It is nestled between the mountains, though cocupying a position twelve thousand fost above the level of the sea, where the sit is so ravified that the newcomer is often forced to succumb after the least exercise. It was here where there was so much excitement over the mining question in 1869, and there are still many flumes of that day remaining. Leadville is growing rapidly, though the buildings are not substantial. They are made from lumber imported from Chicago, and that sawed in the vicinity which is manufactured from the mountain cedar. Until last January a year ago, it was not known that there was silver in the vicinity of Leadville, but about that time

both gold and silver, all about Leadville. The new gold discovery at Grantia, ten miles from Leadville, about a month ago, occasioned a big excitement. Claims are at once bought up by ospitalists, who have their agents there looking out for chances. Capital is not wanting to make the purchases, for there are lots of men there who have sums of money from \$25,000 up who find no opportunity to invest it. Eliners practice all works of sharp games to take in strangers.

A General Court Martial will convene at Fort Davis, Texas, on Monday, the 28th day of April, 1879, at 10 o'clock, A. M., or as soon thereafter as practicable, for the trial of such persons as may be properly brought before it. Detail for the Court: Captain M. L. Courtney, 25th Infantry; Captain T. C. Lebo, 10th Cavalry; First Lieutenant D. B. Wilson, Adjutant 25th Infantry; First Lieutenant H. H. Landon, 25th Infantry; Becond Lieutenant C. G. Ayers, 10th Cavalry, First Lieutenant C. N. Gray, 25th Infantry, is appointed Judge Advocate of the Court.

Second Lieutenant G. L. Rousseau, 20th Infantry, and Becond Lieutenant J. R. Rich-Infantry, and Becond Lieutenant J. R. Richportunity to invest it. Miners practice all sorts of sharp games to take in strangers, offering for sale worthless claims and inducing men to go into enterprises which are without any chance of proving remunerative. Other startling discoveries are expected to be made in the country about fifty miles west of Leadville as soon as the snow melts and man are analysis for prepared.

Second Lieutenant G. L. Rousson, Foth Infantry, and Second Lieutenant J. R. Rioh-ards, Jr., 4th Cavalry, are detailed as ad-ditional members of the General Court Martial Instituted by paragraph II, Special Orders No. 30, current series, from headwas organised a few wock; ago. It is composed of Yony Wells, of Louisville, J. C. Douglass, of Beguin, and E. G. Smith, William Guller, W. A. Davidson, Phil. Peters and mycelf, of San Antonio. We have a claim and have called our mine the "Little Lottle." It is situated in the Big Evans guich, four miles from Ladville. It is being developed as fast as possible. Every member of the company must either work himself, or employ some one in his place all the time. The vicinity is noted for its rich mines, and we expect a bounness.
