Unlike professional opera singers, our company's last night was its best. There was an improvement in costumes and general stage appearance, while the acting and singing were better. Indeed, the entertainment last evening was truly grand, and affording evidence of what progress the amateurs had made during their brief experience, also afforded a most striking indication of their possibility of attaining the acme of opera singing.

A Good Meve.

Mr. L. H. Byrn, contractor for sprinking Main plaza, yesterday put into use a large water-wagon with sprinkler, and layed the dust after a proper manner. Some time ago, the city employed parties to sprinkle the public squares from the hydrants by using hose, a privilege which it is very doubtful there was any right to grant, besides being a very poor way of doing the business. Forsons who use water during the night, and who pay for the privilege of doing so, have thus been greatly interfered with. For instance, the Expanse company has been put to trouble and expense, and has been in constant danger of having great damage done to its large press, by the sudden decrease and increase of pressure consequent upon the use of hydrants for the purpose above mentioned. But, aside from any self-interest in the matter, the privilege granted to use the fire hydrants for general street sprinkling purposes is condemned as a bad one. A Good Move.

Malice Again Conquered.

In the district court, yesterday, the young man Cartey, who was acquitted of the charge of stealing a horse the other day, was again arraigned on the charge of having stolen to the amount of upwards of \$20 worth of property. After hearing the evidence in the case, that is, on the part of the prosecution, for the defense introduced none, Judge Noonan informed the state's attorney that he had developed none of the ingredients of theft, and turning to the jury ordered a verdict of acquittal to be found. The principal prosecutor in this case, as in the former one, was M. M. Seay, who has been unable to sustain any of the allegations made in the indictment when placed upon the witness stand. There are three cases yet pending against Cartey before Justice Symington, all of which, it is said, will be proven equally groundless. The case is generally considered an outragoous malicious prosecution.

It was stated that some woma residing in the fourth ward had a step Upon the most trivial acts of displeasure, the step-daugher, it is said, has been assailed and beaten with whatever might come in reach. Off for Washington.

Judge Upson bade his friends of the city good-bye yesterday, and left on the afternoon train for his congressional labors in Washington. His certificate of election will be issued on the 26th, and sent to him at Washington, where it will arrive about the last of the month. Among other matters of interest to the people of his disiriet, that of stocking the San Antonio and other rivers with shad and other kinds of rapidly-multiplying fish, has been urged. Judge Upson will undoubtedly endeavor to secure us these benefits.

Otherwise, he might have no longer been in the land of the living.
