Sterling City Rallies To Trim Forsan in Thriller

Before the largest crowd to see a football game at Forsan in years—about 1,100—the Sterling City Eagles charged from behind to rip the Forsan Buffaloes 24-15, and remain unbeaten in District 8.

Sterling scored first, on the next play after Henry Bliznak's 60-yard touchdown run had been nullified by a penalty in the first quarter. Leroy Butler passed to Elroy Butler for the score.

In the second period went eighty yards for a second Sterling six-pointer.

Shortly before the half ended, Sterling decided not to kick on the fourth down and failed to gain the necessary yardage. Forsan took over inside the Eagles 20. Jame Suttles legged it over for Forsan inside the ten eventually and the count was 12-6 at half time.

Early in the third, Sterling yielded a safety to Forsan, then committed a fumble that enabled the Bisons to grasp the lead. A pass Suttles to Bob Creelman, moved it the final 30 yards.

In the fourth period, Sterling ate up yardage from its own 20 by making three first downs on passes, after which Bliznak moved the last six paces for a score that put Sterling ahead, 13-15.

Leroy Butler put victory out of reach for Forsan in the final minutes of the game when he scored from inside the ten for Sterling.

The victory was the fourth in a row for Sterling. The game marked the first time this season the Eagles have yielded a score. Coach Tillerson has built his club around eight seniors.

It has been approximately eight years since Forsan has been beaten on their home field. Baker was the outstanding man for the Buffaloes last Friday.

Tonight is an open date for the Eagles. Next Friday they play the Water Valley team here.

The pep squad performed at the half with an unusual exhibition. Following the precision marches, the squad formed a clock, and emphasized this formation by singing "My Grandfather's Clock."

Daughter to Mr. and Mrs. C. B. Burrows

A daughter, named Veda Jo, was born to Mr. and Mrs. C. B. Burrows at 4:20 a.m. Wednesday of this week. Burrows formerly trapped out on the divide, and is now employed by Tom Lightsey.

The baby weighed eight pounds.

Lions Club Luncheon

Immediate past president Roland Lowe was presented with a past-president's belt buckle at the regular Lions Club luncheon Wednesday noon in the Community Center. President G. W. Tillerson made the presentation for the club.

Gene Alley of the Soil Conservation Service was a guest. The prize went to C. D. McEntire.

Lion Garlyn Hoffman told of the trip to the state fair with the 4-H boys. Lion Farnsworth told of an estimate on the roofing job on the center by the Probst Roofing Co. Henton Emery told of the traffic lanes for the school children that the highway department had put at vantage points.

Lion Tillerson told of the football game with Forsan last Friday and he local club's prospects for the remainder of the season.

Legion Auxiliary Members Attend Hospital School

Five members of the local American Legion Auxiliary attended a hospital school at the American Hut in Big Spring Wednesday night of last week. Mrs. Steck opened the meeting and introduced Miss Lola Milstead, head of the recreation department of the V.A. hospital, who gave a short talk about the jobs to be done by volunteer workers. Mrs. Steck then introduced Mrs. Nola Whitney, hospital representative, who introduced Mrs. Gallagher, the American Legion Auxiliary teacher of Hospital Volunteer Workers Schools. Mrs. Gallagher has been with the V.A. Hospital at McKinney, Texas, for the past three years, and she explained the qualifications for volunteer workers. She gave some Do's and Don't's to remember when working in the hospital, told about the uniform which volunteer workers should wear and explained how to get a 50-hour pin for hospital work. She then gave a short examination on what one should wear when beginning hospital volunteer work. The meeting was adjourned at 10:30 p.m.

Those who attended the meeting from Sterling City were Mrs. Tommie Easley, Mrs. Charles Murphy, Mrs. Winnie Mae Neill, Mrs. John Brock and Mrs. Harold Emery.

Kills Big Rattlesnake

Luke Hallmark, who has a crew on the Hildebrand ranch, killed a large rattlesnake there Tuesday of this week. The large snake only had 10 rattle, but it was 'heap-big' around.

Trinabeth Reed, student in the Texas University at Austin, spent last week-end here with her parents, Mr. and Mrs. Nick Reed.

"Covering the County"

By Garlyn Hoffman, Co. Agent.

Ten Sterling County 4-H boys were present at the State Fair at Dallas on October 7 and 8 for the opening and Rural Youth Day. The boys were accompanied to Dallas by Garlyn Hoffman and Robert Harris. The group included Henry Bliznak, Harry Blaneck, Gene Smith, Robert and Jackie Don Harris, Bobby and Derrell Blair, Larry Glass and O. F. Carper. Only those boys who had completed 4-H projects were eligible for the trip.

The boys toured the fairgrounds and most of them took in the midway Saturday night. Sunday was spent seeing the educational parts of the fair, such as the agricultural exhibits, general exhibits, automobile and aviation displays, science hall, livestock barns, implement displays, hall of state, aquarium, arts building, the museum of natural history, and other points of interest. Lots of walking was involved in this sightseeing, and the boys had little time for careful study of the exhibits.

Although they were not scheduled to return until Monday, the boys were completely tired out with walking and ready to come back Sunday night and go to school to prepare for tests. Jackie Don Harris was given a new name. "Let's Go Harris", while at the fair, because all we heard from him was, "Let's go."

Other Sterling boys at the Fair last week-end were Charlie Davis, Don Gann, Hollis Kennemer and Elroy Butler.

Clinton Hodges and Billy Ralph Bynum will leave Monday afternoon to take seven lambs to the State Fair for the junior livestock show. The boys will take their lambs on Wednesday and the sale will be on Saturday. These boys should manage to see most of the fair while there those few days.

On October 19 at 7:30 p.m. in the Veteran's work shop, a mineral supplement representative will speak to the Veterans and any one else interested. This may be a good place to learn about the minerals that are available for livestock. The Veterans shop is in the rear of R. P. Brown's office building.

We have a new Soil Conservation man with us now. He is Gene Alley, formerly of Sonora. Gene is a graduate of Texas A & M with a degree in animal husbandry. Gene came here from the Del Rio SCS office. He is single and is staying at Mrs. Crawford's.

There is still \$6,501.91 P.M.A. assistance left for the 1950 program. Any work done has to be completed by December 31, 1950. If this money is not used it will be turned back to the state committee to be used in other counties that have used their allotment.

A power of approval has to be made at the P.M.A. office before the work is begun. If the approval is not made, assistance can not be given. No approvals will be written after Dec. 15, 1950.

The practices that can be given assistance are: terracing, eradication of mesquite, cedar and pear, wells for livestock water, dams for livestock water and flood control, and fire guards—a needed one this fall.

SAN ANGELO COLLEGE RODEO CLUB FORMED

The San Angelo College Rodeo Club met Wednesday, October 4 for the purpose of organizing and electing officers.

The following officers were elected:

President—Billy Ralph Bynum of Sterling City.
Vice-President—Freddie Newson of LaFleur.
Secretary-Treasurer—June Pittcock of Aspermont.
Reporter—Earl Browder of San Angelo.

The club discussed plans for a fall rodeo and entering a float in the parade on the afternoon of the Cisco Jr. College vs. S.A.C.

J. T. Davis has gone to Dallas this week. While there he will see the Texas-Oklahoma football game Saturday and go to the stage play "South Pacific" showing at the Fair Park auditorium.

Claude Collins went to Vaughan, N. M. Wednesday to look after ranch interests there.

DISTRICT PRESIDENT IS GUEST OF CLUBS HERE

Mrs. Jeff Jackson and Mrs. Jeff Jackson, Jr. of Lampasas, were guests Friday, October 6, when the Wimodausis and Noratadata Clubs met.

Miss Ethel Foster introduced Mrs. Jackson, who gave a talk on "Club Objectives for the Year."

Kent Jones played several piano selections during the tea hour.

There were 38 present from the two clubs and hostesses were from both clubs.

BY PRISCILLA BATTS

(In Miami, Fla., lovely Priscilla Batts, Miami Maid of 1950, rose from a piano stool long enough to comment on her hobby.)

Music has been around for a long time. So have people. Or maybe I mean that music has been around people for a long time without the two of them really getting together.

Even though music is supposed to be for the masses, it isn't really. Music is, although termed an art, also a very exact science. And,

Priscilla Batts

while it's true that the untrained person can enjoy a pretty melody, he cannot hope to gain anymore than the barest pleasure from listening unless he knows something about it.

Until I began studying piano, purely on an amateur basis, I saw that the musicians were usually getting a great deal more enjoyment out of their "work" than the people they were supposedly playing for.

That's why music is my hobby. This "enjoyment through knowledge" applies to any field of music; swing, classical, chamber music or any other form of expressing what the musician has to say.

I don't mean that everyone should spend 10 years in a conservatory of music just to be able to enjoy a disc jockey program or an evening at the concert.

But, before I started my hobby, when the music being played around me was an unfamiliar concerto or a complex improvisation in a "jam session," I had no particular interest in it. More often than not, I busied myself with my Debutants Cosmetics for a few minutes, and, although I looked considerably better for the effort, I certainly missed most of the music.

New, only a year later, spending only one hour a day practicing, I am well on the road to finding out how rich music is for one who wants to give only one-tenth as much to it as it gives to him.

For those whose hobby is bowling, for instance, their practice runs into perhaps thousands of hours a year. And, while I like to bowl, the time I have put into my hobby has rewarded me many times over without my need to do a thing except listen.

EIGHTH GRADE CLUB ELECTS NEW OFFICERS

The Eighth Grade Club met on Wednesday afternoon and elected new officers as follows:

Jenny Ruth Davis—President
Billie Nadine Green—Vice-President
Secretary-Treasurer—Robert O'Dell
Reporter—Truman Kennemer.
Billy Derrell and Marshall Blair served the group refreshments. They served cold drinks, ice cream, candy and chewing gum.

Herman Carter, commission buyer from San Angelo, received the following lambs here last week and this: Clyde Everitt 580, Charlie Coulson 410, J. S. Cole 250, and Forrest Foster 300.

Mrs. Clyde Rhoden and baby son of Winters visited Mrs. A. G. Daves here Thursday of this week.

Mr. and Mrs. Cecil Long are to go Dallas this week-end. Long will do some Christmas buying for his drug store while there. They will visit their son, Hector, student in Arlington College, and take in the State Fair.

Bank Increases Capital Stock To \$100,000

The stockholders of the First National Bank here voted last Saturday, October 7, to increase the capital stock of the institution from \$60,000 to \$100,000. The comptroller of the currency will have to approve of such action as routine.

Stockholders present at the meeting were T. F. Foster, Mrs. H. L. Hildebrand, Rufus Foster, Ethel Foster, W. N. Reed, H. M. Knight, Roland Lowe, Claude Collins, J.S. Cole, John Cox, J. T. Davis, Marvin F. Dayvault.

There are 600 shares of stock in the capital stock and 594 shares were represented by stockholders present or by proxy.

The bank's officers are: J. T. Davis, president; J. S. Cole, vice-president; Hal M. Knight, cashier; and Sue Nelson, assistant cashier.

Deposits on October 4 amounted to \$3,124,864.57. Undivided profits on that day was \$71,311.57. The bank has a surplus of \$140,000.00.

The record high of deposits was on November 14, 1948 when deposits amounted to \$3,265,819.70.

The Hal Knights are in Dallas this week-end seeing the sights at the State Fair. They will see the T.U. and O.U. football game and "South Pacific."

Mr. and Mrs. H. L. Hildebrand and Elizabeth have gone to Dallas for the state fair. They will return Sunday.

BY MICHAEL C. ALLEN

Washington, D. C.—Not so long ago, I wrote about how some of your taxes were heading down. Korea reversed that. Now your contribution to the treasury cash is going up—and up.

Behind this reversal is a little known story. It tells of frustration for lawmakers and of a legislative trick to speed up a new taxing law.

The House Ways and Means Committee worked for the first six months of this year on a tax-cutting measure.

This group is supposed to start the ball rolling on all revenue legislation. Its bill, filled with numerous technical details, was passed by the House and sent to the Senate.

And then the war in Korea burst forth. President Truman asked for \$16 billions more spending for arms for this country and its allies. Republicans and Democrats, for once, at least, agreeing, think a good chunk of this added spending should come from taxes, not borrowing. And they agreed taxes ought to go up quickly.

By this time, the House-passed tax measure was being studied by the Senate Finance Committee. Georgia's Senator George and North Carolina's Congressman Doughton, the top men in the tax committees, got their heads together. Instead of making the House committee start all over again on a new bill, why wouldn't it be fine for Senator George's group to doctor up the old one?

That's just what happened. The Senators penciled out all the tax-cutting in the House bill. They wrote in a lot of tax boosts that weren't in the House measure.

Personal income taxes are going back to the 1945 level. This wipes out two reductions voted since the war's end. Corporation taxes are climbing to new highs (excepting for excess profits taxes). The government will take in taxes one-fourth of all corporate profits up to \$25,000 and 45 per cent of all profits above \$25,000—and that should start hoarding of Sal Hepatica among the big businessmen of the country.

And there are more taxes on the way. But if that sounds discouraging, don't forget it's nice to have something to tax. The Communists don't even offer that.

Who Runs America?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organ-

izations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

- | | |
|---|--|
| General Federation of Women's Clubs | American Legion |
| American Farm Bureau Federation | National Association of Small Business Men |
| National Grange | United States Chamber of Commerce |
| Veterans of Foreign Wars | National Association of Retail Grocers |
| National Conference of Catholic Charities | National Retail Dry Goods Association |
| American Protestant Hospital Association | American Bar Association |

• Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. • Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. • And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the proudest security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

• Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. • Today

in America—70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

You and Your Neighbor Run America!

Back From European Tour

Miss Ethel Foster returned last week from a tour of Europe spent the whole month of September and the first part of October. The trip was a "World Co-operation Trip" Sponsored by the General Federation of Women's Clubs, the group visited nine European countries on the tour. Leaving New York by plane, the group saw England first, seeing the sights, there followed by visits in the following countries: Denmark, Netherlands, Belgium, Germany, Austria, Switzerland, Italy and France.

The group visited in embassies, and met with club groups of the countries visited. The outstanding points of interest of the countries were taken in by excursion tours.

There were seven Texas clubwomen among the 35 on the trip. Miss Foster, former president of the Texas Federation of Women's Clubs now holds posts in the General Federation.

STERLING JUNIORS BEAT FORSAN 19-0

Coach Johnny Ozee's Junior Eagles went up to Forsan Thursday night and trimmed the Junior Buffaloes 19-0. Marshall Blair accounted for 18 points and Robert O'Dell racked up an extra point after touchdown.

Derrell Blair is captain of the Junior bunch and Marshall Blair is co-captain.

A large crowd from here attended the game. The junior pep squad performed between the halves.

BAPTIST W. M. S.

Mrs. Henton Emery was hostess to the Baptist W.M.S. at her home Monday afternoon of this week. A mission program "Behind the Iron Curtain" was studied with Mrs. J. A. Revell as leader.

Refreshments were served to Mrs. Sallie Wallace, Mrs. D. C. Durham, Mrs. Revell, Mrs. W.L. Emery, Mrs. C. N. Crawford, Mrs. Ray Lane, Mrs. Lee Hunt, and Mrs. Henry Bauer.

Joe Emery is visiting at the O.D. Emery's in the valley this week.

We have faith

in you—
in ourselves—
in America—

We believe

that most Americans are capable of paying their own bills, planning their own budgets and mapping their own futures.

that most Americans resent having politicians or bureaucrats tell them *what* they need, *where* to get it and *how* to pay for it.

that most Americans prefer to solve their problems—medical or otherwise—by means of self-reliance, free choice and voluntary methods.

that most Americans will work and fight to preserve freedom, both at home and abroad.

The menace from abroad is Communist tyranny.
The menace at home is creeping Socialism.

Birthday Dinner Party for Mrs. A. G. Daves

Mrs. A. G. Daves celebrated her 62nd birthday anniversary last Sunday at her home here. Five of her sons and a daughter and their families were here for the day.

Present at the dinner were Mr. and Mrs. W. O. Daves and family of Garden City, J. W. Daves and family of Sterling City, Doc Daves and family of Sterling City, the Ellis Daves and Clarence Daves of Big Spring and Mrs. Eugenia McGuire and baby daughter of Big Spring.

Others came during the day, making a total of 29 well-wishers. Mrs. Daves received birthday gifts from the guests.

7th Grade History Club

The 7th grade history club met Thursday afternoon, October 12. President Esther Bird presided at the meeting. Secretary Winona Blair read the minutes of the last meeting. Treasurer Virginia McCarty gave her report.

The program committee was composed of Esther Bird, Jimmy Hanson, Winona Blair, and Virginia McCarty.

Cookies, Eskimo pies, and chewing gum were served by Shirley Cole, Bobby Dunn, Carolyn Dunn, and Allan Campbell.

Kent Greathouse, Reporter.

Many a wonderful treat may be made from left-over foods, touched up with the proper seasoning. Not only will such dishes please the appetite, but the saving will be appreciated by those trying to make their budget stretch to the end of the week.

Here's a recipe for that old favorite — corned beef hash. The addition of Lea & Perrins Sauce to the list of ingredients, gives a flavor you will appreciate. Have a bottle on your table, with the salt and pepper, so you may use it with many of your favorite dishes.

Corned Beef Hash

- 2 cups cold corned beef, chopped
- 2 cups cold boiled potatoes, chopped
- 1 tablespoon butter
- 1/2 cup milk
- 1 tablespoon Worcestershire Sauce

Mix corned beef and potato. Heat butter in frying pan and turn hash into it. Stir around with a knife or spatula for a few minutes, adding more butter if necessary. Then press lightly down in pan. Over hash pour the milk mixed with Worcestershire Sauce. Cover and cook over a low fire 30 minutes. Do not stir during this time, but move the pan around so that the heat is evenly distributed. There should be a rich but not hard or scorched crust on the bottom. Fold as you would fold an omelet and turn out on a heated platter. Serve with Worcestershire Sauce.

From where I sit ... by Joe Marsh

Ought To "Polish Up" Her Traffic Manners!

Spent most of yesterday over at the Court House. "Tiny" Fields, the biggest and fastest-talking of our three policemen, was holding forth about his traffic troubles.

"Women drive just as good as men do," Tiny said, "and just as bad. For instance—a girl in a convertible today. She started a three-block tie-up all by herself.

"She's creeping down Main Street—left hand stuck out and sort of waving around. Never turns right or left, never stops. But, of course, everyone behind her thinks she's signaling about

something. Nobody dares to pass. When I stop her and ask what's up, she smiles sweetly and explains that she's drying her nail polish!"

From where I sit, that girl's typical of certain folks who are so wrapped up in themselves, they never notice they're not being fair to others. Our neighbor has a right to drive in safety—just as he has a right to enjoy a glass of beer. Let's all respect the other fellow's rights.

We Appreciate Your Business

Here's a fact about the recent cigarette price boost that is receiving congressional attention.

The Marshall Plan has just given 1,650 metric tons of tobacco valued at \$1,600,000 to France; 4,610 tons valued at \$6,674,000 to Ireland, according to ECA Bulletin No. 1426. Tobacco gifts out of Marshall Plan expenditure of \$10 billion now total \$749,500,000.

Many Congressmen privately say, if they had known American tax dollars would be used to give luxuries such as tobacco and swank hotels to Europe, instead of the necessities to prevent starvation, they would have never voted for the Marshall Plan.

The gift of tobacco to Ireland seems especially rankle. Many Congressmen share Winston Churchill's viewpoint that Ireland's refusal to let the Allies use her ports caused a great loss of life and cargoes in World War II.

Congressional decision to do nothing in an election year to revise corporation taxes upwards to meet defense needs apparently dooms all chance of cuts in the wartime excise taxes. Therefore, the 20% tax on baby powder; baby oils, will continue.

Says one colon, "My colleagues feel irritated babies may cry, but they won't vote for at least 20 years, while we must avoid irritating big campaign contributors whose donations are needed now."

Many independent newspaper publishers, squeezed by mounting newsprint prices and protesting the Marshall Plan gift of \$1,297,000 to Natronzellstaff-und Papierfabrik Aktiengesellschaft at Frantschach, Austria, for modern machinery.

This company is the only paper mill in Austria . . . therefore, a monopoly. Lack of capital over the years eliminated independent American paper producers; eliminated competitive newsprint prices. Hence the protests over this latest ECA action by independent American publishers.

From California reports are pouring into Washington of alleged profiteering that may set in motion a full scale investigation of the California oil industry, which is closely held and controlled by a few large combines to the virtual exclusion of independent concerns.

While the Department of Defense, since the start of the Korean War, is paying 8% more for needed supplies, on the West Coast, the government is paying 54.5% more for fuel oil, 12.4% more for gasoline, than paid in April . . . this means independent business must assume a still greater tax burden.

At the same time, a leading California broker specializing in oil stocks, released a report stating prior to Korea the California oil industry was plagued with a surplus of heavy fuel oil.

Now, the report states, the average daily refining of crude has jumped from 892 thousand barrels to 975 thousand barrels; crude oil inventories in California have dropped 2 million barrels.

Next week, we will give you a factual authentic report on independent businessmen's opinion on price controls.

©National Federation of Independent Business

THIS IS FIRE PREVENTION WEEK

"The President of the United States, by proclamation, has designated the week of October 8 to 14, 1950, as National Fire Prevention Week. He requests that, bearing in mind the present emergency, all of us rededicate ourselves to a year-round campaign against destructive fires in our homes, in our industrial plants, and in our communities generally."

At first glance this might not have much meaning and pass through our minds without causing us to stop and think if there is anything around the house and ranch that might be tempting a fire. But, did you know that fires cause the death of 10,000 fellow American each year? And, that in the year 1949, farm and ranch fires cause losses amounting to \$95,000,000? This meant the loss of homes, barns, life savings, and even death; and 1 was from fires that were in the most part, preventable.

All of us living in rural areas can do more against fire by preventing it than by any other means. We do not have a fire station a few blocks away, but miles distant at the best. So stop, think, any fire hazards around? It's easier to prevent fires than to put them out.

BE THRIFTY IN '50
COOK ELECTRICALLY
... it's **ECONOMICAL**
Cool, Clean, Fast and Automatic!

A few of the reasons why Women prefer ELECTRIC COOKING

- It's Fast!** Electric "speed-units" now cook faster than any other method!
- It's Automatic!** Electric cooking's automatic features save you time, labor, and money!
- It's Cool!** Electric ovens are insulated on 6 sides. Heat goes into food, not into the kitchen.
- It's Safe!** No matches, no flame, no fumes to bring hazards into your kitchen!
- It's Clean!** There is no smoke, soot, or dangerous fumes to mar your kitchen.
- It's Modern!** Once you cook electrically, you'll wonder why you stayed so long with horse-and-buggy methods as old-fashioned as flame lamps.
- It's Healthful!** Foods cooked electrically retain the garden-fresh flavor and food values which are often lost when cooked by old-fashioned flame methods.

THE ECONOMY of the new electric ranges will appeal to any woman who watches her pennies. It's a real money-saver! Heavy insulation on all six sides of the oven keeps the heat in so you use only the heat needed without waste. Surface units, too, save by cooking faster; by putting heat directly into utensils and food, allowing no waste heat to escape around the pots and pans to heat up the kitchen.

Electric cooking requires less water; foods cook in natural juices retaining the garden-fresh flavor and food values so often lost in flame type cooking. The moist heat of an electric range reduces meat shrinkage to a minimum. (With today's meat prices that's a most important saving.) Even the cheaper cuts come out tender and juicy!

Don't overlook the penny-saving deep well cookers that cook entire meals, soups, pot roasts and vegetables with so little electricity. Clean and fast (just like electric light—and just as economical), an electric range will save you time, work, and money.

Some day you will cook ELECTRICALLY, Why not NOW?

SEE YOUR ELECTRIC RANGE DEALER NOW!

He will tell you more about the wonderful electric ranges . . . tell you of the ease, convenience, and economies that only modern electric cooking can bring. He'll also tell you of many, many other modern electric appliances that make your work easier, your home more comfortable, and your family happier.

It's the best!
West Texas Utilities Company

All freedoms stand or fall together. That's why we take our stand together with the doctors of America for the voluntary system. At home or abroad, it's worth defending.
