Consumption, Its Cure and its Preventive, By J. H. Schenck, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicine and his direction for their use, is quickened into healthful vigor.

In this statement there is nothing pre-emptory. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible facts.

The Standard Tonic and Mandrake Pills are the best two weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver.

The great field trials at Bedalia, Mo., and  
 at Xenia, Ohio, in the summer of 1869—  
 where "The Clipper" met some 40 competi-  
 tors, including all the leading machines  
 built, and was awarded the First Premium  
 and Gold Medal—proves that the proprietors  
 have been able to sustain in the field their  
 claims of superiority for the Clipper Machine  
 over all others. Its extraordinary lightness  
 of draft takes one-third of the draft of the  
 team. The adjustability of the engine, to  
 cut high or low without stopping the team,  
 is worth \$25 on any machine. It is the only  
 mowder that has the true center draft in  
 accordance with correct mechanical principles.  
 In short, it is the highest, the most durable,  
 the least complicated, the most perfectly  
 constructed, the most economical in design,  
 of any implement of its class. Farmers  
 who cannot afford to ignore their welfare—  
 send for pamphlet—investigate. See or write to  
 some one who has used the Clipper. See  
 the Machine yourself before you buy any  
 other.
