MISS ALTA PARSONS DIES AT LITTLEFIELD

Remains Brought to Graham for Burial in Oak Grove Cemetery.

Miss Martha Alta Parsons, aged twenty years, daughter of Mr. and Mrs. J. E. Parsons of this city, died at Littlefield, Texas, last Sunday morning at 2 o'clock.

Miss Alta was afflicted with tuberculosis, and in June of last year the family moved to Littlefield, hoping the change in climate would restore her to health. For some time she seemed to improve, and up to three weeks ago the family thought there was a chance for recovery.

The immediate family and Mr. D. D. Cusenbary were present when she died. The remains were brought to Graham and interred in the Oak Grove cemetery, Rev. W. D. Boswell, pastor of the First Baptist Church, officiating. He was assisted by Rev. G. W. Black. The funeral services were held at the old family residence Wednesday afternoon at 3 o'clock. Services at the cemetery were under the auspices of the Woodman Circle of which order Miss Alta was a member.

A large concourse of relatives and friends were at the cemetery and never, perhaps, in the history of Graham, were the floral offerings exceeded in number and beauty. The mound was banked in wreaths, crosses, anchors, and other emblems, betokening the love and popularity which this young lady enjoyed among her friends here. The family will return to Littlefield in a few days to reside for the remainder of the summer.

Presbyterian Ladies' Aid.

The Presbyterian Ladies' Aid and Missionary Society met Thursday, April 29.

The meeting opened with a song, "The King's Business." Mrs. Jones read the news of the death of the baby of Mr. and Mrs. Crane, two of our faithful missionaries in Africa, and a short poem bringing out the value of pain and death, and sorrow in our lives. A prayer in behalf of these bereaved missionaries followed. Mrs. Tom Price read the scripture lesson found in Psalms 68:27-35, then all joined in singing "From Greenland's Icy Mountains." A short business session followed, after which Mrs. B. R. Garrett led the Bible Lesson. Every lady in the church should join in this Bible study, for it is most interesting and helpful.

The time of meeting was changed to 4 p. m., so that everyone can be on time.

Community Co-Operation

COPYRIGHTED FARM AND RANCH-HOLLAND'S MAGAZINE

The jitney car is a success in the city, where it operates in competition with street cars and carries passengers at less than two cents a mile. It has, therefore, come to stay.

But the automobile, carrying passengers over regular routes or country roads for a fixed fare per mile, is becoming even a greater success. Particularly is it true of passenger-auto lines between rural towns or communities and railroad points—routes over which there has been no passenger service before.

The people of nearly any rural community can establish such a line to their railroad market town. The expense of starting it will be small, as will

be the expense of operation. And, owned by a number of the people of the community and operated for the general good, it will be liberally patronized and thus be a paying investment.

What would it be worth to you to have an automobile, that you or your family might ride for a small fare, make regular trips from your community to the railroad town two or more times a day? It would be equal to living on the railroad.

Thus, modern science makes it possible, by community co-operation, for people living in the country to have all the advantages and escape the disadvantages of rural life.

Woman's Missionary Society.

The Woman's Missionary Society of the Methodist church met in regular session at the church Monday at 3 o'clock.

The president, Mrs. Vick, opened the meeting with scripture lesson Jno. 17:1-19. Reports from officers present. Committee on local work reported. Some bills paid. Also arranged for a quilt to be made by the society.

Mr. and Mrs. T. A. Parsons of Megargel are here and are going to make this their home. Mr. Parsons was here several years ago and has always been sorry he left. He has bought eight acres of land from Joe A. Wheat over on the hill, just outside the corporate limits, and will soon begin the erection of a six room residence thereon. Mr. Parsons and wife will make valuable additions to our citizenship. We extend them a cordial welcome and hope their stay will result to their pleasure and profit.—Seymour Banner.

Antique Butter.

The Lone Oak News reproduces this from the columns of an exchange whose veracity it regards as absolutely reliable:

A few days ago one of our citizens cut into a pound of butter which he had purchased at a grocery whose proprietor does not advertise, and found therein a small tin box which contained a scrap of paper bearing the following written in a neat feminine hand: "I am a girl 18 years old, good-looking, and an excellent housekeeper. Should this be found by some unmarried Christian gentleman, will he please write to the following address?" etc. The finder being a bachelor, he decided to unravel the affair, and succeeded, only to destroy the romance. The girl who had written the note had died many years ago, leaving an aged husband and a grown-up family.

Considering the age of the butter, it is a "strong" story. State Press is not quite so confident of the quoted exchange's veracity as is the Lone Oak News, nevertheless S. P. freely grants that antiquarians can find much to interest them in non-advertising stores. If one should purposely seek ante-bellum butter he would naturally go to a grocer who believes advertising doesn't pay. And if by some eccentricity of circumstances there were a hermit who wished a medieval garment he undoubtedly would seek out an unadvertised dry goods store. This may be granted without a flutter by even the most disputatious person, yet it remains doubtful if regular butter could stand the strain implied in the above story. We are inclined to think it was not butter, but cheese that withstood so long the corroding tooth of time. The cheese could take exercise on the grocer's shelf, whereas butter would have died of fatty degeneration.—State Press in Dallas News.

Quite a number of Graham people attended the Decoration Day exercises at Markley last Saturday. The program prepared for the occasion was well rendered and the school house was filled to its capacity. Dinner was served, and we do not doubt that those who were from Graham did the viands ample justice. Among those going from here were: J. C. Owen and family, Sheriff M. M. Wallace and family, Dr. and Mrs. H. E. Griffin, Mrs. E. B. Owen and children, Mss Knipp, Miss Jaunita Adair and T. O. Calvin and family.

Miss Emma Price came in Monday night from Houston where she has been visiting relatives for several months.

School Trustee Election.

In the election for school trustees last Saturday, two of the present board were re-elected, and A. M. Bowen, who was filling the unexpired term of J. W. Jackson, was elected to the regular term.

About 150 votes were polled there being five in the race with three to be elected. The vote was as follows:

A. M. Bowen 146
G. B. Johnson 115
J. T. Rickman 112
Chas. Widmayer 38
Tom Price 37

The following named gentlemen now comprise the board: J. T. Rickman, G. B. Johnson, A. M. Bowen, E. S. Graham, W. F. Babb, F. M. Burkett and J. Ewing Norris.

W. A. (Bill) Stewart, the comic supplement of the West side, has moved his seat of operations to the North side, and is now drawing his salary from S. B. Street & Co. No longer will the West-siders be able to show their customers the world's greatest curiosity, but will have to be content with saying "we had him first." But seriously, Bill is one of the best dry goods clerks in Graham and The Reporter trusts that his connection with Street & Co., will be profitable to both himself and his new employers.

Presbyterian Church.

At 11 a. m. the services will be conducted by the laymen and at 8:15 the pastor will preach. Public cordially invited to all our services. We are glad to have so many present at each service.

Gaines B. Hall, Pastor.

Priscilla Club.

The Priscilla Club met Tuesday afternoon with Mrs. C. B. Jones. Members present were: Mesdames Ewing Norris, J. E. Dowdle, H. L. Morrison, John Pohlman, R. E. Lynch, R. E. Bryan and Z. A. Hudson.

Guests were: Mesdames G. B. Hall, A. A. Morrison, C. S. Wynns, J. N. McCain, J. T. Rickman, T. J. Price and Miss Mazelle Morrison.

The Club will meet next Tuesday afternoon at 4 o'clock with Mrs. Hattie Miller.

Classes Entertain.

Classes No. 9 and 10 of the Christian church and Sunday school met at the church at 7 o'clock Friday evening with the intention of going to the dam to eat supper and have an outing. On account of the rain they decided to go upon the mountain beside the standpipe and there broil their bacon, make sandwiches, and eat the cream, which the boys were glad to take to the top in two large ice cream freezers.

After an hour of pleasure, spent in eating, singing and having a good time in general, the crowd, numbering thirty-five, was led from the mountain by J. E. Evans to the New Electric Theatre to enjoy a feast of pictures. All report a joyous time and their desire to go again.

In the absence of their teachers, Mrs. L. K. Isaacs and Mrs. Virgil Eddleman, the crowd of jubilee makers were chaperoned by Mr. and Mrs. H. L. Tidwell.

We are not sent into this world to do anything into which we cannot put our hearts. We have certain work to do for our bread and that is to be done strenuously; other work to do for our delight and that is to be done heartily; neither is to be done by halves or shifts, but with a will; and what is not worth this effort is not to be done at all.—John Ruskin.

The Things We Know.

In courts of law the phrase, "I believe," has no standing.

Never a witness gives testimony but that he is cautioned thus, "Tell us what you know; not what you believe."

In theology, belief has always been regarded as more important than that which your senses say is so.

Almost without exception "belief" is a legacy.

The creed of the future will begin, "I know;" not "I believe." And this creed will not be forced upon people.

It will be so reasonable, so in the line of self-preservation that no sane man or woman will reject it. And when we really begin to live it we will cease to talk about it.

As a suggestion and first rough draft, I submit this—I KNOW:

That I am here.

In a world where nothing is permanent but change,

And that in degree I, myself, can change the form of things,

And influence a few people;

That I am influenced by these and other people;

That I am influenced by the example and by the work of men who are no longer alive;

And that the work I now do will in degree influence people who may live after my life has changed into other forms;

That a certain attitude of mind and habit of action on my part will add to the peace, happiness and well being of other people.

And that a different thought and action on my part will bring pain and discord to others;

That if I would secure reasonable happiness for myself, I must give out good will to others;

That to better my own condition I must practice mutuality;

That bodily health is necessary to continued and effective work;

That I am largely ruled by habit;

That habit is a form of exercise;

That up to a certain point, exercise means increased strength or ease in effort.

That all life is in the expression of spirit;

That my spirit influences my body;

And my body influences my spirit;

That the universe to me is very beautiful, and everything and everybody in it good and beautiful, when my body and spirit are in harmonious mood;

That my thoughts are hopeful and helpful unless I am filled with fear;

And that to eliminate fear my life must be dedicated to useful work—work in which I forget myself;

That fresh air in abundance, and moderate, systematic exercise in the open air, are the part of wisdom;

That I cannot afford, for my own sake, to be resentful nor quick to take offense;

That happiness is a great power for good;

And that happiness is not possible without moderation and equanimity;

That time turns all discords into harmony if men will but be kind and patient;

And that the reward which life holds out for work is not ease and rest, but increased capacity, GREATER DIFFICULTIES—MORE WORK.—Elbert Hubbard in Fort Worth Star-Telegram.

The streets of Graham present quite a different appearance now to what they did a short time back. You see very little loafing on the streets these days, for the excellent rains and following sunshiny days have put the crops to growing so fast that every available man is needed to keep the weeds down and the crops up. And the boys are after it, too.

Towns that have a number of small manufacturing enterprises hardly ever suffer dull times, and if Graham will get up and hustle we believe she can secure a sufficient number to make the town put on a substantial growth, and with it every citizen, whether he be poor or wealthy, will benefit by it. A little get up and hustle just now will bring the desired results.

The fight to repeal or amend the Robertson insurance law is not a fight that greatly interests the farmer or man of small means, as some would have you believe. The matter of having foreign capital come into the State would not alter the fact that the borrower pays the same rate of interest, whether it be foreign or home money, and his security must be just as good for one as the other. And with good security we have yet to see a man fail to get the money he needs if he is willing to pay the rate of interest demanded.

Gov. Ferguson's effort to help the rural schools of Texas by asking the legislature to appropriate a million dollars to their use should receive the support and approval of every man in the State, whether he be a Ferguson man or not. The prosperity of the State depends largely upon the condition of the young people of today. If they receive proper education and training it will greatly add to their chances of making financial successes, and present conditions of rural schools hardly tends to sufficient education. The governor's plan is to assist those who show an appreciation of such assistance, requiring a 50c tax to be levied on the property in the community that receives extra appropriation from the State. This provision is wise, and with compulsory education laws and consolidation of schools, education in rural communities will be as easy to acquire as it is in the best independent districts. Let us do our part to help the governor help us.

A few friends and relatives enjoyed an ice cream supper at Jim Pearce's last Tuesday night.

So, Plow Boy, the difference of opinion is your main reason of no government at all under socialism? If this is your main reason you had better not state your minor ones, for that is not a sound one at all. Haven't we difference of opinions now?

Does it affect our government? You admit that we are together on the principal one, so the minor ones are easily fixed. We, the world over, are a unit on socialism.

Now read the definition of socialism by some of the leading authors, then take our platforms and see how we are going to put it into operation. Show us by what we propose that there would be no government at all, is the way but I see you are going to the Bible. As to the Bible, it advocates no political party, though I find it more in harmony with the socialist principles than our present system. The Bible states that each man will be judged according to his works. The socialist party will make it possible for each man to receive while here on earth according to his works. We want the full product of our toil and if we could get this under capitalism we would be satisfied. But statistics show us that we do not.

In the U. S. Census of 1900, the average wealth produced was a little over \$9.50 a day. The average wages paid were about \$1.50.

Now Salemite, Plow Boy, and all, the fuss is over that \$8.00 difference. Who gets it? We, the workers of the world, want it. We sell a pound of cotton at 10 cents. It is made into overalls at a cost of less than 30 cents, but we pay \$1.00 for them. Now we want to buy that cotton back in the form of clothes at the cost of making and transportation. Is it wrong for us to strive for this through a political party? I don't believe that God will, or the Bible teaches that He will, take man's part out of paradise for striving in a peaceable way to get the wealth that he produces.

As to your quotations from the Christian Socialist about science making man perfect if properly applied. Don't our form of government today make people better than if we had no government at all? If so is our government robbing God of any of His glory? Is it a crime to try to better the human race by our own efforts? Many years ago this question was asked, "Am I my brother's keeper?" Through science we have all of our inventions. The way these are applied make a few millionaires and many paupers. Now the editor of the Christian Socialist saw through socialism how these could be a blessing to all instead of profit to a few. This would not take any of the reward from God for He is above all. Man was put here to run this little lump of dirt that we dwell upon. Has the Lord revealed to you the way He is going to bring the millennium about? Could He not do

it through science if He were so in mind?

There will be no classes as to opportunities under socialism. All will have the same chance. Your land reference was answered last week. I said it was not necessary to chance human nature to establish socialism. Man has had two thousand years to wax worse and worse. Could not that scripture be fulfilled by now? Plow Boy, anybody can quote scripture, but few understand it.

Salemite, suppose you should have said stamp while talking about the letters not being for sale, where would your logic have led you? Now come and let us reason together. Say I am twenty miles from town, and know that I have several important letters in the office, but am too busy with my crop to go and get them. About noon I began to get hungry and happen to think that there is not a bite of grub in the house. I would know that in the federal department store at Graham were all kinds of food. I would make for the house and thence to town immediately. Which would need advertising, the letters or the food? I say neither one. Salemite, when things are made by society for use instead of by individuals for profit it will not be necessary to advertise.

Your Colorado reference is one of the best reasons I know of why we should have socialism. Did you ever know of the government employes ever having bloodshed over wages? It was the duty of Colorado to have taken those mines and run them until the difficulty was settled, but that would have been socialism and would not have done.

I wish to write on our credit system, socialism and the liquor traffic, and panics and their cause in the near future. Roseite.

Keep quiet Joe, I never said this was your crop, did I?

Dreamy Eyes I guess you are right but I don't remember what your reference was now.

Jolly Girl, I believe you and Candy Kid have scared Jack o' Diamonds off the ring by hinting that you were candidates for matrimony. Jack didn't know you were only joking, if he did he would come back.

(Too late for last week.) We certainly are having plenty of rain in April. If the April showers are good for May flowers this earth will surely be covered with blossoms before long.

I have not received the last two copies of The Reporter so don't know what is going on in the paper. I don't know why the first paper failed to come, but the river has been so full we haven't been able to get the mail for over a week. I am afraid it will be another week before we get any mail.

MILLER BEND

M. L. Rickles and R. E. Griffin went to Stephens county last week to look at some cattle. When we hear men pray thus: "Oh Lord we know we are sinful and unworthy, and do many things we should not do," it sounds like an apology to their fellow man, particularly to the young men and boys, and their own wives, for their ungodly, inconsistent and hypocritical lives before them, for their conscience has already apologized to God even while they were doing those things. The Miller Bend school closed last Wednesday, the 21st ult., marking the end of a successful term by Miss Eunice Long, of Newcastle. When we get the open road from old Drummond to Newcastle, and a mail route from Newcastle to Eliasville, and get our school raised to the eighth grade we will begin to appreciate life in Miller Bend. While at Graham the other day Col. R. E. Mabry took ye humble scribe down and showed him more vegetables than he ever saw growing on the same amount of ground. I told Mr. Mabry that I had four times as much ground planted to garden as he had but that I believed he had ten times the vegetables I had, and much better ones. I don't believe there is exceeding one sixteenth of an acre in Mr. Mabry's garden, and he has almost all varieties of vegetables growing in "crisp profusion" on this little plat of ground, besides a number of fruit trees. Now we don't claim the garden is the "lost Garden of Eden" but we do claim that it proves what can be done with water applied at the proper time on a little good soil; and that Col. Mabry is a good gardener. One other thing we observed on this trip to Graham. i. e. Finis Burnett is preparing to install a windmill at his home. Finis says he is going to put in a system of waterworks too, and will put water right into the kitchen. Says he has also put out an orchard, and in the not distant future will make some more barn improvements. Go ye other farmers, "whole heaps" of you, and do likewise. Kid, I have read Matthew 3:1 lots of times. In fact, I think it was about the first verse of scripture I ever memorized. Did you ever read Matthew 16:18? If so why did you not refer me to it? I'll tell you why. Simply because Jesus did not say "and upon this rock I will build the Baptist church." No sir, He did not say Baptist church but He said "my" church. Now, Bro. Kid, if there existed a Baptist church in the days of John the Baptist we are bound to admit that if Jesus knew anything about it He was ignoring it when he was talking to Peter about building "my church," hence we are forced to admit that it did not meet his approval. Kid, the holiness people may love your soul but how can they love the disposition of a man who will not report their meetings? I don't believe they do. Guess I had better explain why I waited so long before trying to answer Roseite's question: "Explain why socialism would mean no government at all Plow Boy?" My pressing farm work caused me to delay one week, then my letter was too late one week. Meantime Salemite crossed bats with Roseite and was doing the work to a nicety. Just as good or better than I could have done, and I always did hate to see two on one, when one is giving "one" more than he can stand already. And therefore I was trying to play neutral and "hands off," but Roseite bawls out "I believe one of my opponents who was defending the powers that be has quit me." As much as to say, "I fixed him, didn't I comrades?" Well some people never know when they are doing well anyway. I don't mind a fellow thinking he has bested me but I can't stand it for him to "brag" about it. So I guess you have "hung your hook" Roseite, and I have just begun to tell

what I know and what I think of socialism. And before I get through you will understand that I do not accept your definition of socialism. But I beg to say that I know you, Roseite, and have the highest personal regard for you. And while I expect this discussion to be hot and furious, I hope that nothing I may say will be considered personal to yourself, except of course, such things as I shall address to you, because I believe you are honest and sincere in your belief and understanding of what socialism is. You have been nice to me so far, and I am going to try to be nice to you, but all the dope that I shall use will not be nice dope, because it will deal with sure enough socialist "dope." I presume, however, that you are plenty able to take care of yourself, and if you are not it is time you were finding it out. The trouble with socialists is they read their eyes out and talk their heads off about existing evils, the inequalities and grievous burdens that are heaped upon common humanity, and it never seems to dawn upon their minds, any more than if they had no such thing as a "mind," that this same "common humanity" does the "heaping." We out vote or could out vote our masters ten to one, hence could stop this "heaping" business, but we don't do it, do we Roseite? And we never will do it, will we Roseite? I mean with the ballot. Is not the ballot in the hands of ignorance and prejudice responsible for our present condition? I mean weak, ignorant, prejudiced humanity. Roseite, if you will leave off studying the socialist program for one year and apply yourself to the study of the "human animal" I believe you will give up socialism as a bad job. By way of illustration as to what queer capers prejudice will cause the human animal to cut, I refer you to our recent representative election. You know the result and the cause as well as I do Roseite. Not one drop of patriotism in it was there? But, oh! I forgot, you fellows are going to take all of that kind of stuff out of humanity. You are going to "perfect" humanity, aren't you Roseite? That is, Rev. St. John Tucker and Henry M. Tichenor are; on which I shall probably have more to say next week. Roseite, you say socialism does not seek to destroy our present form of government. Then you add, "We propose to take the veto power from the president and abolish the senate." Now that might not entirely destroy our old Ship of State, but don't you think her rigging would be pretty badly damaged? Plow Boy. (More next week.)

COUNTY LINE

Hello readers and Correspondents! How are you all enjoying the nice rains? We have certainly had lots of rain. The weeds and grass are getting fine. When I look out and see so many broom weeds and high grass it calls back to memory the struggle we all had with an-thrax last year, and it also makes me think what the state health officer said: That anthrax always followed protracted rains or drouths. This is Sunday. Last night was the close of Miss Pearl Frazier's school. A large crowd attended. Ivan, Duff Prairie, Fox Hollow, Bee Branch and Mountain Home were very well represented. A nice program was rendered. Bill Bunker and family attended the entertainment at Cedar Creek and spent the rest of the night and Sunday with J. P. K. Hughes and family. Mrs. T. E. Hughes and daughters, Misses Ella and Vina, visited Mrs. Creagh last Wednesday and report an enjoyable time. Well, Kid, Plow Boy says he has no special desire to please you, Salemite or myself. How does he know what it takes to please us? We have never mentioned whether we wanted him to sing or cry. I believe I would

prefer hearing him sing for he told us some time ago if he were to sing "Good Old Summertime" he would sing like a wood ant. If he can sing like an ant I would sure like to hear him perform as I like to hear the music of all of God's creatures. I hope you will not lose your crop on account of the holiness discussion. If Plow Boy is still a Methodist I think he is still safe, for none have any objections to him belonging to the Methodists. For they love fried chicken, and that shows they have good taste and know what is good. I have never heard a holiness preach so I don't know what they believe. They are good singers all right. And he wants me not to ever mention holiness to you again and he seemed to think you would accuse me of being a holiness for saying, "Sin hath no more dominion over us." "Well, we are commanded to fear the Lord but when it comes to fearing satan we do as we please about him. However, we will not use Plow Boy too rough as he does not even feel like singing. Poor fellow. Salemite, you seem to have a perplexing problem on hand. You are accused, I see, of wearing a six-shooter, however, I'm glad you are not guilty. Plow Boy seem to be jealous of the compliment you paid me for the lecture he gave me says, "If you are correct." He seems to think you are mistaken. Guess he is scared of losing that button. Thank you, Salemite, for the kind invitation to remain with you all. Yes, I have read Mr. Caudill's article. I never did like to crowd my neighbors. I like to give them plenty of elbow room. Plow oBy, I'm sorry you are feeling sad, hope you will feel better bye and bye, as you know it is not long until roasting ear time. Yes, I think I understand what you believe since you have so kindly informed me, and as to me mentioning holiness to the Kid, I think he can survive the "jerks" all right and he does not seem a bit "loony." If there is anything in "hearsay" he is a pretty good citizen and I don't think he will get it into his head that I'm a holiness for saying "sin hath no more dominion over us." That is Methodist belief too, is it not? So long as you remain a Methodist we will rest easy but if you repeat what you said about the socialists doing more for the poor people than any church or religious creed we will be sure to get agitated in the worst way. If you do not think I deserve the high compliment Salemite paid me I'll not accept it, for I do not want to accept anything I do not deserve. I'm sorry you could not give me a grocery statement for I was anxious to learn how to economize, for it seems that if we would be more saving it would be the way to keep out of debt. Say, June Roses, you do not want to cheer me too much, for you might give me the big-head and that would never do. Come in to dinner, we are going to have chicken and you know I'm glad. Thank you for your pencil. I'll hand you my pencil as it is new and red as red can be. Dreamy Eyes.

LOVING

The Children's Day exercises at the new Methodist church was a very interesting affair, and the new hall was crowded almost to standing room. It was open by the entrance of 55 little tots singing, "We are a Band of Soldiers," and the little fellows were well trained, and acted their part well. The new church building will be dedicated the fifth Sunday in this month, and the Dedication Sermon will be preached by Dr. M. H. Boaz, of Fort Worth. The Martin boys and John Saye and wife returned from Westminster, Collin county, last week where they had been attending the bedside of their father, T. C. Martin, who died last Sunday week. Mr. Martin lived at Loving for several years and has many friends

here who regret to hear of his death. Thomas B. Taylor, a Farmers' Institute lecturer, will be at Loving, May 10th and will speak to the school at 1:30 and at 7:30 he will speak to the farmers of the Loving country. Everybody come out and hear him. We want to elect two more delegates from the Loving Farmers' Institute to the State Institute which meets at Austin in July. Commissioner Saye has had the road graded from old Loving to town, and D. D. Dickenson has been employed to keep it dragged. This road has been in bad shape for some time and we are glad to see the road put in good shape. H. M. Pope, a Farmers' Union lecturer, will speak here to night (Monday.) Dr. Will Padgett was visiting relatives in this community today. Correspondent.

YANCEYVILLE

Hello Correspondents, how are you all this beautiful day? We people here in this little valley have been blessed with another big, washing rain. It rained nearly all night Saturday night and all day Sunday. We are sorry to report little Mitchell Wyatt sick again. Well, Miss Dreamy Eyes, sorry to disagree with you but I think you were a very long ways from right when you said what you did about the yellow meal. You are not judging the socialists by what they practice or preach either. If they were always judged by what they practice they would not object to the judges. Now, Dreamy Eyes, those over-doses of ammunition you spoke of are generally caused by drink. Whiskey will cause a person to do anything. Whiskey will not make any man but it will ruin any man who drinks it. You may have the whiskey to contend with if you want to, but for my part I'll take the six-shooter every time. Death by a six-shooter is quickly with, while death by whiskey is sure, but much slower. Don't yell "moderate drinker" at me, for nearly every drunkard has been at one time just a moderate drinker. Not many men believe when first they sip the withering fluid, or even when taken in moderate quantities that they will ever be robbed of his brain, his honor, self-respect, will power, or plunge headlong into an early grave. They may be just moderate drinkers for years, then suddenly begin to drink to excess, and then, they have reached the steep slide and no one is able to save them. No counsel, no lecture, no pleading or tears, can save them, for it is forever too late. Dreamy Eyes, don't you think that was rather a broad statement you made when you insinuated that I would have to spend my time after death in that sulphurous region of hades? I never knew before that I was that wicked, anyway Dreamy Eyes, I would not exchange chances with you. But don't worry so, Dreamy Eyes, I don't think you will be called on to answer for the sins of Silver Bell. I'll try not to give you any more orders than you can fill. However, I can't answer for Plow Boy. But really, Dreamy Eyes, if Plow Boy and I are guilty of giving you orders not to talk so fast, don't you believe you would come out better to heed our orders once in a while. Then you might talk a little bit slower and not get your wires crossed so badly, but talk just as fast as you want to, we don't care. J. W. Gann says he can't understand why some of the little girls call him Everett. John, we think Lura could enlighten you on the subject. Thank you very much, School Girl, for your three cheers. A large crowd enjoyed the fruit supper at the pleasant home of Mrs. Louisa Barron Friday night. The supper was a grand success. Several kinds of cake and fruit were served. Music was furnished by the

Nicklas brothers and everybody had a jolly time. Oliver Burgess and wife of Duff Prairie took supper at the Ritchey home Friday night and attended the fruit supper. Bashful Ben, please allow me to inform you that I do not make a practice of censuring a teacher unless "I'm doubly sure" that they deserve it. Yes they need praise and encouragement, so do lots of others. Now, Bashful Ben, what if a teacher does hear from the "little darling's" father and mother? A teacher nor anyone else can please everybody when they are working for the public. If I were a teacher I would do my duty in the school room regardless of the "little darling's" parents. I think far more of a teacher who would do their duty and as they thought best than I would of one who tried to do as this patron said and that patron said. And, any teacher who will do their honest duty will most always have the backing of the patrons of the school. I suppose it is a blessed good thing for me that I haven't education enough to teach school, for, according to what you say, I would always be hearing from the "little darling's" parents, for a person could not pass by the school house and say that they supposed Coxey's army was stationed in the school room from the racket. Now Bashful Ben, if you think that I have not told the exact truth, come down and we will visit a dozen schools if you say so, and I'll prove to you in ten of the schools out of the dozen, that I have told the truth. No, Goose, neither did I know that you and I were the same age. You surely married very young, for if I'm not badly mistaken in who the Goose is, you have a married daughter, and she must be rather young to be married. But Goose, maybe you are like a man I heard tell his age once. He was asked how old he was, and he replied, "I guess I'm as old as George Washington, as we were both born on the 22nd of February." But he failed to tell what year. You did the same, leaving me to suppose that it was December 23rd, 1884. Compliments, Roseite, you are sure writing some fine letters; keep them coming. D. A. Upham left Monday to spend a week with his daughter, Mrs. Bill Sweeney, of the Bee Branch community. Mrs. Sweeney's children have the scarlet fever. J. M. Hunt of Iani was in this community Sunday and Monday. Thank you, Pansy, I always try not to write anything except the truth. Thanks, Sorrell Top, but maybe you'll think I have made your pen jingle those bells entirely too much, but I hope not. Yes, Buster Blue, my bell is very unruly at times. Thanks to you, Hollyhock. Beauty, I saw your brother not long ago and I asked a certain young man if you favored your bud and he said yes, only Beauty is so much the best looking. Of course, Beauty, you understand that I only have my cousin John's word for this. As I commenced my letter over a week ago some of the news may seem rather old, however it's news just the same. Charlie Duncan of South Bend called at the Ritchey home Saturday eve. Silver Bell. Neighbors should be charitable to each other in allowing every man to have his own opinions regarding politics, religion and social convictions. All can agree upon the fundamental questions of morality, educational and community advancement and yet each may have his own peculiar views with reference to the way things should be done. The most important consideration is to build up the community morally, socially and educationally; individual views amount to very little. Let each keep his own views to himself and work for larger things—Farm and Ranch. Send us that \$1.00 NOW.

CRAIG POINT

Rain? Yes it is raining again this afternoon. I think most of the farmers around here have about decided they have had enough rain for a while, as they can hardly see their crop for the weeds. Rev. Patterson filled his appointment here Sunday and took dinner at Mr. Baugh's. Mrs. Henry Stephens of Indian Mound took dinner Wednesday with Mrs. Ben Ragland. She and Mrs. Ragland called at Mrs. Cornelius' in the afternoon. D. G. Killion visited Robert Sheppard Sunday afternoon. Mrs. L. F. Gallaher visited her son, Grover, at Newcastle Saturday night and Sunday. Mesdames E. A. and Denver Killion were pleasant visitors at Mrs. R. L. Brandon's in town Thursday. Mrs. S. D. Cook entertained company Tuesday night. Mrs. S. D. Baugh and daughter, Miss Viva, visited Mrs. Jason Mayes, in town Thursday. Misses Minnie and Lydia Watson were callers at Mr. Cornelius' Monday afternoon. Gilbert Wadley is working for his aunt, Mrs. Etta Wade, this week. There was a large crowd of "lady" folks visited at the Cornelius home Tuesday. They spent a jolly day crocheting and telling jokes on the "few men" who were there. Those present were: Mrs. John Knight and daughter, Bell, Miss Delilah Robbins of Tonk Valley, Mrs. Will Mayes and two children, and Mrs. Bill Babb and little daughter, Vera May, of Graham. Mrs. S. D. Baugh, son and daughter, Hall and Miss Viva. Mrs. Ben Ragland and son, Charlie Gant, Mesdames, E. A. and Denver Killion, and Mr. Carl Knight. There were some pictures made in the afternoon and all went home wanting to attend another such gathering. Jim Laquay returned Saturday night from Hill county where he was called to the bedside of his brother, who died April 26. We extend our sympathy to Mr. Laquay in his bereavement. Walter Cook visited his father and mother here Saturday night. Mr. and Mrs. Bill Babb of Graham spent Sunday with the home folks. Harry Cornelius and sisters, Misses Minnie and Nona, and Miss Viva Baugh attended the party at Miss Sallie Timmons' in Tonk Valley Saturday night. Mrs. Etta Wade and Miss Hazel Green were callers at Mrs. Killion's Saturday afternoon. Mrs. S. D. Baugh called at Mr. Lindley's Saturday afternoon. A large crowd enjoyed a singing Sunday night at Mr. Kelley's. Brog Carlton and Miss Nona Cornelius took supper with Miss Viva Baugh Sunday night. Messrs. Jake Jordan, Jeff Gallaher and Charlie Burch were guests of Will Cornelius Sunday. Bowen Gallaher and sister, Miss Jewell, who are going to school in town visited home folks Saturday and Sunday. Bluebird. Wasn't Interested. On a murder case in one of the Southern states an old mountaineer was called as a witness. The defending lawyer was cross-examining him. "You say you saw this murder committed?" "Yes." "How far were you from the spot when it took place?" "Bout a quarter mile." "What time was it when the deed was done?" "Bout half-past eight." "On the date this murder was supposed to be committed it would be almost totally dark, and you mean to say that you could see distinctly what happened at that time at a quarter of a mile distant?" The old mountaineer shuffled his feet, changed his quid, and stretched. "Oh, well," he said, as he started to leave the witness chair, "I don't give a gold darn about this trial anyhow."

SALEM

Sunday was a beautiful day after so many cloudy days. The river is almost fordable now, but is very boggy. Dreamy Eyes, allow me to say your head is level on the woman's rights question, and we hope Busy Bee will get busy and answer your argument on the question. The young folks enjoyed a candy breaking at J. A. McLaren's Saturday night. Mrs. Maggie Gilmore visited Mrs. Sadberry one day last week, and we are glad to report little Alex Sadberry still gaining in health. Miss Nannie Henderson spent Saturday night and Sunday with Miss Odus Carter. Our teacher side-stepped the mumps and taught four days last week. Many thanks, Plow Boy, for the shot you landed last week in the trenches of the enemy. We are of the opinion they will have to dig themselves in several times before they elect a governor of Texas. Mr. and Mrs. E. K. Criswell were pleasant and welcome visitors at John Kisinger's Sunday evening. We are glad to report that some much needed, and good work is now being done on the Graham and Palo Pinto road. The Alford lane is being graded and that, with the new bridge on Flat Rock, is a great improvement on our road. If all hands will vote to donate six days work each on the road we will have a good road, and why not do that much for the public? We all own the road. I for one will be in on it, with all the other mules on the place. Roseite in his last letter demanded several measures from our government, and if he will go through all his pockets we believe he will find nearly everything he demands. He already holds a deed to his land that allows him and his heirs to hold the land as long as they occupy it. And of course, they will hold it or its equivalent as long as there is a living heir to the estate, but when there is no heir to inherit it the land will escheat to the state. Under our law an estate can not be held together for centuries as it can be in some other countries. It is a noted fact here that it very often proves to be a case of come easy and go easy, and the estate is soon squandered, so he has no complaint in this. And next, he wants to buy land direct from the State, and there is nothing to prevent him from doing so, for there are thousands of acres of it for sale. And out of this very land thousands of fine stock farms are going to be put in cultivation. And from what he says he is perfectly willing to take chances on getting on a hillside. So go and take up your land and improve it. The very thing the State wants you to do. And the next thing he wants is an extra tax on all property that yields an income, and if he will feel in his pocket he will find an income tax law already there. Then he wants each laborer to get all he toils for, and will he please explain the charge he makes here that labor is being beaten out of its just dues? It is a fact that the progress of this country is held in check by the false teachings that the people are being robbed, and it is a fact that there are thousands who will not exert themselves over and above enough to make a bare living, and if John D. Rockefeller was deprived of all means of support, other than giving him a free hand to rob them by the thousands, then in less than six weeks time old John D., as they so familiarly dub him, would be found cold in death and the verdict of the coroner's jury would read: "Died of actual starvation." Next he wants all to have plenty of work to do, he should feel in his pocket again, for there is work on every hand and the trouble is they are all working harder to dodge work than they are to find it. A poll of the dishwashers

was recently taken in the city of San Francisco, and it showed that a large percentage of the dishwashers were college men. See, they do anything to dodge real work or to get away from the farm. Then he wants the government to own all the land and put the people to work on it. The very thing the government is now and always has been trying to do. There was a time when the government owned all the land in every state in the Union with the exception of the State of Texas, and since that time it has been giving it to any and all who would move on and develop it. And now Roseite wants the government to take it all back. Then we would have to establish a lot of new land offices and re-survey the whole thing. Well, he is slippery, for when Tulip hit socialism on the "divide up" shin he declared socialism doesn't want a divide up and at the same time he utterly fails to explain how he is going to reach community ownership without a divide up. So we can only make a guess at it. You know that when "Topsy" one of the characters in Uncle Tom's Cabin was asked how she was brought up she answered, "I dis grode up," and we suppose Roseite expects community ownership to "dis grow up." We still hold that the man who invests in a business and who manages and takes all the risks in there being any profit in it, after all expenses are paid, then if there is any balance left, that it is wages for the part of the work he performed. Our All Wise Creator in His wisdom made no mistakes. His work is perfect, and He is all powerful. He could have made another rose instead of the rattlesnake, but we infer He did not deem it best to do so. He made the birds and fully provided for them, as He did also for man, but a little observation will prove that He does not gather the food and cram it down the bird's throat and neither does He build their nests, but He fully provides for all this, for the Lord does and will provide. And, if man, filled the sphere that God intended for him to fill as nearly as the birds fill theirs there would be no cause for grumbling, and you could count all the kickers on the fingers of one hand. Big guns or little guns what is known in history as the Free Cities gave feudalism its death stroke. The fiefs of the feudal Barons included not only the land but also the cities, and among them were Venice, Genoa, and several others, and the feudal Barons, with their retainers made up the main part of the army that went to the holy land to wrest the tomb of the Savior from the hands of the Mohammedans. And on their return from the war they were dead broke and when they went to take possession of their fiefs the cities revolted and gained their independence. And they established a pure or a straight democracy, the same kind of government that the socialists are now demanding. That there was overlapping of systems we admit, but the Free Cities was the main cause of the downfall of feudalism. But capitalism did not grow out of feudalism. We are concerned about capitalism only in this country and not about the time kings repudiating debts, both interest and principal, in the middle ages. If Roseite will take up the story of how the funds were raised to conduct the Revolutionary War he will discover that Robert Morris acted as agent in selling the bonds, and in raising the cash to conduct the war. And in the Civil War, on the side of the north, Jay Cook, played the part of the agent and the bonds were sold to people in all walks of life. Cook has his agents so well organized that he raised \$7,000,000 in cash by the sale of bonds in 145 days. You will note here that it takes cash to conduct a war and more of it than is required in any other single undertaking. And at the

close of each war the bonds issued by the winning side becomes a good investment and, of course, drift into the hands of those who are able to invest in them. Roseite, capitalism, root, branch and every leaf on it grew out of war and is still growing out of it at the rate of \$7,500,000 per day in Europe today. A writer in the Saturday Evening Post says: "War runs prosperity into debt. Germany's second loan in this war reached a total of \$2,225,000,000 the absolute world's record." Will it ever be paid? Will not posterity revolt and repudiate the whole debt? Do away with all the causes leading up to war, Roseite, and by that very turn of the wheel you will land us on the high plane of socialism, and you will find the millennium there spread out before you and your dream will prove a reality. An admirer of General Grant once said of him, "It is true the General is not a good talker and can't make a speech, but he can look whole volumes." Now we believe if a man knows that a thing is so, and knows why it is so, he can tell it in a way so others can understand it. Something the socialists have failed to do up to date. No we don't understand it. Salemite.

NORTH MIDWAY

Health is very good as far as I know. We had another rain Thursday night. It looks very much like it might rain some more today (Sunday). Our dear old Reporter is getting better all the time I think. As a county newspaper it can't be excelled. Farming in this part of the country is going slow now on account of so much bad, wet weather. The Brazos river has been very high at this place. The dump at the end of the suspension bridge south of here washed away. The road crew got busy and prevented any further damage. The M. K. & T. railroad that comes by here has sunk from six to twelve inches in some places. Merritt Cunningham and Miss Sophia Quisenberry, and Ernest Jones and Miss Emma Cunningham were out buggy riding last Sunday afternoon. Miss Grace Trimble was sick the first part of last week. Her sister, Fay, had a chill Monday morning but we are glad to report them much better at this writing. Miss Emma Cunningham went to town yesterday (Saturday) morning. Tom Trimble was at Mr. Wiley's a while last Sunday afternoon. J. B. Terrell was in Newcastle Saturday afternoon. Merritt Cunningham worked at Ingleside again last week. Braz Evitt caught a wolf the first of last week and was out again on a chase Wednesday night. Mrs. Terrell and niece visited Miss Grace Trimble last Sunday afternoon. I wish Dewey Wiley would leave this place. He has a lot of new music and keeps me awake every night until 10 o'clock playing his old fiddle. Miss Lelia Boynton visited Miss Roxie Williams Saturday night and Sunday. L. Cunningham went to town yesterday. Ruel Proffitt left on the train Wednesday morning going to some point in West Texas. The party at Mr. Evitt's Saturday night was enjoyed by all present. The party at Mr. Lindley's Wednesday night was enjoyed by all present. Salemite, it was your brother instead of you that the old citizen was speaking of. He asked me to correct that mistake. News is scarce so I will quit. Take this pencil, Buster Blue, and don't fail to write next week. Azure Skies.

BUNGER

Last Thursday Uncle John Driver was visited by Mr. Mullenax and while there he and his dogs killed seventy-one rats, and it wasn't much of a day for rats either. G. W. Mahaney says he does not think his stock will have anthrax for he has got just one bushel of International Stock Food. Sunday school at 10:30 and singing at 4 o'clock in the afternoon. H. A. Driver has ordered him a new gun. Work will begin on the gin here in a few days and a new galvanized iron roof will be put on. Tom Beach was here this afternoon trading and telling fox tales. He bought two goose-neck hoes and when Mr. Henry handed them up to him his pony lost his head and Tom lost his hoes. Mr. Watson took some corn to Graham Saturday for the market. John Clark hauled out some goods for the Bunger Mercantile Co., Saturday. Mrs. Price has the chicken pox. Oscar James and Odel Johnson killed a large rattler Sunday morning. Oscar James says he has more rats than all the rest of Texas. They have destroyed sixty bushels of corn, two middlings of meat and a wire cable. Mr. Driver has order a stock of shoes and I guess they are in by this time. If the devil can read this he can beat me. Joe Upham caught a nice cat fish Monday night. Mrs. H. A. Driver and children visited Uncle John Driver and wife Tuesday. Mr. Kelley is in town today having some blacksmith work done. F. M. Berry purchased his wife a thirty horse power refrigerator Saturday. I guess they will have good, cold milk and butter this summer. G. Parsons and another drummer were in Bunger Tuesday. Goose.

TONK VALLEY

Crops sure do look promising since the fine rains. Mighty little cotton has been planted as yet, but lots will be planted this week. A large crowd was present at Sunday school and church Sunday, there being 112 in attendance. Rev. Patterson preached. Let us continue going to Sunday school and have the best Sunday school in West Texas. Mesdames Denver Killion and E. A. Killion of Craig Point, Misses Minnie and Nona Cornelius, Viva Baugh and Mr. Will Cornelius of Briar Branch and Brog Carlton of Graham were among our visitors at Upper Tonk Sunday. Miss Rudelle Seddon and Geo. Jones called at Mr. Robbins' Sunday afternoon. Mrs. G. T. Cherryhomes and little son, I. B., went to town Tuesday afternoon. Mr. and Mrs. Lee Jones took Sunday dinner with the Higdon family. Will Seddon, Charlie Reedy and Ernest Beckham made a business trip to Graham Saturday. Mrs. Wixom spent Saturday at Mr. Robbins'. W. E. Simpson of Hawkins Chapel called at Mr. Robbins' Saturday afternoon, and attended the party at Miss Sallie Timmons' Saturday night. Burnie George called at John George's Friday afternoon. The storm didn't do any damage out this way, except blew down some trees and some of them were peach trees. Born, to Mr. and Mrs. Bruce George, Monday night, a fine baby girl. Will Seddon and mother called at Mr. Renick's in Lower Tonk Sunday afternoon. Mr. and Mrs. Sam Ragland visited her mother in the Pleasant Hill community Saturday night. Flies and Borax.

Do you know that Uncle Sam has discovered that borax sprinkled on manure, floors of stables, toilets, garbage, and other places where flies lay their eggs will prevent their hatching and yet, in anything like ordinary quantities, will not destroy the value of the manure?

In the experiments a little over half a pound of borax was scattered on eight bushels of manure and it killed the maggots and prevented the flies from developing.

If you decide to use borax around your premises scatter it through a fine sifter around the edge of the pile where the flies congregate. Pour a few gallons of water over the pile to make the maggots work to the outer edge. Do not use more than a teaspoon of borax to the contents of the ordinary sized garbage pail if the swill is to be fed to hogs, as borax, alum and such things in any quantity are known to be disturbing to the digestion.

Borax costs ten cents a pound retail and five or six cents in hundred pound lots.—Progressive Farmer.
