Information has reached the Expasss from Matamoras, Mexico, of several bloody dramas that have been enacted at that place recently. During the early portion of the present month, a difficulty occurred between several soldiers, during which one of the combatants was stabbed and sliced to pieces with a knife, dying from the shocking wounds inflicted. Shortly after this, an officer of the Mexican army drank too freely of mescal and became intoxicated. He got on a high horse, and cursing and abusing people, rode about the town. The police followed and finally overtook him as he was entering another saloon, demanding that he surrender. As the fellow had been used to having his own way elsewhere, he didn't propose to allow the peace officers of Matamoras.

He appeared despondent, and morbid, and reproached himself with not having performed any good in his life, and desired to live that he might accomplish some good with his abundant means. He never betrayed any desire to
