This preparation of the great Scientist, Dr. Gottleib Fish, of Germany, is based on the fact that, as all materials of the body are derived from Food, so all Vital Force, or Health, is derived from the Force stored up in Food. Dr. Fisch's Bitters enables the System to liberate and appropriate these Forces, creates at once appetite, cures Dyspepsis, with its resulting Debility, Lassitude and lack of Nervous Energy; so tones the Stomack and Liver as to make Constitution and Billounces Impossible; deta as pation and Biliousness impossible; acts as a Preservative and Restorative; Reinforces the System so it can tide over bad re-sults of changing climate, water, &c., and better endure and meet the demands often priexpectedly made on its Force and Energy. #### A Series of Resolutions.

BY A REPORMER OF THE PERIOD.

WHEREAS, Our employers by giving
Three dollars for ten hours' work,
Find profit enough for a living,
And manage all labor to shirk;

Resolved, That w'll work but eight hours And charge them five dollars or more. Thus showing distinctly our powers And never they've seen them before.

Resolved, That more pay and less labor
Wouldn't make the expense any more,
For man would then live off his neighbor,
Whose profits would only be lower.

Resolved, That society's awful And rapidly growing much worse, And the only referm we deem lawful, Is to empty society's purse.

Resolved, That "more pay" is a blessing, While increase of work is a sin-And though to employers distressing, We heed not their protest a pin.

Resolved, That our voice philanthropic
For the present is taned on this pitch:
"The less that we do the more payment?" That motto will make us all rich

This company was chartered at a former saion of the Legislature, and is one of the few reads that have received no subsidy from the State, but which, nevertheless, has achieved remarkable success in the European money markets. In the London market all the bonds were taken up on the same day they were offered for sale, and not only were the two millions millions taken up but there was demand for at least two millious more.

This financial event is almost without precedent, and may in some measure be accounted for by the fact that the house of Belmont & Ca. (the American agents of Rothschild Bres.) had charge of the management of the bonds.

This road is almost completed to the Texas frontier on Red river, and having built four hundred miles last year, we may hope that it will arrive here before the International. #### A Perilous Season

Growoys and delightful as the Summer sather is, its tropical heat is a severe trial to the vital powers. Even the strongest are sometimes prestrated py its effects. The common phrase applied to this condition of the body is "general debility." Now, general debility arises from, and includes a variety of almonts. The liver is more or less affected, the bewels are either constipated or too much relaxed, the stomach but half performs the work of digestion, the appetite is poor, and the spirits depressed. This is what is called general debility. It is a general disarrangement of all the physical functions, and requires as a remedy a medicine that will regulate them all. Hestetter's Stomach Bitters is specially adapted to this purpose. Its general operation is not confined to a single organ. If the liver is affected, it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind, which ever sympathizes with the body, is gloomy and despondent, it relieves the difficulty, and seen brings the whole mechanism of the body into harmony with the laws of

the body into harmony with the laws of health.

There is no civilized nation in the Western Hemisphere in which the utility of Hostetter's Stomach Bitters as a tonic, corrective, ane satibilious medicine, is not known and appreciated. Throughout the Tropies it is considered, both by the people and the profession, the standard specific. While it is a medicine for all seasons and all climates, it is especially suited to the complaints generated by the westhe, being the purest and best yegetable stimulant in the world.

Beware of the Bitters made of acrid and dangerous materials, which unscrupulous parties are endeavoring to foist upon the people. Their name is legion, and the public has no guarantee that they are not poisonous. Adhere to the tried remedy, liostetter's Bitters, sold only in glass, and never in kegs or barrels.

### Consumption.

The way of the Residence

Its Cure and its Preventive, By J. H. Schenck, M. D.

Many a human being his passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cur. Those near and dear to family and friend are eleeping the dreamless slumber into which, had they calmly adopted

Dr. Joseph H. Schenck's simple Trentment, and availed themselves of his wonderful ef-flicacious medicines, they would not have

fallen.
Dr. Schenck has in his own case proved

Dr. Schenck has in his swn case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickoned into healthful viger.

In this statement there is nothing prenumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is un-

ble works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument, it is sair assuring, solf-convicing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the unstady is assailed. Two thirds of the vases of consumption originate in dyspensis and a functionally disordered liver. With this condition the breachial tubes "sympathize" with the stomach They respend to the morbide action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

#### Consumption,

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but pulike calomel, they

"Leave no Sting Behind,"

The work of cure is now beginning. The villated and mucous deposits in the house and in the alimentary caust are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, as last,

#### A Supply of Good Blood.

The Seaweed Tonic, in conjunction with the Fills, permentes and assimilates with the food. Chylification is now progressing without its previous tortures. Direction becomes palaises, and the cure is seen to be at land. There is no more fistulence, no enserbation of the stomach. An appetite

Now comes the greatest Blood Purifier aver yet given by an indulgent father to suffering man. Schenck's Pulmonic syrup comes in to perform its functions and to comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature, cannot be cheated. If collects and ripens the impaired and diseased portions of the inngs. In the form of gatherings, it propores them for expecteration, and is in a very short time the malady is vanquished, the retten throne that it complet is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to sujoy the membeod or womanhood that was.

Given up as Lost.

The second thing is, the patients must stay in a warm recent until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure tannot be effected. Fresh air and riding out, especially in this section of the commery in the fall and winter assoon, are all arrang. Physicians who recommend that course loss their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as nuch and as last as the strength will hear, to get up a good circulation of blood. The patient must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to go ure siter such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Scheuck's personal statement to the Faculty of his own cure was in them madest words.

Schenek's personal statement to the Faculty of his own cure was in these madest words: Many years ago I was in the last stages of consumption; confined is my bed, and at one time my physicians throught that if could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penstrate my whole system; They keen ripened the matter is my longs, and a would spit up more than a plat of offensive yellow matter every morning for a long time.

As soon as that began to question

As soon as that began to anhelde my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from cating too much, I soon gained my strength, and have grown in flesh ever since

ever slace."
'I was weighed aborsly after my recov-bry," added the Doetse, "then looking like a mere skeleton; my weight was only nine-ty-seven pounds; my present weight is two hundred and swamp five (225) pounds, and for years I have enjoyed uninterrupted health."

for years I have enjoyed uninterraped health.

Dr. Schenck has discontinued his professional visits to Now York and Jloston. He or his son, Dr. J. H. Schenck, Tr., still continue to see patients at their office, No 15. North Sixth strest, Philadelphia, every saturday from 3 a. S. to 3 r. K. I hose who wish a thorough examination with the Respirementer will be charged \$5. The Respirementer will be charged \$5. The Respirementer will be charged \$5. The Respirementer declares the tensor condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medigines are adapted to the intelligence even of a child. Pollow these directions, and kind Natore will do the rest, excepting that in

are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Fills are to be taken in incremed doses; the three medicines need up other accompaniments than the ample instructions that accompany them; Minst create appetite. Of retarning health, hunger is the most welcome symptom. When it comes, as it will come, let the despiting at once he of good cheer. Good blood at once follows, the cough loosens, the night sweat is absted. In a short time both of these morbid symptoms are good forever.

Dr. Schemek's medicines are constantly kept in tens of thousands of inpilies. As a laxative are pure attre, the Mandrake Fills are a standard preparation; while the Pul monic Syrup, as a curer of coughs and colds, may be regarded as a prophylactric against consumption in any of its forms.
