Governor Price Daniel has proclaimed this week, December 1-7, as "Beef Week in Texas". Purpose of the week to promote the eating of beef, not only during that week, but throughout the year.

Beef consumption has been rising steadily during the last few years, according to Roy W. Snyder, extension meats specialist. In 1956, per capita consumption reached an all time high of 83.5 pounds. Consumption during 1957 will probably be a little below that due to reduced supplies and slaughtering. The 83.5 pounds consumed during 1956 represented 51% of all red meat eaten; this total figure of 163.5 was also a record.

COTTON MARKETING QUOTAS FOR 1958

The Secretary of Agriculture has proclaimed marketing quotas for the 1958 crop of upland cotton, in accordance with legislative provisions. The quotas will not continue in effect, however, unless at least two-thirds of the growers voting in a referendum approve their use.

All growers who engaged in the production of upland cotton in 1957 are eligible to vote on the quotas. Growers may vote "yes" or "no"—as they wish. The outcomes of the vote, however, will determine the kind of program in effect for the 1958 cotton crop.

The choice growers will make in the referendum is between marketing controls for the 1958 upland cotton crop and a relatively higher level of price support, or no marketing controls on the crop and support at 50 percent of parity, as directed by law.

To be eligible for the available cotton price support, at whichever level is in effect, a grower must comply with his farm's cotton acreage allotment. Whether or not growers approve quotas, therefore, cotton allotments will be in effect for the 1958 cotton crop.

Tuesday, December 10, 1957 is the date set for the referendum. The place of voting will be at the Sterling County ASC Office.

GENE AUTRY AND ANNIE OAKLEY TO STAR AT THE SAN ANTONIO STOCK SHOW

SAN ANTONIO—Two of the nation's top western entertainers, Gene Autry, America's number one cowboy, and Gail Davis, known to millions of television viewers as Annie Oakley, will star in the 1958 Stock Show and Rodeo.

E. W. Bickett, president of the San Antonio Livestock Exposition, today announced the agreement had been reached between the stock show and the famous stars for them to appear in San Antonio during the February 7-16 rodeo.

"The February Stock Show, with Everett Colborn's world championship rodeo and two of the nation's greatest entertainers, Gene Autry and Gail (Annie Oakley) Davis, promises the finest in wholesome, western entertainment. The millions of people who have seen these great stars in motion pictures and on television, will now have the opportunity to see them in person," Bickett said.

The story of Gene Autry is an epic of America. He was born to the saddle of simple, rugged pioneer stock and an authentic son of the West. A Texan with a song in his heart and a lariat in his hand, Autry was born on a ranch near Tioga and raised in Ravia, Oklahoma.

With a mail order guitar, which he taught himself to play, Mr. American Cowboy has won the affection of the country to become the all-time western favorite in every entertainment medium; motion pictures, television, radio and recordings.

Gail Davis, the star of television's "Annie Oakley" series has been called the perfect western actress by a man who should know, the producer of her pictures Gene Autry.

Gail first came to Autry's attention when she was signed to play opposite him in one of his own pictures, "Cow Town." For years he wanted to produce a series of motion pictures which would establish the first girl western star.

He found in Gail the ideal type he was looking for, and an actress who could ride and shoot, yet at the same time reflect freshness, youth and dignity. Gail first saw the light of day in Little Rock, Arkansas, and showed a marked natural talent at a very early age. She was singing and dancing at two and a year later was selected as the "Most Beautiful Baby in Arkansas."

She graduated from the University of Texas, where she majored in dramatics and was one of TU's famous "Blue Bonnet Belles."

Gail went to Hollywood and, due to her singing, dancing and dramatic training and fresh young beauty, was soon working steadily in pictures.

Launched on January 5, 1954, the Annie Oakley series of half hour films is now showing weekly in 135 major cities in the United States and Canada.

In what spare time this remarkable young lady has, she practices shooting, both with rifle and pistol. She is an expert seamstress; designing and making most of her own costumes.

A 5'2" blonde with blue eyes, Gail weighs 105 pounds. Her vital statistics are 34"-23"-34".

A. B. Johnson, general manager of the livestock exposition, revealed that the stars planned a quick plane visit in late November to inspect the facilities of the Coliseum and make further plans for the big show.

Mr. and Mrs. G. W. Augustine are moving to Alpine, Texas this week. Mrs. Augustine (Martha), a registered nurse, will work in the new hospital there.

The Webb R. Hudsons returned home from Arkansas last week-end and reported everything fine there with the Benny Greens, who live near Everton, Ark.

Veterinarian Here Dec. 13

The annual fall rabies vaccination and Bangs-Tuberculosis testing program will be done on Friday, December 13, according to Arthur Barlemann, J., County Agent. On that date, Dr. Percy Turner, veterinarian from Water Valley, will be in the county to test the cows and vaccinate the pets.

Bangs disease in cows causes undulant fever in man. Very contagious among cows known as contagious abortion, it is transmitted to man through milk and milk products and is very serious. Tuberculosis of course, is well known to all.

While testing the cows, Dr. Turner will also vaccinate any pets on the place if desired. Those who do not have cows to be tested can have their pets vaccinated by bringing them to town on Monday December 16, between 4:00 and 5:30 p.m. At that time Dr. Turner will be on the west side of the courthouse to vaccinate pets for rabies. A great many pets were vaccinated last December and it is time to renew those shots since they are effective for 12 months only. Pet owners are urged to have their pets vaccinated; last year eight people in Sterling City took the series of shots as result of exposure to a rabid fox.

Letters have gone out to all who participated in the testing program previously. They include a card to be returned to the county agent but anyone who did not get a letter can have their cow tested by calling the county agent before Thursday, December 12. Charge for the testing is -3.00 for one cow or \$2.50 if two or more cows at one place are tested. The rabies shot also costs \$2.50.

Visiting over last week-end here at Mrs. D. C. Durhams were Mr. and Mrs. Charles J. Harris and daughter, Jill, of Amarillo. Along with the Harrises, Thanksgiving dinner guests at Mrs. Durhams included Mr. and Mrs. D. K. Durham and daughters, Rachael Ann and Rebecca of San Angelo, and the Worth Durhams and Roy Morgans of Sterling City.
