DR. C. M'LANE'S

Celebrated American

WORM SPECIFIC,

OR

VERMIFUGE.

SYMPTOMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with gnawing sensation of the stomach, a others, entirely gone; fretting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hicough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, etc.

Whenever the above symptoms are found to exist,

DR. C. M'LANE'S VERMIFUGE

Will certainly effect a cure.

The universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public to

RETURN THE MONEY

in every instance where it should prove ineffectual: "providing the symptoms attending the sickness of the child or adult should warrant the supposition of worms being the cause." In all cases the Medicine to be given in STRICT ACCORDANCE WITH THE DIRECTIONS.

We pledge ourselves to the public, that

Dr. C. M'LANE'S Vermifuge

DOES NOT CONTAIN MERCURY in any form; and that it is an innocent preparation, not capable of doing the slightest injury to the most tender infant. Address all orders to

FLEMING BROS., PITTSBURGH, PA.

P. S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write them distinctly, and take care not to be misled by cheap imitations.

To those wishing to give their children the best of medicine, we would recommend the use of Fleming's Vermifuge. It is a safe and reliable medicine, and has been used for over thirty years, and is now being prepared in Canada, and is being introduced into this country by Fleming Bros., Pittsburgh, Pa.

HAIR

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfect preparation for restoring GRAY OR FADING HAIR to its youthful color, making it soft, lustrous, and silken.

The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists, and Dealers in Medicines. Price One Dollar.

Buckingham's Dye.

FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation, which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.

VINEGAR BITTERS

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bowels are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortifying the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fortified. Hypertrophy or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Distress, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the Region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Serofina, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Scrofula, etc. In these, as in all other constitutional diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Biliousness, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by the accumulation of Bilious Matter.

Mechanical Diseases.—Persons engaged in Palms and Minerals, such as Plumbers, Type-setters, Gold-beaters and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Kingworms, Scald-head, Itch, Erysipelas, Itch, Scabies, Disorders of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no anthelmintic will free the system from these parasites.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Bitters display so decided an influence that no prudent female is ever scrupulous.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and singular in the pulse; cleanse it when it is Biliary; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Prepared by J. WALKER & CO., Lowell, Mass., and by W. D. WALKER & CO., N. Y. Sold by all Druggists and Dealers.

Fairbanks' Scale

THE WORLD'S STANDARD. FAIRBANKS

Among the new colors are the shades called "nightingale," "roses," "cotton," and "pinks," in which all the colors of dust are concentrated, exceedingly suitable, apparently, for streets in Philadelphia as at present. Smoke color is revived, with Carmine brown and Centennial brown, which in compliment apparently to one of our national colors, is tinged with red. There are several greens of the invisible shades, and "dusky olive." For warmer tints there are several shades, very lovely, of wine color. Brilliant tints for gaiters are a red verging on orange, and a brilliant fawn color. For evening dresses the colors are delicate and beautiful. A perfect shade of rose, a pure blue, a turquoise blue, green and sea foam are some of the shades that, displayed in exquisite colors, are enough to turn the head of any woman. She able to wear them becomingly. Faded will only be worn combined with plain colors. Louisa silk will be worn again in grounds will be colored blue and green of vivid amber, red, straw color or blue. Among the new importations are the famous fabric, with raised flowers and figures like the old-fashioned damasks. An effort will be made to revive magnificent brocades, recalling to mind the days of furbishing, high-banded boots and powder. In women goods a new exquisitely fine black material has appeared under the name of the "Grand Opera brand," its soft flexibility making it especially desirable in graceful arrangements of drapery. A change in the making of clover has been announced. The apex remains, but is made much shorter in order to permit either a wide flowing cut or deep fringe of the material or trimming (particularly if it be lace), with an inner fall of lace. All the French bouquans will be made long-voiced—a very injurious fashion. Indeed, it would appear that both waists and skirts are made so as to follow the outline of the figure as much as possible. In bouquets there will not be much change in shape, but a good deal in style of trimming. The most fashionable shape remains the high prominent front and moderate crown now in vogue, but is short on the sides, close to the ears, and always provided with strings. The face trimming consists of knots, bows and bunches of flowers massed just above the forehead. The outside trimming generally does not encircle the crown, but is arranged differently upon it, to suit the taste or fancy of the wearer. Felt and Velvet bonnets are imported to the exclusion of nearly all other materials. For those who can afford it the rule is, felt until Christmas and after that velvet. The new felts are partly smooth and partly of the fur beaver felt. Sometimes the crown is of a lighter shade than the brim, and sometimes the brim is of two shades, dark on one side and light on the other. Light cream color and pale gray felts are most fashionable, although plenty of dark green, dark blue and brown felts are imported. Black is the least fashionable color of all for bonnets, but few other of black velvet or felt being imported. Of course black is too convenient to be abandoned, notwithstanding this effort toward its desertion. An effort is being made to introduce the exquisite turquoise blue and peacock color. Soft ribbon is much used for trimming bonnets and for the strings a yard long and three and a half inches wide, that are to be their almost inevitable complement during the coming season. Some very handsome ribbons are twisted on one side and have a satin gloss on the other. Twisted ribbon, wide enough for necks, is used to make the full sets

MARRIAGE LICENSES issued since the 11th inst. Lazero Rodriguez and Rosa Sandoval. Henry Clay Applewhite and Lydia A. Roddy. Lino Sanchez and Corina Perez.

MR. FRETTON G. BOWMAN of Pleasanton, Alameda county, gave up a call last evening. Mr. Bowman is a promising young lawyer of that town, and is one of the finest looking gentlemen we have seen in the West. If his industry is equal to his natural gifts, and we have no doubt it is, he has a bright future before him.

CARELESSNESS OF MAIL CARRIERS.—Our exchanges came to us yesterday in such a condition as to render them almost valueless. From their appearance we should judge the mail bags had been dragged through the mud and water from the R. R. terminals to this place. It is the business of the Postmaster to see that contractors keep the mail bags secure from the weather and that mail matter reaches the parties to whom it is sent in proper condition.

ARCHITECTURAL DRAWING.—We call attention to an advertisement in this issue of the EXPRESS, in which a first class architectural draughtsman offers to give private lessons in architectural drawing. This is a department of education that ought to be attended in this city. San Antonio is just beginning to grow up to a large city, and her architectural taste is yet to be cultivated. The future beauty and comfort of the homes of this city depend upon it, as well as the proper construction of her public buildings. Every man, and especially every builder, should study architecture.

Guirey says that it was old Foreas that caused a temporary suspension of the Saratoga Baths. He is going to hold on until the 15th of October, when if there is a good rise and he can get a big cargo of corn or cotton he will set sail for the Gulf and a market.

We understand that Wolfram, the Central Garden man, is going to have a large garden pleasure boat built to accommodate the patrons of his place. The temperature of the water in the river is 75 degrees above zero.

Transfers of real estate since the 11th inst. Francis A. Peck, administrator of estate of Barton Peck, deceased, to Messrs. Miller & Powell, an undivided one fourth interest in two land certificates, calling for 1920 acres of land, each, located in Bexar and Comal counties, consideration pending and securing Letters Patent to said land warrant.

A. Harhart assigns his Builder's Lien on Both El Temple, to Edward Steves, for \$3000. Placido Olivaris to Josefa Cardenas, 10 acres of ground fronting on North-tenth street, west side San Pedro creek, for \$65.

H. Tornab to Nannie C. Richardson, lots 28 and 29, fronting 50 yards on New street, running from South Flores street to the San Pedro Creek, consideration, \$400 cash.

Marcillo Casillas and wife and Corina Perez et al, to T. A. Long, five acres of land on the east side of Laredo street, west of San Pedro Creek, running back from said street to said creek, for \$50 cash.

Catharine Mueller and husband to Ch. Zintemann, the lot on the north-east corner at Houston and Flores streets, consideration, \$1000.

Thomas A. Gibbs to Dr. J. H. McMahon, an undivided one-half interest in one-third league of land, patented to John W. Hall, in Bexar county, known as Harvey No. 4, on the waters of Calaveras Creek, for \$1250 cash.

Sheriff of Bexar county, under execution, to Henry L. Borg, 300 acres of land in Bexar county, on the waters of the Maricopa and Saltillo Creeks, about 15 miles east of San Antonio, for \$25 cash, it being the highest and best bid offered for said land.

J. Ygnacio Cas-lano and wife to Joseph Hester, a lot and improvements thereon, in the city of San Antonio, north corner of Galva street and Military Plaza, fronting 45 feet, 10 inches on said Plaza, and running east with Galva street about 77 feet, for \$200 in silver coin, \$2000.

San Antonio Association. Thinking the public generally might feel an interest in the numerous and distinct organizations existing in our city, we have collected together all the main points in their respective histories, so far as practicable. It is with pride that we refer to the following long list of prosperous and worthy organizations, whose objects are philanthropy, the promotion of social intercourse, the protection of the public weal, the advancement of knowledge, and the general elevation of society.

ALAMO LITERARY SOCIETY. This Society was organized November 4th, 1869, under the name of "Irving Literary Society," Geo. M. Mavorick being first President. Its name was changed to Alamo Literary Society September 26th, 1870. Its members have, through hard toil, and by the good will of the Society, erected an elegant Hall, which, with the lot included, is valued at \$15,000. The membership numbers upwards of 70, and present prospects indicate a clear future for this organization. Hon. J. H. McLeary is now President. The object of this Society is the mutual culture of its members, its chosen motto being "Liberty, Virtue and Science."

THE LEGAL CLUB was organized June 1st, 1875. J. R. Mason, Esq., being President. The object of this young, but most commendable body, is the legal and intellectual advancement of its members. Its proceedings are well conducted and highly instructive—conducive in their influence to fit man for the highest places in the world of legal knowledge and judicial power.

ALAMO RIFLES. This is one of the most important military companies in the State. Organized on March 10th, 1874, a steady increase of active and substantial members has kept up to the present time. A good company fund is on hand, and the organization is unencumbered by debt. They are in possession of new and most excellent arms, beautiful uniforms, are well drilled, and, as a whole, the Company is very prosperous. The membership numbers upward of 60, and are ever ready to assist at fire or quell local disturbances. H. B. Adams is Captain.

THE TYPOGRAPHICAL UNION has been in existence since last February. Its membership comprises every "regular" printer in the city of San Antonio. Its objects are the protection of the interests of the fraternity, and elevation of the craft to the highest standard known to the "Art Preservative." Its past existence has been taken up by hard struggles for duration, and success having crowned its efforts, the future will be devoted to the proper aims of the organization. Geo. M. Martin is President.

TURN TREKIN. This popular institution was organized August 24, 1865, with 36 members. It has been exceedingly prosperous, and has amassed property to the value of \$13,500, which, however, is encumbered by a debt of several thousand dollars. The membership numbers 220, and consists mostly of strong and active young Germans. A. Siemering is President. The objects are, promotion of social intercourse, and cultivation of body and mind. This organization is possessed of too great energy ever to be baffled or dismayed by any event or circumstance working against them.

THE CASINO ASSOCIATION. The Casino Association was founded in the year 1854, and has pursued a steady course of general improvement up to the present time. It now being the pride of the city, and the oldest and most popular of all our social institutions. Its membership is 300, composed mostly of our wealthy and influential Germans, having, also, the names of prominent American citizens upon its roll. Its wealth is upward of \$25,000, which rests substantially in one of the best society buildings in the State. Mr. Grossbeck is President. The object of this association is for mental and general social improvement and amusement. Vocal and instrumental music are cultivated, and the standard drama finds many true votaries here. The Casino Association will endure with the existence of San Antonio.

THE HARMONIC ASSOCIATION was organized in the fall of 1871, and re-organized in 1873. Its members have labored under great difficulties in keeping the institution together, having had no regular place of meeting; and, its object being similar to the Casino, the influence of that organization has tended to materially affect its welfare. We are glad to learn, however, that the prospects of the Harmonic Association are now brighter than ever. Mr. Nagel is President, the membership is upwards of a hundred, and general interest in its prosperity is on the increase.

HENRY BENEVOLENT ASSOCIATION. This most worthy organization came into life in 1856, and prospered until the late civil war, when its operations were suspended until 1865. The membership is a large one and on the increase. Mr. S. Half is President. Its object is one of the purest philanthropy,—the amelioration of the sick and distressed. Its members, without boast, love to cherish this association, which they deem no empty honor. In the organization of this institution, consisted the first unfolding of the banner of Benevolence by Israel's children, to the God of Israel, in the Lone Star State.

INDEPENDENT ORDER OF MEN'S BIRTH. This order was instituted June 30, 1874. Its object is the union of the Sons of Israel,—the alleviation of the wants of the poor and needy, visitation and attention of the sick, and protection and assistance of widows and orphans on the broadest principles of brotherly love; also the elevation of the mental and moral character of the Jewish race. E. Noko is President of this Order. It is healthy in every respect, and is one of the established institutions of San Antonio.

IRISH AMERICAN SOCIETY. This Association was instituted in the year 1873, for the mutual improvement and general social welfare of those composing its membership. The roll of members has swelled to 75, and the organiza-

tion is in a most healthy condition. T. A. Dwyer Esq., is the presiding officer. It is the social center for all who belong to the noble Celtic race.

LABORERS' ASSOCIATION. This noble institution was founded in 1875, and has been the most prosperous organization in our city. Its members constitute the honest bone and sinew of San Antonio, a class noted for steadiness, sobriety, and courage. Starting in poverty, by the sweat of their brows they have amassed not alone individual fortunes, but own a hall worth upward of \$30,000, and claim a membership, including active and passive, of 250 working men. Wm. Lange is President.

To Let—The Post House, Alameda St. Inquire of Dr. Graves, or A. Dittmar, over Bennett & Thornton's Bank.

C. E. BABUTY, Esq., Collector of the Port at Indianola, gave us a call this morning, and we had a most agreeable and pleasant conversation with him.

We had never seen him before, and imagined that he was old, ugly, and crusty; but we were agreeably disappointed in finding him young, handsome, and one of the most affable and pleasant gentlemen we have met.

He is the right man in the right place, and the Government is fortunate in securing his services.

McALLISTER'S FINE LIQUORS.—McAllister has just received fine Sour-mash, hand-distilled Whisky, Rye and Bourbon, and J. S. Magala's best Bourbon, besides other fine liquors. He has very old whisky and peach brandy. sept15-df

MR. GEO. KNOX, connected with the house of Charles Robstock & Co., St. Louis, is again in our city. We are glad to meet him, and hope his visit will be pleasant.

WANTED.—A few apprentices to learn Wool and Worsted-work. Apply to Mrs. Evans, Main St. sept17-d4f

SCHOOL'S BEER SALOON.—The best and coolest beer in town is to be had at this famous establishment on Alamo street.

THE VAUDEVILLE.—This popular place of resort has a goodly attendance despite warm weather. They deserve it as they spare neither pains or expense to present new attractions as fast as they can be introduced.

WE LEARN upon good authority that the San Antonio Ice Company has purchased an ice machine of greater capacity than the one now in operation, which will reach here about the 15th of October, and be in operation about the 1st of November next. The two machines of the Company together will turn out from ten to twelve thousand pounds of ice per day, and the price will not exceed 25 cents per pound. sept14-dm

Base Ball Notes.

The Lone Star Pat game will be played on Tuesday next, commencing at four o'clock P. M. This is positive unless the weather should again prevent, and in our official capacity as local, we hope it will not. The game promises to be a rich harvest for a live local, and we will have a special reporter on hand to take notes of accidents, &c. Go and see the fun, everybody, it only costs twenty-five cents.

The Bexars have challenged the Lone Stars to a game of Ball, to be played to-morrow on the Bexar grounds. We understand the Lone Stars refuse to accept, because the Bexar and Milams use the same grounds, and the Stars will have nothing to do with anything pertaining to the Milams. This seems a little foolish, and we are sorry to have to chronicle such a state of feeling on the part of one club toward another. We are assured by prominent members of the Milams club, that they entertain nothing but the kindest feelings toward their opponents, and we hope the Lone Stars will act manly and drop all questions of dispute. Accept the challenge of the Bexars, boys, and play on any grounds they name. You named the grounds before. You ought to allow your rivals to do so this time.

Military Items. HEADQUARTERS DEPARTMENT OF TEXAS, SAN ANTONIO, TEXAS, Sept. 17, 1875.

SPECIAL ORDERS. No. 1. Corporal James E. Cairns, Signal Service U. S. Army, having reported at these Headquarters in compliance with paragraph 1, Special Order No. 30, Headquarters U. S. Military Telegraph Lines, Texas Division, Texas, September 3, 1875, will proceed to Dallas, Texas, reporting upon arrival to First Lieutenant A. W. Grody, 5th Cavalry, Acting Signal Officer in charge.

The Quartermaster's Department will furnish the necessary transportation, and the Subsistence Department commission of rations at the usual rate. By command of Brig. Gen. J. E. TAYLOR, As. Adj. Gen.

OUR DRAMATIC CLUB. It has been characteristic of a large and very worthy class of moralists, both in this country and in Great Britain, to condemn, indiscriminately, all dramatic or theatrical performances, asserting with all dogmatic pertinence that in their very nature they were radically and essentially evil. This imputation a large and increasing class of more liberal and fair-minded people have constantly denied.

It is easy enough to conceive of a theater which would take a high rank among the means of refining the taste, and elevating the character of the people, yet we may admit that its realization has been difficult. The deep voice, the mighty and terrible passions, and the sublime emotions of genuine tragedy, are fitted to fill us with human sympathies, with divine interest in our own nature, with a consciousness of what men can do, and dare, and suffer, with an awed feeling of the lathery in which so many lives are roused, at least for a time, to some intenseness of thought and sensibility.

The process of mental training which is necessary to be undergone, previously to placing a play upon the stage, is improving in all its branches. The memory is enlarged and strengthened; a knowledge of the best styles in the language is imparted; our highest literature and art, otherwise unknown, is made familiar to the mind; easy and graceful deportment, and self-confidence are cultivated; the slightest refinement of manners, taste, sentiment and language is gained, fitting the amulous amateur for the highest position in the parlor, drawing room, or public life.

A dramatic club is not in its nature an evil institution. Wrong-doing finds its way everywhere even into Churches—and it is the moral duty of those controlling any organization to preserve its purity of character.

The fathers of our Dramatic Club have labored to this end, and the membership of the Club is untarnished by any influence of a perverting nature. A little energy, persistence, patience, common sense, and success will surely crown the efforts of any institution backed by virtue's charms.

Judge Klocker's Court. State of Texas vs. William Perryman, charged with driving the cattle of Mr. Heritage from their accustomed range, was tried Thursday in Judge Klocker's Court by a jury of twelve, the number now used in criminal cases since Judge Devine's decision in the Bronson case.

The evidence was that Perryman was driving a herd of some two thousand near the range of Mr. Heritage, when 23 head of the latter's stock got in the herd, which were subsequently "cut out." Verdict, not guilty.

N. O. Green for the State, Shook & O'Brian for the defense.

Yesterday evening a jury was summoned to sit in a session of an *insane* (insane). The person accused of lunacy was a woman by the name of Margaret Ripps, about 35 years of age. She was sitting near her mother inside of the railing, and was weeping most of the time, and seemed to suffer much from her situation, yet from the energetic and intelligent manner in which she repelled the accusation of her accusers or explained their assertions, soon raised a reasonable doubt in the minds of the jury in regard to her insanity, while the evidence of Dr. Herf was that previously he had treated her for Chlorosis, and while thus attacked she was subject to hysterics and fits of crying. That she was a good girl.

The jury without leaving their seats acquitted her of the charge. The woman was doubtless sick when brought into court. There was much sympathy and interest expressed for her.

THE CHEAPEST. Reliable articles like Dr. Price's Cream Baking Powder and True Flavoring Extracts, Vanilla, Lemon, Orange, Ginger etc., that have stood the test of the best judges in the country, at a fair price, are the cheapest in the long run, if health is to be considered. For good reasons we have a fair valuation, unflattering articles are the only kinds that can be sold cheap, and many dealers sell such mixtures in preference to strictly pure articles, as they afford a better profit.

OUR FAMILY BREAD. Truly the most important adulterations to avoid are those which are calculated to injure the "staple of life," our family bread. We know that merchants who supply their customers with pure articles like Dr. Price's Cream Baking Powder and his True Flavoring Extracts, retain better patrons, have a larger trade, and make more money, than those who buy and re-sell adulterated articles that are poor and cheap. Besides it is a pleasure to have articles that never fail to give satisfaction, and that can be used with safety. Aside from its excellence, Dr. Price's Cream Baking Powder is one-third stronger, two cups equal to three of other kinds.

Pleasant and Profitable Employment. "What a charming!" "Oh, how lovely!" "What are they worth?" etc. Such are the exclamations by those who see the large elegant New Chromes produced by the European and American Chromes Publishing Co. They are all perfect Gems of Art. No one can resist the temptation to buy when seeing the Chromes. Canvas, Agents, and ladies and gentlemen out of employment, will find the best opening ever offered to make money. For full particulars, send stamp for confidential circular. Address F. GLEASON & CO., 739 Washington Street, Boston, Mass. 50-d1v
