Democratic History and Prospects.
 Just at present the Democratic party is furnishing to the country another double-barreled illustration of its imbecility—proving, at once, that it is both unfit for public trust and unlikely to obtain it. In this, it is only repeating the history of its career as furnished to the world every year since 1861. It will be remembered that in 1862 the people began to doubt the sincerity of the Republican party in the conduct of the war. The rebels seemed to be gaining ground everywhere in the South; Mr. Lincoln had just issued his hundred-day warning, and the October election of that year showed strong Democratic gains in Ohio, Indiana and Pennsylvania. The two former States elected a majority of Democrats to Congress. This was on a pledge to the people for "a more thorough prosecution of the war." But no sooner had the newly elected members taken their seats than they proved false to every promise they had made to the campaign. Mr. Long of Ohio, elected as a war Democrat, made a speech in favor of secession, which was indorsed by his political associates. The consequence was, that in 1863, Ohio, which had elected a Democratic ticket the previous year, gave over a hundred thousand majority for the Republican candidate for Governor. In 1864 the Democrats made success impossible by the resolutions and candidates of the Chicago convention. The rebel leaders of the North put McClellan forward as their standard-bearer, because, as he represented the defeat of the national arms, he was more obnoxious to the loyal people of the North than Wickliffe of Kentucky, or Vallandigham of Ohio would have been. In 1866, they again threw away all hope of victory by putting forward the worst men they could find. Under a belief that the Andy Johnson disaffection had weakened the Republican party, they sounded their familiar bugle-call, "Fools to the front," and as a consequence no party was ever worse beaten, from one end of the country to the other. In 1868 they might have succeeded with Chase; but the nomination of Chase required some concession from Mr. Pendleton, whose friends had been buying the convention by States. Pendleton would rather be nominated and defeated than that other man be nominated and elected; and when he found that he could not be nominated, he bartered the empty honor to poor Seymour, whose vanity would not let him see through the shallow farce in which he was being made the chief actor.

Committing all intermediate idiocies, and coming down to the present time, what is the spectacle presented by the party that once had the ablest statesmen in the country for its leaders? We find its representatives in Congress either excusing or defending the bands of cut-throats and assassins in the South who seek to involve the country in another civil war. Not a measure is suggested for the suppression of the Ku-Klux, but the entire Democratic strength of both houses is arrayed against it. The inevitable logic of every Democratic speech on the subject is, that the Ku Klux is a lawful organization, with which the government has no right to interfere. If there were a Democrat in Congress, or in the country, who had the pluck and the sagacity for leadership, he would step forward, at this time, in defense of measures more radical than have been proposed even by Ben Butler, for the restoration of law and order in the South; and by so doing, he would but imitate Douglas in his strong advocacy of the war, in 1861.

But as matters stand, it is evident that nothing of the kind will be done. The Democrats are content to be in opposition, and they are acting so as to secure that status for a good many years to come. Their speeches and votes, since the assembly of the new Congress, have done a great deal to secure the triumph of a Republican President in 1872. They have shown themselves unfit to be trusted; and whatever discussions may arise within the ranks of the Republican party as to the claims of individual candidates or aspirants between now and 1872, it may be set down at a fixed fact that the people will not be misled into the elevation to power of the party representing the rebel side of

the late war, and ready to inaugurate another war of the same kind as soon as the means are at their disposal.

Effect of the San Domingo Message.

Grant's message on the San Domingo affair is everywhere received with great satisfaction by Republicans, and with corresponding chagrin by the Democrats, who fancied in this the torpedo that was to rend asunder the Republican party. An illustration of this effect was given in their course on the Enoch resolution, introduced some time ago, approving the purchase. The Democrats imagined they had in this resolution a means of raising a disturbance in the Republican ranks, and for some time they have been anxious to take the resolution from the table for debate and action. At length they were gratified—on Wednesday, Grant's determination on this affair had been telegraphed to Connecticut, and made public throughout the country. Mr. Williams, of Fayette, embodied Grant's conclusion in an amendment which he offered to the resolution indorsing Gen. Grant's declaration that he had no policy to enforce against the will of the people. This caught the sanguine Democrats in their own pit, and ended in their voting so as virtually to censure Grant's rule, and to affirm that he ought to have a policy against the will of the people.

This is a good illustration of the effect of Grant's message upon both parties. But the evidences of its favorable reception by the Republicans are abundant. It has extinguished all the fears of a course by the President that would divide the Republican party, and it has greatly depressed the rising hopes of the Democrats. It is accepted by all Republicans as an assurance that, the President's integrity in the negotiation, being vindicated by the report, the project of purchase will be left to stand or fall on its own merits, without executive interference, and thus it will cease to be a disrupting element in the Republican party, and will pass out of existence without leaving behind any dissension.—Cincinnati Gazette.

The Broken Peace.

Ten years have more than measured their length on the dial of history, since the Democratic party of the South broke the national peace of three generations by armed and bloody revolt. To four years of atrocious carnage have succeeded a long and troubled epoch of bitter intestine strife, assassinations and guerilla outrages. The Republican party earnest to bury the hatchet of harrassing conflict, have sought to end contentions by expunging the disabilities of those who fomented the rebellion.

This magnanimity has met with no worthy response. Strengthened by the generosity of their opponents the party of slavery and disloyalty have used their newly acquired power to attempt the overthrow of all the results of the war. All the constitutional theories from which secession and rebellion are the direct offshoots, are proclaimed anew, and every step of reconstruction and the legislation required to make that reconstruction effective, are opposed in Congress, in public speeches, and through the press.

Thus stands the great question of the day. Republicans, loyal citizens and patriots must stand shoulder to shoulder, and meet this second attack of the enemy as they met the first. The forces of the rebellion have been routed, and it remains now to rout the doctrines from which those forces sprang, and against the heresy of State sovereignty to assert forever the majestic supremacy of the American people.—State Journal.

The World Moves.

A NEGRO'S FIRST SPEECH IN THE LOWER HOUSE.

There are at present five colored members in the House of Representatives. They were all sworn in without a word of objection being raised by even the most inveterate old Hunter.

Among the delegation alluded to there is a Mr. Elliot, of South Carolina. He is black as ebony, and bears the impress of a regular un-contaminated African. He is said to be a man of marked ability, and

his first essay in debate was watched with much interest by all parties.

The question before the House was the extension of a general amnesty. This gave Elliot a good chance to charge down on his hereditary foes, and he did it with a vim. The Ku Klux came in for a largeshare of his invective, but his speech was so well conceived as to secure the most marked attention. This was the first speech ever made in the House by a negro, and constitutes quite an epoch in the political history of our country. Before Mr. Elliot closed he was surrounded by both Democrats and Republicans, and when he concluded, received the hearty congratulations of a large number of members.

The measure he opposed was also defeated. And so the old world does move after all.—Exchange.

The German press relates the singular story that, about a century ago, Prince Dietrichstein sold his Silesian estates to Frederick the Great, of Prussia, for the sum of 333,333 ducats. About a year ago the last scion of that princely house died at Vienna, and among his effects were found, untouched and carefully preserved, the identical 333,333 gold pieces which Frederick the Great had paid to his ancestor. What might not have been done with this money? It was rather an expensive fancy to let that million thalers remain so long unproductive.

A tippler called at a farm-house in Amherst the other day, and asked for cider. "No, Tom," said the farmer, "you've had enough to drink to day; no friend of yours would give you cider." "Oh, good Lord," cried Tom, very weary, leaning against the fence, "please send along some of my enemies."

TESTIMONIALS.
 From Genie C. Scott's "Report of Fashion," Reading at the fountain-head of American enterprise, and knowing the interests of the tailoring business from many years' experience, we most enthusiastically pronounce the Shuttle-stitch, last invented Sewing Machine of Grover & Baker one of the best machines—if not the very best—in the world for tailors' use, or for the use of any trade requiring a light seam in cloth or leather.

We have used the Grover & Baker Shuttle Machine No. 1, and find it admirably adapted to our business. It repairs better, makes less noise, and is in every way preferable to the Singer machine for either lighter or heavy manufacturing.

JOSEPH SCOTT,
 Manufacturer of Clothing,
 No. 540 Broadway, New York.

I am the fortunate possessor of one of your new Shuttle Machines, which you designate as No. 1. I have used many different machines in my business during the past eight years, and it gives me great pleasure in asserting that this one is far superior in all points to any that I have ever used. I want no better.

SEBASTIAN BLECH, Boot and Shoe Maker,
 124 South 2d Street, St. Louis Mo.

Having used the different kinds of Sewing Machines in the market, including Levi's, Singer's and Howe's, have finally adopted your No. 1 Grover & Baker Machine; and having used it the past two years, can truthfully say it proves to be the best machine, and superior to any we have used.

THE servant of a Prussian officer one day met a cory, who inquired of him how he got along with his fiery master. "Oh, excellently!" answered the servant, "we live on very friendly terms; every morning we beat each other's coats; the only difference is, he takes his off, and I keep mine on."

A stolen kiss saved a girl's life in Fond du Lac, last week, for, if the man who did the deed had not pulled her head forward just as he did, a beam, which fell from the upper floor, would have dashed her brains out.

I would not hesitate to use myself, nor to recommend to others, for medical purposes, the "Schiedam Schnapps" as an excellent and unobjectionable variety of gin. Very respectfully yours,

"Schnapps" is a remedy in chronic catarrhal complaints, etc.

I take great pleasure in bearing highly creditable testimony to the efficacy as a remedial agent in the disease for which you recommend it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito-urinary apparatus. With much respect, your obedient servant,

CHAR. A. LEAN, M. D., New York.

—Udolpo Wolfe, Esq., Present—Dear Sir: I have made a chemical examination of a sample of your "Scliedam Schnapps" with the intent of determining if any foreign or injurious substances had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are sometimes employed in the adulteration of liquors. I would not hesitate to use myself, nor to recommend to others, for medicinal purposes, the "Scliedam Schnapps" as an excellent and unobjectionable variety of gin. Very respectfully yours,

(Signed) CHAR. A. SEELY, Chemist.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth. This hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such a remedy can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white clothing, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

Consumption, Its Cure and its Preventive.

By J. H. Schenck, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. These persons, dear to family and friend, are sleeping the dreamless slumber into which, had they timely sought...

Dr. Joseph H. Schenck's simple Treatment.

and availed themselves of his wonderful efficacious medicines; they would not have fallen. Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid, made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is un-failing. Its philosophy requires no argument. It is self-assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach.

They respond to the morbid action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of...

Consumption.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-purifying, alterative properties of calomel, but unlike calomel, they...

"Leave Nothing Behind."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last...

A Supply of Good Blood.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the sets in to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest blood purifier ever yet given by an indulgent father to suffering man, Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impured and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and so in a very short time the malady is vanquished, the rotten throats that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was...

Given up as Lost.

This second thing is, the patient must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter seasons, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patient must keep in good spirits, be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the faculty of his own cure was in these modest words: "Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at a straw, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has disseminated his Professional visits to New York and London. He is the Dr. J. H. Schenck, Jr., still continues of his patients at their office, No 15 North Sixth Street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged \$5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them: First create appetite. Of returning health, hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough subsides, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a curer of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, \$1.50 a bottle, or \$7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and Dealers.

The great field trials at Sedalia, Mo., and at Xenia, Ohio, in the summer of 1893—where "The Clipper" met some 40 competitors including all the leading machines built, and was awarded the First Premiums and Gold Medal—proves that the proprietors have been able to sustain in the field their claims of superiority for the Clipper Machine over all others. Its extraordinary lightness of draft takes one-third of the labor of the team. The adjustability of the finger-bar, to cut high or low without stopping the team, is worth \$25 on any machine. It is the only mower that has the true center draft in accordance with correct mechanical principles. In short, it is the lightest, the most durable, the least complicated, the most perfectly constructed, the most symmetrical in design, of any implement of its class. Farmers THE CLIPPER is the Horse's Friend, and you cannot afford to ignore their welfare. Send for pamphlet—investigate. See or write to some one who has used THE CLIPPER. See the Machine yourself before you buy any other.
