### NEW TEXAS ALMANAC

#### 1974-75 Almanacs

THE PEOPLE OF TEXAS, a study of the many nationalities and ethnic groups that have combined to make up the state's population, is one of many new features in the 704 pages of the 1974-75 Texas Almanac, published by A. H. Belo Corporation, publishers of The Dallas Morning News.

The article is by R. Henderson Shuffler, executive director of the University of Texas Institute of Texan Cultures at San Antonio.

Texans have always come in assorted sizes, shapes and colors, with a wide variety of mother tongues and hereditary customs and traditions, Shuffler writes. He has capsuled this variety of cultures in the special Almanac feature.

The new edition also contains a comprehensive history of the livestock feeding industry in Texas, which now leads the nation in numbers of cattle fattened in feedlots. The article was written by Sam A. Thomas Jr., manager of agricultural development for Southwestern Public Service Company of Amarillo.

Two reports are of special interest to ecologists. One is a list of endangered plants and animals in the state, prepared by the Texas Organization for Endangered Species. The other is a list of state agencies responsible for pollution control.

Election results, listings of county, municipal and state officials, amendments to the Texas Constitution, appointive boards and commissions, officials of state and regional civic and trade organizations and many other listings are expected to make this edition widely used as a reference for offices, schools, public agencies and homes.

A new Texas map, in color, with major highways, distances and other information supplements 254 county maps, updated from maps prepared by the Texas Highway Department.

The county maps are published with information about each Texas county supplied by chambers of commerce, county agricultural agents and others.

Dear friends and fellow Texans—

I am running for U.S. Congress, House of Representatives District 21. I believe in America and our rights under the constitution. I believe that government should serve the people and not be a burden on the majority for the sake of a few. I believe in our free enterprise system. I will work to protect it.

I was born in San Antonio and grew up in Llano County in the hill country of Texas. I have lived in Texas all my life. I graduated from Southwest Texas State University in 1969. I am 28 years old.

I am not a politician nor am I a millionaire. Somehow, I feel that we are tired of sending those people to represent us in Washington. I know how you feel at the supermarket, the gas pump, and at income-tax time. I am one of you.

I need your help to get elected. I am running against some well-organized and well-financed political machines with public relations people and advertising firms. All I have is you.

I must apologize to my many friends that I have been unable to see personally. I wish that I could talk to everyone in the 21st District. I think that most of you feel as I do. I hope that I will merit your consideration in this very important election.

Sincerely,

*Patrick Ainsworth*

AROUND  
THE  
COUNTY  
by

ARTHUR BARLEMANN, JR. COUNTY AGENT

The hearing in the Federal District Court in Washington, D. C. regarding the use of the M-44 and sodium cyanide for coyote control has been postponed until March 27. First scheduled to be heard on March 12, it was postponed to March 21 and now to March 27.

The hearing concerns the injunction that the Humane Society brought against the Environmental Protection Agency and its experimental program using the M-44 in forty-four counties in Texas. Training meetings were held in a few counties in the state on the use of the device prior to the injunction. Sterling County's meeting was held on Monday, March 14, the day the injunction was granted. As a result of the suit, all meetings and the use of the device was halted immediately.

The Texas Department of Agriculture is keeping the Agricultural Extension Service at College Station informed on the matter. As information is received, we will pass it on.

High food costs have brought about renewed interest in home gardens. To furnish information on home gardening, the Agricultural Extension Service of Texas A&M University has printed several new bulletins on the subject. They include information on planting dates, rates, seasons, and the do's and don'ts of gardening. These bulletins are free. Anyone desiring copies of them can have them by contacting the county Extension agent's office.

Dealers handling the small garden tillers are unable to meet the demand for them in most areas of the state. They say that their shipments are sold out as fast as they receive them.

The mild winter has resulted in an early migration north of screwworms this year. Confirmed cases of the livestock pest were found near Brownwood and Stamford last week. This is the earliest that screwworms have been found this far north in the state.

The eradication program officials as Mission have gone to a ground release of sterile flies in areas where confirmed cases have been found. This was done because high winds were making the air drops of flies difficult. The flies were being blown far from the intended areas and the ground release program will put them where they are needed.

With shearing season approaching, all livestock producers are urged to take all precautions this year. This would be a good time to spray your sheep out of the shearing pen.

Check your livestock regularly. Treat all wounds after taking a sample, if there are worms in the wound. Keep a couple of collection vials and mailing tubes in your pickup. If you need vials, they are available at the county agent's Extension office.

A sample sent in from the H. L. Hildebrand River Ranch last week was identified as non-screwworm. This is the first report on a sample in Sterling County in quite some time. It was taken from a sheep's head.

Congratulations to the Sterling

## Running for School Board

ON WRITE-IN

Winn McClure has announced that he is running for election to the Sterling City School Board on a write-in campaign. He will not be listed on the ballot as the time for filing is past.

He said he would appreciate all the support and help and votes in the election on April 6. (Pd. for by Committee to elect Winn McClure to the school board.)

County 4-H Club girls and their achievements at the District 7 4-H Foods Show held at Junction Saturday. Five girls took part in the show winning one blue ribbon, three red ribbons, and one white ribbon.

Lisa Horwood won a blue ribbon with her entry in the Main Dish category, senior division.

Red ribbon winners were Lisa Rich in the Bread and Dessert category; Terri Templin in the Main Dish class; and June Humble in Side Dish category. These girls were all entered in the Junior Division.

Amy Hodges won a white ribbon in the Bread and Dessert class of the Senior Division.

Each of the girls took a test on their knowledge of nutrition, food serving, and table settings. This, along with the scores on the food itself, determined the placings.

## Club Sponsoring Gift Shower

The Noratadata Club is sponsoring a gift tea or shower for the community center here on March 30. Time of the tea will be from 3 to 5 o'clock.

Called an Easter tea by the club, everybody in the whole area is invited, and welcomed.

Dishes and glasses have been selected at the Ross Hardware & Furniture for the tea, and one may go by there and make selections. Also, it is a silver (money) tea for those wanting to give money. Such money gifts will be used to buy pots and pans and the like for the center.

The center's kitchen was remodelled by the county last year and the club thought new dishes and utensils were in order now.

## Behind the 8-Ball

By the editor.

To those who have been receiving your paper printed on real good white paper the past two weeks—maybe no more.

Some paper has come in and MORE is on the way. Maybe too much. That is the way of life today in the business world. You just can't count on anything for certain. This Republican way of life is about to get me.

8-BALL

A pretty good freeze on last Sunday morning and again on Monday morning, got most of the fruit—like plums and apricots around here. To raise fruit around here you have got to get through the unexpected and late freezes, then hail and high winds, then bugs, then the birds. It's a rat race.

8-BALL

An old preacher friend of mine wrote—Just think, if Rose Mary Woods had been Moses' secretary, we would only have three commandments.

Hello John.

8-BALL

During the war we called 'em Victory Gardens. Now they call 'em Desperation Gardens.

They are many other names one might think up—like Republican Gardens, Democratic Gardens, Nixon Gardens, Survival Gardens, or others.
