WEST TEXAS COAL.

OR QUALITY OF BITUMI-

Which Can be Fred for Gas and Smelt-

The Express noticed a few days ago the arrival at this office of a specimen of coal from Maverick county, near Eagle Pass, the being owned by James W. Riddle, of Eagle Pass. Considerable interest was manifested by parties here, and several specimens were taken away, among which was one by Mr. A. Michael, of B. Oppenheimer, a Co., who took it home and by applying the proper process produced what proyed to be a very superior article of coke. Several specimens of this coke were taken to different blacksmiths and iron men, who pronounced it equal to that produced by the famous Pittsburg coal, and capable of smelting any kind of ore.

The coal haw but very little sulphur in it, which makes it desirable for blacksmithing. Several blacksmiths have said they would be glad to get it at reasonable terms, as the Pittsburgh coal is held at such exhabitant.

which makes it desirable for discassinating.

Several blacksmiths have said they would be glad to get it at reasonable terms, as the Pittsburgh coal is held at such exhorbitant figures as to be almost beyond their reach.

It has not yet been tried for gas, but competent judges prenounce it a good article for the purpose of making gas, and see no reason why as good gas could not be manufactured from this coal as from any in the coal as

A MONK'S DISGRACE.

ASES TO BE LET LOOSE IN ORDER THAT HE MAY BE-COME A HERMIT.

A dozen attorneys gathered about the bar of the criminal court at 11 o'clock this morning when the case of Gustave De Rohan, alias Rev. Van Hoagland, alias Father Gaston Dominique, and numerous other aliases, was called. On yesterday afternoon the prisoner pleaded guilty to a charge of forgery in the second degree and threw himself on the mercy of the court, and this morning the sentence was to be passed. The prisoner is a monk of the Trappist Order of Montreal Canada, and has since 1870, been the sentence was to be passed. The prisoner is a monk of the Trappist Order of Montreal, Canada, and has, since 1870, been

He would spend a few weeks in every city, and, being a smooth conversationalist, ingratiate hraself into the good graces of the pastor with whom he invariably stopped, and after assisting him in all of his multitudinous duties, would either borrow a sum of money under the plea that he wished to return to the convent at Montreal, or else steal a few chalices or some of the gold and silver service of the church and take his departure between two days. Editors San Antonio Express:

In your issue of the 16th inst. there was published an article headed, "They have no Pear," We desire to state that the assertions therein made are founded on no truth whatever. In the game of base ball played between the Anchors and Atlantics last Sunday only sight of the Anchors were present. The ninth being absent, it was our intention to postpone the game, but this the captain of the Atlantics did not agree to. He consented to our picking a certain man from the crowd to make up the nine. Since then we learn from a member of the Atlantic less that the party who wrote this article was made sport of for his bad playing, and sought revenge by publishing a card in the Express.

After the above had been placed in type, a young man called at the Expuses office and rather nervously inquired what hat been said about the matter—also wanting to say the strength of whose information and item published a few days ago had appeared. After being satisfied the beet he could be, the young man stated that he represented the interests of a telegrapher at the matter—that Sterling had received funds or aid-from the Houston man in the purchase of a \$1600 ranch, and it was his mission to endeavor to prevent his friend from being swindled. From what the young man stated, the interest of his Houston friend in the ranch, about \$800, was in danger of \$1600 ranch, and it was his mission to endeavor to prevent his friend from the ranch, about \$800, was in danger of \$1600 ranch, and it was his mission to endeavor to prevent his friend from the ranch, about \$800, was in danger of \$1600 ranch, and it was his mission to endeavor to prevent his friend from the ranch, about \$800, was in danger of \$1600 ranch, and it was his mission to endeavor to prevent his friend from the ranch, about \$800, was in danger of \$1600 ranch, and it was his mission to endeavor to prevent his friend from the ranch, about \$800, was in danger of \$1600 ranch, and it was his mission to endeavor to prevent his friend from the ranch, about \$800, was in danger of \$1600 ranch, and it was his mission to endeavor to prevent his friend from the ranch, about \$800, was in danger of \$1600 ranch, and it was his mission to endeavor to prevent understance of \$1600 ranch, and it was his mission to endeavor to prevent his friend from the ranch, about \$800, was in danger of \$1600 ranch, and it was his mission to endeavor to prevent understance of \$1600 ranch, and it was his mission to endeavor to prevent was friend from the friends of the way from fifteen to two ty-three developments and the way from fifteen to two tranch and the way from fi
