Sunflowers Have Major Crop Outlook

Over 10,000 Acres Planted This Year

In 1974, approximately 10,000 acres of commercial oil seed sunflowers were grown in Texas; it is estimated the acreage is likely to be as high as 400,000 acres in 1975, according to Spencer Tanksley, Bailey County Extension Agent.

There have been several reasons for this increase in seed sunflower acreage, said Tanksley. One is that new sunflower hybrids have low water and plant nutrient requirements with higher yield potentials; demands for vegetable oil has remained good and excellent market potential was established early in the growing season.

With any new crop, there is always an array of production hurdles which have to be mastered to obtain maximum profits. This is especially true in the case of sunflowers. Local producers will plant between 10,000 and 12,000 acres of sunflowers in Bailey County and one of the production hurdles they must overcome is insects. Others include the curing out for harvesting, the possibility of losing some plants to wind damage in the early stages, and the type of market that will be available each year.

John Fuston with the Bailey County ASC office in Muleshoe comments that the sunflowers are a good crop for sandy and dry lands. He said most growers seem to be happy with the rapid growth and the adaptability the plants have shown. He said he has not heard of any problems the producers are having at this time. Fuston stated that the sunflowers seem to have a rapid growth to spread for rapid ground cover to take care of blowing problems.

A Bailey County sunflower producer James Wedel and his son Jimmy planted sunflowers on April 25 and found the first bloom in the field on June 15, just 51 days from the planting date.

Wedel has 150 acres of sunflowers planted this year on three different farms northwest of Muleshoe. Wedel stated that especially since he had limited irrigation on his land the crop is easy to get up, without pre-watering this year. He said that sunflowers make a good early crop since they can be harvested the latter part of August. He said that apparently there is not a lot that bothers the sunflower except insects. The sunflowers are a haven for all types of insects, beneficial and detrimental. Wedel stated that sunflowers need less water than cotton and can take local weather conditions. Evidently, the cool weather in this area this spring has not affected the sunflowers like it has the cotton.

Annual Partnership Tournament Held

The annual Muleshoe Summer Partnership Golf Tournament was held at the Muleshoe Country Club this past weekend, June 14 and 15, with 28 teams participating.

The winners of the Championship Flight were Jack Williams, Chad Williams, both from Plainview, Tommy Wilson and Ted Watts, both from Lubbock. They shot a 269.

Second place went to the team of John Farguhar, Moe Turner, Rick Rieger and Don Crow, all of Lubbock, who shot 270.

Third place went to Joe Tubb, Mack Tubb, Dick Tubb and Keith Kitchen, all of Amarillo with 272 score.

In the First Flight, the winners were Kenny Taylor of Muleshoe, Barry Ward of Odessa, Micky Wilson of Lazbudie and Don Long of Muleshoe, with a score of 278.

Second place went to Bill Stewart, Don Cantrell, Weldon Killough and Guy Yarborough of Clovis, with a score of 282.

Third place went to Clyde Obar, Merle Rodgers, Curtis Mitchell and Jay Crawford, all of Lubbock, with a score of 289.

In the Second Flight, the winners were Mack Hobbs, Chuck Edwards, Raymond Hill and Mark Vinso, all of Lubbock. They shot 295.

First place went to Darrell Oliver, Muleshoe, Paul Bean, Marvin Bumpas and J. W. Holt, all of Lubbock, with a score of 295.

Third place went to J. W. Cont. on Page 3, col. 2

Cont. on Page 3, col. 2

FIRST BLOOMS ON SUNFLOWERS . . . James Wedel found the first reported bloom in sunflowers in Bailey County on June 15. He is shown with John Fuston, from the Bailey County ASC office, left; Spencer Tanksley, County Extension Agent, right;

and his son, Jimmy Wedel, observing the crop. He has just begun to irrigate the sunflowers as heads are about the size of a 50-cent coin. Over 10,000 acres of sunflowers have been planted in Bailey County this year.

Muleshoe Receives Sales Tax Rebate

Austin --- Comptroller Bob Bullock sent checks worth \$28.8 million Friday, June 13 to more than 800 towns and cities in the third round of monthly city sales tax rebates.

Bullock said the June payments were considerably higher than the previous two months because of big end-of-the-quarter tax payments made by merchants following the April 30 deadline for reporting taxes they collected from the public in January, February and March.

The City of Muleshoe received a net payment of \$11,193.94 this month. Bullock converted the city sales tax payments to a monthly system in April to get away from the old quarterly rebate system which had been in use since

the start of the city sales tax and which forced cities to wait 60 to 90 days for their money.

"The interest alone -- at six per cent -- one the \$16 million we paid in April and the \$19.9 million we paid in May was worth a good quarter of a million dollars to the cities just by not having to wait until now for a quarterly payment," Bullock said.

Every city which has adopted the one per cent local tax received payments this month regardless of the size of the rebate. Payments in the first and second month of each three-month cycle are not made on rebates of less than \$500.

Olton Tennis Tournament Scheduled

The second annual Olton State Bank Tennis Tournament (For Men Only) will be held July 19 and 20 on the courts of the Olton Tennis Club, Olton. The events will be: Singles and Doubles; Open - Age 35 and over. First place winners in each event will receive \$50.00 per person, with second place winners receiving \$25.00 per person. A player may enter two events. High School students are not eligible to play.

Entry fee is \$5.00 per person per event. Those wishing entry blanks may call Mrs. Charles Kountz AC 806-285-3368; or write Box 561 Olton, Texas 79064.

Deadline for entry is July 8. Fees must accompany entries. Number of players are limited.

Play begins July 19 at 8:30 a.m. for all singles matches. Doubles play begins at 1:00 p.m. July 19.

Killingsworth Wins "Treasure Chest"

The winner of the Dad's Treasure Chest given away Saturday by Muleshoe Merchants was O. G. Killingsworth of Muleshoe.

This annual project is sponsored by the Business Activities Committee of the Muleshoe Chamber of Commerce and Agriculture. This year's chairman was Dr. David Hamblen.

The following is a list of participating merchants making the project possible:

XIT, Leo's Blacksmith Shop, Allsup's 7 - 11, Piggly Wiggly, Carl's Meat Co., Heathing-ton Lumber Co., Corral Restaurant, Barry & Young Equipment, Muleshoe State Bank, First National Bank, Williams Brothers Office Supply,

Murray's Muleshoe Jewelry and Cobb's.

Perry's, Fair Store, Western Auto, Gordon Wilson Appliance, Poyner's White Stores, Howard Watson Alfalfa, Ras-

co's, Anthony's, Dot's Shop, Lambert Cleaners, Crow Chevrolet, Harvey Bass Appliance, and Southwestern Public Service Co.

Main Street Beauty Shop,

Western Drug, St. Clair's, Fry and Cox, Plains Auto, Pat's Photo, Cashway Grocery, Muleshoe Antenna Co., Bratcher Motor Supply, Bailey County Electric Cooperative, Spudnut Shop and Damron Drug.

Dolly Cup, Redwine's 66 Service, James Crane Tire, Shook Tire Company, Green Butane, Ray Griffiths Elevator, Mohawk Auto Parts, Gibson's, Gary Dale, Gulf Wholesale, Muleshoe Motor Co., Pay & Save # 10, Pay & Save #4, Dairy Queen and Noe Anzaldua.

Screwworm Alert Sounded In Area

Warm weather and rains over a big part of Texas have combined to provide ideal conditions for the most serious livestock pest in the state -- the ever-menacing screwworm.

"Stockman should be particularly alert for this flesh-eating pest at this time because infestations can build up rapidly in late spring and early summer unless all cases are reported as soon as possible," points out Spencer Tanksley, county agent for the Texas Agricultural Extension Service.

"Regular herd checks and the treatment of all wounds is essential to keep screwworm cases at a minimum," emphasizes Tanksley.

Any worms found in livestock wounds should be sent to the Mission Lab, Box 969, Mission, Texas 78572. Kits for mailing the worm samples are available from the county Extension office and local livestock inspectors and veterinarians.

"If the worms are confirmed as being screwworms, sterile male flies will be dropped over the area where the confirmed case originated," confirmed case originated," explains Tanksley. "These sterile males mate with the female screwworm flies, and the eggs that are produced will not hatch. Since the female flies usually mate only once in their life time; their life cycle is ended. When enough sterile matings have occurred, eradication of the screwworm is achieved."

For the eradication program to be effective, prompt reporting of all worm cases by stockmen is paramount, em-

phasizes Tanksley. Screwworms are found most often

Cont. on Page 3, col. 2

Chamber Breakfast Scheduled Thursday

The Muleshoe Chamber of Commerce and Agriculture will sponsor and coordinate a special MEMBERSHIP BREAKFAST on Thursday, June 19, at 6:30 a.m. at the Corral Restaurant. This special breakfast is to honor local LAW ENFORCEMENT PERSONNEL and Chamber Members are encouraged to be present. Meals are \$2.00 each, dutch treat except for the honored guests on that morning. Their meals are being purchased by various Chamber Members and businessmen.

The CASH PRIZE for this Membership Meeting is now \$75.00. Out of the Chamber Membership box will be drawn

one name. If the member is present at the breakfast, he will receive the cash. If not, the fund will be raised to \$100 for the next meeting. Also, door prizes will be given as follows:

Western Auto Store, a 32 piece Wizard 3/4" drill kit, with carrying case, buffer and sander unit included.

Fry and Cox, an Igloo thermos and Igloo ice chest, Piggly Wiggly, \$25.00 grocery certificate.

Muleshoe State Bank is contributing the \$25.00 included in the cash prize.

The Chamber appreciates the cooperation of these member co-sponsors in this breakfast.

MHS Band Will March In Parade

All members and former members of the Muleshoe High School Mighty 'M' Band are urged to march in the July 4 Parade, reports band director Tony Clines. There will be only one rehearsal for the parade, Thursday, July 3, from 6:30 to 9 p.m. at the Muleshoe High School Band Hall. All incoming freshmen are urged to participate in the parade along with next year's senior, juniors and sophomores. Clines said a special

STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN — A new program to boost the economy has identified more than 6,000 available jobs in its first month of operation.

Executive Director Jim Harwell of Texas Industrial Commission said the effort represented a 50 per cent increase over projections for the entire year.

Lists of new jobs, starting Monday, were posted on windows of local Texas Employment Commission offices.

Harwell indicated the "Texas First" program may result in identification of more than 15,000 jobs during the year — with an economic impact of more than \$1 billion annually.

Texas Education Agency, Texas Employment Commission, Texas Department of Community Affairs and the Governor's Division of Planning Coordination are participating with the Industrial Commission in the program.

Employees lacking skills are offered training through the Texas Start-Up Training Program conducted by the Industrial Commission and through sponsors of manpower training projects.

More than 200 of the top 1,000 Texas industries responded favorably to a questionnaire on expansion needs.

Insurance Call

Companies writing general liability insurance were given a June 15 deadline to make medical malpractice insurance filings in Texas.

State Board of Insurance Chairman Joe Christie said the call is the first formal action under emergency legislation permitting the Board to regulate professional medical liability insurance for the first time in 20 years.

The Board's bulletin to insurance companies will require the filing of rules, rates and policy forms presently used in writing medical malpractice coverage in Texas. The Board will act immediately on the statistics, Christie said.

GOP Race On

A hot race is being waged by Rep. Ray Hutchison of Dallas and Midland Mayor Ernest Angelo for chairmanship of the state Republican party.

Both want to give the party more visibility in state political affairs. Angelo, although he isn't emphasizing it, favors dumping Vice President Nelson Rockefeller from the GOP's 1976 national ticket. He is also an admirer of former California Gov. Ronald Reagan and

wouldn't mind seeing Reagan head the ticket instead of President Ford.

Hutchison says its too early to get involved in the presidential issue and is basing his campaign on strengthening the state party organization.

Courts Speak

The State Supreme Court will review for the first time a case raising the issue of an unwed father's paternal rights.

An intermediate court held the state family code did not intend to give an unwed father absolute right to establish a parent-child relationship.

The Court of Criminal Appeals reversed the 90-year sentence of a man convicted in the Hutchison County stabbing death of a woman in 1971. The Court noted the state introduced testimony in the murder trial that the man had raped a woman four days earlier in Odessa. The appellate Court said the alleged rape was unrelated to the murder, and testimony was prejudicial to the defendant's right to fair trial.

Federal suits have been filed to redistrict Waller and Harrison counties (commissioners' precincts) to increase black representation.

AG Opinions

A commissioners court cannot legally purchase

College Scene

Sign on Dorm Door: If I'm studying when you enter, wake me up.

-Oak Leaves.

supplies from a farmers' cooperative in which a commissioner owns one or more shares, Atty. Gen. John L. Hill held.

In other recent opinions, Hill concluded:

The county court of Jefferson County has concurrent jurisdiction with county courts at law in probate, lunacy, juvenile and eminent domain matters.

Courts at law have exclusive jurisdiction in all other civil criminal matters.

The last known address of persons pardoned of crimes must be disclosed under the open records act.

Appointments

Three members of the new Texas Facilities Commission were named by Gov. Dolph Briscoe.

They are Melvin Rowland of Uvalde, Renal B. Rosson of Snyder and P. Bolin Mahaffey of Corpus Christi. Alfredo Cardenas of San Diego is a new special assistant on the Austin staff of

U.S. Sen. John Tower.

Short Snorts

Spring weather caused a 5.5 million bushel decline in Texas' winter wheat production this year, Agriculture Commissioner John C. White reported.

The Governor asked designation of Fayette County and Cameron County as disaster areas — one due to rainfall and windstorms, the other due to year-long drought.

There is convincing evi-

dence of a break in the recession, according to the University of Texas Bureau of Business Research.

U.S. Sen. Lloyd Bentsen has urged the federal Department of Housing and Urban Development to stop a program designating new 100-year flood plains in Texas until local governments are given more say in designation.

Comptroller Bob Bullock said audits and field examinations by his office found \$1.8 million owed the state

in back taxes. Five applications for permits to sell \$236 million

in securities have been filed with the State Securities Board

SEPTIC TANK - CESSPOOL CLOGGING CAN NOW BE PREVENTED!

Sunflowers...

Cont. from Page 1
When asked whether he anticipated any problems in harvesting his crop, Wedel stated that he was not worried about harvesting. He said that manufacturers of farming equipment have an adequate supply of harvesting equipment and the cost of transferring the equipment to harvest sunflowers is relatively inexpensive.

Tanksley stated that the yield from sunflowers should be between 800 and 1200 pounds per acre for dryland and between 1500 and 3000 pounds per acre on irrigated land. The approximate contract price this year is about 15 cents per pound. Sunflowers will be harvested and taken to local co-ops. Later they will be moved to other areas for processing.

Tanksley reports that for producers who have not obtained the Sunflower Production Guide they are available at the County Extension office. Also available now is the blueprints of the header attachment for combines to be used in harvesting sunflowers.

Tanksley has compiled some information on insects that sunflower producers will be interested in.

Research conducted at the Lubbock Experiment Station by Dr. George Teetes and associates have observed 47 different insects visiting sunflowers. These researchers have considered 14 of these as potential problem pests because of their density and/or the nature of the injury they inflict.

On the basis of studies conducted to date, the sunflower moth and the carrot beetle are considered key pests. In addition, a number of stem girdlers, stalk borers and leaf feeders are also considered capable of reducing yields.

Currently, researchers are still in the process of developing a working knowledge of these insects; this is extremely important for growers who will be planting sunflowers for the first time to become familiar with what is known about the two major pests of the crop.

The larva of the sunflower moth is the most common pest of sunflower throughout Texas. The larva injures sunflowers by tunneling into the developing seeds and fleshy receptacle area of the sunflower head. The adult moth is a light brown to buff color and easily detected when resting or depositing eggs on the yellow flowers.

The young larva is a worm approximately 1/8 inch long and yellowish-green with alternate dark and light brown longitudinal stripes on its back.

The sunflower moth overwinters as larvae in the soil. Adults emerge, mate and females initiate the first generation by depositing eggs in wild flowers. In 48 to 72 hours these eggs hatch and the larvae feed

for approximately 21 days. Mature larvae transform into pupae which spend another nine days in this resting stage before emerging as adults.

Hybrid sunflowers bloom in 12 to 15 days. This is the period that sunflowers are susceptible to attack and damage by the insect. Eggs are deposited within the individual flower tubes. Young larva hatching from these eggs begin feeding immediately and remain on the surface of the flower for a couple of days. They spin silken webs as they feed, forming a mat of grass, silk and dried blooms on the face of the head. As the larvae develop they begin tunneling into the developing seeds and fleshy receptacle of the head.

Several chemicals have been found effective in controlling this pest. Timing and intervals of applications which result in optimum protection during the bloom period has also been determined.

Methyl parathion, endosulfan (Thiodan) and supercide are labeled for use on sunflowers against the sunflower moth larvae. Tests have shown that these insecticides give effective control when applied at one pound AI rate per acre in a schedule of two to three applications at five day intervals. Hybrid sunflowers often complete blooming in 12 to 15 days; thus the initial application should be applied when 20 percent of the plants have begun to flower and moths and ground larvae are present.

A producer should check 25 plants at several locations in the field before applying an application; apply only if moths and young larvae are present. These insecticides are cleared for no more than three applications per season.

Growers should exercise caution in applying insecticides to grain sorghum fields because of the drift problems. Metyte Parthion is known to cause foliage injury (burn) to certain sorghum varieties.

For additional information on the production of sunflowers, you may contact the local county extension agents office. Next week, the Journal will publish background information on the Carrot Beetle.

in the novels of newborn calves. Also, "working" wounds such as those resulting from shearing, docking, earmarking, branding and castrating are prime locations for screw worm flies to lay their eggs.

Therefore, Tanksley advises postponing such "work" on stock until late fall after the danger of screw worms has subsided. However, if such work is absolutely necessary, a USDA-approved spray or dip will help reduce the risk of screw worm infestations.

SHOP AT HOME

It's All in The Family

Repays with interest

"I like to do business with people I know. Our home town merchants are extra friendly and courteous. I like that".

Everybody likes a little "interest" on his money. Guess you could say that when you spend YOUR DOLLARS AT HOME, you are getting a bit of interest. This money is re-invested in the general welfare of the whole community... it's all in the family, our family here at home.

YOUR FRIENDLY LOCAL BUSINESSMAN has invested his money and savings into the local economy, and he is dependent on your patronage to stay in business. And, when you stop to think about it... it really is of "interest" to us all, isn't it?

EVERYONE PROSPERS WHEN YOU SHOP LOCALLY

The Conservation Party. Join In.

Do your bit for conservation while you do your thing. A gas grill lets you cook outside and take the heat with you. You don't put an added tax on your air conditioner with cooking heat. A gas grill is so convenient (no charcoal mess or bother) eating "out" will become an everyday affair. And, it will add a charisma to your outdoor living that will last all year long. Get the voters "out" and that wonderful charcoal taste will earn you a vote of confidence from family and friends. You'll receive a mandate for more gas grill cooking. Ask any Pioneer employee.

MISS PATSY BROWN

Miss Brown Honored At Gift Tea

Miss Patsy Brown, bride-elect of James Warren, Jr. was honored at a gift tea Saturday afternoon, June 14, in the home of Mrs. Woodie Lambert.

Guests were received by Mrs. Howard Brown, mother of the honoree, Mrs. James Warren, mother of the prospective groom, and Miss Brown. Special out-of-town guests were: Mrs. Don Williams, Vicki and Mica, Mrs. Neal Warren, Mrs. Wright Williams, and Mrs. Ted Watts.

Guests were registered by Mica and Vicki Williams, ni-

ces of the honoree. The serving table was laid with a white linen cloth with a centerpiece of a bride doll made for the occasion. Miss Judy Lambert served banana punch and assorted cookies from milk glass appointments.

A large yellow mixer was

Johnson Receives Doctor Of Medicine Degree

Stan Johnson received his Doctor of Medicine degree from the University of Texas Medical School at Houston on June 7, 1975. Dr. Johnson is the son of Mr. and Mrs. W. M. Pool, all of Muleshoe. He is the son-in-law of Dr. and Mrs. Albert Perkins of Littlefield.

Guest speaker for the 471 Health Science Center graduates was former astronaut Edward G. Gibson. The exercises were held in Hofheinz Pavilion. Dr. Johnson received his B. S. degree in 1972 from Baylor University where he was active in the Chamber of Commerce service fraternity and ODK, a national honorary leadership society.

He and his wife Dianne will live in Charleston, South Carolina where he will begin a three year Family Practice residency at the Naval Regional Medical Center. He is a Lieutenant in the U. S. Navy Medical Corps.

Immediately following the graduation exercises, a party was given in Dr. Johnson's honor. Those attending the exercises and party were: Dr. and Mrs. Albert Perkins, Littlefield; Mr. and Mrs. Randy

Johnson and Mr. and Mrs. W. M. Pool, Muleshoe; Mr. and Mrs. David Perkins and Melanie, College Station; Ronda Johnson, Chattanooga, Tenn.; Lena Bell, Elizabeth Crews, Mr. and Mrs. Ronnie Johnson, Jennifer and Jill, and Mr. Jerry Howard, all Houston.

Arthritis Meeting Set

The Bailey County Branch, West Texas Chapter of the Arthritis Foundation will hold its annual meeting on Thursday, June 19th, 8:00 p.m., at the Tri County Savings and Loan Assn. community room. Directors and officers of the Branch will be elected and all interested people in this area are urged to attend this public meeting.

Wallis Family Reunion Held

Mrs. Cecil Cole and granddaughter, Shannon Sowder, and Etta Warren of Goodland, were in San Angelo Friday night and Saturday as guests at the Wallis family reunion. The Wallis family consists of ten children. The oldest is 76.

One hundred members of the family including the ten brothers and sisters, attended the affair. They are cousins of Mrs. Cole.

Bible School Commencement Will Be Sunday

Vacation Bible School is being held this week at the First United Methodist Church of Muleshoe on Sunday, June 22 at 6:00 p.m. There will be a covered dish supper as a sharing session and a welcome party for the new pastor and his wife, Rev. and Mrs. H. F. Dunn. Each class will present a three to five minute program, and all crafts will be displayed in the Fellowship Hall that night. The teachers and children would like to share with you their accomplishments of the week. Everyone is urged to attend this night of welcome and fellowship. So don't forget - Sunday, June 22 at 6:00 p.m. in the Methodist Fellowship Hall.

Use as little water as possible when boiling potatoes to prevent loss of important vitamins and minerals. Save the liquid to be used as part of the liquid ingredient when making cakes, quick breads and other baked goods, advises Mrs. Mary Sweeten, foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Enochs News

By Mrs. J.D. Bayless

Mr. and Mrs. Quinton Nichols and sons, Richard and Mike also Gary Nichols Jerry and Donnie Nichols did some fishing last weekend at Logan.

Mr. and Mrs. Harold Layton and children, Susan and Robert and his parents, Mr. and Mrs. J. W. Layton drove to Austin last Friday and spent the weekend with Mr. and Mrs. David McDaniel.

Mr. and Mrs. Roy Lee Bayless, Jr., and two daughters from Waxahachie, and two nieces, Kelly and Kala of Muleshoe, were dinner guests in the home of his uncle the J. D. Bayless' Tuesday.

Mr. and Mrs. Johnny Cox took a four day trip to El Paso and Ruidoso, in route home they stopped in for a short visit with her sister, Mr. and Mrs. Bill Tivis, last week at Pep, N. M.

Mrs. George came back to her daughters, Mr. and Mrs. E. B. Julians Thursday she had been visiting another daughter, Mr. and Mrs. Harold Carpenter at Jacksboro.

E. C. Gilliam was dismissed from the Morton Hospital Saturday and his son, Dean and son Douglas and a niece Shelly brought him home.

Mrs. Terry Turner and children of Las Cruces and Mrs. Royce Lane and children of Midland visited their parents, Mr. and Mrs. Ray Seagler a few days last week.

Mrs. Carolyn Snitker and son John have moved to Lubbock where she will go to summer school at Tech.

Mrs. Josie Vanlandingham is home after visiting her son, Mr. and Mrs. Arthur Vanlandingham at Albuquerque, N.M. the past three weeks.

Mrs. Dennis Newton and sons of Stinnett spent the week visiting her in-laws, Mr. and Mrs. Bob Newton and other relatives and friends.

Mr. and Mrs. J. D. Bayless were supper guests in the home of his brother, Roy Bayless Friday night, other guests were his son Mr. and Mrs. Roy Lee Bayless, Jr. and two daughters from Waxahachie, Mrs. Billie Bayless and daughters Kelly and Kayla. Also Mr. and Mrs. Royce Lewis and Mike of Muleshoe.

Mr. and Mrs. W. M. Bryant bought a home in Littlefield and moved Friday May 30. Mr. and Mrs. E. F. Campbell bought them a home also in Littlefield and they moved Tuesday and Wednesday. They all will be missed very much in our community. We wish them better health and much happiness in their new homes.

Ellaine Hanson Receives Degree

Margaret Ellaine Hanson, daughter of Mr. and Mrs. Walter L. Hanson, Rt. 4, Muleshoe, received a Bachelor of Science Degree in Nursing at West Texas State University in the 1975 Spring Commencement Ceremonies, held in the Civic Center Coliseum in Amarillo. After a two week's vacation in Galveston, Texas, Miss Hanson reported for duty as a Nurse on the Medical-Surgical Staff of St. Anthony's Hospital, in Amarillo, Texas. Miss Hanson is a 1971 graduate of Springlake-Earth High School.

MRS. CAMERON MORGAN Formerly FAITH FREE

Shower Honors Mrs. Cameron Morgan

Mrs. Camron Morgan was honored with a bridal shower in the home of Mrs. Ed Nickels on Saturday, June 14 from 3:00 to 4:30.

The bride's chosen colors, pastel blue and white was carried out. The serving table was covered with a white nylon embroidery cloth over a pastel blue underlay and featured a candelabra with blue candles, white daisies, blue carnations and baby's breath. Punch was served by Miss Patti Nickels. Mrs. Loyd Garlington also presided at the serving table. Individual cakes, nuts and mints were served. The registration table featured a candelabra with blue candles, net and tiny wedding bells. Mrs. Morgans mother, Mrs. Bobby G. Free, her grandmother, Mrs. Melton Welch, Earth, and her mother-in-law, Mrs. Les Dudley, were special guests. Also, Mrs. G. W. Simmons and Mrs. Adria Welch, great aunts of Mrs. Morgan, from Vega,

Texas. Out of town guests were from Earth, Dimmitt, Sudan and Vega, Texas.

Mrs. Morgan received a vacuum cleaner with attachments from the hostesses who were: Mrs. S. P. Stockard, Mrs. Eugene Black, Mrs. Loyd Garlington, Mrs. Finis Kimbrough, Mrs. Robert Hooten, Mrs. Harold Cowan, Mrs. Ernest Ramm, Mrs. Joe Shipman, Mrs. George Poteet, Mrs. J. A. Nickels, Mrs. Jimmy Skipworth, Mrs. Harvey Bass, Mrs. Ben Gramling, Mrs. Bill Gable Mrs. Glen Harlin, and Mrs. Ed Nickels.

The caftan is back in summer lounge. Look for comfortable crinkle cotton, ombred gauze and khaki fabrics, advises Beverly Rhoades, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

The Plains Memorial Hospital School of Vocational Nursing in Dimmitt is now accepting applications for their fall class.

Applicants are required to be between the ages of 17-55, be in good health and be a

high school graduate or have a G. E. D.

For further information contact the director of the school at 647-2191 or come by the hospital in person Monday through Friday from 8 to 3 p.m.

NA-CHURS PLANT FOOD COMPANY

Is proud to announce that Albert Martin is now serving Bailey and Lamb counties as District Manager. Also, Kenneth Hanks is serving as a sales representative. For your Na-Churs Liquid fertilizer needs, see these two men or call 272-4718.

WE SUPPORT NATIONAL DAIRY MONTH!

WHITE'S DAIRY

SUDAN, TEXAS

946-3655

For Sale: whole fresh milk, deliver on Mon., Wed., & Fri. \$1.50 gal. or 80¢ for 1/2 gal. Cows are T.B. & Bang tested.

Mr. Farmer, join the one million farmers who are using Na-Churs Liquid Fertilizer for higher yields and greater profits.

The Product

NA-CHURS Liquid Fertilizer is a product of modern research that is available in various formulations to meet the varying requirements of different crops in different soil conditions. NA-CHURS is formulated by precise proportioning of exactly the right amounts of raw materials into a chemical reactor to produce a plant food with a pH of 6.8 to 7.0. NA-CHURS is homogenized to blend the nitrogen, phosphorus, potash and chelated trace elements into a neutral solution that is immediately available to plants and does not have to wait on moisture before the nutrients can be utilized. As much as 95% of the plant food is absorbed by the plants quickly and efficiently. NA-CHURS is a neutral, chlorine-free, complete solution that will not clog, rust, or corrode your equipment. NA-CHURS can be applied in the row at planting time or by spraying the crop at critical times during the growing season to meet the specific requirements of various crops. Application is simple and easy. Inexpensive kits are available for attachment to planting and cultivating equipment or foliar applications may be made with aerial sprayers or other conventional spraying equipment.

The Company

NA-CHURS Plant Food Company is the largest company of its kind devoted entirely to the manufacturing and marketing of liquid fertilizer in the United States and Canada. NA-CHURS has an organization of five plants and 250 distributing points and a field serving organization of more than 2,200 persons serving more than a million farmers throughout North America.

Research

From atomic research has come proof of the fast, efficient and almost total absorption of NA-CHURS Liquid Fertilizer through foliar feeding. This was accomplished through the use of radioactive isotopes made available to NA-CHURS by the U.S. Atomic Energy Commission. Not only can plants absorb nutrients through the roots, but also through the foliage, the fruit, the twigs, the trunk, and even the flowers. Foliar feeding is the best controlled, most efficient, most economical method of applying fertilizer yet devised. As much as 95% of the plant food is absorbed by the plant quickly and efficiently. Research data from Michigan State College shows that in sandy loam soil the foliar application was utilized 20 times as efficiently as in the soil application. In addition millions of gallons of NA-CHURS have been sold to progressive, profit-minded farmers across the United States, Canada, Central and South America. These farmers have proved to themselves through many thousands of check strips that NA-CHURS will bring greater yields, better quality and early maturity to all their crops.

Free Complete Soil Testing

The basis of any fertilizer program is a good soil test. One of the most comprehensive soil test reports you have ever seen is furnished, without charge, by NA-CHURS. This is made in the NA-CHURS Laboratories with an atomic absorption spectrophotometer, a highly sophisticated analytical device which detects and measures amounts of metallic elements in the soil samples from your farm. You will receive a report which includes

an analysis of ph. calcium, magnesium, phosphorus, potassium, nitrate nitrogen, aluminum, manganese, iron, sulphur, copper, zinc, boron, and water holding capacity, and specific recommendations from the NA-CHURS agronomists of nutrient formulas to balance out your soil. The NA-CHURS soil test report is designed to give you a fertilizer program for your fields that will bring you the best return per dollar invested. There is no way to grow perfect crops from imperfect soils.

Application

Row feeding at planting--NA-CHURS in-the-row and with the seed gets plants off to a vigorous start. Normally, a sprouting seed must rely on the plant food stored within the seed for the first several days after germination, or until the root system is fixed firmly enough to take food from the soil. By using NA-CHURS in the row at planting time, you can give a balanced feeding of nitrogen, phosphorus and potash to the seed at once. The result is faster emergence, bigger root systems, and better utilization of fertilizer.

Foliar Feeding

With NA-CHURS as a foliar spray, applied at critical periods of growth, a small amount of fertilizer produces significant gains in yields and in quality. Applied as a fine mist, NA-CHURS is absorbed immediately without having to travel from the ground up the stem or stalk to all parts of the plant. NA-CHURS foliar feeding is the best-controlled, most efficient and economical method of applying fertilizer. A foliar spray of NA-CHURS, even in small amounts per acre, not only feeds the plant quickly, but triggers a whole cycle of growth which makes the plant utilize more food and moisture from the soil. The plant and stems both absorb the fertilizer directly and are able to use a higher percentage of nitrogen, phosphate and potash compared with any other fertilizer. Absorption of NA-CHURS is fast and complete. As much as 95% of the liquid fertilizer applied to the plant is absorbed. The result is greater size, bigger yields, better quality and earlier maturity.

Na-Churs On The South Plains

NA-CHURS Liquid Fertilizer has been used by progressive farmers on the South Plains for about ten years. These farmers report increased yields and profits on all types of crops. In 1974 James R. Davis produced an average of 929 pounds of lint per acre on 80 acres of cotton in Gaines County by following the NA-CHURS fertilizer program. A Terry County farmer produced over 1,100 pounds of lint per acre with NA-CHURS. Almost 8,000 pounds of grain sorghum was reported by a NA-CHURS user in Hale County.

Contact Your Na-Churs Representative

You can obtain the benefits of the NA-CHURS fertilizer program by contacting your NA-CHURS representative. In addition to the free soil tests, you receive a 500 gallon on-farm storage tank, free delivery of fertilizer.

First Christian Church To Celebrate Silver Anniversary

The 25th anniversary of the First Christian Church will be Sunday, June 29, during the regular service with Rev. Herb Miller as speaker. There will be a special birthday party starting at 3:00 p.m. at the church with traditional birthday cake and refreshments.

Charter members of the church are: Mr. and Mrs. D. R. Aylesworth, Mr. and Mrs. L. M. Bell Jr., Clyde Bray, Mrs. B. Bryant, James Case, W. F. Creamer, Mr. and Mrs. John Dudley, A. R. Edmiston, Mrs. Jack Epps, Mrs. R. R. Holton, Charles Long, Mr. and Mrs. A. T. Maltly, Mrs. W. D. Moore, Mr. and Mrs. L. C. Reese, Mrs. Neil Rorky, Mr. and Mrs. John Roy, Francis Roy, Mr. and Mrs. W. W. Smith, Otto Smith, and Mrs. Leota Wilttering.

Homemakers Giving Away Afagan

The Muleshoe Young Homemakers are raffling off an afgan for one of their summer fund raising projects. All proceeds go to the Muleshoe Hospital Fund. Tickets are 50 cents.

Mrs. Eula Fyke of Whitehall, Texas made the afgan for the homemakers.

Cobbs Dept. Store has the afgan on display. The drawing will be held at 3:00 p.m. July 4th, 1975 in front of Cobbs. You need not be present to win.

Consumer Food News

College Station --- Meat takes a back seat to fruit and vegetables on the economy scene at supermarkets this week, one observer says.

"Corn is plentiful and prices just a bit lower, while tomatoes are coming from several growing areas, with quality varying from fair to excellent," Mrs. Gwendolyn Clyatt reported.

"Beets, snap beans, cucumbers, okra, radishes and green onions are also worthy of consideration, price-wise," the consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System, added.

Cantaloupe, oranges, bananas, pineapples and Texas-grown honeydew melons are moderately priced, while peaches, nectarines, cherries, apricots and blueberries are on the high side, Mrs. Clyatt said. She cautioned consumers to make head lettuce selections carefully, because "there is wide variance in quality, size and weight due to an unfavorable growing season."

Mrs. Clyatt termed egg prices low, with grade A, large-size the best buy.

At dairy counters, there are some "attractive values" on low-fat milk, cottage cheese and a variety of cheddar cheeses--for June, which is Dairy Month, the specialist noted.

At meat counters, there at meat counters, best beef values generally include arm and blade pot roasts and steaks, ground beef, round steaks and roasts.

CONSUMER WATCHWORDS: In buying cut-up fryers, or parts, expect to pay six to ten cents more per pound--unless a special features these at a lower price than whole fryers.

But if a family will eat only certain parts of a chicken, then fryer parts easily might be the economical alternative.

Goldwater calls for Nixon "confession."

If the Consumer Product Safety Commission's proposed standards for making household items impervious to carelessly handled cigarettes are approved, cost of furniture are expected to increase from 10-25 per cent by 1976, Mrs. Jane Berry, housing and home furnishings specialist with the Texas Agricultural Extension Service, The Texas A&M University System, reports.

Moore moved to Muleshoe and later returned as often as he could while there was no minister available. Between the years 1950 - 1967 the First Christian Church was served by eleven different ministers plus laymen from Lubbock that would come over just for Sunday services, until another minister came to give his services to the church. At a special board meeting on June 10, 1966 the high honor of "Elder Emeritus" was bestowed on Glenn Maltly.

During the time the church was with out a minister Frank Koistra came to the rescue by serving as interim pastor. This was between October 1966 until September 1, 1967.

Beginning September 1, 1967, Rev. Walter Bartholf came to serve the First Christian Church of Muleshoe, as her minister. He served her until February 1, 1972, when he closed his ministry here moving to a small community in Iowa.

Rev. Dick Farr of Leveland was called to serve as the ad interim minister which he did until the Rev. Ken Cole returned to Ruidoso, New Mexico late in May 1973.

If the home air conditioner isn't circulating enough cool air to make the rooms comfortable during hot, muggy days, check to be sure the air filter is clean and doesn't need replacing. Mrs. Lillian Chenoweth, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System, suggests.

arrived September 1972 to pastor the Littlefield and Muleshoe Christian Churches. Cole

Rev. Dick Farr was again called to be the ad interim minister.

as the minister of the church and the Director of Parks and Recreation of the City of Muleshoe.

20 Years Ago

Mr. and Mrs. John Agee went to Fredrick, Okla., during the past week to visit relatives and friends. They visited in the home of Mr. and Mrs. Jack Stevens.

Mr. and Mrs. Harold King and children are visiting relatives and touring points of interest in California.

Mr. and Mrs. D. Clements spent the past weekend in San Angelo with their son Travis, who is a student at San Angelo Junior College.

Donald Harmon, son of Mr. and Mrs. William Harmon is home from Texas Tech for summer vacation.

Mr. and Mrs. Harvey Bass and daughters were in Rule Sunday to attend a fifth Sunday meeting at the Primitive Baptist Church and to visit relatives.

Mr. and Mrs. Spencer Beavers and son were in Ft. Worth to visit his brother Billy Beavers and family.

Mr. and Mrs. Lindal Murray spent last weekend in Chandler, Okla., where they attended her high school reunion, and visited his parents, Mr. and Mrs. E. N. Murray.

Local Farmers Protest GM Position On Gas Priority

Although some reports have indicated that General Motors is not opposed to a No. 2 Commercial priority for irrigation gas, the actions of General Motors in the current hearings in Washington before the Federal Power Commission clearly show that General Motors is opposing the efforts of

irrigation farmers in every possible way, reports Omar Kelfon, president of the Irrigation Gas users of Bailey County.

When irrigation farmers first intervened to try to secure a restoration of irrigation gas to a No. 2 Commercial priority, the Federal Power Commission held that there would be no curtailment of irrigation gas until after the hearings had been concluded and all of the farmers' testimony fully considered and a final decision rendered. General Motors objected by motion, and asked the Federal Power Commission to fix a 90-day deadline on the postponement of the curtailment. In response to motion of General Motors, the Federal Power Commission, by its order of April 23, 1975, fixed a 150-day limit after which curtailment would begin.

When hearings are resumed on June 9, 1975 in Washington, General Motors will present the testimony of James T. Jensen as an expert witness on "process gas". General Motors is obviously trying

to protect its own interest in trying to get natural gas to its West Coast plants at the expense of any other possible consumer of natural gas. The fatal mistake of General Motors lies in its failure to understand the tremendous quantities of food and agricultural commodities produced by irrigation which will be impossible without natural gas.

All farmers who have become aware of the position of General Motors are more than a little irate, and pledge themselves to bring every possible pressure on this giant automotive manufacturer to force it to change its position said Kelfon. These same farmers are also urging all General Motors car dealers in the South and West to contact Detroit headquarters of General Motors to try to force a reversal of this position.

Farmers and everyone interested in agriculture in this whole area should write to General Motors in Detroit, protesting the actions of General Motors' lawyers and witnesses in trying to prevent the use of natural gas for irrigation.

Sorghum Breeding Stocks Released

Lubbock --- The Texas Agricultural Experiment Station (TAES) at Lubbock has released a large number of sorghum breeding stocks for research and development by private industry.

The announcement was made by Dr. George McBee, resident director of the Lubbock station.

The material consists of 120 converted lines from the sorghum conversion program headed by Dr. Darrell Rosenow and cooperators, and 140 breeding stocks from the Frank Gaines-R. E. Karper sorghum breeding nursery located at Lubbock.

All the converted sorghum varieties come from the World Sorghum Collection which is made up of more than 16,000 entries collected from throughout the world. The imported lines were placed in a special research effort referred to by scientists as the sorghum conversion program. It is conducted cooperatively by the TAES and the U. S. Department of Agriculture's Agricultural Research Service at the Mayaguez Institute of Tropical Agriculture, Mayaguez, Puerto Rico.

Puerto Rico was selected for the crossing and backcrossing procedure, said McBee, because of the favorable short day-length periods during the winter. Selection for early, short plants is done in Texas under long day conditions during the regular growing season.

The converted lines were developed through a backcross procedure in which tall, late-maturing tropical varieties were converted to early-maturing, combine height sorghums. They represent new sources of germplasm and are of height and maturity for easy use in the U. S. and other temperate zone areas of the world.

"These converted lines should be useful to sorghum breeders as germplasm sources containing desirable characteristics, and should contribute greatly to the development of superior sorghum lines and hybrids," McBee noted.

The materials possess superior sources of most desirable characteristics in sorghum, especially disease and insect resistance and grain quality, he added. In these lines there are outstanding sources of resistance to downy mildew, head smut, maize dwarf mosaic, anthracnose, Fusarium headblight and several foliage diseases. Good sources of resistance to lodging and charcoal rot also exist in these lines.

Several lines with high le-

vels of midge resistance are included in the 120 released converted lines.

The conversion program is carried out cooperatively among several TAES sorghum scientists located at Lubbock, Chillicothe, College Station and Corpus Christi.

The 140 breeding stocks from the Gaines-Karper nursery were selected for release by Frank Gaines (former TAES now retired) as the best and most representative material from the large breeding nursery started by the late R. E. Karper.

As a former sorghum breeder and TAES vice-director, Karper was one of the pioneers in sorghum improvement throughout the world. The Gaines-Karper nursery contributed the parents of the first sorghum hybrids. A yellow endosperm selection from this nursery is now being used extensively as a pollinator parent of hybrids in Texas and throughout the world.

The 140 released lines represent material not previously released from this nursery. Most lines have yellow endosperm and are of kafir, fertita or hegar type.

Other characteristics in these lines include waxy endosperm, stiff stalk and big seed. These characteristics plus their yield potential and wide adaptation should make these lines useful to breeders in developing improved hybrids, McBee said.

Services Held For Spurlock In Elk City

Funeral services for O. M. Spurlock, 79, of Elk City, Okla., who died in Community Hospital Tuesday, June 17, will be conducted at the Martin Funeral Home Chapel Thursday, June 19, at 2 p.m. Burial will be in Fair Lawn Cemetery.

Spurlock was born November 8, 1895 in Rayville, Mo. He came to the Elk City area in 1906 and had lived on a farm north of town until 1968 when he moved into Elk City.

He was a veteran of World War I and a member of the American Legion and a long-time member of the First Baptist Church. He married Addie Allen on May 5, 1920 and she survives him.

Other survivors include one son, O. M. (Lucky) Spurlock, plant manager of Protein Processors in Muleshoe; three sisters and two brothers.

Public Notice

THE STATE OF TEXAS
TO: David Lynn Jones
GREETING:

You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 21st day of July, A. D., 1975, at or before 10 o'clock A.M., before the Honorable District Court of Bailey County, at the Court House in Muleshoe, Texas.

Said plaintiff's petition was filed on the 15 day of May, 1975. The file number of said suit being No. 3815.

The names of the parties in said suit are: IN THE MATTER OF THE MARRIAGE OF SHERRILL ANN RUSSELL JONES AND DAVID LYNN JONES

The nature of said suit being substantially as follows, to wit: Divorce.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this 5th day of June A. D., 1975. Given under my hand and seal of said Court, at office in Muleshoe Texas, this 5th day of June A. D., 1975.

Nelda Merritt (S) Clerk
District Court Bailey County, Texas

Card Of Thanks

My family and I wish to express to you the people of Muleshoe, Lazbuddie, and the surrounding areas, our deep feelings of gratitude and appreciation for all of the many kindnesses shown to us since our arrival here. We had been told Texans were very kind. We know this is true. We are proud and happy to make Muleshoe our new hometown.
Thal and Khanh Ha and Family,
Vu, Van, and Vannie

Texas Taxes

By BOB BULLOCK, State Comptroller

Austin-When was the last time you met someone who was licensed by the state to "scalp" football tickets?

If your answer is "never," don't feel left out. There never were more than 11 licensed "scalpers" in Texas-and what's left of them are about to become a thing of the past.

The \$250 scalpers license fee is one of several antique taxes to be repealed in a bill approved by the Legislature and now waiting for Gov. Dolph Briscoe's signature.

The measure was called the "omnibus tax reduction bill" but it will actually take only \$2.7 million worth of taxes off the books during the next two years because

Card Of Thanks

May we add our sincere thanks to all who have helped in welcoming Thal, Khanh, Vu, Van, and Vannie Ha to our community. We can thank God we have the privilege of living in a free America. May we always be mindful of those who do not share that privilege.
Howard, Judy and Troy Watson

industry.

The bill now on the governor's desk would also abolish the sleeping car and dining car tax and something called the "express company" tax.

Express companies in the old law were defined as companies doing business by steam, rail or water, but this law was written in 1907 and what we have come to know as a common carriers'-railroad companies, freight lines and the like-aren't covered by it.

The sleeping car and dining car tax didn't amount to a hill of beans even back in the days when trains were a

major means of travel. The

tax in the beginning was levied only on the amount of lease payments the railroad companies paid to the out-of-state owners and manufacturers of Pullmans

and dining cars.

Besides getting rid of these obsolete taxes, the bill on the governor's desk contains some important sales tax exemptions which we will discuss in future columns.
