

A weekly public service feature from the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Mother nature has many faces. In spite of all her gentleness there is a destructive side as well. Consider, for example, the tornado, one of the deadliest phenomena in nature.

Many of these violent storms occur during the springtime, when the earth is waking from its winter slumber. The destructive, whirling wind may strike almost without warning and seemingly at random, sweeping everything out of its way with a shiplash tail that moves in a narrow path across the land.

At one time, about all that people could do to guard against being killed or injured by a tornado was to be on the alert for tornado weather and to move underground -- into a storm cellar--when conditions warranted.

While oldtimers had to rely on experience to assess the possibility of a tornado, electronics plays a major part in today's alert system. Radar storm warning sets are used, in almost all major cities in the state. These stations are

connected by teletype and radio. Any station is able to instantly apprise all other stations of tornado activity and the path of a tornado. Then, all communities in the vicinity of the twister can be warned of the tornado's approach through normal channels of communications, or through special warning devices.

The Texas State Department of Health has joined with other state and federal agencies and medical associations in efforts aimed at disaster preparedness. It is ready to go into action in any emergency.

If worse comes to worst, and a tornado does strike a community, the State Health De-

partment can provide vaccine, public health engineering, medical emergency nursing know-how, and other vital services, to stem the threat of disease or further complications while disaster relief is underway.

One of the best examples of public health action following a highly-destructive tornado occurred in Lubbock, five years ago.

Although storm warnings were in effect, the tornado which actually hit the city appeared out

of nowhere--forming just above the downtown section at 10 p.m. One of the first things knocked out was the emergency warning system.

With much of Lubbock's communication system knocked out, the health department staff and other city personnel were on their own in following the emergency procedures that had been established in advance. Vaccines and other medical supplies were dug out of the demolished health department

building for transfer to an emergency clinic.

State Health Department engineers and other personnel arrived on the scene early the next morning. Food and drug investigators were assigned to Lubbock immediately and within a week had disposed of all spoiled foods and drugs. A large supply of tetanus vaccine was sent by the Health Department laboratories. Rapid insect control activities were vital because of the large amounts of rain.

As in all similar disasters, the one great lesson learned was the value of being prepared. Over the years, the National Weather Service has developed a system to accurately report severe weather conditions. The public is informed by radio and television advisories. For tornado activities, the terms used are "Tornado Watch", indicating the possibility of a tornado; "Tornado Warning", meaning that a tornado has been reported in the gen-

eral area; and "Tornado Alert", meaning to act fast, that a tornado is known to be in the area.

What can you do in the face of a tornado alert? If it's daylight, or if you can see the funnel advancing toward you, you may have time to move out of its path. If you have a storm cellar, you should move into it.

If you can't get out of the way and you don't have a storm cellar, you can still protect yourself.

In homes, open some windows and then keep away from them. Get to the center of the house, or to a basement if there is one.

In schools, move to prearranged shelter areas. Post a lookout if it can be done safely.

In shopping areas, to designated shelter areas.

In mobile homes, evacuate the area. If no shelter is nearby, leave the trailer park for low protected ground.

Chambers...

merce, more than any other organization, feel the pulse of the community and have as a top priority the creation of jobs and the expansion of industry."

The headquarters for the new program will be in the Capital City, and the Texas Industrial Commission has been named prime state agency contact.

The chambers of commerce will be asked to work with local business and industry to secure pledges to hire new workers. As companies sign these pledges, the state will help the local area in finding the workers and training Texans to meet the skills of the new jobs.

Muleshoe...

service award. Mrs. Steve Bass received an award for Outstanding Service to the Heart Association.

Gil Lamb and KMUL received an award for their contribution and help for the Heart Association Radio Day and for publicity.

The state meeting will be held in San Antonio June 21. Delegates from Bailey County will be Dean Spraberry and Mrs. Steve Bass. The alternate delegate will be Joe Harbin.

Mary Johnson, regional director, is moving to Nashville Tenn, and will be missed in the region. She will be replaced by Joyce White, Lubbock.

The next regular meeting will be June 12.

Students...

Smith.

Three Way High School will graduate its senior class Tuesday, May 27, at 8 p.m. in the Three Way cafeteria.

Valedictorian for the class of 1975 is Debbie Furgeson, daughter of Mr. and Mrs. J.F. Furgeson of Star Route 1, Morton. Miss Furgeson's four year average is 93.98.

The Salutatorian is Pam Partlow, daughter of Mr. and Mrs. J.F. Partlow of Goodland. Her four year average is 92.05.

The highest ranking senior boy is Robby Sowder, son of Mr. and Mrs. Herbert Sowder of Baileyboro.

Eighth grade top students at Three Way are Kenneth Eubanks, son of Mr. and Mrs. W.C. Eubanks of Maple, Valedictorian, and Beverly Kay Dupler, daughter of Mr. and Mrs. Leon Dupler of Maple, Salutatorian.

Other Three Way graduating seniors are Clifford Dupler, Avelina Estrada, Debbie Furgeson, Don Simpson, Robby Sowder, Jerri Hardaway, Rickey Lee, Martina Morin and Pam Partlow.

Evidently the last graduating class of Bula High School will graduate Friday, May 23, at 8 p.m. in the school auditorium. Baccalaureate will be held Sunday, May 18, at 8 p.m. in the auditorium.

Valedictorian is Lisa Risinger and Salutatorian is Susan Layton.

Members of the graduating class are James Saitker, Keith Claunch, Rhea Lynn Casey, Lisa Risinger, Kelly Sinclair, Oralia DeLaRosa and Susan Layton.

Eighth grade graduation will be held Thursday, May 22, at 8 p.m. at the school.

Next year the Bula students will be attending Three Way School.

Three-Way...

Cont. from Page 1
and Mrs. J. Dupler accompanied the seniors.

Also, the seniors were guests of the faculty of Three Way at the LaVilla Steak House in Clovis last week.

Other events in honor of the 1975 graduating class have included a banquet at the Three Way Baptist Church with entertainment furnished by the West Texas State University Baptist Student Union and a supper at the Hicks Chapel Baptist Church.

AUGUST WEDDING PLANNED . . . Mr. and Mrs. Robert Hooten announced the engagement of their daughter, Gayla, to Kerry Wagon, son of Mr. and Mrs. Joe Mack Wagon, all of Muleshoe. The bride-elect is a 1974 graduate of Muleshoe High School and has completed one year of study in Secondary Education at McMurry College in Abilene. She is a member of Theta Chi Lambda and Wah Wah-taysee. Wagon graduated from Muleshoe High School in 1973. He has completed two years study at West Texas State University, majoring in Computer Information Systems, and is a member of Alpha Kappa Psi. The couple will exchange marriage vows August 15, 1975, in the First United Methodist Church of Muleshoe. They plan to continue their education at West Texas State University.

Young Homemakers Elect Officers

The Muleshoe Young Homemakers met Tuesday, May 14, at 7:30 p.m., in the Homemaking Lab of Muleshoe High School. Election of officers for the 1975-76 year was held: president - Mrs. Randy Bush, first vice president - Mrs. Mike Richardson, second vice president - Mrs. Randall Copley, third vice president - Mrs. Wayne Copley, treasurer - Mrs. Mike Bean, secretary - reporter - Mrs. Carroll Kelton, parliamentarian - Mrs. John Mann, and historian - Mrs. Brian Noble. Members present discussed Lady's Night Out to be held May 27 at Ranchers and Farmers Stead House in Clovis. Mini-Activity day which was to be held May 17 has been cancelled.

Members present at the meeting were Mrs. Randy Bush, Mrs. Randall Copley, Mrs. Raymond Davenport, Mrs. Gary Elliott, Mrs. Jerry Lee, Mrs. John Mann, Mrs. Brian Noble, Mrs. Jim Parrish and Mrs. Mike Richardson.

Know seasons. If consumers know when to expect the peak seasons for fresh foods they can time purchases to get

high quality at lowest prices, according to Mrs. Gwendolyn Ciyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Llano Estacado Installs New Officers

The Llano Estacado Civic Club met Tuesday, May 13, at 8 p.m., at the Muleshoe State Bank. The meeting began with a Mexican food supper prepared by the members, and the revealing of secret pals. The representative from the Continental Publishing Co. was in Muleshoe May 12 and 13 to sell ads in the Personal Planner booklets. Club members will be selling these planners later in the summer. The Personal Planners will include a planning calendar; a history of Muleshoe, Old Pete, and Llano Estacado; a map of Muleshoe; and a list of all civic and social organizations, and public schools, library, and hospital.

The members voted to donate \$100.00 to be spent to help handicapped children to Camp Kiwanis this summer. Sandy Peterson announced that Kay Harris had been selected as Outstanding Member for 1974-75.

Renee Barrett presided over the installation of new officers. Officers for 1975-76 are: President - Kay Harris; Vice President - Willie Reeder, Recording secretary and reporter - Flonita Ashford, Corresponding secretary - Dolores Kelton, Historian - Marsha Rasco, Treasurer - Betty Clayton, and Parliamentarian - Faye Armstrong.

It was voted to plan the annual Hoe down as our Fall Project. Marsha Rasco will be chairman of the Hoe down.

Members attending were Mrs. Mike Armstrong, Jess Bryant, Carson Clayton, Gary Freeman, Royce Harris, Dick Kelton, Homer R. Long, Odell Rasco, H.E. Roeder, Gary Skaggs, Gary Toombs, and Ronald Ashford. Special guests were Mrs. Rickey Barret and Wayne Peterson.

VEGETABLES -- SHOULD WE EAT MORE?

"Yes," say most nutritionists. Americans would benefit nutritionally, by eating more vegetables -- four or more servings a day (including fruits). Vegetables as a group are im-

portant sources of Vitamin C and Vitamin A and contribute useful amounts of iron -- three nutrients most frequently found lacking in our diets according to every recent survey. In addition, they contribute a wide variety of the 20 or so other vitamins and minerals we need.

MR. AND MRS. BOBBY BROYLES

Reception Honors Lazbuddie Couple

Mr. and Mrs. Bobby Broyles of Lazbuddie were honored at a reception on the occasion of their 25th Wedding Anniversary on Sunday, May 4.

The reception was held from 2 to 5 p.m., in the Community Room of Friona State Bank. Hosting the occasion were the couple's children, Mr. and Mrs. Terry Copley and Mr. and Mrs. Fred Cochran, all of Friona and Bobby Lynn Broyles of Lazbuddie.

The table was covered with a yellow and white quilted checked cloth with lace edging. An artificial arrangement of yellow and white spring flowers centered the table setting. Candleholders with yellow candles were on each side of the centerpiece. Accenting the table setting was the three-tiered cake decorated in yellow, green and white.

Progress 4-H Club Meets

The meeting was held on April 15, in due form with Tommy Wheeler protem president and Jo Ronda Rhodes as secretary. Curtis Wheeler gave the Pledge of Allegiance, Nancy Ramm gave the 4-H pledge, and Tori Hunt gave the prayer. Jo Ronda Rhodes called roll and read the minutes. Tommy Wheeler gave the treasurer's report. Sheila Hunt gave a report on the Leathercraft Project group. Mrs. Joe Rhodes talked about the community service project which we hope will take place soon. Spencer Tanksley gave a program on Quarter Horse Judging. He showed some slides and talked us about selling garden seeds, for a money-making project. Mrs. Ronnie Shafer discussed setting up booths and selling handcraft items the kids have made and she also brought up that they would have a class on photography for anyone interested. They discussed the Quarter Horse Judging Team, and they talked about the playday. Everyone was asked to stay and help clean up. Then the meeting was adjourned.

Attending the meeting was leader Robert Hunt and Junior leader Curtis Carpenter, Sharon Carpenter, Pam Davenport, Kevin Grant, Steven Criswald, Kacy and Mike Henry, Sheila, Curtis and Tori Hunt, Melissa Jones, Chris Kimbrough, Alta and Clayton Ramm, Nancy Ramm, Jo Ronda and Lavon Rhodes, Keve Roming, Jason and Preston Scoggins, Lynette and Dorinda Shafer, Terry Shafer, Delia and Darin Shaw, Paula and Curtis Spelt, and Tommy and Curtis Wheeler.

Punch, nuts and mints were served from crystal appointments.

The couple's daughters presided at the serving table. Mrs. Rex Steinbock registered the guests.

Approximately seventy-five guests attended.

Mrs. Lena Steinbock, Mrs. Broyles' mother, was a special guest.

Bobby Dale Broyles and Fern Marie Steinbock were married on May 6, 1950 in Muleshoe.

4-H Group Finish Project

The Progress 4-H Leathercraft Group finished their belts on April 30, 1975. They met at the home of Robert Hunt. They had punch and cookies for refreshments. Everyone finished tooling their belts and put two coats of lacquer on them. Attending the meeting were Robert Hunt, leader, Curtis Carpenter, Junior leader, and members Sheila, Curtis and Tori Hunt, Lavon and Jo Ronda Rhodes, Connie Puckett, Sharon Carpenter, Keve Roming, Chris Kimbrough, Kevin Grant, Scott Saylor, Delia and Darin Shaw, Alta and Clayton Ramm, Kacy and Mike Henry, Greg Harrison, and Lynette Shafer.

Hobby Club Holds Meeting

The Muleshoe Hobby Club met Thursday May 15, at Muleshoe State Bank community room. Mrs. Sylvan Robison was the Hostess. Hostess gift was drawn by Mrs. L.M. Hardage.

Those attending were: Mrs. LeVina Pitts - quilting windmill picture, Mrs. C.E. Briscoe, Mrs. Henry Bass - swan powder boxes, Mrs. Reheal Williams - avon bottles, Ms. Barbara Burton - pillow, Ms. Mae Lloyd - love birds, Mrs. H.H. Carlyle, Ms. Verna DeMent - hot pads, Mrs. Sylvan Robison, Mrs. Sammie Ethridge - old time mail box, Mrs. Jewell Griffith (visitor) - quilting pictures, Mrs. George Chambliss, Mrs. Mabel Caldwell - macramé owl and hangers, Mrs. Marvin Oswald, Ms. Bernice Amerson - macramé hangers, and Mrs. L. M. Hardage (visitor).

Next meeting will be June 5 with Mrs. H.H. Snow hostess. We will meet for an all day workshop May 27. Bring covered dish.

Nursing Home News by Myrtle Guinn

Mr. and Mrs. Leon Lewis came Thursday morning to see his mother, Mrs. Lewis. Leon is using his crutches real well and we are happy to see him looking so well and happy.

Mr. and Mrs. Kenneth Large of Littlefield visited her mother, Mrs. McDaniel, on Friday evening and brought her a gift for Mothers' Day, and her husband, Dr. McDaniel gave her a beautiful red rose in a vase. She is happy to have them.

Mrs. Hardin's daughter, Gladys, came Sunday morning and took her out to her granddaughters home for the day and a delicious dinner.

Mrs. Lavada Lassiter of Whiteface came Monday morning to visit her mother, Mrs. Newton who is bedfast. Mrs. Lassiter comes each week and brings several of us and the nurses lovely cakes that she bakes.

So many of us have received flowers, roses and corsages for "Mothers' Day" and also several gifts from friends and loved ones, we are enjoying them all very much. Our thanks sincerely for their thoughtfulness.

Mrs. Lula Vinson visited with me on Thursday, I have had her for a neighbor for several years, and always enjoy her visits.

Ernest Lockeridge is a new resident here in the home. He shares a room with Sanford Gilbreath over on the north of the east hall. Ernest went home recently.

Mrs. Boydston had five of her eight children here for Mothers' Day, they were James Boydston of Ralls, Texas, W.R.

ENGAGEMENT ANNOUNCED AT DINNER PARTY . . . The engagement of Miss Marilyn Claire Pool to Michael Brent Riley was announced by her parents, Mr. and Mrs. William Myron Pool II, Thursday evening at a dinner party in their home. Riley is the son of Mr. and Mrs. Claude V. Riley. Grandparents are Mrs. Roy Jordan, Mr. and Mrs. Myron Pool Jr., and Mr. and Mrs. Guy Nickels, all of Muleshoe. Miss Pool, a graduate of Muleshoe High School, has attended Baylor University, Texas Tech University, and West Texas State University, where she was affiliated with Zeta Tau Alpha social sorority. Marilyn is a junior majoring in interior design. Riley graduated from Muleshoe High School and is presently a junior business major at the University of Texas at Austin. They both plan to continue their education at the University of Texas. The wedding will take place August 23, 1975 in the First United Methodist Church, Muleshoe, Texas.

Boydston of Abilene, Mrs. Maurice Price, of Lamesa, Mrs. Dorothy Knight, of Lubbock, and Mrs. Opal Talley of Muleshoe. She had two daughters and a son in California who were unable to come.

Mr. and Mrs. T.L. Glasscock came to see her brother Mr. Sanford Gilbreath on Wednesday morning, the Glasscocks have been gone on a trip to Florida, and other places of interest for about three weeks, we are happy to see them back.

SURPRISE EVENING . . . Mrs. Lewis Dale and Mrs. Lewis Wayne Shafer honored their daughters Diane and Ellen with a graduation party Tuesday, April 23, at the Hayloft Dinner Theatre in Lubbock. The group enjoyed having dinner and seeing the play, "Odd Couple" starring Alan Young. Other guests attending were Jana Garrett, Jan Hardin, Ginger Johnson, Lavern Carpenter, Pam Loyd, Joice Killough, Terri Crane and Susie Cosatte.

MRS. DAVE LYNN

Mrs. Dave Lynn Honored With Shower

Mrs. Dave (Vicky) Lynn was honored with a baby shower at the home of Mrs. Ed Nickels Thursday, May 15, from 7:30 to 9:00 p.m.

The table was covered with white daisies and crystal appointments. Yellow and green thumbprint cookies, punch, and coffee were served for refreshments.

Hostesses were Mrs. Rodney Murphy, Karen Williams, Peggy Burnett, Mrs. Loyd Garlington, Mrs. Wendell Robinson, Mrs. Harlan P. Stockard, and Mrs. Ed Nickels. Hostess gift was a play pen.

Approximately 40 guests attended. Special guests included Mrs. Walter Kaltwasser, Far-

well, mother of the honoree; Mrs. Betty Lynn, Eunice, N.M., mother-in-law; and Mrs. Gilbert Kaltwasser, Farwell, an aunt.

SORORITY DONATES \$300 . . . The Alpha Zeta Pi Chapter of Beta Sigma Phi donated \$300 this week to the Muleshoe Hospital Action Fund. Shown presenting the check to Rev. H.D. Hunter are Mrs. Danny Noble and Mrs. Louis Cardinal.

H.D. Club Meets

The Enochs HD Club met at 2:30 p.m., May 14, with Mrs. Chester Petree presiding. Mrs. L.E. Nichols read the minutes of the previous meeting and called the roll. Each answered with how I arranged cleaning supplies. The State Texas Home Demonstration meeting will be held Sept. 23, 24, and 25, in

Abilene, Texas. Mrs. L.E. Nichols was elected to go and Mrs. Bill Key was elected as alternate.

Election of officers for the coming year was held. Elected were: Mrs. L.E. Nichols, president; Mrs. Zelma Fred, vice-president; Winnie Byars, secretary-treasurer; council delegates, Winnie Byars and Mrs. L.E. Nichols; yearbook - Bonnie Long and Rose Nichols; finance - Winnie Byars and Alma Altman; E.E.E. - Alma Altman; telephone, special, and reporter - Bonnie Long; recreation - Ada Long.

Mrs. L.E. Nichols gave a program on first aid. She gave several pointers on things to do in an emergency. She brought a first aid kit she had assembled. It was in a 3 pound coffee can and compact enough to have in a camper, car, or wherever it might be needed. Those present at the meeting were Winnie Byars, Zel-

ma Fred, Lillian Fort, Mrs. L.E. Nichols, Mrs. E.M. McCall, Alma Altman, Bonnie Long, Mrs. Bill Key, Rose Nichols, Ada Long joined as a new member. Paula Nichols visited after school.

PRACTICING . . . Wibelo Troop meeting program on artificial respiration was given by Joe Harbin. The boys are practicing what they had learned about artificial respiration. The troop leader is R.G. Bennett III.

Art Association Contributes To Hospital Fund

The Muleshoe Art Association met Tuesday, May 13, in

the Muleshoe State Bank Community room, at 2 p.m. Rev. H.D. Hunter spoke to the Guest and members about the progress of the Hospital Fund, which was very interesting.

The minutes were read by Mrs. Joe Smallwood. Mrs. Jack Schuster discussed the plans for the 4th of July Art Show, scheduled to be in the Muleshoe State Bank Community room.

The nominating committee, Mrs. Gil Lamb, Velma Davis, and Dana Arnold, had previously selected new state officers. The nominations were approved. Names of these officers will be given at a later date.

This month's guest artist was Lawanda Carlton of Portales, N.M. She teaches art and has numerous workshops in other cities. She has painted since she was twelve years of age.

The Art Association would like to take this opportunity to express their thanks to the Muleshoe and surrounding area merchants for renting paintings for display. The rental of these paintings enables the Art Association to contribute to the Hospital Fund, and help sponsor the Art exhibit show in July.

GUEST ARTIST . . . Lawanda Carlton of Portales, N.M. visited with the Muleshoe Art Association on Tuesday, May 13, in the community room of the Muleshoe State Bank. She was the guest artist of the month.

Members present were: Mrs. Gilbert Watson, Beryl Hicks, Mrs. Conrad Williams, Mrs. Eddie Beene, Mrs. Cass Stegall, Elfreda McGeehee, Dana Arnold, Mrs. Joe Smallwood, Tice Hugg, Tona Sones, Myrtle Steinbock, Velma Davis, Mrs. Donnie Carpenter, Mrs. Jack Schuster, Lucy Lewis, El-

sie McMillan, Mrs. Sam E. Fox, I.W. Chapman, Mrs. C. E. Roark, Mary Sweatman, and Mrs. Leslie Smith. Guests were Susie Carpenter, Rev. H. D. Hunter, Opal McColney, Margie Poyner, Shirl Bradshaw, Mrs. Carrie Lee Bishop, Kathryn Griffin, Lavanda Calton, and Mrs. Joe Roard.

BIBLE VERSE

"Lay not up for yourselves treasures upon earth, where moth and rust doth corrupt, and where thieves break through and steal."

1. Who made the above statement?
2. Upon what occasion?
3. What was the concluding remark in this instance?
4. Where may this statement be found?

Answers To Bible Verse

1. Jesus.
2. During the Sermon on the Mount.
3. "For where your treasure is, there will your heart be also."
4. Matthew 6:19.

Damaged Gardens Decisions On Weather

COLLEGE STATION -- Home vegetable gardens are highly susceptible to high winds, heavy rains and hail contained in spring thunderstorms in Texas. And recent weather has taken its toll.

"Damage is often widespread, and then decisions must be made as to whether to leave the damaged plants in the garden or to start over and replant," points out Sam Cotner.

"Some plants such as squash, cucumbers and beans often receive heavy damage," says Cotner, a vegetable specialist for the Texas Agricultural Extension Service. "They generally recover slowly, if at all, so it is often best to replant. If there is sufficient room, the less damaged plants can be left while the remainder of the crop is replanted."

According to Cotner, most vegetable seed will germinate

rapidly now that the soil has warmed, so replanting is often the best alternative. Of course, if transplants can be obtained, the gardener can gain several weeks of valuable growing time.

In many areas it is too late to replant some garden crops such as potatoes, carrots, cauliflower and other cool season vegetables.

"Due to late season cool weather, spring gardens have generally been making limited growth until the past several weeks," points out the specialist. "So, even though replanting will bring some delays, these may not be quite as great this year due to overall seasonal conditions."

Whether gardeners leave damaged plants to recuperate or whether they decide to replant, the overall delay in home vegetable production will mean closer attention to care and maintenance of the growing plants in the coming months, emphasizes Cotner. "Insects will become more active as the growing seasons progresses, so plants must be checked more closely and control measures taken as the situation warrants. Also, watering will become more critical as the growing season enters the hot summer months."

"Adversity such as that resulting from severe weather damage tests the 'true grit' of the home gardener," says Cotner. "It makes him realize that vegetable production isn't all 'peaches and cream' and that all the fresh produce at the supermarket doesn't just happen. Hopefully, however, it will bring all home gardeners closer to nature and to living things, and will instill in them the will to try again."

For the best advice on what to plant in your area, contact your county Extension agent or your local nurseries.

The Sandhills Philosopher

Editor's note: The Sandhill Philosopher on his Johnson grass farm reacts to a new law proposed by some newspaper reporters.

Dear editor:

Enthusiasm in what you consider a righteous cause can sometimes be carried so far it meets you coming back and you wish you'd never got involved.

For example, everybody knows there has been a lot of lying in government in recent years, starting say a thousand or so years ago and reaching top honors with Watergate, so a group of Washington reporters has come out for a law making it "a Federal crime for a public official to omit important facts or make any false statements to the public or the press." The law would be patterned after the truth-in-advertising law.

On the surface this sounds reasonable, a government official who'll stand up and lie to the people ought to go to jail, but then I got to thinking. In the first place, we don't have that may jalls.

In the second place, I'm not sure lying is confined to public officials, and I'm certainly not

saying all public officials lie. Some of them have their public relations men do it for them. Nor do all public officials intentionally omit any important facts. Some of them are like me, they don't know what the facts are.

To clear this up, what I'm saying is that public officials probably don't lie any oftener than private citizens, and there's the rub for those Washington reporters clamoring for a new law.

Don't they know that if it becomes a Federal crime for a public official to omit facts and tell lies, it won't be long till the law is extended to cover reporters and newspapers? Maybe even fiction writers, TV announcers, college presidents, football coaches, husbands, wives, high school students, and a batch of 4-year-olds?

By then the cat'll be out of the bag, the courts will be so clogged the national budget will have to be doubled to work out way out from under the load. Those reporters just weren't thinking.

Besides, this lay sounds like something proposed by trial lawyers.

Yours faithfully,
J.A.

TEXAS TALK

The worst is over... probably. Statements like this have become the most common hedge in the cattle industry in the past few weeks as top executives of the beef business find reason to be cautiously optimistic in the face of rising per capita consumption and a decrease in the industry's number one problem, glut. Caused by a combination of price controls, natural cattle cycle (cattle population reaches a cyclical peak every 10-11 years) and high feed prices, glut (oversupply) seemed for a while to be unending. Consumers are solving the problem by buying more beef and accepting grass-fed meat. Packers buying grass-fed cattle have to use 2 or 3 of the young pasture-fed cattle to produce as much meat as a single grain-fed animal. So the problem seems to be solving itself, but even the optimistic cattlemen (not the easiest thing to find) say it will take at least 18 months before the industry is back to normal.

Texas Manpower Needs To 1980 Forecast

What will be the manpower requirements of Texas for the next five years?

Planners need the answers to that question. Training workers for the jobs of the future requires something more than current data and some guesswork about the conditions of the economy in 1980.

The Texas Employment Commission has some answers in the report "Changing Horizons: A Profile of Jobs to 1980", which offers some valuable insight into the future employment trends by industry and occupation. The report was produced by the agency's Manpower Data Analysis and Research Division, headed by Horace Goodson.

The publication identifies those jobs where workers will be in short supply five years from now, jobs which will require most training. It pinpoints new jobs caused by business growth, as well as annual average job openings brought about by workers who die or retire. The rapid growth of Texas makes it urgent to identify both new jobs and replacement jobs.

The projections in "Changing Horizons" are made in far greater detail than any others attempted previously. Manpower requirements for 1976 and 1980 are given for some 260 specific industries and combinations thereof. Occupational information is provided in more than 450 detailed classifications.

Projections for the entire state are given top priority in the report. Now, for the first

time, projections are also made for selected Standard Metropolitan Statistical Areas -- Austin, Beaumont-Port Arthur-Orange, Corpus Christi, Dallas-Fort Worth, El Paso, Houston, and San Antonio.

The information in the Houston and Dallas-Fort Worth publications contains the same detail as that for the whole state, but the industry forecasts for the other areas is presented in lesser detail. All the area publications provide occupational information in the same detail as that of the whole state.

The projections presented in the report represent the combined efforts of the U.S. Bureau of the Census, the U.S. Bureau of Labor Statistics, and the Texas Employment Commission. The industry forecasts were based on Texas industry data collected by TEC. Occupational data is based on the 1970 census of Texas and projected National staffing patterns to 1980.

As with any projections, certain assumptions about the future are made by the report. It takes for granted that the framework of the American economy will not change radically.

that economic, social, technological and scientific advances will continue, with additional emphasis being placed on education, income and leisure.

Copies of the report may be ordered from the Texas Employment Commission, Manpower Data Analysis and Research Division, State Office, Austin, Texas 78778.

Research To Combat Tick Fever Outbreaks

AUSTIN--Cattle fever ticks, considered by southwestern cattlemen to be the second most important problem after foot and mouth disease, will be the subject of research soon to get underway at the new U.S. Department of Agriculture (USDA) research facility at Falcon Heights, Tex.

"Texas cattle have no immunity against tick fever and outbreaks of the ticks in the state have the potential of causing losses of as much as \$100 million annually," according to Agriculture Commissioner John C. White.

Tick fever, also known as babesiosis and piroplasmiasis, is a blood disease of cattle which at the turn of the century was responsible for economic losses to the cattle industry of about \$40 million a year.

While a 37-year eradication program successfully eliminated the ticks *Boophilus annulatus* and *B. microplus* and along with them the disease from Texas and the southern U.S., the ticks are periodically reintroduced into the state from their native habitat in Mexico.

In the last three years, two cases of tick fever have been confirmed in Texas.

Researchers at the Falcon Heights facility, located on an isolated manmade peninsula near Falcon Dam

on the Rio Grande River, will be investigating a number of approaches for combating tick fever. Commissioner White explained.

Included will be research on discovering effective and inexpensive means of inoculating cattle against the fever and developing biological control techniques such as the use of sterile males and a sex stimulant to lure the ticks.

Still other techniques would include the use of parasites, predators, or diseases that would effectively control the ticks.

Research at the U.S. Cattle Fever Tick Research Laboratory will be a cooperative effort among two USDA agencies and Texas A&M University.

On Wall Street

By Bob Hill
Lentz, Newton & Co.

The OPEC nations are doing their best to hold up the price of oil, but sharply falling demand for oil and the consuming nations is forcing the big oil producing countries to figure out ways to boost sales without outright price cutting. Some of the countries are turning to barter in a desperate attempt to hold up sales because any sharp drop in oil sales jeopardizes the ambitious economic development

programs of many of the oil producing nations.

By bartering for crude oil an oil producing country can maintain the formal price structure while selling its oil for less at the same time. To do this the producing country swaps oil at the official price. But the companies who take oil in barter trades for industrial equipment will have to unload the oil at the best price around at discounts through oil

traders. They will obviously lose money on the sale, so they mark up the price of their goods by enough to cover their losses.

Algeria is shopping for trucks and heavy machinery, and is trying to swap between 1 1/2 million and 2 million tons of crude (worth about \$150 million) for heavy trucks and a truck assembly plant. Algerian crude is already being offered by European brokers on behalf of manufacturers. Canada's Massey-Ferguson is offering 100,000 tons, Mitsubishi is trying to sell another 100,000 tons. Altogether, industry experts estimate that Algeria has as much as 7 million tons of crude to barter.

Crude oil prices are slipping slightly as some state owned oil companies, such as Spain's Hispanoil are getting price concessions from Mid-

dle East suppliers for large orders. Industry experts doubt that widespread price cutting will appear. The 7 million tons of Algerian crude is a small amount compared to the 27 million barrels per day exported by the OPEC nations as a group.

There is a question as to whether the Algerians will go through with their barter deals because if they did swap large quantities of crude to manufacturers, their present oil customers would desert them to buy oil at bargain prices from the heavy equipment suppliers.

They Can't

Judge: "How could you swindle people who trusted you?"

Prisoner: "But, judge, people who don't trust you can't be swindled."

Misinformation Slows Brucellosis Program

AUSTIN--"Just plain misinformation" is slowing full implementation of the brucellosis eradication program in Texas, according to Dr. H. Q. Sibley, executive director of the Texas Animal Health Commission.

The State-Federal program was begun in 1934 on a voluntary basis to eliminate this disease, mainly in cattle. Since 1954, regulations have been evolving into a workable system which includes testing cattle to find infection and sending infected animals to slaughter. Identification of market

animals for tracing, investigation of infected herds, and vaccination of replacement calves in high-risk areas are features of the current program.

"Misconceptions and rumors about the program have seriously affected complete cooperation in some counties," Dr. Sibley stated.

For example, reports were recently circulated to cattlemen that the commission would quarantine all of a man's herd, rather than just the pasture where the reactor was found and would extend

the quarantine to all adjacent pastures.

"The commission has always had the authority to take these steps, but has not used it except in unusual cases. We have no intention of making it a general policy to quarantine all adjacent areas of a farm or ranch unless the disease distribution warrants such action," Dr. Sibley explained.

"Most cattlemen cooperate with the program. It is those who do not realize the seriousness of the disease who may not be truthful about the location of herds where reactors have been found.

"We sometimes have to place a quarantine on all the animals until we find the infected ones," Dr. Sibley said.

A cooperative education

program has been undertaken by the commission, the U.S. Department of Agriculture, the Texas Department of Agriculture, the Texas Farm Bureau, and the Texas Agricultural Extension Service. The purpose is to explain the serious effects of the disease on the marketing of cattle and the regulations under the program works.

Questions on the program should be directed to the Texas Animal Health Commission in Austin.

Texas Taxes

By BOB BULLOCK, State Comptroller

AUSTIN—Texans who recall the pleasures during their youth of thumbing through a big, thick mail order catalog may be surprised to learn of the

problems the mail order business creates for tax collectors.

The problem is a simple one: it's extremely difficult if not impossible to assess and collect sales taxes on goods bought and shipped into Texas from out of state.

The result is that Texas, and probably every other state, loses millions of dollars a year in sales tax revenue.

Texans who must pay state sales taxes on merchandise they purchase

here in the state ultimately bear the burden of this situation. Although the sales tax is a tax levied on the consumer, we rely on the retail merchant to collect the tax for us. The plain fact is that the majority of these mail order houses in other states just do not bother to collect the tax and pass it along to us.

From a practical standpoint, it's easy to see, it's just plain impossible to make a guy pay the sales tax

on a suit of clothes he bought from a Chicago mail order house.

Federal legislation granting the 50 states the authority to tax sales moving in interstate commerce would be one solution. It could make life much simpler for businesses who deal in interstate commerce and at the same time help the revenue picture for all states who try to collect the taxes on these goods.

This federal legislation

would probably be more practical than giving states permission to require out of state retail mail order firms to collect the tax and then send it to the state where the buyer lives.

I think this approach with federal legislation is a dangerous involvement of the federal government in state taxation programs and sincerely believe that we have a better idea in the Comptroller's Department.

I have requested the

Legislature to authorize 40 more auditors who will audit the books of no one but businesses outside Texas.

This will increase the scope and efficiency of the out of state audit program and the obvious result will be a great deal more revenue recovered. I can promise you that.

I believe this avenue of approach is the most sensible one and it will enable us to reach those mail order business houses which sell

goods in substantial volume to Texans but escape paying Texas its proper taxes.

TINY WATERBED
SAN DIEGO—A tiny waterbed and a recorded heartbeat are being used by University hospital doctors to simulate a mother's womb in an experiment aimed at reducing the 8,000 premature infant "crib deaths" reported annually.
