The company was represented at the exponition by its president, and before his departure from Paris he authorized M. Louis J. Alloo, an influential friend and gentleman, to present to the French government the military wagon exhibited by the company at the exposition.

The note of acceptance of the wagon from the minister of war, reads as follows:

Telegraphic Connection with El Paso. Information received by the Express yesterday announced the completion of the military telegraph line to El Paso, on the northern Rio Grande. The line was in working order yesterday from Brownsville to El Paso, the entire length of the boundary line of reas, and also from Brownsville to Banta Fe. New Mexico.

And yet this is but another step in the grand and secossful march of progress which has characterized the Studebaker Bros. since they made their first wagon, twenty-seven years ago. It is perhaps but natural, considering all things, that after an existence of over a quarter of a century, the Studebaker and the world's procession of vehicles.

The Furchase of Eart Clack.

As indicated in our telegrams yesterday, the congressional house committee has recommended the purchase of the military post of Fort Clark by the government. This property, embracing nearly 4,000 acres, is owned by Mrs. M. A. Maverick, of our city. It was first made the location of a military post in 1832, being leased to the government for a period of twenty years, with the privilege to give it up at any time. But on account of the eligibility of the location as a convenient base of border military upcrations, it has been retained and about \$110,000 worth of necessary buildings have been rested upon the sits. These, under the original contract, became the property of the Maverick estate at the expiration of the term for which the grounds were leaved, 1872. The government has been inclined to make the purchase for soveral years, and will undoubtedly do so before the adjournment of the present congress.

Pure Durham Stock. Pure Burham Steck.

Our reporter on his rounds yesterday dropped into the lot next to Sappington's stable to look at the stock of pure Durham bulls and heifers imported by Col. George B. Payne, for sale in this market. The stock, though wearied by their transportation, looks in spiendid condition, and speaks volumes for the success of our Western Texas cattle trade, as they are by far the finest cattle that we have ever seen in this country. Col. Payne deserves to succeed in his encattle that we have ever seen in this country. Oct. Payne deserves to succeed in his endeavors to improve the breed of western cattle, and just so soon as our cattle men get to thoroughly appreciate the value of having pure blooded stock of asknowledged pedigree for breeding purposes, then, and not till then, may we expect our western cattle to be sought after, as they should be in the markets of the north and east, if not even in those countries where we are just beginning to open an importation trade.
