Decatur, August 21.—The connty demoeratic convention met to-day. Attendance
large and enthusiastic. Delegates were instructed for Wellborn for congress and Sparkman for the legislature. A straight democratic ticket was determined on.
A fight with shot-guns and pistols occurred
to-night between Cargill, the city marshal,
and Glenn and Kesch Halsell. Oargill shot
twice at the Halsells, and the Halsells returned the fire, shooting Cargill in the side
and accidentally shooting Jerome Shomaker
in the mouth. The Halsells left town, and ment, taste and wealth are given to inddi-ging some particular fancy, mania or hobby to the fullest extent. Some spend fortunes on fine pictures and brice-a-back; some col-lect antique books, both cld and new, while others invest largely in diamonds and other precious gems. And these are hung, chased and cherished, and exhibited to friends and admirers as treasures of the highest order.

Corpus Christi has suffered far more severely than ever before. The visitation surpasses anything of the kind within our recollection, and after witnessing its tury it is ange to re-in the belief that she at least is one city upon the coast secure from the devastating effects experienced by Indianola, and it danger of which Galveston stands contin Corpus Christi Ledger.

During the present month frequent reference has been made to the unusual weather nee has been made to the unusual weather. ence has been made to the unusual weather, altogether at variance with the observations taken in past years. For five or six days at a time stiff northers continued uninterrupted. During the nights brilliant meteoric displays prevailed, enchrouding the whole in something mysterious and portending some unusual visitation. For a few days prior to Wednesday a black cloud traversed the heavens from northeast to southwest, like a black pall, seeming at times desirous of settling down apon this city. But little heed was paid to these apparent warnings, for our people reasoned from past experience and did not anticipate a storm until the latter part of September, the month usually in which our annual equinoctial visits this coast. Reasoning from the past the security felt was but natural, though doomed to disappointment, accompanied by more or less fright as the recollections of Indianola flashed through the mind. On Wednesday afternoon about six o'clock the wind from the northeast blew at an alarming rate and continued through the picht, raising, the tide.

In every other street the water stood from two to four feet in depth. It would be well for the city to consider the importance at this time of securing a general sort of information for public service during the coming decade. In a conversation yesterday with Mr. Max Neuendorf, an Exprass representative was informed that Mr. N. would secure for the public such information, provided he was reasonably remunerated for it. It would be well for Mr. Neuendorf to go to work and induce the city to appropriate that \$365 set apart for that private wall on the San Pedro for the public purpose of securing the ages of the citizens Ethel went ashore on the premises occupied by J. B. Mitchell & Co., and will again be placed in her element without damage.

The Free Belivery System.

It is the desire of a great many of our citizens to have the free postal delivery system instituted here at once. San Antonio, though the second city in the state, in point of population, appears to be at the fag end when the question of pablic spirit is brought up. Dallas, Galveston and other small cities enjoy the privileges of the free delivery system, when such places as San Antonio are left, as it were, in the air. It behooves our city authorities to enact an ordinance requiring the naming of streets and numbering of heuses, preparatory for the delivery system. Yust beyond is the sentoner Lotte, somewhat damaged, but not servously.

Next is the schooner Shoo Fly. Her anchors held until about eight o'clock Friday morning before she reached the shore.

Beyond this, and the last, is the sloop Hannab, broken to pieces and filled with sand od shall.

The Headen warehouse was undermined on the bay side early in the storm and consequently was badly damaged.

Col. Williston's battery of Hotebkiss and Gatlin guns were moved to the Belden warehouse yard just in the nick of time. Subsequently several of the boys in blue engaged in a muldy fight as well as a bloody one, and according to the statement of one of their number every time a man showed his head. —Every little creek west of the city was up during the late rain, and considerable damage was done, wherever they crossed, by washing out the roads. In some places wagons can barely pass even during the day, and traveling at night will be dangerous and disastrous on these roads until they are repaired.

Mrs. Winstew's Scothing Syrup.

Rev. Sylvanus Cobb thus writes in the Boston Christian Freeman: We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winstow's Soothing Syrup we can speak from knowledge. In our own family it has proved a blessing indeed, by giving an infant troubled with toolic pains quiet sleep, and its parents unprochen rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething, its value is From the Worcester Gazette.
