Probability of a Dark Horse to Beat the Old Alcalde—Members of the Press Handsomely Entertained.

Special Dispatch to the Daily Express.

Dallas, August 9.—The city is very lively on this, the last evening before assembling of the state democratic convention. Delegates have been arriving on every train, and nearly the entire number is present. The city is gally decorated, flags streaming from house-tops and windows. Nearly every loading politician is the state is present. The great and predominating interest is in the momination for governor. Those opposed to Roberts, the present executive, and whose supporters claim he will be nominated on the first ballot, are demoralized and completely at sea. There was a caucus of anti-Roberts delegates this evening, but nothing of in-portance was done. Lieuten and Governor Sayers, the only opposing can didate against Roberts, acknowledges he has no show, and the only chance to best Rioberts, who is unpopular with the progressive element of the state, is for some such promiment man as Congressman Reagus, ex-Governor Hubbard or ex-Governor Throckmorton to be brought out as a dark horse. The two-thirds rule governs, which requires three hundred and seventy votes to nominata. Two hundred and forty-nine votes are claimed for Roberts delegates this afternoon, the following slate was made: For governor, O. M. St. Petersburg, August 9.—It is generally believed here that the sole object of the mission of Marquis Tzng, Chinese envoy, is to assure the Russian government of the peaceful intention of China, and to request the despatch of an ambassador extraordinary to Pekin to settle all disputes between the two countries.

London, August 9.—The Marquis of Hartington, secretary of state for India, stated in the honse of commons this evening that the government will persevere with the employers' itablity, hares and rabbits, burnals, and savings bank maney order bills. The Indian budget, he said, would be presented on the 17th instant, but the government can not fix a day for the closing of the session of parliament. Beplying to a question, the Marquis of Hartington said the government's intention to withdraw from Cabul had been formed before Gen. Burrows' defeat, which does not, according to the opinion of the Indian or home government, justify deferring the withdrawal. Gen. Stewart, he said, fully concurs in believing that all objec's have been attained, and that a longer stay in Cabul is unnecessary. No information has been received regarding the reported capture of Chaman Choki by Afghans.

It is a strange, strange country, and I cannot more correctly convey ny impression of it than by quoting the remark of a Teuton who came to Austin in the early days. The ineightent is related by Col. J. M. Morphis in his inheresting history of Texas. The German arrival had gone out a little ways from the city, and on his way back the Indians gave him a chase. He reached town with one arrow through his arm and a second in his back, and fell unconsecious in the first doorway reached. His first exclamation upon recovering connectourses fits this case as well as it did that, or as the tramp said of the invitation to dies, it is both beautiful and appropriate: "Mine grachious, vot a Texas."

Our Public High School.

The course in our public high school is intended to be one of four years. The course for the first two years will be instituted this year, and is as follows:

Preparatory class first year, first term—Algebra, Physical Geography, Ancient History or Book keeping, Latin, English, Analysis, or German.

Second term—Algebra continued, Physical Geography completed, Modern History, or Book-keeping, Latin, English, Analysts, or German.

German.

Junior class, second year, first term—
Higher Algebra, Natural Philosophy, Roman History, Latin, Rhetoric, or German.
Second term—Geometry, Roman History,
Greek or Chemistry, Casar, Rhetoric, or
German.

Greek or Chemistry, Crear, Rhetoric, or German.

A sufficient corps of teachers will be employed this year in the high school department to take charge of the classes organized. It is hoped that in a few months, when the public high school has reached the ultimate of its curriculum, it will afford such facilities of education to the youth of our city, that it will be needless to send them away from under home influence to secure for them the advantages of a liberal education.

Any person within the scholastic age, who comes well recommended and passes a satisfactory examination on the work of any chasses are the one or the other of the classes already organized.
