THE WATERWORKS COMPANY PRESSURE.

nrdenera Protest Agatost Having Their Irrigation Privileges In-Tringed Upon.

The low condition of the river, and the extraordinarily large demand for water from the irrigation ditch on the east side of the river, at the present time, has resulted in the decrease of the pressure of our water, works from sixty to thirty, the pounds to the square inch. Yesterday, there were many and loud complaints, especially, among persons using water from the waterworks at the extremeties of the mains and from banch pipes. decreased since the operation of the water-works. One gardener stated that it had fallen short fully half, and another did not think there was more than a third as much as formerly.

It has been thought by some that the dam

at the head of the ditch could be repaired, so as to increase the flow of water, but inspection develops the fact that but a few small streams now proceed from the dam, which is very well constructed, and so no remody can be locked for from that directions.

R. RINGSBURY AMONG THE EN-

they Reartily Welcome Him, and he dorse What He Has Been Saying and Doing for West Texas.

Editors San Antonio EXPERS;
A few days ago our English settlers learned that Dr. Kingsbury had srrived home, and at once set about to have him come up and meet them as soon as his time would perult. Accordingly, they sent a deputation down to Boerne (the Doctor's home) and extended through said committee a cordial invitation to spend a day with them in Kerrville, where they could all meet and express themselves in the Doctor's presence. The Doctor named Tucsday, July 6th, as the most convenient, and upon his reaching there he named Tuesday, July 6th, as the most convenient, and upon bis reaching there he found a large number of friends assembled to meet him and encourage him by the following brief but pointed remarks. Upon the assembling of the meeting, Mr. N. E. Atchinson was railed to the chair. Mr. A. thanked the assembly very kindly for the honor, and then warmly culogized Dr. Kingsbury, and spoke in the highest terms of him in connection with his efforts to secure English immigration to Texas. He said it had been a long time since he had felt such delight in meeting a friend as he this day experienced in meeting with Dr. K., the man who first advised him to come to Texas.

stock country, and that their firm intended to yearly increase their flocks.

Mr. John A. Bonneil was called and said that he came from Ohio, an invalid, but in San Autonio he got a letter of introduction to Dr. Kingsbury, and had found in him a a-true friend to those seeking homes in wes-

a whisper, and that when he came here five years ago he invested about \$5000 in a ranch and atook and that he supposed that to-day Mr. Bonnell would laugh at an offer of \$10,-

Dr. Parsons was called, and said that he came to Kerr county four years ago from the state of Illinois, a confirmed invalid in the state of Illinois, a confirmed invalid in the second stage of consumption. He had the second stage of consumption. He had now almost entirely recovered, and thought that there was no place in the United States that offered so many advantages to a person with limited means as this great country of with limited means as this great country of Texas. Puhh & Soo, and planted it on the 24th of March, after having soaked it over night in copperss water. From this planting he picked some seed corn on the 24th of June, just three months from the time the seed were put in the ground. Wednesday last he picked several more ears, and among them one which has twenty-four rows of from forty-six to fifty-two grains on each row, making about 'twolve hundred grains to the ear. Mr. Mackey has no doubts of making farming in this country pay, and he thinks there's no such a land under the sun as western Texas. He is a man of energy, tries to help himself, and hence the secret of his success. We want niore Mackeys, and then we'll have a better

The news from Lavernia is that nothing further has been heard of Neason, who has escaped. It is hoped the rangers may pick him up. The sheriff has done all in his power to capture him, but without avail.

The people of Lavernia are having trouble with their mail from Marion. Dr. McMahoe, who war postmaster, was killed by Neason, and the carrier now refuses to deliver the mail to his deputy, who had seted postmaster for a year past. The people are greatly inconvenienced and put to much trouble by the carrier's active.
