Donkey Ball Game Here Monday Night

Fun-loving sports fans are promised a field day of hilarious entertainment when the Ralph Godfrey Donkeys, from Crescent, Oklahoma, come to town on June 30. A big program has been arranged and in addition to the main event, DONKEY BALL, a series of tricks and stunts by a trick mule will be presented as a preliminary act. Also races on donkeys will add to the bill of fare to round out a full evening of fun for old and young. Sponsor of the show is the Woodmen of the World and the scene of inaction will be the Sterling Baseball Park. Time for the first event is 8 p.m.

Advance admission prices will be \$1.00 for adults and 50c for children under 12. Gate admission prices will be \$1.25 for adults and 75c for children under 12. The show is being sponsored by the WOW in order to raise funds for the Sterling Baseball Association. According to their contract with Ralph Godfrey, the sponsors receive ten percent more on all tickets sold in advance, so local folk are urged to buy tickets for the entire family before the night of the game and thus increase the profit to the local group.

Behind the 8-Ball

By the editor.

With a week off to rest up and catch up on some leisure, I am back on the job. Now one must get back to work and make the wheels turn. When the wheels don't turn in the shop—no money comes in. So, back to work.

A restful week at Kingsland and San Antonio fixed me up. San Antonio is growing by leaps and bounds. So is Kingsland. Most big cities and the retirement type areas are all growing. Beautiful retirement homes are being built and the cities seem to grow with an impetuosity that just won't quit.

Surely there must be a stopping point somewhere. Or maybe the small towns are losing and the big ones gaining.

8-BALL

Horace Bates sent his front door off to ge the closer worked on and had it boarded up for a while. Now it's back in and is working.

8-BALL

All Sterling and West Texas needs now is a good general rain. The rains were good to the area but have shut off too soon. The ground is cracking—and weeds and grasses are suffering from lack of moisture.

So, please, now, some good rains. No hail.

Social Security Tips

Social security checks should be cashed within a reasonable time to prevent loss or theft, even though there's no time limit on cashing them, according to social security officials here.

'If your check is lost or stolen, get in touch with your nearest social security office at once,' a spokesman said. 'The check can be replaced, but it takes time. Handle your check carefully when you get it and you won't have to wait while it's being replaced.'

Social security pays over \$4 billion a month in benefit checks to almost 29 million people—eligible retired and disabled workers and their families and families of deceased workers who worked long enough under social security.

For further information contact the Social Security office at 3000 W. Harris Avenue, San Angelo, Texas 76901 or call 949-4608.

ON TOUR OF EUROPE WITH ASU GROUP

Brenda Merz of Sterling City, a senior art major at Angelo State University is one of 45 ASU students who are on a 39-day tour of six European countries.

Reddy's helpful tips for your Room Air-Conditioners

Your air-conditioner will operate inefficiently if filters are not cleaned regularly. Dirt and lint, collected on the filters, restricts air flow to the coils. Clean filters every two weeks.

Let nature help you save energy by shading your home with trees and shrubs to help cut down on summer cooling costs. Draw draperies against afternoon sun.

Remember to keep outside doors, windows, and fireplace dampers closed. If you have window units, close the heating vents near the floor, as cool air falls and can escape through vents.

You purchased fine-home comfort when you bought your air conditioning unit. Properly maintained, it will offer you years of efficient service. A once-a-year check-up by your dealer pays dividends in savings on operating and breakdown costs.

FOOD FOR THOUGHT THE WAY IT WORKS?

Editor, The Wall Street Journal: A familiar pattern of events has occurred in American politics, economics and government these last four decades.

First, the need for legislation and regulation is found by some do-gooder or crusader.

Second, a government bureau is established to regulate and its budget is steadily increased.

Third, the regulated industry soon experiences corruption, scarcities or shortages.

Fourth, a crisis develops and the same government that created the problem now rushes forth with a solution.

The solution, of course, is still more regulation and more government.

Every crisis always results in crisis legislation. The result is that the politicians at the top get more power and the naive, gullible citizens at the bottom get less freedom, less for their money in the marketplace and more taxes.

AMERICA'S PEACEKEEPERS
HOW MARINE CORPS RESERVISTS PROTECT US

EMPLOYERS: HOW YOU CAN HELP

Perhaps you've seen them in a parade or during civic ceremonies. Some of them may live near you, some of them may work for you. Whatever your personal knowledge or contact has been, the Marine Reservists in your city are important to you and to the community. As civilians they hold jobs and contribute to the economic growth of the area. As Marines they help provide the security that makes it all possible—that permits our free society to prosper and grow under constitutional government. They are the kind of men who don't take freedom for granted, men who believe that America has a lot worth fighting for.

To a great degree, these Marines are able to maintain their high state of readiness because men like yourself have fostered a positive at-

mosphere for the concept of Reserve participation. Further contributions you can make are these:

- Assure Marine Reservists that they will not be penalized in hiring, promotion, transfer or the granting of other benefits because of their Reserve service.
- Permit them to attend their two weeks of summer training without charging this time to earned vacation.
- Pay the difference between their military and civilian pay during summer training, if the military pay is less.
- Give recognition to outstanding Reservist employees in company publications.
- If you have the opportunity, take the time to visit your Marine Reserve training center. Talk to the officers of the unit and learn firsthand what the Marines in your city do and how

they do it. They will welcome your visit and appreciate your interest.

• As a taxpayer, remember that the cost of maintaining a Marine Reservist is only about ten percent that of a regular fighting man. But if these men of your community are ever needed, they'll answer the call as 100 percent Marines. There's no ten-for-one bargain involved. The Marines make up the difference—through the hard work and dedication they put into their training.

For details about the range of enlistment programs and opportunities in the Marine Corps Reserve, get in touch with a Marine Corps representative.
