

SWEET N' SOUR

By A. Dill

Two more weeks of August and everyone who ups with information as to how many days until you-know-what starts is a full fledged Gremelin of the wet-blanket species and something to be categorized under measles, chiggers and poison ivy.

A very special get well card (and we send it from just a whole townful of people) to Webb Bruton who is recovering from a leg fracture. At this time the old cowhand, pioneer citizen of Belle Plains community, is in Abilene, but plans are for him to come to the hospital in Baird this week. Now if you ever waged a cheer-up campaign do it now — show that old hoss wrangler that he has a lot of friends on this spread who know he's tough as whet leather and that he's coming through this piece of rough luck with colors flying!

Summertime is just the best time ever for visitors to come callin' and that's what Jimmy Dean Sparks did last week. The young man made a train trip from Midland to Baird to see his grandparents, Mr. and Mrs. Millard McElroy. Later in the week Frances and Johnny Sparks joined son, Jim and the three of them continued to Arlington and a day at the state's giant amusement center, "Six Flags over Texas."

Packing - up - time this week for Louanna Ault Barnes who is establishing her happy home in the Fort Worth area where she can be with the other half of that Mr. and Mrs. team. Jim is due to be stationed with missile work there.

Richard Danielsen is the busy bee these days. He's preparing to leave for McMurry College shortly and will enroll for the fall term.

Mr. and Mrs. C. Z. Anderson had special guests this week — son and family — Mr. and Mrs. Bob Anderson of Albuquerque, were here to take their daughter Amy home. Amy has been a happy part of her grandparents household for several weeks this summer.

Happy landings to Mrs. Paul Shanks who left this week for a summer holiday visit to the World's Fair. She'll see the sights of the Pacific coast and Rocky Mountain area before returning home in late August.

Saturday, Aug. 18th, J. L. Lamoreux, pioneer resident of the county, will make his twelfth round - trip to Rockford, Illinois, while there he will attend the Taylor family reunion on the 26th. On his return trip to Baird, Mr. Lamoreux plans a brief visit with friends and relatives in Dennison.

Patsy Work was home from school in Lubbock this week end. Her sister and family, Mr. and Mrs. Scat Russell, accompanied her.

Lula Mae and Ben Russell, Leulah and Bill Work had special guests this week, J. O. Moore and wife, Willie of Columbus, Ohio were here. Texas' heat wave was at its height during their visit and the visitors from the north admitted that it was the warmest welcome they had ever received.

Roberta Ross and Katie Lou Walker are in Canyon this week attending a three day reading clinic there. Ira Walker took the "school girls" on this excursion so its by way of being a vacation trip for him even though its study-time for the two third grade teachers.

It's been a busy summer for L. B. Howards — big red letter day was the wedding of daughter Bobby and all the excitement of that occasion, plus vacation trips for two teenage youngsters, and the never ending task of supervising school work. Students enjoy a duly authorized vacation but the Superintendent's job goes on and on.

Bess and Lonnie Ray have been enjoying a visit from Linda Etherly of Midland — daughter Ruth's youngest — and what an attractive young lady she is growing up to be. Yesterday she was a pretty little tyke who paddled in the wading pond and

She came to Texas with her father, the late Ben Yarbrough from Clay County, Ala., and settled in the Hart community about 70 years ago. It was here she met and married Will Abernathy, now deceased.

Most of her married life was spent in the Putnam-Moran area, where they engaged in farming until Mr. Abernathy's health forced his retirement in 1942. At this time they moved to Putnam and resided until his death in Nov. 1953, after which she moved to Baird to make her home at 728 West 6th St.

Her children are William P. Abernathy of Odessa, working in oil field construction; Sterling P. Abernathy, with the Baird Postal department; Eli J. Abernathy, of Putnam, a pumper in the oil field; D. A. Abernathy, a contract pumper; and Clinton B. Abernathy, oil field driller of Baird; and a step-daughter, Mrs. Seab Delk of Groverton; 18 grand children and 15 great-grandchildren.

Our many thanks to Dr. Stubblefield, the nurses and entire hospital staff and the ones who sat up. Thanks also for all the beautiful flowers, the food, each card and letter and each thoughtful word. May God bless each and every one of you. Katie Lou and Ira Walker Mr. and Mrs. L. S. Walker and Janis Mr. and Mrs. Weldon Walker and family.

House guests of Mr. and Mrs. Owen Thompson this week is Mrs. Thompson's sister, Mrs. Olen Friday of Midland.

Oral Polio Vaccine To Be Given Sept. 16

September 16 was tentatively set as the date of a county-wide polio immunization project which is being sponsored by the County Health Department and the Baird Chamber of Commerce. The date was set at a mass meeting held at 8 p.m. Monday at the Cross Plains School Cafeteria.

E. Elton Ables, manager of the Baird Chamber of Commerce and Byron Richardson, County Judge elect, were named as co-ordinators of the project for Baird and Cross Plains, respectively.

Ables and Richardson presided at the meeting Monday night and introduced John Rickerson,

representative of the Lederle Company, one of the manufacturers of the Sabin oral type vaccine. Mr. Rickerson talked briefly and showed a five minute film on the proper handling of a project of the nature being considered by Callahan County. Mr. Rickerson introduced John Goodman, also of the Lederle Company, who talked at length on the project.

Following the talk by the two drug company representatives, there was a lengthy question and answer period during which all present at the meeting participated. The speakers recommended the date of September 16 and the hours of 1 p.m. to 6

p.m. as the time for the project. It was believed that those hours would be best and sufficient.

Mrs. Lynn Ault of Baird, Public School Nurse for Callahan County, was named to handle that part of the project.

Additional information will be released prior to the date set for the immunization, it was reported.

Attending the meeting from Baird were Ables, Mrs. Ault, Dr. and Mrs. M. C. McGowen, Mrs. Beatrice Deal, Mrs. Ray Black, Mrs. Emil Ringhoffer, Mrs. W. L. Ivey, Mrs. Clyde White, C. H. Lunsford, Charles Walker, Jerry Loper, Jim Lawrence and Mrs. Dale Glasson.

Sweetwater Thanks Baird for Donation

Tom Barton, president of the Baird Teen Age Baseball League, received the following letter recently from the Sweetwater Baseball League. The letter was over the signature of the Sweetwater League's president, Dr. Robert L. Price. The letter reads as follows:

"Dear Mr. Barton: I have been in sports a good many years, and have seen examples of good sportsmanship and graciousness before, but your league's action of sending a check to our league to help us to go to the state tournament is by far the most outstanding I have ever seen.

"I wish I could thank each and everyone of you, but that is impossible simply because I wouldn't know how to express my appreciation — not for the money, but for the sportsmanship shown.

"With such leadership as the Baird boys have, there is no doubt they will go far both on and off the field. If our league can assist you at any time, please give us a chance."

The letter was in appreciation of a check in the amount of \$100 sent to the Sweetwater Teen Age team which won the District V title in Baird some two weeks ago. They defeated Baird in the finals of the tournament. Sweetwater represented the district in the state tournament at Pasadena, and the Baird check was to help them defray expense of the trip.

Oplin Observations

By Daphne Floyd

Br-ruther! We had a "hot time" at Oplin last week for the mercury stayed close to 105 most of the week. It had been so hot that when a light norther stirred the leaves Sunday everyone thought we were having a blizzard! No kidding it was actually hot weather.

If you of the community are still wondering who that is you keep seeing driving a new 62 Ford Galaxie, well it is none other than Miss Mattie Allen. Miss Mattie is proud of her new car and her friends are proud for her.

Last Thursday was a scorcher but the ladies met at the community center to quilt for Mrs. L. E. Turner and Mrs. Dad Poindexter. Maybe it was hot when the noon meal was served but ice tea never tasted better. The ladies at the quilting were surprised and honored to have Mrs. R. T. Wright and daughter, Sarah to stop by and say hello.

Mrs. Wright is the former Lucille Windham and was raised

at Oplin. She and her two daughters, Sarah and Cindy had been visiting her mother and was enroute back to Carlisbad, N. M., where they live. They all took advantage of the opportunity to say hello to some of their kin, Mr. Lee Straley and Fredia.

Mrs. Lucien Pierce and Mrs. Roy Armor made a rush trip to Brady last Saturday after they received word that their mother, Mrs. Holoway had received a bad fall. Luckily, Grandma received no broken bones, but was a little stiff and sore from the fall. She was persuaded to return home with her daughters and is visiting with this week in the home of her daughter and husband, Mr. and Mrs. Lucien Pierce.

Mrs. Tommie Windham had dinner last Sunday with her sister and husband, Mr. and Mrs. Grif Parker of Novice.

Fredia Straley is scheduled to have minor surgery on Thursday of this week.

About Your Health . .

How much does research cost? The better question would be: What is research worth? Research is indeed the proverbial "stitch in time."

Medical research has brought about many outstanding drugs and spectacular operations that save individual lives and relieve suffering, but more outstanding and spectacular are the advances in preventive medicine that have been made which stop suffering before it starts.

Economically speaking, preventive medicine has saved the people of the United States countless dollars. A case is retrolental fibroplasia, an eye condition marked by the formation of fibrous tissue behind the crystalline lens. Prematurely born babies are often stricken causing partial or total blindness.

At first premature births were blamed. However, research financed by federal and private means discovered the cause to be the excessive administration of oxygen — employed regularly in incubators for premature infants.

This study cost approximately \$50,000. In the U. S. 5,000 children are blind because of retrolental fibroplasia. Each child will cost an estimate \$100,000 for education, training and support from birth to death — or a grand total of \$500 million.

Caring for these 5,000 children in our generation will cost 100,000 times more than the cost of the research which prevents the disorder.

Other items developed solely through research include Salk vaccine and steroid (cortisone) compounds — which prevent blindness, relieve arthritis, and aid skin diseases and allergic conditions.

Who can put a price on the suffering and crippling averted because of them. The life expectancy of Americans now born is now past 70 years of age. In just 17 years — 1937 to 1954 — it increased 9.6 years.

This means, because of the decline in the death rate, over \$770 million additional federal income taxes was received in 1955 alone, plus the accompanying rise in earning power and productivity from an increased span of life.

The wise man who said, "Who would not give a trifle to prevent what he would give a thousand worlds to sure?" was right.

Something you should think about if you're about to buy a truck:

If all trucks were built the same way, cost the same to keep up, were worth the same at trade-in . . . then probably the price tag would be your only concern. It can't be, of course, because some trucks have more quality than others. And marks of quality are the real keys to low cost. Chevrolet trucks, for example, have double-wall construction, which gives bodies and cabs more strength. Cabs are insulated against heat, cold and noise. A big part of road shock, which shortens truck life, is damped out by Chevrolet's suspension system; it also makes riding in the truck a pleasure. Pickup bodies and cabs are separated to eliminate stress between them.

Value such as this has induced more people to invest in Chevrolet trucks every year since 1937.

This can be a good time to buy a modern new Chevrolet truck

Late summer traditionally is the season for all-around savings on a new Chevrolet truck . . . selection is still good . . . deliveries are prompt . . . and Chevrolet dealers are doubly anxious to put you into a new vehicle in order to make way for next year's models. Coupled with the efficient performance a new Chevrolet truck will give you, it seems evident that you couldn't buy at a better time. Come in and take full advantage of it!

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 46 proposing an Amendment to the Constitution of the State of Texas by adding a new Section to be known as Section 49-d authorizing the Texas Water Development Board to acquire and develop storage facilities in reservoirs and to dispose of such storage facilities and water upon such terms as the Legislature shall prescribe; providing for the use of funds received from the disposition of acquired storage and water; providing that any enabling Acts shall not be invalid because of their anticipatory character; and providing for the necessary proclamation and publication thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of Texas be amended by adding a new Section thereto to be known as Section 49-d as follows: "Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the State, which waters are held in trust for the use and benefit of the public. To this end, and with the approval of the Board of Water Engineers or its successor, the proceeds from the sale of State bonds deposited in the Texas Water Development Fund as provided in Article II, Section 49, of this Constitution, may be used by the Texas Water Development Board, under such terms and conditions as the Legislature may prescribe by general law, for the additional purposes of acquiring and developing storage facilities for the conservation and development of water for useful purposes in and from reservoirs constructed or to be constructed, or enlarged, within the State of Texas or on any stream constituting a boundary of the State of Texas by any one or more of the following governments or governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the State; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations.

"Under such provisions as the Legislature may prescribe by general law, the Texas Water Development Board may also, with the approval of the Board of Water Engineers or its successor, execute long-term contracts with the United States or any agency, department or instrumentality thereof, and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same force and effect as the bonds issued under the authority of the preceding Section 49-c of this Constitution, and the proceeds of said Section 49-c with respect to the payment of principal and interest on

State bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are constructed within a period of years, such contracts shall contain provisions for renewal that will protect the State against loss of interest.

"The aggregate of the bonds authorized by said Section 49-c, plus the proceeds from the sale of obligations incurred under any contracts authorized hereunder, shall not exceed the amount of One Hundred Dollars (\$100,000,000) in bonds authorized by said Section 49-b of Article III of this Constitution.

"The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease such storage facilities or any acquired storage facilities or the right to use such storage facilities in a public market, at the discretion of the Board in acquiring same; and the Legislature may provide terms and conditions for the Board to sell, transfer or lease the public waters of the State that might be stored in such facilities. As a prerequisite to the purchase or construction of storage or water, the applicant therefor shall have secured a valid permit from the Board of Water Engineers or its successor authorizing the acquisition of such storage facilities or the water to be stored thereon, and the acquisition of such storage facilities shall be used to pay principal and interest on State bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when money is sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest thereon, any further sums received from the sale, transfer or lease of such storage facilities may be used for the acquisition of additional storage facilities or for providing financial assistance as authorized by said Section 49-c. Money received from the sale of water, which shall include standby service, may be used for the operations and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred."

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at the General Election to be held on November 6, 1962, at which election all ballots shall have printed thereon:

"FOR the Amendment to Article III of the Constitution of Texas by adding a new Section to be known as Section 49-d providing for a State program of acquiring conservation storage facilities in reservoirs" and "AGAINST the Amendment to Article III of the Constitution of Texas by adding a new Section to be known as Section 49-d providing for a State program of acquiring conservation storage facilities in reservoirs."

Sec. 3. The Governor shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

Corrie Driskill returned this week from a holiday trip that took her to "Six Flags" — a second visit for Mrs. D. to the famous spot.

Birthday greetings to Mike Smalley who celebrated his 11th birthday, Aug. 16th. Highlight of the occasion was a special trip in his honor to "Six Flags over Texas". Mike and sister, Evelyn agree that it's a perfect way to make a birthday.

Martin Poindexter was a great big two years old Saturday, Aug. 11th and that young man celebrated with a real birthday party — and it certainly is a fine party when a fella' has a birthday cake with yellow roses on it, isn't it?

Happy birthday to Elaine Faircloth — come August 25th, she'll be 13 and rank as a teenager. Greetings too, to Mickey Arms who will be 12 on the 26. The very best wishes possible to Dr. M. L. Stubblefield who is recovering from illness in a Dallas hospital. A grateful community knows only too well how much of himself this dedicated man has given to the people he serves and serves well. If knowing that what you do is appreciated has a worth then the good doctor is rich indeed in the love and gratitude of his people. We hope our great affection for Dr. Stubblefield will reach out to him and his family and bring them all home to us soon.

Jimmy Trowbridge spent last week visiting his grandparents in Sweetwater.

Mrs. Mina Cook of Midland recently visited in Baird, and attended to business. She also visited with Mrs. Carrie Johnson and Mrs. Minnie Wrinkle of Putnam.

Mr. and Mrs. Woodfin Ray of San Antonio, were guests of Grace Ray last week.

Mr. and Mrs. J. O. Moore of Columbus, Ohio, and Mr. and Mrs. Charles R. Kelly of Dallas, were week end guests of Mr. and Mrs. Ben Russell and Mr. and Mrs. Bill Work.

Former Resident Expresses Thanks

So Sweetwater Teen agers defeated the Baird Teenagers: Please read the enclosed "attached" article that appears in the Sweetwater Daily Reporter, and also as VETERAN Resident of Baird, Texas, please allow me to say THANK YOU. I am sure proud of my old home town. For me personally there is more to this than shows on the surface.

You both will recall my long career in Baird in the saddlery business, well this Dr. Price comes from a saddlery family, Price Bros. and Eddleman, Graham, Texas, I know Dr. Price's father way back in late 1890's and early 1900's, in fact when I was president of the Southwestern Saddlery Assn. in about 1907, I personally knew about every firm in Texas that was in the saddlery business.

This Dr. Price is also my personal and family doctor, he is also my personal friend, and he and I are both also pretty well seasoned in our Church affiliation. All these things considered I believe you can see that we both have a lot in "common".

Please show this letter to Mr. Barton, president of your local league and express my thanks to him. Again let me say that I am proud of my old home town and if any of this gets into the Baird Star, please send me a copy of the paper. Yes here is another thing: On May 15th, 1894 I hung my "shingle" out in the building on the south end of the block your bank is in: C. S. Boyles, Saddles & Harness.

General James, then president of your bank, called me in the second time and said to me:

"Buy out the man that you are working for, he wants to sell, and we have been watching you, check on us, and we will take care of you."

I am the oldest living Past Master of your local Masonic Lodge and also its oldest living member. Please remember me to old friends down there, very few of them are left.

Respectfully,
Clarence S. Boyles

(Editor's note: the attached article mentioned in Mr. Boyles letter to Bob Norrel, president of the First National Bank of Baird was in reference to a contribution the Baird Teen Age Baseball League made to the Sweetwater League to help send the Sweetwater team to the state meet. The story is carried elsewhere in the Star. The Baird League has received much well deserved praise for the fine display of sportsmanship.)

Mr. and Mrs. R. D. Bryant of El Paso, visited here recently with his parents, Mr. and Mrs. Walter Bryant. Also visiting them for a week was their grand daughter, Sandra Bryant of Big Spring.

Lonnie and Woodfin Ray, accompanied by Mrs. Cliff Harville of Abilene visited their sister, Mrs. Elmer Norman in Electra Tuesday.

Get in the movies, with your friends. Enjoy the whole week. Daily Vacation Bible School August 20th through 24th Baird Presbyterian Church

Cotton Growers should be on
look out for damaging in-
sects in their crops. A group
of farmers in the Cross Plains-
Rowden area made some field
inspections last week with the
county agent and fleahoppers,
leafhoppers and bollworms were
found in heavy infestations in
in several fields. Some bollweev-
ils were found also in some
young cotton aphids and thrips
were located. The farmers mak-

ing the inspection were Hadden
Payne, Tommie Harris, Deel Ed-
lington, John D. Montgomery, O.
B. Fortune and Howard Neebes.
Now is a critical time in cotton
insect control and all cotton
growers are urged to check their
cotton as a crop can be lost in
a week.

Peanut growers should also be
on the look out for insects, in
an unusual case last week leaf-
worms and army worms were
found to be infesting J. H. Balk-
ums peanuts to the extent that
control measures had to be tak-
en. Be on the look out, a years
work can be lost in a week if
insects are not stopped some-
times.

There will be a meeting of the
southwest peanut growers asso-
ciation in Stephenville, starting
at 10 a.m. on Friday, August 17.
All members are urged to at-
tend. Discussion on harvesting
and drying will be held.

A group of calf feeders from
Callahan County made the
Coleman County Calf tour last
Saturday. Making the trip were
Morse and Scott Odom, the Deel
Edingtons, Tommie Harris, the
Weldon Edwards', the Gene Fin-
leys', Byron Snyder and Travis
Allen. Byron Snyder won first
in the Junior weight guessing
contest on a Hereford bull and
four steers and brought home a
nice prize.

County Agent

By TRAVIS ALLEN

On Saturday, August 18th,
Callahan County will hold its
first club calf tour. The tour
will start at the courthouse at
7:30 a.m. and visit the following
places in this order: Vicki Fin-
ley, Byron and Jim Snyder,
Richard Dyer and Tom Wind-

hams, Stanley McGowen, Wel-
don Lynn and Murry Edwards,
Roy McAdams, Marian Odom,
Terry and Jimmy Harris, then
to the Cross Plains park for
lunch and in the afternoon vis-
its will be made to Eddie Don
Edmonsons, Scoot Odoms and
Ronnie Edington. These boys
and girls will be showing off the
calves that they are feeding for
the stock show this next year.

On Tuesday night, August 21,
at 8 p.m. in the county court-
room at Baird there will be a
meeting to acquaint the live-
stock owners of Callahan County
with Market Testing of Cattle
for Brucellosis program which is
better known as the brucellosis
back tag program. In short it
is a program whereby livestock
owners can put a back tag on
their cattle when they get ready
to ship them and then these an-
imals will be tested for bruce-
llosis at the Packing plant. A
record will be kept in Austin of
each mans herd and each cow
he backtags and is tested will be
credited to his account. It would
be possible that enough cattle
could be tested in this manner
during the next three years so
that they would not have to
have a formal retest to main-
tain their standing as a modi-
fied certified brucellosis area.
All livestock owners are urged
to attend this meeting so they
may become acquainted with
the program which is a volun-
tary one but very worthwhile.

Article VII of the Constitution of
Texas by adding a Section to be
known as Section 3-b, providing that
school taxes theretofore voted in any
independent school district, the major
portion of which is within Dallas
County, shall not be abrogated, can-
celed or invalidated by a change in
boundaries nor shall bonds voted, but

such independent school district are
changed by the annexation of, or
consolidation with, one or more whole
