## Behind the 8-Ball

By the editor.

LAST Saturday I was in a meeting of Democratic chairmen in Austin. The opening speaker said before I came into this meeting I took time to look over the front page of the big daily paper here. The headlines were all about crooks in top government being indicted and crookedness in high places. On the bottom of the front page all I saw was about people (students) running through the halls, dorms and campuses naked.

He then said—that if something isn't done to correct the things that are wrong in this country of ours—we'll all be running around naked.

Amen.

### 8-BALL

Another delegate reported of seeing a sign in Luling. It read —THE GAS WAR IS OVER— and below—GAS WON.

### 8-BALL

In Austin you can't seem to buy gas after noon on Saturday. Then only what the individual station will let you have. We could get \$3 worth. On the way home one could see stations open in the small towns. Mostly independent or Fina. Gas cost from 43.9 for regular in Brady on Friday afternoon to 47.9 in Kingsland on Sunday. Most of the stations are closed by 6:30 or 7 each day.

So watch your step if you are travelling nowadays.

### 8-BALL

I have enough newsprint for this paper today. Then I've got to go paper hunting somewhere. If I can't get any in the close area, I might have to take off looking elsewhere. Some have suggested looking around Houston, Texas or Las Vegas, Nev.

Surely there's some somewhere. Ben Oglesby, the Bronte and Robert Lee publisher, says he has enough for three more weeks (the first of this week) then he's in trouble.

Guess we can listen to the news on the radio or TV for awhile.

### 8-BALL

It's dry all over West and the central parts of Texas. Kinda like it was in the early 50's.

Feeding of livestock and the gloomy outlook for the spring and summer grass and weed crop, has got ranchmen worried. Maybe the cloud seeders will do a good job around here this summer.

### 8-BALL

If you have any artificial fruit or flowers around your house that you don't want anymore—they can be made into arrangements for the nursing home. If you have any and will give them for such use, turn them in to Alta McGibany—at the What Shop by the post office.

### 8-BALL

**A HOLE IN ONE**  
Reynolds Foster turned in the second hole in one at the local golf course last weekend.

Reynolds made a 176 yard hole in one. The first such deal was by Rueben Rodriguez last fall.

## Social Security Tips

Social security checks should be cashed within a reasonable time to prevent loss or theft, even though there's no time limit on cashing them, according to social security officials here.

'If your check is lost or stolen, get in touch with your nearest social security office at once,' a spokesman said. 'The check can be replaced, but it takes time. Handle your check carefully when you get it and you won't have to wait while it's being replaced.'

Social security pays over \$4 billion a month in benefit checks to almost 29 million people—eligible retired and disabled workers and their families and families of deceased workers who worked long enough under social security.

For further information contact the Social Security office at 3000 W. Harris Avenue, San Angelo, Texas 76901 or call 949-4608.

# 6 WAYS TO CONSERVE AND SAVE

## ON HOME LAUNDRY

1. Wash and dry a full load, but never overload... it is essential for each item to move freely for proper cleaning and drying.
2. Choose the correct cycle for washing modern materials. Perhaps hot water isn't needed, and only a gentle drying temperature.
3. Too much detergent can clog machine and drains... always measure, don't guess. Follow the manufacturers recommendations for your equipment. Mixing brands of detergents can cause graying of clothes.
4. Many manufacturers of permanent press garments recommend machine washing and machine drying for best results. Following instructions on the garment tag can preserve the life of your clothing and give you wrinkle-free clothes without need for ironing. A big savings!
5. An important maintenance function for you to do is to clean the lint trap and lint filter on both washer and dryer after each load of a full day's use of your home laundry.
6. Never-Never pour bleach directly into the washer with clothes in it. Always dilute bleach before adding it to wash water. Also, timing is important. Bleach should be added after the clothes have washed at least 5 minutes.

**NEW TEXAS ALMANAC 1974-75 Almanacs**

THE PEOPLE OF TEXAS, a study of the many nationalities and ethnic groups that have combined to make up the state's population, is one of many new features in the 704 pages of the 1974-75 Texas Almanac, published by A. H. Belo Corporation, publishers of The Dallas Morning News.

The article is by R. Henderson Shuffler, executive director of the University of Texas Institute of Texan Cultures at San Antonio.

Texans have always come in assorted sizes, shapes and colors, with a wide variety of mother tongues and hereditary customs and traditions, Shuffler writes. He has capsuled this variety of cultures in the special Almanac feature.

The new edition also contains a comprehensive history of the livestock feeding industry in Texas, which now leads the nation in numbers of cattle fattened in feedlots. The article was written by Sam A. Thomas Jr., manager of agricultural development for Southwestern Public Service Company of Amarillo.

Two reports are of special interest to ecologists. One is a list of endangered plants and animals in the state, prepared by the Texas Organization for Endangered Species. The other is a list of state agencies responsible for pollution control.

Election results, listings of county, municipal and state officials, amendments to the Texas Constitution, appointive boards and commissions, officials of state and regional civic and trade organizations and many other listings are expected to make this edition widely used as a reference for offices, schools, public agencies and homes.

A new Texas map, in color, with major highways, distances and other information supplements 254 county maps, updated from maps prepared by the Texas Highway Department.

The county maps are published with information about each Texas county supplied by chambers of commerce, county agricultural agents and others.

Tourism and recreation are featured, with listings of state and national parks.

**NEWS OF EDUCATION**

**College Students: Bored of Education?**

To many concerned parents, today's college students seem much less impressed with the importance of their education than were students of years ago. Sometimes, the students even seem bored.

But educators and psychologists point out—seriously, yet sometimes with a smile—that many college students today are learning far more at school than their parents ever did.

Today education is different. Not only do new teaching methods make learning easier and lots more effective, but also college is seen as a place for social—as well as academic—instruction.

Which is as it should be, when you consider that college is a mini-model of the tough outside world students will soon enough have to cope with and function in. And adjusting properly to that world is just as impor-

tant and just as difficult as any course a school has to offer.

That's why so many students are getting involved with the running of their schools. The actuality of practical campus politics is a good deal more enlightening and instructive than classroom theories.

That's also why students seem to take their competitive sports more seriously than ever before. Trying to do one's best is very much a part of the outside world and these kids are very much aware of it. They play hard and work hard at keeping themselves fit with effective medications like Tinactin cream; solution and powder, which fight most fungus to kill and help prevent athlete's foot, that old college locker room nemesis.

Unfortunately, these kids—the good kids who make up the majority of this nation's student body—rarely make news on radio or TV. But their abilities and straight thinking have not gone unnoticed.

Each year, more and more of these grade-A students are being recruited by business and industry before graduation.

Which would indicate that they were far from bored with their college education.
