## around Muleshoe

Mr. and Mrs. James Gregory of Nampa, Idaho, former Muleshoe resident are visiting this week in the home of Mrs. Pearl Cox.

While in Muleshoe, they plan to visit friends in the community.

Mrs. Bob Kiser of Tampa, Fla., left last week for her home after visiting for a week in the home of her parents, Mr. and Mrs. Jessie Gary.

Another daughter, Mrs. D. W. 'Pat' Patrick, left Friday for Alkenberry, England, where she will be stationed with her husband for the next five years.

Visiting in the home of Mr. and Mrs. Alfred Steinbock of Lazbuddie Sunday, September 4, were Mrs. Francis Oliver of Clovis, N.M., Mr. and Mrs. Dick Moore and children of Clovis, N.M., Mr. and Mrs. Rhiney Steinbock, Mr. and Mrs. Ed Steinbock, all of Lazbuddie, Mrs. Johny Mitchell, Shonda and Scottie Mitchell of Friona. Alfred Steinbock entered Methodist Hospital in Lubbock for surgery Monday, September 5.

Mr. and Mrs. Jerrell Otwell returned home last week from visiting their daughter and family, S/Sgt. and Mrs. Bryan Swain and Sharissa in Warner Robins, Ga. They also visited relatives in Gainesville, Ga. They also went to the ruby mines in northern Georgia.

On their trip home, the Otwells visited in Baytown with their son and family, Mr. and Mrs. Robert Otwell and new granddaughter, Tamara.

The West Camp community will not hold its Family Night this Saturday. It has been rescheduled for Saturday evening, September 17.

## Jaycees Explain Lack Of Flags On Labor Day

Mack Hodges, of the Muleshoe Jaycees, explained to The Journal Tuesday morning that the flag project was not conducted on Labor Day because of early threatening weather.

As residents arose Monday morning to cloudy, threatening skies, the Jaycees decided to not put out the flags for the holiday.

Hodges explained that if the heavy, thunder and lightning laden skies had produced rain, the cost of removing the drying out flags would be prohibitive.

He asked that official apology be made to all the merchants who utilize the flag project and explain that flags will be flown on all holidays when the weather is feasible.

## Pilot Relates Life Over Grand Canyon

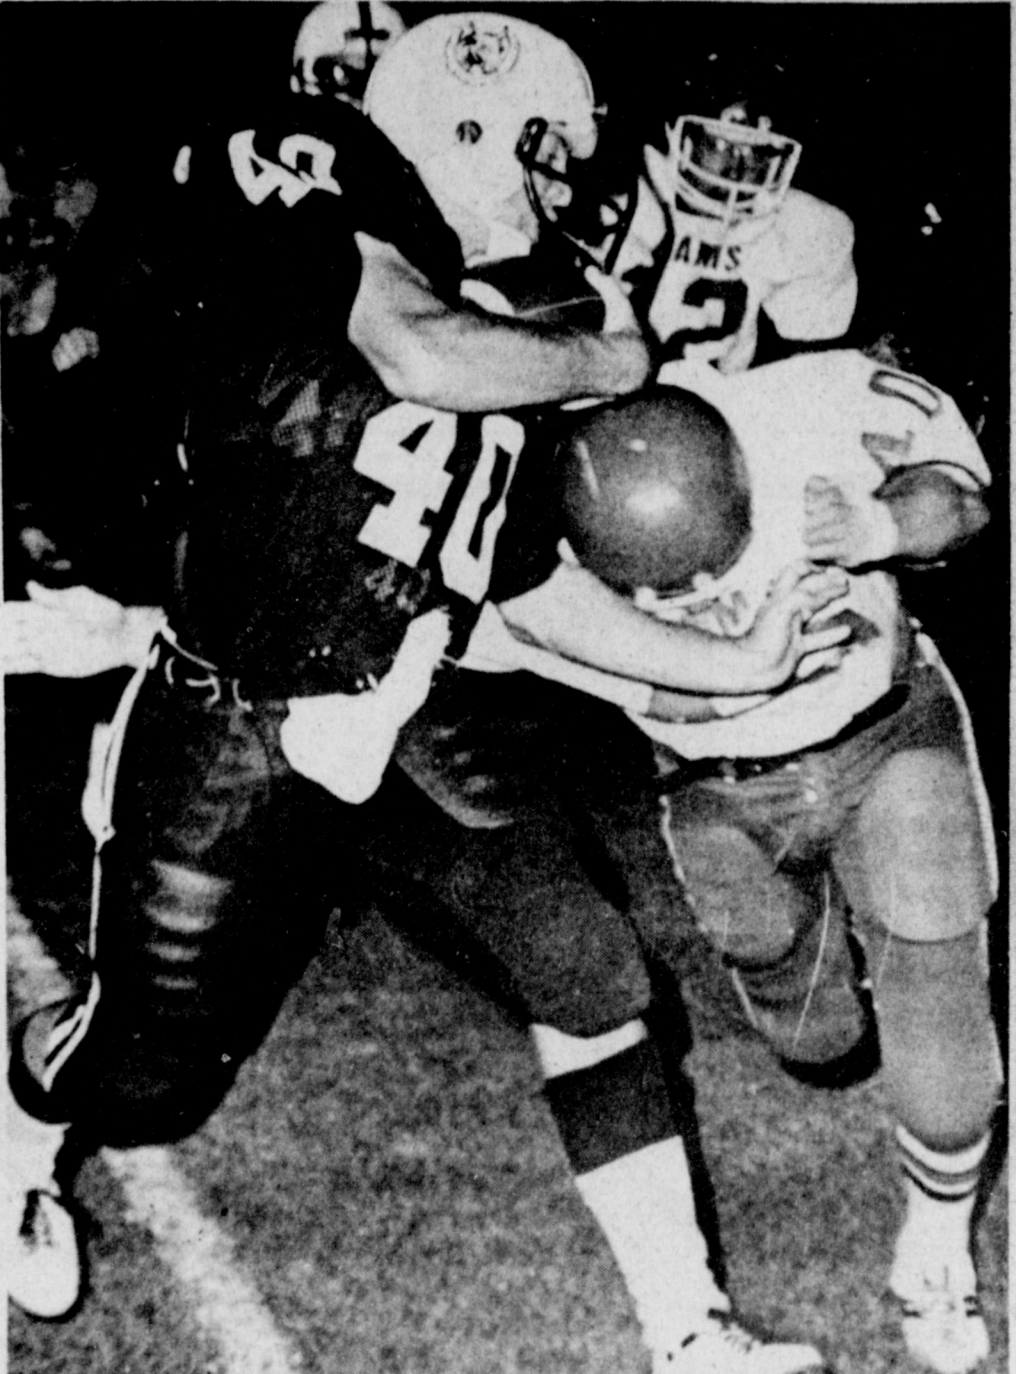

The man said it was the most spectacular air route in the world and his co-pilot agreed.

The man was Jim Reibman, who captioned Hughes Airwest Flight 570 from Phoenix, Ariz. to Salt Lake City last week. His co-pilot was John R. Brunton, son-in-law of Mr. and Mrs. Leon Lewis of Muleshoe.

Brunton, who is married to the former Rita Jannette Lewis, reminisced about the flight which was being terminated 'for economic reasons'.

He said the flight was over some of the most scenic country in the world with Brunton starting out as a mechanic with Hughes Airwest, then as a flight instructor. The group plans to step up to DC95 aircraft after their F275 aircraft are phased out, with Brunton moving to a pilot.

Some of the country the flight crossed included historic locations such as Jerome, Sedona, San Francisco Peaks, Bill Williams Peak, Grand Canyon, Lake Powell, Zion National Park

WATCH IT, FELLA..... Jeep Shanks, No. 40, makes an attempt to fend off a Ram, who's come in headfirst last Friday night to butt him out of the way. Jeep had a good night with the football during the Mules' first game, and first win, of the season over the Portales Rams. He will be ready for this week's game against the Lubbock-Cooper Pirates at Cooper school this Friday.

## Girl Scout Drive Begins In Muleshoe

The weeks of September 5 through September 15 have been set aside for organization of the new Girl Scout troops in the 18-county area of Caprock Girl Scout Council. Muleshoe's organizational meeting will be at 7:30 p.m. on September 15 at the 16th and Avenue D Church of Christ.

Invitations to join Girl Scouts will be issued to girls, first through twelfth grades, according to Mrs. Joe King. She said prospective Girl Scouts will attend the meeting with their parents for the sign-up.

This fall, Girl Scouts will implement a new focus for their program. "New Worlds to Explore" will expand the current program to include five worlds -- of people, today and tomorrow, well being, the arts, and the out-of-doors.

## Revival Starts For Calvary Baptist Church

James Williams, pastor of Calvary Baptist Church, announced a revival September 7-10 at the church located at the corner of 18th and West Avenue C.

He said services are at 8 p.m. each night and a nursery will be provided for infants and youngsters.

Conducting the revival is Rev. Glen Border, minister of the Calvary Baptist Church at Snyder and Eddie Skanes of Snyder is songleader.

Rev. Williams said persons needing transportation may call 272-4012 and he issued a special invitation to everyone to attend any or all of the services.

These publications update present program activities and contain insignia activities for Brownie Girl Scouts, youngest of the age levels. Brownie Scouts will have their own insignia sashes beginning this fall. Revisions in Cadette and Senior Girl Scout program will appear at a later date, explained Mrs. King.

## Three Way Helps MD Fund Drive

Millions of people watched the annual Jerry Lewis Telethon for Muscular Dystrophy during the Labor Day holiday, and either made pledges of contributions or felt sympathy for the youngsters and adults shown with the dread disease.

In the Three Way community, the people prepared to do something more concrete to help the drive.

A quick call-around as only a rural community can do started the production of gallons of homemade ice cream. The ice cream was taken to the Three Way School, followed by more than 100 people.

No charge was made for all the ice cream anyone could eat at the social, but contributions in any amount were accepted.

Featured at the ice cream social, and hitting close to home were Mr. and Mrs. Bill Dolle and their daughter, Darla. Darla is a victim of muscular dystrophy, and the drive was specifically in her honor, along with all young people afflicted with the disease.

Saturday night, with the Dolles, including Darla, looking on, local talent presented a stage show, the ice cream was enjoyed by more than 100 persons present, and the contributions rolled in.

Darla had the pleasure of calling the Jerry Lewis Telethon to announce the acquisition of Cont. on Page 8, Col. 5

She added that Girl Scouts welcome girls of all ages without Cont. on Page 8, Col. 1

## Local Charros Contribute To Jaws Of Life

A newly organized group, Asociacion de Charros de Oklahoma Lane, Texas, who organized in May of this year to help those who really need help, took a large portion of their ready funds for a needy cause last weekend.

After reading of the concentrated effort to obtain a 'Jaws of life' rescue tool for the Muleshoe Fire Department, the group voted to contribute \$100 toward the purchase of the tool.

A spokesman for the group, Alfonso Posadas, said the group discussed the project, and decided that if it could be a member of their family or a friend who could be helped by the rescue tool. The contribution was made to Louis Cardinal of the Department of Public Safety last Saturday morning.

Posadas said Asociacion de Charros de Oklahoma Lane, Texas was organized to provide financial aid, food, clothing and shelter to "low income persons and families in emergency situations or otherwise destitute," and to aid "financially, needy students wishing to pursue or continue their education beyond high school."

In order to obtain funds for the group's activities, the Charros plan sports activities, entertainment, fiestas and rodeos, among other fund raising projects.

He said they will also submit funding requests to public and private agencies and foundations for funds to help the persons who most need the help.

"Our aim is to reduce human suffering and promote the well-being of the rural poor," commented Posadas. He said they Cont. on Page 8, Col. 8

## Mules-Pirates To Clash At Lubbock This Friday

### Three Way School Has New Leaders

Both a new superintendent and a new school principal have taken the reins at the Three Way School this year.

New superintendent is Bert Grimes, who moved to Three Way from New Home where he served as high school principal. He also coached girls' basketball in 1975 and boys' basketball in 1976.

### Wreck Injures Clovis Man

### Tuesday Night

Cal Jordan, 52, a resident of Clovis and an implement dealer in that city, was hospitalized Tuesday night following a 9:30 p.m. car-truck wreck approximately seven miles northwest of Muleshoe.

Jordan, who was alone in his late model car, apparently drove upon a parked truck at the edge of Highway 84. Officers said the truck, with a flat tire, had been parked at the roadside since before dark. Officers said no flares or warning devices were around the truck.

The impact, concentrated on the left back of the truck, forced the truck into a ditch. Jordan's car careened out of control and up a steep railway embankment where it came to rest on the railroad tracks.

Officers called Santa Fe to hold up trains until the car could be removed from its steep perch. Aiding officers was the Muleshoe Fire Department rescue unit who set up power lights at the scene of the crash.

Jordan was taken to West Plains Medical Center by Cliff Crabtree who lives near the wreck scene. He was reported Wednesday morning by the hospital to apparently have no broken bones, but he is being treated for multiple cuts and bruises, and held for observation.

### Red Light Removed At Main And B

Due to malfunction, the red light at Main Street and Avenue B has been removed by city workmen. The workers have installed stop signs.

All motorists and pedestrians are cautioned to watch for the stop sign which replaced the light. It is unknown at this time how long the red light will be out of commission.

### School Column For Three Way Starts Sunday

"The Fighting Three Way Eagles" will be featured, along with all school activities, when the Three Way School column begins this Sunday in the Bailey County Journal.

With Three Way School's change in administration, school news will be carried weekly in the Muleshoe Journal and Bailey County Journal. Coordinated by school students and the school administration, copy will be mailed to The Journal each Monday to be included in their new column. This concentrated effort promises to give the southern part of the county more complete coverage of their school activities and the students involved.

For the past 20 years, he has been in the teaching profession, beginning at Crosbyton Junior High where he was coach and math teacher. He is a graduate of Floydada High School and holds a B.S. in Education and M.S. in Education Administration at Texas Tech University.

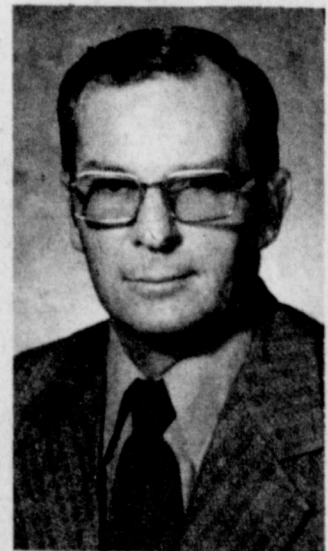

Grimes also was coach at Shallowater for six years; at Amherst for six years and at Crosbyton for six years, before going to New Home.

He and his wife Rose are the parents of two daughters, Debbie, 19, a sophomore at Texas Tech University and Any, 14, a freshman at Three Way High School. His wife is a teacher aide in the Three Way Schools.

During the past 20 years of teaching and coaching, honors Cont. on Page 8, Col. 5

BERT GRIMES

LEONARD B. MORGAN TGSPB Slates Biennial Vote For Directors

Texas Grain Sorghum Producers Board will conduct its fourth biennial election soon. Terms of four board members expire at that time.

Grain sorghum producers living in the 29-county TGSPB area are eligible to vote. If eligible voters do not receive a ballot by mail, they may pick up one at their county agent's office. Ballots must be returned to TGSPB by September 15.

Counties in the 29-area for the vote include Armstrong, Bailey, Briscoe, Carson, Castro, Cochran, Crosby, Dallam, Dawson, Deaf Smith, Floyd, Gaines, Hale, Hansford, Hartley, Hockley, Hutchinson, Lamb, Lubbock, Lynn, Moore, Ockham, Parmer, Potter, Randall, Sherman, Swisher, Terry and Yoakum.

The three incumbents seeking re-election to their six-year non-salaried posts are C.C. Reed, Worth Jones and Lee Hill. A.R. Dillard of Hereford, is not seeking re-election. Cont. on Page 8, Col. 5

### Both Teams Winners Of Opening Contests

Last year, the Lubbock-Cooper Pirates sailed into Muleshoe determined to loot the town and return their spoils to Lubbock. However, it didn't quite work that way as they ran into a group of feisty Mules who changed their minds to the tune of 41-7.

This year, prancing Mules will invade the home territory of the Pirates Friday night, hoping the outcome will not reverse against them.

Both teams are coming off first game wins. Last Friday, the Mules beat the Portales Rams 21-13 and the Cooper Pirates came from behind to defeat the Ralls Jackrabbits, 15-7.

### Fairview Gin Office Burned Monday Night

Deputy Sheriffs Pete Black and Monty Phipps went to the Fairview Gin Tuesday morning to check an attempted burglary and burning of the Fairview Gin office.

Deputy Black said the gin office had been unlocked, and the only thing found to be missing was the knob to the safe in the burned out office. However, he said the office fire was classified of "suspicious origin" as no concrete evidence of arson could be found.

Black said the office was still smoldering Tuesday morning from the fire which broke out around 10:30 p.m. Monday night. Damaged in the fire which started in the west end of the office building, where new scales which had just been installed.

### Mike Perez Wins Football Contest

Somebody goofed! Now, if you were one of the eleven persons who failed to put the tiebreaker scores on your football contest entry blank, don't forget it again. That's an automatic disqualification, regardless how close you checked the winners. Don't fret, though, the 11 of you who failed to put in the tiebreaker scores could not have won this week anyway -- but, next week?

All out in front alone was Mike Perez, who won the first annual Muleshoe Merchant's football contest for fall 1977. He missed two games, NW Louisiana vs. Arlington and West Texas vs. Wichita. Second place winner Hugh Young missed three games, and was 27 points off on the tiebreaker scores; and third place winner Maggie Gutierrez also missed three games, but was 31 points away from the tiebreaker double score.

Others missing three games and their tiebreaker scores were Francisco Torres, 35; Johnnie L. Estep, 36 and Gene Hamilton, 37. All other entries missed four or more games.

Entrants can have several weeks of fun entering the local contest before the end of the season. Points accumulated during the regular football season will determine the winner of the grand prize, two tickets to the Cotton Bowl on January 1 and check for \$50 for expenses.

Be sure to mark your entry correctly, enter the two tiebreaker scores and have the entry into The Journal office before the 5:30 p.m. deadline each Friday.

Who knows? You and your companion just may be the ones

"You will be seeing a much-improved team over the team who played in Muleshoe last year," cautioned Muleshoe Athletic Director and Head Football Coach Don Cumpston. He said the team has returned 21 of the 22 starters from last year and they are a lot more aggressive with a good attitude toward the game.

"Both teams should be up for the game," he added. "I am real pleased with our team's efforts and if we continue to get that kind of effort we have now, we'll have a real good year." Coach Cumpston said that although a few of the players have colds, no one is expected to miss Friday night's game.

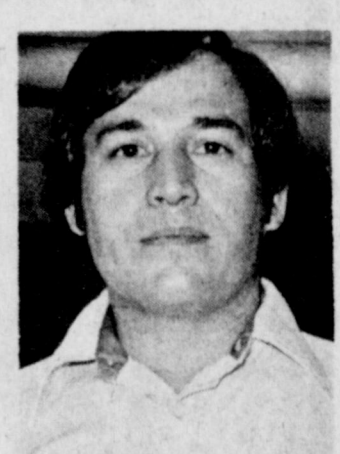

For Muleshoe, Dean Northcutt scored three times and had rushing yards of 101; he is considered to be a top contender in AA football action this fall. Muleshoe led all the way in the game against Portales, and are eyeing the Pirates team, who came from behind to defeat Ralls.

During the Cooper-Ralls game, at halftime, Ralls was leading 7-0, but the Pirates were determined to come back to break a 10-game losing streak.

Head Football Coach James Prater said, "At halftime, we told them that we'd better get our heads up and play ball or it would be the same thing as last year. Our kids came out and took it to the Jackrabbits starting with the second-half whistle and we never let down."

He praised quarterback David Martinez, who scored twice, and also was lavish with words of praise for halfbacks David Pisco. Cont. on Page 8, Col. 5

to make the trip to the Cotton Bowl in January.

MIKE PEREZ

### Police Report

For the second weekend in a row, city, county and state officers filled the jail at the Bailey County Law Enforcement office.

Officers logged numerous arrests included four for trespassing, two for driving while intoxicated and no driver's license and speeding; one for drunk and resisting arrest and one for evading arrest and drunk.

Two minor accidents were checked by city police during the weekend. One occurred Saturday night and the other Sunday morning.

Offense reports included a report by Ansel Ashford that 20 scrap exchange pumps, valued at \$20 each, had been stolen and Curtis Smith reported the theft of a 10 speed bicycle.

# Miss Tara Danette Lane, Thomas Allen Terrell Wed

MR. AND MRS. THOMAS ALLEN TERRELL

Wedding vows were exchanged by Miss Tara Danette Lane and Thomas Allen Terrell Friday, August 26, in the home of the bride's parents. The double-ring ceremony was read by Rev. Veron Stephens of Three Way Baptist Church.

Parents of the couple are Mr. and Mrs. Jack Lane of Stegall and Mr. and Mrs. Leonard H. Terrell of Clarksdale, Miss.

Vows were exchanged before a setting of two arrangements of palms and fern with peach bows and streamers. Pre-nuptial music was presented by Mrs. Mickey Sowder, pianist. She played, "Tenderly", "The Green Leaves of Summer", "For All We Know", "Love Means" and "Close To you". The processional was the "Love Theme from Romeo and Juliet". Preceding the wedding vows, Mrs. Ross Bennett sang, "The Wedding Song" and "The Lord's Prayer" was sung after the vows were repeated.

The bride was escorted and given in marriage by her parents. She wore a short dress of white polyester cotton. The fitted bodice featured shoulder straps and trim caught in front with matching eyelet lace completing the trim. The tie ends were caught to the bodice side fronts and tied in the back forming a bow. The bride wore a floral hair wreath of daisies and baby's breath with peach bows and streamers. She carried a bouquet of white daisies with peach streamers. The groom at the altar, the bride pinned the daisy boutonniere to his lapel.

For the traditional Something Old and Borrowed, the bride wore a diamond pendant necklace belonging to her aunt, Mrs. Emil Macha of Littlefield. Something New was her wedding dress. She wore a blue garter and in her shoes were pennies minted in the birth years of the bride and groom.

Miss Regina Macha, cousin of the bride, served as maid of honor. She wore a short dress of peach and white calcutta cloth

featuring a bias trim stitched over tie ends and caught at the bodice front. Ecu lace trimmed the shoulder straps, bodice and hem. She wore sprays of daisies in her hair and carried long stemmed daisies tied with peach and white streamer.

Don Terrell, brother of the groom, served as best man.

For her daughter's wedding, Mrs. Lane wore a street length dress of multicolor polyester. She wore bone accessories and a daisy corsage. Mrs. Terrell wore a street length dress of blue floral veil and bone accessories. She wore a daisy corsage, also.

Miss Michelle Lane, sister of the bride, presided at the guest registration table. Guests received peach satin rose rice bags handed out by Sheldon Macha and made by Mrs. Buck Ragsdale.

Following the ceremony, a reception was held. The serving table was laid with a white nylon tricort floor length cloth. A floor length skirt of white chantilly lace, clusters of peach and white silk flowers with peach and white streamers bordering the table top and skirt of the cloth. The bride's bouquet of daisies, held by a silver Bon Bon dish, flanked by peach candles in silver candelabras tied with peach and white bows, served as the centerpiece. The three-tiered traditional white wedding cake was on a raised base with pillars entwined with white and peach silk flowers. White roses and silver leaves with iridescent doves shimmering in a special effect was topped with an arrangement of feathered doves holding a wedding ring with the "diamond" rein necked with silver bells. The apricot sherbert punch, nuts, and mints were served from crystal and silver appointments. Serving were Mrs. Don Terrell, sister-in-law of the groom, and Miss Sandra Macha, cousin of the bride.

Members of the houseparty were Mrs. Conrad Williams, Mrs. Carter Williams, Mrs. Wendell Williams, Mrs. Buck

Ragsdale and Mrs. Chloe Klutz.

Out-of-town guests were Mr. and Mrs. Terry Compton, Childress; Mr. and Mrs. Ronald Morris, Plainview; Mr. and Mrs. Pat Stephenson, Mr. and Mrs. Jerry Simmons and Mrs. J.O. Pierce of Lubbock; Mrs. O.W. Still, Mrs. Burton Pierce and Mrs. Emil Macha, Littlefield; Mrs. Bob Gage, Mrs. Carter Williams and Chad of Muleshoe; Mrs. Kim Perdue, Mr. and Mrs. Wendell Williams; Jim Sailor, Bryon Stevens and Mike Orlovishi, all of Lubbock.

Special guests were Mrs. Nettie Queenberry of Needmore, grandmother of the bride and Miss Myrtle Hander, aunt of the groom of Dallas.

For travel, the bride chose a white jumpsuit trimmed in white eyelet lace with brown accessories. The couple will be at home at 2008 Sixth Street in Lubbock after a trip to Cloudcroft, N.M.

The bride is a graduate of Three Way High School and a 1976 graduate of Lubbock Vocational Nursing. She is employed as a nurse to Dr. Carl T. Long III at the Medical Arts Clinic in Lubbock.

The groom is a 1973 graduate of Plainview High School and is presently attending Texas Tech University.

A rehearsal dinner was hosted by the groom's parents, Thursday evening, August 25, in the Art Studio in the home of Mr. and Mrs. Conrad Williams of Stegall.

**OCTOBER WEDDING PLANNED...** Mr. and Mrs. Albert Castore of Amarillo announce the engagement and approaching marriage of their daughter, Donna Ann, to Marvin Long, son of Mr. and Mrs. Garvin Long of Maple and Mrs. Bonnie Long of Morton. The couple will recite their vows on Saturday, October 22. The bride-elect is a graduate of West Texas State University and is employed as a registered nurse with Northwest Texas Hospital, Amarillo. The prospective bridegroom is a graduate of Three Way High School and is employed with the United States Post Office in Amarillo and the central distribution unit.

## Bridal Luncheon Honors Miss Lisa Jane Mason

A bridal luncheon honoring Miss Lisa Mason was held in the home of Mrs. Vance Wagon, grandmother of the honoree, Saturday, August 27.

Special guests were Mrs. Fletcher Sneed, mother of the groom, Mrs. L.M. Brunson, grandmother of the groom, both of Jdalou and Mrs. Clarence Mason, mother of the bride.

Other guests present were Miss Linda Mason, Miss Julia Hettinga, Miss Jane Sneed, Miss Cam Dodgin, Miss Karla

Stroud, Miss Loura Rose, Miss Jennifer Williams, Miss Sara Hoover, Mrs. William H. Mason, Mrs. Raymond Mason, Mrs. Raleigh Mason, Mrs. Norris Conklin, Mrs. Frank Herring, Mrs. Velma Whitefield, Mrs. Charles Mayhugh and Mrs. James Williams.

Gifts of appreciation were presented by Miss Mason to her bridal party, as well as to the houseparty. A special gift of appreciation was presented to Mrs. Wagon.

## Hobby Club To Meet September 15

Muleshoe Hobby Club met Thursday, September 1, at Muleshoe State Bank community room. Mrs. Ethel Julian served as hostess. Co-hostess was Mrs. Mabel Caldwell.

Mrs. Ola Epperly presided over the meeting. The treasurer's report was given by Mrs. Verna Dement.

Articles shown were quilts, afghans, girls dresses, pot holders, styrofoam cookie jar, tooled chest, yarn doll, hand towels, old kitchen spoon, dried

flower pictures, wall hanging string art and paper weights made with tumbled rock.

Members present were Mrs. Levina Pitts, Mrs. Dora Phipps, Mrs. Bub Shafer, Mrs. Ruth Bass, Mrs. Mae Pattie, Mrs. Allie Barbour and Mrs. Bernice Amerson.

Visitors were Mrs. Jewell Barry, Mrs. Essie Hall, Mrs. Dulsie Hunt and Mrs. Francis Bruns.

The next meeting will be held Thursday, September 15, with Mrs. Mae Pattie as hostess.

## Rush Party Held By Alpha Zeta Pi

Alpha Zeta Pi chapter of Beta Sigma Phi held its first Rush Party of the new year, Tuesday evening, August 30, in the home of Mrs. Clifford Black.

Members and guests were costumed as hobos and a "Hobo" supper of sloppy joes, beans-in-a-can and chips was served. Several get-acquainted games followed the meal.

Sherbert desert was served to Mrs. Dave Marr, Mrs. Gary Glover, Mrs. Gary Renner, Mrs. Gary Toombs, Mrs. Rick Hall-

ford, Mrs. Kirby Burch, Mrs. Tim Foster, Mrs. Mark Gist, Mrs. David Bray, Mrs. Alec Schuster, Mrs. Gordon Green, Mrs. Paul Wilbanks, Mrs. Tommy Merritt, Mrs. Ed Drammer, Mrs. Homer Allgood, Mrs. Clifford Black, Mrs. Tom Little, Mrs. Stan Black, Mrs. Mac Brown, Mrs. Benny Bruns, Mrs. Dick Chitwood, Mrs. Bruce Purdy, Mrs. Skip Magby, Mrs. Terry Hill, Mrs. Larry Hayden and Mrs. Steve Black.

Those who seek the truth must first establish an unbiased mind and divest it of personal interest.

## Consumer Food News

Cornmeal brings variety—and historical distinction—to modern menus.

The corn family dates back to the beginning of our country—and cornmeal has kept pace with changing food trends ever since, says Mrs. Gwendolyn Claytt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Friendly Indians taught New World settlers to grow corn, and later go grind it into meal, and the settlers learned to parch corn, and mix it with boiling water to bake into thin cakes. Hunters and traders depended on these cakes during their long journeys over Indian trails—hence the name "Journey Cake," later called "Johnny Cake," she explains.

Hoe Cake and Corn Pone were the first simple forms of cornbread in the South. Spoon bread evolved with the old-time Virginia cook put a dish of cornmeal mush in the oven in the home of James Monroe, then president.

Cornmeal is ground by two general methods. It is "water-ground" or "rock-ground" between two large rocks or mill stones. This method was used in early days when "meal" was new.

Meal ground between steel cylinders or rollers is called "roller-ground." This type usually feels like fine crystals because it is finely cut rather than mashed.

Bolted meal is whole grain with some or all of the coarse layers of bran blown, or sifted, out. This makes it lighter in color. Self-rising cornmeal contains baking powder and salt—already added and blended in the correct proportions.

Nervous tension is an expensive trait.

## Mrs. Roberts Selected As Outstanding Young Woman

Recently selected as one of the Outstanding Young Women of America for 1977 is Mrs. Delbert (Opal) Roberts. She is the daughter of Mr. and Mrs. Tom Bogard of Bula.

Mrs. Roberts is a 1960 graduate of Bula High School and a 1964 graduate of Wayland College. She received a full four-year scholarship to Wayland College in basketball. While playing with the Flying Queens, she made All-American guard in the national tournament. She was also recognized as the most valuable player of the team.

She coached two of four years

## Birthday Party Honors Alfred Steinbock

Mr. and Mrs. Leslie Curtis of Farwell honored her father, Kirk Steinbock, with a birthday dinner party in their home, Saturday, September 3. Steinbock is a resident of Lazbuddie.

Those attending were Mr. and Mrs. Kirk Steinbock of Lazbuddie; Mr. and Mrs. John Mitchell, Shonda and Scottie of Friona; Mr. and Mrs. David White, of and Mrs. David White, Gary and Kenny, of Farwell; Jane Green of Muleshoe; and Mrs. Elmer Davis of Muleshoe.

at McCamey, Texas, in girls basketball. She married in 1968 and moved to Houston for five years. They have two sons, Rance and Kendon.

Now living in Junction, Texas, she teaches the seventh grade. She did a research and history of Kimble County in 1976. Her students put on a play for their County's Bi-Centennial celebration, depicting the dress and life of the old timers of the county.

She was honored with a plaque as outstanding teacher of junction school for her work with the pupils in UIL work at the end of the 1976 school year.

Only a select number of young women from the entire United States receive this distinctive honor for their excellence in both professional endeavors and civic participation.

## TEXAS' NATURAL RESOURCES

Texas has a vast array of natural resources which can best be protected through private control coupled with an appreciation for public need, contends a recreation and parks specialist with the Texas Agricultural Extension Service. Many of nature's attractions in Texas are still in their pristine state due to the high degree of private ownership of land and the resource management practices of farmers and ranchers. Also, the most fragile and spectacular resources are in western areas that are sparsely populated and not readily accessible to most of the state's population.

Despite what some people say, most of us want to do the right thing, even though we don't do it.

**LAZBUDDIE YOUNG HOMEMAKER OFFICERS...** Installed Thursday, September 1, at the first meeting of the 1977-78 year from left, Mrs. Loyd Bradshaw, vice-president; Mrs. Clay Mimms, secretary-treasurer; Mrs. Jim Collum, president; Mrs. Ronald Mayfield, reporter and Mrs. Skip Magby, historian.

## Lazbuddie Young Homemakers Install 1977-78 Officers

The Lazbuddie Young Homemakers met Thursday, September 1, for their installation of officers and the first business meeting of the new year. The new officers for the 1977-78 year are Mrs. Jim Collum, president; Mrs. Loyd Bradshaw, vice-president; Mrs. Clay Mimms, secretary-treasurer; Mrs. Skip Magby, historian; Mrs.

Ronald Mayfield, reporter and Mrs. Bill Morris, advisor. Red carnations, the club's official flower, and red tapers were featured on the installation table and a red carnation was presented to each new officer as a symbol of her office. An Eye and Ear Clinic will be held Thursday, September 29, at the Lazbuddie School. A membership tea will be held Thursday, September 8, at 2:00 p.m. in the Lazbuddie cafeteria. A demonstration on dough art will be presented by Mrs. L. Wilson. Refreshments will be served and a door prize will be given away.

## RECIPE

**By Sarah Ann Sheridan**  
Apples are at their best this time of year and a healthful item to include in your family's diet. A combination of apples and sweet potatoes, apples and pork and other blends bring variety to your menu.

### Fried Apple Pie

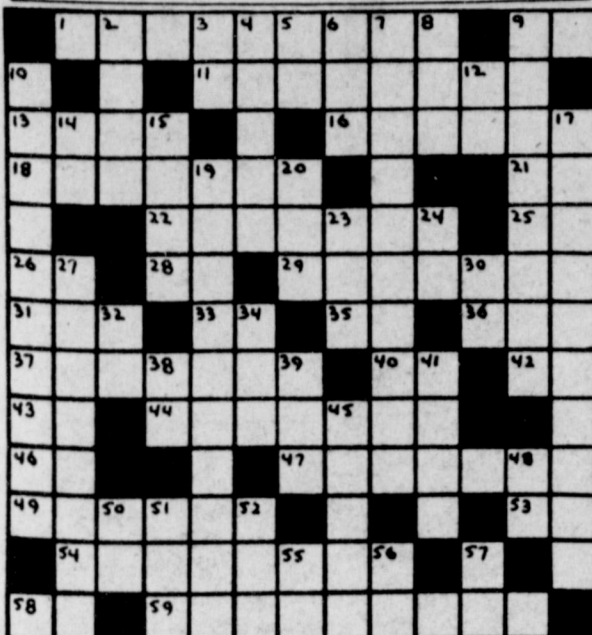

- 2 c flour
- 1 t baking powder
- 1 t salt
- 2 T shortening
- 1 egg yolk
- 4 T sugar
- 1/2 c milk

Thick apple sauce, well seasoned with cinnamon and nutmeg.

Sift baking powder and salt with flour. Blend in shortening. Combine egg, sugar and milk. Stir into flour mixture. Roll out on a floured board to 1/4 inch thick. Cut into rounds about 4 to 5 inches in diameter. Spread 1/2 the circles with well seasoned apple sauce. Fold over the other half of crust, fastening the edges with a fork. Fry in deep fat heated to 360 degrees. Drain on absorbent paper. Sprinkle with powdered sugar.

## Cost Of Working For 'Working Wives'

Earning money may cost "working wives" too much, says the Texas Agricultural Extension Service. Not every family increases its spendable income when the wife goes to work -- although four of every five "upper 20 per cent" American families boast at least two wage earners -- usually husband and wife. Many wives considering going back to work, however, may discover that employed women

lose some of their earnings because of the "cost of working." Some of those costs may be additional clothing, meals out, household help and child care. On the other hand, benefits might be paid vacations, health and hospitalization insurance. Balancing benefits and expenses may make deciding easier. To help families weigh costs against benefits, Worksheet D-960, "Cost of Working and

Income" is available from County Extension Offices throughout Texas. This check-list may simplify the process of determining how much spendable income the second salary would provide. It will also help in comparing alternate sources of employment and potential income from each source.

-Byron.

-----  
When all is done and said, in the end thus shall you find.  
He most of all doth bathe in bliss that hath a quiet mind.  
-Thomas Vaux.

## Compare Price And Form When Buying Vegetables

Vegetable economy starts with comparing -- form, supply level, quality and price, according to Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System. FORM -- Check different forms of food -- fresh, canned, dehydrated, frozen -- and compare them by amount and price. SUPPLY LEVEL AND QUALITY -- Take advantage of vegetables in seasonal abundance, since at this time they are at peak quality -- and often low in cost. Radio, television and news-

papers announce food in plentiful supply. Limit purchases of perishable foods -- even at bargain prices -- to amounts that are usable while quality is still good. Be ready to substitute one vegetable for another if it means a savings and if the family will accept the change. PRICE -- Watch for specials on canned and frozen products the family likes. Stock up on good buys if proper home storage space is available. Try lower priced brands as they can be just as satisfactory as the more expensive ones. Private brands and less advertised brands may be similar in quality to the nationally advertised products that cost more.

### EDITORIAL

#### The Looters

After the disgraceful looting in New York City recently, when power went off and stores and whole blocks were ruthlessly looted of contents, many apologists went off the deep end (off which bleeding hearts regularly plunge) with the lament that this just showed how desperate out-of-work citizens were.

Television docudramas and do-gooder columnists contend that jobs must be made available to these people, etc., etc. They had no hope. They couldn't find work, etc. Federal money was the answer, as usual.

Now come the facts from careful studies of the records of those arrested. Almost half the looters were employed. In fact, more of them had jobs than the city's average criminal--and fewer of them were on welfare!

Another excuse will now have to be found. Or could we not blame the looters?

#### About Food Stamps

The negative aspect of well-intended and often-needed federal give-away programs is that they are abused by the shrewd operators.

Associate Professor John Tovey of the Delaware Law School recently wrote members of Congress his study of the food stamp program shows even the wealthy can qualify for food stamps if they arrange their personal economic affairs to meet requirements.

The easiest dodge, Tovey says, is to buy a very expensive home or mansion. One must rid himself of any securities owned in the process. Other money can be eliminated by buying jewelry or paintings (to be hung in the home.) Nice life insurance policies can be taken out. None of these expenditures counts in determining food stamp eligibility.

While net income must be low, huge payments on the mansion (not counted) could reduce it to a sufficient level to enable the owner to have the government pay his food bill. This method is but one of the legal methods to circumvent the spirit of the program. Many, of course, qualify through hidden money or income and false statements and allegations, never sufficiently checked.

The average, salaried tax-paying citizen, many hard-pressed to meet bills, largely finances both the within-the-law freeloaders and the chiselers.

### WASHINGTON NEWS REPORT

**The Canal Fight-Carter All-Out-The Opposition-The Future**

WASHINGTON, D. C. -- President Carter is conducting an all-out effort to win confirmation of the Panama Canal treaty, so laboriously negotiated for thirteen years. He and Senate leaders agree action this year (not next) is a must, if confirmation is to be voted.

There is, however, a hard core of opposition in the Senate and a recent Opinion Research Corporation poll showed three-fourths of the American people opposed to turning over sovereignty to Panama. A bitter fight is certain. That's why Carter appealed to former President Ford and Henry Kissinger for support.

The Presidential view takes into consideration this country's high-handed methods at the turn of the century, when we encouraged Panama to secede from Colombia, then quickly brought the necessary land from the new regime (we had sponsored), and dictated rather tough terms rather toughly.

That is history, and not one of the nation's brighter chapters. The new treaty turns over sovereignty to Panama by 2000, but transfers control of much of the zone sooner. Panama begins to join in the canal's operation immediately.

Benefits for the U.S., proponents say, are better relations with Latin America, an improved image before the world, and avoidance of a confrontation with Panama, including certain bloodshed, if ratification isn't forthcoming.

This sharply contrasts with Israel's firm retention of huge areas of seized Arab land, Britain's retention of Gibraltar and Russia's retention of much land seized in World War II.

Those opposed to ratification say the United States risks losing all control of the canal by turning over sovereignty to Panama, that the treaty fails to guarantee to the world's maritime powers free and equal usage of the canal. They believe a good case can be made for U.S. retention of sovereignty, that Panama's present dictator regime should certainly not be appeased.

North Carolina Senator Jesse Helms recently warned Carter at the White House the treaty would never pass the Senate. Others have told the President the same thing. Helms pointed out the U.S. bought the land from individual landholders and has operated the canal almost like a public utility for the world--

that this secure, fair operation should not be jeopardized.

If the new treaty is rejected, Panama's dictator, friendly with Fidel Castro and other communists, is almost certain to provoke riots and fighting. Rejection thus means violence and agitation. As of now, that appears to be the look of the future.

### The Speaker Reports

by Bill Clayton

AUSTIN--The implementation of a Sunset law for Texas will not cause any undue concern for the State's bond rating.

During the July Special Session of the Legislature, precautions were enacted by state agencies affected by the Sunset Act.

Sunset, which requires that state agencies self-destruct after 12 years unless renewed by the legislature, had jeopardized the rating of certain bonds. The Governor included the subject in the special legislative session which primarily dealt with financing the State's public schools.

The legislative action now clears the way for cranking up Sunset, which establishes a series of expiration dates through 1989 on which almost all agencies, boards and commissions will go out of existence unless reinstated.

A Sunset Advisory Commission, made of up four Senators and four House members, will receive reports from the agency in question a year before it is to go out of business. The Commission will review the report and, in conjunction with other advisory boards, conduct a performance evaluation. Public hearings will be held on the agency and the report sent to the Legislature on December 15 preceding the biennial session.

Recommendation may be for continuation of an agency for a maximum of 12 more years or for shorter periods. The Legislature will have final voice on whether

or not to continue the agency.

Any agency which is doing its job and which has a legitimate and viable purpose will be continued and does not need to worry about being renewed. It is true, however, that when an agency's renewal date occurs, the burden is put on that agency to justify its existence.

The objective is to eliminate those agencies which have outlived their usefulness and are no longer needed. It is one way the Legislature can move to get a better grasp of our agencies and to see that they are following legislative intent in their workings.

**FORD FOR PACT**  
VAIL, COLO. --Former President Gerald Ford recently threw his support behind a new Panama Canal agreement announced by the Carter administration. Ford labeled the pact "an important step forward."

**PROUD PAPA**  
TRAVELERS REST, S. C. --Jim Brown says his baby daughter will never be seen in blue jeans. The proud father of Julia Elizabeth, the first girl born to his family in nearly 100 years, says, "I just want her to wear a dress. I want her to look like a woman. I demand ruffles."

**BRANDT'S WARNING**  
BONN, WEST GERMANY --In a letter recently made public by the ruling Social Democrat party, former Chancellor Willy Brandt warned his successor Helmut Schmidt of a growth of neo-Nazism in West Germany.

### NEWS NOTES

#### STRONG EARTHQUAKE

JAKARTA, INDONESIA -- A powerful earthquake, possibly the strongest ever recorded, struck the eastern Indian Ocean between Australia and Indonesia recently, rattling tall buildings as far away as Perth, Australia, 1,000 miles to the south. Monitoring stations around the world reported the strength of the tremor at between 7.7 and 8.9 on the Richter scale.

**ICEBREAKER AT POLE**  
MOSCOW--The Soviet atomic icebreaker Arktika cut

through to the North Pole to become the first surface ship ever to reach the top of the world, Soviet television reported.

#### DJ MARATHON

POPULAR BLUFF, MO. -- Rick Tyler, a 33-year-old disc jockey who set the record sat at a microphone for more than 211 hours straight at station KLID, said he hallucinated several times during the experience.

**ON CONDOMINIUMS**  
WEST PALM BEACH,

FLA.--A Florida appeals court has ruled that condominiums cannot bar children even when advertised as adult communities. The ruling said that barring young children was an unconstitutional "violation of the rights... to marry and procreate."

#### ASSASSINATION TRY FAILS

MADRID, SPAIN -- Police foiled a recent assassination attempt against King Juan Carlos and Premier Adolfo Suarez when they discovered a bomb planted beneath an overpass only moments before the King's car was due to pass, the national news agency Cifra reported.

# School Children Face Hearing Tests

In the current school year, more than one million children will undergo hearing screening, and the Texas Department of Health is making sure that the equipment used is accurate. Early in August, the Department took charge of new mobile laboratory to be used in calibrating audiometers, the sensitive devices used to test hearing. The new van has a sound proof work room at each end where a technician and his assistant can test the audiometers. The middle of the van is the administrative area, where the paperwork is done and the reports are made out.

The special van will be used on locations throughout the state, such as local health departments and schools. The van is equipped with air conditioning and heating, a dehumidifier, a built in burglar alarm system, and carries its own diesel generator in case a power outlet is not available. The van will be sent to a central location in a city, and then the audiometers from the school, doctors offices and hearing clinics can be brought to it for testing. The need for such service was brought out from a survey made by the Department. The results of a survey made of 1471 school-owned audiometers checked for sound pressure level

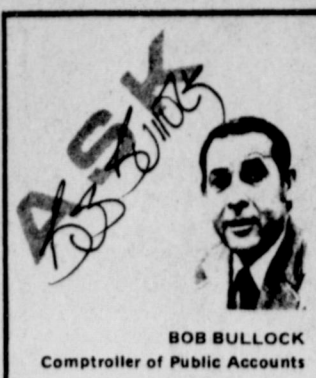

and frequency, showed that 81.7 percent didn't meet national standards. Any type of hearing screening program can only be as good as the equipment used. If the screening is not accurate, and there are a lot of over referrals, or under referrals, then the public will lose confidence in the health delivery system. The new van will provide the quiet facilities needed to operate the sensitive equipment used to check audiometers. Screening audiometers will be tested for such things as sound pressure level, frequency, distortion, mechanical hazards and

beneficial. All audiometers must meet standards set by the American National Standards Institute. All Health Department audiometers, those used in training and those loaned to schools for screening, are checked regularly. Audiometers owned by the schools are checked once a year by the Department. The Department instituted hearing and vision screening programs for children more than 20 years ago. Operating through the Maternal and Child Health Division, the hearing and vision conservation programs are part of a continuing effort aimed at

ensuring accurate and complete screening of the state's pre-school and school-age youngsters. Workshops conducted over the state train public health nurses, school nurses and volunteers in the techniques of screening children for hearing and vision problems. Schools actually do the testing with equipment they own. A limited supply of audiometers is available on loan from the Department on a temporary basis to school systems and local health departments needing equipment to start new programs on a pilot basis. The schools report their screening results on a voluntary basis for compilation, and the record has been very encouraging. Reports for the 1975-76 school

year show that hearing screenings numbered 1,129,350 children, and vision screenings numbered 1,480,408. For hearing, 2.3 percent were referred as a result of hearing screening, and 6.9 percent who received vision screening were referred to medical specialists. Actual treatments from referrals numbered 11,334 for hearing and 48,420 for vision. Dr. P. Cliff Price, chief of the Bureau of Personal Health services, said more than two million children will undergo hearing or vision screening in the public school this current school year. Children with hearing and vision losses are frequently regarded as slow to learn, inattentive, and often quite vague. These children may be characterized as over aggressive or under-assertive in school and are frequently called problem

children. Sensory or physical impairments forestall the full development of school-age children. Health officials emphasize that the screening programs being carried out across the state will not detect all medical problems nor identify all children with marginal impairments. But the programs will allow professionals to follow up children found in need of further examination, evaluation and treatment.

**Ask Bob Bullock**  
Comptroller of Public Accounts

Dear Mr. Bullock:  
I have only a small estate and don't want to go to the expense of hiring an attorney to draw up a will for me. Is a handwritten will legal in Texas, and if so, must it be witnessed?  
A handwritten will is legal in Texas and does not require witnesses. If you wish to make changes later in your will, however, those changes must be in writing and witnessed.  
If you have any further questions, contact my

**Inheritance Tax Division at the toll-free number listed at the end of this column.**  
Mr. Bullock:  
Is there a sales tax on cigarettes?  
No, there is no sales tax on cigarettes. They are taxed under the Cigarette Tax Law at a rate of 18 and one-half cents per pack.  
Ask Bob Bullock is produced as a public service to the taxpayers of Texas by the State Comptroller's Office. The answers here do not necessarily apply in every similar situation and should be used only as a general guide.  
If you have a question, write Ask Bob Bullock, c/o Tax Information, LBJ Building, Austin, Texas 78774 or call toll-free 1-800-252-5555.  
\*\*\*  
The call of duty, it seems, coincides with the highest salary available.

## New Machinery Slated For 1977 Field Day

**LUBBOCK** -- An experimental furrow-diking device will be demonstrated during the 68th annual field day of the Texas Agricultural Experiment Station Tuesday, Sept. 13. Agricultural researchers claim the use of dikes in furrows has resulted in substantial increases in crop yields and is inexpensive. While furrow diking was attempted as far back as the 1930's and 1940's on Texas High Plains farms, machinery and planting techniques were never perfected to the point that the system was economical and

beneficial. In recent years, Agricultural Research Service scientists, Elmer Hudspeth and Dr. J. D. Bilbro, and Texas Agricultural Experiment Station researcher Dr. Bill Lyle, have been developing and testing diking machinery for today's farming. The latest device developed by Dr. Lyle will be demonstrated during afternoon field day activities. An estimated 1200 or more persons are expected, says Dr. Lyle, who is field day chairman. The Experiment Station, ARS-USDA, Texas Agricultural Extension Service, Texas A&M University, National Weather Service and the High Plains Research Foundation are all cooperating in the event.

Activities get underway at 1 p.m. at the Texas A&M University Agricultural Research and Extension Center which is just north of the Lubbock Regional Airport, off Highway 87.

Hudspeth, Lyle, and Bilbro list a number of advantages in the diking system over other soil and water conservation methods. It is inexpensive, does not require movement of top soil, benefits both small and large farming operations, provides an ideal reservoir for rainfall, and the diking operation can be done simultaneously with other operations such as cultivation.

"The device," says Lyle, "can be attached to the tool bars of various pieces of equipment used in field operations. It is designed to operate at high speeds and has simple adjustments for changing the spacing between the dikes, and their height."

Hudspeth says "busters" are attached to the front of the tractor to break out the dikes ahead of the tractor tires, and sweeps can be used to break out the dikes ahead of the gage wheels. However, if the dikes are placed in alternate rows, the busters and sweeps are not necessary. This type of arrangement, he adds, will permit alternate row irrigation without dike removal, and the diked rows are very effective in keeping the furrow stream in the same furrow in which it was set.

The scientists report that in dryland tests, yields of cotton have been increased by an average of 14.7 percent on land with a 0.1 percent slope, and by 10.7 percent on a 0.9 percent slope.

Program officials have announced that the first spraying of insecticide in the fourteenth year of the High Plains Boll Weevil Control Program is scheduled to begin September 6.

Weather permitting, aerial applicators within a few days will have put ultra low volume malathion on about 80,000 acres of weevil-infested cotton along the eastern edge of the High Plains. The program, initiated by Lubbock-based Plains Cotton Growers, Inc., has operated each year since 1964 to prevent the spread of boll weevils across the huge cotton acreage west of the Caprock. Its cost is borne jointly by High Plains cotton producers, the U.S. and Texas Departments of Agriculture. USDA matches funds contributed by producers and the TDA.

The acreage to receive treatment in the first application this year is only about two-thirds the 125,000 acres covered in early September of 1976.

There are two reasons for this said PCG Field Service Director Ed Dean. "First, thanks to the excellent kill achieved by the program last year and a cold 1976-77 winter, there have been fewer weevils coming out of hibernation this year. Second, because of the unusually serious threat of bollworm infestations this year, only fields with very large numbers of weevils will be treated on the first application," Dean explained.

"The 90 'weevil checkers' that mapped out acreage for the initial treatment counted bollworms right along with weevils," he continued, "and we won't be spraying in fields where the killing of beneficial insects would bring on more crop damage from bollworms than is expected from weevils."

Ultimately officials expect to spray an aggregate of 750,000 acres this year. "Base acreage" of between 200,000 and 250,000 will be sprayed from one to five times as necessary until frost or harvesting destroys the weevil's food supply.

Base acreage in last year's program totaled over 350,000, and the aggregate acreage sprayed came to 1,161,000.

The program control zone is divided into three units, each to be treated under a separate contract with an aerial applicator. Contracts were let recently to the three lowest of 24 bidders. Successful bidders for the 1977 operations, all Texas firms, were Nimmo Spraying Service of Plainview, Stribling Spraying Service of Dawn, and Perryton Aviation of Perryton.

Officials figure the average cost of insecticide application in 1977 will be about \$2.38 per gallon. The average per-gallon cost under 1976 contracts was \$2.70.

The three applicators will operate from bases in Matador, Spur and Lamesa. Pilots, planes and other equipment were checked in at Matador and Spur and approved on September 1. The applicator for unit number three (Lamesa) is scheduled to report on September 7 and begin treatments on September 8.

# Welcome, Teachers

*It has been said: The teacher has the greatest profession, for though the hands of our instructors pass all the members of every profession. We, at Muleshoe State Bank, salute our area teachers for community service which lasts throughout generations.*

## The 1977-78 Faculties Of The Muleshoe, Three Way & Lazbuddie Schools Are:

### Muleshoe High

- Wayland Ethridge, Principal
- Bob Graves
- Betty Murray
- Ben Gramling
- Jean Allison
- Bill Bickel
- Gail Bizzell
- Elizabeth Black
- Janet Buske
- Don Cumpton
- Esther Marie Dillman
- Charles Faulkner
- Cheryl Gist
- Marcus Gist
- Lily Goodin
- Wanda Gramling

Performance of this seed may be adversely affected by environmental conditions, mutant strains of insects or diseases, or other factors beyond the control of P-A-G.

**CLOVIS MAN INJURED TUESDAY**—Cal Jordan, owner and operator of an implement company near Clovis, was hospitalized in Muleshoe Tuesday night following an accident approximately two miles west of Progress. He was driver of this late model car which collided with the back of a parked truck. Jordan was listed Wednesday morning as being in "satisfactory" condition at West Plains Medical Center.

**Scouts...**

con't. from page 1  
regard to race, creed or national origin. The \$2 registration fee carries accident insurance for participants, and weekly dues range from five cents up. Uniforms and books are optional. The program is international in scope, with girls and adults in 94 countries of the world, added the local Girl Scout Coordinator.

The world's largest voluntary organization for girls is a youth-adult shared informal educational process based on proven ethical values. More than three million girls and 537,000 adults are enrolled. Caprock Girl Scout Council, with headquarters at 2567-74th Street in Lubbock, served more than 6,000 girls this past year. The calendar of events for the council, planned a year in advance, includes 15 basic leadership courses for new leaders and fifteen council- and fifteen council-wide program events for Brownie, Junior, Cadette and Senior Girl Scout levels. Workshops in outdoor skills, songs and games and program are also scheduled. Junior High Scouts are invited to take part in the Heritage Trip to the Capitol in Austin this next summer, said Mrs. King.

**Heart Group Lists New Year Goals**

Two special guests were introduced at the monthly meeting of the Bailey County Heart Association and heard the goals for the group this year.

Mrs. Joyce Burkholder, council president and Mrs. Jerry Hearne, regional director heard a list of six goals as presented by Mrs. Jerry Wiedebush. Goals included:

Attaining 18 instructors in CPR (Cardiopulmonary Resuscitation) and two new instructors trained; a 25 percent increase in heart projects in the local schools; check for hypertension in five percent of the population of 271 persons; train five LVN or RN nurses in cardiovascular nursing; presentation of CPR to 10 local businesses and an 18 percent increase over \$5,000 or \$5,900 in raising funds.

During the meeting, the board decided to give contributions in memory of board member J.W. Coppedge, who recently died of a heart attack.

Announced was a Heart Fund Workshop in Lubbock on September 14 and Mrs. John Watson presented a resume on programs available to local civic clubs, schools and businesses.

At the meeting, along with the two special guests were Mr. and Mrs. Don Seales, Mr. and Mrs. Jerry Wiedebush, Mr. and Mrs. Owen Jones, Mrs. George Mitchell, John Blackwell, Jerry Mick and Mickey Hernandez.

**Pilot...**

con't. from page 1

residents alike have been treated to this spectacular while flying on the F-27s which have served Page (Ariz.) for years," said the pilot and co-pilot.

One thing they have enjoyed about the trip, according to Brunton, is serving as flight guide to foreign tourists, and explain the beauties of the historic countryside. In particular was a Japanese tourist who enjoyed a strip of film shot for him from the sky to produce slides. He was unable to communicate in English, but expressed his appreciation in Japanese and a pat on the back, accompanied by a handshake.

Stewardess Kathy Neary of the flight has ambition to be an airline pilot. She has a commercial license and instrument rating. She has accompanied the pilot and co-pilot on the flight for the past five years. She said she has noticed a drop in the number of passengers who are running the Colorado River this year.

**CHARROS CONTRIBUTE TO RESCUE TOOL**—DPS Trooper Louis Cardinal, left, accepts a check in the amount of \$100 to be used toward the purchase of a Jaws of Life rescue tool for the Muleshoe Fire Department. The check was presented by Asociacion de Charros de Oklahoma Lane Texas. Pictured from left are Trooper Cardinal, Pedroza Arguelles, Asencion Garcia, Francisco Vega, Gabino Guillen, Francisco T. Gonzales and Alfonso Posadas.

**Leaders...**

eno and Dick Hammer. Coach Prater was also full of praise for his defensive unit, commenting, "Our defense was just outstanding. It's hard to pick out any one individual, but our front seven and secondary all did a fabulous job."

For the game this Friday night against the Muleshoe Mules, the coach said, "We've told the kids it will be tough to beat Muleshoe, but we feel they can; if they want to bad enough."

He said he has 25 varsity players, compared to 38 varsity players for muleshoe.

"By sheer numbers, it stands to reason they'll try to wear us down. Our seniors have gotten in and taken the leadership role they need to take and this encourages me."

Muleshoe presently leads District 3-AA with their 21-13 win over Portales. Dimmitt defeated Crosbyton 19-9 for second place; Littlefield will play their first game this Friday against Levelland; Fourth is Friona who lost 7-14 to Floydada; in fifth place is Olton, who lost 0-14 to Tulia and Morton is presently at the bottom of the list following their 0-30 loss to Plains.

Muleshoe will be at Lubbock-Coooper; Slaton travels to Dimmitt; Friona will play at Lockney; Farwell at Morton; Olton at Abernathy and Levelland at Littlefield.

Statistics for the game last Friday include:

**GOLDEN GLEAMS**

What maintains one vice would bring up two children.

-Benjamin Franklin.

Heaven protects children, sailors and drunken men.

-Thomas Hughes.

If you wish to study men you must not neglect to mix with the society of children.

-Jesse Torrey.

The hero does not always have heroic children, and is still less likely to have heroic grand children.

-R. W. Emerson.

Children begin by loving their parents; after a time they judge them; rarely, if ever, do they forgive them.

-Oscar Wilde.

Morgan received his bachelor of science in Vocational Agriculture from South West Texas State University, San Marcos and his Master of Science in Vocational Education from East Texas State University, Commerce. Morgan is doing graduate work at West Texas State University, Canyon.

Prior to entering the teaching field in 1971, he was a district manager for Gifford Hill Western. He taught at Know City, Tex., for five years before becoming the Vocational Agriculture teacher at Three Way in 1976.

His wife, Florence, teaches third grade at Three Way. They are the parents of two daughters, Janet, who is married and living in the Philippines and Judy, a freshman at South Plains College, Levelland.

## Many Birds Are Busy, Useful City Dwellers

By Robert L. Haney  
TAES Science Writer

Many urban people in Texas are unaware of the dozens of useful tasks performed by "city birds."

The glimpses of bird life they catch may be limited to a flash of color, a snatch of birdsong, or perhaps a fat pigeon foraging for crumbs on a curbstone.

"I developed a profound appreciation for useful, urban birds," says Dr. Keith Arnold, "in a most unusual way."

"For the past 10 years I've been studying problems associated with some urban birds, especially several blackbird species.

"At certain periods of the year these birds are serious pests when they congregate in huge numbers in small areas. Especially during the fall and winter months, these birds form such large flocks and roosts that they are a great nuisance. My research for the Texas Agricultural Experiment Station has been designed to seek humane, effective ways to eliminate, or at least curtail, this nuisance.

"However, paradoxically, at other times of the year these same species, most of which also dwell in cities, may be very beneficial to humans.

"Study of pest species has led me to a greater appreciation of those species decidedly beneficial to humans."

The most obvious benefit that birds offer city dwellers is insect control. Birds are a low-cost method to hold down insect numbers.

Such noxious insects as mosquitoes, house flies, and cockroaches are included in the diets of many urban birds. Grackles, starlings, mockingbirds, and wrens are among the common urban species that Arnold says consume large quantities of insects, either for part of the year or year-round.

During the warm months of the year, the urban skies are patrolled by insect-hawks such as chimney swifts, purple martins and nighthawks while yellow-billed cuckoos skulk in the shrubbery, feasting on juicy caterpillars.

Even many seed-eating birds such as cardinals and

house sparrows feed large quantities of insects and related species to their hungry offspring.

Where nest cavities are available, either through nest boxes or tree hollows, the insect patrol is supplemented with such birds as titmice and chickadees. They thoroughly examine the twigs and branches for their insect diet and are joined by ladder-backed, downy and red-bellied woodpeckers which dig into insect-infested trees and shrubs.

Barn and cliff swallows may join the sky-patrol if recent road building in the city has formed square culverts over water courses.

Rat patrols, so welcome in rural areas, are not common in cities by daytime birds-of-prey such as hawks and falcons. But the night patrols are carried out by barn and barred owls which co-exist with humans in the city environment and thrive on city rats and mice.

The smaller screech owl, which also continues to thrive in towns and cities, is more of an insect eater than a mice eater. And in

more open urban areas, the carrion-feeding vultures still aid in cleaning streets and roads of car-killed mammals and birds.

In the less-populated portions of many cities, the roadrunner, a cousin of the cuckoo, manages to live and thrive on snakes. This bird also eats lizards, as well as large insects and spiders.

The seed-eating birds are useful, not only for the joy they bring bird watchers willing to put out a little seed, but also because of their consumption of large quantities of weed seed.

And the delicate, delightful hummingbirds, ruby-throated or black-chinned in most of the state, may help pollinate certain plants as they go about gathering nectar and insects in urban yards and gardens.

"We shouldn't expect that

birds will solve all urban problems regarding insects, rats, mice, or snakes," Arnold cautions.

"Instead, we should recognize that these birds make the problems less difficult than they might be. And the presence of this group of wildlife in our environment makes it more interesting and enjoyable."

**Editors' Note—Any questions regarding this column should be addressed to Science Writer, Dept. of Agricultural Communications, Texas A&M University, College Station, Texas 77843.**

Husband—"You will never succeed in making that dog obey you."  
Wife—"Nonsense! It is only a matter of patience. I had difficulty with you at first."

**HELP MUSCULAR DYSTROPHY**--Three Way community residents got together last Saturday night to help the annual Jerry Lewis Muscular Dystrophy telethon. The group especially honored Daria Dolle, front, a muscular dystrophy victim. Shown at the rear standing are Mr. and Mrs. Bill Dolle, and Three Way School Superintendent Bert Grimes.

## Market Will Expand For VA Purchasers

Veterans purchasing new homes with VA financing may find an expanded market available to them because of recent changes in VA procedures for builders enrolled in insured warranty programs such as the Home Owners Warranty.

The Veteran's Administration recently announced to its local offices around the country the agency's intent to recognize the inspection system under HOW and the warranty program's insurance against major structural defects in place of some requirements still in effect for non-HOW builders in order to qualify for VA financing.

Several early steps necessary to secure VA financing have been eliminated for the HOW builder, including the conditional Certificate of Reasonable Value and VA inspections.

Under the Agency's revised procedures, when the house is trimmed and the HOW builder has an eligible buyer, an application can be made for the CRV without the builder having gone through the earlier procedures for VA approval.

The ultimate effect of these changes is not known yet, but HOW officials at the national headquarters in Washington believe there are two possible benefits. Since VA approval will be simpler for HOW builders, some who might like the option of selling to VA buyers but who have resisted in the past because of the paperwork, may make more homes available to veteran purchasers.

Additionally, the changes in the VA procedures provide a new benefit to builders who are enrolled in the ten-year protection plan. This could lead to even wider participation in HOW, which is a voluntary effort at industry self-regulation.

Under the HOW program, participating builders offer new home buyers a one-year warranty against faulty workmanship and materials. During the second year of coverage, the builder warrants against defects in piping, wiring, and duct work on the systems in the home and against major structural defects.

During these first two years, the builder's warranty is backed by an insurance plan, if, for any reason, he cannot or will not meet warranty obligations.

Over the next eight years, the home is protected against major structural defects through structural defects through insurance underwritten by the American Bankers Insurance

Company of Florida (ABIC). HOW coverage is also transferable to subsequent owners.

A simple, clearly-defined procedure for handling those situations where the home owner and builder cannot agree on what is or is not covered is also included in the HOW plan. Working through the local HOW council, which administers the program, the home owner can request that a conciliator be appointed. This neutral, third party will hold an informal meeting of the home owner and the home builder and help them resolve any differences. If either party is not satisfied with the outcome, he or she can request that the case be arbitrated through the American Arbitration Association.

In order to qualify and register with HOW, builders are screened by the local council for technical competence, financial soundness and a history of fair dealings with customers. HOW builders also agree to build according to HOW'S Approved Standards. These standards generally accept the criteria of local codes, but in those instances where no code exists, HOW builders are required to build in compliance with a nationally acceptable code and utilize fee inspectors. To assure continuous high quality building practices, builders must re-register each year.

# BACK THE MULES football CONTEST

Read the rules... Start Winning

## WEEKLY PRIZES!

WIN FIRST PRIZE \$5

WIN SECOND PRIZE \$3

WIN THIRD PRIZE \$2

### RULES OF THE CONTEST:

1. The contestant must be 12 years or older.
2. Only one entry per person may be made for any one contest.
3. Weekly contests are open to everyone except employees and families of this newspaper; bring or mail your entries to the Journal office.
4. Mailed entries must be postmarked not later than 5:30 p.m. Friday; winners names will be published in this newspaper each Thursday following the close of the weekly contest.
5. Check the team you think will win; 10 points for 1st place, 6 points for 2nd place and 4 points for 3rd place determines the Grand Prize winner.
6. The tie-breakers will count as one of the games picked, the predicted scores will be used to determine the top three places in that week's contest, if necessary, and cash prizes and points will be divided between winners in event of ties. Please write FOOTBALL CONTEST on envelope of mailed entry. Decision of the Journal's scoring judges will be final.

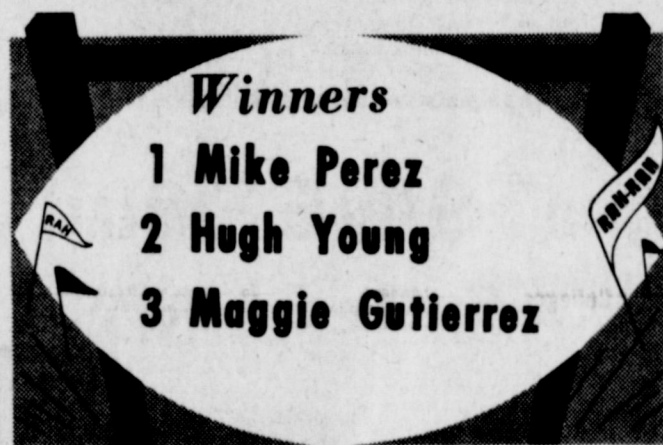

You Have Until  
5:30 p.m. Friday  
To Enter

Please write FOOTBALL CONTEST  
Muleshoe Publishing Company  
Box 449, Muleshoe, Texas  
on envelope of mailed entry.

### Current Fisherman Report

Fishing Report for August 15th to August 29th.  
Compiled by Personnel with the Canyon Fisheries Lab. Texas Parks and Wildlife Dept.

This will be the final report for 1977. The past fishing season has proven to be one of the best in recent years for area lakes. Water conditions were excellent at nearly all of the reservoirs and exceptional spawning of gamefish should have occurred. Prospects for 1978 are very good. Some of the best fishing of the year is available during September and October for those who are willing to get out. Trophy size bass and catfish are frequently caught during this period.

**LAKE GREENBELT**- Catfishing remains very good throughout the lake. Some very nice fish were caught over the period. Fishing for bass continues to improve for fish up to six pounds. Many small bass have been caught. Topwater baits have been effective. Fishing for white bass and crappie has been only fair. Bluegills and bullheads only fair. Bluegills and bullheads are still biting very well. One walleye was caught over the period.

**LAKE McCLELLAN**- Channel catfishing is very good with numerous fish in the 2 to 4 pound class sizes being caught. Several small bass have been caught and one 4 pound bass was taken. Crappie fishing is still slow. The lake remains nearly at spillway level and the water temperature is 83 1/2°.

**LAKE PAULINE**- Fishing for bass is picking up. Several fish in the 4 to 5 pound range were caught over the period and one 8 pound fish was taken. Catfishing is fair with the best results coming in for trotliners.

**LAKE RITA BLANCA**- The fishing tournament will continue through Labor Day weekend. Several blue and channel catfish from 3 to 5 pounds have been caught so far and also several bass from 2 1/2 to 3 1/2 pounds. Sunfishing is fair. No trout have been caught during the month.

**LAKE MARVIN**- Fishing for bass and sunfish is good. Most of the bass weigh around 2 pounds. Channel catfishing has slowed from previous weeks. Bass fishing has been best using topwater baits.

**LAKE THEO**- The lake remains low and fishing has been slow for all species. A few crappie and sunfish are being caught. Bass and catfish fishing is poor.

**LAKE MEREDITH**- The lake depth is up to 85.5 feet and the temperature is now 73 degrees at 5 feet deep. Fishing for

flathead catfish and channel catfish is very good. A few fish weighing 14 to 15 pounds have been caught besides many fish in the 2 to 5 pound range. Fishing for white bass has been good at night with the fish being found throughout the lake. Walleye fishing is fair for 2 and 3 pound fish, one 5 pounder was caught during the period. Fishing for other species is slow.

**LAKE MACKENZIE**- The Lake temperature is 78 degrees. Fishing has been very good for channel catfish and flathead catfish. Small bass are biting well in the clear coves and creek channels. Sunfish are also being caught.

**COPPER BREAKS STATE PARK LAKE**- Fishing is still poor for most species. Very few fishermen have been out the past two weeks. Recent rains and cool weather should help the fishing at the lake.

### Farmers Union Asks Wheat Set Aside Acres

In a letter to the Secretary of Agriculture, Texas Farmers Union President Jay Naman urged that wheat farmers be permitted to graze set-aside acres and that diversion payments be made to compensate wheat farmers for their set-aside.

"Wheat farmers who are also cattle producers need the opportunity to graze set-aside acres to supplement low income from wheat production. It will encourage their participation in wheat program," Naman said.

Texas Farmers Union has criticized the level of set-aside as being inadequate, but feels that the set-aside provisions can be administered in such a way as to get maximum participation. Permitting grazing on set-aside acres would encourage wheat farmers to comply and participate in the farm program, according to the Farmers Union. Naman urged Secretary Bergland to announce a diversion payment in connection with the set-aside. According to Naman, the Secretary of Agriculture should authorize the payment of an amount sufficient to compensate farmers for abandoning set-aside acres.

Naman said, "The grain glut that farmers find themselves in was not their responsibility. They were encouraged and even coerced to expand acreage by the previous administration. It is the responsibility of the government and the general public to see to it that wheat farmers are extricated from their serious economic predicament."

The question of grazing set-aside acres is expected to be decided in a matter of days if the farm program is passed and signed by President Carter. Texas wheat producers are in general support of the liberal grazing regulations.

### Lazbuddie Longhorn Stampede

By Judy Lust

Last Friday night, in the first game of the season, the Lazbuddie Longhorns staged a 44-0 victory over the Whiteface Antelopes. The Horns offense exploded with 20 points the first quarter. The first touchdown was scored on the teams first drive with Mike Windham took the ball in on a 25 yd. carry. Dennis Steinbock kicked the extra point, making the score 7-0. Mike Windham scored again on a 10 yd. run a few minutes later but the P.A.T. failed making the score 13-0. The third score in the first quarter came with Russell Windham finding pay dirt on a 4 yd. carry. Steinbocks kick was again good making the score at the end of the first quarter 20-0.

In the second quarter Rayburn Wenner crossed the goal line on a 19 yd. carry and Johnny McDonald pushed over on a 2 yd. carry. Both P.A.T.'s failed making the score 32-0 at halftime.

In the second half Rayburn Wenner broke loose for a beautiful 68 yd. run that put another 6 points on the scoreboard. The score at the end of the 3rd quarter was 38-0. In the last period quarterback Charles Steinbock completed the scoring on 3 yd. run.

The Horns had 583 net yards rushing, compared to Whiteface's 52 net yards rushing. The leading rusher was Senior Rayburn Wenner with 219 yards on ten carries. Senior Mike Wind-

ham rushed 141 yds. on 13 carries. The Longhorns completed 5 out of 10 passes for 59 yds. while Whiteface completed 2 out of 6 passes for 29 yds. Lazbuddie had 24 first downs while holding the Antelopes to 6 first downs.

The Most Valuable Offensive player was Rayburn Wenner. The defense did a great job and the Most Valuable Defensive player was Freshman Russell Windham. Russell also received the Strike Award by having seven unassisted tackles and eight assisted tackles.

Giving their support to the Lazbuddie Longhorns on Dad's Night last Friday were the Longhorn Band and the Cheerleaders and Pep Club. The band will be marching at each game this year under the direction of band director John Hudspeth and Drum Major Salvador Chavez. Also giving the band a new look this year are twirlers Michelle Vincent and Lisa Menefee. Leading the Pep Club and the fans in cheers are cheerleaders Tammie Smith, Candy Moore, Elaine Cargile, Sabrina Vincent, Angela Matthews, and mascot Terri Clark. The Pep Club and Cheerleaders formed a Victory Line for the boys and their Dads as they were introduced together and ran onto the field during pre-game ceremonies.

The new concession stand was in use Friday night and all in all it was a great season opener.

### NEW HUNTING LICENSES REQUIRED

**LUBBOCK--**The 1977-78 Texas hunting licenses are available at license vendors and all Texas Parks and Wildlife Department offices across the state.  
The licenses will be valid for the period Sept. 1, 1977 through Aug. 31, 1978. The resident hunting license is \$5.25 and the combination resident hunting/fishing license is \$8.75. Non-resident/small game license is \$37.75 and will be required for out-of-state hunters after quail, prairie chicken, pheasant, dove and other small game species. The non-resident/general hunting license is \$100.75 and will allow out-of-state hunters to bag all legal Texas species including deer and turkey.  
These licenses are printed on waterproof, tear-resistant paper and each license will contain buck, antlered deer and turkey tags. The date and month of kill on all tags must be marked out in ink or cut out and tags attached securely to the carcass before transporting or moving the carcass. The place and county of kill must also be filled in at this time.  
There is a space on the back of the new license for white-winged dove, archery, and federal waterfowl stamps to be affixed. A resident license is required of every Texas citizen hunting outside of the county of residence between the ages of 17-65 years old. Persons hunting on land where they reside or persons hunting deer and turkey in county of residence must have an exempt hunting license which cost \$1.25.  
A citizen is any person except an alien who has been a bonafide resident of Texas for more than six months immediately preceding application for a license. Members of the Armed Forces with proof of assignment on active duty at any federal installation within the state for a period of more than 30 days may purchase a resident license.  
All persons who hunt wild deer, turkey and javelina during any open archery season in which only long bows and arrows are used, are required a \$3.25 archery stamp in addition to a valid hunting license. This includes both resident and non-resident hunter.  
More information is available in the new 1977-78 Texas Hunting and Sport Fishing Guide which can be obtained free at all license vendors and P&WD offices.

**USE FOAM INSULATION BOARD PROPERLY**  
Energy efficient foam insulation board currently being installed in new homes can present a potentially serious problem, points out an agricultural engineer with the Texas Agricultural Extension Service. When it is tightly installed on the exterior of a wall, moisture vapor may be trapped, resulting in condensation. This means wet insulation and framing must odors. Over a prolonged period, wood rot develops. Moisture polyethylene film. However, it is best to vent the wall cavity to the outside.

**ATTENTION MULESHOE AREA CATTLEMEN**

**BURIED UNDER MULES--**A host of Mules combined to bring down a Portales Ram last Friday night when the Mules effectively broke a several year losing streak to the New Mexico team. Portales failed to overcome the fired-up Mules and lost the game, 21-13. Long a strong contender for Muleshoe, their last win over the Portales Rams was several years ago.

## Brown Presents A&M Check For Fire Ant Research

**AUSTIN--**The battle presently being waged against the costly imported fire ant in Texas received some help recently when \$200,000 in research funds were granted by the state legislature through the Texas Department of Agriculture.  
Agriculture Commissioner Reagan V. Brown presented the research funds Aug. 10 to Dr. Deville Clark, Dean and Acting Director of the Texas Agricultural Experiment Station, to aid in their work on genetic fire ant control.  
"We are very excited to be able to help facilitate the placing of these needed funds with experts we know will put them to maximum use in finding a solution to the fire ant problem," Brown commented.  
He explained that the need for additional research  
Not every reader, who urges the local editor to "hop on" something, is willing to be quoted by name.

has become particularly pressing due to the elimination of other chemicals, notably Mirex, as tools due to their negative environmental impact.

## STATE CAPITAL Highlights AND Sidelights

by Lyndell Williams  
TEXAS PRESS ASSOCIATION

AUSTIN—It's the law . . . Five hundred new ones took effect September 1 reaching into nearly every aspect of life and even death.

One of the new laws banned the electric chair and provided for execution of condemned criminals by lethal drug injection.

Another allows terminally-ill patients to specify that their lives not be postponed by artificial methods including mechanical devices.

The largest state budget in history—\$15.5 billion—was passed by the legislature this year, and September 1 was opening day of the new fiscal period.

Merger of the Texas Water Development Board, Texas Water Quality Board and Water Rights Commission into a single Department of Water already has been discussed in this column.

A "Sunset law" sets up a procedure for determining whether state agencies should be continued or phased out. Twenty-six, mostly minor regulatory agencies, must send

self-evaluation reports to a Sunset Advisory Commission for review by October 30. The legislature in 1979 will decide whether they should be abolished or renewed.

Other laws taking effect this month would require mandatory supervision of released state prisoners, legalize Laetrile for cancer treatment, expand the Court of Criminal Appeals, establish a procedure for criminals to make payments to victims of their crimes, establish a statewide adult probation system, allow cities to increase hunting and fishing license fees, and give coal slurry pipelines power to condemn land for rights of way.

### POLITICS POPPING

Statewide political races are beginning to shape up. State Insurance Board Chairman Joe Christie resigned his post and said he will decide by October whether to run for the U.S. Senate. U.S. Rep. Robert Krueger of New Braunfels is already campaigning actively for the Democratic nomination to oppose U.S. Sen. John Tower, a Republican.

Meanwhile, State Republican Chairman Ray Hutchison designated himself as campaign treasurer for a prospective race for governor. Gov. Dolph Briscoe has announced for a third term, and Atty. Gen. John Hill is expected to oppose him in the Democratic primary.

### MARSH SALE REJECTED

Gov. Briscoe disapproved sale of Jefferson and Matagorda county marshlands to the U.S. Fish and Wildlife Service for national wildlife refuges.

He suggested state or local ownership as an alternative. The federal agency had proposed to buy McFaddin and

Sea Rim marshes in Jefferson County and the Smith marsh in Matagorda County.

Briscoe noted Jefferson and Matagorda commissioners opposed the sale. He suggested the State Parks and Wildlife Department work with the federal service and local governments to "explore all reasonable alternatives and methods of preserving these natural wetlands."

### PORN STUDY ORDERED

House Speaker Bill Clayton has set up a special committee to study the problem of child pornography and find out what to do about it.

He named an 11-member committee, headed by young Houston Rep. Ralph Wallace, to make recommendations to the 1979 legislature.

Clayton estimated 1.2 million children between eight and 16 are involved in pornography and prostitution.

### COURTS SPEAK

The State Supreme Court refused to block Houston disbarment proceedings against Don Yarbrough, a former member of the court.

A U.S. Supreme Court justice ordered Lo-Vaca Gathering Company not to shut off gas to Crystal City.

Fifty-third District Judge Herman Jones in Austin held Atty. Gen. John Hill could not sue the Texas Water Quality Board because the attorney general is supposed to represent state agencies. Hill indicated he may appeal.

### AG OPINIONS

Atty. Gen. Hill said the open meetings act does not prevent a city council from meeting in closed session to discuss

selection of a mayor pro tem unless the nominee objects.

In other recent opinions, Hill concluded: Texas A&I University board has authority to select administrative officers by any procedure it chooses as long as the action is not unreasonable, arbitrary, capricious or discriminatory.

The comptroller may delay entering contracts authorized by the recent amendments to the public employees deferred compensation plan until federal income tax consequences can be established.

### APPOINTMENTS ANNOUNCED

Gov. Briscoe named District Judge Robert R. Murray of San Antonio to the Fourth Court of Civil Appeals.

Fort Worth oilman Perry R. Bass was named to the State Parks and Wildlife Commission.

All members of the old Water Rights Commission—Joe Carter of Sherman, Joe R. Carroll of Snyder and Dorsey Hardeman of San Angelo—were appointed to the new Texas Water Commission which will exercise judicial functions for the Department of Water.

### SHORT SHORTS

George M. Cowden was elected to succeed Garrett Morris as chairman of the Texas Public Utility Commission.

Secretary of State Mark White ordered Waller County Tax Assessor Collector LeRoy Symm to stop using questionnaires as a voter registration prerequisite.

Texas Railroad Commission will intercede with the Federal Power Commission to help eight East Texas cities save their natural gas supplies.

The State Welfare Board ruled tax funds can be spent for abortions only if mothers' lives are at stake.

## Lazbuddie News By Judy Lust

The Home Economic girls of the Junior Class of Lazbuddie High School are sponsoring a class for two and three year olds. The class is called "Storytime" and will be held in the Elementary Library. Storytime" is mainly a class to help the children learn to get along with others and it will help the homemaking girls learn how to get along with children of this age. Classes will start September 9th at 9:30 a.m. and will last until 10:15 a.m. Classes will be every other Friday on September 23, October 7, October 21, and will conclude on Thursday, November 3. Anyone who has a child this age or knows of children this age is encouraged to ask them to attend. School may be boring but who knows, this may be a lot of fun.

Keith and Brian Hinkson of Cairo, Neb. were here visiting the Frank Hinkson and Glenn Lusts last week.

Several Lazbuddie families spent the Labor Day holiday at Ute Lake.

Mr. and Mrs. Eli Elliott and Melvin and Jenny Elliott all from Calif. and Irene Elliott of Oklahoma were here visiting the Lazbuddie Elliotts last week.

Dan Copeland returned home last Friday from Methodist Hospital in Lubbock where he has been since he broke his leg during a football scrimmage.

Birthdays for the week starting Thurs. Sept. 8 through the 15th are Janet Redwine, Debbie Jennings, Kevin Hall, Sid Bullock, Sandi Chitwood, Louise Engelking, Brian Houston and Marty McGuire. Happy Anniversary to Mr. and Mrs. Darrell Jennings.

Mr. and Mrs. J. R. Davison of Texhoma, Oklahoma, former H. S. Principal and 6th grade teacher at Lazbuddie were guests in the Scotty Windham home after the ballgame Friday night. Several friends dropped by and enjoyed visiting with the Davison's.

If anyone has any Lazbuddie news would they please call Judy Lust at 965-2828.

## Airman Price Selected For New Training

SAN ANTONIO—Airman Max L. Price, son of Mr. and Mrs. Larry L. Price of 215 S.W. First, Earth, has been selected for technical training at Lowry AFB, Colo., in the Air Force avionics systems field.

The airman recently completed basic training at Lackland AFB, Tex., and studied the Air Force mission, organization and customs and received special instruction in human relations. Completion of this training earned the individual credits towards an associate in applied science degree through the Community College of the Air Force.

Airman Price is a 1977 graduate of Springlake-Earth High School.

### HOME BUYERS SHOULD NOT WAIT

Now is a good time as any to buy a home, says an economist in real estate with the Texas Agricultural Extension Service. The average cost of a new single-family home has increased more than 1000 percent in 10 years and this trend is likely to continue. Given population and inflation trends, the average home appreciation rate should be about 8 percent annually over the next decade.
