Testerday morning's train brought to our eity 43 German immigrants, they being a part of 619 who arrived at Galveston last St. Thursday. The cars left Galveston with 335 for distribution along the line of the San Antonio read, but the demand for labor was so great that but 43 could be induced to extend their journey this far. At Flatonis, the representative of the Galveston, Harrisburg and San Antonio rallway, a Bohemian by the name of F. Russek, induced 150 of this fellow-countrymen to stop and risk their chances. At Columbus, 55 were taken from the train, and o'ners were left at Weimar, Schulenberg and other points along the route. According to accounts from persons who were on the train, at each and every station where the care stopped, citizens in who were on the train, at each and every station where the cars stopped, citizons in search of help to pick cotton and do farm work congregated and urged the immigrants to stop and go to work for them. Under such circumstances, it must be seen that the San Antonio delegation were forced to be vigilant to even bring any of the lumigrants this far west. The names of those who arrived and the places they come from are as follows: Richart Barth, Saxony.

They are a hardy, intelligent set, and come from farming sections. All are used to hard work, are healthy, vigorous and ready to fall into the harness at once—fact, and which cannot be said of the class of immigrants we have been receiving.

Upon the arrival of the train yesterday, the immigrants, mer, women and children, were escorted by Mesers. Steves, Behmann, Kirohner, Barttlingck and others to the immigrants home, near by, where they took quarters. Several of our citizens were found awaiting them, hoping to find help. But few, Dr. Nette, Mr. Steves and one or two others, obtained the class of help they wanted.
