TWO MILLION DOLLARS isn't a lot of money when you compare it with the mammoth Federal budget. But twenty hundred thousand dollars is sizeable when you think of it in terms of the taxpayers who meet the March 15 deadline and pay it or get sent to jail for evasion. It would take 2,000 taxpayers, paying a thousand dollars each, to total that amount.

Well, the investigating committee of which I am a member, has been searching for leaks and losses, regardless of the amounts. We have explored perhaps a hundred instances of possible waste dealing with military operations. And in doing this we usually get good cooperation from the military. When we can nail down a case, properly documented, showing an inefficient practice or a proven waste, we report it and then ask the agency involved to take note of our finding. Where proper, we ask Congress to cut off the funds to support the activity found to be wasteful and unjustified.

There are 7 of us on this committee and it keeps us plenty busy checking on military contracts, procurement methods, duplicated efforts and things of that kind. Last year, for example, we found an inexcusable lack of standardization of simple procurement items purchased by the various services. And there was need for a stream-lined unified catalogue system which would avoid duplication of the millions of items, and enable each service to know how many articles of a certain description the others had in stock. To help correct this chaotic condition, we got a law enacted, designed to simplify and standardize indexing and purchasing. It was estimated by the Hoover Commission this would, when fully operative, save up to \$3 billion annually. That figure is largely a guess, but the saving will undoubtedly be substantial.

Now, to get back to that two million dollars. Last December, I was told by a friend that a tire test operation financed by the government at Camp Bullis, near San Antonio, was wholly unjustified. I promptly called on the Secretary of the Army for a report. It attempted to show justification but was not convincing.

So I had it put on the committee's agenda. Two investigators were put on the case. They visited the tire test operations of three leading commercial tire manufacturers and also the government's tire test at Camp Bullis. Last week the committee studied the findings and voted unanimously to call for the closing of the testing station. The report shows the government's operation is "completely duplicated by industry" and is no longer warranted.

One for the Cookie Jar By Betty Barclay

HAVING trouble keeping the cookie jar filled these days? Well, you could keep a padlock on it, but a much easier way is to choose recipes for cookies that require no rolling and cutting, like Coconut Oatmeal Cookies! And just because they're quick-and-easy, don't think they're not delicious—as a matter of fact these are extra special, with tender coconut, mixed right in the batter, adding a delicate and subtle goodness!

Coconut Oatmeal Cookies

- 1 cup sifted flour; 1/2 teaspoon double-acting baking powder; 1/2 teaspoon salt; 1/2 teaspoon soda; 1/2 cup butter or other shortening; 1/2 cup granulated sugar; 1/2 cup brown sugar, firmly packed; 1 egg, unbeaten; 1 teaspoon vanilla; 1/2 cup rolled oats; 1 cup shredded coconut.
- Sift flour once, measure, add baking powder, salt, and soda, and sift again. Cream shortening, add sugars gradually, and cream together until light and fluffy. Add egg and vanilla and beat well. Add flour, rolled oats, and coconut and mix thoroughly. Shape dough in small balls and place on ungreased baking sheets. Bake in moderate oven (375°) 12 to 15 minutes. Makes 2 dozen cookies.

FOUND—Set of keys in a Caperton car key holder. Owner identified and pay for ad. At News-Record.

Fort Worth—Swine growers could enjoy a rueful smile Monday as hogs hit the highest peak since November 1948 at Fort Worth. Choice butcher hogs sold at \$25.25—\$25.75. The joy was tempered by the fact that several years of low prices for hogs had thinned down the hog population to where while the price was good, the numbers were few.

Most hog breeders are frantically trying to re-stock since a short time ago it was announced that the hog population was smaller than the numbers of cattle on the nation's farms. The ideal relationship is generally conceded to be 20 per cent more hogs than cattle in the country.

Sows and pigs were steady, sows mostly \$20 to \$22 and feeder pigs from \$21 down.

Cattle buyers were highly selective. The fed beeves were scarce and good and choice drylot fed cattle ruled strong. Grassers were weak to lower. Cows ruled steady to 50 cents lower. Bulls held steady.

Good and choice fat calves were steady but the common, plain and medium inbetween sorts sold weak to lower. High quality stockers were steady, but others draggy and plain stockers sold mainly for low grade killers. Demand for stocker cows was very narrow.

Good and choice fed steers and yearlings \$18—22.50. I. S. Scott, Castro County, had a load weighing 758 lbs. at \$22.50. B. T. Woodard, Hunt County, had a load of cross-bred Brahamas at \$21 that averaged 810 lbs. Common, plain and medium steers and yearlings \$10.00—16.00, some rannies.

Fat cows mostly \$9.00—12.00, just a few higher. Scaling V. Ranch of Clay County, had 17 cows at 1,047 lbs. at \$13.75, and 20 cows at 1,108 lbs. at \$12.50. Odds reached \$14. Canners and cutters \$6.00—9.00. Bulls \$8.00—14.00. Larkin Renick, Llano County had two top bulls at 1,530 lbs. at \$14.

Good and choice fat calves drew \$17 to \$20, with common and medium butchers at \$10—\$15. Culls drew \$8—\$10. Good and choice stocker steer calves \$16—\$20; good and choice stocker steer yearlings \$15—\$19; heifer calves and yearlings \$2 under comparable steers. Few stocker cows \$10—\$14.

Good and choice fat spring lambs \$14—\$26.50; medium to good \$18—\$14; cull and common \$12—\$16. Stocker and feeder Spring lambs, shorn lambs and yearlings, \$12—\$18. Cull old crop lambs \$8—\$12. Two-year-old crop lambs and yearlings \$17—\$22. Ewes \$4—\$6. Old bucks around \$4.

It has been noted that former pastor, W. J. Weimer was returned to Dilley for another year. Ed. H. Lovelace was returned to Goldthwaite for his fifth year. Lowell O. Ryan was returned to Corpus Christi and Rev. Lipps was assigned to one of the San Antonio churches.

From where I sit ... by Joe Marsh

A Little Headwork Saves a Lot of Footwork

"I don't ever aim to give up fishing," Pappy Hayes said one day—"but the older I get the less I like hiking over to Pike's Creek. Guess I'll have to bring the fish nearer to me."

So Pappy got his nephew to bulldoze down about three acres of bottom land. Then he dammed up the little stream there.

He wrote the U. S. Fish and Wildlife Service, in Washington, and got some "blue gills" and bass to stock it—free. Pappy's idea wound up giving him (and us) just about the best fishing

pond in the county ... his own back yard.

From where I sit, Pappy may be older than some of us but his mind is active—and open. He's ready to listen to anybody with an idea. That's why he and I can talk on any subject—sometimes about his preference for buttermilk and mine for beer. And though we disagree, we respect each other's opinion. That's neighborliness without a "catch" to it.
