Few Facts from Headquarters Abon

The reporter of The Express has not, as some are endeavoring to make appear, attempted to get up a groundless mad dog soare. He has simply published facts as they occurred to his own knowledge or were received from good citizens. Some have argued that dogs will not go mad this time of the year; that mad dogs did not go near water; that they must foam at the mouth, etc. To settle these points, the reporter offers a few extracts from Dr. Bock's work, translated from the original. Dr. Bock certainly sustains the reporter, in spite of the 'knowing' local authorities. It may also be stated that Dr. Bock is authority, and rules, as every intelligent German knows:

Hydrophobia, a dicease of aulmals, translated.

Hydrophobia, a direase of animals, trans-red by wound into mankind, re-produces disease, but is still enshrouded in uncertainty. It is also positively uncertain how the disease originates. In the animal medi-cal college of Berlin, after long experience, the following results in connection with mad logs have been ascertained: The madness of a dog does not alone oc-

I am perfectly certain, from her statements, that she purposed to commit suicide; shortly afterwards she commenced vemiting blood, and showed by other symptoms the corrosive action of the poison; everytting went on as would be expected from poison of that character, until death relieved her, evidently caused by inflammation of the greater portion of the digestive parts. The deceased was evidently deranged in her mind, as she feared that everyone around her was

Warren, Ohio, September 28.—General Grant, who presided at the republican meeting in this city to-day, read a wristen seeting i

the democratic party does not promise the If it does it has broken its promise to the extent of hundreds of millions, as many northern democrats can teastify to their sorrow. I am a republican as between existing parties, because it fosters production of field and farm and of manufactories, and it encourages general education of the poor as well as the rich. The democratic party discourages all these when in absolute power. The republican party is a party of progress and liberality towards its opponents. It encourages the poor to strive to better their condition; the ignorant to educate their children, to enable them to compete successfully with their more fortunate associate, and, in fine, it secures as entire equality before the law of every citizon, no matter what his race, nationality or previous condition. It tolerates no privileged classevery on the property of the secure of the states of this union to-day, which the democratic party control absolutely? The republican party is a party of principles; the same principles prevailing wherever it has a foothold. The democratic party on the security of the government in all its branches. It is for internal improvements at the expense of the government in one section, and against this in another. It favors repudiation of solemn obligations in one section, and the honest payment of its debts in another, where public opinion will not tolerate any other new. It favors fiat money in one place and good money in another. Finally, it favors the pooling of all issues not favored by republicans, to the end that it may secure the one principle upon which the party is almost a harmonious unit, namely, getting control of the government in all its branches. I have been in some perts of every state lately in republicans, to the end that it may secure the one principle upon which the party is almost a harmonious unit, namely, getting control of the government in all its branches.
