by Committee on Military Affairs.

This motion was lost and the resolution adopted by a vote of 36 to 26).

At one p. m. the sente went into executive session, and when the doors were reopened adjourned.

Washington, December 10.—The house convened at 12:40 p. m. Owing to the number of bills introduced yesterday, the reading of the journal was not completed. After the reading of the journal, Burrow, of Michigan, introduced a joint resolution which was referred, proposing the following amendment ito the constitution: Article—Polygamy shall not exist within the limits of the United States, or any place subject to their jurisdiction. Section 2.—Congress shall have power to enforce this article by appropriate legislation.

pr. bibiting political contributions by federal officers and government contractors. After a short discussion it was agreed that the bill be taken out of the morning hour and made the special order for January 7th.

The speaker then proceeded to the call of committees for report. Acklon, of Louisians, from the committee on commerce, reported a bill authorizing the appointment of a deputy collector at Lake Charies, Louisians. Passad. Wait, of Connecticut, from same committee, reported bill amending section 2771 revised statutes as as allow any vessel not of the United States to unload at any port of delivery in a custom collection district after delivery of saffing vessel and cargo at a port of entry in some district. Pending action on the bill, the mercing hour expired and the house went into committee of the whole on the bill relating to the publication of supreme court separate which was finally fixed at \$4,000, after which the committee rose and reported the bill and amendments to the house. The amendments were agreed to and the bill passed.

CENSUS SUPERVISORS. Washington, December 9,—Texas gets six pervisors of the census—more in proporwashington, December ?, —Texas gets air supervisors of the census—more in proportion to her number of congressmen than any other state. This is a concession to the supposed vast increase of her population. The president will make numbrations for superivisors soon after the holdays. Applications for indorsement of Texas members and son ators are numerous. It has been agreed by them that each member shall name a candidate for his district whose application shall

them that such member shall name a candidate for his district whose application shall be indopsed by the entire delegation. What strength this may have with the appointing strength this may have with the appointing power remains to be seen. Maxey Binks if will have great weight, but, judgins by the past, it is thought not, except where republicans are indorsed, especially since the probable increase of congressmen gives to the census of Texas a greater political importance than that of any other state. It is learned that one Vanvieck has been designated for the first district by Rasgan; Wm. Bramlette, of Honey Grove, for the second district by Culberson and Maxey; and Ed. H. Callaway, of Galveston, for the fifth district by Jones. The isst named being the republican departy United States marshal, will probably get the appointment. Jones says Callaway, being strongly, repummanded by ex-Gov. Habbard to Sanators Coke and Maxey, was accepted by him. Bramlette was a candidate for commissioner of the land office before the last democratic state convention. Selections for the other districts have doubtless been made, but sending a relative to the democratic state convention.
