THE SMALL-POX SCARE.
 Suggestions and Opinions of Competent Physicians as to the Prevention of the Spread of the Disease—Report of the Council on Small-Pox Control.

We, the undersigned physicians, having been invited to a meeting at the mayor's office, August 23, 1919, convened to adopt measures to prevent the spreading of small-pox, respectively under the following suggestions and opinions:
 1. We consider the actual number of small-pox patients in our city very small, in proportion to the number of inhabitants (one case in 1800) and much smaller than during the epidemics of 1863 and 1842.
 2. We believe that the city government has acted promptly and according to established principles of sanitary law, in all cases of small-pox which were under their entire control, and which occurred among papers, and such negroes and Mexicans who were willing to submit to isolation for the purpose of preventing its spread, for instance, removal to post houses, etc.

We believe that the city government cannot be held responsible for the consequences of official concealment of small-pox patients in families over whom it had no control, which concealment undoubtedly contributed to the spread of this disease, as well as the panic created in the public mind. We have no objection to the publication of the fact, as long as the number of concealed cases were much larger than it actually is.
 3. We suggest the strict enforcement of the laws regarding small-pox, and the recommended heavy fines, when such cases are knowingly concealed, either by families or physicians.
 4. The removal to the city of small-pox patients from the infected houses for at least two weeks after the recovery of the patient is, in our opinion, not to be removed until the house has been thoroughly disinfecting by sulphur smoke.

5. Vaccination being the only reliable method of preventing the disease, we suggest a regular and thorough-going system of vaccination to be carried on by the city physicians. We suggest the application of the patriotic speech of private physicians, and request them to vaccinate anybody who may call upon them without remuneration.
 6. We recommend the city authorities to find out if good hygiene matter can be obtained from our native stock, and to require of Mr. Beckmann, who has reported, but whose vaccine disease among his cows, whether he can furnish any matter from his own stock, or if not, to secure the same from the State of Texas, as the distribution among the physicians of this city is uncertain, and by the use of such crust, necessarily, as a pasteurized cow milk, and vaccinated with such lymph is uncertain, and neither can be as well controlled as when the lymph is taken in the liquid state from a healthy person who has not been vaccinated before.

7. The lymph of one child twenty persons can be used in five days, four hundred, and in ten days nearly eight hundred, which is more than required.
 Dr. F. Haase, Aug. 23, 1919.
 Dr. B. Haase.

San Antonio, Aug. 23, 1919.
 Your committee to whom was referred the small-pox question has attended to the duties assigned them, and beg leave to report the following: We found that the reports of (or rather rumors) the prevalence of the disease in this city, were entirely unfounded. In fact, we found that there are but sixteen cases all told in the city, which is less than one to the thousand inhabitants. We also find that in our liquid state from a healthy person who has not been vaccinated before.

FOUND DEAD.
 James R. Bennett of Victoria county, Dies in His Ambulance.
 Yesterday morning about six o'clock the body of a man was found lying in an ambulance near the fourth ward station house, and reported to Justice Symington. The man's name proved to be James R. Bennett, a citizen of Victoria county. A hearing was held upon the body, Justice Symington presiding, at which the following facts were elicited:
 Dr. Menger stated briefly, but positively, that deceased came to his death from consumption, but he was found in an ambulance near the fourth ward station house, and reported to Justice Symington. The man's name proved to be James R. Bennett, a citizen of Victoria county. A hearing was held upon the body, Justice Symington presiding, at which the following facts were elicited:
 I heard him snoring in the ambulance, and when I awoke this morning I went to foot of the ambulance, and when I found him lying on his left side on his left arm. I called him, but he did not answer me, when I saw that he looked mighty blue. I went then, called Mike Reigan and told him I thought Mr. Bennett was dead. I have known deceased since he was about six years old. I did not drink only when he came to town. I have never heard him breathe to take his life, or see him breathe. The remainder of the testimony was not materially different from that above, and in conclusion we simply append Dr. Menger's evidence.
 I hereby certify that this date I made a post mortem examination of a certain man, on the body of J. R. Bennett, with the following results: Deceased was a robust man, 49 years of age. His body appeared cyanotic, and the stomach was covered with food and liquor. The latter contained liquor. The tissues of the stomach were very highly congested, and showed signs of hemorrhage, and also the lungs were very much congested. There exists no doubt as to the fact that the man died of the disease of the lungs. The cause of death was pulmonary tuberculosis. He was a native of the State of Texas. M. J. Moxon, City Physician.

Friday Church Entertainment.
 The ladies of Trinity Methodist Episcopal church will give a social and promenade entertainment on the evening of the 29th inst., in the large, new building, now under construction, located on the south side of Houston street, between the bridge and the corner of Soledad street. This large building, 100 feet by 20, has been rented for the Milburn wagon company as an addition to their present warehouse on Soledad street, to give better facilities for carrying on their extensive business which seems to grow apace with the energy of its management.
 The ladies of Trinity church have the free use of this building, the 29th and 30th inst., through the great kindness of Mr. L. M. Carpenter of our city, who is the courteous, genial manager of the Milburn Wagon Company for western Texas. It is the intention of the ladies to give a very pleasing and attractive entertainment, consisting of music, both vocal and instrumental, by some of the best musicians and singers. Mrs. Alice Denton Allen will have kindly consented to give some of her choicest selections on the piano forte, and it is always a source of pleasure to those who are present whenever she comes before the public. Some novelties will be introduced into the entertainment. There will be a Turkish dinner with water, and a Turkish hot lemon dressing coffee and lunch; Jacob and Rebecca, dressed in Oriental garb, will be at the well, ready to quench the thirst of visitors, and with something better than the water they afford. Ice cream and cake, and all the frolic of the season will be provided for the attentive waiter. It seems that in all respects the ladies of Trinity church mean to give a most pleasurable and satisfactory entertainment.

CENTROUS CITIZENS.
 They Meet and Speak on the S. P. Question.

A meeting of citizens was held last evening in the county court room to take steps toward giving the city authorities the stopping power of small-pox. R. D. Bauser was made chairman of the meeting, and N. J. F. French secretary.
 Upon motion a committee consisting of George Paschal, A. W. Houston, H. C. Barrow, S. G. Newton, F. O. Smith and Edwin Paschal, was appointed to draft resolutions expressive of the meeting.
 The committee retired, and after quite a prolonged session returned, submitting a majority and a minority report. The majority, Messrs. Houston, Newton and Bruce, recommended that the meeting signify upon the city authorities, the necessity of using every means to prevent the spread of the disease, and asked the county commissioners to co-operate with the city officers to stop the disease in its tracks. The minority, Messrs. Paschal, Barrow and Paschal, severely censured the city physician for dereliction of duty, and called upon him to resign. They also urged the enforcement of strict rules to prevent further spread of the maldy.

After hearing both reports, the minority report was considered by section and adopted with amendments.
 A committee of three was appointed to prepare a resolution on the minority report. The committee consisted of Mr. D. Wilson, the well-known tobacco drummer of St. Louis, is putting up at Hotel's.
 Mr. A. Heiner, with A. Morris, will leave for New York tomorrow to purchase a full stock of goods.
 The following transfers of real estate have been recorded in the office of the county clerk today: For \$1000, to Frank J. Centrous Citizens.
 They Meet and Speak on the S. P. Question.

A meeting of citizens was held last evening in the county court room to take steps toward giving the city authorities the stopping power of small-pox. R. D. Bauser was made chairman of the meeting, and N. J. F. French secretary.
 Upon motion a committee consisting of George Paschal, A. W. Houston, H. C. Barrow, S. G. Newton, F. O. Smith and Edwin Paschal, was appointed to draft resolutions expressive of the meeting.
 The committee retired, and after quite a prolonged session returned, submitting a majority and a minority report. The majority, Messrs. Houston, Newton and Bruce, recommended that the meeting signify upon the city authorities, the necessity of using every means to prevent the spread of the disease, and asked the county commissioners to co-operate with the city officers to stop the disease in its tracks. The minority, Messrs. Paschal, Barrow and Paschal, severely censured the city physician for dereliction of duty, and called upon him to resign. They also urged the enforcement of strict rules to prevent further spread of the maldy.

After hearing both reports, the minority report was considered by section and adopted with amendments.
 A committee of three was appointed to prepare a resolution on the minority report. The committee consisted of Mr. D. Wilson, the well-known tobacco drummer of St. Louis, is putting up at Hotel's.
 Mr. A. Heiner, with A. Morris, will leave for New York tomorrow to purchase a full stock of goods.
