Around Muleshoe

The First Baptist Church of Muleshoe will sponsor a salad supper at 7 p.m. on Monday November 7 to observe the Baptist World Day of Prayer. The supper will be held in the church and members are urged to attend.

In the Bailey County Journal Court House News Lee Edward Murphy was listed as being charged with DWI, it should have read DWLS.

The Richland Hills Baptist Youth will sponsor a garage sale Saturday, Nov. 5 from 9 a.m. until 6 p.m. at 1726 West Ave. B.

The Lazbuddie Young Homemakers Christmas Bazaar, set for Saturday, Nov. 12 in the Lazbuddie School cafeteria will feature a children's art competition for ages four through 12. All work must be original and it may be crayola, charcoal, water color, oil and etc. Full name and address must be written plainly on the back of each entry and the child's age must be plainly written on the front. Entries should be mailed to Vickie Burch, Route 1, Friona, Texas 79035.

A fund has been established at the Muleshoe State Bank for the Albert Ramirez family. The Ramirez family lost all their home furnishings in a fire Saturday afternoon.

The Bailey County Farm Bureau Board of Directors will meet on Thursday, November 3, 1983 at 7:30 p.m. at the Farm Bureau Office.

The Muleshoe Hospital Auxiliary will again sponsor their annual "Christmas Card" project, with the drive scheduled to get underway on November 1. Further details will be released soon.

Thanksgiving Supper Planned

Friday, November 4th the Junior class will be sponsoring a pre-game Thanksgiving supper, and would like to urge all citizens of Muleshoe and Tulia to attend. They will be serving Turkey and Dressing, mashed potatoes, giblet gravy, green beans, hot rolls and Cranberry sauce. To drink there will be tea and coffee, and for dessert there will be pumpkin cake. "We didn't play as well offensively as we could have against Friona last Friday," Williams said.

Muleshoe Motor Company Gets Chrysler Franchise

Muleshoe Motor Company is expanding their service, according to longtime owner, Robert Hooten. Although the name will remain the same, Muleshoe Motor Co. is now the dealer for Ford, Mercury and have added Chrysler, Plymouth, Dodge and Dodge trucks.

After recently acquiring the Chrysler product franchise, new cars were ordered and are expected to start arriving in approximately 30 days, says Hooten.

"We are not trying to convert our present Ford and Mercury owners to Chrysler products," he commented, "but, are trying to add additional services for Chrysler drivers."

In face, Hooten said persons currently driving Chrysler products acquired elsewhere will be most welcome to bring their vehicles to Muleshoe Motor for service and repairs.

"We are sending people to school and will be stocking parts as well as offering a complete line of service for

SCHOOL BUSES RENNOVATED...Muleshoe ISD recently had three school buses renovated by the Texas Department of Corrections. The savings for the school district between new busses and the renovations amounted to almost \$25,000 for the three. Billy Murphy, bus maintenance employee, who helped to bring the busses back to Muleshoe is shown with the newly renovated equipment.

Muleshoe Battles Tulia For Playoff Berth Friday

Muleshoe's Mighty Mules will face another "must win" situation this Friday night against the Tulia Hornets - that is, if they intend to be in District playoffs. Tulia, under the guidance of veteran coach L.G. Wilson, will come into the Muleshoe game with a 2-2-0 district record and a 3-5-1 season record. The Mules now stand 3-1-0 in district and 6-2-1 in season and at this time are bested only by Littlefield in the District 2-3A list of teams. The playoffs also hinge on the outcome of the game between Friona and Littlefield.

Coach Windy Williams, Athletic Director at Muleshoe High told the Journal Tuesday that "Tulia is a game we've got to win, and we'll have to play as good as we ever have in order to beat them." Williams expects a defensive battle and says that the game will be a real "shoot-out."

All of the Mules are well and if this holds true, fans will see a full lineup in play Friday night. "We didn't play as well offensively as we could have against Friona last Friday," Williams said.

any Chrysler product," added Hooten. Muleshoe Motor Co. current sales staff are Hooten, Charles Mayhugh and Linda Nowell, and Hooten says he expects to expand his sales staff as the new vehicles start arriving at his company.

Hooten first became associated with Muleshoe Motor Co. in 1960 and two years later, in 1962, became the dealer for Ford and Mercury in Muleshoe.

At the time he acquired the dealership, it was located at the "Crossroads" where Muleshoe State Bank and Energas are located now. He built the present location at 1225 West American Blvd.

It has been more than 10 years since Chrysler products were available in Muleshoe and with the closing of the former BMW Motor Co., persons who wanted Chrysler products had to shop out of town.

Edd Edmiston was em-

said, "but, our defensive unit played well." "Sometimes it takes a little time to work out problems," he said, but indicated that he thought the Mules would have things under control on Friday.

Williams is not happy with the UIL realignment, and feels that it puts a lot of pressure on a lot of teams. He was unable to explain why some districts only have four or five schools in it, while others have seven or eight.

In a telephone interview with Coach L.G. Wilson,

Hurst Department Store To Open Here

A new business will open in Muleshoe in the near future, and will be located in the former St. Clair Department Store building.

Leslie Hurst and his wife, Susie along with his father, M.C. Hurst, plant to open the Hurst Department Store here in Muleshoe on November 15. "This is a target date for us, since we are expecting most of our merchandise to be here by that date," said M.C. Hurst. The Hursts will, at any rate, be open by December 1 and in time for the Christmas trade, according to Leslie Hurst, who will be the resident manager of the new store.

The Hurst family are owners of stores in Munday and Spur, along with a specialty store in Austin, which is operated by another son. The Leslie Hurst family will be making their home in Muleshoe soon after the

Chamber Looks For Guides, Hunting Land

According to Chamber of Commerce Manager, John Gulley, the December, 1983 issue of "Southern outdoors", an article appeared concerning hunting in the Muleshoe area. The article mentions Muleshoe specifically as a good location for hunting ducks, geese, and sandhill cranes. The Muleshoe Chamber of Commerce and Agriculture is attempting to gather information on area guides interested in taking hunters out for waterfowl hunting trips, as well as compiling a list of area landowners who are willing to lease their property to hunting parties. Anyone interested in providing a

UIL Shuffle Realigns Muleshoe's District Play

Ina Dennis Wins 1st Place; Tie Remains

We've got three more new winners in this week's annual Journal football contest, and this is really beginning to be a habit. The contest this week must have been a little tougher, because the games missed and the tie breaker scores were considerably off from last week. Too, it seems like some of you fans have just given up - don't do that - for the contest is still wide open and really up for grabs at this point.

Winning first place this week was Ina Dennis. Although Mrs. Dennis is not a newcomer to winning in football contests, this is the first time this year that she has "scratched." About two years ago, she won the grand prize. Mrs. Dennis missed a total of three games and was four points off in the tie breaker scores. She will receive a check for \$6 and 10 points towards the contest end, joining the ranks of the other ten point-ers.

Second place winner for the October 27 contest was James Hanson. James had previously won a second place in a contest and garnered six points from that win. He will receive six more points for this win plus a check for \$4. Hanson missed three games and was 14 points off in the tiebreaker scores. These two wins should give him a total of 12 points overall and would place him just behind Debbie Weir and Raymond Villalobos in overall points. (This figuring is unofficial and will be checked before the contest ends.)

Taking third place was a brand new contestant, as well as a first time winner. Jewel Pool was the third

place winner this week, missing four games and being twenty points off in the tiebreaker scores. She will receive a check for \$2 and three points towards the overall scores.

So, fans, after viewing the results of this last contest, and the winners, we still have two contestants tied for the first place lead in the overall points. Those two contestants are Raymond Villalobos and Debbie Weir, both with 20 points each. As we mentioned before, James Hanson with 12 points will climb into the second place spot in overall points. Coming right behind him are several contestants still in the running with ten points

School Renovates Three Busses

Recently, the Muleshoe Independent School District had three busses renovated by the Texas Department of

American Ag Schedules Meet

The American Agriculture Movement of Texas, will have a state meeting on November 4th and 5th in Plainview, Texas at the Holiday Inn located on I-27.

The meeting will begin on November 4th, with registration at 9:00 a.m. and business meeting to follow. Speakers for the two day meeting will be Tommy B. Willis, National President of the American Agriculture Movement, David Senter, National Director of the American Agriculture Movement. Cont. Page 6, Col. 5

Bailey County Disaster Board Revises Assessment

In an October 16 letter to the state USDA Emergency Board, Danny Noble, Chairman of the Bailey County Emergency Board, reported that on October 16, Bailey County received a hail that caused damage to the certain commodities, listing the acres involved and the amount of loss estimated.

In the report, 5,000 acres of cotton was estimated to have sustained a 100 percent loss; another 5,000 acres of cotton was listed to have sustained a 50 percent loss and another 10,000 acres of cotton showed a loss of 30 percent and less. Grain sorghums were estimated to have received 25 percent and less losses on 4,000 acres. The letter also stated that the hail covered an area from west to east across the southern part of Bailey County.

Damage assessments were first made to indicate the effect of the extreme drought and cold planting seasons, only to be updated a few days after to account for hail storms in June and August. Then, just after the second assessment was turned in, the October hail storms hit Bailey County, causing a need for further re-assessment.

Cotton estimates on 87,616 acres grown in the county this year started out to average 206 pounds per

acre. The first revision brought that figure down to 185 pounds per acre. The most recent assessment reflects cotton to be averaged now at about 155 pounds per acre.

Wheat estimates remained unchanged since most wheat had been harvested prior to the occurrence of county damages.

Corn which started out at an estimated yield of 140 bushels per acre was dropped back to 135 bushels per acre. This amount was not changed in the last assessment figures, since most of the corn has been harvested.

Grain sorghums in Bailey County which had previously been estimated at 27 bushels and then 20 bushels per acre yield have now been revised to show 18 bushels per acre yields.

The vegetable crop in Bailey County was estimated to show an 85 percent production level on the first assessment. That was revised to show 65 percent of normal production and will remain the same in the newest report.

Other crops such as soybeans and sunflowers at the time of the first assessment were reported to have about a 90 percent production level. That was revised with the first re-assessment to show 50 percent and re-

Idalou, Floydada Will Join District 2-3A Rank

Muleshoe High School will be affected substantially by the recent shuffle of teams by the University Interscholastic League. The UIL's plan was announced for the next two years last Saturday, and moves two new opponents into the line-up against the Mules, while dropping a school that is presently in District 2-3A. Muleshoe, however is not alone, since almost every other district except for District 3-5A, 4-5A and 2-4A was changed.

The UIL is the state-wide governing body of high school athletics and classifications of schools are based on an average of enrollment figures from two school years. The UIL said that 5A schools are those having enrollments of 1,305 or more; 4A have 650 to 1,304; 3A

have 275 to 649; 2A have 135 to 274 and 1A have 134 and less in enrollment. A high school with less than 90 enrolled may enter six man football.

According to Muleshoe ISD Superintendent H. John Fuller, the new UIL District Alignment will place two new teams in District 2-3A, of which Muleshoe is a member. Those two schools are Floydada and Idalou. Although these teams have been scheduled in Muleshoe's playing arena, it has not been on a district level.

Abernathy was dropped from the District 2-3A line up, since they were dropped to a AA classification and will join the ranks of other AA schools.

Play for the Muleshoe Mules in 1984 will begin on September 7 against Portales, following with Morton on September 14 and Friship on September 21. District play will begin on September 28 against Friona to be followed by Floydada on October 5, Idalou on October 12, Dimmitt on October 19, Tulia on October 26 and Littlefield on November 2. November 9 will be an open date for the Mules. This realignment will revert the Mules back to a seven game district schedule and an open date as well.

A number of athletic directors in District 2-3A have expressed their disappointment at the realignment process, which moved another team into the district while some other districts only have four or five

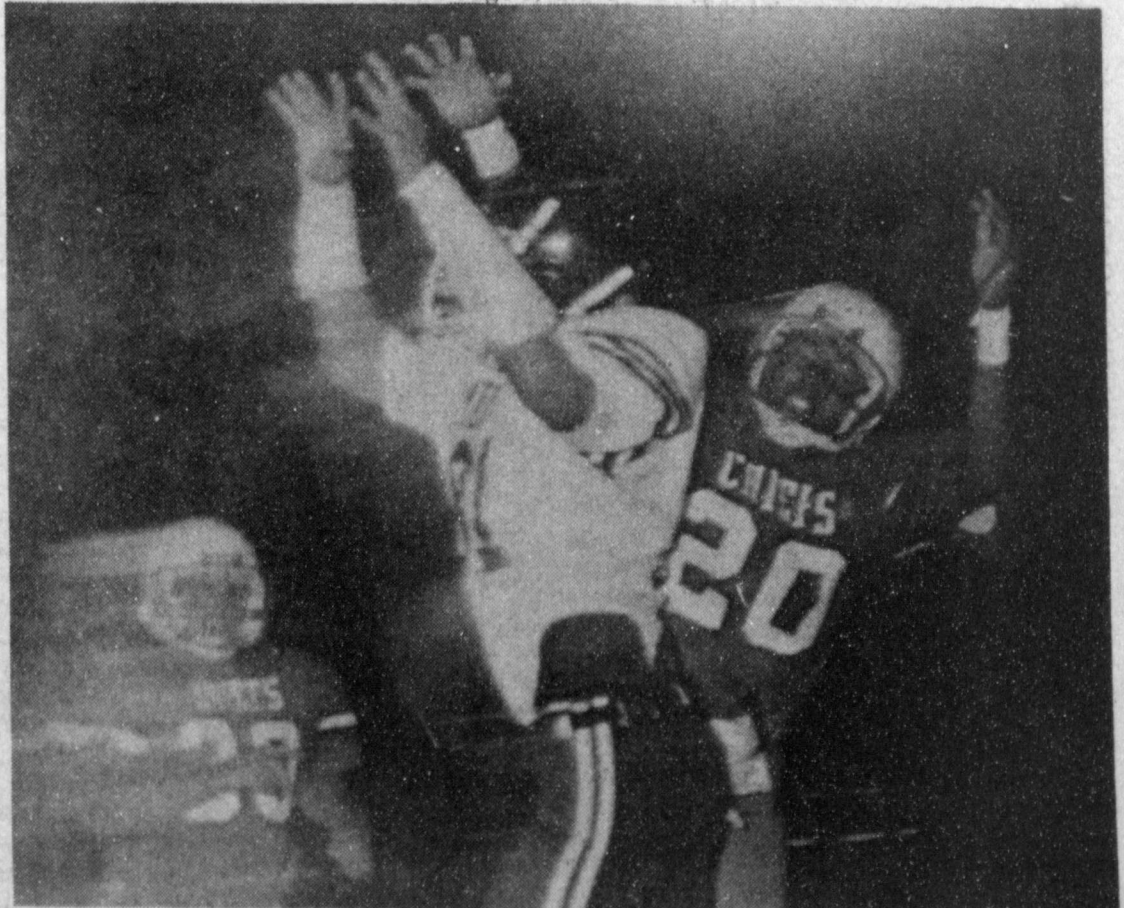

Rotary Hears County Crop Assessments

The Muleshoe Rotary met at noon on Tuesday, November 1 for their regular meeting in the Civic Center. Guests were Sam Harlin and Danny Noble, local ASCS Director, who gave the program.

Noble discussed the PIK entitlements for Bailey County on wheat, grain sorghum, corn and cotton, indicating that the total amount dollar-wise should be in the neighborhood of approximately \$11 million on current markets.

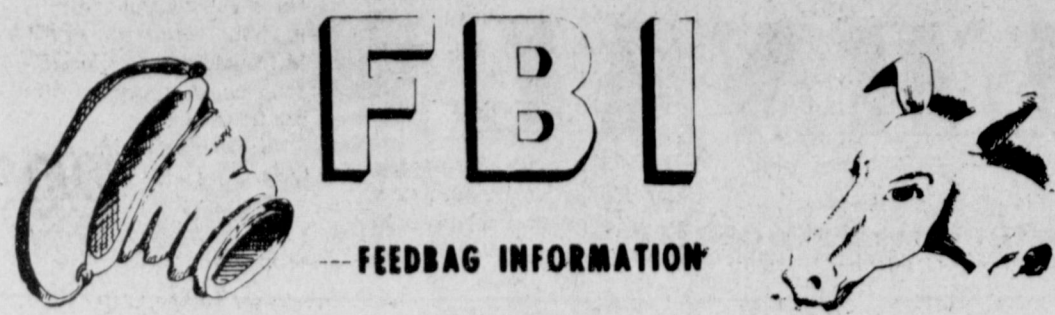

Paid diversions were also discussed, and the ASCS

Con't Page 6, Col. 3

ALMOST, BUT NOT QUITE... Hector Garcia, #81, big Muleshoe Mule tight end, made a try at a Chieftain interception last Friday night as the Mules rolled by the Friona squad in a 9-3 defensive battle. The best thing about this was that Friona's John Aguirre #20 didn't catch the ball either.

At Muleshoe Junior High

Seventh Mules Scalp Chiefs

The seventh grade Mules stayed undefeated for district when they knocked off the Friona Chieftains with a score of 19-8. The game took place at the Friona Field, Thursday, October 27.

The Chieftains had first possession of the ball, but the Mules held them back when they attempted a fake punt. Time ran out on the Mules when the first quarter ended with a score of 0-0.

During the second quarter, the Mules made the first touchdown of the game by a quick pitch to Daniel Olivias, wingback. They tried for the two extra points but failed, which left a score of 6-0.

David Sanders, fullback, made a touchdown during the third quarter, and Danile Olivias kicked a perfect PAT for the extra point. Before the quarter ended, the Mules made another

spectacular touchdown by Danile Olivias with a sweep around the end, but the extra points were unsuccessful.

The fourth quarter was played very well by the Chieftains as they scored a touchdown against the Mules, and the two extra points were successful. The final score was 19-8 for the Mules fourth district win.

Chieftains Tomahawk Mules

The eighth grade Mules chance for district championship ended last Thursday, October 27, in Friona. The Chieftains defeated the Mules in a shut out, with an ending score of 34-0. Outstanding hitter of the week was Richie Tillema. Shannon Simmaacher averaged 48 yards on kick-off returns.

The final game for the eighth Mules will be played here against the Tulia Hornets, Thursday, November 3.

Hance Calls For Stop Of Iranian Trade

U.S. Rep. Kent Hance, D-Texas, called on President Reagan today to immediately order a stop to all purchases from the government of Iran.

"It is obvious from the evidence we have collected," Hance said, "that terrorists loyal to the Ayatollah Khomeini's government are behind the massacre of American troops in Lebanon."

"Khomeini-supported terrorists took over the U.S. Embassy in Tehran in 1979 and held more than 50 Americans hostage for 15 months; they bombed the U.S. Embassy in Beirut this year and killed 63 people, including 17 Americans; and last Sunday, terrorists at-

tacked the U.S. Marine headquarters in Beirut, leaving more than 200 Americans dead."

"In addition to a very small portion of our oil needs, the U.S. buys millions of dollars worth of other products from the Ayatollah. I believe Americans would be willing to do without the yarns, hides, carpets, artwork and fish they buy from Iran if they knew that this money supports terrorists intent on killing Americans."

"In August," Hance pointed out, "almost 300 million American dollars, went to Iran in exchange for these products."

"How long is the Reagan Administration going to continue financing Khomeini's goons?" the Lubbock Democrat asked.

"It is not in the American tradition to do business with our enemies, and Khomeini is definitely an enemy. I know Americans would support the President if he ordered all imports from Iran stopped," Hance said.

Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm on Sandy Acres takes a side-long glance at computers this week.

Dear editor: According to an article I read the other day by a computer expert, computers "will change the very existence of nearly everybody." In fact, he said, "in a few years 35 million people in this country will be sitting in front of computers."

I don't believe it. If he'd said 35 million will be sitting in front of their TV sets, I could go for that.

Computers and television both have programs, but as dull as the latter can be, it still beats the former when it comes to plots.

That expert said also that "the eventual impact of the computer will surpass that of the telephone and the automobile."

I haven't figured out yet what impact the telephone and the automobile had on us. For one, it hasn't enabled us to elect anybody any better than the ones we did when we communicated by yelling across the back fence and rode to town in a horse-drawn buggy.

Also, a lot of writers are now writing on computerized word processors that can even spell for them but they haven't managed to come up with anything equal to what was written years ago with a quill dipped in ink.

When something new comes along, there's always somebody around to tell us how it's going to change everything. When the automobile came along 75 years ago, health experts looked out over city streets jammed with horse-drawn vehicles and said the car, by eliminating the horses, would eliminate flies.

Yet stores in cities all over America right here in 1983 are still selling flyswatters.

Yours faithfully,
J.A.

Mary's Memories

By Mary J. Sanchez

Time is running out, so hurry and buy your annuals. They have been nine dollars through October 31, and they have gone up to ten dollars. The last day to buy an annual will be November 15.

The seventh and eighth grade Muleshoe Mules played a football game in Friona Thursday, October 27. The seventh grade Mules bucked the Friona Chieftains 19-8. The eighth grade Mules were scalped 34-0.

A high school pep-rally was held here at MJHS. Everyone was there, it was FUN!!!!

Once upon a time there was a man who remembered his friend and repaid a favor.

The modern world appreciates results but it is not interested in excuses, good or bad.

If you never advertise, some people will never hear of you, or what you have to offer.

The meek may inherit the earth but, in the meantime, someone has got to keep it running.

It's funny how some people keep chasing society when there's really no such thing.

The good citizen who helps build his community is leaving something worthwhile to his children.

MJHS Students To Attend Convention

Four Student Council members and two alternates have been chosen by Student Council to attend the Texas Student Council convention in Austin, Texas. Mr. and Mrs. Mike Richardson will be accompanying the students to the convention on November 3, 4, 5 1983.

The four members are vice president, Debbie Brown, parliamentarian, Armando Del Toro, Johnny Garcia, 8th grade representative, and Selina Gonzales, 7th grade representative. The two alternates are Jerry Mendoza and Lisa Noble.

ONE MINUTE SPORTS QUIZ

1. Who won the Texas Open Golf Tournament?
2. Who won the LPGA San Jose Classic?
3. Name the only undefeated pro football team after five games.
4. Who won the Holly Farms 400 stock car race?
5. Dan Quisenberry pitches for what pro baseball team.

Answers To Sports Quiz

1. Jim Colbert.
2. Kathy Postlewait.
3. Dallas Cowboys.
4. Darrell Waltrip.
5. Kansas City Royals.

If it took you one second to complete a mathematical calculation, it would take more than 25 years to complete 800 million calculations. A current top-of-the-line American computer can do those 800 million calculations in just ONE second! It's the Cyber 205, from Control Data Corporation, a world leader in supercomputers.

Even that marvelous machine will be obsolete when its "big brother," the Cyber 2XX is introduced a few years from now. Control Data says its "fifth generation" model will operate three to five times faster than the 205. Company experts say it will eclipse new models scheduled for release in the next year or two by other companies here and abroad.

The best way to see that a job is done right is to supervise it personally.

News Media Plays Big Role In Nation

The press has the ability to either hold together the nation during trying times or destroy it, contends a professor of history at Texas Christian University.

As an example, "In the 1930's, the media held the country together. The depression was not a product of the media, but the media impacted upon the depression in a favorable way," said Dr. John Bohon.

"If the movies and the radio had not been around, we would have had a revolution in the 1930s. America today might have been a very different place," he said to a group of TCU Honors students during a recent weekend retreat.

The message given by the Frank Capra movies, Roosevelt's fireside chats, Jack Armstrong and Little Orphan Annie was that the American system might be having rough times, but it works.

"I used to run home at night and turn on Jack Armstrong, the All-American boy; then I'd listen to Don Winslow, the Lone Ranger and Tom Mix. They all had one message, and that was that crime doesn't pay."

Bohon said one of the reasons for this favorable image in the media was that the heads of the big movie studios and the media, such as Sam Goldwyn and the Warner Brothers, were

American immigrants who loved America. But the American public saw the opposite side of the coin during the 1960s and the Vietnam War, said the TCU professor. "While the media didn't start the Vietnamese War of the Civil Rights Movement, it was a catalyst that almost tore this country apart."

One of the major reasons President Johnson would not send more troops to Vietnam after the TET offensive was because of one photograph which was shown on American television, he said. "It was a picture of a North Vietnamese being shot in the head, and you have no idea what this

Mrs. Eagle

Services Held

At Earth

Services for Beatrice Eagle, 86, of Grants, N.M. were held at 2 p.m. Wednesday, Nov. 2 in the Earth United Methodist Church with the Rev. Jimmy Nunn, pastor, officiating.

Burial was in Earth Memorial Cemetery under the direction of Parson-Ellis Funeral Home of Earth. Mrs. Eagle died at 3:30 a.m. Monday in the Good Samaritan Nursing Home at Grants.

She was born April 17, 1897, in Waxahachie and moved to Grants in 1978, from Earth where she had lived since 1940. She was a housewife and a member of the Earth United Methodist Church.

Survivors include seven sons, Jimmy Eagle of Amherst, Claude Eagle of Earth, J.T. Eagle of Pinole, Calif., Marvin Eagle of El Sabrante, Calif., Cecil Eagle of Bakersfield, Calif., J.B. Eagle of Grants, N.M., and Ray Eagle of Milan, N.M.; two daughters, Mrs. Louise Clark of Grants, N.M. and Mrs. Jewel Hawkins of Milan, N.M.; seven sisters; 29 grandchildren; 60 great grandchildren and nine great great grandchildren.

Former Area

Resident Dies

At Hobbs

Services for Florence L. Young, 82, of Hobbs, N.M. were held at 11 a.m. Monday, Oct. 31 in the Ellis Chapel of the Chimes here with the Rev. V.L. Huggins, pastor of the Trinity Baptist Church, officiating.

Interment was in Bailey County Memorial Park under the direction of Ellis Funeral Home. Mrs. Young died at 6:45 p.m. Saturday in the Good Sam Rest Home at Hobbs.

A native of Columbus, Ohio, Mrs. Young was born Nov. 27, 1900, and moved to Hobbs four years ago from the Needmore Community where she had lived since 1948, moving there from Abilene. She married Garland George Young, Jan. 4, 1920, in Hawley. He died in 1975. She was a housewife.

Survivors include one nephew, Zearl Young of Hobbs; one niece, Pat Young of Hobbs.

Pallbearers included: Gordon Wilson, Stanley Wilson, Lewis Wayne Shafer, Randy Marlow, Jessie Ray Carter and Rudolph Moraw.

Mrs. Bolton

Services

Scheduled Today

Funeral services for Ellen Bolton, 79, of Farwell will be held at 4 p.m. today (Thursday) in Ellis Funeral Home Chapel of the Chimes with the Rev. Buster Huggins, pastor of the Trinity Baptist Church, officiating.

Interment will be in Bailey County Memorial Park under the direction of Ellis Funeral Home. Mrs. Bolton died at 7:35 a.m., Tuesday in West Plains Medical Center.

She was born May 8, 1905 in Ryan, Oklahoma, and had been a resident of the Farwell Convalescent Center since earlier this year, moving from Muleshoe where she had lived 20 years. She had previously lived in Oklahoma Lane 38 years. She was a housewife and a member of the Baptist Church of Duncan, Okla. She married Arthur L. Bolton, Oct. 16, 1924, at Duncan. He died in April of this year.

Survivors include two sisters, Mrs. Sarah Payne of Hereford and Mrs. Gladys Sudderdth of San Francisco, Calif.; and numerous nieces and nephews. One daughter, Mary Margaret Bolton preceded her in death.

ELLEN BOLTON

did to the American people," he told the college students.

Another of the most tragic sights recorded in American history by television was that of President

Cotton Use

Reported

COTTON USE REPORTED: Domestic textile mill use of cotton in September at an annual rate of 6 million bales, according to the National Cotton Council.

This was 2.7 percent below the August figure but 16.1 percent higher than the level a year ago.

Although September use did not match the strong August rate, it compares favorably with results for June and July, the Council says. Moreover, September's consumption exceeded the January rate by 7.9 percent.

Cotton's share of total fiber use slipped to 22.5 percent, compared with 24.1 percent in August and 23.1 percent in September, 1982. On the cotton system spindles, cotton's share settled at 60.3 percent, following a 61.1 percent mark in August and 60.5 percent a year ago.

Johnson being held prisoner in the Oval Office, said Bohon. "He could not leave the Oval Office because two blocks away buildings were burning, led by arsonists and looters in the wake of the Martin Luther King assassination. And this was the president under whom more civic rights legislation was passed than any other President in the history of the United States," the history professor pointed out.

Telling others what is best for their own good is the world's least needed business.

Letter To The Editor

Dear Editor:

On November 22, we mark the 20th anniversary of the assassination of President John F. Kennedy. More than 400,000 Americans have been killed in gunfire since his death. Ironically, on this anniversary, Congress is considering legislation which would weaken, not strengthen, America's feeble gun laws.

In 1968, when Congress passed the Gun Control Act, our legislator specifically

prohibited mail-order gun sales because President Kennedy's assassin, Lee Harvey Oswald, used a cheap rifle purchased from a Chicago mail-order house. The weapon was fitted with a telescopic sight, also acquired through the mail.

Less than an hour after killing the President, Oswald killed police officer J.D. Tippit with a .38 caliber handgun acquired from yet another mail-order house.

Now, the National Rifle Association wants to gut the 1968 Act through passage of

the McClure-Volkmer Gun Decontrol Bill (S. 914 and H.R. 2420). This bill would lift the prohibition on mail-order sales and again allow easy access of firearms by criminals and would-be assassins.

This bill must be stopped. Our Congress should not enact legislation which only invites mail-order murder.

Sincerely,
Barbara Lautman

THE HARVEST

"While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease."
Genesis 8:22

The harvest each year should remind us of God's great promise to man. This promise was made right after the great flood, from which only Noah and his Ark survived. Just prior to the flood, all men lived so evilly that it grieved the Lord that he had made man of the earth.

Today the churches stand as a bulwark against evil. Attend church regularly so that never again would man grieve the Lord as before.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long endure and the traditions which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Tamale Pie Is Boon To Budgets

Before holiday spending sprees start, it's good time to think of economical ways with food. View the prospect as a challenge, especially when there's something as tempting as Tamale Pie.

Cheese is an essential ingredient to this main dish pie because it extends the meat-and the protein-while at the same time it adds its naturally good flavor. Real cheese needs only a few minutes in the oven to melt on top in mouth-watering fashion.

Not only does Tamale Pie comprise an ideal dinner for a hungry family, but many hostesses find it an admirable buffet dish when they've invited friends for a casual supper. As an accompaniment it needs only a green or citrus salad, glasses of cold milk or mugs of cinnamon-flavored chocolate. For dessert, why not offer a creamy, old-fashioned pudding with rice and raisins? It can be served warm or cold, depending upon your preference. With light cream or half and half and a light sprinkling of nurgem, the pudding is a satisfying, nourishing dessert.

TAMALE PIE

6 Servings
CORN MEAL BASE:
2 1/2 cups boiling water
1/2 cup cold water,
1 cup yellow cornmeal

Daniel Guerra

Mr. and Mrs. Daniel Guerra of Friona are the proud parents of a son, Daniel, born Oct. 26 in West Plains Medical Center. The couple have one other child, Claudia, four years of age.

Grandparents are Mr. and Mrs. Joe Guerra of Friona and Ralph Cusas of Oklahoma Lane.

Great grandparents are Mr. and Mrs. Mike Perez, Sr. of Muleshoe.

Nicholas Wayne Borrks

Mr. and Mrs. Reggie Brooks of Portales, N.M. are the proud parents of a son born at 5:22 p.m. Oct. 26 in West Plains Medical Center. The young man weighed eight pounds and has been named Nicholas Wayne. He is the first child for the couple.

Grandparents are Mr. and Mrs. Ray Brooks and Mr. and Mrs. Robert Fairfield, all of Lovington, N.M., and Mr. and Mrs. David Haggerton of Ovalo.

Great grandparents are Mrs. Bert Haggerton, Mrs. Johnny Brooks and Mr. and Mrs. John Wheeler, all of Lovington, and Mr. and Mrs. Shorty Buccannon of Comanche.

Pedro Franco, Jr.

Mr. and Mrs. Pete Franco are the proud parents of a son born at 7:28 p.m. Oct. 26. The young man weighed seven pounds three ounces and has been named Pedro Franco, Jr. He is the couple's first child.

Grandparents are Rafail and Maria Franco of Muleshoe and Mary Gomes and Roben Neavez of Eden.

Great grandparents are Benny and Cruz Torres of Muleshoe and Macimo Mirales of Mexico.

Anthony Anguiano

Mr. and Mrs. Ismael Anguiano are the proud parents of a son, Anthony, born at 9:20 a.m. Oct. 26.

Anthony weighed six pounds 14 ounces. The couple has one other child, Ismael Joseph, 22 months old.

Grandparents are Monuel and Theresa Pineda and Lupe and Juan Anguiano.

1 teaspoon salt
MEAT SAUCE:
1 pound lean ground beef
1/2 cup chopped onion
1 clove garlic, minced
1/2 cup chopped green pepper
1 can (16 oz.) tomatoes
1 can (7 oz.) whole kernel corn, drained
1 teaspoon salt
1/8 teaspoon pepper
1 tablespoon chili powder
1/3 cup yellow cornmeal
1/3 cup water
1/2 cup chopped ripe olives
1 cup (4 oz. shredded Cheddar cheese
For cornmeal base, boil

Space Heater

Use Requires

Caution

With the arrival of cold weather, people with portable heaters perform the annual ritual of removing them from storage and setting them up.

Special care is needed in setting up and checking gas heaters because of the open flame and possibility of fire, says the Texas Medical Association.

Southern Union Gas Company provided these safety tips for using gas space heaters:

--Check the air valve on the burner to make sure no lint or animal hair has accumulated there.

--Make sure the burner is not clogged. A clogged burner may produce carbon monoxide, a poisonous, odorless gas.

--When lighting the heater, follow the manufacturer's instructions to the letter. And strike the match before turning on the gas.

--Keep flammable items like drapes and furniture away from the heater.

Additionally, for unvented heaters:

--Replace any radiants (the glowing parts) that are broken, chipped, or missing.

--Make sure there is adequate ventilation by leaving windows open slightly to prevent possible carbon monoxide buildup.

--Have the heater checked by a licensed heating contractor, plumber, or the local gas company if you are not sure of its safety.

For vented heaters, make sure the vent is not obstructed by a bird nest or other object.

The Texas Medical Association also encourages parents to keep children away from a gas space heater and to instruct them not to touch the controls. A barrier around the heater helps keep children and pets from bumping into it.

water in heavy sauce pan. Combine cold water, cornmeal and salt. Slowly pour into boiling water, stirring constantly. Return to boil, stirring constantly. Cover and cook 5 minutes. Pour into well buttered 11 3/4 x 7 1/2 inch baking dish. Use back of spoon to push cornmeal mixture, lining bottom and sides of dish. For meat sauce, brown beef, onion and garlic. Drain off drippings. Add green pepper, tomatoes, corn, salt, pepper and chili powder. Cover; simmer 10 minutes. Blend cornmeal with water; stir into meat mixture. Cook until mixture boils and thickens. Stir in olives. Pour meat mixture onto cornmeal base. Bake in preheated 350 degree F. oven 20 minutes. Sprinkle cheese in diagonal rows over top of casserole. Bake an additional 5 minutes.

STEAMED RICE PUDDING

5 to 6 Servings

3 cups milk
1/2 cup short or plump tender grain rice, uncooked
1/2 teaspoon salt
3/4 cup raisins
1/4 cup sugar
2 teaspoons vanilla extract
Nutmeg
Light cream OR half and half

Bring milk just to a boil in the top half of a 1 1/2 quart double boiler. Add uncooked rice and salt. Cover and cook over boiling water 1 hour, stirring frequently. (Add additional water to bottom pan if needed.) Stir in raisins, sugar and vanilla. Serve warm or cold. To serve, spoon into individual dessert dishes, sprinkle with nutmeg and pour cream over each serving.

OSCAR BOUNDS

Uvalde Businessman Buys 2,000 Muleshoe Pumpkins

A Uvalde businessman, Oscar Bounds, was in Muleshoe, the Pumpkin Capital of the United States, last week and took home more than 2,000 pumpkins,

weighing 30,000 pounds to be sold at Oscar's Ranch Market located at 200 E. Main in Uvalde. Pumpkins grow exceptionally well in the red soil of west Texas and pumpkins from Muleshoe are shipped all over the country.

Bounds reported that the pumpkins weigh about 10 pounds, but some weigh as much as 48 pounds. He is selling his approximately 2,000 pumpkins for 15 cents per pound.

Despite hailstorms in the West Texas area, the pumpkin crop was plentiful this year. And, Bounds added, he is selling more and more pumpkins each year.

But, Bounds points out, pumpkins aren't just for Halloween. They are also a part of Thanksgiving and Christmas decorating and baking. And, while Bounds sells most of his pumpkins during this time of year, he sells them through March or April.

Uvaldeans use their pumpkins to make pies, bread, candy and the popular Mexican fried pies, empanadas.

Pumpkins can keep for at least four months if protected from freezing and

kept in the shade. "The Indians on the New Mexico reservations keep pumpkins from season to season because the fruit doesn't freeze in the adobe houses," Bounds said.

Originally from Harlingen, Bounds opened Oscar's Ranch Market in Uvalde six years ago. He handles mostly citrus produce from the Texas Valley where he owned a couple of citrus orchards before moving to Uvalde.

Free Arbor Day Kits Available Now

To help Texas teachers and organizations conduct Arbor Day programs, the Texas Forest Service is offering free program kits.

Each kit includes a job-lolly pine seed packet with planting instructions, program aids for a local Arbor Day observance, suggested classroom activities for teachers, and a copy of Governor White's proclamation.

Quantities are limited. Only one kit per teacher, group or organization will be distributed.

Arbor Day, to be observed this year on January 20, 1984 in Texas, has been an annual celebration in Texas since 1889. The event is to

promote a greater appreciation of the beauty and value of trees and forests. The 1984 official state observance will be held in Grand Prairie.

Program chairpersons and teachers should address requests for Arbor Day kits to the Texas Forest Service, College Station, Texas 77843. Distribution, on a first-come, first-serve basis, will begin in mid-November.

In Fashion

For evening sweaters are more glamorous. A yoke of mirrored paillettes enhances a white sweater for holiday parties. Shimmering diamond-type sparkles are seen on black, Mohair sweaters.

GOLDEN ANNIVERSARY RECEPTION... Mr. and Mrs. Sherman Inman will be honored with a 50th wedding anniversary reception Sunday, Nov. 6 from 2 until 4 p.m. at the Bailey County Coliseum, hosted by their children, Marlon Inman of Farwell, Jerry Inman of El Paso and Judy Tonelli of Boston, Ma., Inman and the former Beatrice Hammonds were married Feb. 10, 1934, in the Baptist parsonage at Tahoka. They lived in Tahoka two years, Crosbyton two years, O'Donnell 12 years and have lived in Muleshoe 34 years. Inman is a retired farmer. The inman's also have four grandchildren, Ron Inman of Nacogdoches and Suzahn Inman of Farwell, Sharon Inman and Brent Inman, both of Abilene. All friends and relatives are invited to attend. The family requests that your treasured memories compiled in their book be your only gift.

Facts To Inspire Taking Care Of Your Lungs

When the American Lung Association of Texas--The Christmas Seal People--say, "Take care of your lungs. They're only human," the warning is backed with facts.

According to the Lung Association seventy-three million American men, women and children report suffering from chronic respiratory disease. And many other millions suffer from acute, or short-term respiratory ailments. The total cost of these diseases to the U.S.A., including lost work days and medical costs, is \$48.8 billion a year.

Over 17 million people suffer from Chronic Obstructive Pulmonary Disease (COPD), which includes: 2.5 million persons with emphysema, 7.8 million with chronic bronchitis; and 6.8 million with asthma.

Asthma, furthermore, continues to be the most common chronic childhood disease and one of the leading causes of school absenteeism. Over 8 million days of school are lost each year due to asthma-associated illnesses. Over 2 million people with asthma in the United States are children under 17 years.

There are an estimated 1,000,000 people in Texas who have one or more chronic respiratory diseases.

Avoidable lung diseases include some of the 129,000 newly diagnosed cases of lung cancer in the United States last year and an estimated 7,000 new cases in Texas. Long-term follow-up studies of people with lung cancer find 75 percent of lung cancer cases attributable to cigarette smoking.

Respiratory diseases are treatable through proper medical care and self-help, and some, such as lung cancer and pneumoconiosis, may be avoidable altogether. That's why the Lung Association wants to alert every individual to the importance of taking an interest in lung health.

While some respiratory diseases may seem unfamiliar, there are 15 million Americans with hay fever and there were 126 million

cases of the common cold last year.

With the support of Christmas Seal contributions, the American Lung Association of Texas fights smoking, air pollution and all lung diseases year-around. Its patient and family education programs include FREEDOM FROM SMOKING--self-help manuals for adults who are ready to quit; SMOKING AND PREGNANCY--a health education, self-help package aimed at motivating pregnant mothers to quit smoking; SUPERSTUFF--a self-help kit of games, puzzles and stories for the child with asthma and his family; lung health education for school children; and research in lung disease cause, treatment and prevention.

You can support the work of the American Lung Association of Texas, 7701 N. Lamar, Suite 104, Austin, Texas 78752-1088.

For information about your lungs contact the American Lung Association of Texas, 7701 N. Lamar, Suite 104, Austin, Texas 78752-1088.

FACTS & FIGURES

Nearly one out of five replacement passenger car tires sold is a retread. Ninety eight percent of the world's airlines use retreaded tires. So do nearly 100 percent of off-the-road, heavy-duty vehicles. Retreads are used on everything from federal and military vehicles to school buses and race cars.

The cost of a retreaded passenger car tire is 50 to 70 percent of the cost of a new tire. Truck retread savings are greater. In 1983, this will mean more than \$2-billion in savings to consumers.

Apple Cinnamon Hot Natural Cereal cooks up quick and delicious from a favorite ready-to-eat cereal.

Natural Cereal Becomes A Hot Idea For Fall

When nippy nights turn into chilly mornings, it's hot cereal season again. But look no further than your own kitchen cupboard when the urge for something quick and satisfying strikes you. If you have 100% natural cereal on hand, you can turn it into a delicious hot cereal, too.

It's really not such a surprising suggestion when you consider what's in natural cereal -- rolled oats and rolled whole wheat. They're the basis for some very popular hot breakfast cereals. But, what makes natural cereal taste so good hot is the shredded coconut, crunchy almonds, honey and other natural ingredients that are also included.

According to the Quaker Test Kitchens, you can make a hot natural cereal in a matter of minutes -- either in a saucepan or in your microwave. Remember though, with a microwave oven, foods keep cooking a minute or so even after you've removed them from the oven. So, wait just a minute, and then stir the cereal again before serving.

Here are two single serving recipes just for yourself, or make the four serving variation for the family -- so you know they're off to a good start, too!

- Apple Cinnamon Hot Natural Cereal**
- 1/4 cup Quaker 100% Natural Cereal, any flavor
 - 1/4 cup apple juice
 - 1 tablespoon finely chopped apple
 - 1 teaspoon butter or margarine
 - 1/2 teaspoon firmly packed brown sugar (optional)
 - Dash of cinnamon
- For 1 serving: In heavy 1-qt. saucepan, combine all ingredients. Bring to a boil

Reduce heat; simmer about 1 minute or until desired consistency, stirring frequently. Serve at once with milk, if desired.

For 4 servings: Increase cereal and apple juice to 1 cup each. Increase chopped apple to 1/4 cup, butter to 1 tablespoon, brown sugar to 2 teaspoons and cinnamon to 1/8 teaspoon. In heavy 2-qt. saucepan, combine all ingredients. Prepare as directed above, simmering about 2 minutes.

MICROWAVE OVEN DIRECTIONS (For 1 serving): In 2-cup microwavable bowl, combine all ingredients. Cook at HIGH 1-1/2 minutes; stir. Let stand 1 to 2 minutes or until desired consistency.

- Maple Nut Hot Natural Cereal**
- 1/4 cup Quaker 100% Natural Cereal, any flavor
 - 1/4 cup milk
 - 1 teaspoon maple flavored table syrup
 - 1 teaspoon chopped nuts
 - 1 teaspoon butter or margarine

For 1 serving: In heavy 1-qt. saucepan, combine all ingredients. Bring to a boil over medium-high heat. Reduce heat; simmer about 1 minute or until desired consistency, stirring frequently. Serve at once with additional milk, if desired.

For 4 servings: Increase cereal and milk to 1 cup each. Increase syrup, nuts and butter to 1 tablespoon each. In heavy 2-qt. saucepan, combine all ingredients. Prepare as directed above, simmering about 2 minutes.

MICROWAVE OVEN DI-

RECTIONS (For 1 serving): In 2-cup microwavable bowl, combine all ingredients. Cook at HIGH 1-1/2 minutes; stir. Let stand 1 to 2 minutes or until desired consistency.

On Hand
Diner--By gosh, this is excellent hash. What's your recipe for making it?
Cook--I have no recipe. It just accumulates.

Not That Way
An Irish bricklayer was on the top of the partly-built house, and houted to the foreman that he could not find his way down to the ground.
"You fool--come down the way you went up," shouted the foreman.
"Not on yer life. I came up head first," the Irishman yelled back.

ONE MINUTE SPORTS QUIZ

1. Name the teams in the World Series.
2. Franco Harris plays pro football for what team?
3. What are the colors of the Olympic rings?
4. In what year did Jim Plunkett win the Heisman Trophy?
5. How many World Series games did Whitey Ford win in his pitching career?

Answers To Sports Quiz

1. Philadelphia Phillies and Baltimore Orioles.
2. Pittsburgh Steelers.
3. Blue, yellow, black, green and red.
4. In 1970.
5. 10 games.

Local banks released their quarterly bank calls this week with banks in the area showing deposits up over last year at this time.

Bankers reported that the increase in deposits are due

mostly from good crops last year and good crops again this year.

Avoid Tap Water Scalds

Tap water that's too hot can be hazardous to your health, says Dr. Mary Ann Heussner, a health education specialist.

Each year, thousands of people are scalded by tap water, says Heussner, who is with the Texas A&M University Agricultural Extension Service.

Those most likely to be scalded are pre-schoolers, the elderly and handicapped.

According to Heussner, tap water scalds are usually more extensive than other burns because many occur in the bathtub or shower where larger portions of the body are exposed at one time to the hot water.

"Small children and the elderly or handicapped may be unable to react quickly enough to get out of water that is too hot before it scalds," says the specialist.

"Hot water burns don't have to happen," she says, "if homeowners will simply lower the temperature of the water in their hot water heaters." Most safety measures require repeated actions, but turning down a hot water heater only takes a

few minutes and only has to be done once, she adds.

Gas water heaters are easy to turn down because the temperature control is on the outside of the heater. Most control dials are marked "hot" and "warm". The midpoint mark between hot and warm on the dial is pre-set by manufacturers at 140 degrees F.

At this temperature, a third degree burn takes only five seconds of contact, says Heussner.

The safest place to set the dial is in the middle of the word "warm," which should be about 125 degrees F. At this temperature it would take more than a full minute of exposure to get a severe burn.

Electric hot water heaters have a more exact control with an adjustable temperature range of 110 to 170 degrees F.

This control is inside the cover plate of the heater. Lowering the thermostat requires turning off the electric power, removing the cover plate, adjusting the thermostat, replacing the cover and turning the power back on.

Turning down the thermostat in either a gas or electric tank will not guarantee the water temperature, since it can vary within the tank by as much as 15-25 degrees, cautions the specialist.

But homeowners can test their tap water temperature by using a water, candy or meat thermometer. Run the hot water for 3-5 minutes before letting the water run on the thermometer tip. If the temperature is 130 degrees F or more it's too hot and the hot water heater control should be turned down.

Some people become concerned that lower water temperature will decrease the sanitation in their homes.

"But it should be remembered that the spread of illness occurs mostly from touching or personal contact and by breathing cough and cold germs. Laundry and dishes are not significant disease spreaders," Heussner says.

As an added precaution, disinfectant such as chlorine bleach can be added to the laundry water if there is an illness or young children in the home, she adds.

Building Family Budget

Many people think living on a budget is like going on a starvation diet.

But a budget is simply a financial plan that enables families to achieve financial security and reach their goals, says home economist Nancy Granovsky. "Actually, a budget is more like a road map for charting where you want to go than a spending diet," she adds.

According to Granovsky, a specialist in family resource management for the Texas A&M University Agricultural Extension Service, families can develop a livable, non-constricting budget by following these steps:

First, examine past spending patterns for at least two to six months. Use old receipts, check-stubs or other records to show where the money has gone and how much has come in during the same period. Or, keep close records for two to three months.

Then determine what percentage of spendable income has gone for major categories such as housing, utilities, transportation, non-mortgage credit payments, health care, food and clothing. If more than 25 percent goes for "miscellaneous," you will need to keep better records for a while in order to track your spending, says the specialist.

Now you are ready to project ahead, using your past financial records as a guide.

Estimate total spending during the budget period, being sure to include expenses like insurance payments that come due only occasionally. On a monthly budget, estimate these occasional costs at 1/12 of the annual cost so you will not be caught short when payments are due, she cautions.

Also project income from all sources during the budgeting period.

Next, bring projected spending and projected income into balance. Some expenses might have to be reduced to make the financial plan balance or you will need to find additional sources of income.

Making decisions about where to reduce spending and how to do it should be

easier because you now have a clear picture of where your money is going, says the home economist.

Once you have a budget plan, develop a simple record keeping system to keep track of expenditures and income during a trial period for the budget.

"Give the budget and record-keeping system a fair chance to work," says Granovsky, "but if it isn't working, don't be reluctant to make an adjustment." A liveable budget must be realistic and flexible, she notes.

One of the best things about the budget process is that it gives families the chance to discuss and establish long-term and short-term financial goals, says the specialist.

Goals like obtaining financial security or saving for Christmas gifts, a downpayment, a new car or college tuition can be achieved by small actions over a long period of time. But families must plan their financial actions to achieve those goals, says the specialist.

Disaster Report

Cont. From Page 1

Out of 597 farmers in Bailey County, at least five now reflect an 80 to 89 percent loss. Ten of these farmers reflect a 70 to 79 percent loss; twenty farmers reflect a 60 to 69 percent loss. The previous losses listed are new additions to the damage assessment report.

Also where thirty farmers in the county had previously reported to have sustained losses from 50 to 59 percent; now fifty farmers fall into that category. Fifty-five farmers are estimated to have sustained losses amounting to between 40 and 49 percent, where only 35 had previously been listed in this

UIL...

Cont. From Page 1 in the district.

Abernathy was dropped from 2-3A, while Lockney was dropped from 3-3A and Childress was moved from 3-3A to 2-3A.

Districts 3-3A and 4-3A were consolidated into a new, eight team district, made up of Brownfield, Denver City, Cooper, Roosevelt, Post, Seminole, Slaton and Frenship. Bovina and Springlake-Earth were moved to 3-2A district.

Local 1A districts were also realigned, with Farwell and Kress dropping into 2-1A. The new 2-1A alignment includes teams from Anton, Amherst, Claude, Farwell, Happy, Kress, Lazbuddie, Nazareth, Sudan, Sundown, Vega and Whiteface. This is three teams less than last year, but will still be enough to split the district into two zones.

Columbia launch postponed until November 28.

Arizona Can Upset Rose Bowl Dibs

Arizona can't go to the Rose Bowl, but Washington can. However, Arizona may have a lot to say whether the Huskies or someone else goes. The Wildcats from Tucson host Washington on Saturday, U.C.L.A. next Saturday, and on November 26th, they meet Arizona State. All of the Wildcats' final three opponents are in contention for the Rose Bowl and Pac-10 title. U.C.L.A., which did a 24-14 number on Michigan last New Year's day, tied Arizona State in September. The Bruins played Washington last week. The Sun Devils could possibly win it all by beating Arizona on the 26th. However, don't count Oregon out of the picture, the Ducks upset Arizona two weeks ago 19-10. With four weeks to go, it's still confusing - and, anybody's Rose Bowl. This week, Washington is favored to nip the Wildcats.

There are a number of faces in the Southeast Conference title picture, but Georgia, Auburn, and Florida are the most prominent at the moment. And the Georgia Bulldogs can control their own fate as they meet the two contenders back-to-back this week and next. Florida, after its big one last week with Auburn, gets the first shot at Georgia, the defending champion, Saturday. Auburn goes outside the league to tackle Maryland in a game that is almost a toss-up. In Jacksonville, it'll be Georgia just slipping by Florida.

Pittsburgh and Notre Dame should be coming into their match-up in South Bend this week with identical 6-2 records. The Panthers played Syracuse last Saturday, the Irish hosted Navy. Between them, through seven games, they had allowed just 80 and 69 points respectively. The winner: Notre Dame.

Nebraska's powerful offense rolled up 406 points through eight games while

CONVICTED

TOKYO -- A Japanese court found former Prime Minister Kakuei Tanaka guilty of accepting more than \$2 million in bribes to promote the sale of Lockheed aircraft in Japan.

INDICTED

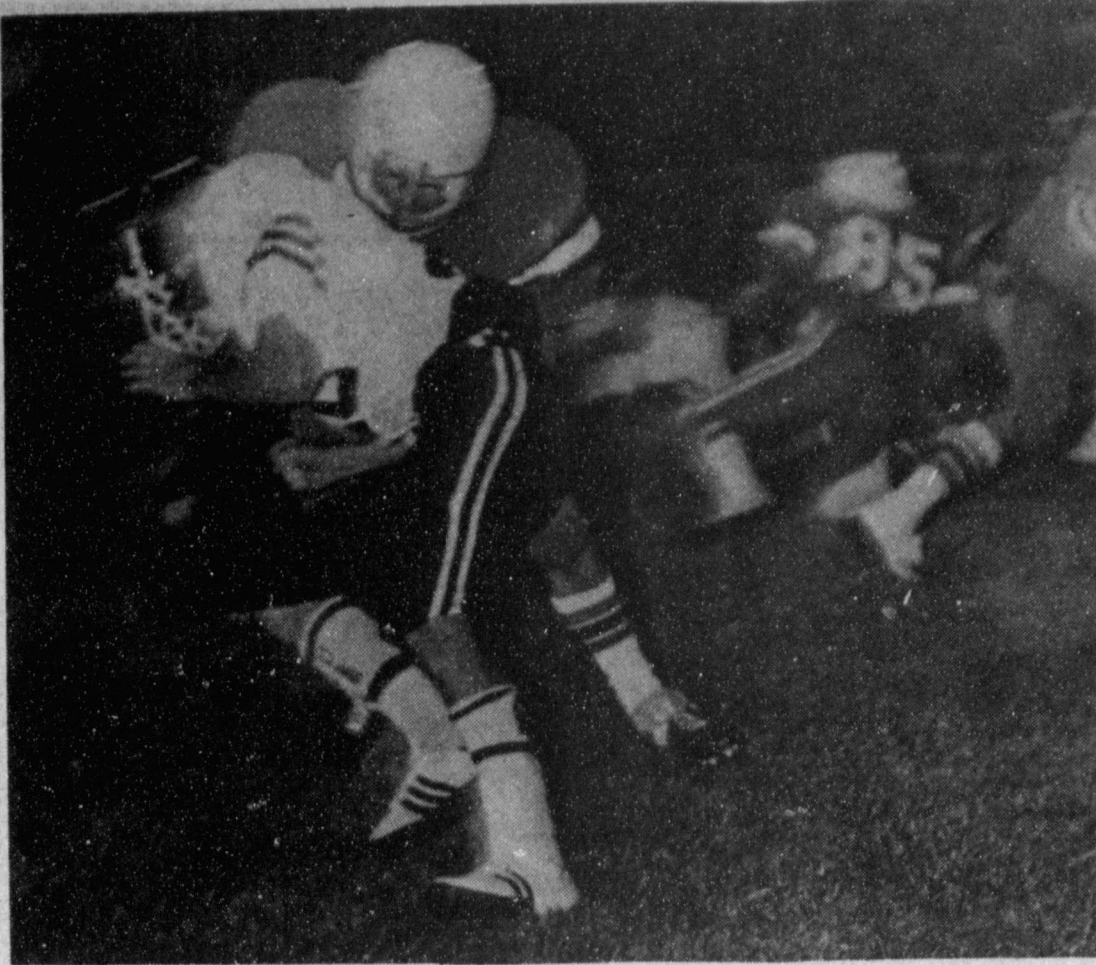

KANSAS CITY, MO. -- Fifteen men, including several reputed organized crime bosses, were charged recently with skimming nearly \$2 million from Las Vegas casinos.

category. Two hundred farmers now are shown with production losses from 30 to 39 percent, revised from 100 farmers in previous assessments. A total of 157 farmers with production losses ranging between 20 and 29 percent were recorded in the latest assessments, replacing the 250 farmers listed in the previous report. One hundred farmers listed less than 20 percent losses in the most recent assessment, as compared to 182 farmers in previous reports.

As previously stated, the outcome of these disaster assessments will be to allow farmers in counties suffering a qualifying amount of disaster loss to be eligible to obtain FmHA operating loans for 1984 at a rate of five percent interest. While no designations have been made as to which counties may be eligible, there is a possibility that a state-wide disaster program might be implemented, according to officials.

In the Sunday, October 30 Bailey County Journal, an ASCS news story indicated that producers who had loans on cotton, grain sorghum, corn or wheat in the ASCS office should pick them up and redeem them by November 30; however, the November 30 date only applies to wheat.

Each commodity must be picked up and redeemed by the individual deadline dates set. Those dates for PIK entitlements are: wheat - November 30, 1983; corn and grain sorghum - February 29, 1984; and cotton, March 15, 1984. Bailey County ASCS Executive Director Danny Noble reminds all producers to keep these dates in mind.

A TOUGH MULE DEFENSE... #30, Smiley Orozco, puts a tough defensive block on a Friona Chieftain in last Friday night's rout of the Chiefs by the Mules by 9 to 3. The Mules meet Tulia this Friday in a "must win" situation, in order to maintain their bid for a place in the playoffs.

Contest...

Cont. From Page 1 each. At this point we can't count anyone out, since there are several games to go yet.

Previous winners who have ten points each include Bobby Gleason, Kathleen

Rotary...

Cont. From Page 1 director stated that PIK cotton entitlements for Bailey County were scheduled to be received in the local office by November 15, with a December 1 target date for mailing to local producers who are eligible for the entitlements.

Noble also discussed the recent damage assessments on the rain and hail which struck the County in mid-October, giving percentages of crops destroyed in the countywide area. He indicated that it might be possible that a state wide disaster program would be implemented in the future.

Randy Field was in charge of the program for the Tuesday meeting.

Hayes, Sam Whalin, Gerald Shanks, Jo Wood and this week's winner Ina Dennis.

Let's really get down to business folks, and get your entries in. Even if you have not previously entered, you still stand a chance to walk off with the contest if you figure it closely enough. Get those papers down and study them and try to come up with the upsets that have been causing so much trouble. You could have the winning entry next week.

Also, the Muleshoe Mules will play the Tulia Hornets beginning at 7:30 p.m. this Friday night in Benny Douglass Stadium, with a playoff berth at stake. Get out and back the Muleshoe Mules in this "must win" game and show them how proud you are of them. These kids have been giving their all all season long - it's time we showed them how much we think of them. Winner of the game will play Perryton on November 11th, at a destination as yet undecided. Remember - 7:30 p.m. Friday - Benny Douglass Stadium - Be there. GO BIG MULES - BEAT TULIA.

Busses...

Cont. From Page 1 good investment for the district and an excellent way for local and state governments to work cooperatively.

Chamber...

Cont. From Page 1 guide service or who would give permission for their land to be hunted should contact the Chamber at 272-4248, or come by their office in City Hall at 215 South First.

AAM...

Cont. From Page 1 ment, and Wayne Cryts of Puxico, Missouri. Jim Hightower, Texas Commissioner of Agriculture will be present to speak to the membership.

All members, agribusiness, and all interested persons are urged to attend. For further information call V.B. Morris at 806-733-2203 or Arnold Schwertner at 806-983-2978.

Football Preview

Cont. From Page 1

Hornets are pretty good on offense, with Swinburn as quarterback and a couple of good, quick receivers. The Hornet's overall size is not that big, but they have a couple of tough customers in tackles Randy Ferguson and E. Shelton, who top out over 200 pounds each.

Wilson reported to the Journal that workouts had been exceptional this week, and his team was really "up" for the game. "This is just like going into a completely new season in a way, since this one ballgame will determine a district playoff slot. The Tulia head coach thinks that the game will be a real defensive effort on both sides. "We've just got to be able to play with the Mules, and control the ball at least a part of the time," Wilson commented.

Wilson also had criticism for the UIL realignment, much in the same way as Windy Williams did. "This puts us back to an open date again, and sometimes that can be a good thing, but it can also be bad. Open dates

are nice when you need to recover from injuries, but they are bad when they upset a team's momentum," Wilson said. With the assumption that Littlefield will win over Friona, the winner of the game this Friday between Muleshoe and Tulia will be likely to play Perryton the following week in the playoffs.

So, with this in mind, all of you Mule Fans, get out the flags, horns, blankets and your black and white duds and come on out to Benny Douglass Stadium at 7:30 Friday and get behind

the hometown boys as they make their bid for a district title.

The Muleshoe Junior Class will serve their annual Thanksgiving Supper beginning at 5 p.m. on Friday, November 4 in the High School Cafeteria, serving will continue until 7 p.m. and prices are \$4 for adults and \$2.50 for children under 12.

BACK THE MULES FOOTBALL CONTEST

1st \$6
2nd \$3 **3rd \$2**

CONTEST RULES:

1. Pick the winner of each of the games contained in the advertisements on this page. Write the name of the teams you think will win opposite the game number in the blanks provided on the official contest blank.
2. The contestant must be 12 years of age or older.
3. Only one entry per person may be made for any one contest.
4. Bring you entry blank by The Journal office by 5:30 p.m. Friday, or, if mailed, the entry must be postmarked not later than 5:30 p.m. Friday. Write "FOOTBALL CONTEST" on mailed entry, and mail to P.O. Box 449, Muleshoe, Tx. 79347.
5. Pick and write in the score of the tiebreaker game. This score will be used to break weekly as well as grand prize winners. Decision of The Journal's scoring judges will be final.
6. Check the team you think will win; 10 points for first place, 6 points for second place and 4 points for third place.
7. To count for grand prize, entries must be on official blank printed in the paper.

Grand Prize \$100

Pace Slackens For Law Enforcement

Law enforcement agencies in Muleshoe and Bailey County were semi-quiet last week. Several fender-benders were reported along with the usual array of offenses in both the Police Department and the Sheriff's office.

On October 30, city officers arrested Carlos Diaz, after his behavior was observed at a late hour. He was charged with alleged public intoxication and transported to the County Jail pending bond.

Juan Soliz was arrested on October 29 on Main Street, after he was observed by officers. Soliz was transported to the county jail where he was charged with alleged public intoxication and placed in jail, pending bond.

On October 26, Pay and Save Grocery reported the theft of merchandise under \$20. According to reports, a juvenile had allegedly taken a can of snuff without paying for it, and was seen by witnesses. The juvenile was turned over to Keith Madole, County Juvenile Officer, and the snuff was returned to the store.

Gerald Reid reported an arson attempt to the City Police on October 23. Investigation revealed that the suspects had entered an unlocked door at a residence at 211 West 10th and started a fire by pouring gasoline on the floor and carpet and lighting it. Officers said that the extreme heat and pressure blew windows out of the house. No suspects were named, but the investigation is continuing at this time.

On October 29, Jerry Hernandez, manager of Serve-All Thriftway, reported a theft of meat, amounting to \$21.94 from his store. Witnesses said that the suspect allegedly put three packages of meat into a

Annual Pep Celebration

Plans Underway

Plans are underway for Pep's 38th Annual Thanksgiving Day Celebration to be held in St. Philip's Neri Parish Hall at Pep, on Thanksgiving Day, Nov. 24, 1983.

"The famous Pep Sausage, turkey and all the trimmings will be served from 11:00 a.m. till 5:00 p.m.," says Mrs. Frank Sinnacher, publicity chairman. Adult plates are \$5.00 and children under 12 \$3.00. Carry out plates are priced at \$5.25.

A Country Store and Carnival attractions during the day will provide family entertainment. An auction will be held at 4:30 p.m. in the Parish Hall dining room.

A country and western dance starting at 9:00 p.m. will conclude the days activities for the 1983 celebration.

For more information call 933-4344 or 933-4696.

Muleshoe...

Cont. From Page 1
played by Muleshoe Motor Co. for 35 years before joining the Bailey County Sheriff's office. He first went to work for the late Neal Rocky at the "Crossroads" location. However, Edmiston said Rocky was the first Ford dealer in Muleshoe, establishing the dealership in Muleshoe in 1927.

Rocky first established the Ford dealership on Main Street, and later moved to the "Crossroads." In 1957 or 1958, Rocky purchased the Mercury dealership from Brown and Watkins, and that was the last change until this November.

Hurst...

Cont. From Page 1
after mid-term.

Hurst said that the store's plans are to carry a good line of men, women and children's ready-to-wear, as well as shoes. "We don't plan to get into the work clothes line, but we will try to carry what the people of the area want," Hurst stated. The store will also carry a line of costume jewelry.

A grand opening and sale is planned in January for the store. Approximately four to six employees will be hired to operate the store.

legally parked.

On October 7, Zida Black was involved in an accident with Georgia Pena after the Black vehicle which was making a turn, failed to see the Pena vehicle.

On October 7, Michael Wilinson was involved in an accident with a parked auto belonging to John and Norma Carrion. The Wilinson vehicle was backing out of a drive way and backed against the street, hitting the Carrion vehicle which was parked on the other side of the street.

In the Bailey County Sheriff's office some arrests were recorded over the last week, however the number was slight compared to weeks past.

On October 22, officers arrested Narciso Gauna on a Lamb County warrant. He was released however after paying a fine of \$72.40.

Lee Edward Murphy was arrested on October 28 on a charge of alleged driving with license suspended. He spent three days in jail, paid a \$50 fine, plus \$81 in court costs for a prior driving with license suspended before he was released.

On October 29, Juan Soliz was arrested on a charge of public intoxication. He was released after posting a \$75 bond. Also on October 30, Carlos Diaz was arrested on an alleged public intoxication charge and was released after posting a \$75 bond.

On October 30, Johnny Zapata was arrested on an alleged public intoxication charge and was released after appearing in JP court and paying \$156 fine.

On October 30, DPS officers arrested Robert H. Gardner on a charge of alleged driving while intoxicated. He was released later on a \$500 cash bond.

OUTPUT INCREASES

The output of the nation's factories rose a robust 1.5 percent in September while inflation at the wholesale price level eased on the strength of close-out discounts of 1983 model cars and lower gasoline prices the government reported recently.

GOOD NEWS?

President Reagan's science adviser, George A. Keyworth II, says the United States should be able to test-fire a ground-based laser weapon capable of knocking out Soviet satellites "before the decade is out."

Area Still Awaits First Fall Freeze

Although some areas of the High Plains received freezing temperatures a month ahead of normal (Sept. 21), most of Texas is still awaiting the first fall freeze.

Just when this will occur at any given location is always cause for speculation, but a knowledge of past weather records can help narrow the possibilities, says Mickey Flynn with the National Weather Service's Southwest Agricultural Weather Service Center.

According to the information released, in the South Plains area, in one out of ten years, a freeze would have already occurred as early as

October 14. An average date in five of ten years would be October 30. Chances for a late freeze in nine of ten years, shows that a freeze would be possible by November 5 over the South Plains.

In the Panhandle region, in one out of ten years, the freeze would have occurred by October 11th for an early freeze. The average date in five of ten years in the Panhandle would be on October 25. Late freezes in nine of ten years would be recorded on or by November 5th in the Panhandle.

These figures were developed from different probability levels for freeze oc-

currence and the dates that these levels are generally reached, based on past temperature records.

Information shows that across Central Texas, in one out of 10 years, a freeze would have already occurred. In half the years, central counties will usually see a freeze on or before November 15. It's almost 90 percent sure that a freeze will have already been recorded by December 3, says Flynn.

Current National Weather Service extended weather outlooks suggest a pretty good chance for an early freeze over areas of the High Plains that have not yet had a freeze, notes Flynn. Early freezes may also occur over the southern half of the state, while elsewhere, first freezes should occur close to normal dates.

Flynn says this information should be useful to far-

mers awaiting a freeze to aid natural drying of sorghum before harvest and to defoliate cotton for a cleaner picking. It should also point out to peanut growers that peanut digging schedules will need to match temperature forecasts with curing periods.

In addition freeze schedules should alert you to when you'll have to winterize trucks, tractors and irrigation equipment. And cattlemen will have to start thinking of the problems a frost or freeze will bring to livestock grazing sudan and sorghum crop residues, notes the meteorologist.

ONE MINUTE SPORTS QUIZ

2. Rick Dempsey, Oriole's catcher.
3. Don January.
4. Golf.
5. The U.S. over Europe.

Shamir sworn in as Israel's 7th prime minister.

Educational Program Initiated In Muleshoe

One of many questions soon to be considered by students at Muleshoe High School is, "What is the impact of trade restrictions on inflation?" The discussion will be triggered by their participation in the award-winning educational program, *Economics For Young Americans*, being provided through the combined efforts of Muleshoe State Bank and the Muleshoe Chamber of Commerce and Agriculture.

This approach to economics for young adults was developed and field-tested by educators for the Chamber of Commerce of the United States.

Introduced six years ago when the initial phase—presenting four aspects of economics—was created, the program has expanded in both scope and outreach due to the increasing demand from both the academic and business communities for guidance in the economic education field.

Twelve timely subjects have been included in the three phases of *Economics For Young Americans*. They include such basics as competition and productivity, as well as job preparation and resume writing. The U.S. Chamber estimates that over 12 million students have been exposed to the economic concepts introduced in the multimedia material.

Filmstrips, cassette sound

tracks, illustrated scripts, detailed teaching guides, and student worksheets comprise the popular program.

The wide acceptance of the program by teachers is illustrated by Glen Johnson, Social Studies teacher at North Junior High School in Joplin, Mo., who is enthusiastic about the preparation of the materials and the response of the students. He explains: "This material is fantastic. The quality is excellent, the art work is good on the slides, the tape is clear, the charts are good and easily understood. A highlight of the program is classroom visits by local business leaders who relate the program's concepts to their personal enterprise experiences. Lively discussions usually occur, and both the business people and the students report increased insight as a result."

Sponsored by the Muleshoe State Bank, the distribution of *Economics For Young Americans* is being arranged through the Muleshoe Chamber of Commerce and Agriculture.

Business ethics will improve when the public applauds a man for not making profit his sole aim in all transactions.

SUPER HARVEST SPECIALS

October closeout specials on John Deere
40 Series tractors: finance charge waiver to March 1, '84, or up to \$1,550 in lieu of waiver

We have a dwindling supply of 40 Series tractors, the most popular John Deere ever offered. So if you want a certain model, now's the time to act.

Year-end is not far away. Buy a new 40 Series tractor now and you can still take advantage of investment tax credit (ITC) and depreciation for 1983. Buying now will improve your field efficiency and head off possible breakdowns with your old tractor. Plus, the 40 Series will perform right along with higher-priced competitors.

And look at this. During October if you finance your new tractor with John Deere you'll save \$100s or even \$1,000s. Because tractors bought by October 31 are eligible for finance-charge waiver to March 1, 1984. Or you can get a cash rebate in lieu of waiver for the amount shown here.

Leasing is another option. Lease a new 40 Series tractor and lease payments will be discounted by an amount comparable to the finance charge waiver. Use leasing to get modern power, plus tax advantages, even if your 1983 taxable income is low.

Model	October '83 Cash Rebate In Lieu of Waiver	Model	October '83 Cash Rebate In Lieu of Waiver
228-hp 8640	\$1,550	90-hp 4040	\$625

Why Christmas Shop Early?

A season as big, as deep, as rich, as generous, as fulfilling as Christmas, takes a lot of time.

Seems like one holiday pushes in on another...upset the way Jolly Old St. Nicholas moves in on us? Christmas carols become interspersed with Alma Mater and football scores?

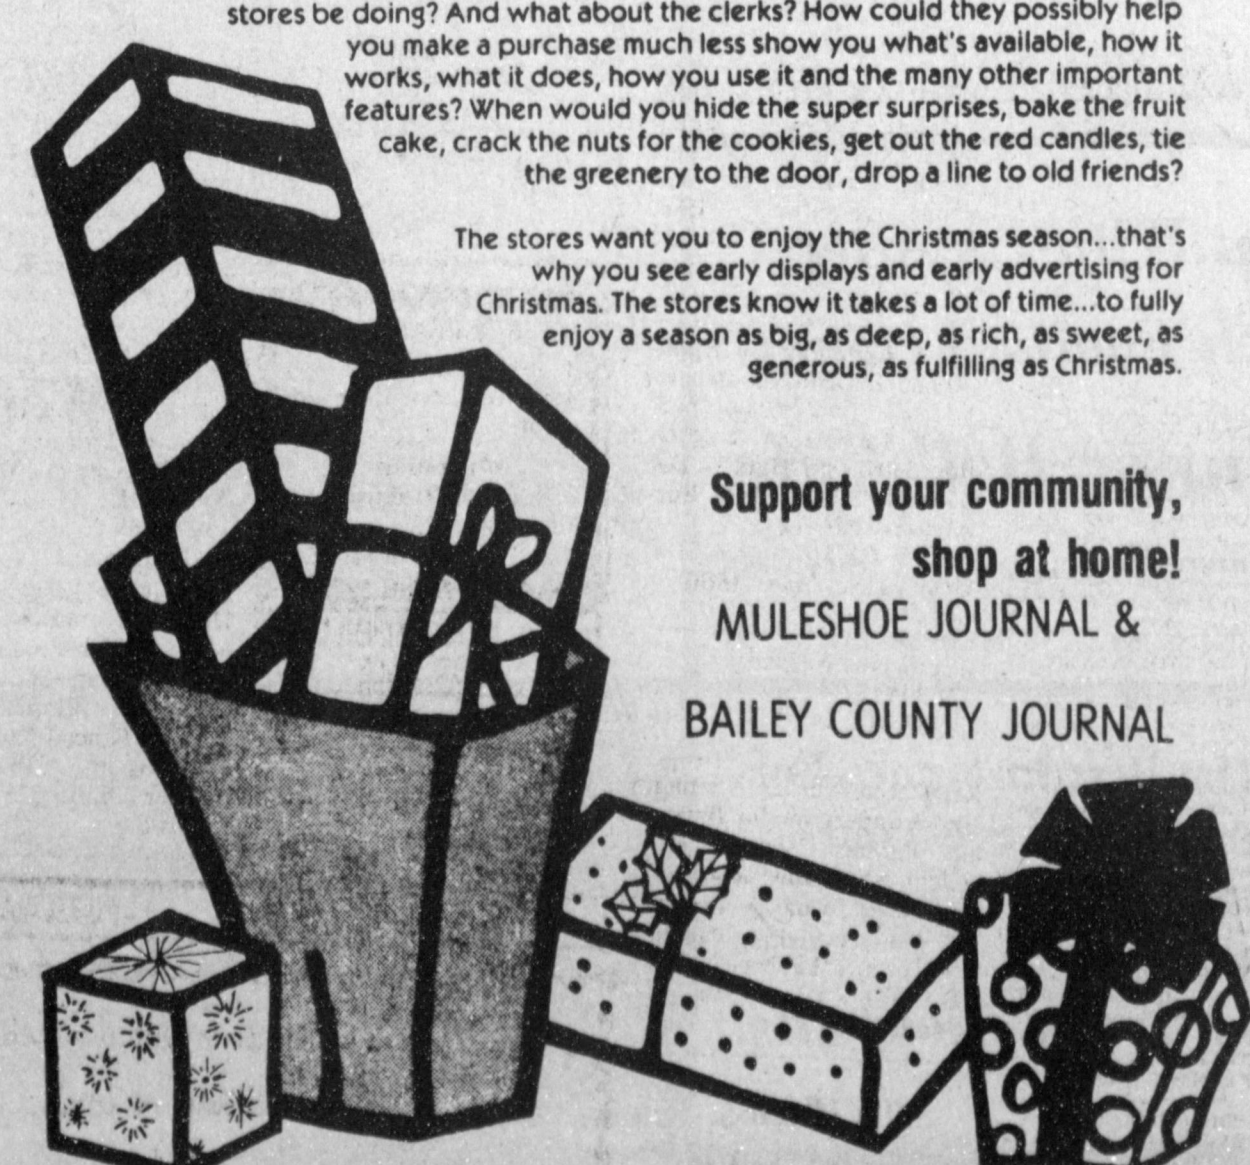

Every so often you hear the mild complaint, that the stores start promoting Christmas buying too early.

Consider for a moment what would happen if Christmas were really pressed behind a curtain of time and nobody could see it or feel it until the reindeers were prancing across the roof tops, the church bells were ringing and Santa was headed down the chimney.

Could you wait till then to dash off to the stores and buy presents in one big, happy, shining gulp? All twenty-five of them? Would you have time to try out every toy, touch every soft thread of a cashmere sweater, stand a half hour or so deciding which tie, which candlestick, which book? Could you gather all the goodies that make this season so wonderfully warm and fragrant and delicious? Would you? And, if you did, what would those other hundreds and hundreds of people who shop in the stores be doing? And what about the clerks? How could they possibly help you make a purchase much less show you what's available, how it works, what it does, how you use it and the many other important features? When would you hide the super surprises, bake the fruit cake, crack the nuts for the cookies, get out the red candles, tie the greenery to the door, drop a line to old friends?

The stores want you to enjoy the Christmas season...that's why you see early displays and early advertising for Christmas. The stores know it takes a lot of time...to fully enjoy a season as big, as deep, as rich, as sweet, as generous, as fulfilling as Christmas.

Support your community, shop at home!

Know THE Weather

Can the weather (other than rain or snow) have an important bearing on the performance of a football team on a certain day?

Yes, football players (and everyone else) feel more energetic and frisky during the presence of a high pressure system. The system affects both teams. Some believe that a team which flies from a low pressure area into a high pressure system on the day of a game may get a sensation of exhilaration. Players will feel better, less irritable, and probably perform better in good, clear cold, high-pressure weather -- so often prevalent in the autumn.

A team with tremendous desire might be affected less by low-pressure weather than one which is expected to win, and which feels it has nothing to gain in a particular game.

15. MISCELLANEOUS

This Land Is Your Land
Garry Mauro
Texas Land Commissioner

As Texas Land Commissioner, one of my most important responsibilities is to guarantee that the leasing of mineral rights on state-owned lands brings the highest possible return to the Permanent School Fund.

As part of my commitment to run the General Land Office in an efficient, businesslike manner, I have initiated a field-audit program of oil and gas leases on state-owned lands.

The Permanent School Fund will gain an additional \$7 million as a result of the findings of this recently completed audit. This is the first time in history the General Land Office has conducted a field audit on our active oil and gas leases. In the three-month program that ended August 31, an audit of 42 leases by four different operators resulted in the discovery of numerous contract violations. As a result of the audit we should gain as much as \$7,196,834 in payments to the Permanent School Fund, which means we will have collected \$35.98 for each \$1 spent on the audit program.

The General Land Office currently has over 2,900 producing leases on public lands. The field-audit program, which was authorized by the Texas legislature, conducted studies on only 1.5 percent of all the active leases.

In granting the funds for the pilot field-audit program, the legislature showed its desire that the management of our public lands be improved. In this era of declining oil and gas production, field audits are vital to ensure that every dollar due the state is collected.

In addition to the revenues raised from the field audits, improved procedures in desk audits have raised an additional \$1.5 million in additional royalties and penalties for the Permanent School Fund.

To illustrate how important our public lands are to the people of Texas, one only has to look at the Permanent School Fund. More than \$3.9 billion has been deposited to this fund from mineral leases

Testimony Heard On Phone Rates

Congress should act immediately to pass legislation aimed at keeping residential telephone rates affordable,

according to testimony before the state Senate's Subcommittee on Consumer Affairs. The need for action by Congress was explained during a public hearing of the Subcommittee, which is chaired by Sen. Lloyd Doggett (D-Austin).

"Testimony before the Subcommittee strongly suggests that the pending breakup of the Bell System is being used as an excuse to double local telephone rates," Doggett said. "The court order requiring divestiture by AT&T was designed to reduce phone rates and increase competition. Unfortunately, the Federal Communications Commission seems to be using divestiture as a smoke-screen for an effort to reduce costs for large commercial phone users, increase revenues for the telephone companies, and put all the burden on local residential ratepayers. The legislation now pending in Congress will help stop this gouging of residential customers, and will let the state Public Utility Commission carry out its mandate to fairly distribute the costs of telephone service among all customers."

on state land. This fund provides more than \$600 annually per student to each public school district in Texas. That \$600 is money which you and I do not have to make up in the form of higher ad valorem school taxes.

The money raised from the field-audit program would otherwise have been lost. The success of this pilot audit program has proven the need for future audits of all our state oil and gas leases and should lead to increased voluntary compliance with the royalty payment requirements.

As your Land Commissioner, I will make sure the state is paid every penny it is owed, and I will continue to insist on being a full, working partner with the producers of our state minerals.

NEWS NOTES

WINS NOBEL PRIZE
STOCKHOLM, SWEDEN -- Barbara McClintock, the 81-year-old American botanist whose research anticipated the revolution in genetics by more than 20 years, won the Nobel prize in medicine recently.

HIGHER PRICES
TEL AVIV, ISRAEL -- Israel's new government decided recently to devalue the currency 23 percent and raise the price of basic foods 50 percent, setting off a stampede to buy meat, milk and bread before the increases took effect.

ON OVARIAN CANCER
BOSTON -- A new blood test that shows whether cancers of the ovaries are growing or shrinking should help doctors pick the best treatment to eliminate the common tumors, researchers say.

GOVERNMENT WARNED
SAN SALVADOR, EL SALVADOR -- Henry Kissinger warned the government of El Salvador recently not to let human rights abuses continue while it fights leftist guerrillas.

SHIP JAM
MOSCOW -- Soviet rescuers are struggling to free 26 cargo ships and hundreds of crew members trapped in pack ice in the Chukchi Sea, north of Siberia's Arctic coast, Soviet newspapers reported recently.

Witnesses at the Subcommittee hearing included Public Utility Commission Chairman Alan Erwin, Attorney General Jim Mattox, and an aide to Agriculture Commissioner Jim Hightower, as well as representatives of telephone companies and consumer groups.

Numerous witnesses before the Subcommittee described the need for Congress to pass H.R. 4102, by Representatives John Dingell and Timothy Wirth. This bill, the Universal Telephone Service Preservation Act of 1983, is being considered by the House of Representatives. It would block the \$2-a-month "access charge" that the Federal Communications Commission has ordered added to all residential phone bills beginning next year, and would make a number of other changes designed to restrain increases in local residential phone bills.

A provision of the bill creates a Universal Service Fund to help keep phone rates low in rural areas where the cost of providing phone service is high. "A telephone is even more of a necessity in rural areas than in urban areas," Doggett said. "It is crucial for Congress and the Legislature to keep phone service from being priced as a luxury."

A sign of wisdom is one's willingness to listen and learn.

High Plains Cotton Harvesting Resumes

The High Plains cotton harvest resumed at mid week where soils were sandy and could support equipment. Light, but widely scattered showers Tuesday missed fields where harvesting resumed.

Lubbock's Marketing Services had classed most of the samples on hand from harvesting before the heavy rains and hail that covered the High Plains October 16 through 19, according to Mack Bennett, Area Director.

The second and third classing shifts were disbanded Saturday until har-

vesting resumed and back logs build again, Bennett continued.

Most early harvesting has been from fields chemically defoliated. However, the major harvesting thrust is not expected until freezing weather defoliates cotton naturally.

Growers sold early harvested, small mixed lots of mostly grades 42 and better, staples 30-32, mike 35-49 at around 1050 to 1250 points over 1983 loan rates. Gins paid growers \$155 to \$175

per ton for cottonseed - mostly \$160 to \$165.

USDA's Lubbock Marketing Services office classed about 17,000 samples during the week ended October 27 for a season's total near 52,000. This compares with about 10,000 classed by the same date last year.

Predominate grades during the week were grade 32 at 22 percent, grade 42 was 43 percent and grade 52 amounted to 12 percent. About nine percent was reduced one grade because of bark and three percent for grass.

Predominant staples were staple 31 at 21 percent, staple 32 accounted for 20 percent staple 33 was 17 percent and staple 34

amounted to 17 percent for an average of 32.4 thirty-seconds of an inch during the week.

Micronaire 35-49 was 70 percent, 33-34 amounted to 11 percent, 30-32 was 13 percent and 27-29 accounted for five percent for an average of 37.

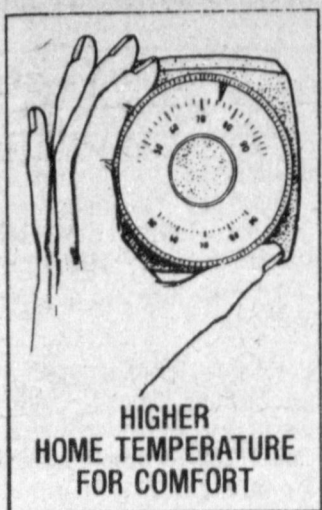

HVI breaking strength averaged 25.4 grams per tex.

U.S. textile mills operated on five to seven day work schedules this week, mostly six, according to USDA's Agricultural Marketing Service, Cotton Division.

Best demand for mill products was for apparels especially denim and all-cotton yarn.

Proper Humidity Warms Wintertime Homes

If you try to conserve energy this winter by lowering your thermostat, but everyone complains about being chilly, then maybe your home has a humidity problem.

HIGHER HOME TEMPERATURE FOR COMFORT

A recommended room temperature of 68 degrees can be a comfortable setting during the cold months - if the indoor relative humidity is maintained at a proper level.

However, if your home doesn't have proper humidity, dry air steals moisture from

everything in it, including you. This thirsty air evaporates moisture from your skin, a cooling process that makes you feel chilly even at high thermostat settings.

What really happens in the wintertime to alter the moisture content of the air?

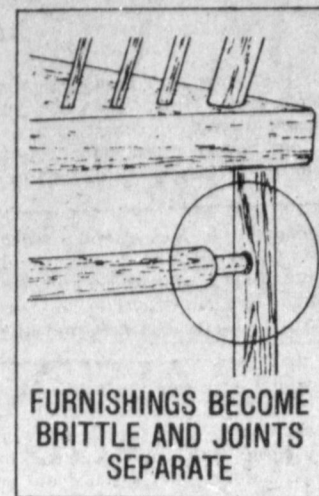

Whenever outside air is heated by any method, its capacity for holding moisture increases rapidly. Air heated to 70 degrees can hold 22 times as much moisture as air at 0 degrees.

The term "relative humidity" is the amount of moisture actually present in the air, compared to the maximum amount it can hold at that temperature. Relative humidity of 50 percent means that the air is only half-saturated.

Most heated homes without a humidifier have an average relative humidity of about 13 percent all winter long, compared with the recommended 30-35 percent.

It's understandable, then, why so many families feel chilly, even when their thermostats read 72 or even 75 degrees. The dry air is evaporating the water from the

skin too quickly.

FURNISHINGS BECOME BRITTLE AND JOINTS SEPARATE

Perhaps you've noticed other clues to low humidity in your home. Loosening of glued joints in furniture, cracking of walls and ceilings, excessive static electricity, unusually dry noses and throats... all are signs of a humidity problem.

Wood framing around doors and windows will shrink, causing open spaces which let cold air in and heated air out. The result: drafts and increased fuel costs.

If any of these complaints sound familiar, you should consider installing a central humidifier.

FAMILY SUFFERS FROM DRY NOSES AND THROATS

If you have a forced air heating system, you will want a central unit that is installed on the furnace and sends humidified air through existing ducts.

A typical model for use in a home without forced air heating is installed out of sight on the basement ceiling, or in a closet, crawl space or utility room.

Before selecting a humidifier, check with your local heating and air conditioning dealer on five key points: capacity, control, operational efficiency, ease of maintenance, and ease of installation.

For your copy of an informative booklet on relative humidity in the home and how to choose a humidifier, call toll free: 1-800-356-9652.

Three Way News

By Mrs. H.W. Garvin

Mrs. Minnie Dupler is a medical patient in Muleshoe hospital.

Mrs. Rayford Masten took her father Clarence Benton back to Lubbock Wednesday.

The Three Way junior high school football team played Welman Thursday on the home field losing the game. Friday night the Three Way high school football boys traveled to Welman for a game losing to Welman.

Mrs. Chuck Dupler and boys from Sundown spent Friday night with the Bill Duplers.

Mr. and Mrs. Rayford Masten from Maple and Mrs. Adda Masten from Morton attended the funeral of Mr. Matens aunt, Dona Doughty, in Lubbock Thursday afternoon.

Mrs. Adolph Wittner was in Lubbock Saturday to help her father B.J. Emerson move into another apartment.

Mrs. S.G. Long left Sunday for California to be with her daughter who is to undergo major surgery Nov. 2nd.

Mr. and Mrs. George Tyson spent the past week in Lubbock with their daughter the Tommy Durhams.

The Robert Kindles had all their children home Sunday for lunch.

Rev. B.A. Dickerson from Plainview preached at the Three Way Baptist Church Sunday.

Mrs. Jack Furgeson visited her daughter the Jim Green family in Shallowater Saturday.

Farmers in the community have started to harvest the crops. Harvest will be light due to dry weather, hail and rain.

Mr. and Mrs. Bobby Sinclair from Monahans spent Sunday with her parents the Bill Dupler family.

Pipeline Company Sets Award Dinner Here

Natural Gas Pipeline Company of America will honor several area employees for their long-term service and on-the-job safety during a dinner at the Muleshoe Country Club in Muleshoe on November 17.

Service awards recognizing five-year intervals will be presented to five individuals, with the evening's top awards going to Danny E. Daniels of Morton and Jackie G. Hughes and Floyd R. Eubanks, both of Hereford. All three are 30-year veterans.

Recipients of a 25-year service award will be William H. Burford of Hereford.

A ten-year award will be given to Vennie S. Evans of Norton.

Three work crews will be recognized for safety achievement: the district crews from Goodland and Hereford, and the communi-

cations crew. Accepting the award for the Goodland district crew will be crew supervisor George Mundenhenke; crew supervisor Bill Folkerts will accept the award for the Hereford crew.

William H. Burford, district superintendent at Hereford, will serve as master of ceremonies for the dinner. Other participants will include additional area employees and their spouses, as well as executives from the company's Chicago headquarters.

Natural Gas Pipeline Company, interstate transmission subsidiary of the Chicago-based MidCon Corp., operates one of the nation's largest natural gas pipeline systems. Through its 12,500-mile pipeline network, the company supplies gas to 49 utilities and municipalities serving some 12 million consumers in the Midwest.

A sense of humor eases life's hard knocks, and prevents embarrassing moments when substituted for irritations.
