNOW?

Do you know the young fellow who works for \$25 a week and who is wearing a new suit that cost \$85?

Do you know the wageearner who loafed because he is afraid if he does too much he'll work himself out of a job?

Do you know the housewife who is ashamed to be seen with a market basket on her arm or to carry home a brown paper bundle?

Do you know the manufacturer who, when the price of raw material and overhead goes up 5 per cent and the cost of labor advances an equal amount, adds 25 per cent to the price of his goods?

Do you know the factory girl working for \$18 a week who is buying and wearing a \$350 fur coat?

Do you know the man who lets a fresh clerk sneer him into buying a \$15 hat for fear he'll seem "cheap" when he can buy a satisfactory one for \$7?

Do you know the investor who has traded his Liberty Bonds for a promise of a hundred per cent profit in a stock company backed by a dishonest promoter?

Do you know the married couple who do not think enough of their children to buy War Savings Stamps for them and to teach them to save?

Do you know the shopper who says "Wrap it up" instead of "How Much?"

Do you know the person who lets the desire of the moment destroy the results of days and weeks of thrift saving?

Do you know the man who thinks it is not necessary to save?

Do you know the man who says that the government savings securities, Liberty Bonds, War Savings stamps and Treasury Savings Certificates are too slow or too small, or too old fashioned for his investments?

Do you know the man who keeps his money in his pocket instead of the bank?

IF YOU DO, YOU KNOW PRETTY WELL WHAT IS THE MATTER WITH THE UNITED STATES.

THE BOSS HAS HIS TROUBLES

It makes you feel good to have the boss come into the shop and say "good morning" in a bright, cheery fashion, doesn't it? It makes the day start well and you feel more kindly toward the boss and the fellows you're working with.

And somehow you expect this kind of a greeting from the boss—sometimes when he hasn't saluted you in the morning you have a grouch all day.

But did you ever stop to think the boss himself needs bracing up once in a while? He's up against as many hard things as you are. These trouble him just as much as your affairs trouble you.

The boss' troubles may not be just like your troubles, but you may set it down as a fact that he has troubles enough of his own. Suppose you give the boss a good jolly once in a while and be perfectly sincere about it, of course.

And you'll find the boss a very human sort of a fellow—not much different from yourself. The chances are it isn't so long ago that he was on the same kind of job that you are on. Brace up the boss. Try it out tomorrow morning.—Webster Method.

OLDHAM COUNTY WHEAT CROP PROSPECTS GOOD

Vega, Oldham Co., Texas, June 2.—Wheat crop prospects in Oldham county this year are regarded as 100 per cent perfect. The crop is practically matured, the recent rains having guaranteed an abundant production.

CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon Iose Boyce Scheffers, a transient person, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 30th Judicial District, but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 30th Judicial District to appear at the next regular term of the District Court of Young County, to be held at the court house thereof, in Graham, on the 1st Monday in September A. D. 1921, the same being the 5th day of September A. D. 1921, then and there to answer a petition filed in said Court on the 15th day of April A. D. 1921, in a suit numbered on the docket of said Court No. 6372, wherein, Jim Scheffers, is Plaintiff and Iose Boyce Scheffers, is Defendant, and said petition alleging that he is and has been for a period of twelve months prior to the filing of this petition and actual bonafide inhabitant of the State of Texas, and has resided in the said County of Young for at least six months preceding the filing of this suit; that on or about the 24th day of March A. D. 1919, in Brown county, Texas, Plaintiff was lawfully married to Defendant, then a single woman by the name of Iose Boyce; that they continued to live together as husband and wife until on or about the 15th day of July A. D. 1919, when by reason of the cruel and harsh treatment and improper conduct of Defendant toward Plaintiff, he was forced and compelled to abandon her since which time they have not lived together as husband and wife.

Plaintiff alleged that during the time he and Defendant lived together as aforesaid, he was kind and affectionate to her and always provided for her support and maintenance, but Defendant unmindful of the duties and obligations of her marital vows, left this Defendant in July 1919, and commenced a course of harsh, cruel and disgraceful conduct towards Plaintiff and disgraceful conduct in that she commenced keeping company with other men and commenced a course of prostitution and was guilty of infidelity towards Plaintiff; that this conduct continued and Plaintiff has been on account of said conduct forced to abandon Defendant as his wife; that said marital relations between Plaintiff and Defendant still exist.

That Defendant be cited to appear and answer herein and for judgment dissolving said marriage relations, for costs of suit, and for such other and further relief, special and general, in law and in equity, that he may be justly entitled to, etc.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, Willie Riggs, Clerk of the District Court of Young County.

40-43 WILLIE RIGGS, Clerk District Court, Young County, Texas.

SHELAND PONY STRAYED

A red and white Shetland pony mare, nine years old, wearing a leather halter, strayed from Graham the first week in March. When last heard from she was between Newcastle and old True. Any information regarding her whereabouts will be gladly received by MRS. WIDMAYER, Graham, Texas, Ind. Phone 130. 40

STATE OF TEXAS County of Young

By virtue of an execution issued out of the honorable Justice Court, Precinct No. 1, Young County, Texas, on the 24th day of May, 1921, by the Justice of the Peace in the case of J. P. Meroney vs. Harry Sanders, No. 2000 and to use as constable, directed and delivered, I will proceed to sell on the 13th day of June, 1921, at the Courthouse in Graham, Young County, Texas, the following described property, to-wit:

One Ford Roadster, box bed on rear, engine No. 3 S. 794, License 355105.

Levied on as the property of Harry Sanders to satisfy a judgment amounting to \$50.00 in favor of J. P. Meroney, and costs of suit.

Given under my hand, this 1 day of June, 1921.

J. D. DAWSON, Constable Precinct No. 1, Young Co., Texas.

U. OF T. BUILDING CONSUMED BY FIRE; ESTIMATE BIG LOSS

Austin, June 2.—Fire of undetermined origin last night destroyed the zoological laboratory of the University of Texas and for a time threatened the main building and dormitory in which 125 students were sleeping. The loss is estimated at several thousand dollars.

WOULD FORBID BEER BY DOCTORS TO SICK

Washington, June 1.—The House Judiciary Committee agreed today to report out the Volstead bill, which would prohibit sale of beer on physicians' prescriptions for use by the sick.

As approved, the bill also would make the Volstead enforcement act apply to Hawaii and the Virgin Islands but not to the Philippines. Other provisions included a tightening-up clause to prohibit importation of liquors until the present stock held by under Government supervision has been exhausted. Chairman Volstead was directed to endeavor to have it called for passage by the House immediately.

POSTMASTERS OF 4th CLASS WOULD GET ALLOWANCES

Washington, June 1.—Representative Parrish of Texas introduced a bill in the house today to make allowances for fourth-class postmasters for rent, heat and light. Where salaries run from \$120 to \$150 a quarter Parrish's bill would allow 10 per cent and where the salaries are above \$150 a quarter, 15 per cent for fuel rent and lights.

MISS CRADDOCK WINS FIRST PRIZE IN HEALTH CONTEST

Austin, Texas, June 2.—The Texas Public Health Association announces that Miss Nina Craddock of the North Texas State Normal College, Denton, Texas, won the State prize, of \$25.00 in the Third Annual H. A. Wroe Essay Contest. The last State prize was won by a student at the San Marcos Normal. Miss Craddock's success this year makes her the second winner of the State prize from the Normal at Denton.

The subject for the essays this year was "Facts About Health That Texas School Children Should Know." The object of these contests is to stimulate interest in health work among the students, so that when they become teachers they will carry on the educational work necessary for the prevention of disease.

This contest was held in the following Normals: West Texas State Normal College, Canyon, East Texas State Normal College, Commerce, Sul Ross Normal College, Alpine, Southwest Texas State Normal College, San Marcos, North Texas State Normal College, Denton, and Sam Houston State Normal Institute, Huntsville.

At each of the above Normals a committee was chosen to judge the essays and select the best essays for the first prize of \$15.00 and the second prize of \$10.00.

The judges who selected the essays which received the State prize were Mrs. S. M. N. Marrs, president of the Texas Congress of Mothers and Parent-Teachers' Associations; Dr. Z. T. Scott, president of the Texas Public Health Association; and Miss Louise Hunter, executive secretary of the Fort Worth and Tarrant County Tuberculosis Association.

Emerich & Danciger Get 1,000 Barrel Well

Drilled nine feet into the sand at 2,540 feet, the No. 4 Graham 35 acres of Emerich & Danciger in the South Bend pool, was flowing with 1,000 barrels per day flush production, according to Wednesday field reports. This is the first completion at this depth in this part of the pool. The lease lies between the Shamrock and Godley lease, bordering on the Clear Fork.

Wednesday was practically without development in the new Archer county pool. Setting of casing was completed in the McGregor test on the Taylor, and it is expected that the test will be bailed Friday.

WEALTHY DALLAS YOUTH SENTENCED IN MANN ACT CASE

Dallas, June 1.—R. L. Slaughter, Jr., was sentenced to serve thirty days in the county jail and pay a fine of \$500 Wednesday afternoon by Judge James C. Wilson in the Federal Court after he had pleaded guilty to violation of the Mann white slave act.

Young Slaughter is the grandson of the late Colonel C. C. Slaughter, and heir to a part of the Slaughter millions. The sentence imposed is Slaughter's penalty for a romantic love affair with Miss Reita Jaichman, said to be the daughter of a wealthy Philadelphia family. She toured Europe as Slaughter's companion, and on their return to New York he brought her to Dallas with him. Here, the glamour of romance faded, it is said, and Slaughter tried to break off with the girl. She took her case to secret service operatives, and the grand jury indictment against Slaughter followed.

SPEND YOUR VACATION IN TEXAS

By Col. Frank P. Holland (Note: Col. Frank P. Holland knows every nook and corner on the American continent, and he knows Texas as few men do. His publications, Holland's Magazine and Farm and Ranch, have been vital factors in the development of Texas and the Southwest for forty years—Editor.) Climate and water are two things that can be sold year after year without diminishing the supply, as has been demonstrated by our Pacific Coast States. When a person gets ready for a vacation, he fills his pockets with Travelers Checks and goes seeking climate and water, and frequently comes back disappointed that he found neither to his liking.

Texas has both climate and water, and if the Texan wants a real vacation without disappointments, it is not necessary for him to run away to another part of the world. He can pick his spot in Texas and have the vacation he wants; if he goes to another State, he is very likely to be disappointed, for I can say that climate which often has been sold to me has not in many instances been as good as that which I left in Dallas.

In California I have seen the temperature often go from one extreme to the other—as high as 110 in the daytime and so cold at night an overcoat was needed. Down on the lower coast of Texas the mean temperature ranges around 70 and the nights are so pleasant that you can sit outdoors in your shirt sleeves. There are places in Texas where the temperature runs at 120 and others where you can see snow in the middle of the summer.

The entire Gulf Coast offers unusual opportunities for enjoyable year-round vacations, with bathing, fishing, boating and all sorts of outdoor sports. One of the most enjoyable vacation trips that could be made, is by boat from the mouth of the Sabine to the mouth of the Rio Grande, along the coast with a protecting island between you and the sea, and innumerable small ports where you can put in for a day or two. Some day when Texas people learn as much about selling climate as they know in California, I expect to see people from all over North America enjoying this trip.

In taking a vacation for health, no place in the world can surpass Mineral Wells, Marlin, Fort Davis, and many other Texas resorts that might be named.

If one enjoys fishing—and I do as much as anything in the world—Texas is literally covered with good lakes and rivers where all kinds of fish abound, and the Gulf is the greatest sport fishing ground in the world.

For rugged mountains, go to Southwest Texas and there is scenery as beautiful as any in Colorado, with plenty of places to fish and camp and excellent hotel accommodation at convenient towns.

Texas offers every variety of scenery to be found in other parts of the United States, and more varieties than can be found in any ten other States. Texas offers a variety of climate, with cooling breezes all the time and uniform temperatures with no system shocking extremes—something you seldom find elsewhere.

Regardless of the vacation you want, you can find it in Texas, with more days to play, out of the total time, since you will spend less time on the road, and the cost will be much less.

Very few Texans know Texas, and it is to their eternal shame that they run off thousands of miles, leaving behind far better vacation grounds than they'll find elsewhere.

See Texas first; spend your vacation in Texas this year.

FORDSON TRACTOR DEMONSTRATED ON THE RAGLAND FARM

Several hundred people were present at the barbecue and power farming demonstration given by the LeSage Motor Company today on the Ragland farm, about two miles and a half north of Graham.

Although the demonstration was just getting started at noon, one Fordson tractor had been sold. Four special demonstrators were busy today showing the farmers those things which can be accomplished with the Fordson tractor. In explaining the use of a tractor, the special Fordson bulletin says:

"We creep before we walk, and we walk before we run!"

"Where the value of machinery in labor-saving, in profit making, in usefulness, in comforts and luxuries, has, in the past, been largely confined to the towns and cities, it is now open to the farmer, who is, beyond all question, the very 'bone and sinew' of civilization. Civilization grows upon the land; it cannot live under the water, therefore the land is father and mother and sustainer, to the human race, and they who the land, who plow, sow, reap are surely the essentials in human existence. Therefore, Machine Power on the farm is of the utmost importance especially to those 'who till the soil.'"

"Hitherto, man has woven the power of his own muscles with those of the ox, mule, and horse, in the development of agriculture. Practical machinery for farming has come to him slowly, but profitably, and now, after all these years, he has at his command the crowning force of machine power on the farm in the tractor and we believe that in the Fordson tractor he has the very best of machine power for his particular uses to the end of less labor, larger production and more profit.

"For thirty-five years Henry Ford, a Farmer's Boy, has been working on the problem of a successful tractor for the farm, and, for the past fourteen years, has devoted much time, and a vast amount of money, to the development of the present Fordson tractor.

FARMERS

Farmers support the foundation of industry.

We could not expect to be a nation of our present standing without their support.

The products of the farmer cannot be placed on the present markets for a cash consideration. He has obligations, secured by his crops, stock, and working implements. He has paid high prices for labor. He must take a loss in selling. His warehouse facilities are too small to store the grain and cotton.

The foreign countries are asking for vast credits in purchasing raw products. Our financial institutions as well as our merchants, will have to extend credit to encourage our farmers. In return, he is under obligations to himself as well as his creditors to keep records of his properties, the cost of maintaining them, and the cost of maintaining them, and the cost of his crops, which will enable him to secure credit and make an intelligent income tax return to the government.

T. P. COMPANY HAS 3,000 BARREL WELL ON THEIR NEWELL

Eliasville, June 2.—The T. P. Coal & Oil Company's No. 2 Newell is reported good for over 3,000 barrels after being drilled five feet into the sand at 3,300 feet.

The same company's Newell No. 6 has a rig up and No. 7 is a location.

The Mid-Kansas A. C. 3 No. 1 has spudded in.

The Mid-Kansas A. C. 2 No. 1 rig is up.

The Glascock Company's No. 1 Cunningham has spudded in.

The H. B. and F. Oil Company are now 200 feet deep on their river bed test, one and a half miles northeast of Eliasville.

ELECTRA IS COMPLETING \$80,000 SCHOOL BUILDING

Electra, Texas, June 3.—The concrete foundation for Electra's new \$80,000 ward school building is being rushed to completion in order that it may be ready for use by October 1. The new ward school building is located on South Main street, in the Southland addition to Electra.

CONTRACTORS GIVE NOTICE THAT WAGES ARE TO BE LOWER

The daily press is carrying notices from various quarters of a material reduction in wages.

Recently the contractors in Texarkana issued notice to the various trades of the building trade that they would put a wage reduction in force, effective June 13, the notice being signed by nine leading contracting firms.

The scale, the contractors announce, would mean a cut of \$2 per day for bricklayers, plasterers and cement finishers and \$1 per day for carpenters and painters. The price fixed for common labor is 28 cents an hour. The bricklayers recently made a voluntary cut of \$2 per day in wages and the painters made a cut of \$1.

In Graham we need a rent reduction and before there can be much reduction in wages there must be a reduction in rent. A man can not pay from 50 to 100 dollars a month for a house in which to live and work for wages paid in some towns where rent is from 10 to 25 dollars for the same houses while rent from 50 to 100 dollars in Graham.

People are moving away from Graham daily because they cannot pay the high rents.

Mrs. W. S. McJimsey is visiting her daughter, Mrs. G. L. Nowlin in Fort Worth.

GRAHAM CHAUTAUQUA BEGINS JUNE 18.

Graham's 1921 Chautauqua begins on the 18th of this month and will continue through five days, and will be held under a big tent centrally located in the town. The program is furnished by White & Myers, famous chautauquans, and they assure us it will be the best series of programs they ever had. Local men are behind the chautauqua, sponsored by the local women's club, the Chautauqua Literary & Scientific Circle, with a good guarantee, and we certainly hope to see it well patronized, and feel certain that it will be. Let us urge, however, that people procure season tickets, and get them early, as the season ticket is the only thing that is of much help to the local guarantors.

A big New York production, with a New York cast of players, "Friendly Enemies," and Quintano and his band, are probably the feature numbers of the program this year. A big band, and an exceptionally clever one, and a fine play. Quintano's band was a stellar attraction at the Dallas Fair a few years ago. Come out and help put the chautauqua over.

There is a sentiment among the people of Graham for a bigger and better attraction than ever before. Now we have it. Let's make it go!

Following is the complete program, and, although we cannot give it deserved comment, you see what we will have and can get descriptive literature concerning the talent from the regular program which will soon be delivered to you:

- Afternoon—First Day. "The Comedy Male Quartet."—Music and Fun.
- Night—First Day. "The Comedy Male Quartet" and Henry Clark, Lecture—"Play."
- Afternoon—Second Day. The Gypsy Serenaders—"Music of the far away Countries."
- Night—Second Day. The Gypsy Serenaders and Clyde Wilson McCord, Lecture—"Modern Jekylls."
- Afternoon—Third Day. Frank G. Armstrong—"Fun Maker"
- Night—Third Day. "Friendly Enemies," New York Play and Cast.
- Afternoon—Fourth Day. Howard Russell's Scottish Review.
- Night—Fourth Day. Cyrus S. Nesbaum, Lecture—"The Real Community."
- Fifth Day—Afternoon and Night. Quintano and his Band, direct from New York.

CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to summon Ida Swinea Hagood, whose residence and whereabouts are unknown to Plaintiff, by making publication of this Citation once in each week for four consecutive weeks to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Young County to be held at the Court House thereof, in Graham, on the First Monday in September, A. D. 1921, the same being the 5th day of September, A. D. 1921, to answer a petition filed in said Court on the 9th day of May A. D. 1921, in a suit numbered on the docket of said Court No. 620, wherein Martin Luther Hagood is Plaintiff, and Ida Swinea Hagood is Defendant, and said petition alleging that Plaintiff and Defendant were lawfully married in Athens, Alabama, on or about the 2nd day of February, 1919, and continued to live together till about the 7th day of March when by reason of the cruel treatment he was forced and compelled to permanently abandon her. That Plaintiff was at all times during their marriage kind and affectionate, and provided for her support and maintenance, but the Defendant about one month prior to their separation, began a course of harsh, unkind and tyrannical treatment; often cursing and abusing Plaintiff and applied to him the vilest and most opprobrious epithets without any cause or provocation.

SOUTH BEND TO CELEBRATE ON JUNE 17 AND 18

There will be big times at South Bend on June 17 and 18 in celebration of the completion of the Wichita Falls & Southern railroad into that city.

The South Bend Chamber of Commerce had a rousing meeting last night and formulated plans for the reception.

An excursion will be run over the Wichita Falls & Southern from Wichita Falls and over the Rock Island from Fort Worth. The trains will arrive at noon Friday and depart Saturday, the next day. The program for the first day includes: Arrival of special train at 12:30 p. m.; auto parade from depot and welcoming address on Main street; visit to the oil field and other points of interest; baseball game; entertainment and addresses by prominent speakers.

Second day's program: Cow pony race for purse; big barbecue at noon; ball game; boxing contest; a boxing contest and boating and fishing.

The two days are expected to be the biggest days in the history of South Bend and elaborate preparations are being made for the entertainment of the guests. The town expects to entertain at least 10,000 people, it is said.

NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS THE STATE OF TEXAS COUNTY OF YOUNG

By virtue of an Execution and Fee Bill issued out of the Honorable Justice Court of Precinct one Court of Young County, on the 26th day of May, 1921, by the Clerk thereof, in the case of George Steadman vs. A. C. Page Oil Well Supply Co. No. 1880, and to me, as Sheriff directed and delivered, I will proceed to sell, within the hours prescribed by law for Sheriff's Sale on the first Tuesday in June A. D. 1921, it being the 7th day of said month, before the Court house door of said Young County, in the City of Graham, the following described property, to-wit:

Two Four Wheel Steel Blocks for Standard Oil Derrick levied on as the property of A. C. Page Oil Well Supply Co., to satisfy a judgment amounting to \$30.09 in favor of Geo. Steadman and costs of suit.

Given under my hand, this 12th day of May, 1921.

JOHN W. SAYE
Sheriff, in and for Young County, Texas. (37-40)

LIVE WIRE ENDS LIFE OF BOY IN QUEST OF NEST

Vernon, June 1.—Johnnie Ruark, 10-year old son of Mr. and Mrs. S. P. Ruark, living just west of Vernon, was killed Saturday forenoon when he grasped a live electric wire, the insulation of which had worn off.

The boy climbed a tree to find a bird nest and evidently seized the wire to aid him in his quest. The little finger of his left hand was burned off to the second joint and he also received severe burns on his lower limbs.

The boy remained in the tree until 6 o'clock in the evening, when the body was found by his father. It was suspended in a fork of the branches. Burial was in Eastview Sunday afternoon.

NEGRO PREACHER DESIRES FUNDS FOR NEW CHURCH

The pastor of the negro Methodist church in Graham has the "stickability" to succeed. Soon after the negroes were permitted to come to Graham J. E. Smith, a negro Methodist preacher felt that his people needed a church building and set himself to the task of raising funds with which to build it. He has worked faithfully at his task. He is now making a house to house canvass for funds. The building is now under construction and if funds can be collected the negroes will soon have a place in which to worship.

IMPORTANT NOTICE

Oak Grove Cemetery

There is some vacant space in the Oak Grove Cemetery that will not be used by the friends and relatives of those whose graves adjoin. In order not to work a hardship upon any one or to deprive any one of space, who can show a real need for it, the Cemetery Committee will meet at the Oak Grove Cemetery at 9:00 a. m., on the second Saturday in June (the 11th), to designate vacant lots.

If you are using only a part of a lot and desire to hold the entire lot, please meet the Committee at the time and place above indicated and show cause.

E. S. GRAHAM
Chairman, Oak Grove Cemetery Committee.

CLARENCE B. JONES BEGINS RESIDENCE ON ELM STREET

It was stated in the columns of the Daily Leader some time ago that C. B. Jones had sold his residence on South Elm street and that it would be moved off to give place for a new residence. Before beginning the erection of the new residence he sold the north half of his large lot

to R. L. Morrison, who is erecting a handsome two-story residence on same.

Mr. Jones this week began work on a modern bungalow on the south half of the lot. We have not seen the plans of his house but understand that he will build a six or seven room bungalow, modern in every respect.

Several new residences are under construction in Graham now and while we feel to some extent the effect of "tight" money, conditions here are much better than at other places.

SHERIFF'S SALE

THE STATE OF TEXAS County of Young

SHERIFF SAYE AND DEPUTIES GIVE MAN THRILLING CHASE

The sheriff's department had a thrilling adventure about 2 o'clock Sunday morning when it recovered a Hudson Speedster from a man who had stolen it at Breckenridge.

Sheriff Saye received a telephone call from the sheriff at Breckenridge about 1:30 o'clock Sunday morning asking him to get in touch with deputy at South Bend and have him arrest the man headed this way with the Hudson speedster, and gave a detailed description of it. The South Bend deputy had just left Graham for South Bend and there was no way for Sheriff Saye to communicate with the South Bend office.

Sheriff Saye and Deputies Black and Steele at once went to Salt creek bridge just west of Graham and waited for the man and the car.

The sheriff and deputies had two cars with them and parked them on this side of the bridge just far enough apart for a car to pass between them, then the three men crossed the bridge and about two o'clock the man approached. Sheriff Saye stepped in front of the car and ordered the man to stop but instead of stopping he fed more gas-

line and made an effort to run the sheriff down. Sheriff Saye drew his gun and fired at the man and hit the windshield directly in front of the man. The car was turned toward Sheriff Saye as he dodged the car and it came very near missing the bridge. The man struck the bridge twice in crossing.

The sheriff and his deputies fired 15 shots and the man fired 6 or 8. The car being on the high embankment made it difficult for the officers to know how to shoot in the darkness.

The fleeing man sped across the bridge and in trying to hurry between the cars on this side locked wheels with Steele's car. Before the officers could get across the bridge the man had abandoned the car and fled through the woods. The officers took charge of the car and today it is in the Buick Service Station where it has been viewed by many curious observers. The broken windshield, the holes in the top and the dents on the car prove that bullets were flying.

THE CIVIC LEAGUE WILL NOT DISBAND DURING SUMMER

The ladies of the Civic League had an interesting and enjoyable meeting at the park last Wednesday afternoon. One special feature of the entertainment was the music furnished by the negro string band. It was novel and unique and greatly enjoyed by the ladies.

The members of the League decided at the meeting to add new amusements at the park, such as croquet, tennis, etc. It was also decided to construct a band stand for concerts. The ladies are to be congratulated on their progressive spirit. They have done wonderful things for Graham and if they could get the co-operation they so richly deserve they would, make Graham a much more desirable place in which to live.

Shawnee Park is a place of beauty made so by the untiring efforts of the ladies of the Civic League.

Some seem to have gotten the idea that the League would disband during the summer but this is a mistake. The ladies feel that they must be about their work. They will meet the first Wednesday in July at the park and desire a full meeting.

All ladies please take notice that the club will not disband but will be on the job all summer making Graham a better and more beautiful place in which to live.

RECENT RAINS DELAY WORK ON NEW BUILDINGS

The recent rains have delayed work on the construction of buildings in Graham. These rains were badly needed and no doubt as far as the public good is concerned, will offset the loss sustained by the delay in building.

With favorable weather the new Methodist church building will soon begin to assume form. Excavation work is under way for the new jail and the contractor hopes to push the work on this building.

C. B. Jones is putting in the foundation for his new residence on Elm street.

R. L. Morrison will soon have a new brick home on Elm street.

Several other residences are under construction in the city.

ABILENE WILL BUILD RESERVOIR COSTING \$350,000

Abilene, June 6.—The total cost of constructing Lake Abilene, this city's 5,000,000-gallon lake in the Buffalo Gap mountains, will be around \$350,000. About \$200,000 has already been expended and the dam is practically completed with the exception of riprapping, which is now being done at a cost of approximately \$45,000. The entire lake project should be completed in the next two months.

An additional \$320,000 will be spent for laying of a large pipe line from the lake to the city, a distance of about 10 miles. The bonds for the remainder of the project have been voted but not disposed of. The city recently figured on purchasing some pipe from the government, but has not closed a deal. Efforts to interest the officials in wooden pipe failed, because it was represented that this sort of conduit was not substantial, serviceable and durable.

As it is, Abilene will have its lake completed shortly, but without a connection with the city. The idea that the city might be able to utilize the water now stowing up in this lake by letting it out into the bed of Elm creek to flow to the city limits pending the building of the pipe line has been scouted by engineers and others. It is pointed out that the dry bed of Elm creek would absorb the water a long way before it reached the city.

The city is getting short of water. Lake Lytle which has been Abilene's mainstay for years, has grown exorbitantly inadequate for the needs. It is very low at present reports.

STEPHENS COUNTY PRISONERS PLAN JAIL DELIVERY

Breckenridge, Texas, June 7.—A jail delivery was frustrated by a telegraph warning here yesterday. A former prisoner of the Stephens county jail, who was being taken under guard to east Texas to answer a robbery charge, told the conducting officer that a jail break was planned. The deputy at once wired the sheriff here. The men were searched and eight steel-cutting saws were found. The bars in the cell windows had been sawed practically through and the marks were hidden by soap and blaskened with dirt.

CHAS. M. SCHWABB REPORTS STEEL INDUSTRY BAD

South Bnd, Ind., June 7.—The steel industry is in the worst depression in forty years, Charles M. Schwabb declared here today. Only ten million tons are being produced annually while the mills should be turning out over forty million tons, he said.

TWO WHITE PEOPLE RECEIVE WOUNDS FOR NOT OBEYING

Tulsa Oklahoma, June 6.—Two white persons suffered wounds as an indirect result of last week's riots when guards last night fired on an automobile when their commands to halt was not obeyed. R. L. Osbourne was severely wounded and his sister, Mrs. Paul Varner, was hurt by broken glass.

"We only bought Rat Poison" writes Jesse Smith, N. J. "I have the first kind away, couldn't be bothered with the rest, cheap. Then I tried Rat-Soap. It's the stuff!
