

Life In Germany For Dr. And Mrs. Pummill

The following is a letter written to friends of Dr. and Mrs. Charles Pummill in Muleshoe during the holiday season. Dr. and Mrs. Pummill are former residents of Muleshoe where Dr. Pummill was associated with West Plains Medical Center.

The hills above are indeed beautiful, covered with snow in Winter, bloom bedecked apple trees in Spring, peacefully grazing sheep in Summer and a fiery burst of color in the Fall. We continue to appreciate the ways and life of the German people.

a week at the University of Trier Art Academy followed by a super week of skiing at Val di Isere, France without kids. The last week of March was back to the Art Academy for Rhonda.

Dear Friends and Loved ones,
From our home (Von unserm Heim) to your home (zu Eurem Heim). Merry Christmas (Frohe Weinachten) and a Happy New Year (gluliches Neues Jahr). We make many mistakes but just laugh and keep trying. The scene on the front of the card is from the street where we live. Our house is not actually on it but all the unusual rooflines, barns adjoining houses, and uneven sidewalks continue to intrigue us. In the summer flowers cover everything and the cows go up and down the street each morning and night. We know their schedules and program our trips to avoid them and their fresh trail.

1982 has given our family many blessings, excitement and adventure. After a very heart warming Christmas, the New Year was welcomed in grand German style with fireworks at midnight throughout our village. January found us skiing in Kitzbuhl, Austria with one of the F-15 Fighter Squadrons and their families. The week was filled with Tyrolian Slap Dance exhibitions, sleigh rides, and ski races. Giles celebrated his 10th birthday. February brought us Ingrid Zenker, our neighbor from Cincinnati. She was our first visitor from the USA and we were all glad to see her. Charles was in Heidelberg for the Bavarian American Radiology Society meeting. In March, Rhonda had fun for

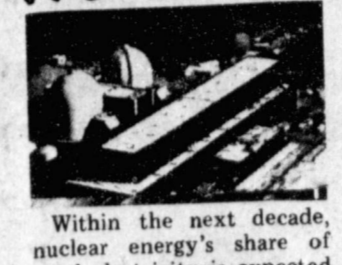

camping tours through southern Germany, Austria, and Venice, Italy before returning home through the Black Forest. In August we had a nice camping trip with the kids. We met Dorene Harbin (Mama Do) from Muleshoe in Cologne. She left her tour and drove to Amsterdam with us. We talked non-stop as she brought us up to date on the news of Muleshoe. After visiting diamond cutters, touring Anne Frank's house, canal tours, and the Rykes Museum, we headed for Denmark. An enjoyable day at Legoland followed by a day at the home of Hans Christian Andersen in Odense, found us in Copenhagen. Visits to such exciting places as Tivoli gardens, the little Mermaid, Bing and Grondal porcelain, Royal Copenhagen porcelain made our stay enjoyable before heading back home across large ferries and the farm and industrial sites of northern Germany.

The months of September, October, and November caught us in a whirlwind of kids activities. Giles played on his first real tackle football team, "The Eagles", as well as working hard on finishing all of his Cub Scout work. Dorinda and Deanne had two ballet classes a week. Charles finally got his long awaited ride in the F-15 on a cross country trip to Zaragoza, Spain with the wing commander. Rhonda had a great art workshop in Bitburg as well as enrolling in the University of Maryland German classes. October found Dorinda having her 9th birthday and Dax his 6th. Deanne was 8 in November. Time is passing

rapidly for us with 18 months down and 18 to go. We're afraid we will not get to see it all.

We hope this letter finds you all well and happy and we sincerely wish each of you a very blessed 1983. We still miss each and everyone of you and look forward to hearing from you at any time. We send you our love,

Charles, Rhonda, Giles, Dorinda, Deanne, and Dax

This growth, say the experts at the Atomic Industrial Forum, is expected to employ nearly 60,000 people during the next decade alone. Jobs will be stimulated in related fields as well. Nuclear technology is used not only to produce electricity, but in medicine, agriculture, manufacturing, food processing and ecology.

Finding And Using Personal Time

Many working women with families find the responsibilities of job and family leave them very little time to relax. Consequently, these women risk physical and emotional well-being and problems at home and work," says Diane Welch, family life education spec-

ialist with the Texas Agricultural Extension Service, Texas A&M University System. Studies show that women working outside the home sacrifice about 14 hours of leisure time each week. So how does a working mother balance responsibilities and still have free time?

Here are some suggestions from Welch which should allow for free time and help one to maintain an equilibrium between responsibilities and leisure.

"Develop time management skills to increase free time," she suggests. "Analyze routines and better organize days by setting reasonable goals, jotting down appointment times and making lists to help remember details."

Use a "family calendar" and post notices to help remind others of responsibilities and decisions related to household tasks.

"Plan for shopping needs in advance, buy in quantity when possible, utilize mail orders when financially advantageous and concentrate on shopping in areas convenient to home and/or work," Welch suggests.

Schedule family, personal and health care services in advance, she says, then place them on the family calendar. This allows for cancellation and rescheduling if necessary.

"Plan time for exercise and recreation and do each consistently," she continues. "Such activity can also involve family and friends."

Use resources and experiences to help develop management skills, she says. Concentrate on topics such as time and/or money management, food preparation, interpersonal communication and record-keeping.

"Encourage other family members to plan their extracurricular activities together to avoid family overload and more obligations than family members can successfully handle," Welch comments.

Learn to recognize personal signs of stress and use stress reducers to relieve tension, she adds.

Find a brief period each day to "get away from it all" as a technique for reducing daily stress. Whether it's reading, listening to music, meditating, enjoying nature or just being alone, each person's physical, emotional, intellectual and spiritual energies can be recharged, Welch notes. "With many demands for both work and family, finding 'personal time' isn't always easy, but in the long run being happy and relaxed will benefit everyone," Welch adds.

did you know?

Keeping the customer's fuel adjustment cost down is my primary responsibility. I, along with Karen Roberts, Grafton Clarke, Barry Smith, and others, purchase fuels—coal, natural gas, oil—at the lowest possible prices. We negotiate with fuels suppliers to modify on-going contracts so the total cost to SPS customers for fuel is again minimized. And we plan ways to shift the production load among Southwestern's 27 generating units so that the fuel cost to our customers is made as low as possible.

Morris Rantz, fuel administration manager, Amarillo.

Computerized equipment helps SPS battle the costs of fuel. Every 10 seconds, we run a computer scan of all of our power generating units. The scan checks each unit's efficiency of operation, and calculates each unit's per-kilowatt-hour cost at that given moment. Then—for the sake of economy—we may immediately increase the generation at one unit, and decrease generation at one or more of the others. Our objective: At any instant in time to be producing electricity at the lowest possible fuel cost.

John H. Evans, manager electrical operations, Amarillo.

A new SPS ally is helping you manage electricity costs. Coal-fired Tolk Station, an efficient 561,000-kilowatt power plant near Muleshoe, Texas, began commercial production in August. We predict that the fuel cost adjustment our customers pay will be significantly lower over the life of Tolk Station than it would be if Tolk had never been built. In fact, Tolk Station for the next 35 years should save SPS customers about \$50 million per year.

Roy Thomas, vice-president operations, Amarillo.

For answers to your questions, call or write your SPS manager.

You and SPS, partners managing electricity, make the difference.

SOUTHWESTERN PUBLIC SERVICE COMPANY

10% OF YOUR INTEREST AND DIVIDEND INCOME WILL BE WITHHELD FROM YOU NEXT YEAR!!

The United States Congress recently passed a law that will adversely affect you and most other savers in the nation. Under this law, all banks, savings and loans, money market mutual funds, credit unions, mutual savings banks, and other payers of interest or dividends will be required to automatically withhold 10% of the interest and dividends earned by their customers and transmit this amount to the IRS. You already have to pay income taxes on your interest earnings--but now the IRS wants to take 10% of your total interest in advance.

This rule is wrong for the following reasons:

- 1) Withholding will cut the amount of cash you have available during the year from your interest income.
- 2) The amount withheld may not be correct for your tax bracket. If overwithholding occurs, you will have to file for a tax refund to get back your own money.
- 3) Your total interest earnings will be reduced because of less income from reinvestment and compounding.
- 4) Elderly persons and low income individuals (including children) will have to file an exemption certificate for each and every account they have in order to avoid withholding. If the exemption is not filed in time, a tax return must be filed the next year — or the withheld money will be forfeited to the government.

Unless Congress Acts To Stop The Withholding Rule, It Will Go Into Effect On July 1, 1983. These Financial Institutions Are Working To Do Away With The Rule, But We Need Your Help. IT'S YOUR MONEY.

Please detach the message that follows, and mail it to your Congressman. Send a copy to your U.S. Senators. Give us a call if you have any questions or need information. Let's put a stop to withholding before it begins.

To: Honorable Lloyd M. Bentsen, Jr.
United States Senate
Washington, D. C. 20510

Please support legislation to repeal withholding on interest and dividends!! It's harmful because it takes away from the income that I count on during the year; it's unfair to those of us who have always paid our share of taxes on interest; and, it's a burden to the elderly and low income persons, including children. It will discourage savings in this country, and that's bad news for the economy.

May I count on your support to repeal this rule before it goes into effect on July 1, 1983?

Real progress is being made this week on the paving of Main Street in Muleshoe. Wednesday there were 40 men and 12 teams and wagons employed.

Sarpalius Named To Education Board

Lieutenant Governor Bill Hobby announced at the opening of the 68th Legislative Session that he is appointing State Senator Bill Sarpalius as a member of the Education Committee, the Natural Resources Committee and the State Affairs Committee.

"I am pleased to be able to call on Senator Sarpalius' experience and knowledge in this session of the Legislature to help on these important committees," Hobby said of the appointments.

Sarpalius, from Hereford, served on the Economic Development Committee, the Human Resources Committee and the Natural Resources Committee in the 67th Legislative Session.

grade on one block was practically completed Wednesday and another block was entered by men with plows, spades and spikes. Considerable dirt is having to be hauled away to establish proper drainage.

Create A Fashionable Wardrobe With Plaids

Plaids are back on the fashion scene, both in classic form and in new shapes.

"With a few easy guidelines, homesewers can stitch up fashionable garments using plaids," says Nancy Brown, clothing specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Choose a pattern with few pieces, easy shaping, and a few seams. Too many details will break up the plaid design.

Always check the back of the pattern envelope for suggested fabric to make sure the pattern is suitable for plaids. Circular skirts or dirndls can distort the plaid, Brown adds.

Buy extra yardage, going by nap fabric yardage, in order to match plaids. As a rule-of-thumb, add the length of one plaid repeat for each yard bought, Brown suggests.

Avoid fabric that is printed, not woven. This type of plaid is often printed off-grain, making it impossible to match plaids.

When laying out a pattern, cut each piece from a single layer of fabric. "If two pieces are needed from the same pattern piece, flip the pattern over for one cutting," says Brown.

Pattern pieces cut on the fold need pins to mark top

and bottom. Cut around pins and flip over to cut the other side, making sure plaids match at notches and small dots.

For a more flattering garment, find the dominant line in the fabric and place it at the waistline and the hemline. Avoid placing it at the hip or the bust.

Match plaid lines both vertically and horizontally at the seam line, not the cutting line. Other places that need matching are front, back and side seams, sleeve breakpoints, plackets or tabs, center back of collar, shoulders, patch pockets, facings and openings such as button fronts, according to Brown.

Pin all seams carefully, and use an "even feed" or "roller foot" attachment to prevent slippage when sewing. Stitch all seams from bottom to top to prevent distorting the grainline, Brown advises.

These guidelines can help homesewers create fashionable garments with plaids, she adds.

September Refining Summary

Railroad Commission Chairman Mack Wallace announced that 63 refineries in Texas processed 130,953,909 barrels of crude oil and hydrocarbon blends during September 1982. Through the first nine months of 1982, Texas refineries ran 1,145,609,214 barrels.

September's volume compares with 125,757,806 barrels in the same month a year ago, the Commission's Oil and Gas Division reported in its monthly recapitulation of Texas refinery operations. Inputs of crude oil and blends totaled 131,596,343 barrels in August 1982.

Texas refineries ran 100,335,516 barrels of crude oil in September compared to 90,238,353 barrels in September 1981 and 100,753,083 barrels in August 1982.

Products manufactured in September 1982 totaled 131,592,361 barrels, up from 125,136,046 barrels in the same month the previous year, and down from the 134,105,497 barrels in August 1982.

September 1982 manufacture of motor gasoline totaled 55,308,718 barrels, compared to 53,800,566 barrels in the year-earlier month and 58,783,592 barrels in August of 1982.

Texas refineries manufactured 9,724,156 barrels of home heating oil in September 1982--an increase of 2,552,018 barrels from the year-earlier volume. August 1982 output was 7,842,197 barrels.

Fresh peas should squeak when the pods are rubbed together. Store them unshelled in your refrigerator.

Bank Call

Cont. from Page 1

both deposits and loans over the past year. Deposits for 1982 were up at the end of the year by close to six million dollars. Total deposits for December 31, 1982 reflect a \$5,782,188 increase when the total for December, 1981 of \$37,273,446 is compared to the 1982 amount of \$43,055,634. Loans at Friona are also up by near eight million. At the close of business on December 31, 1982 total loans came to \$25,136,681 as compared to the \$17,497,301 recorded for 1981.

At Bovina, the First State Bank reported total loans in 1982 of \$7,681,301, up by \$268,799 over the 1981 December 31 total figure of \$7,412,502. Deposits, however, were down at the Bovina Bank with 1982 totals of \$14,612,485 down by \$110,639 from December 31, 1981 total of \$14,723,124.

The First National Bank of Sudan reflected a downward trend in deposits for the past year. In December, 1981, total deposits at the Sudan facility were \$10,661,551 as compared to 1982 total deposits in the amount of \$8,927,114 - a drop of \$1,734,437 in yearly deposits.

Loans at the First National in Sudan also showed to be down over the year's period by \$804,103. Loans recorded in 1981 reached a total of \$2,898,454 at the end of business on December 31, 1981. In 1982 at the same time, loan totals reflected \$2,094,351 for the year.

Most area bankers that the Journal talked with indicated that their banks would try to continue on with farm financing this year and "help them in

From Left front: Dr. Bob Berry, Bailey County ASCS Executive Director Rusty Williamson and Connie Gupton.

Chamber Changes Officers, Board Of Directors

On January 20 the Muleshoe Chamber of Commerce and Agriculture will hold their first regular board meeting for the new year. Effective that day, the 1982 officers and several directors will be retiring.

Retiring officers include President Bruce Woods, Vice President Kerry Moore, and Secretary Robert Montgomery. Those who will be retiring from the board of directors will be Tommy Gunstream, Dave Cavitt and Carson Clayton.

New officers and board members for the 1983 season are as follows: President, Robert Montgomery, Vice President Tuffy Dent, Secretary Bill Liles; and, board members, Bruce Wood, Kerry Moore, Herman Morrison, Nelda Merriott, Mike Perez, Robert Hooten, Frank Ellis III, Harold Thornton, Doran Reynolds, Lonnie Adrian and Hubert Kidd.

At the previous Board meeting, members discussed various options for a banquet speaker and it was decided to invite Baxter Black to speak.

The proposed contract with Ford Brothers Circus was discussed and they are scheduled to appear in Muleshoe April 4, 1983.

Also discussed were some possible goals for the Chamber in 1983. Topics of discussion included industrial growth, expansion of local industries, a more so positive attitude toward new industry, tourism promotions, city beautification and membership increases.

man", and has completed the Hunter Education course. He is also a member of the N.R.A.

Stueart emphasised that Troy exemplifies the traits that are essential in the development of an outstanding scout, and an outstanding citizen in his community. Troy has leadership abilities; his morals are extremely high; he is patriotic and aware of duty to country. He wants to participate and carry his share of responsibilities. He demonstrates these traits by his involvement in not only Cub Scouts, but his church, school and community life as well. Troy will graduate into Boy Scouts at the local Blue and Gold Banquet on February 8th, 1983.

FACTORY ORDERS UP WASHINGTON, D. C. -- In new signs of a waning recession the government reported recently that factory orders and construction spending both rose in November from the month before.

Foley...

Cont. From Page 1

those earning a 3.25 or better are named to the Dean's List.

"We wish to extend our congratulations to these fine students who have demonstrated academic excellence which is found at South Plains College," said Dr. Bud Joyner, vice president for academic affairs. "We are always proud of the students who are named to the President and Dean's Honor Lists."

A total of 162 students were named to the President's List, and 297 students to the Dean's List for the fall 1982 semester at SPC.

FATHER-REARED BABIES NEW YORK -- Babies reared by their fathers while the mother works develop faster than the norm. Yale University child psychiatrist Kyle Pruett, who tested 17 such infants, found they scored way above norms on standardized development tests. His findings are reported in the January issue of Psychology Today.

MUDPACK & SPHINX CAIRO, EGYPT -- The Great Sphinx is beginning to look its age--all 4,500 years--and dozens of scientists, sculptors, archaeologists and Egyptologists have decided a mudpack will help draw out corrosive salts and prevent further deterioration.

Water...

Cont. From Page 1

Each year a qualified consulting appraiser collects and interprets the per acre value difference in irrigated and dryland sales in order to calculate the true cost of the water for any land acquired that year. The cost of ground-water reserves for irrigated land acquired in 1982 ranged from \$140 to \$755 per acre within the Water District's 15 county service area.

To assign annual water level declines in the aquifer, Water District staff members measure the water levels in a network of 950 water level observation wells within the District each January. The one year, the past five and the past ten year changes are calculated and a graph is of these generally declining changes.

To put it all together, the landowner's cost per acre in water is divided by the saturated thickness of the aquifer beneath his land to arrive at a cost per acre per foot. As an example, if the landowner has 100 feet of saturated thickness at the date of purchase and he paid \$500 per acre more for the irrigated land than he would have had to pay for similar land without irrigation water (dryland), he would then have a cost of \$5.00 per foot of saturated material. Each year as he receives a "feet of decline" assignment from the Water District, the landowner can calculate the cost of depleting his ground water by multiplying feet of decline times cost per foot times total acres and arrive at a dollar value for his tax deduction. Using the example above, if he had three feet of

decline he would multiply this by the \$5.00 per foot value with a resulting tax deduction of \$15 per surface acre.

The Water District has been providing cost-in-water decline values for 20 years now, and anticipates between six and seven thousand landowners will make requests for the values this year either as individuals or through their tax accounts. The District estimates at least three to five million dollars of tax expense allowances are saved by farmers each year by this program in the Water District's service area.

If you purchased land or

had your land values reassessed as a result of an estate settlement since about 1950, you may qualify for tax expense allowance. Please contact the High Plains Underground Water Conservation District at 2930 Avenue Q, Lubbock, Texas 79405, or telephone 806-762-0181 for assistance.

HOT FIRE

NEWARK, N.J. -- Millions of gallons of gasoline burn after an explosion recently, bending three huge storage tanks in a 2,000-degree fireball. The blast killed one man, injured 23 others and rocked communities up to 130 miles away.

"Crop Swap" Needs More Work

Texas Farmers Union President Mike Moeller said today that President Reagan's recently announced payment in kind program represents both good news and bad news for Texas farmers. "The good news," said Moeller, "is that the Reagan Administration in announcing this very radical departure from its earlier program now admits that its 1981 Farm Bill has been a failure. This, of course, comes as small consolation to the farmers who were driven out of business under the Administration's 1981 plan."

On the other hand, Moeller said, "The bad news is that if the President fails to make some significant changes in his recently announced payment in kind crop-swap program, farmers won't be much better off under this program than they were under his earlier one."

Most important, Moeller said, was the need to provide for a floor price for raw agricultural commodities. "Without such a minimum price guarantee," Moeller said, "Most farmers probably won't be able to participate in the new program, and those who do might still end up in the red in 1983." Moeller further explained that without some kind of price protection for the farmer, the new program might depress agricultural prices to the point that the overhead from just planting fifty percent of the previous year's acreage could easily eat up all the income from 1983's crop and the farmer's Payment in Kind from the government.

"We are greatly disappointed that the Administration has, to this point, failed to consider our recommendation for a floor price for commodities distributed in this new program," Moeller said. It's not, however, too late for the Administration or Congress to take this kind of action and shore up the Administration's program. Failure to provide some sort of price protection will almost certainly doom the

Administration's new program to failure before it ever begins."

Moeller also suggested that the Administration could allow the farmer the option of choosing to take his payment in kind or in cash. In addition, Moeller said that the Government's proposal to dump all the excess commodities at harvest time was an extremely unwise proposal. He recommended that the commodities be distributed in an orderly fashion in twenty-five percent increments, spaced out over a period of twelve months.

"Texas farmers and their bankers are suspicious enough of any new government programs as it is," Moeller said. "The Administration desperately needs to gain the farmers' confidence in this new pro-

Veterans Q & A

VA - MAY I HELP YOU?

Q -- Does income from welfare count as income for VA purposes when a veteran or beneficiary draws a VA pension?

A -- No, but it should be reported.

Q -- Under what conditions may a veteran's home-loan entitlement be restored after it has been used?

A -- Entitlement may be restored when the property on which the loan is made is disposed of and the loan is paid in full. Also, a veteran with sufficient entitlement may assume your loan and substitute his or her entitlement for yours.

Q -- What happens if GI home-loan payments are not made?

A -- Failure to make GI home-loan payments may lead to foreclosure and loss of the veteran's home. In addition, if the government is required to pay a claim as a result of failure to repay the loan, the veteran will become indebted to the government for the amount of any such claim.

Pep Exes Shedule 24th Homecoming

The Pep Ex-Student Association has extended an invitation to all former students, teachers, patrons, and friends of Pep to their 24th annual Homecoming, Saturday, January 29, 1983. All activities are to be held in the Pep Parish Hall.

Registration will begin at 5:00 p.m. Registration name cards will also serve as banquet tickets, and the price will be \$2.50.

Classes of 1936, 1946, 1956, 1966, and 1976 will hold their class reunions beginning at 2:30 p.m.

The banquet will begin at 6:30 p.m. followed by a meeting of the Ex-Student Association with President Matt Demel presiding. Recognitions will be

made and the Homecoming Queen will be crowned. The queen will be elected from the Seniors of 1983 that formerly attended Pep School, regardless of where they now attend school. Persons will receive a ballot when they register.

Pep Ex-Student Association will again give a \$100 scholarship to a High School graduating boy and girl, to be given to the College of their choice. To be eligible, the Senior or their parent must be an ex-student of Pep, and must attend Homecoming to register for the scholarship. Pep Ex-Student Association awarded the \$100.00 scholarships in 1982 at their annual meeting to

Francis Green and Wesley Gage.

A Country and Western Dance starting at 9:00 p.m. will conclude the activities. The public is invited.

Jesse Helms, Senator, (R-NC), after gas hike vote:

"We lost... I guess I felt I was in a position of having no one with me except the people."

Report
By Wayne Peterson

Jan. 4 was regular business meeting and was called to order by president Wayne Wauson. Owen Jones read minutes of Dec. business which were approved as read. Tom Ladd read 1982 financial report prepared by Tootie Middlebrooks. A \$500 deficit was reported, this was largely due to the purchase of a C.P.R. manikin. The financial report was approved as read. Tom Ladd is the vice president under Wayne Wauson, he also will take care of any complaints, backed up by body guard Gary Toombs. Magby made a motion to adjourn motion was denied. Owen Jones reported the closing of Boy Scout troop which for years was sponsored by the fire department. Balance of that account in the sum of \$40.96 was returned to the department. Wayne Wauson and Larry Rasco will be attending E.M.T. classes in Bovina. H.E. Reeder reported that some members Defensive Driving cards have expired. Motion was made and seconded to adjourn.

Wed. Jan. 12, Training film was shown to 26 members on Learn Not to Burn Wherever you Are. The film was made possible by the National Fire Protection association and narrated by Dick Vandike. Main topics of the film were, smoke detectors, house fires, family organized fire drills and safety tips for anywhere you might be.

Thanks to the Farm Bureau Insurance Co. for their contribution on a fire call response to a Farm Bureau Insured client. Frank Ellis is reported as recuperating and doing well after a triple by-pass recently. We sure hope he stays well until he can attend a regular meeting and receive a red cap.

Some people not purposely overlooked for their contributions to the community and the department in 1982 are KMUL Radio, Channel 6 and the Muleshoe Publishing Co. We want to thank them for the support and spots of reporting the Firemans news. Their time and space although free as it serves as a great community relations, informing the public of community actions. Its up to all of us to help make news for reporting from garden clubs to politics. Others deserving mention are the many Businesses and owners that make it possible for volunteer fireman in their employment to make daytime fire calls. They deserve a standing ovation and endorsement of the community. When fireman leave their jobs to fight a fire, the employer or business sometimes suffer monetary loss in its business, while at the same time the city property owners gain by these losses by having a lower Insurance Key Rate due to fire losses being kept at a minimum by quick action of fireman on payrolls of town businesses. Thanks for your help and support you so quietly render.

ACNE MYTHS & FACTS

Scarring
Some people think all acne causes scarring. Others realize that usually only serious acne leaves scars but believe that these scars are permanent.

Advice on the subject comes from Dr. Lawrence Lieblich, Chief of the Dermatology Clinics, Bellevue Hospital, New York City.

"The most important advice I can give," says Dr. Lieblich, "is to try not to touch or pick your face. People tend to scratch deeper than they think." Resist the temptation to squeeze—removal of blackheads by someone other than a doctor can cause scarring.

Many doctors suggest that acne patients who suffer scars wait at least six months to a year after acne is under control before they consider surgical techniques to reduce the problem.
