For Social Security CHECK YOUR SOCIAL SECURITY RECORD

"How do I know my work under social security is being credited to my record, and how do I find out about it? This is one of the questions most frequently asked," says J. M. Talbot, social security manager.

In explaining the process involved in reporting social security, Mr. Talbot said, "When you work for wages, your employer deducts social security tax from your paycheck each pay day. At the end of each calendar quarter, he submits your name and number with payment for these taxes to Internal Revenue. Internal Revenue forwards copies to social security's main office in Baltimore, Maryland. Your wages are then posted to your record. The same process is followed for a self-employed person except that his earnings are recorded yearly."

Mr. Talbot states that the possibility of an error being made in the process does exist. He recommends that you request a statement of your earnings at least every three years.

All you have to do to secure the statement is to send a post card request available at your social security office to Baltimore, Maryland. If the reply you receive is incorrect in any way, contact the Social Security Office at 3000 West Harris Avenue (P. O. Box 3808) in San Angelo, Texas, or see the representative when he is in your area.

Each calendar quarter, the Social Security Administration receives employer reports of earnings showing incorrect social security numbers of employees, according to J.M. Talbot, social security manager. These incorrect reports, in many cases, happen when a girl has married but does not have her name changed on social security records.

Mr. Talbot stated that when a girl marries, she should complete a 'Request for Change in Social Security Record' form. After completing the form and returning it to the social security office with her old card, she will be issued a new social security card with the same number but showing the new name.

If the name and number reported by an employer do not match the name and number on file with the Social Security Administration, the earnings might not get to the proper account. This could result in a later loss of social security benefits or in a smaller benefit being paid.

"Did you know that if you operate any type of agricultural business, the hired workers you have in that business may be covered by social security?" J. M. Talbot, social security manager, asks.

Any employee who works and earns \$150 or more for one employer during any year or works at least 20 days on a time basis for an agriculture business, is covered by social security. Even part-time employees could meet the earnings or work test. You, as their employer, would be liable to withhold social security tax from the employee's check, match that tax yourself, and report the earnings at the end of the year.

LIONS CRIPPLED CHILDRENS' CAMP

Members of Lions Clubs throughout Texas this month are pausing to pay recognition to their camp for crippled children which has given over 12 thousand handicapped youngsters a new dimension since it was opened in 1953.

The camp, located at Kerrville in the Hill Country of Central Texas, is free to crippled, blind, deaf or mute children from the ages of seven through sixteen. The 17 permanent buildings and other improvements dotting the 504-hill-side acres represent an investment of more than \$700,000.

At the camp, these youngsters who have been denied a normal childhood through no fault of their own learn to shed their shyness imposed by their handicaps. By mutual association with other handicapped children and by skillful and gentle counseling, these youngsters have found the freedom to grow, mentally and spiritually, into useful citizens of tomorrow.

While the Lions are paying tribute to their camp, we would like to pay tribute to the Lions and their friends who have supported this great venture of the heart. We know a man never stands so straight as when he stoops to help a crippled child.

'Wanted by the FBI' CLERICAL EMPLOYEES

Attention: High School Graduates, Business, Junior and Senior College Students

The Dallas Office of the FBI, through its Special Agent in Charge, Mr. J. Gordon Shanlin, has announced it is again in urgent need of clerical employees to fill the positions of Cler and Typist at Bureau headquarters in Washington, D.C. These positions present an excellent opportunity for young people, male or female, who are at least 16 years of age, United States citizens, and have at least a high school education, provided they can pass a rigid investigation of loyalty, reputation, and character, and are in good physical condition. No previous experience is required. Future vacancies are also anticipated in the Fingerprint Clerk and Stenographer positions.

The entrance salary for a Clerk is \$4,897 (GS-2) per year with a raise in thirty to ninety days to \$5,524 (GS-3) per year, if their work is satisfactory. A twenty word spelling test must be passed to qualify for the Clerk position.

As openings occur, applicants for the Clerk position who are interested, are considered for the Fingerprint Clerk position which starts at \$5,524 (GS-3) per year. Successful candidates are considered for promotion to \$6,202 (GS-4) per year after six months; to \$6,938 (GS-5) per year after one year; and to \$7,727 (GS-6) per year after two years experience in fingerprint work.

A Typist starts at \$5,524 (GS-3) per year. Applicants for the the Typist position must pass a ten minute typing test of 45 words per minute and a twenty word spelling test.

A Stenographer starts at \$6,202 (GS-4) per year. To qualify for the Stenographer position applicants must pass a three minute dictation test at the rate of eighty words per minute; pass a ten minute typing test at the rate of forty five words per minute; pass a twenty word spelling test; and a twenty word vocabulary test. Qualified Stenographers must be willing to accept a Typist position until vacancies for the Stenographer position exist.

The FBI is only interested in above average young men and women. Many FBI clerical employees continue their college education on a part time basis in the Washington, D.C. area while working at these full time clerical jobs. Young men who obtain a four year college degree from an accredited college and who have been employed in a clerical capacity with the FBI for two years and meet the other requirements are considered for the Special Agent position at a starting salary of \$11,517 (GS-10) per year.

The FBI provides counseling services to its new employees to assist them with housing, transportation, and other needs. If close friends or young married couples apply at the same time and are found acceptable, every effort is made to afford them appointments at the same time.

The FBI does not come under Civil Service in that the FBI has its own application form, tests, investigates, and hires its own employees rather than draw them from a Civil Service list or register.
