The agency is to sell the bonds of the Industrial Exhibition Company.

BondS \$ 20 each.

The Industrial Exhibition Company will furnish agents with Circulars, etc.

Each newspaper published in the town
where agent is located will, as soon as
agency is established, be given an advertisement, advertising such agency and the Company, and fully explaining the plans, purposes and objects of the Company Such advertisement will continue in such papers as long as agency is successfully

The Industrial Exhibition Company D the first to adopt the plan so long in use by the European governments of issuing bonds when the principal is made secure and not risked, but where there is a chance for a large premium, an investment of \$20 is sure to return to the investor \$21—one dollar more than cost-and the holder of a \$20 Bond may obtain a premium either of \$50, \$100, \$200, \$500, \$1,000, \$1,000, \$5,000 \$10,000, \$25,000, or \$100,000. The interest, \$10,000, \$25,000, or \$100,000. The interest, which is ordinarily distributed to all the bond-holders pro rata, is in this loan distributed by chance. The purchaser of a bond knows he will receive back his investment, with a small rate of interest added, and in consideration of taking this small rate of interest, he has a chance in the above named premiums, which are simply the distribution of interest on the

hole loan. Each bond participates in four drawings each year, until it has drawn a premium when it is surrendered, the premium paid

and the bond cancelled.

The Industrial Exhibition Company, under a special charter, granted by the under a special charter, granted by the State of New York, is given authority to issue these bonds. The Legislature of the State, recognizing the great benefits which will arise from the success of this enterprise, have exempted all the real estate and property of the Company from taxation and assessments for five years, and has also conferred other great privileges. Every American who understands the purposes of this Company will, of a necessity, feel a pride in aiding it to successity.

Each/individual who buys a bond be comes an owner and an interested marty and when he views the structure creeted with his money can say, 'I aided to erect in our country the most magnificent, building the world has ever seen, a palace which, in truth, represents the industry, energy and mechanical genius of the American people.

THE ORIGINAL HOWE!

The World-Renowned Elins Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system; combining perfection of workmanship with the largest productions

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reptration of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Howe, Jr., Inventor and Maker, New York, U. S. A." This medallion is embedded in each Machine, andnone are h production of the Howe Machine Company unless they bear this distinguished.

ty of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken The sealp, by its use, becomes white and elem. It removes all authtons and dandruff, and, by its tonic prop-erties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most co-nomical HARE DESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEET PREPA-RATION for its intended purposes." cut for their lines; and every family should have them on hand for their protection and relian, when required. Long experience has proved them to be the safest, sured, and best of all the PHIs with which the market abounds. By their occasional use, the bloost is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restared to its healthy activity. Internal organs which become clogged and stuggish are cleansed by Ayer's PHIs, and stimulated into action. Thus incipious disease is changed into health, the value of which change, whon reckoned on the vast multitudes who eloy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

The Missouri, Kanana & Texas Mallway has become so well known to the people of Texas, as one of the finest and most comfortable Roads on the continent to travel ou, that its seems almost unsecessary that we should say aught in its praises. Xat we cannot ever get back from a trip over this line without saying something in praise of the management, who always seem to be atriving to make their patronasum fortable, while traveling over their roads. The track is always in the beat possible condition and trains are at all times run at uniform speed. Pulman's finest Drawing Roam Skepping Cars accompany all through discouping trains, and if you are going north or east, by making your wants known, you can go either via Hannibal or St. Louis. And for Kansus City, Denver, California, ocamp of the Northwestern States or Pargitories, it is much the best route we have from Lexas. Bids should be sent in scaled, envelopes, superscribed "Matt Proposals, State of "and addressed to the Second Assis-tant Postmaster General, Washington, D. C. MARSHALL JE WELL,

24-4-d6t-sw1t-L130, Postmaster General. " 'Waters' Concerto Parler Organ' possesses a beautiful and pecu-iarly sell tone. The Concerto Stop is with-out doubt, the best ever placed in any organ, It is preduced by an extra set of reeds, peculiarly voiced, from which the effect is most charming, and its imitation of the human voice is support. For aweetness of tone and orchestral effects it has no equal."— N. Y. times.
