The first demand, for cysters reaches the dealers from the hotels, which consume great quantities of the succulent bivalve.

The Shrewsbury oyster has been uriving in New York since the 15 instant. The law forbids the gathering of Blue Points before September 16.

A professor stated recently in an essay before the New York oyster commission that 6,000,000 cyster eggs may be stowed in the space occupied by a watch-spring!

There are branch American cyster depote now in London, Liverpool and Havre, and 150,000 barrels will be shipped thence during the coming season.

Some dealers in Ban Francisco, where the Eastern cyster is preferred to the native, have lately ordered seeds from the east, which thrive very well on the rocky fottoms of the Pacific. Last year over 15,000 barrels will seed oysters were sent there for replanting.

The first shipment abroad of cysters was made in 1875, when a few barrels were sent and constantly increasing export trails. The number of them engaged in the business is increasing.

 If there is anything in this life that will give one a foretaste of hell, as some represent it, that thing is neuralgis. It is the refinement of torture. But there is a simple and inexpensive remedy for it. Johnson's Anodyne Liminent annifed up into the head will give instant relief.

 The Collignon patent folding rocking chair is something new, mat, cheap and comfortable, and just the thing for army officers. It takes up not more than one-fourth the space chairs usually occupy in houses, offices, etc. Can be had of.
