GRAHAM, TEXAS, FRIDAY, NOVEMBER 20, 1914.

Bryson Hallowe'en Frolic.

On the evening of Saturday, Oct. 31, members of the N. T. S. Club assembled at 7 o'clock in the home of H. C. Shanafelt, preparatory to receiving their husbands for a Hallowe'en frolic. The house was beautifully decorated with green vines, flowers, cats, bats etc., and dimly lighted with the fascinating jack-o-lanterns in every room. At 8 o'clock the gentlemen came in a body, at the front door they were met by a ghost, who directed them to the back door, where they found a rope, which lead back through several rooms to the stairway. Ghosts were stationed all through the house to point the way, and as the gentlemen passed through a mighty noise of ringing bells, groaning and shrieking was heard. They passed up stairs where four witches bewitched them into becoming ghosts, at the same time assuming the "witches' oath." Then all formed in line for two wonderful marches, after which Messrs. G. L. Jones and H. C. Shanafelt guessed who was who. Masks were removed as each was identified. Fortunes were told from the "old mysterious pot" by two witches.

A delicious two course supper was served. Speeches from the gentlemen and responses from the ladies followed. Those present were Mr. and Mrs. H. C. Shanafelt, Worth Shanafelt, C. P. Clayton, Joe Clayton, C. B. Jones, T. T. Stuart, Mrs. E. Hughes, Bailey, Jackson and Mr. Earl Bailey.

A Bryson Party.

The 6th of November His High Potentate sent invitations to the members of the N. T. S. Club to be in readiness for a grand surprise.

As the sun sank low, all were gathered in automobiles and sped along the road to Graham. Imagine the amazement of the weaker sex, when ushered into a cafe to see four tables in snowy linen and places for twenty-one.

Never did fish, oysters and dainties taste better, while gay repartee kept their faces bright and hearts glad. Next they wended their way to the carnival to see the charcoal artists perform stunts. The mercy-go-round proved too much for some of the party and they vied with the youths in their laughter. Then came the exhilarating ride home, feeling twenty years younger from the evening's pleasure.

The gallant husbands, brothers and sons of the N. T. S. will long be remembered.

Mrs. Edgar McLendon was hostess for the C. L. S. C. Wednesday afternoon. The rooms were decorated with banks of chrysanthemums, very tastefully arranged. Roll call was answered with "Household Hints." Mrs. Hudson conducted the Round Table talk. Mrs. W. C. Burns had a paper from the book "You and Your Child" on Children's Friendships. Mrs. Jean McKinney was unanimously elected a member of the Club. Mrs. B. B. Garrett was director of the program. The next meeting will be with Mrs. F. F. Parrish.

Revs. B. A. Snoddy and J. H. Bowman returned last Tuesday night from a conference of the Methodist church at Hillsboro. Bro. Bowman was returned to this charge for another year and we are glad to have him and his family remain with us.

Mrs. Umberson of the Monument community was shopping in the city Saturday.

Presbyterians Entertained.

Last Thursday afternoon at 3 o'clock, at the home of Mrs. C. S. Wynns, the Presbyterian Ladies Aid and Missionary Society enjoyed their quarterly opening meeting, with many other members of the congregation. The hostesses on this occasion to assist Mrs. Wynns were Mesdames Tom and Walter Price and Mrs. John Pohlman. Flowers were used as the special feature in the entertaining of the guests.

The first amusement offered was in drawing outlines of the flowers, the name of the blossom to be sketched having previously been distributed. This evoked much labor from the art novice, but after several moments spent in elaborate preparation the result was such that Mrs. G. B. Hall succeeded in recognizing the greatest number of flowers and was awarded three beautiful roses. These specimens were all drawn with the left hand. Dismembered portions of a paper doll's anatomy were then distributed and the test was in placing the misfit portions together in order to form some creation, often comical or grotesque. Miss Mayzelle Morrison gave a delightful reading in dialect, "Jimmy's Goodnight Story." Mrs. A. A. Morrison rendered a very beautiful piano number, "Evening Song." Mrs. R. A. Duncan sang the sweet lyric of Riley's, "There's Ever a Song Somewhere, My Dear." At the conclusion of the hour, delicious caramel cream and white cake were served. These quarterly socials are marked by the free-will offering of the society, which was observed generously at this time.

Class Shower.

The "Buds of Promise" of the First Baptist Church surprised their teacher, Mrs. Hatje Miller, with a handkerchief shower Tuesday afternoon.

Many pretty handkerchiefs and a dainty coin purse were left as a token of the love and esteem in which Mrs. Miller is held by her class of girls.

She is resigning as teacher of the class to accept the presidency of the Baptist Ladies' Missionary Society.

Revs. W. D. Boswell and G. W. Black, D. D. Cusenbary, T. O. Calvin, and Mr. and Mrs. W. F. Babb left Tuesday for Abilene to attend the Baptist State Convention. Mrs. Babb represents the Baptist Ladies' Missionary Society of Graham. They will be gone for several days.

Mrs. S. E. Hunter and daughters, Ruth and Willie, leave today for McKinney, Texas, to be at the bedside of Mrs. Hunter's sister, Mrs. W. H. Tomlinson.

The above lists of pupils were handed me by the teachers of the respective grades. The

teachers have been careful in preparing the lists but if any mistakes have been made we shall be glad to correct them. The pupils named above have been present since the opening of the school, September 7.

Several others, who have entered since school opened, have been neither tardy nor absent since they entered. We shall probably prepare another list later giving the names of all who have been present all the time since entering. The above lists contain only names of those who have been present for the full quarter of nine weeks.

We are anxious to have the pupils punctual in attendance and shall appreciate the efforts of the parents to assist us in having the least number of tardies and absences possible.

INDIAN MOUND

John Jenkins from above Jean ate dinner Saturday at the home of W. R. Dollins.

H. H. Stephens and son, Elmer, went to Graham Saturday and brought back a cow and calf. I guess H. H. is going in the dairy business.

Miss Brunette, thank you for the invitation to help eat the shoot. We will sure come if it is so we can.

Tempest and sunshine, we are glad to have you back with us, and we feel sorry for Arthur Sanders having to walk home Sunday evening.

Uno says, "Say Kid, that man you spoke of was looking for a sucker and I bet he found one, too." I bet he found one too, but I didn't think of you being found until I read your letter.

Mountain Boomer, I guess R. G. and Bob Taylor are related, but I don't guess you could get either one of them to own it in a big crowd. Did you expect me to tell you through the paper who that business man was? You said you neither had cotton to sell or buy, neither has he, so far as I know. He was not condemning the buy a bale movement. He only wanted to know why Boomer had not laid a good example for us to follow by buying himself a bale, then we could all believe he practiced what he preached.

Whenever you buy, you can do like a firm at Newcastle, set it inside of the front door and tag it this way, "We have bought a bale at 10c, have you? If not, get busy." Boomer, I don't claim to be extra good at guessing but I believe I know who you are. Didn't I know you before you came to Young county?

Sunday morning a man and lady passed here with one of Buster's "big sandy's" in a hack going west at a rapid gate.

Wheat is doing fine since our last rain, but I guess this northern will check it for a few days.

Our school will begin next Monday with Miss Zella Owen as teacher. I think she lives

near Antelope, Texas. I am not sure that I am right, but think I am.

W. P. Fisher went to Newcastle with cotton Wednesday. Mr. Fisher has R. G. Taylor and children and Judson Taylor from Broken Bow, Oklahoma and Lloyd Hightower picking for him.

W. W. Hoggard made a business trip to Newcastle Friday.

Bob Taylor and boys were getting wood Friday, what time they wasn't catching jack rabbits.

Miss Lona Dollins and little brother were visiting neighbors here Friday afternoon.

Mrs. J. W. Douglass visited Mrs. W. R. Dollins Friday afternoon.

R. G. Taylor went to Graham Saturday after a load of hulls and meal. He was accompanied by Hilliard and Judson Taylor.

There is some talk of having Thanksgiving services at Indian Mound. It will be decided next Sunday morning at Sunday school. It should have been attended to today (Sunday) but as the crowd was rather small it was passed over till next Sunday.

I wonder how many of the Correspondents would come if we do have Thanksgiving services. I believe I'll give them all an invitation and see. I am sure X. Y. Z. would come if Miss Jolly Girl would come too, and I guess she would, as the Prof. is up above here and she might get to see him.

Mr. Editor, if you have any young men that owe you for their subscription for The Reporter and won't pay you, I believe I have a sure recipe which I am sending you. It is copied from Western Carolina Times, Hendersonville, N. C. A Missouri editor threatened to publish the name of a certain young man who was seen with the head of a girl on his shoulder unless his subscription to the paper was paid in a week. Twenty-seven young men called and paid up, while three wrote the editor to withhold publication till they could come to town and pay for his valuable paper.

We have a good, easy editor but boys if you owe him anything you had better get busy and pay him because he might turn like the Missouri editor, "arter his patience give out a waitin' for his money."

Misses Minnie Fisher, Ivey and Jean Bryan took dinner last Sunday with Miss Lou Grubbs.

Floyd McComas was here Monday morning.

Mr. and Mrs. Stephens took dinner Sunday with A. Bird and family.

W. P. Fisher was in Graham with cotton Saturday.

Virgil Douglass was in Graham with cotton Saturday.

Chas. Dollins came down to his mother's Monday.

Henry Dollins was in Newcastle with cotton Saturday.

F. E. Borchardt was in Newcastle with cotton Saturday.

Some of the neighbors met at the school house Tuesday morning and did some repairing.

The young folks enjoyed a singing at the home of G. W. McComas Sunday afternoon.

Mrs. McComas and son, John, were in Graham Saturday.

Kid.

Finis Burnett, with some of our road men, are at work on the South Bend road, and are doing some nice work, out near the Gay place. This is the most needed work in the county and it is hoped they will continue at this point for some time.

Fred Deiter and family of Olney and Henry Schuster and wife inspected the Stovall Irrigated Plantation Wednesday.

The war "scare" is subsiding and better times are here. We told you so. There is always a way for the cool headed person who doesn't rock the boat.

The French government has ordered 40,000 pairs of red trousers, to be made in the United States. The Southern farmer would have every pair of these made of cotton.

Winter is setting in and cotton is coming tinto town more rapidly. The ladies from the country need a comfortable place to rest these chilly days while waiting for their husbands or sons to finish business before returning home. We see them waiting on the streets and sitting at the counters in business houses. Why not provide a warm room to add to their comfort while waiting? There they could keep the little ones satisfied and warm, to say nothing of adding to their own comfort. Who will help us in this undertaking to have a real Rest Room in Graham?

Last year the world wanted more cotton than was produced so was willing to pay a good price for it. This year the South met the demand and has produced to date over 15,000,000 bales, but the markets have been paralyzed on account of the European war. Now the crop is beginning to move and there is an increased price. There have been devious ways and means put into practice by means of which more cotton might be in active demand. In any event, however, this would have been true on account of the large production and lower price. Many milling and manufacturing concerns have adopted the use of sacks and bags made of cotton instead of jute and grass. Cotton has been adopted in many instances, instead of other fabrics. American women have organized, in many parts of the nation, clubs for wearing and buying cotton goods. An American singer, Alice Neilson, will be the first of the operatic stars to wear a cotton gown on the stage. Patriotism along this line is very evident. These measures, however, are merely to relieve the present condition and do not signify that there will be a continued demand for cotton. The hope of the Southern farmer is to diversify his crops.

The housekeeper will be studying her "cook-book" in a few days, preparing for the Thanksgiving dinner. This festive holiday is peculiarly American and we, as an American nation, have more to be thankful for this year than ever before. In view of the devastation and sorrow of the eastern hemisphere, it is to our great happiness that we are at peace with the world and enjoying the association of our friends and neighbors and of our own family. Thanksgiving should be a special home day, it seems to us. The board should be as festive as possible, and the day should be a glad one—and what can add more to the occasion than the time-honored roast

turkey? At the risk of appearing "sissy" we produce herewith a recipe for the above fowl, which if followed, will secure an ideal Thanksgiving feast which we hope every reader of The Reporter may have to the fullest:

For Roast Turkey. Giblet Stuffing, select a plump cock turkey, having smooth, dark legs and the cartilage at the end of the breast bone soft and pliable. Dress, clean, stuff, truss and place on its back in a dripping pan. Rub the entire surface with salt and spread the breast, legs and wings with one-third cupful of butter rubbed until creamy and mixed with one-fourth of a cupful of flour. Dredge the bottom of the pan with flour, place in a hot oven and when the flour on the turkey begins to brown, reduce the heat, baste with the fat in the pan and add two cupfuls of boiling water. Continue the basting every fifteen minutes until the turkey is cooked, which will require about three hours. For basting use one-half cupful of butter melted in one-half cupful of boiling water, and after this is used baste with the fat in the pan. During the cooking turn the bird frequently, that it may brown evenly. Remove the string and skewers, arrange on a hot platter and garnish as desired. An attractive garnish may be made of strings of cranberries and celery leaves.

If the Editor Had the Nerve.
Last week we received an invitation to buy a bale of cotton. Say, Willibald, the way things are going we'll be lucky if we can buy a spool of cotton. Gee! If we only had the nerve! What we couldn't do! Had we been born with the rind of some people we know, here's what you would find on these pages from week to week:
"On account of the European war the subscription price of this paper has been raised to \$5 a year, cash in advance."
"On account of the loss from import duties advertising rates will be increased to 50c an inch. Effective at once."
"We are pained to announce that, owing to the almost complete suspension of the importation of chemicals, obituary poems will cost you 10c a line hereafter."
"It being impossible to export prunes to Przemysl, notices of church suppers will be charged for at the rate of \$2 each, and two tickets to the supper."
"Resulting from the suspension of regular shipping facilities between this town and Gulf of Obigosh, all pumpkins, apples, potatoes, corn, grapes, etc., brought to this office under the pretext of exhibition to the editor will be seized as contraband of war."
"All persons found owing this paper more than a year's subscription will be shot as spies."—The Axtel (Kansas) Standard.

Good Shoes.
Our stock of shoes is the largest in Graham, and our prices will save you money. Street & Co.

Every army has its war song and often the chant fires an enthusiasm and courage as nothing else can. Such was the effect of "Dixie" in the civil war, "John Brown's Body," "Yankee Doodle," the "Marseilles," etc., at various times in the world's history. The European war is no exception: Soldiers instinctively take to song and often sing their way into battle. The European war has already produced its stirring war songs and battle cries that express the heart of the various combatants. The Germans sing their intense hatred of England.

We will never forego our hate, We have all but a single hate, We love as one, we hate as one, We have one foe and one alone England!
That is what war does for men. It extinguishes all their better judgments and sentiments and kindles them into a

raging fire of savage hatred. The English soldiers sing of the faithfulness of the German war lord in tearing up the treaty with Belgium as a "mere scrap of paper."

He tore the scrap of paper The Belgian scrap of paper. He otre the scrap of paper And made the bullets fly. So now we're off to Berlin. To Berlin, to Berlin. So now we're off to Berlin. To ask the reason why.

As we go to press cotton is again on decline, owing to the flooding of the market due to the opening of the exchanges, which have so long been paralyzed. We believe, however, that this is only temporary and that once normal conditions are established, the staple will regain its former rising value.

Plow Boy Replies to A Reader.

A Reader either showed us last week that he is a unionist or a hypocrite. Notice, he calls me "good Bro. Plow Boy," when according to his own logic (if he has any logic) we are not brothers by a whole lot. He claims to be in the straight and narrow way while he places me in the broad way, see? Which are you A Reader, a unionist or a hypocrite? You are bound to be one or the other according to your own little home-made theory. I say home-made theory, because the scriptures do not bear your little, one-sided position out.

Repeatedly A Reader calls me "Bro. Plow Boy" and repeatedly insinuates, yea, even asserts, that I am in the broad way; notwithstanding this broad way that I am in, according to A Reader, leads to destruction. Now reader, behold the spectacle of a good angel, like A Reader, calling a hell-bound fellow, brother.

And, yet another spectacle I would call your attention to, that is, a little narrow-contracted fellow like A Reader, who because he imagines himself in the straight and narrow way sets himself up as a judge, and even passes judgment on a poor ignorant fellow who doesn't know any better than to meet in Sunday school capacity, all and any of the redeemed of earth regardless of their affiliations with the different man-made church organizations and creeds.

"Oh, I would not object to meeting all of them in Sunday school if they would come to our Sunday school," I seem to hear A Reader say. No and I venture to say you would not object to taking their money to carry on "your" Sunday school either. If we are unholly things and in the broad road that leads to destruction may not our money be tainted too? I say "we" because there are thousands of us in all the different denominations, except possibly the Catholics, who favor union Sunday schools in communities where the belief is mixed and not enough of each belief to maintain separate schools. And, where, in many instances, there is only one small school house in which to meet.

In towns and cities where each denomination is strong enough to maintain a Sunday school of its own, and where there are separate houses for them to meet, why, denominational schools are all right, and I have never contended otherwise, and the files of The Reporter will prove it. And, A Reader knows it, so why pretend otherwise? I'll tell you why. Simply because you are unable to answer my argument on a single point, and you want to put me in a false light so you will seem to answer me on at least one point. Come, stand up to the rack, A Reader and stay with the proposition.

Again, to one who was not acquainted with my position in this discussion, it would seem, from A Reader's wonderful epistle last week, that I had been contemplating going to a Catholic Sunday school, and applying to them for a position as teacher in their Sunday schools, when the truth is, I never at

any time, said one word about going to a Catholic Sunday school. I said this, "I am willing to show my faith by my works by taking my children and going into a union Sunday school with any and all denominations, not excepting even the Roman Catholic Church." Now, dear reader, does that sound like going into a Catholic Sunday school? Really, A Reader seems to be fighting his own vain imaginations.

A Reader misapplies some mighty good scripture. Look at it again reader and see if you can make it fit. His broad road and straight and narrow way scripture, I think, fits this case about like an old bed tick fits a fence rail. Where is his straight and narrow way? He never did locate it or define it, did he? If he did please show me. And then, just look how awkward and out of place that good old verse, "Not every one that sayeth Lord, Lord, shall enter into the kingdom of heaven" looks in the way he has applied it.

But, in the following quotation we get the real milk of the coconut I guess. Of course it is a little bit "outer pint" but I guess His Honor A Reader understands it. "If any come among you having not this doctrine (this truth) ask him not into your own house neither bid him God's speed for he that bid-deth him God speed is partaker of his evil deeds," is the way A Reader quotes it, and is not exactly verbatim, but the meaning is not changed, and the (this truth) is not in the original. But what does A Reader mean by quoting this scripture here? Does he think it means the doctrine of denominational Sunday schools, or does he mean to tell us it has reference to the Catholic doctrine? Is A Reader a Catholic? Now he puts the "fixin" on "Bro. Plow Boy." How can all these different teachings be true when one teaches one way for life different to the others? These are stubborn facts, A Reader? I don't see a single one, and yet you talk about "facts" as if there were many of them. If you were to meet a fact you wouldn't know it.

Then, he invites me to come across and get in the narrow way again. Now he warns me of the "way that seemeth right to a man" but the end thereof are the ways of death." Of course it is not to be thought for a minute that A Reader is in that dangerous way. Then he clinches the argument again by saying, "My people shall be a separate people," and exclaims in great triumph "Where is your unionism, Bro. Plow Boy?" If the reader will turn to II Cor. 6:17 and read and run the reference he will see that God simply meant for his people to separate themselves from sin and the world.

Here is about the only uncontroversial fact contained in his long painful effort. He says, "As to being afraid of my doctrine, I deny the charge and demand proof. I have no doctrine." And I agree with you Bud, readily. You have no doctrine. You do not even know the doctrine, so you need not have any fears of any one trying to prove that you have.

Then A Reader talks, in his incoherent way, of the doctrine of God, the doctrine of men and the doctrine of the devils and something about the straight and narrow way ending this marvelous paragraph by saying "how do you like the straight and narrow way, Bro. Plow Boy?" as if he had really said something! Just as if he had shown me the narrow way and that it run parallel with sectarian Sunday schools.

Really does the Bible say anything about Sunday schools? I think not, in fact, I know it does not. Neither does it say anything about any particular church organization or creed, hence it would be a job beyond the wonderful powers and resources of even A Reader to locate the straight and narrow way in any one of them. Indeed he has signally failed to locate it at all. Just merely asserted that there is a straight

and narrow way, and intimated that he, she or it, was in this way, and that this straight and narrow way is in some particular church organization or creed, and sectarian Sunday schools.

Again A Reader breaks forth on a new paragraph but still clinging to his straight and narrow way, with such tenacity that one is impressed with the notion that A Reader is in the narrow, selfish way. He says, "Our Savior was crucified for preaching and teaching the narrow way and a great unnumbered host of his followers have been put to death for following the same way. The most unpopular man in the world today 'religiously speaking' is the man who stands square on the 'if-you-love-me keep my commandments' platform." Now who can read that without being touched with the feelings of A Reader's infirmities? And who can escape the conviction that A Reader is this unpopular man?

Now if the good editor will allow the space I will undertake to show all reasonable minded readers the "straight and narrow way." But will not promise to show one single word from a Bible standpoint about Sunday schools, or organized churches, or religious creeds. Neither will I try to place those who differ with me in belief or church affiliations beyond the promise of salvation, because I believe the Bible backs up some of the principles and doctrines of all denominations. And, without doubt, God honors His truth wherever it is found. Therefore I believe there are Christians in all denominations and strange as it may seem after reading A Reader's wonderful epistle I do not believe that the way of union Sunday schools; which way I am in, is the broad way that leads to destruction. Indeed, I believe I shall be able to locate the "straight and narrow way" in the unionism of religious worship. Plow Boy. (To be continued next week.)

TONK VALLEY

Just about the time we thought we were going to have a week's pretty weather to finish our cotton here came a norther. Now we will have to finish it on Saturdays as our school starts Monday, and we couldn't afford to miss one day of school to pick such cheap stuff, so-called cotton.

visiting relatives at Whitt this week. They are winding up their affairs to move to Crowell in Foard county soon.

A. P. Maples died at the home of W. S. Purselley last Wednesday evening late and was buried in the Loving cemetery Friday afternoon at 2 o'clock. Mr. Maples was stricken with paralysis about a year ago, from which he never recovered, and was confined to his bed all the time. Deceased has been an honored and respected citizen of Loving community for about eight years and will be greatly missed by all his relatives and friends. We deeply sympathize with the bereaved ones.

The B. W. M. W. of Loving will spend Thanksgiving day at the Baptist church and quilt two quilts for Buckner Orphans' Home. Everybody is invited to come and spend the day with them.

"Some Christmas Cheer at Home" was the headlines of an appeal in the last week's Reporter which we can heartily endorse. We surely should lend a helping hand to those unfortunates who lost so heavily. We are acquainted with a few in the anthrax district who lost all the stock they had and horses and mules are so high they will be hard to replace.

There is plenty ice this (Tuesday) morning and the ground is white with frost. This will keep the cotton pickers out of the fields till late, so we don't look for the cotton to

be all picked out till after Christmas, as there is a great deal of cotton in the fields yet.

Correspondent.

Live News from our Correspondents

FLAT ROCK

I'm just home from Sunday school and thought I'd chat the Correspondents a while. Some seem to think it wrong to do such things on Sunday but I don't think so myself.

The attendance at Sunday school was small on account of the cold norther which struck us last night, and then, there is quite a lot of sickness now.

Little Adolphus Cook has been real sick the past week.

We met Friday night to decide more about the literary. Some of the youngsters had prepared a dialogue and some recitations, which were real good. Lively music was furnished by Messrs. G. O. Hazelton and sons, Oliver and Harry, and Jesse Martin. We decided to meet every three weeks. Everybody invited to attend.

William Fain visited at E. H. Corley's the latter part of last week.

The party at Mr. Parsons last Tuesday night was very much enjoyed by all present.

Printes and Bob Corley and William Fain went to Graham Sunday night.

Prof. Oliver Hazelton attended the teachers' institute at Graham last week.

Silver Bell, it was not I that was passing a compliment. The week before I wrote that, one of our Correspondents said Plow Boy was their favorite among the Correspondents, and I'm sure he was pleased to hear it. No, I'm afraid if I started to tell which was my favorite I'd just stop and say "Well, I believe they all are."

Buster, I'm "kinder" glad you think I look like "striped stick candy" but I was surprised that you didn't say a gum drop. I'm partial to chocolate myself, but of course, if you like striped stick better, that pleases me. Yes, I'm aware of the fact that you're not a bachelor nor a widower, that's why I didn't say more about you, for I didn't know just how the "old girl" would take it.

Mr. and Mrs. Corley called on Mr. and Mrs. Porter Sunday afternoon.

Daisy Flat, come along and tell us about those new quilts you are piecing.

Misses Lena Humble and Margaret Corley of Graham escorted by Mr. William Fain attended the party at Mr. Parsons Tuesday night.

Joe Heart has returned to his sister's, Mrs. Hazelton. He has been in Dallas county, near Mesquite several months.

Mr. and Mrs. Will Pryor and children of Gooseneck spent last Saturday night and Sunday with J. M. Taylor and family.

Newby Corley spent Sunday night with Bill Williamson at Henry Chapel.

Miss Leota Hodges and brother, Jim, visited their sister, Mrs. Charlie Parsons, Sunday.

Carlos Corley spent Sunday with Harry Hazelton.

Master Roy Hazelton spent Sunday with little Miss Fay Cook.

The subject for the debate Friday night was: Resolved, That the cotton acreage should be reduced 50 per cent. Messrs. Oliver Hazelton and Printes Corley spoke on the affirmative side and Messrs. Chas. Cook and Brit Mayes, on the negative. The judges were Messrs. Jesse Martin, Jim Corley and Charlie Parsons. All three favored the affirmative side.

Messrs. Harbert Parsons and Tom Hays attended a party at Salem Saturday night. We think they must have found some attraction down there as they went back Sunday.

Bob Corley spent Sunday night with Will Fain.

Mr. and Mrs. Archie Martin visited the latter part of last week with relatives at Salem.

John Alford and wife are now living in the house with his parents.

Today (Monday) is my birthday and I'm sure there can't be one of you guess how I spent it. Oh! I see, you're not guessing

right, so I'll have to tell you. I washed nearly all day, and this evening mama said "Well Candy Kid, I forgot this was the 16th or we wouldn't have washed." But, I told her it couldn't be helped then and nevertheless I was glad washing was done.

Candy Kid.

FLAT TOP

More rain, more rest, more people starve to death.

We had some rain Thursday and Friday, but the ground is just about as dry as ever now, since we had two light northers.

Word reached us last Wednesday afternoon of the death of Mr. A. P. Maples. Mr. Maples had been sick for eleven months and had been unconscious for some months before his death. He was born and raised in Alabama but came to this place from Arkansas. He leaves a wife and several children. He was a member of the Masonic lodge.

Mark Nall has returned from Houston, where he had been to see about his cotton he shipped down there in 1913. I have not learned whether he succeeded in getting his money for it or not.

Mr. and Mrs. Sanders have gone down to the coast for the benefit of the former's health.

Dr. Roy Rutherford and wife spent the day with Mrs. Arnold and children, Sunday.

Preston Dickerson and wife spent Saturday night and Sunday with Fred Marshall.

Mr. and Mrs. Underwood went to Graham today (Monday).

Vivian Arnold called on friends Saturday evening.

Fred Marshall helped Mr. Underwood load cotton early Monday morning.

Mountain Boomer.

MARKLEY

Be not dismayed we are all here. We have had some cloudy days the past week and some rain. Not enough to make stock water but enough to start the plows. There will not be as much wheat sown as would have been if the rain had come earlier.

The health of the Markley people is good.

Our cotton crop is about out, as the boll worms and weevils got forty per cent of the entire crop. This, I think, is a conservative estimate of the damage done in this gin district.

Our school commences today, the 16th of November. I hope we will have a successful term of school which will be more beneficial to us in the future than a big cotton crop.

Web Wallace and family are in Markley visiting home folks.

John Shearer has been with us the past week buying cattle.

H. O. Prideaux is in Fort Worth buying cattle to feed this winter.

Allen Williams is buying cattle to feed this winter.

We have more feed than we have stock. Cattle are selling 10 to 15 per cent better here than they did one year ago. Still I hear a lone voice in the brush crying "I want high tariff." Another voice is abusing the mail order houses. As American citizens we have the right to buy where we please as long as we pay for the goods.

My friend, M. B. Pickens, has been with us again. Say Pickens, that horse you traded which got mad for a few minutes every time you harnessed him up, and would not go for just a few minutes, has been mad five weeks. Pickens, what shall we do with him for just a few minutes.

Answer to Somebody: Probably I made a mistake. It should have read more cotton and less meat. See, if you had more cotton you would have to sell it at home for you can't send it to the mail order houses very well, for a bale is too heavy to go by parcel post. You

make a sad mistake when say that money is the only thing that makes a man these days. Let me say this; that health and a clear conscience toward God and man are attributes that money can not buy.

A Reader, I read your article carefully and if I fully understand you, you say there are three doctrines—God's, man's and the devil's. So far so good. Again you say there is a straight and narrow path which leads to life everlasting. What denomination is in that path? Will you please answer? Of the 214 organized churches in the United States, are they all right or all wrong? And, if one of these denominations is in the straight and narrow path which one, please answer? You do not condemn denominational Sunday schools, but union Sunday schools. You write learnedly about the straight path, which is all right, and then admit there are many paths—wonderful argument—it passes my understanding. But the 42 club will be in session next week and I will let that judicial body pass upon it and I am sure you will get justice and the referendum. Bono.

MYERS BRANCH

Plow Boy, the socialists are very much like the old time populists who said, "If you object to our doctrine you are duty bound to offer something better." Now get busy.

Your German at Graham is evidently not acquainted with the socialist doctrine or he would know that the fundamental principles of socialism are identical the world over. Of course, there may be some minor differences to fit local conditions, but from the works of Marx and Engels, the socialists of the world secure the fundamental principles of the party. And you well know that socialism does not resemble our present day democracy to any alarming extent.

Doesn't your prohibition party do away with saloons and bootleggers? If it does not it fails in its mission and is therefore worthless. Possibly it will be eleven hundred years before the socialists do away with liquor. But, for the sake of those whose curiosity has been aroused, won't you name some party that is making more progress?

Mere assertions are worthless. I might say that the man in the moon had the itch or that Ferguson would make the best governor the State has ever had, both are equally absurd, because no man can prove either.

Plow Boy, I have no respect for the man who violates his pledge whether socialist or democrat, and if you were acquainted with the by-laws of the socialist locals you would know that no socialist could vote for another party without violating his pledge. The socialist I am speaking of is the dues paying man. (There are 15,000 or more of these in Texas.) Not the wishy-washy near socialist who takes his socialism on the "summer time" religion plan. He is a political maverick and belongs to no certain party, and should not be recognized by any of them.

Did the "Rebel" state that it helped Colquitt because he was an anti? Give us some more of that dope in "caps" and see if it don't change the meaning a little. Give us a little more information in regard to me getting my best men into trouble over the attorney general's ruling. I am anxious to apologize if I made any mistake. We understand that all men who advance new ideas are classed as dreamers by the "doubting Thomas" but if the dreams should materialize the "Thomas" are the first to hurl their hats in the air and "holer" "look what we done."

Judging from the election returns the millenium is about due, and a lot of us had better get busy if we intend to come out on the right side of the ledger.

Owing to the rains cotton picking has not made much progress the last week. Some

are nearly through picking and are making preparations for another crop.

Mrs. E. R. Singleton and Lucien Skaggs are reported on the sick list.

Uno, your compliment (?) is appreciated. I had no idea I could write a letter that would raise a "big dust."

Plow Boy, do you want to know why the moon varies from a due east and west line, say, at new moon, or do you mean its annual trip from north to south? There is a man up here who claims to be some moonologist and maybe he can answer for you. Gringo.

LOVING

School opened this (Monday) morning. All the faculty was here ready for work. Only about one-half of the pupils enrolled on account of the cotton picking.

Rev. Mullen filled his appointment here Sunday at 11 o'clock and at night.

Rev. McCord gave a short address to the Baptist Sunday school Sunday morning. Attendance at both churches was small owing to the inclemency of the weather.

Born, to Mr. and Mrs. Bob Sims, Thursday, the 5th, a fine boy.

Quite a crowd of our people attended Big Monday and the carnival. Some of those who went were Messrs. Milligan, Pitman, Tom Brown, Joe Kennedy, Rob Lasater, Mr. and Mrs. W. H. Baker, Mr. and Mrs. C. T. Story, and a few others we can't think of just now. All report a great time.

Mr. Maples died at his home north of town on last Wednesday night, after a lingering illness of several months. He was buried with Masonic honors Friday in the Loving Cemetery. All his children, except two, were with him when death called him home. Mr. Maples was

an old and highly respected citizen of this county and will be greatly missed. To the aged wife, and children we extend our deepest sympathy in their sick list.

Mrs. C. T. Story visited in Graham Monday and Tuesday, at the home of Robert Bower.

P. L. Pittman has again left our town for parts unknown. C. T. Story moved his well

drill last week several miles below Jermyn on the Cobbs ranch where he will sink a well.

Mrs. Norman Lorraine and Miss Ione Berry of Jermyn visited Mr. and Mrs. Rob Lasater one day last week.

Loving Heart.

SORGHUM FLAT

After a few cloudy and misty days the sun is coming up clear this beautiful Saturday morning. The robins and larks are warbling a few notes of cheer, and makes me think spring is coming again. I don't think there is a season more beautiful than fall, as we can see the farmers gathering their crops, some are planting grain and getting in readiness for another year's crop, which I hope will be profitable.

Cotton picking is just about over in this vicinity.

The recent rains have been nice on the grain that has just been planted.

Well, Silver Bell, my article about the successful farmer and the one that was not successful seemed to strike you, and Pilot as something bad.

I don't agree with you Silver Bell, about the farmer and working class being slaves of the age. If we are slaves how can we claim to be citizens of the old Lone Star State, the land of the free? You say that you have friends all around you who have to work from sunup till sundown in order to keep something for their families to eat. I'd advise those friends of yours to practice economy. Not eat so much. Thus save grocery bills, also doctor bills, as I believe that nearly half of the ills of today are caused from over eating.

Yes, you are right about the renter having to live in any kind of an old shack. Sometimes the house only affords one window, it is minus half the lights and patched up with boards, and on cold days when you can't afford to let the door stay open you have to look through a knot hole or through the cracks in the shingles to see when the weather was good bad or indifferent.

You flattered me somewhat when you likened me unto a landlord, or stock holder. You made me feel almost rich. You also talk as though what was meant by "the sweat of the brow," or "elbow grease." I've always managed to earn my clothes and some of the eats. If you can prove to me that I do not I will point out that successful farmer to you.

Well, I'm glad to hear one woman stand up and say what they think and not be timid like some are. I gather from what you said about farm literature that you thought I had copied what I had written about farming. As soon as I got through reading your letter I run and looked up the Watkins Almanac to see if I had by accident copied some one's ideas on agriculture and fertilizing. No, I had not been reading anything on farming. That was just my idea. I don't think it quite right to copy from another pen, do you? You seem to think it would be a disgrace to wear one of Gov. Ferguson's pictures. What will you do when you get to heaven? Guess you are like a fellow I heard of. You will expect a room all to yourself. You say the farmers never get anything but work, work, all the time. I have always heard that the poor people were the happiest people in the world. Say don't most of us get what we order? The most of us ordered a democrat for president, so 6 cent cotton ought not to be a surprise to you. Well good-bye, Silver Bell, I believe you are a socialist anyway.

Well, Pansy, you wanted to know if I farmed the whole year round. No, I don't farm at all. It hasn't become fashionable here yet for women to farm, while I believe in fertilizing land. I know you all accused me of practicing what someone else preached. If you don't believe I practice what I preach just come down garden making time. If we didn't fertilize we couldn't sprout mesquite beans in our garden much less anything else. I think when it comes time for me to farm I will plant peanuts.

GOOSENECK

Hello Correspondents, how are you all liking this norther? I think it is all right.

Wasn't that a fine rain we had Wednesday night?

Alfred, Roy and Frank Parsons and Murray and Willie Conder attended the party at Mrs. Smith's Saturday night.

W. C. Neal and Uncle Pat Johnson of Eastland county spent the night with Mr. and Mrs. Herman Johnson Friday.

Messrs. John Clark and John Pope went to Tonk Valley last Sunday.

How many of you liked Silver Bell's letter on Christmas cheer for the European widows and orphans? I for noe. I think it would be nice to make them happy but as she said, there will be many disappointed little children in Texas. I think charity begins at home. Come again, Silver Bell.

Mr. James of Ming Bend spent Sunday night with his children, Mr. and Mrs. Oscar James.

Messrs. Wiley and Oscar James each had a hog to die on Monday, one in the morning and the other in the afternoon. No doubt they will live high for a while.

Homeite, you will no doubt be surprised to see a letter from the Gander, and maybe so the Goose this week, they are not so busy as you thought and if they get to where they can't manage those goslings they won't call on Homeite for assistance.

It seems that Lee McLaren is uneasy about Will Pickard here lately.

Mr. and Mrs. Mack Rose walked to church meeting Sunday afternoon.

The Jones boys took dinner with the Parsons boys Sunday.

COMMISSIONERS COURT ORDER

It having come to the attention of this court that the amount to be received by the Clerk of the County Court is limited by law, and that the excess above such amount is to be turned in to the treasury of Young County; and it further coming to the knowledge of the court that a large amount has been lost through the custom of extending credit for recording and other items by the Clerk, and failure to charge the full fees allowed by law; it is therefore ordered by the Commissioners Court of Young County that the County Clerk of Young County collect in advance all recording fees, and that he extend no credit on any fees, and that he charge the lawful fees for all services rendered by him and that said Clerk make a full and complete report to this court annually of the amount received by him as fees of his said office.

APPROVED

- W. P. STINSON, County Judge.
- G. D. HINSON, Commissioner Precinct No. 1

Cotton Warehouse

We have leased the Graham Foundry Building, near the Depot, for a Cotton Warehouse. It will hold about 500 bales. In it we expect to store some of the cotton we buy.

There will be room for about 300 bales of Customers' Cotton which we will accept for storage at 25c per bale for the first month and 15c per bale for each month thereafter.

Mr. Joe T. Carter, the public weigher, will have charge of the Warehouse. He will weigh cotton at the Cotton Yard and have same put in warehouse the day it is received.

Don't Let Your Cotton Damage

Cotton begins to damage in November if left out in the weather. Putting cotton on logs, or turning it after each rain does not prevent it from damaging.

It will be more difficult to sell damaged cotton this year than ever before. Because of the big surplus mills and cotton exporters will not buy even slightly damaged cotton when they can get all the undamaged cotton they want.

If you intend to hold cotton it will pay you to build sheds for it at home, or store it in a public warehouse.

The Mystery of the Fatal Pearl?

Two adventurers manage to steal a certain priceless pearl from its place of keeping and make good their escape. They offer the beautiful gem to Degory Priest, a well known collector of rare gems, for \$10,000. Priest invites Allen, one of the thieves, to spend the night at his home and talk the matter over. During the night, owing to some evil and mysterious influence of the Pearl, Allen sees strange and horrible visions and is gripped with an unexplainable terror. Priest, who had intended foul play with Allen, upon coming into the room, finds his intended victim dead. He takes possession of the Pearl. Three days later, while hunting, Priest meets with a fatal accident. The Pearl claims its second victim. After his death it is handed over to his son and heir, Charles Priest, who has gotten into financial difficulties and is in the power of a money lender named Lewis. Lewis brings pressure to bear on young Priest, who, being unable to raise the money and also under the influence of the Fatal Pearl, is driven to suicide, first, however, warning his wife to sell the Pearl which has proven such a curse to his family. She accordingly sells it to Lewis. Violet Lewis, the young daughter of the money lender, seeing the beautiful gem in her father's possession, asks to be allowed to wear it at the reception celebrating her becoming of age. He consents but with his usual caution has it insured for \$100,000. At the reception there are three entertainers employed. One of their greatest stunts is the William Tell Shooting Act. Instead of hitting the apple, however, the shot loosens the Pearl from the necklace of Violet Lewis. In the confusion that follows this supposed accident, the Pearl disappears completely. It is true that a Pearl is found but this proves to be simply a clever imitation of the real stone. Hence the puzzling "MYSTERY OF THE FATAL PEARL." Who has the original stone? What is the explanation of the fearful curse that follows the Fatal Pearl? There are a thousand questions that arise. COME! SEE the origin of the curse connected with this mysterious gem; the incidents that hinge around it; and what finally becomes of it. It's the biggest treat you will ever enjoy!

Cross Barron was in Bunger trading and purchased an oil barrel.

The party at Mrs. Smith's Friday night was well attended and everybody had a jolly good time.

We have had a good rain in and around Bunger. Some have sown wheat. We would not have sown had it not rained for we don't believe in the dust mulch farming very much over here.

Say Silver Bell, didn't Plow Boy get it in broken doses last week over his union Sunday school by A Reader?

I ran up against the Kid Saturday. He was all smiles. I also saw Salemite.

Will Neil and father-in-law, P. H. Johnson, were here on business the latter part of last week, from Eastland county.

Willie Steele has bought a one-horse buggy. What does this mean Will?

Mrs. Effie Newby and J. M. Reed's children are picking cotton for Everett Reed this week.

Well Beauty, I guess you are the only cotton picker among we scribes, or surely some one else would let you know how much they picked. I picked 165 one day. That is the most I ever picked in one day. That is not near as much as you picked but it was cotton just the same. Come on all of you and tell us how much you can pick.

Bashful Ben, you changed your name for a good one all right. It just suits you.

I wonder what Hiawatha's name will be.

We had a fine rain here last night which was greatly appreciated by everyone.

Melvin Gann, Miss Annie Wesley and little brother, Virgil, visited Mr. and Mrs. Henry Steele Thursday night.

Well, Mr. Editor, we are all getting anxious about the reunion. You know I want to meet all the scribes, as I never saw very many of them.

I guess I had better go and give my pencil to a better writer, so here, Red Wing, take it and write us a good letter.

ROCK CREEK

Doesn't these cold northers make a fellow think about what he did with his summer wages?

There was no church Sunday on account of the day being so cold that Bro. Lipscomb could not come.

Messrs. Tom and Ernest Watson of Denton county are visiting the family of Dave Watson in this community.

Forty-two games seem to be very popular lately. It is all right to indulge in such thru the week but I don't think Sunday was set apart for such business.

Roy McBride filled his appointment in the Jean community Sunday afternoon.

Miss Ethel Orr returned to Graham Sunday afternoon.

Cotton is 18 cents per pound in Germany. I don't think an advance in the price of cotton here would injure the people very much.

Hurrah for Buster! I don't think he would need an assistant if he would only write as good letters each week as he did last week.

Peace is grand but a person will have to disturb peace once in a while if he holds his own.

Nat Price and S. K. Murdoch of Graham were hunting in our community one day last week but don't think they returned home very heavy loaded with game.

It was rumored that there was a wedding in the Lone Oak community Sunday afternoon.

Don't know for sure whether there really was or not.

Umph! I didn't know strong "lasses" would make a person's cheeks flush. We never get too old to learn though, do we?

Nature blessed me by giving my cheeks a natural flush so I don't have to go to the trouble of hanging around the "lasses" barrel or the paint bucket either.

Brunette.**RED TOP**

Jno. and Elmo Clark spent Saturday night with Willie Stafford.

W. S. Hustage and wife are in Fort Worth.

Mr. Editor, how I wish you were here to help me eat spare-ribs, though you might not like them for they are calf ribs.

Lots of cotton to pick yet. Plow Boy, if I hated an anti like you do I sure would not have voted for one, even if I had to hold my nose. Now, may I ask you what you held your nose for? Was it for fear you would smell his breath, or was it to keep from smelling your own breath. Ferguson said he did not drink. Now, Plow Boy, who are the bootleggers. Did you ever stop to think what they are? I think you will find them pros. As for the socialists, you will find them on the right side when it comes to anything like that. I know lots of them and one said that they would vote anti if it came to a show-down. Uno.

MOUNTAIN HOME

Well, I enjoyed reading so many good letters in last week's paper, but was sorry to see so many of the writers absent. Hope they will all write this week.

How does today (Monday) suit you all? This is what I call blue Monday. I would sure hate to pick cotton today. This makes me think of killing hogs. I am sure a mess of good old spareribs would eat all right now, as all the yellow-legged chickens have been killed.

Little Jim Bunger was sick most of last week but glad to say he is almost well now.

Dreamy Eyes, you and June Roses must not miss writing so much.

Frank Phillips is up here on a visit from Fort Worth. Mrs. Phillips and the children have been here some time. They helped Albert Driver pick out his cotton, and also picked some for Mr. Rhodes, the past week.

Bunger Bros. helped Albert Driver doctor a yearling Monday and when they got ready to start home Mr. Driver made them a present of a bushel of sweet potatoes. Now, won't they live when they kill hogs.

Oats are up to a good stand. Wasn't that rain fine? I was sure glad to see it.

Popie Pinkston and children Evert McClendon and Jennie and Marion Lasater, helped the Bunger boys pick cotton part of last week.

We surely did have a fine, slow rain last week. It will enable those who haven't sown grain to sow, and the grain that was sown will now come up.

SALEM

We visited the city Saturday. It was a beautiful day, the town was full of people and business lively. It made us think of other days, and forget all about anthrax and low priced cotton. And, while there, we met Goose, Gander and Kid, and they all looked happy and prosperous.

Cotton picking will soon be a thing of the past here. Four-fifths, or more, of the crop is now in the bale.

Wheat is up to a fine stand with moisture enough in the ground to keep it in shape until the spring rains set in.

Quite a number of the young folks of Salem, Connor Creek and Henry Chapel met at the home of Mr. and Mrs. Jno. Kinsinger Saturday night and enjoyed themselves playing forty-two and other games.

Bashful Ben, we like your new name fine, but didn't you notice what Jolly Girl said about being partial to a honey-suckle? Well you know what Shakespeare said about a rose. Then surely you will not let such a banter go unchallenged.

Many thanks, Silver Bell, for your compliment, and in return will say we like your plain straight talk. You are not afraid to venture away from the shore, and your letters are fine. The only fly in the ointment is the way in which you knock our new governor. Please wait a little while and then we can judge him by his deeds. And, then, later on, we may try to tell you why his name will go down in history as a champion of the cause of the farmer of Texas.

From a neutral nation's point of view on the Sunday school question, it looks very much like A Reader played the part of a submarine and torpedoed our own Plow Boy in last week's issue of The Reporter. But no casualties are reported, and as usual, the news is strictly censored, but we feel confident that he reached some inlet or secluded harbor, and that after undergoing repairs he will come again, for like Uncle Joe Cannon of Illinois, Plow Boy won't down, never has at least, and we believe his banner still floats in the breeze. But, as the shock was very heavy, it may have sent him to the bottom of the deep.

We claim that answers to the questions asked by Dago and Plow Boy, about the sun, moon and earth, cannot be made plain without the use of a globe, and then the one being instructed must have a fairly good knowledge of the terms used on this subject. They should have attended the teachers' institute, the fountain head of knowledge in the county, and insisted on some good teacher, with the use of a globe, giving a full demonstration of the motions of the earth, and it would have answered the questions they asked.

We agree with Dago when he says it is an interesting subject and as we are not as far apart as the sun and earth we can take the subject up and study it for our own pleasure and profit. Comstock's Philosophy gives much light on the subject.

We learn this (Tuesday) morning that Knok Criswell had the misfortune to lose a good work horse Monday, but this was not a case of anthrax. Houston and Dave Carter of Eastland county are picking cotton for J. A. Askew.

Bob Garrett is still picking for Bob Askew. The two Bobs keep bobbing around and have only about three bales to pick out of eighteen to start with. Please pass the black pepper, for the weather is cold and spareribs are ripe.

I, for one, will agree to plant one acre, or more, in Spanish peanuts. Let us hear from at least fifty others. It will be a nice and interesting experiment and we can club together and get the best seed to be had. Salemite.

Jolly Girl you said you didn't know any of the preachers wore long tail coats but the hard-shells. You never was around any were you. I think I have seen preachers of your denomination wearing the long-tailed coats.

I agree with the Gray-eyed Girl about Sunday schools, although I do not think there is any harm in Sunday schools. But, if there is any good in them I have not found it yet.

Goose, it looks like you and the Gander would be going south as cold weather is drawing nigh.

Kid, the long-tail coat preachers are all right. Do you mean to say that you all have better preachers than they are? You haven't shown me yet. Kid, don't let a hardshell preacher get hold of your good preacher in an argument on the Bible or he will come home feeling like a whipped pup.

Jim Green went to Ft. Worth one day last week to have his eyes treated. Kid-o.
