## ROSALIE GAITAN KILLED IN CAR CRASH LAST FRIDAY

Rosalie Gaitan, 26, was instantly killed in a car crash last Friday afternoon. The car she was driving overturned throwing her clear of the car and reportedly over a telephone wire. She died instantly and her companion was seriously injured.

The owner of the car, Thomas Buchanan Visage of McCamey, was seriously hurt in the accident. He was brought to the Sterling County Hospital suffering from back injuries and bruises and cuts. He is still confined to the local hospital.

Funeral services for Mrs. Gaitan were held here Tuesday morning at the Mexican Catholic Church and burial followed that afternoon. Lowe's Funeral Chapel was in charge of arrangements.

Among the survivors are her four daughters, Angelia, Margia, Jessie and Josephine; her parents, Mr. and Mrs. Joe Herrera, and three sisters and seven brothers.

Well, What'cha Waiting For?

## GET YOUR CAR INSPECTED NOW

Austin, Texas—"Get your vehicle inspected and avoid the delay and inconvenience of having to wait in line," said Chief G. W. Busby, Motor Vehicle Inspection Division, Department of Public Safety, Austin, Texas.

The 2700 official inspection stations licensed in Texas so far are inspecting some 50,000 cars per week and in order to inspect all the cars in this state by the deadline, September 6th, the number of cars inspected per week will have to be doubled.

There can be no further extension of the deadline and operators of vehicles not inspected on September 7th will be subject to arrest. The law provides a fine of not to exceed \$200.00 for any person guilty of operating a vehicle after September 7th when such vehicle has not been inspected and approved.

More and more stations are being licensed in Texas daily and the operators of these stations are waiting to faithfully and honestly inspect your car at your earliest convenience. Take your car to the inspection station of your choice and get your approval certificate while there is plenty of time and no waiting.

When you get your approval certificate on your car, you will take pride in knowing that your car is safe to operate and that you are helping to contribute to a safer Texas.

Official inspection stations for this area is the R. T. Caperton Chevrolet Company in Sterling City and the J & J Service Garage in Garden City.

Eighty-six persons attended the affair and a plate was sent to Mrs. D. P. Glass, who formerly served the Lions at the regular luncheon. President Dr. Wm J. Swann informally presided, calling on various ones for musical numbers and the informality of the affair made it more enjoyable.

Seniors Sponsoring Box Supper and Talent Show April 25

The Senior Class of Sterling City High School is sponsoring a box supper and talent show Friday night, April 25, 7:30 p.m. in the high school auditorium.

Everybody in town is invited to bring a box and participate in the talent show, said Mary Davis and Charlene Drennan. Prizes will be awarded in the talent show to the winners.

Money raised will be used for the senior trip.

AN ECONOMY MINDED HOUSE last week concluded action on another of the annual appropriation bills for the fiscal year which begins next July 1.

Thus far, a total of \$6 and one-half billion has been whacked from the President's requests. Three major money bills remain to be disposed of, including the one on mutual security and foreign aid. The latter will undoubtedly be whittled down in several respects.

Last year our economy bloc in the House was fairly successful, but more cooperation is noticeable this year from Members who previously hesitated to lend a hand in our retrenchment program.

For some time I have been a member of this so-called Southern Economy Bloc. We hold weekly meetings, study budget estimates, appropriation bills, hearings, reports, etc. and then concentrate on amendments which we think are sound and proper and to the best interests of the taxpayers.

Cuts were made last week which would knock out about 100,000 requested civilian jobs in the Defense Department. We are convinced there is a lot of belt-tightening that can be done in that as well as other Departments without adversely affecting our defense program.

Our group is made up of Southern Democrats who are willing to buck the Administration pressures when we are convinced a proposed expenditure is not justified. When amendments are offered in the Floor, to reduce costs, we appeal to all Members, whether Democrat or Republican, for support. We have been fairly successful in these concentrated efforts.

Our goal is a balanced budget. We may not achieve it this year but we are moving in that direction.

## PRESIDENT'S SEIZURE

The President's action in seizing the steel mills has caused much concern with respect to its legality. It is widely feared that if a President has the authority under the Constitution to seize steel mills, he could seize any other business concern if from his viewpoint he thought it was the thing to do. It is conceivable that by the abuse of such alleged authority, a President could take over a good part of private business in America and completely change our free enterprise system.

That may never be done, but if it can be legally done in this instance, then it might be done with even less restraint at some time in the future.

Under the Taft-Hartley law, the President is given the authority by Congress to cope with national emergencies such as was presented in the steel dispute. He could appoint a fact-finding board, then follow with an injunction which would defer the strike for 80 additional days during which the mediation service already set up would go into action. He has, however, made use of the 30-day cooling off period provision on two prior occasions against John L. Lewis, and both times the disputes were settled during the 80-day period.

Another serious complaint about the President's recent action is that he undertakes in this way to force not only a 26c wage increase but also the union shop upon the workers and the steel industries over the country.

In other words, the effect of his action has tended to force all steel employees into unions and the acceptance of a union shop by each steel industry—without the employer, the unions, or the individual workers being consulted.

If the President had invoked the Taft-Hartley law—as he had a legal right to do—and had suspended any strike for the 80-day period, under the Taft-Hartley law each member of a union working for a particular company, would have had a right to vote for or against accepting the terms of an offer by the employer before a strike could

be called. If a majority of the workers should, in that case, decide to accept the offer, the issue would be settled. But they would rarely get that chance unless the Taft-Hartley is invoked. A steel worker in Pittsburg was quoted as saying:

"If they would give us a chance to vote on a settlement, there would be some red faces in union headquarters!"

### DORSEY HARDEMAN ANNOUNCES FOR STATE SENATE

Dorsey B. Hardeman of San Angelo has announced his candidacy for State Senator for the newly created 25th District of Texas. The district is composed of the following counties: Brewster Coleman, Coke, Crane, Crockett, Edwards, Glasscock, Irion, Jeff Davis, Pecos, Presidio, Reagan, Runnels Schleicher, Sterling, Sutton, Terrell, Tom Green, Upton and Val Verde.

Hardeman was first elected Senator in 1946, following his return from more than 3 years military service. He was re-elected in 1950 without an opponent.

Senator and Mrs. Hardeman reside in San Angelo with their two young sons, Mark and Bryan.

Hardeman is a member of the San Angelo law firm of Runge, Hardeman & Steib. Senator Hardeman is well known throughout West Texas. He was Mayor of San Angelo for 2 years, and then elected to the House of Representatives without an opponent. He was re-elected in 1940 and again in 1942. Mr. Hardeman resigned from the Legislature and enlisted as a private in the Army. After several months enlisted service he was sent to Officer Candidate School and received a Commission. He was honorably discharged with the rank of Captain.

In the Senate, Hardeman is the recognized leader for constitutional and economical government. He has held membership on all of the major standing committees of the Senate and has served as Chairman of various ones. In addition, he served on the General Investigating Committee and numerous special committees. His work thereon is considered outstanding. Mr. Hardeman also served as a member of the Legislative Budget Committee, which was created as the result of the bill he sponsored.

Mr. Hardeman stated that he expected to make an active campaign, as has always been his custom, in an effort to visit with as many citizens of the district as possible. Incidentally this is the largest Senatorial district in the state and covers almost one-sixth of the land area of Texas.

In his formal announcement, Senator Hardeman said: "It is with pleasure that I submit my candidacy for State Senator for the new 25th Senatorial District. For the help and support given me in prior campaigns, and subsequently, I am most grateful.

"Naturally, as official ties are severed with several of the counties comprising the former 25th District, it is not without regret on my part, because of my sense of gratification."

**CANCER CRUSADE BANNER**—The American Cancer Society's 1952 Texas Cancer Crusade poster theme, above, will be displayed over the state during April, Cancer Control Month.

This is the time of the Cancer Crusade, a time when many of us are out asking our neighbors for a contribution to keep up the fight against cancer. In the course of our visits we are often asked: just what is the American Cancer Society?

The American Cancer Society was established in 1913 and it has been active ever since. Many of the great medical men of our time have been associated with the ACS. Today, Alton Ochsner, a director of the society, is president of the American College of Surgeons and the secretary of the ACS California Division, John W. Cline, is president of the American Medical Association. I cite these names because I want you to know that those setting the policies of the American Cancer Society are successful, energetic, imaginative men and women. ACS policy is determined by

56 elected directors who represent regions and the entire country. The ACS pattern is essentially a voluntary one. The money that it operates on is contributed voluntarily—by people like you. The directors and the committees of experts who plan and seek grants for research for care of the cancer patient, and for education are volunteers, too. Education and service are the first two elements of the ACS program—the third is research. To save the lives that can and must be saved, we need the help of everyone here—we need your understanding and your dollars.

Now, how many dollars can you give? That's a tough question. It is always hard to determine the size of a gift when so many philanthropies press for money. Ask yourself what the threat of cancer means to your friends, your fam-

ily and to yourself. There is no reason for waiting for cancer to strike close to you. Strike back at cancer now. A gift today may help save many lives tomorrow. Whatever you give, don't neglect to memorize cancer's danger signals. They may become your safety signals if you learn and act upon them.

**Pfc. J. D. FOWLER HERE FROM KOREA**

Pfc. J. D. Fowler, son of Mr. and Mrs. J. H. Fowler, arrived in Sterling City Thursday morning from Korea. He has a thirty day leave from the army to be with his mother. Mrs. Fowler is critically ill in the Sterling County Hospital.

There was a bus strike on in San Francisco when he reached there. He couldn't get a bus out of San Francisco, but a bus driver there brought him here in his own car. J. D. paid the regular fare for the trip.

Cloudy skies gave promises and small sprinkling here Thursday, but to paraphrase John Marshall's expression "What this country needs is a good gully-washing rain—and more of it." Then the stockmen could buy the cigars. That is if they had any money left after all this feed buying.

Bank deposits at the First National Bank here on March 31 was \$2,726,178.11, which was down from the reading of the last of December.

**Something New In Good Taste**

Nothing new under the sun? Oh, but there is something—not only new, but so practical and pleasure-giving that to try it is to ally it with the "musts" of good cooking. You may already know the magic crystalline seasoning that brings out all the wonderful natural flavors of good food. It's Ac'cent—pure monosodium glutamate—Old Mother Nature's original flavor booster. It is naturally present in all protein foods when they are still growing in the garden or wandering on the hoof, but starts to slip away immediately after the harvest. It continues to diminish through processing, packing, storing, and we consequently get only a fraction of the original flavor when the food is finally placed before us at the table. Simple solution to this flavor loss problem is to put the flavor back in. That's what is accomplished when you use Ac'cent. Its sole purpose in life is to make foods taste more like themselves. It's hard to believe that all the tempting tastes of the garden can be restored by a mere sprinkling of crystals during cooking, yet families far larger than our own—industrial, military, and institutional "families"—wouldn't serve without it for this very reason. Hundreds of the canned and packaged foods you bring home from your grocery store are also flavor-enhanced with pure monosodium glutamate. This new flavor enhancer is as simple as salt to use—sprinkle it on any non-sweet food during cooking in amounts that suit your own taste, using the recommendations on the package as a guide. It works its flavor wonders on practically everything you like to eat. Here, for instance, is a yummy chicken recipe that calls for it. Try it, and see if you don't agree there is something new under the sun after all.

**Chicken Provencal**

- 1 fowl (4 to 5 lbs.), disjointed
- Seasoned flour
- 1/4 cup fat or salad oil
- 1 bunch baby carrots
- 1 lb. small white onions
- 1/2 bunch celery, diced
- 1 cup water
- 1 teaspoon salt
- 1 whole clove
- 1 bay leaf
- 1/16 teaspoon thyme
- 1/8 teaspoon powdered marjoram
- Few grains mace
- 1 teaspoon Ac'cent
- 3/4 cup domestic Burgundy wine

Roll chicken in seasoned flour; brown on all sides in fat or salad oil; place in large casserole. Add whole, scraped carrots, whole peeled onions and celery. Pour water into pan in which chicken was browned; add salt, spices, herbs and Ac'cent; boil 5 minutes; strain into casserole. Cover; bake in slow oven, 300°F. 1 1/2 hours. Add Burgundy; continue baking; in hot oven, 400°F. 1 hour. Yield: 6 servings.

**Lions Club Luncheon**

There were two guests at the Lions club luncheon Wednesday at the community center. They were Sam Jones and Clayton Webster of San Angelo, guests of Claude Collins.

Lion Seth Bailey reported that the streetlighting committee met with the Commissioners Court and representatives of the West Texas Utilities Co. Monday and came to an agreement on the new street lights for Sterling City. From 15 to 20 gooseneck street lights are to be installed in Sterling City at the points designated by the committee or the members of the court. The cost will be charged to the court, but in turn the company will pay a franchise tax to the court for operating here, which will offset the cost of such lights, said Bailey. It is thought that most of the lights will be put up and down the highway section with probably two at the school and one at the hospital, he said. The company voluntarily agreed to pay the 2% gross franchise tax for the operating franchise here, it was said. Such tax would amount to about \$600 or \$700 per year said Bailey, which would pay perhaps the light bill.

New tables at the community center were used. The new tables are narrow type and may be easily rearranged to get out of the way if needed at gatherings, it was pointed out. Lion J. T. Davis donated the tables to the center it was announced.

President Dr. Swann told of the banquet that was held on Thursday night of last week. The prize went to Bill Cole.

Swann appointed a committee to finish raising money for the community center remodeling job. He appointed H. M. Knight, Roland Lowe and Horace Donalson.

**Just Watch Your Garden Grow!**

New thrills in home gardening, with visible results in less than two weeks, are due for the homemaker this season, thanks to a new completely soluble plant food that takes the guesswork out of gardening. Garden drudgery is banished as well by the new plant food, which is extremely convenient to use. You simply mix the contents of a small packet in two gallons of water, and apply to plants, garden, or lawn with hose, sprinkler, or watering can.

Scientists at Battelle Memorial Institute, non-profit research organization, developed the new product, aptly named Nurish. Plants and lawns flourish as never before when fertilized with the new food, and there is no heavy package to carry around the yard. The concentrated food is odorless and stainless, won't harm skin or clothing, and a quart costs less than a penny.

The liquid fertilizer takes advantage of the fact that plants take their nourishment by liquid, which is Nature's method. The new 20-20-20 formula—20 per cent each of nitrogen, potassium, and phosphorus—is augmented by essential micro-nutrients never before combined in plant food.

*Timely Tips*

Keeping up interest in a winter-weary wardrobe at this time of year is a problem, particularly with a budget deflated from income tax. But don't despair. Have fun playing tricks and treats with past-dated numbers by adding new touches of color and trims.

That love-of-a-print dress you should throw away because it is definitely worn out will make a stole or collar and cuffs for your dark basic, and a bit of it, too, can trim your hat to complete the ensemble.

New buttons will put a bold, new front on that little suit you wear and wear. Pick something flashy now, like shiny jets or those beaded with brilliant jewels or lustrous pearls.

Pare that full-skirted dress to a sheath, shorten the sleeves and scoop out the neckline and you have a dream of a dinner dress that's slim and trim. Or, vice versa, slash off a sheath dress at the hipline and add two deep flounces of taffeta and you have a swishy new silhouette.

### DORSEY B. HARDEMAN ANNOUNCES FOR SENATE

(Continued from Front Page)

itude for the support they gave me. I could not have hoped for finer co-operation.

"With the reapportionment of the State, district lines were rearranged and different counties were grouped together. I think that no finer district exists than this which I am seeking to represent in the Senate of Texas. The new district unites a conservative, thrifty and self-reliant people, with common interests, into a single political subdivision of the State.

"It shall be my purpose, as ever, to represent this fine district and the State within constitutional provisions and the principles of sound governmental practices.

"I have sponsored or supported much constructive legislation. Likewise I have opposed legislation designed to gain advantages for special interests and pressure-groups. My position has been often sustained by decisions of the Supreme Court when such matters have come before it for judicial review.

"I have been conservative in the expenditure of public funds and have opposed discriminatory and unconstitutional appropriations. I have voted for the reduction of expenditures and have opposed increasing the already heavy tax burdens of our people.

"Limited space suggests that I not discuss my legislative record here. As I go about the district during the coming months, I shall discuss it, however, as opportunity and occasion arise.

"I earnestly solicit your help and vote in the primary election of next July 26."
