U.S. Border Patrol Seeks Applicants

The U.S. Border Patrol of the Immigration and Naturalization Service has an urgent need for physically fit young men desiring a career in Federal law enforcement work. This is a career opportunity for those who like action and outdoor work.

The Border Patrol is the mobile, uniformed enforcement branch of the Immigration and Naturalization Service. Its principle purpose is to prevent the smuggling and illegal entry of aliens into the United States. The border patrolmen, called Immigration Patrol Inspectors, work along international buondaries, although their duties are not necessarily confined to these areas. They work in jeeps, cars, on foot, in boats and even in airplanes. Officers investigate violations of the immigration laws and frequently make arrests. They are often required to work irregular hours, under all weather conditions. These duties demand mental alertness as well as exceptional physical vigor and stamnia.

The entrance salary of an Immigration Patrol Inspector is \$7,639 a year (Grade GS-7). training offers splendid oppor- Angelo with the Rev. Harold The reception was in the tunities for promotion to po-Orr officiating. sitions of greater responsibil-

the academy. Applications are now being City was ringbearer. accepted for the civil service examination for Immigration Patrol Inspector which will be held on Saturday, January 24, 1970. An additional examina-tion is scheduled for April, 1970. However, those wishing to be tested in January must submit their applications before December 19, 1969. Full information is given in Announcement No. WAM-911 which may be secured from Interagency Boards of Examiners and from many post offices as well as any office of the Immigration and Naturalization Service. Applications should be submitted on the tearout application form on the announcement or CSC Form 50000AB and forwarded to the Interagency Board of U. S. Civil Service Examiners for Washington, D.C. 1900 E St., N.W., Washington, D.C. ..0415.

Information concerning the patrol inspector position and this announcement may be obtained from the U.S. Immigration and Naturalization Service, P. O. Box 2539, San Antonio, Texas 78206, or by calling 512-225-5511, Extension

DISABLED WIDOWS BENE-

. . . .

"Two years have passed and many persons are still not aware of the change in the social security law which provides monthly benefits for disabled widows at age 50," said J. M. Talbot, social security manager.

Since the law became effective in February, 1968, more than 32,000 disabled widows have qualified for monthly payments, Mr. Talbot estimated however that another 30,000 widows who might qualify for these benefits have never applied.

"The requirements for disabled widows' benefits are apparently not as well known as those for the more familiar widows' benefits at age 62, or reduced widows' benefits at

age 60," Mr. Talbot continued. To qualify for benefits a widow, age 50 to 60, must have an impairment so severe that it keeps her from engaging in any work. The condition must also be expected to last for at least twelve months.

The widow's disability must have begun before her husband's death or not later than they end.

Mr. Talbot encourages those who may qualify to call the WANTED AT ONCE—Deal- Refilling and collecting mon-Social Security Office at 3000

EARLY DETECTION HELPS CURE CANCER

-over 60,000 American women contract it every year -that physicians agree every woman should examine her breasts every month for signs of it. At least 85% of all breast cancers are curable if caugh early enough, but over half are now fatal because of needless delay.

The intelligent woman who examines her breasts monthly and in a systematic manner stands an excellent chance of detecting cancer early-before it can endanger her life. The case of Mrs. A. T., of Chicago, Ill., is fairly typical. Having carefully read the American Cancer Society's booklet on breast self-examination (availoffices), she knew that the lump that she detected in her only her doctor could tell her manufacture it.

too unlucky. The lump was over a million women. Identicancerous, but it was still very | cal Forms duplicate the weight small and had not spread very and constantly changing confar. A mastectomy was required, but Mrs. T. is alive and well today-years later-and still caring for her family. Her sensible precautions may well have saved her life.

Mastectomy is not only a medical problem, however. It is a traumatic emotional experience for the woman partly because she knows that the fit of her clothes may well be affected, and she dreads the thought of making others feel If you are not sure how to go her presence.

fered from a depression which | cancer-early detection.

with worry about personal appearance than about health. This worry was quite justified, since very little attention had been paid to the problem by science or industry up to this time. Deeply concerned over this neglected need, Ella Bernable free from all local ACS hardt taught herself the difficult arts of industrial design, odds were pretty good that the developed a fluid breast form so natural she named it Identibreast one morning wasn't can- cal Form and founded a comcerous. She also knew that pany with the same name to

Since then Identical Forms Mrs. T. was unlucky-but not have insured peace of mind for tours and positions of the natural breast. Identical Forms are filled with a slow-moving, creamy fluid and covered by a double wall of soft, skinlike plastic. It is almost impossible to overestimate the part that a carefully fitted, carefully designed breast form can play in the emotional recovery of mastectomy patients.

Remember, breast cancer is usually curable if caught early. awkward or self-conscious in about examining yourself, ask your local Cancer Society of-Back in the 1920's, a hospital fice or your family physician. x-ray technician named Ella See him once every six months Bernhardt became aware that in any case, for a general allthe woman who underwent around check-up.
