**CROPS LOOKING GOOD . . .** Bursting into full bloom recently and maturing into bolls and squares is the area cotton, with this field north of Muleshoe in good shape. Irrigated crops in the area look very good except where spotted hail damage was received in a

recent rain and hailstorm. If good weather prevails, Bailey County Agent Spencer Tanksley predicts top yields for producers in this area.

## Football Contest Starts This Week

Mr. and Mrs. Ray Clayton visited their daughter, S. Sgt. Richard and Mrs. Dickerson and children of Altus, Okla. over the weekend.

Mrs. Flo Brown and son, Scott entertained friends with a buffet at the Colonial Country Club in Clovis, N.M. Friday night.

Joe Sinnacher was dismissed from Lubbock Methodist Hospital Saturday morning. He is recuperating at home.

Are you ready to join the ranks of the winners? This week, the Merchant's Football Contest gets underway, and will last for the next several weeks. In conjunction with The Muleshoe Publishing Co., various merchants will sponsor a football page each week, boosting the spirit of competition, through football.

Weekly prizes will be given to first, second and third place winners, with the final winner being presented a check for

expenses and two tickets to the January 1 Cotton Bowl game in Dallas.

Last year, Joe Gutierrez was the top winner and was presented a check for \$50 and the two tickets. He joined a long list of previous winners. This year, a winner, judged on points accumulated during the time of the contest will also receive an expense check and the tickets.

Weekly winners will receive checks of \$5, \$3, and \$2 each with their points being listed during the duration of the contest.

You are encouraged to patron-

ize the merchants who have taken the time and expense to Back The Mules in their 1976 football effort. They include:

- Beavers Flowerland, Dari-Delite, Bob's Safety Center, Watson Alfalfa, Wilson Appliance, Muleshoe Co-op Gin, White's Cashway, Fry & Cox, Inc., Western Drug, John's Custom Mill, Ray Griffiths & Sons, Inc., Bailey County Electric Cooperative Association and Farm Bureau Insurance.
- King Grain and Seed, Harmon-Fields Insurance, Cobb's, Henry Insurance, State Line Irrigation, Muleshoe Locker, Tri-County Savings & Loan Association, Central Texaco, Corral Restaurant, McCormick Upholstery, Gibson's, The Country Cobbler, Main Street Beauty, XIT Steak House and Valley Motel.

Enter each week before the Friday, 5:30 p.m. deadline, and perhaps you will be in the winner's column each week.

### Routine Meet This Thursday For Commission

A routine agenda will face the four members of the Bailey County Commissioners Court when they meet in regular session on Thursday (today) at 10 a.m.

After approving the minutes of the previous meeting, commissioners plan payment of county bills; appointment of delegates to the General Assembly of the South Plains Association of Governments; consideration of proposals for group hospitalization insurance and other miscellaneous items.

Bailey County Judge Glen Williams has invited all interested individuals to attend the meeting.

### Church Hosts After Game Fellowship

Immediately following the Muleshoe-Portales football game tomorrow night (Friday), a Fifth Quarter Aftergame Fellowship will be held in the fellowship hall of the First Baptist Church of Muleshoe.

Food, Cokes and fun will be featured, along with a guest entertainer. There is no admission charge, and all junior high school and high school youth of Muleshoe are invited to attend.

Kenny Carter, youth minister of the First Baptist Church said, "Bring your friends and join us at the First Baptist Church for fun, fellowship and free food."

## Muleshoe-Portales Game Kicks Off '76 Football

★★

### Chamber Planning Industrial Seminar

A unique first for Muleshoe will be the upcoming Industrial Seminar which is planned for the third week of September by the Muleshoe Chamber of Commerce. It will get underway at 10 a.m. in the City Council Chamber.

Chamber Executive Director Tommy Black said the seminars are normally conducted only in Austin, but, arrangements have been made to conduct the upcoming seminar locally, with several area towns being invited to attend.

Black is encouraging all present and past members of the local Industrial Board to attend any or all of the seminar if possible. He said their will be information beneficial not only to Muleshoe, but the surrounding area discussed during the day.

Scheduled to conduct the seminar is Homer Tucker, Chairman of the Texas Industrial Board,

from Austin; and members of the Southwestern Public Service Industrial commission; along with members of the Texas Industrial Board from Austin.

Following the afternoon session, at 3 p.m., Tucker and his group will meet with individuals and individual cities and attempt to help work out their industry questions.

Another seminar of interest is scheduled for 8 p.m. on Thursday, September 30 at the Muleshoe City Hall Council Chamber. This seminar will be sponsored on Page 2, Col. 1

### Spotted Rain During Week Aiding Crops

Tuesday night, late evening and nighttime showers fell in spotted areas in the county to boost crop outlooks. Although only traces of moisture fell, threatening skies continued to promise rain to come Wednesday morning.

A shower around 11:30 Tuesday night in Muleshoe deposited only approximately .2 in Muleshoe, with slightly larger amounts falling in spotted areas.

Monday afternoon, the Sudan area logged the most moisture with a reported 1.50 inches which closed highway 303 north of Sudan for a few hours due to high water. No other significant amounts were reported in this area or the surrounding counties.

### Strong Opposition Expected From Rams

Enthusiastic Mules prepare to kick their way to their first win of the 1976 football season when they meet the Portales Rams in Benny Douglass stadium at 8 p.m. Stinging from losses to the Rams from the past two years, the traditional game will have two hard fighting teams all out for that most important win.

Following a successful scrimmage last Friday night against the Springlake-Earth Wolverines, the Mules spent the week strengthening some of the weak spots which showed up during the scrimmage where the Mules held the Wolf eries scoreless.

Powerful back Dean Northcutt, No. 44, along with hard running Jep Shanks, No. 40, are expected to be power forces for the Mules, along with surehanded receiver Marcus Beversdorf, No. 89. They will be running behind the blocking of Tony Vela, No. 29, Julian Dominguez, No. 29, Tom Pepper, No. 66 and other strong team members.

No player can be discounted in the efforts put forth under coaching of Head Football Coach Don Cumpton, or Coaches Lynn, Murphy, Kirkland, Goodin, Schroeder and Crook.

Coach Cumpton was cautiously optimistic about the outcome of the game, and stressed the importance of minimizing mistakes once the game gets underway. The small Mules show good speed and have exhibited very good defense, including a staunch goal line defense which previously kept the Wolverines from plunging over.

For Portales, Coach Army Salinas, who is starting his fourth year as head football coach said, "We are always a little nervous during the first game, then begin to settle down." He cited game results during his previous three years at Portales. On the first year he was there, the final score was a 6-6 tie; the second year, the Rams won 7-0 and last year, they won 21-20. He expects stiff competition from the Muleshoe team.

On the plus side, coach Salinas, who started his career at Lubbock, said the Rams have very strong backfields, both offensively and defensively. All the backfield is back from last year except the quarterback. He emphasized that the team is very strong offensively, but the defensive team is very young and inexperienced, although he expects them to play good when they get on the field.

Of his 44 players, which includes both varsity and junior varsity, Coach Salinas said the members are bigger in size than in years past and cited the nose guard at 240; right defensive tackle, 230 and 165 each for the left defensive end and right defensive end.

Last year, the Rams were 2-1 in district play, being defeated only by strong Artesia and were 5-4 for the season.

Coach Salinas said he is a native of Lubbock and attended Cooper High School, who will also be an opponent of the Muleshoe Mules this year. He said he attended Eastern New Mexico University on a football scholarship and stayed in Portales.

### Local Lions Plan Fish Fry Before Game

To properly kick off the local games this week, the Muleshoe Lions Club will be serving their annual fish fry before the first game of the season in Muleshoe.

On the menu are fish, beans, cole slaw, cherry pie, tea and coffee with tickets at \$2.50 each. The meal will be served in the Muleshoe High School cafeteria from 6:15 to 7:30 p.m.

Proceeds from the fish fry will be used by the Muleshoe Lions Club for local projects. They have invited everyone who plans to attend the game, and fish lovers, to attend the annual fish fry in the cafeteria.

### Police Report

Stolen items were reported to the Bailey County Law Enforcement Center during the past week to lead the list of police activity.

An employee of Pay 'N Save reported Sunday afternoon that a purse belonging to Mrs. Raymond Jones of Clint, was stolen from a shopping cart sometime Saturday night. The purse included personalized checks and credit cards.

Also reported missing during the past week by Hartley Dairy were an acetylene regulator, 50 feet of acetylene hose and a torch.

Several arrests were logged for drunk and driving while intoxicated.

Even the Muleshoe Highway Department got in on a drunk driving chase Monday morning after an employee reported a drunk driver on FM 1760 west of Muleshoe. He kept up with the vehicle until police arrived, and in the meantime, the pickup sideswiped a Missouri Beef Packers truck, disabling it, before the police could stop the driver. He was stopped when he blew out a tire. The driver was jailed and his vehicle was towed in.

## School Beginning Marks Accident Time

With thousands of children across the state back in school, some extra precautions are necessary to help ensure their safety, reminds Spencer Tanksley, county Extension agent

with the Texas Agricultural Extension Service. Many children are walking to and from school; others are riding bicycles or school buses or driving their own cars.

All students should be taught to observe common rules of accident prevention. Many schools conduct special classes for this purpose, but drivers must be especially alert for those children and older youth who may not know or may forget to observe safe practices. Drivers should be especially cautious in and around school zones and routes followed by students on their way to and from school. Every drive has the moral obligation to drive in a responsible manner, emphasizes Tanksley.

More students are riding bicycles to school than ever before. Bicycle riders are required to follow the same rules that an automobile driver must follow. A bike rider should always remember that his vehicle offers him no protection in the event of an accident. Even if he has the legal right of way, it is in his own interest to always give the motorist the right of way, notes Tanksley.

He offers these practices for safe bicycle riding:

- Obey all stop signs and traffic signals, as if you were driving a car.
- Ride only on the right hand side of the street or road as near the curb as possible, or follow designated bicycle paths. Do not ride on sidewalks.
- Ride single file on narrow or busy streets. Avoid riding two abreast and never more than two.
- Don't carry another person on your bicycle. Use carriers only for books or packages.
- Never "stunt" or race in traffic.
- Walk your bicycle across busy streets.
- Don't weave in and out of traffic.

## Reese Calls On Mahon To Act Against Busing

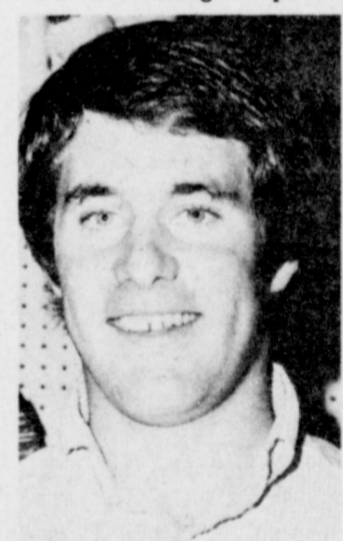

At a news conference in Midland today 19th District conservative Congressional candidate Jim Reese said "When the federal government flexes its muscles and tells parents in Midland how to raise their children, the freedom of people all over West Texas and the nation is diminished. Parents of all races now acknowledge that forced busing to achieve racial balance is a fraud and a failure."

"At this point, now that the busing matter is in the hands of the courts, I see three courses of action - the short-term approach is to work with the school board to find the least objectionable method of complying with the federal order."

"Of immediate importance also, we must ask Congressman Mahon to show some concern for our problems in West Texas by supporting the McDonald School Bill. H.R. 12365 is bottled up in a subcommittee of the House Judiciary Committee."

"If you are concerned, you should ask Mahon to sign a discharge petition on this bill. We only need a majority of the members of Congress to get action on this bill which provides that no court can require any individual to attend any particular school."

"The long-term solution, of course, is the passage of a Constitutional amendment prohibiting forced busing. I intend to work for such an amendment," he concluded.

BILL DENTON

### New Owners For Gibson's In Muleshoe

An upgraded and updated Gibson's is in the very near future, with preliminary work already under way. Last week, the present Gibson's was sold to Jack Denton of San Angelo, and on Sunday, he officially took over the newly purchased general merchandise store.

On Monday, Bill Denton took over management of the store, and presently is in the process of rearranging and restocking. The store will be open during the renovation period, as the Dentons expect to change some lines of merchandise and add additional soft goods to their line.

Denton also said they will be adding some more merchandise in the grocery line and realign the shelving capacity.

They anticipate several changes in operation of the store, although the store hours will remain the same, 9:00 a.m. to 8:00 p.m. Monday through Saturday.

Muleshoe's Gibson's is the fourth in a chain of stores owned and operated across west Texas by the Dentons.

## Local Girl Scouts Seeking Leadership

How much do you contribute to the youth of your community? Are you willing to join the more than 300,000 men and women in the United States who are working without pay and enjoying it? Have you ever considered becoming a volunteer Girl Scout leader or assistant leader?

Did you know that by becoming a Girl Scout leader, you can learn to deal more effectively with others? Are you aware of the fact that you can learn more about yourself? By joining, you can open up a whole new world?

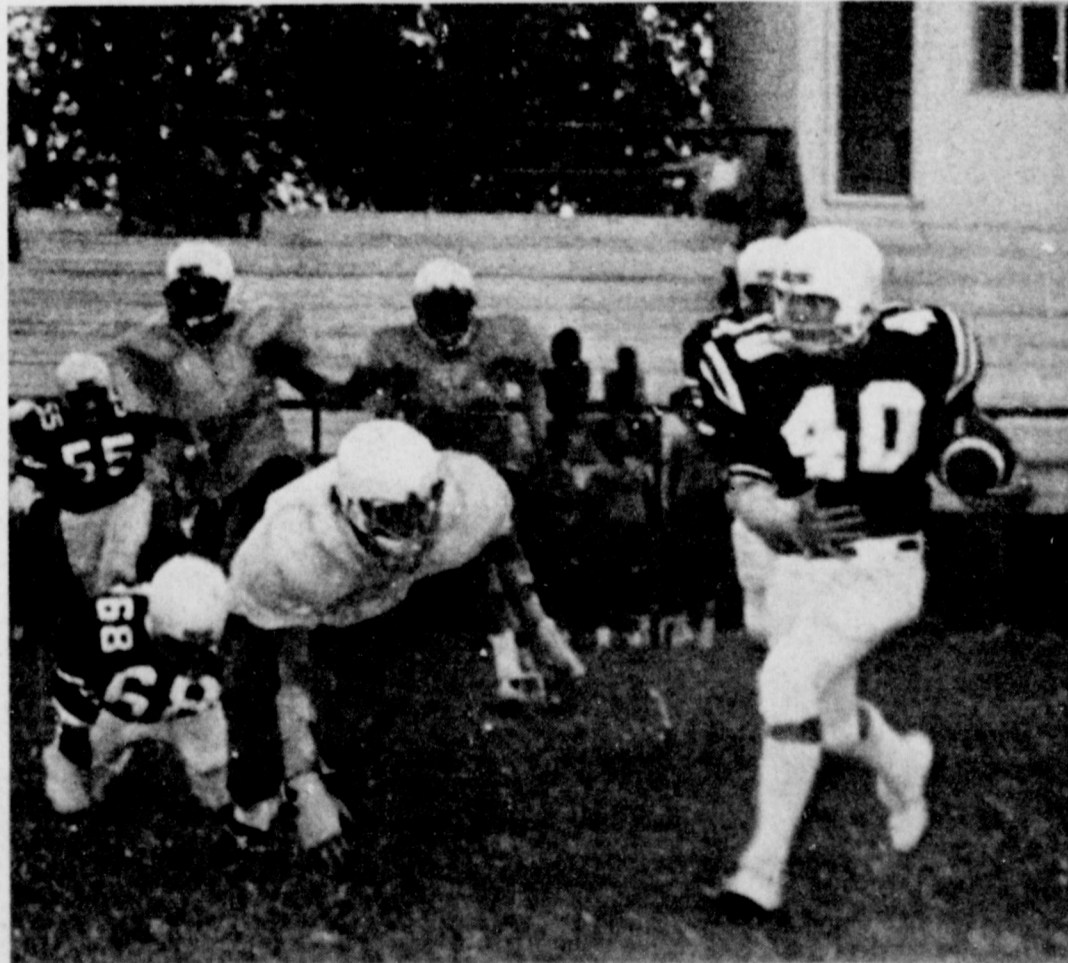

A Girl Scout leader does not necessarily have to be female. That's right! A Girl Scout leader can be a teacher, truck driver, fireman, businessman, homemaker, councilman, salesperson, electrician, chef, plumber, college senior, or especially a senior citizen.

If you have a special interest in cooking, a sport, gardening, or a hobby -- or if you have a talent for making people feel important or a special knowledge in the job field, there is a desperate need for you. There are places you could serve in the Girl Scouts, and help project poise, assurance, self-confidence, the ability to communicate effectively and other valuable skills.

Being a Girl Scout Leader is fun! Girl Scouts work on projects and ideas and leaders learn as much from the girls as the girls learn from them.

All kinds of people are welcome in scouting, from young singles to senior citizens. Whoever you are, whatever you do, you have something to offer Girl Scouts, your genuine interest in girls and a little of your spare time.

Muleshoe is in desperate need of Girl Scout leaders. There are girls who desperately want to join the Girl Scouts, but there is a shortage of responsible adults to assume leadership. It would be well worth your while to check into the Scouting programs, there are many areas you could fill. Perhaps you never had a daughter, learn the joys of being a girl and helping raise a girl through Girl Scouts. Perhaps you had a daughter,

**WHOA, NOW!** . . . Making a dive for Jeep Shanks, No. 40, is a member of the Springlake-Earth Wolverines during scrimmage last Friday evening. Shanks proved to be a good gainer for the Mules during action at Benny Douglass Stadium at Muleshoe High School Regular season action gets underway Friday night when the Mules meet the Portales Rams at 8 p.m. in Muleshoe.

sored by the Muleshoe Chamber of Commerce, in conjunction with the Small Business Administration of Lubbock, with Dave Sudduth acting as coordinator.  
 Discussed will be keeping business at home and current credit laws. All business and professional people are encouraged to attend either or both of the upcoming seminars, urged Black.

offers additional protection for night riders.

--Keep your bicycle in good mechanical condition and properly adjusted for safe operation.

Extra care on the part of school students and motorists can help prevent accidents this school year, believes Tanksley.

They must hunger in frost that will not work in heat.

--John Heywood.

Political apathy in 1976 could cause greater damage to the long range well-being of High Plains farmers than all other threats to agricultural production and income.

This is the opinion of Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock.

The elements can decimate production and income only one year at a time, Johnson reasons, but if farmers fail to take an active interest and wield maximum influence on election day, agriculture can suffer losses at the hands of government that no amount of favorable weather can overcome.

"Political partisanship is a no-no for organizations such as ours," the PCG official notes, "which leaves it up to individual farmers, each acting on his own judgment, to carry the ball at the ballot box."

PCG's hands-off posture in politics, aside from being a prerequisite to its tax exempt status, is necessary to maintain the organization's effectiveness in the legislative arena year in and year out, Johnson explains. "We work constantly for legislation and administrative rulings needed by our members, and the endorsement of one candidate or one party over another in any given election would limit the access we have

to important officeholders both before and after the election."

However, Johnson concludes, "you can't overestimate the importance of having people in office who are knowledgeable about agriculture and sympathetic to its problems. And the individual farmer, with his contributions, his influence and his vote is the only one who can put such people in office."

The cotton producers from across the Cotton Belt who make up the Cotton Board have made their recommendation to the Secretary of Agriculture concerning the producer referendum which will determine future funding of Cotton Incorporated (CI).

The Board, which since 1966 has handled collection of the producer's \$1 per bale contribution and contracted with CI for approved cotton research and market development projects, opted for a producer vote on an additional assessment based on a percentage of value.

After much discussion of the pros and cons at a meeting in Dallas August 20, the Board unanimously recommended that the vote be on four-tenths of one percent of bale value in 1977. The Board's recommendation also provides for the possibility of incremental increases up to a maximum of one percent after the 1977 crop year.

A tentative timetable prepared by the Board calls for the Secretary by September 3 to prepare a final draft of the proposed amendment to the Research and Promotion Order, under which the referendum will be held, and issue notice of field hearings. It suggests field hearings in Memphis, Atlanta, Dallas and Phoenix between September 20 and October 1, followed by the required publication of the recommended Order in the Federal Register.

### Feeder Cattle Market Weakness

Producers thinking of holding onto their feeder cattle may want to take a closer look at the market situation, at least for the remainder of 1976. Things aren't too bright, according to one authority, Dr. Ed Uvacek, livestock marketing specialist for the Texas Agricultural Extension Service.

His analysis comes after an extensive trip through cattle country, the Corn Belt and visits with several feedlot managers.

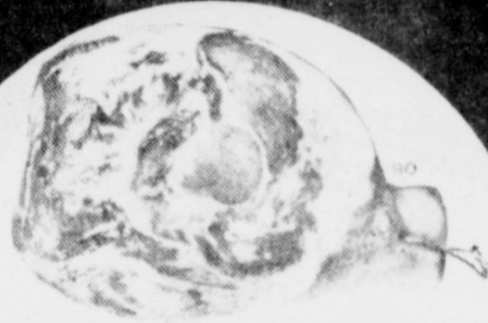

"I look for feeder prices to weaken into the fall and winter for a number of reasons," says Uvacek. "Among these are the continued weakness in fed cattle prices, big feedlot losses, no major drop in sight for feedgrain prices, a big supply of feeders still available, and more competition from other meats, such as pork and broilers."

Feeder prices this fall and winter will have a big effort on the overall cattle industry, believes the Texas A&M University System specialist. They will

determine the extent of cow liquidation, the number of feeders held over into 1977, and the feedlot profitability for the first half of next year.

Uvacek sees this situation developing in the months ahead: "Choice feeder steers in the 600-700-pound range will likely move to the low \$30's by October. Many feeder animals will move to slaughter during this period. Some price gains could then result as we move into the winter months and the demand from feedlots begins to recover. The extent of the price rise into 1977 will depend on how many animals are held over the winter. Too many holdovers will keep the price gain down."

At the resurrection the substance of our bodies, however disintegrated, will be reunited.  
 --St. Augustine.

# Texas Water Plan Revision Meets Set

The Texas Water Development Board (TWDB) announced Wednesday a schedule for 20 public forums around the State of Texas to gain citizen input on the revisions of the Texas Water Plan currently underway by the Board and staff of the water agency.

Executive Director James M. Rose, in a report to the August meeting of the Board Tuesday, said the forums will begin September 10 in Houston and conclude October 30 in the Waco-Temple-Killeen area. The public is invited.

One forum has previously been held in McAllen.

The forums will be held in key cities and towns in Texas' Standard Metropolitan Statistical Areas where the state's economic activity is concentrated.

Rose said the Board and the TWDB urge citizens in each of the areas to attend one or more of the public meetings and make their wishes known concerning Texas' water problems, oppor-

tunities, needs and ideas for meeting the water needs of the state now and in the future.

"We've already gained considerable information about the Water Plan from private citizens, various organizations, river authority directors and staff and others," said Rose.

The executive director said that the input was obtained at the McAllen forum and during visit he has made in recent months to river basin offices and facilities. Rose has spoken to numerous groups about the action program of the Water Development Board and the Government's Water Task Force which he chairs.

The revised Texas Water Plan will be submitted to the Texas Legislature early in the next session, said Rose.

Rose said recent critics claiming the Fund makes an unusual draw from the General Revenue Fund are talking through their hat. "Yes the draw in the past 10 years has been several millions of dollars but the

amount per capita is peanuts when compared to the benefits and the wise and efficient use of the fund," he said.

The real facts are that it has cost the taxpayers of Texas a 'whopping' two-bits (one quarter of a dollar) a year, or \$2.50 in 10 years.

"We know that the Development Fund will be fully self-supporting by around 1990 if not earlier," Rose said, "and we are working diligently to reduce the time lag to get this done and reduce the draw from the General Revenue Fund."

It might be that this self-supporting feature of the Fund will occur in the late 1980's, he added.

Rose said these and other issues are up for public input at each of the forums. Citizen participation is invited, in fact Board Vice-Chairman Robert B. Gilmore of Dallas, who presided at the August meeting, said:

"The water needs of this state are so great, so important, every concerned citizen should make

plans now to attend one or more of the meetings when the Water Development Board comes to their town."

The dates and towns of the forums follow:

- Houston, September 10;
  - El Paso, September 13;
  - Lubbock, September 21;
  - Amarillo, September 28;
  - Midland/Odessa, Sept. 29;
  - Beaumont, Port Arthur and Orange, October 1;
  - Dallas/Fort Worth, October 6;
  - Sherman/Denison, October 7;
  - San Antonio, October 8;
  - Corpus Christi, October 12;
  - Laredo, October 14;
  - Bryan/College Station, Oct. 21;
  - Bryant/College Station, Oct. 15;
  - Texarkana, October 18;
  - Tyler, October 20;
  - Longview/Marshall, Oct. 21;
  - Wichita Falls, October 25;
  - Abilene, October 27;
  - San Angelo, October 27;
  - Waco/Temple/Killeen, Oct. 30.
- Specific location and time for the forums will be announced as soon as possible.

# Bentsen Seeks Stop Of Firearms Thefts

Senator Lloyd Bentsen Thursday said U.S. law enforcement agencies have evidence that guerrilla organizations in Mexico are exchanging drugs for stolen U.S. military weapons.

Bentsen introduced legislation Thursday to clamp down on security measures taken by the military to prevent thefts of weapons.

"Congressional hearings reveal that the Defense Department has had over 10,000 weapons lost or stolen over the past decade, more than enough to equip 10 combat battalions," Senator Bentsen said in remarks accompanying his bill.

"And in addition, substantial quantities of weapons have been frequently written off as inventory errors without an investigation to determine whether there had in fact been theft or loss."

"Federal law enforcement agencies, including the Drug Enforcement Administration and the U.S. Customs Bureau, have documented evidence that

many of these stolen military weapons are going to drug dealers and revolutionary organizations in Latin America, especially in Mexico," Senator Bentsen said.

Bentsen said one drug dealer told authorities that he was buying surplus U.S. military aircraft to sell to foreign nationals. They would then load the planes with stolen weapons and fly them to another country to exchange for narcotics.

"It is more difficult to document the use of stolen U.S. military weapons by revolutionary groups than by narcotics smugglers but there is, nonetheless, evidence that this is the case," the Senator said.

"Indeed, indications are that many terrorist/guerrilla groups barter heroin, cocaine and marijuana for weapons and munitions. In one case of which I learned a large cache of stolen M-14 rifles from the Midwestern U.S. was traded in Mexico for marijuana to a Mexican drug

trafficker connected with a now deceased Mexican guerrilla leader. In another case, U.S. agents have documented efforts to use a subversive organization in Mexico to obtain marijuana in exchange for automatic weapons," Bentsen said.

The legislation proposed by Bentsen would (1) establish a centralized Weapons and Munitions Security Office within the Defense Department, responsible for tightening weapons security programs of the individual armed services, (2) tighten reporting requirements to end the practice of chalking up weapons losses to 'inventory error' with little or no investigation; and (3) require a cooperation between military officials and law enforcement agencies which has not always existed in the past.

"It is imperative to our national security that we share our 2,000 mile southern border with a strong, stable, democratic neighbor. If stolen arms are

being provided revolutionary groups in Mexico then it is a threat not only to the people of that country but also to the U.S. -- and it is a threat which we must work together to solve," Bentsen said.

"I am convinced that the legislation I introduce today is one urgently needed step that will not only strengthen our own national security but that of our neighbors as well," Senator Bentsen said.

# Miss Withrow, Johnson Exchange Vows

Miss Jackie Loann Withrow, of Sudan, became the bride of James Kenneth Johnson of Muleshoe in an 8:00 p.m. double ring ceremony read by Minister Royce Clay, of the Muleshoe Church of Christ, Saturday, August 21. The bride is the daughter of Mr. and Mrs. J.C. Withrow of Sudan and Johnson is the son of Mr. and Mrs. J.R. Johnson, of Muleshoe.

Other members of the house-party were Mrs. Jerry Ray, Mrs. Royce Clay, Mrs. R.A. Bradley, Mrs. Butch Duncan, Mrs. Joe Smallwood, Mrs. John Blackman and Mrs. Nolan Harlan. Keisha Johnson, and Marie and Ruth Withrow were in charge of the ricebags. The bride's table was laid with a white lace cloth over white cloth. Crystal punch bowl and serving dishes were used. A four-tiered white cake, nuts and mints were served from silver

Other members of the house-party were Mrs. Jerry Ray, Mrs. Royce Clay, Mrs. R.A. Bradley, Mrs. Butch Duncan, Mrs. Joe Smallwood, Mrs. John Blackman and Mrs. Nolan Harlan. Keisha Johnson, and Marie and Ruth Withrow were in charge of the ricebags. The bride's table was laid with a white lace cloth over white cloth. Crystal punch bowl and serving dishes were used. A four-tiered white cake, nuts and mints were served from silver

The bride's traveling outfit was a two piece ensemble of coral and mint green, accented with an orchid corsage. The bride went to Oklahoma Christian College, and South Plains in Levelland. She also belonged to Epsilon Chi. Johnson attended South Plains College and now is engaged in farming.

Out-of-town guests attending were from Tyler, Roscoe, Olton, Lubbock, Amarillo, Brownfield, Hale Center, Whitharral, Bula, Sudan, Littlefield, Plains, Smithfield, Lazbuddie, Abilene and Dallas.

An arched candelabra, holding coral colored candles and large baskets of coral colored gladiolas, carnations, white spider mums and daisies on each side was the setting for the wedding.

Given in marriage by her father, the bride was attired in a sheer polyester organza, lined in taffeta, featuring a lace bodice, with matching lace on the upper sleeves and cuffs. The A-line skirt had a deeply flounced hem. The headpiece was a band of apple blossom attached to her illusion veil.

He bouquet was a cascade of white orchid, surrounded by white stephanotis, with white streamers of stephanotis, carried atop a white Bible.

Mrs. Alan Black of Sudan served as matron of honor. She wore a formal length peach colored dress of polyester flocked crepe with an empire bodice and A-line skirt. The dress was accented by long, sheer organza sleeves. She carried a nosegay of coral carnations, white daisies and baby's breath, with coral and white streamers.

The bridesmaids dress was identical to the matron of honor's. She was Miss Karla Withrow, of Sudan, sister of the bride.

Candlelighters were Randy Johnson of Abilene and David Bray of Muleshoe.

The groom's best man was Robert Rhinehart of Brownfield. Groomsman was Mitch Johnson of Hale Center, cousin of the groom. Randy Johnson, Wayne McFaul, of Tulia, cousins of the

groom, and David Bray served as ushers. Music selections for the wedding were "Whether Thou Goest", "One Hand, One Heart", and "Faithful and True", by a group from Muleshoe Church of Christ. Soloist Rodney Marshall sang "My Sweet Lady".

Guests were registered by dishes. The centerpiece of coral colored rose and white baby's breath accented the table. Ricebags were in coral net, near the door.

The couple went to points in New Mexico and Colorado for their honeymoon. They will reside at Rt. One in Muleshoe after their wedding trip. Martha Withrow.

The reception was held in the fellowship hall of the Muleshoe Church of Christ. Those assisting with the serving were the bride's sisters, Mrs. Joe Price, Mrs. Jerry Smith and the groom's sisters, Marsha Morgan and Ginger Johnson.

3. Their liberality in taking care of those in need.
4. II Corinthians 8:5.

## Luncheon Fetes

### Miss Caldwell

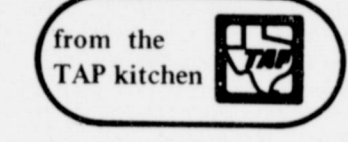

A bridal luncheon was given in honor of Miss LaDonna Caldwell, bride-elect of Terry Scott on Saturday, August 28, at 1:30 p.m., at the Corral Restaurant. The tables were covered with white cloths, and the centerpiece was a large white wedding bell, placed on a round silver tray, surrounded by individual gifts. They were presented to the honoree and guests, by Linda and Mrs. Clarence Mason.

## Couple To Wed

### In September

Mr. and Mrs. Charlie Garza of Dimmitt are announcing the engagement and approaching marriage of their daughter, Teresa Garza, to John Darrell Garth, son of Mr. and Mrs. D.T. Garth of Muleshoe. Teresa is a 1976 graduate of Lubbock Christian High. Garth is a 1973 graduate of Muleshoe High.

The wedding will take place at the Immaculate Conception Catholic Church in Muleshoe, Sunday, September 5, at 5:00 p.m. with reception following at the Catholic Youth Center.

## ONION ROLLS

- 1 pkg. frozen cloverleaf rolls
- 1/4 cup butter
- 2 cups finely chopped Texas green onions or white onions
- 1/2 tsp. salt
- 1/4 tsp. pepper

Thaw rolls. Separate each roll into 3 natural divisions. Roll out round and as thin as possible. In a 10-inch skillet, melt butter; saute onions in butter until wilted but not brown. Add salt and pepper. Allow to cool. Put 1 teaspoon onion mixture on each dough circle; moisten edges and fold over. Press edges together. Let rise until double in bulk. Bake at 375 degrees until brown. Yield: approximately 2 dozen rolls.

## Three Way News

By Mrs. H.W. Garvin

Three-Way high school football held a scrimmage with the Whitherell boys, Thursday night, on the home field.

Several from the community attended the funeral of Mattie Richardson in Lubbock Thursday. Mrs. Richardson lived in the Maple community many years.

Pat Rector from Lubbock, and Bonnie McDowra from Morton, were dinner guests in the H.W. Garvin home Tuesday.

A going away reception was held at Three Way Home Economics Room Sunday, honoring Mr. and Mrs. Baker Johnson.

Mr. and Mrs. S.G. Long spent the past week visiting relatives in New Mexico and Arizona.

Mrs. Bulah Toombs spent the past week visiting her daughter, the C.W. Hinds, in Farmington, N.M.

Mrs. Rayford Masten and Mrs. Sally Robinson were in Portales Wednesday shopping.

Mrs. and Mrs. D.S. Fowler were dinner guests in the Zed Robinson home, in Muleshoe Sunday. Both couples attended church in Sudan Sunday afternoon.

Several in the community went by Saturday and Sunday to help Mrs. Sally Robinson celebrate her 91 birthday.

Mrs. Elmer Lee from Goodland visited Mrs. D.S. Fowler, Monday morning.

Mr. and Mrs. T.D. Davis attended the funeral of an aunt, Mrs. J.D. Woods, in Groom, Saturday. They spent the weekend visiting Mrs. Davis's brother and family.

Marvin Long from Amarillo spent Saturday night with the George Tysons. Sunday, Marvin's mother, Bonnie Long, visited the George Tysons.

MRS. JAMES KENNETH JOHNSON

## Chilympiad Plans In San Marcos

"Take it away Leon!" If you haven't heard that phrase from a country band yourself you've probably heard of it, for it's been four decades since the fabled Bob Wills and his Texas Playboys got together and urged Leon McAuliffe to "take it away" on his steel guitar. Bob Wills' Original Texas Playboys are together again, making a spectacular comeback in the field of country music, and this year they will be one of the star attractions of the Seventh Annual Chilympiad in San Marcos September 16-19.

Saturday night, after a huge parade and the official Republic of Texas Chili Cook-Off, the Playboys will appear in concert from 9 p.m. till 1 a.m. Saturday is also the Old Fiddlers Contest, with the '76 State Fiddle Champion to be decided at 6:30 p.m., and the Lone Star Tractor Pull Contest (something new for Texas although it has long been a popular competition in the midwest), beginning at 1 p.m. Kent Finlay and the High Cotton Express with back up the Playboys that night and will also play on Thursday night, along with one of Austin's best known progressive country bands, A-sleep at the Wheel. Friday brings the zany, talented, predictable Roy Head in concert, and Sunday night Jimmy Edwards and his orchestra will appear with the versatile dance orchestra of Alfonso Ramos. The Playboys' return to the entertainment scene has capti-

vated audiences of young and old alike with favorites like "Faded Love", "Steel Guitar Rag", "Stay a Little Longer", and "Take Me Back to Tulsa". Their western swing music, folksy good humor, and Bob Wills' stories have brought standing ovations from recent crowds and should fit right in with the carnival mood at Chilympiad.

For four days San Marcos will turn into a gigantic party with sack races, beer drinking contests, arts and craft exhibits, and dozens of colorful chili cooks with their own special recipes vying for this year's grand champion bowl of chili.

Common sense is a quality many fail to understand.

## Progress 4-H Has Wiener Roast

The Progress 4-H began its busy year of fun and educational activities with a Back To School Wiener Roast on Sunday, August 29, at the Ned Houk Park, north of Clovis, N.M. The afternoon began with family fun and games of Horse-shoes, Volleyball, Shuback, Aces and Fives, Football, Baseball and Croquet. It was discovered that the club has some real pros in some of these fields, or maybe it was beginners luck for the first time players. The evening was concluded with an old-time wiener roast. Attending the afternoon of activities were the following members and families: Mr. and Mrs. Joe Rhodes,

Ruby Ann Rubio

Mr. and Mrs. Domingo Rubio of Muleshoe are the proud parents of a new baby girl born August 28, 1976, at 2:23 p.m., in the West Plains Medical Center in Muleshoe. The baby was named Ruby Ann. She is the couple's eighth child.

**WMU SPONSOR PARTY** . . . The women of the First United Methodist Church sponsored the monthly birthday party at the nursing home, Thursday, August 26. It was held in the dayroom at 2:30 p.m. Those celebrating their birthdays for August were left to right: Archie Scarlett, age 73; Fannie Sain, age 91; and Myrtle Guinn, age 82. Those people helping with the entertainment were Mrs. Eva Ashford on the piano. Those singing were Mrs. Mervin Wilterding, Mr. and Mrs. Buck Creamer, Mr. and Mrs. Charlie Pruitt and Mr. and Mrs. Fred Wilbanks. Mrs. Herbert Pugh also helped out with the party and singing.

### Duckling Special

by Martha Logan

A candlelight special is roast duckling glazed with an orange sauce and garnished with orange bows. Rich-flavored ducklings are best cooked to an internal temperature of 190° F. to 195° F. as shown on a meat thermometer placed in the thickest part of the thigh next to the body.

The balance of the special menu might be a barley mushroom casserole and buttered broccoli or asparagus. Mixed greens would be an appropriate salad, hot rolls and butter and lemon sherbet will complete the meal.

**Roast Duckling A La Orange**  
Yield: 4 to 6 servings  
(approximately 1 cup sauce)

2 Swift's Premium Ducklings, 3 to 5 pounds each	1/4 cup lemon juice
1 tablespoon cornstarch	1 tablespoon white vinegar
3/4 cup water	1 tablespoon brown sugar
6 ounce can frozen orange juice, thawed	2 tablespoons butter or margarine
	2 teaspoons currant jelly
	1 medium orange

Prepare ducklings according to directions on wrapper. Meanwhile, in a saucepan blend cornstarch with water to form a smooth paste. Add orange juice. Cook over medium heat until sauce thickens, stirring occasionally. Add remaining ingredients except orange and continue cooking 10 to 15 minutes. Grate orange and add 2 tablespoons orange peel to sauce. Slice remainder of orange for garnish. Baste ducklings the last 30 minutes of roasting time with orange sauce.

### LOUISA'S LETTER

Dear Louisa,  
I recently moved to a new town and I have done everything I know to meet the people and become a part of the community life. I had no trouble in doing this as the people here are very friendly.

My only trouble now is that I am involved in too many things. In fact, I feel that I am neglecting my home and children to do a great many unnecessary things. I am called on to canvass for one organization, fix flowers for another, talk to another, get up refreshments for a S.S. picnic, correct papers for a contest, etc., etc.

I don't want these people to think I am a flash in the pan and run out when the work is to be done but I simply have to slow down. How can I cut out one without cutting out all?  
Newcomer—Va.

Answer:  
Just explain your situation to your new friends and tell them that you will work with the P.T.A. this year and the Garden Club next or vice versa, but that you will be a divorced woman with juvenile delinquents on your hands if you keep on as you have started.

Probably, all the club work you are doing is worthwhile but a woman's first responsibility is her family and they should come first. You will have a great deal of time to do community work when your children are older and many women, at that time, fill the void left by their children leaving home, doing community work.

Remember too that most people have a tendency to work a "willing horse to death," so don't feel that "ou have to accept every assignment that is given you."  
Louisa

### From The Journal Files

#### 20 Years Ago

Mr. and Mrs. George Gross and children were in Lockney over the weekend visiting her parents, Mr. and Mrs. R.C. Wilson.

Mr. and Mrs. A.D. Stancell and children spent the weekend in Lubbock visiting relatives and friends.

Mr. and Mrs. Earl Ladd and son, of Abilene were weekend guests in the homes of their parents, here.

Dr. B.O. McDaniel is spending a few days fishing this week at Rockport.

W.E. Murdock of Memphis, is a house guest this week in the B.F. Murdock home.

The Joe Simmacher home was the scene last Sunday of a family fathering which included relatives from Morton, Portales and Dora.

#### 40 Years Ago

Roy Jordan and family returned Sunday evening from spending the weekend at Cloudcroft and other lofty and altitudinous heights amid the mountain fastness of New Mexico. Roy said it rained all the time they were there, the weather being exceedingly cool causing him to offer to trade an extra suit of BVD's for a camp stove.

Houston Hart returned home to Muleshoe the latter part of last week from Kansas City and various other points in Missouri where he spent most of the summer. He visited his brother, Bill Hart, while in that state.

Mrs. Irvin St. Clair returned home to Muleshoe, Friday afternoon of last week from Brownfield where she visited friends and attended to their variety store business there.

#### 30 Years Ago

Mr. and Mrs. Byron Griffiths returned Monday from a trip to Riverside, California, where they had been visiting with a sister of Mrs. Griffiths, Mr. and Mrs. A.G. Ballenger for about three weeks.

### What Size Freezer Best Fits Family Needs

**COLLEGE STATION** -- Deciding how large a freezer to buy may be hard without some guidelines, one family resource management specialist noted this week.

"The choice should depend basically on how much freezer space is needed, how much floor space is available and how much money can be spent on the appliance," Mrs. Lillian Chenoweth, with the Texas Agricultural Extension Service, The Texas A&M University System, said.

Concerning freezer size, the specialist pointed out that one cubic foot of freezer space will hold about 35 pounds of frozen food -- if the packages are regular size and stored close together.

"A good guide is to plan four-six cubic feet per person, but if the freezer is depended on for total food supply, ten cubic feet per person may be more appropriate," Mrs. Chenoweth said.

She explained that a chest freezer is somewhat more economical in both original cost and power use than an upright. It should have baskets to provide flexible storage, she said.

"An upright offers greater accessibility, and consumers would want to look for a good arrangement of shelves and convenient door storage.

"A freezer is a long-term investment. So it's important to select a well-known reliable brand. Prompt, efficient service is essential also," the specialist reminded.

### Mrs. Taylor Has Recent Guests

Mrs. Corda Taylor visited Friday and Saturday in Plainview in the home of her granddaughter and husband, Mr. and Mrs. Rex Mauney. Others attending were Mrs. Taylor's daughter, Joyce Osborne, of Melipitas, Calif., and her daughter, Linda Summers and her baby, Jennifer, from Cloverdale, Calif.

Recent guests in the home of Mrs. Corda Taylor were her sister, Mrs. Lorado Servatius from Pleasanthill, New Mexico and a niece, Pauline Slaughter and her daughter, Sherry, both from Guymon, Okla.

They stopped and visited with Mrs. Taylor enroute to Six Flags.

-Record, Columbia, S.C.

**Will Be Hard**  
One of the hardest jobs of reconversion is making a school pupil out of a vacationer.  
-Herald, Boston.

## Mrs. Buscemi Speaks At Supper

The Muleshoe Branch of the American Association of University Women hosted a salad supper Monday, August 30, at 7:30 p.m. in the Tri-County Community Room, honoring all prospective members of the Branch.

Mrs. Margaret L. Buscemi, a member of the Association's Topic Committee, "Economic Facts of Life: Living With Less," was the guest speaker.

Mrs. Buscemi resides in Portales, N.M., and holds a B.S. Degree from the University of Colorado, and is now working on her masters degree in General Business Administration at E.N.M.U. She is part time coordinator of Special Projects for the Community Services Center in Portales.

Margaret Buscemi pin pointed four areas of concern related to "Living With Less": These areas are (a) food, (b) clothing, (c) housing, and (d) energy.

She presented documented data to show how Americans must learn to conserve in order to survive.

"We can each do our part in saving America by avoiding WASTE," said Mrs. Buscemi as she summarized her research in these four areas of conservation. Mrs. Buscemi explained the

purposes of A.A.U.W. University women study the issues and then act to improve their community, state and nation. A.A.U.W. is a force for constructive change.

Mrs. Tony Clines, president, reviewed the year's programs and announced the Regional Workshop which will be in Amarillo on November 6, 1976.

Virginia Bowers, Cultural Interests Chairman, reported on the cataloging of paintings with the Smithsonian Institute that were done before 1914 which belong to local citizens.

These paintings were first on display at the Art Loft and are now at the Corral in Muleshoe.

Hostesses for the meal were Mrs. Tony Clines and Mrs. R.G. Wilson.

Guests attending were Mrs. Don Cumpton, Mrs. David Lynn, Mrs. Kay Swint, Mrs. Paul Hindelang, Mrs. Ed Kramer, Mrs. Mark Gist, Mrs. Roy Winkle, and Mrs. Clifton Finley.

Members attending were Mrs. Gerald Allison, Miss Virginia Bowers, Mrs. Tony Clines, Mrs. Joe Costen, Mrs. Neal Dillman,

Mrs. Robert Hooten, Mrs. E.W. Johnson, Mrs. Max King, Mrs. W.O. Rudd, Mrs. Jim Shafer, Mrs. Eric Smith, Mrs. John Watson, Mrs. R.G. Wilson, Mrs. Mabel Wolfe, Mrs. Jim Young and Mrs. Roland McCormick.

The next meeting will be October 4, 1976.

**NOW, THIS IS THE WAY IT IS DONE . . .** Head Football Coach Dewayne Sexton of the Lazbuddie Longhorns displayed how to go into an effective stance and how to come out of it for the members of the Longhorn football team during practice last Monday afternoon at Lazbuddie. Lazbuddie met the Muleshoe High School Junior Varsity team in action in Muleshoe for a scrimmage last Friday afternoon.

### View From The Plain

By J.D. Peor  
I & E Field Officer

The early teal season has been set by the Texas Parks and Wildlife Department for September 18-26, but dry conditions in some of the Panhandle and South Plains counties could hold down the number of birds bagged.

"The Hereford-Friona area has again received enough heavy rains to keep the plays lakes supplied with water," said Max Traueck, assistant waterfowl biologist.

"Ducks are already moving into the Panhandle counties from the northern nesting areas

and a good population of the more numerous blue-winged teal should be available in areas with water by the time the season starts," continued Traueck.

The daily bag limit will be four teal and the possession limit will be eight teal after the second day. The shooting hours will be sunrise to sunset daily which is 30 minutes shorter than the regular duck season which starts later in the fall.

The three species of teal legal for this early hunt include the blue-winged, green-winged, and cinnamon teal. Identification of these teal by the hunter is critical and any attempt to take or possession of any other species of duck in the state will be considered a violation of the game and fish laws during this

Sportsmen normally identify teal by their small size, rapid wingbeat, and speed.

The eating quality of these birds is considered excellent by gourmet wild game cooks.

Teal hunters will be required to have on their possession a federal migratory waterfowl stamp which can be purchased at U.S. post offices for \$5. The stamp must be signed in ink across the face of the permit by the holder. Also, shotguns used for the teal hunt must be plugged to hold no more than three shells including the chamber.

The passage of the teal through Texas in September should furnish excellent hunting and eating opportunities for Panhandle and South Plains waterfowl hunters.

### Enochs News

By Mrs. J.D. Bayless

Mrs. Barbara Autry and Mrs. Myrna Turney are the new owners of the Peterson Grocery Store, at Enochs. It will be the Enochs Grocery and Market Store. They will take over the store Wednesday, September 1.

Mrs. J.E. Layton was a patient in the Littlefield Hospital, Friday until Sunday.

Mrs. G.R. Newman of Mesquite came Friday for a visit with her friends. She made her headquarters at Mrs. Josie Vanlandingham's, and visited the L.G. Fred's, Mrs. L.E. Nichols and Mrs. Harold Pollard Saturday. She and Mrs. Vanlandingham were dinner guests in the J.D. Bayless home Sunday. They visited in the home of Mrs. Perry Fort, Monday.

Harold Dean Nichols of Idalou visited his mother, Mrs. L.E. Nichols Tuesday.

Earl Shields of Lelia Lake spent Saturday night with Mrs. Lorela Jones and Wendell. He is a son-in-law of Mrs. Jones.

Cecil Jones is still a patient in the Methodist Hospital, but is improving.

Mr. and Mrs. Kenneth Millsap and daughters, of Tulia spent Saturday night with her mother, Mrs. Alma Altman, Sunday, the Millsaps and Mrs. Altman attended the Ben Altman family reunion at the Community Center in Littlefield.

Out of the 10 living children, there were six of the Altman children present.

Those attending were from Post, Tulia, Lubbock, Littlefield, Levelland, Morton, Enochs, Plains, Amarillo, Maple, and Earth. The day was spent visiting. Everyone took a basket lunch for the noon meal.

Rev. Charles Vanlandingham came Monday for a visit with his mother, Mrs. Josie Vanlandingham. They also had supper with Mr. and Mrs. E.N. McCall, and he visited in the home of Mr. and Mrs. Chester Petree.

Kim Coats left Wednesday and registered Thursday at W.T.S.U. at Canyon. He is a senior this fall.

The Sugar Bear Softball team of Three-Way has closed out its season with a record of 13 wins and one loss. It was a successful season, enjoyed by everyone. The players were as follows: Connie Richardson, Belinda Davis, Prynness Parkman, Carolyn Stroud, Ida Davila, Yolanda Carmen, Ninka Guellen, Etta Warren, Mitzi Altman, Jackie Carlisle, Debbie Furguson, Denise Quiram and Coach Harold Pollard.

Rev. and Mrs. Gerald Moore of Las Vegas, N.M. were in route home from Fort Worth. They took their daughter, Marsha, to attend college and spent Tuesday night with her brother, the C.C. Snitkers.

Mr. and Mrs. Lester Gilliam visited his parents, Mr. and Mrs. E.C. Gilliam, last Tuesday.

Mr. and Mrs. J.W. Layton drove to Midland last Sunday. They returned home Tuesday from a visit with his brother, Mr. and Mrs. Frank Layton.

Mr. and Mrs. E.C. Gilliam spent last Sunday with a son, Mr. and Mrs. Gilbert Gilliam near Bovina. Monday, they attended the funeral of Mrs. P.N. Johnson at 10:30 a.m., at the Baptist Church in Adren. She was the mother of Lester Gilliam's wife.

The 1.6 inches of rain that fell Monday morning, August 30, was really appreciated. There had only been .3 of an inch of rainfall in August at the Bayless farm.

#### Never Thought of That

Peggy: "That's funny, I don't believe I ever saw a baby policeman."

### The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm has some unsolicited advice for the Presidential candidates this week.

Dear editor:  
Right off the bat, I've noticed that both candidates, Ford and Carter, have made the same mistake. They've each hired economists to help them with their speeches.

As best I can tell, economists seem to be several notches below weathermen in accuracy. A weatherman, while not very dependable on what's going to happen tomorrow, is almost always right on what happened yesterday. An economist is vague in both directions.

What got me started on this was an article I read in a national magazine, written by one of the foremost economists in the country. He has figured out how inflation is a good thing for a home-owner.

According to him, "almost every home-owner has seen the market value of his house go up, and his mortgage -- even neglecting payments on the principal -- decline as a fraction of the value of the house. Inflation has been paying off his debt and

High flying causes more than airplane accidents.

increasing his equity."  
I have a notion that everybody who owes on his home would like to do business with this economist, if he has money to lend. Letting inflation pay off your mortgage is the best idea since a colony of drop-outs tried to make a living by taking in each other's laundry.

You have to take this idea and turn it around in your hands and hold it up to the light to see why Ford and Carter ought to check up on their economists. Sure, if your house cost say \$30,000 and inflation has pushed the price of it up to \$40,000, you're \$10,000 ahead, only you still owe most of the \$30,000 mortgage and your loan company officer will look at you over the top of his glasses if you tell him you've decided to let inflation pay off the balance.

The only way you can profit by inflation is to seal your \$30,000 home for \$40,000, hold the money a few days while you stay in a motel, then buy another \$30,000 home which will now cost you \$45,000.

Inflation is wonderful, and all you have to do to make it work is to get everybody to sell him home every six months. The last one to sell is a rotten egg.

Yours faithfully,  
J.A.

#### HIGHLIGHTS

Four of last year's post-season bowl teams help kick off the 1976 football season Saturday. It's rather a thin fare with only fifteen major games on tap. However, it's the beginning!

Miami of Ohio, beaten only by Michigan State last year and champions of the Mid-American Conference, whipped South Carolina in the Tangerine Bowl last December. They tackle North Carolina of the Atlantic Coast Conference in a good test for both teams. We give the edge to Miami by nine points.

The loser in that Tangerine encounter, the South Carolina Gamecocks, open their season against Appalachian State. The Mountaineers are starting their second year as a major football team, and will be 19-point underdogs to South Carolina.

In their first season as a Division I or major football team, Arkansas State came up with a real powerhouse in 1975. Their 92.5 power quotient placed them within breathing distance of our Top Twenty Teams when the season ended. The Indians will be heavily favored over Northeast Louisiana in game number one. The spread is 31 points.

The Peach Bowl last December saw West Virginia nose out North Carolina State, 13-10. State takes on Furman in the opener for both clubs Saturday, and they shouldn't have too much trouble. Furman is "favored" to lose by 27 points.

Kansas of the Big Eight and independent power Pittsburgh put on a real offensive show in the Sun Bowl last year. The Panthers stole center stage away from the Jayhawks, winning 33-19. We had rated Kansas #14 in the country, Pittsburgh #16. Kansas meets Oregon State in the first intersectional battle of the season, but if form holds up, it may not be that much of a battle. The Jayhawks, on paper, are 31 point favorites.

And hoping to return to national prominence after four down-years, the Mississippi Rebels face always dangerous Memphis State. Though the Rebels are favored by fifteen points, this game is always a toughie.

## Accidental Poisoning Frightening Incident

Accidental poisoning is one of the most frightening things that can happen to a person -- especially if the victim is a child. Fortunately, throughout the state of Texas, help is only a phone call away, through a network of Poison Control Centers.

Horace Adrian, coordinator of the Poison Control Center program for the Texas Department of Health Resources, explains that each center is essentially a local operation. Most are located in or adjacent to the emergency rooms of publicly-supported community hospitals.

However, Adrian says that the Department of Health Resources has had an active role in establishing and maintaining the Poison Control Center system. He says, "The Department acts as a focal point for the accumulation and distribution of toxicological information and data on poison case histories." Also, the state public health agency assists local centers in conducting educational programs to prevent poisonings.

According to health authorities, accidental poisoning is a large and growing health problem. Nationally, an estimated one million requests for assistance are received each year by poison control programs. In Texas, more than 6,000 accidental poisonings were reported in 1974, the most recent year for which complete statistics are available.

About half of accidental poison cases involve children under five years old, according to Adrian. However, a good number of cases involve adults, which he attributes primarily to "carelessness".

Most poison cases, Adrian says, "are from ingestion of drug poisons and household chemical products". But, he adds, other cases involve "fume poisoning, such as carbon monoxide and other toxic substances

that may be inhaled." Besides these sources of poisoning, Adrian says that the Poison Control Centers are concerned with poisonous plants, snakebites, and other toxic substances in the environment, although "they are a lesser amount than the ingested sources".

Each Poison Control Center serves essentially as an information source. Lists of all kinds of potentially toxic substances are kept on file and cross-indexed to the appropriate emergency counter-measures and treatments. The centers serve both the doctors and other medical personnel in the community and the general public. Many inquiries are handled over the telephone.

When a person has been poisoned (or thinks he has), the nearest Poison Control Center should be contacted for information and assistance. This is especially important when the victim is a child, Adrian says: "In the case of a child, the parent so often is distraught and excited, and the Poison Control Center that answers her call will try to calm her down and get the true facts of the case, and give any emergency measures that are appropriate."

In all poisoning cases, both the victim and, if at all possible, the remains of the poisonous substance should be brought to the Poison Control Center or to the nearest hospital emergency room. Proper treatment cannot begin until the poison has been accurately identified.

Adrian says that only 21 Poison Control Centers are in operation throughout the entire state. He explains, "They are located in the geographical and population density centers that will serve the full statewide set up of hospital emergency rooms."

Each center in the network should have the latest available information on all of the thousands of potentially toxic substances.

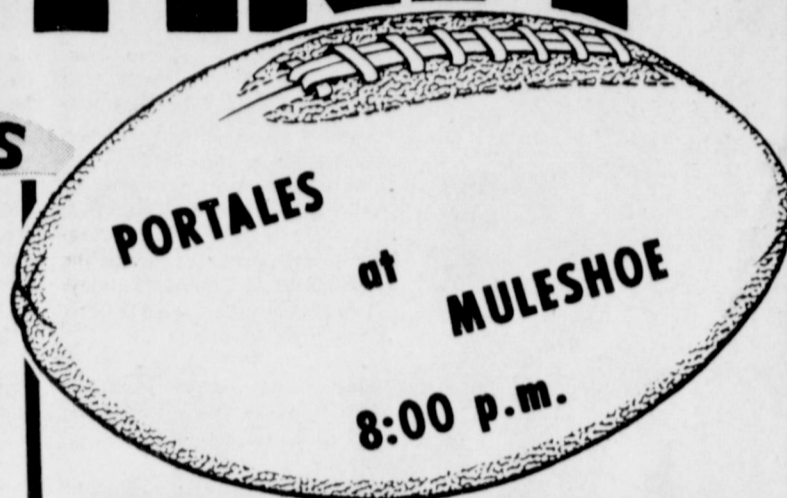

Cities with Poison Control Centers show the listing in the telephone directory. If there is no listing in your community, you or your doctor may contact the nearest public health department or Texas Public Health Region office that serves your community.

Never expect good luck to make up for loafing.

# FOOTBALL CONTEST

**HERE'S YOUR CHANCE WIN PRIZES WEEKLY!**

**WIN FIRST PRIZE \$5**  
**WIN SECOND PRIZE \$3**  
**WIN THIRD PRIZE \$2**

**GRAND PRIZE \$50** For expenses and two tickets to the Cotton Bowl at Dallas, Texas. There will also be a contest and prizes for the Bowl Games!

### Read the rules... Start Winning RULES OF THE CONTEST:

1. The contestant must be 12 years or older.
2. Only one entry per person may be made for any one contest.
3. Weekly contests are open to everyone except employees and families of this newspaper; bring or mail your entries to the Journal office.
4. Mailed entries must be postmarked not later than 5:30 p.m. Friday; winners names will be published in this newspaper each Thursday following the close of the weekly contest.
5. Check the team you think will win; 10 points for 1st place, 6 points for 2nd place and 4 points for 3rd place determines the Grand Prize winner.
6. The tie-breakers will count as one of the games picked, the predicted scores will be used to determine the top three places in that week's contest, if necessary, and cash prizes and points will be divided between winners in event of ties. Please write FOOTBALL CONTEST on envelope of mailed entry. Decision of the Journal's scoring judges will be final.

**FRESHMAN FOOTBALL, 1976** . . . Members of the Muleshoe High School freshman football team pose in formal fashion immediately prior to the opening of the 1976 football season in Muleshoe. These

are the future Mules, and they face a formidable schedule of teams including Portales in Portales tonight (Thursday) at 3:00 p.m. MST, in Portales. They will also play Tulia, Farwell, Dimmitt, Littlefield, Friona and Olton during the season.

## Sand-Free Irrigation Will Featured Attraction

"An irrigation well capable of pumping 1,300 gallons per minute of crystal clear, sand-free water is a rare sight on the Texas High Plains."

That exclamation by Dr. Bill Lyle, associate professor for the Texas Agricultural Experiment Station, summed up the feelings of Experiment Station scientists when a 320-foot irrigation well went into operation this month at that location.

For the Experiment Station and for the High Plains Research Foundation which funded the highly technological project, the well indeed marks a milestone in the application of irrigation well technology. For it not only overshadows two other wells on the 320-acre research site that pump 350 and 400 gallons per minute, but it proves, researchers say, that many other area wells could be pumping far more water and much more efficiently.

The well is scheduled for its first public viewing during the Texas Agricultural Experiment Station field day at Halfway September 14. The Texas Agricultural Experiment Station at Lubbock-Halfway is co-hosting the afternoon event, with Texas Agricultural Extension Service, High Plains Research Foundation, Agricultural Research Service - U.S. Department of Agriculture, and National Weather Service cooperating.

"The primary purpose of the well," says Lyle, "is to emphasize that, through correct design and development, and efficient pumping irrigation plant is possible which will provide maximum amount of water while

completely eliminating the pumping of sand which plagues the majority of wells in the area."

Lyle says the well actually was designed to replace one which had failed due to excessive sand pumping.

The first step, the agricultural engineer says, consisted of drilling a test hole to obtain samples of the formations followed by an electric log of the aquifer. An electric log is a measurement to accurately locate the most permeable sections of the aquifer or water-bearing rock formation. Samples were taken every five feet within the saturated zone, and were analyzed for particle size. Lyle explains the analyses are used to determine particle size distribution, information that is necessary for an accurate gravel pack design.

"For this gravel pack design, a well screen was selected which effectively retained the gravel pack," Lyle says. "A Johnson Irrigator well screen with a 50/1000 - inch slot was installed. This well screen provides about 10 times more open area per linear foot than does perforated casing and is of primary importance in maintaining the life and pumping rate of a well."

Lyle says the lower 40 feet of the aquifer, just above red bed, which is the bottom of the Ogallala formation, was screened. High Plains Drilling Inc. of Abernathy drilled the well and ran the electric log. They were also responsible for installing the gravel pack and screen which had been specified. Lyle

A 16-inch casing and well screen were set in a 24-inch drilled hole which allowed for the four-inch gravel pack.

Lyle says a host of special steps were taken to assure the well's success. Use of organic drilling compound, high speed bailing, and high pressure jetting to remove filter cake material from the gravel pack and bore hole were all part of the operation. Following jetting, a colloidal dispersing material was used to suspend remaining clay particles which were removed by further bailing. During the developing operation, only very small quantities of sand were removed.

The well was next test-pumped or 72 hours to determine its discharge (gallons per minute) - drawdown relationships. The well remained completely sand-free during test pumping at all flow rates. Drawdown is the difference in the static water table and the pumping level required to maintain a given flow rate.

Lyle says the peak flow rate reached during the test pumping was 1,300 gallons per minute. There still remained 30 feet of available drawdown at this pumping rate. This is in "striking contrast" to the other two wells on the research site, he adds.

Test pumping was also carried out to enable researchers to select a pump matching "exact pumping conditions of discharge and total dynamic pumping head".

While the construction of such a well is somewhat more expen-

in a correctly designed well will definitely return profit dividends over the life of the well," Lyle believes. "One of the most important benefits is to prolong the effective pumping life of the well. It will greatly decrease or eliminate well-plugging due to encrustation and will substantially increase the life of the pump since the pumping of air and sand are eliminated. This will also help maintain higher pumping efficiency over the life of the pump."

This, plus the fact that one is getting the greatest amount of water per foot of drawdown possible all add up to maximum operating efficiency, he says. "With the inevitable and continuous increase in energy prices, efficient well design and operation will become much more important in years to come."

\*\*\*\*  
Passion and defiance seldom solve a problem.

**A Shame**  
"I'm sorry, madam," said the attendant at the movie, "but you can't take the dog into the theater."  
"How absurd," protested the woman. "What ham can pictures do a little dog like this?"

**Competition**  
"I suppose the little wife will win all the arguments in your house?"  
"No, she'll only win half of them."  
"Oh, you expect to win the other half?"  
"No; but my mother-in-law will."

**Minor Operation**  
Jim: "You don't seem to think much of him."  
Joe: "If he had his conscience taken out, it would be a minor operation."

**Reason Enough**  
The fact that figures don't lie is a good reason to stick to a diet.

**STATE CAPITAL Highlights AND Sidelights**  
by Lyndell Williams  
TEXAS PRESS ASSOCIATION

**AUSTIN** — House Speaker Bill Clayton is crusading to check the constant upward spiral of state spending but getting little encouragement.

Clayton's motion to order the Legislative Budget Board staff to cut agency budgets 10 per cent was toned down to recommend the reduction where there would be "no significant loss of services."

Few agencies so far have indicated they could operate without "significant loss of services" with a reduced budget.

LBB Assistant Director Jim Oliver said selected agency requests would boost spending above the projected surplus (not including increases for prisons, youth correctional facilities and welfare).

Meanwhile, LBB approved for inclusion in the proposed budget draft a pay raise of about six per cent for state employees.

Clayton argues that if spending continues to increase at the rates of recent years, the state will be bankrupted or major new taxes must be enacted.

The speaker is aiming at House reorganization to save a quarter of a million dollars. Some jobs will be eliminated.

Gov. Dolph Briscoe has recommended creation of a \$1 billion capital reserve fund for investment in the era of surplus and Clayton has come up with a similar idea. The speaker concedes, however, passing a temporary one per cent reduction in the sales tax might be easier. Demands for increased budget demonstrate neither will be very easy.

**Capitol "Historic"**  
Texas State Capitol at last is "historic".

A marker proclaiming it as such was dedicated in the rotunda last week.

Only one former governor, Preston Smith, was on hand for the ceremony. There were conflicting reports as to whether or not Gov. Briscoe was invited.

The Constitutional Convention of 1876 set aside three million acres of public land to help finance the now-historic building, which was completed in 1888.

**Aid Plan Developing**  
Public meetings by the State Bar this fall will attempt to determine needs and develop a plan to meet needs of the development.

Come on and visit our Funk's field plots now—while the corn crop is at its peak. See why more growers are planting more Funk's G-Hybrids than ever before. Make it a date, because seeing is believing! Or stop in for a personally "guided tour"

**Funk's field days:**

1 Mile West Of Lazbuddie  
1/2 Mile North  
Lunch Will Be Served At The Farm At 12 Noon

**GENE SMITH**  
Taking a new stand  
**Gene Smith**

Hinson-Hazlewood loans limited to students at Texas institutions where default rates are confined to 10 per cent. Unless the agreement is reached with federal authorities, the program's lending capacity may be cut back from \$21.1 million last year to \$15 million. Many institutions have raised strong objections. Some default rates run as high as 41.8 per cent.

**AG Opinions**  
State law prohibits public disclosure of city inspection reports on nursing homes, but federal law allows access to the information, Atty. Gen. John Hill held.

**Loan Hearing Held**  
A key state loan program for Texas college and university students may be in danger of a \$6 million a year cutback.

A Coordinating Board, Texas College and University System committee held a hearing this week to discuss a proposed U. S. Office of Education restriction on the Hinson-Hazlewood program.

The program could face a substantial cutback in its line of credit for federal insurance in 1976-77 unless the Board and USOE can agree on a plan to reduce the overall default rate of 15.56 per cent.

USOE wants the

of the interior) are valid in Texas and may be granted to Texas Historical Commission.

**Unemployment Down**  
State unemployment rates dropped to 5.7 per cent in July — four-tenths of one per cent below the June figure.

Texas Employment Commission Chairman Harold K. Dudley said the decline follows a seasonal pattern, since many re-

move themselves from the labor force if unable to find employment by midsummer.

Last year's July rate of joblessness was six per cent.

The July work force was 5,469,500, with 5,156,500 employed. Total employment for June was 5,149,000.

National unadjusted jobless rate for July was 7.8 per cent.

**FARMERS**  
Joint-Venture Sunflower Production Contracts are being offered to Sunflower Producers on the High Plains by a European Firm thru a Joint-Venture agreement with John F. Herzer & Associates of Lubbock.  
Cash price to the producers shall be determined on the date of delivery of seed by using the combined price of Sunflower Oil and Sunflower Meal in Rotterdam.  
The producer is guaranteed a base price of \$3.09 cents per pound which is correlated to a combined Ex-Tank Sun Oil and CIF Sun-Meal price of \$747.00 per metric ton at Rotterdam. The Joint-Venture Contract offers the producer a \$.50 per metric ton for each \$1.00 fluctuation up or down above the \$747.00 combined price of Sun Oil and Sun Meal.  
This Joint-Venture Contract gives the High Plains Sunflower Producers who contract with John F. Herzer & Associates the assurance of a strong Local Market determined by the World Market demands for Sun Oil and Sun Meal based on the Rotterdam prices.  
Producers interested in discussing Sunflower marketing through Joint-Venture Contracting or Direct Selling on an open market at harvest are asked to call 792-4418, or 747-0014, or 1-894-3598, JOHN F. HERZER & ASSOCIATES, "THE SUNFLOWER PEOPLE OF WEST TEXAS."

**HARVEY BASS**

**MERRY MIXUP** . . . Mules and Wolverines don't mix! This was proven last Friday night during a football scrimmage in Muleshoe between the Muleshoe Mules and the Springlake-Earth Wolverines. The Mules topped the Wolverines and kept the neighboring team from crossing the goalline.

## Industrial Start-Up Training A Success

More than 2,200 Texans are on the job today because they have the skills required by burgeoning industries across the state, according to Jim Harwell, executive director of the Texas Industrial Commission.

These workers are graduates of Industrial Start-Up Training programs offered through Governor Dolph Briscoe's Job Creation Campaign to make TEXAS FIRST in economic development.

Training programs are designed to bring underemployed and unemployed Texans up to minimum skill standards for job slots with new and expanding industries. The Industrial Commission and Texas Education Agency work with the industry to outline skills required, and with a local learning institution to design the curriculum. Courses are taught through one of the state's 51 junior colleges, one of the four Texas State Technical Institute campuses or one of the independent school districts.

"The instruction is in fields not covered by the usual industrial arts programs in our schools," Harwell said. "The instructors are often company supervisors with long experience in the field."

Industrial Start-Up Training is funded with appropriations first set aside by the 64th Texas Legislature which gave the Industrial Commission and the Texas Education Agency the joint mandate to provide such training as was necessary to upgrade Texas workers.

State funds are used to pay instructors, maintain special equipment loaned for the training program and for consumable supplies used by students. The industry pays any wages to the trainee, and may also provide special transportation for employee trainees.

The Texas Employment Commission works with the industry to locate persons interested in the training program. These students begin training with the understanding that they must satisfactorily complete the program, and that the company is not required to hire those who do not qualify for the job. At the end of the training, companies interview, screen and hire or reject trainees as they would any other job applicant.

"Those persons hired by the company are at an entry-level of skill," Harwell said. "The company continues to train them, often for up to two years or more before the trainee can be considered fully productive. The

cost to the state is an infinitesimal part of the total cost to the company."

The average training period is five weeks and involves about 30 hours of training. No salary is paid the trainee by the state, so the cost per trainee is approximately \$152.

"The return to the state's economy through Industrial Start-Up Training is two for one," Harwell said. "By the time all 50 of the training programs currently on the books are completed, the cost to the state will have been a one-time expenditure of approximately \$1.05 million, but the benefit to the state in new taxes generated will exceed \$1.650 million ... and that's per year."

Sewing machine operators are among the most sought-after employees, and seven training programs have been conducted for them. Other skills taught have included machine operators, food processing, pottery making, aluminum production and electric motor manufacturing.

### Bennett Kin Attend Rites On Saturday

Mrs. R.G. Bennett, Jr., and her daughter and son-in-law, Mr. and Mrs. Roy Baker, attended funeral services in Pampa last Saturday for Manuel C. Bennett, of Pampa.

Bennett, 73, was the brother of the late R.G. (Bud) Bennett Jr., an uncle of Mrs. Baker and R.G. (Buddie) Bennett III, all of Muleshoe.

He had died of a heart attack at his home last Thursday night.

### Bula News By Mrs. J. Blackman

Mr. and Mrs. E.O. Battles spent the weekend visiting with her brother and wife, Mr. and Mrs. R.H. Estes, and his sister and husband, Mr. and Mrs. E.P. Holly, of Hollis, Okla. Friday evening the ladies had a birthday celebration for their

husbands, since both had birthdays close together. Mrs. Battles' brother, Wayne Estes of Wellington, was with them for the birthday observance, along with other relatives.

Sunday, they all attended the O.M. community's annual picnic, at a lake near Hollis. Mrs. Battles related they had a nice time and got to see so many people they had known down through the years.

Mrs. Virginia Davila and son, Bernie have recently returned from spending nine days with

her parents, Mr. and Mrs. Quinton Tamez, at Mathis.

Her father was in the hospital for 10 days, following an accident with one of his hands. She assisted in caring for him while she was there.

Mr. and Mrs. Joe Haitcock and son, Jeff, of Carlsbad, N.M., and Mrs. Mary Britt, of Amherst, were guests in the Nolan Harlan home, Friday evening.

Visiting with the P.R. Pierces Sunday and attending the Anni-

versary services at the Baptist Church were Mrs. Jean Jackson, Miss Alma Lou Pierce, Mrs. Debra Walls, Mrs. Melody Monzingo and son, Chris, all of Lubbock.

Mr. and Mrs. John Aduddell of Lake Hubbard, spent several days the past week with their daughter and family, Mr. and Mrs. Dewitt Tiller. They were also here for the Baptist Church anniversary celebration.

Mr. and Mrs. Jerry Smith and son, Stephen of Smithville, were

guests over the weekend of her parents, Mr. and Mrs. Jack Withrow. They also attended the wedding of her sister, Miss Jackie Withrow and Kenneth Johnson at the Muleshoe Church of Christ Saturday evening.

Mr. and Mrs. David Driscoll and son, Michael, of Fort Worth, spent the weekend with her father, Mr. and Mrs. H.M. Black. David is attending South West Seminary there.

Mr. and Mrs. Buddy Medlin of

Amarillo spent Sunday night and Monday with his brother, the L.H. Medlins.

Cecil Jones is recovering from an emergency appendectomy, on Friday afternoon. He was dismissed from ICU Tuesday and is now in room 600, at the Methodist Hospital in Lubbock.

U.S. loans Egypt \$100 million for equipment.

FTC to investigate direct denture sales.
