FOR PROTECTION ALL THE TIME. It has been with deep and serious carnest

ess that the Expanse has advocated the full given, and we believe it to be the bounden duty of the state to unite all its powers for that purpose, and render assistance cheerfully whenever it may be needed. We would favor giving as much assistance to the local officers in Northern Texas as we would in officers in Northern Texas as mecessary Western Texas, if it appeared as necessary rity for life and property is the great object of government, and wherever unual means are necessary to accomplish this, ation. If a force of rangers to patrol the reets of the state capital are necessary to The lives of the people on the a force. officer in twenty will enforce that hav if they can escape doing so by closing their eyes to the offense. For this reason many men who are opposed to the practice, and who would riadly lay aside their weapons, go armed to be prepared for any emergency that may arise. Not having confidence in the officers of the law, they believe it their duty to look out for themselves. Had the late Shoriff Wilson, of Palo Pinto county, been a law-abiding man he would not have carried a revolver about his person at Austin, and to-day would have, doubtless, been alive and well. Had the officers at Austin done their duty, they would have disarmed Sheriff Wilson as soon they found he was disobeying the law. It is usaless for those officers to say they did among them for some days, and he could not have well concealed his six-shooter from them. It was "official courtesy" doubtless, that caused their non-interference, and that esy resulted in the death of one man and

the wounding of two others.

The same larity displayed by the authorities at Austin prevails everywhere else in the state. It is well known that especially among the email most interpret to create trouble, the practice of carrying arms is almost uni-versal, yet we seldom hear of an arrest for this affense, unless the offender commits some other misdementor, and then the bay may be enforced with an apology from the officer. It is useless to expect those disposed to be law-abiding to place themselves at the mercy of the lawless, and for this roason

A NEW IDEA.

The Austin Stateman never feels exactly heories. It now says "a governor is elected to execute the laws of the state, and to carry tionable whether his personal likes or dislikes should impede legislation." Where the Statesman secured such an idea we fail to anderstand. There is nothing in the administration of public affairs during the past quarter of a century at least to warrant such a bold and startling proposition. The prevailing idea seems to be that any officer lected by the people is placed in position to reward his political friends and punish his political enemies, no matter how the public interests may be effected. If such in not the case, then steps should be taken to enlighten office holders concerning their duties, for they have shown themselves miraculously ignorant of the purposes for which they have been elected.

However, we believe the idea of the Statesman given above is an excellent one at least it has the appearance of fairness to official make an experiment with that policy.

The Saturday morning, in a heavy mist, and not without regrets, I hade addies todian. Marchaeles, and jogged along towards Now Braunfels. The road paness through what is known as Stringtown, which is nothing but one farm joining another for miles and miles. The husbandmen were busily engaged in plowing, sowing and other pursuits preparatory to the coming harvest. Seeing a channe to take a 'cut off' through Jim into a path, and in a few moments, in my front rose from a bush the head of a mountain lion. Calamity throw up his head and gave a sort of snort, and Hans Mickle fove to the bottome. of his saddle-bean and brought to view a Collar six shooter. Here was an opportunity to immortalize mysolf. But on second thought caution prevailed, and knowing my pistole and the same and so I furiously charged Calamity Jim to the nearest house. Again action prevailed, and knowing my pistole and the same of the post where was a very large yellow deg in the neighborhood, thinking that after all it might be only a dog taking a comfortable map. The lady who answered my call first stated that they had no gun, and also that no large "yaller dog" had his habitation thereabouts. Now I was excited—arreely that was a lion. Mr. Antonic B. Peren and Miss Terecita. Cassiano were joined in marriage at 8 o'clock last evening at the cathedral of San Fernando, the Rev. Father Neraz performing the ceremony. The bridal accompaniment consisted of the father and mother of the bride, Mr. and Mrs. Fermin Cassiano, with Dr. F. Ornelas, the Mexican consul at this city, and Miss Kate Cassiano, and Mrs. F. Barvers and Miss Adacida Cassiano, Both these young ladies are sisters of the bride. The scene at the marriage was impressive, the sacred rite being administered and received with the greatest solumnity.

After the conclusion of the ceremony, the party, with quite a number of invited guests, repaired to the residence of the bride's parcents, on Villita street, where a most pleasant reception was given, the utmost courtery and attention being shown to all. The occasion proved an unusually interesting one, and will long be cherished fresh and green in memory. The bride is one of the most churming young ladies in our Mexican society, and the groom, too well known to require any introduction to the public from us, merits the high esteem of his many friends. May the happy couple live only to find, day in and out, through life, at every turn, the most perfect happiness.
